

BX 8951 .A3 Presbyterian Church in the U.S.A. General Assembly. Minutes of the General

HOME MISSIONS.

TWENTY-THIRD ANNUAL REPORT

(The Ninety-first Year from the Organization of the Work)

OF THE

BOARD OF HOME MISSIONS

OF THE

PRESBYTERIAN CHURCH IN THE UNITED STATES OF AMERICA.

Presented to the General Assembly, in Washington, D. C., May 18th, 1893.

Eresbyterian Louse:No. 53 FIFTH AVENUE, NEW YORK.

1893.

MEMBERS

OF THE

Board of Home Missions of the Presbyterian Church,

IN THE UNITED STATES OF AMERICA.

The term of service of the following expires in May, 1894.

MINISTERS.

REV. JOHN HALL, D.D.

- D. STUART DODGE.
- LYMAN W. ALLEN.
- JOHN W. TEAL, D.D.

LAYMEN.

GEO, R. LOCKWOOD.

TITUS B. MEIGS.

GEORGE H. SOUTHARD.

The term of service of the following expires in May, 1895.

MINISTERS.

REV. THOS. S. HASTINGS, D.D.

- " CHAS. L. THOMPSON, D D.
- JAMES S. RAMSAY, D.D.

LAYMEN.

JOHN CROSBY BROWN.

DAVID B. IVISON.

WALTER M. AIKMAN.

ROBERT HENDERSON.

The term of service of the following expires in May, 1896.

MINISTERS.

REV. THOMAS A. NELSON, D.D.

- JAMES M. LUDLOW, D.D.
- GEORGE L. SPINING, D.D.

LAYMEN.

JOHN S. KENNEDY.

JOHN E. PARSONS.

HENRY E. ROWLAND.

CHARLES E. GREEN.

OFFICERS.

Rev. JOHN HALL, D.D., President.

WM. C. ROBERTS, D.D. Corresponding

Secretaries.

D. J. McMILLAN, D.D. O. D. EATON, Treasurer.

OSCAR E. BOYD, Recording Secretary.

Rev. GEORGE F. McAFEE, Supt. of School Work.

THORNTON B. PENFIELD, Young People's Dept.

Presbyterian House,

53 Fifth Avenue, New York.

BOX L, STATION D.

HOME MISSIONS.

THE TWENTY-THIRD ANNUAL REPORT.

The Board of Home Missions takes pleasure in presenting to the General Assembly its Twenty-third Annual Report—the ninetyfirst year since the organization of the work of Home Missions. In the review of the year it finds many reasons for gratitude to God for His signal blessings to its own members, for His goodness to the home missionaries, and for His grace to the generous friends who have supplied the treasury with the funds necessary to meet the expenses of the year. Whilst the Board recognizes the loving hand of the gracious Father, it becomes its painful duty to record the death, on September 9th, 1892, of the Rev. Henry Kendall, D.D., sole Secretary of the Committee of Home Missions of the new-school branch of our Church from its organization to the Reunion, and one of the Secretaries of the Board of Home Missions from the Reunion to his death. He was recognized, not only by his co-laborers in the Board, but by all who knew him, as a man of the highest character, of unusual organizing powers and of great intensity of purpose. These, among other qualifications, led to his appointment as a Secretary of the Board that has in charge the important duty of evangelizing our land. Board's appreciation of his qualifications for this post cannot be better expressed than in the language of the Minute passed by its members after his death. "His was a strong and large nature. He took broad and comprehensive views. He made himself familiar with local peculiarities throughout the whole broad field, and he kept them all in mind and heart as he led us on in aggressive work. His nature, though outwardly rugged, was always tender, full of sympathy and affection. The troubles of home missionaries were his troubles. He was strong to bear others' burdens. His judgment was calm and clear and excellent. His convictions were deep and strong. His views were broad and farreaching, but his spirit was always kindly toward those who differed from him. He was honest, true, fearless and faithful to the end. On the platform he was powerful, for his whole soul was in all he said. He moved men, not by arts of rhetoric, but rather by the evident sincerity and earnestness of his speech. Through all the years of his secretaryship his mind and heart were concentrated in a noble devotion to the great work of Home Evangelization. That work was his one ambition, his one passion.

"He had a truly heroic faith and courage. He so believed in God, and in the Presbyterian Church, that however heavy the burden of debt upon the Board might be, and however dark the prospect, he was always hopeful, and always urged us to go forward. Our faith and courage were not equal to his. It seemed that nothing could daunt or discourage him. In darkest days he was bright with brave and cheerful hope. Progress was his life and joy as it was his settled principle. He wanted us to advance in our work even when there was stagnation or retrogression everywhere else. How often did he say 'We cannot afford to stand still; our hope is in progress.' We mourn his absence. With gratitude we remember his long and faithful service. With joy we think of his rest and reward."

It is the further duty of the Board to announce to the General Assembly that another secretaryship was made vacant during the year by the resignation of the Rev. Wm. Irvin, D.D. For nearly six years he gave his time and energy with conscientious fidelity to the perplexing duties of a Corresponding Secretary. But realizing that he was in need of rest, and in duty bound to seek it speedily, he tendered to the Board his resignation at its meeting in December, 1892. It was then accepted to take effect April 1st, 1893, thus enabling him to visit members of his family who were in Europe, and also to recuperate his strength before undertaking new work. Thus the Board has been deprived, within a single year, of the long experience and valuable services of two of its executive officers.

The Board has long felt that the young people of our churches, now thoroughly organized for systematic work, ought to be brought into closer sympathy and coöperation with it in its great work of evangelizing our land. To bring this about, it appointed at its meeting in January, 1893, the Rev. Thornton B. Penfield to take charge of its interests among the Young People's Societies and Sabbathschools. From the Board's knowledge of his peculiar training and wide experience in a similar field, it is convinced that Mr. Penfield will materially add to the strength of the force in the office, and increase the efficiency of our work among the youth of our Church.

In view of the large and growing importance of the Mission School work, the Woman's Executive Committee concluded that it would be wise and economical to have a Superintendent who should devote to it all his time. Accordingly they requested the Board to create such an office and look for a suitable man to fill it. In compliance with this request, the Board, at its February meeting, elected the Rev. Geo. F. McAfee, of Sisseton Agency, South Dakota, Superintendent of school work. From his success as a pastor, synodical missionary, financial agent, and superintendent of an Indian school, the Board is satisfied that he is the right man to manage efficiently and economically the widely scattered and varied school work carried on by the women of the Church.

On the 24th of March, 1893, John Taylor Johnston, Esq., one of the corporate members of the Board, died in the seventy-fourth year of his age. He was a faithful attendant on all the sessions of the Board, so long as his health permitted, a wise counsellor, and a large contributor towards carrying on its work.

The Board also records with sorrow the death during the year of eight of its hard-working and self-denying missionaries. A number of them were permitted to carry the glad tidings of salvation to many of our fellow-citizens who, before their coming, had enjoyed no religious privileges. They fought a good fight, and kept the faith. Their names, we believe, are written in the Lamb's Book of Life. They were:

JOHN S. ATKINSON. CHAS. BONEKEMPER. JOHN A. BROWN. DUNCAN R. CROCKETT. STONEWALL J. DOBSON. GEO. J. REED, D.D. ALEX. WALKER. THOMAS WYLIE. 6

The Board adds that during the past year a number of its liberal supporters passed away to their heavenly home. Some of them left valuable legacies to perpetuate their names, and carry on the work of bringing our land to Christ. Though dead, yet they are still speaking in and through the agencies for good which they set in motion. Not a few of them did what they could for God and their country. The Lord be praised for continuing their lives long enough to leave behind them influences that will benefit all coming generations. It is hoped that others will come forward to fill their places, and help the Board in its future emergencies.

In reviewing the work done during the year, the Assembly's attention is called to the field of missions, the organization of churches, the finances of the Board, the demands made upon it, the hindrances to the work, its growth, the agencies employed, and the prospects in the estimation of those best able to judge.

THE FIELD.

In the extent of its territory the field of Home Missions is prodigious. It is co-terminous with our widely extended country, which embraces more square miles than the whole Continent of Europe. By acquisition, cession and purchase, the country has doubled its area within fifty years. But, until a comparatively recent date. the two-thirds lying west of the Mississippi River was not thought to be of much importance. It has been designated "The Great American Desert," and pronounced by a high authority "not worth a pinch of snuff for agricultural purposes." Within fifty years, Mr. McDuffie, a United States Senator, has declared that "seven hundred miles this side the Rocky Mountains was uninhabitable because rain scarcely ever fell upon it." "West of the mountains the desert extends," says the Edinburgh Review for July, 1843, "from the Mexican border to the Columbia River." Senator Benton of Missouri is credited with saying, "The ridge of the Rocky Mountains may be named without offence as presenting a convenient, natural and everlasting boundary. Along the back of this ridge the western limit of the Republic should be drawn and the statue of the fabled god Terminus should be raised upon its highest peak, never to be thrown down." How different is that which we see

to-day from what we might be led to expect from the above statements of distinguished Senators. Instead of encountering seven hundred miles of arid waste between the Father of Waters and the foot of the Rockies, there lie the great States of Missouri, Kansas, Nebraska, North and South Dakota and Colorado, able to support, according to a fair estimate, all the people of the United States. Instead of finding "a great desert extending," as the Scotch Review alleges, "from the Mexican border to the Columbia River," we meet the noble States of California and Oregon, abounding in fertility and beauty. In place of Mr. Benton's valueless mountains we come across numberless valleys and foothills capable by irrigation of supporting as large a population to the square mile as the rich prairies of Illinois or Iowa. Thus our field of Home Missions will have, in the near future, a population fully equal to one-half the inhabitants of the globe. The possibility of this seems almost incredible, but a careful computation from well-established facts will bring out clearly and unquestionably its certainty.

In its nature our field of Home Missions is unique. In no other land can be found the like of it, except perhaps in the British Colonies. The Home Mission field of England and Germany is confined to the poor of their great marts of trade; that of Scotland is largely restricted to its maritime people and the inhabitants of the islands dotting its coast; and that of Ireland is limited to the Roman Catholics living in a few of the counties south of Dublin. Our Home Missions, on the other hand, embrace millions of the native and the foreign population of our great cities; the sailors of not only the seaboard and the islands dotting our Atlantic and Pacific Coasts, but those also on the shores of our great lakes, and along our canals and rivers; the operatives in the great factories of New England, the Middle States and the West; the farmers and the ranchmen on the great plains of Texas, Kansas, New Mexico and Montana, and along the rich valleys of the Alleghenies and the Rocky Mountains; the miners of Pennsylvania, Wyoming and Washington; the people of the towns along the lines of our railroads; the Indians, the Mexicans and the Mormons who need not only the preacher but the teacher also; and the Chinese who have brought to our shores the idols of their heathen country.

At a conference of the officers of the Home and Foreign Boards, held at 53 Fifth Avenue, March 1st, 1893, it was

Resolved, That the time has arrived when a transfer of the Indian work remaining under the care of the Foreign Board is feasible and proper.

On the 20th of March, 1893, the Board of Foreign Missions formally transferred its missions among the different tribes of Indians in the State of New York and among the Dakotas and Nez Perces to the Board of Home Missions to take effect May 1st, 1893, subject to the approval of the General Assembly.

The Board of Home Missions would recommend that the General Assembly approve the transfer. By this act a work among the Indians involving many thousands of dollars will be committed at once to the care of the Board of Home Missions. Thus our Home Mission field combines in one such work as is done by the City Missions of Great Britain and Germany; the Sailors' Missionary Society of Scotland; the North of Ireland's Societies for the evangelization of the Roman Catholics, and, to a great extent, the work of their Foreign Missionary Boards.

Religiously our field of Home Missions is complex and difficult to cultivate. It is literally overrun with peoples and superstitions from nearly every land. Between 500,000 and 750,000 foreigners come to our shores yearly. Consequently we have to encounter the rankest prejudices of multitudes from the State Churches of the British Isles and the Continent; the priestcraft and idolatry of the Church of Rome; the dead orthodoxy of the Bulgarian, Polish, Bohemian, Hungarian and Armenian Churches; the superstition and corruption of the Church of the Latter Day Saints; the crude faith of the Red Men of the plains and of Alaska, and the pure idolatry of the Chinaman. Our home missionaries have to meet all these and many more corrupt religions. The barrier they offer to Home Mission work is very great and well calculated to call out the cry, "Who is sufficient for these things?"

THE ORGANIZATION OF CHURCHES.

The natural result of Home Missions is the crystallization of communities into congregations that become in time sources of intellectual and moral power. This is seen in almost every part of the land. In a few districts, and under certain conditions of society, it goes on very slowly. Some devoted missionaries in Utah, New Mexico and the Indian Territory, have to spend years in going from house to house or from farm to farm, before their hearers are permitted to worship God in sanctuaries of their own. But even they live in hope of being able some day to gather their scattered people into edifices dedicated to the worship of Almighty God.

During the past year fewer churches than usual were organized in our Home Mission field. The most that the Board was able to do was to seize a limited number of strategic points and a few centres of influence. Scores of promising towns and rural districts were passed by for the want of funds. This has caused us profound regret, because such opportunities seldom come the second time. When they do, the circumstances are not usually so favorable nor the results so satisfactory. This has been the case in growing towns and commercial centres in new States like Montana, Idaho, Wyoming, Washington, and especially in Territories like Arizona, New Mexico and Oklahoma. Within three years from one to two hundred thousand people have settled within the bounds of the last-named Territory. These multitudes have been calling loudly for the preached word and the Sabbath-school. If these blessings are long denied them they will inevitably sink into the common level of the godless around them. In view of the extraordinary demand for new churches, we are sorry to report that only a hundred and thirty-two were started last year. During some of the preceding years as many as two hundred were organized and supplied with pastors or stated supplies. This year's exhibit is a humiliating one, especially when we look at it in the light of the almost unprecedented growth of our country.

The question has been lately considered by some of our contributors, and in many of our religious newspapers, whether or not a sectarian spirit was pushing all denominations to plant more churches than their treasuries or the condition of the country warranted. It has been thought by some that sacred funds have been at times sacrificed to unhallowed zeal or unseemly emulation. To ascertain whether this was really so the General Assembly of 1891 appointed a judicious Committee to take the matter under consid-

eration, and report the result of its investigation to the next Assembly. This was done at Portland, Oregon, in 1892. In view of the fact that a want of conference has often been given as a reason for the lack of coöperation among Christian denominations, the Assembly "recommended that a joint meeting of the executive officers of the allied denominations be held at some time in the near future for the purpose of devising some plan for future operations in the general line of the facts and principles herein given."

As the result of the above action of the Assembly a meeting was held at the Presbyterian Mission Rooms, No. 53 Fifth Avenue. New York, on the 5th of December, 1892, at which the executive officers of the Presbyterian, Congregational and the Reformed Dutch Churches were present. Though invited to join the Conference, the Secretaries of the Societies and Boards of other branches of the Evangelical Church did not attend. During the careful consideration given to the subject it was discovered that one hundred and thirty-three mission fields were occupied by both Presbyterians and Congregationalists. Of these, ninety-one are communities ranging from two thousand to two thousand five hundred people, in which there could be no unhallowed rivalry. The remaining forty-two are towns and villages of less than two thousand. Of these, thirty-one have never been in dispute, nor has, so far as known, the propriety of occupancy by both denominations ever been questioned. The remaining eleven have at one time or another been in dispute. But seven of these cases have been satisfactorily settled by such means as are now recommended in the resolutions adopted by the Conference, and the other four are in a fair way of being amicably adjusted in the same manner. The representatives of "the allied denominations" present were gratified to find that the evils complained of had been very greatly but of course unintentionally exaggerated. Nevertheless, to avoid as far as practicable such evils in the future, the following was unanimously adopted, namely:

[&]quot;That each of the Boards or Societies represented has on record rules for the government of its agents in their interdenominational relations on missionary fields.

[&]quot;The Presbyterian home missionary is required by the printed terms of his commission to 'avoid interfering improperly with existing organizations, or multiplying churches from mere sectarian considerations.'

"The Congregationalists, in their printed statement of principles furnished to their superintendents and missionaries, say: 'It is the invariable rule of the Society not to plant a Congregational Church or Mission on ground which, in the proper sense of the word, is cared for by other evangelical denominations.'

"The rule adopted by the Board of the Reformed Church is 'not to gather a congregation in any community when the field is fully occupied by other

evangelical churches.'

"The Committee endorse these rules as wise and sufficient to cover the whole ground, needing only to be applied as circumstances arise.

"The Committee, therefore, recommend, First, That these rules be

emphasized as of universal application.

"Secondly.—That exceptional cases which may arise shall be referred to a Committee of Conference on the field, consisting of the Chairman of the Local Home Missionary Committees of the denominations concerned, together with the synodical missionaries and the home missionary superintendents.

"Thirdly.—That in case of disagreement on the field, the question in dispute shall be referred to the Secretaries of the Home Missionary Societies in

New York.

"In regard to the feasibility of uniting small churches, it is recommended that each Board or Society inquire of its field agents what churches, if any, belonging to the different denominations can be served by one pastor or stated supply, the missionary grant in that case to be equitably divided between the several Boards, and the churches to retain their denominational relations; also that inquiry be made what church or churches should be discontinued, and its members be advised to unite with some other evangelical church."

THE FINANCES.

The work of the Board is largely affected by the condition of the treasury. When its receipts are not sufficient to meet its obligations the Board is criticised and its missionaries frequently feel discontented. Under these circumstances no new work is undertaken, and in consequence thereof the liberal givers threaten at times to withhold their support. This has been largely the condition of things in the Board during the last two or three years. The treasury has had all that time to carry from fifty to a hundred thousand dollars. The year just closed began with a debt of \$71,160.66. Strong appeals were made during the sessions of the Portland Assembly and since its adjournment, for contributions to pay the debt, and a few noble responses were made, but the aggregate amount received has not exceeded \$16,512.26. The balance of \$54,648.40 had to be carried in the banks through the summer months, when large loans had to be negotiated to meet current expenses. By persevering efforts, however, the Board

secured during the fall and winter funds enough not only for the general work, but also to cancel nearly the whole debt, and to take up new work to the amount of \$31,444. It is with unfeigned pleasure that the Board announces to the Assembly that it has nearly paid the whole debt that has interfered so greatly with its progress during the last few years.

The sources whence the Board derives its funds are six. The tirst is the churches. These can be depended on year after year as the distilling clouds and the flowing streams. It affords the Board no little pleasure to report that they have gradually increased, year by year, both in number and abundance. It is encouraging to know that the pastors are taking more pains than formerly to furnish the people with information in regard to the pressing needs and great importance of the work. Systematic giving, also, is helping to swell the volume of the treasury's receipts. It is found that when an opportunity is afforded God's people to give towards evangelizing our country the response is usually hearty and liberal. The second source is the Woman's Missionary Societies. Some of our generous givers fear that the contributions to these societies diminish the regular gifts to the Board. It is possible that it may be the case in some instances. But, it is impossible for wives and daughters to talk about the great need of our country without broadening the views and increasing the liberality of their husbands and brothers. It is our firm conviction that the Woman's Societies swell rather than diminish the gifts of the churches to the Home Board. The third source is the Sabbath-schools and the Young People's Societies. Like the rills which flow through the meadows, the contributions of the young water and refresh the waste places of our land. It is the purpose of our pastors and sessions to train the youth in our Sabbath schools and churches to give as well as to know the Scriptures and pray for God's blessings. They feel that they should have their attention directed to the evangelization of our country by frequent representations of its needs and dangers. The fourth source is individual gifts. These have within a few years grown in number and volume. Some Christians act as the executors of

their own wills. Others give to the Board as trust funds sums ranging from \$5,000 to \$50,000, the interest of which is to be paid them during life, and the principal to go into the treasury after their death. Many support from one to ten missionaries to preach the gospel for them in destitute fields, and not a few strive to give as the Lord hath prospered them. The fifth is legacies. This, like the others, is on the increase. Many who are not able to contribute large sums whilst they live, leave in their . wills means to help the work of missions after they have entered into their rest. In this way scores of men and women benefit their country long after they have ceased to be active agents. The last source is interest on permanent and trust funds. This is slowly increasing, though the rate of interest is gradually diminishing. It is by means of the former that the Board is enabled to borrow money to pay the missionaries when only a few small contributions come from any source. Not many arc familiar with the fact that the Board is compelled to provide by borrowing from \$1,000 to \$1,500 for every working day during seven months of the year. This calls for a large amount of securities in order to provide at all times the funds needed. The Board takes pleasure in informing the General Assembly that it has at last secured sufficient trust and permanent funds to enable it to borrow hereafter all the money needed to pay promptly the missionaries in the field. The sums of money received during the past year from the sources above named are:

| From the Churches\$293 | ,145.64 |
|---|---------|
| From Women's Missionary Societies 312 | ,568.58 |
| | ,074.28 |
| From Individual Gifts | ,590.38 |
| From Legacies | .523.27 |
| From Interest on Permanent and Trust Funds 13 | ,663-12 |
| Permanent and Trust Funds—for investment 9 | ,300,00 |
| 951 | ,865.27 |
| N. Y. Synodical Aid Fund and Sustentation 15 | ,589.61 |
| \$967 | ,454.88 |

THE DEMANDS.

The view is sometimes expressed that the work of Home Missions must be growing smaller and less important. This is doubtless based on the fact that a large part of our country is already evangelized. In this there is evident confusion of ideas. It seems to be taken for granted that the field and the work of Home Missions The former is regarded as co-terminous with the are identical. territory of the United States; but this has changed three or four times within the memory of many now living. In 1843 only fifty years ago, the area of our country was only one-half its present dimensions. Thus the ability of the country to support a large population has rapidly increased since the organization of the Board. The work of Home Missions is, on the other hand, co-extensive with our population, and the number of souls to be reached by the gospel has increased more rapidly than our square miles. In addition to the growth of our native population there has come to us yearly a vast influx of foreigners from many lands. The two together constitute the work of Home Missions. Instead, therefore, of growing smaller and less important, it is rapidly becoming almost unmanageable in its proportions, calling for more men and money than it has at any other period in our history. For a full understanding of the demands made by this growing population, the Board would call the attention of the Assembly,

First, to the demands made by the older States. This is threefold, namely, for funds to support pastors and stated supplies in the small and waning churches, to support missionaries among the poor and foreign population in our cities, and to support missionaries in places to which recent industries have attracted a new population. A number of the strong Synods have nobly come to our rescue in our efforts to aid the weak churches. By means of a sustentation scheme the Synod of New Jersey took care last year of all the weak churches, and contributed to the treasury of the Board \$6,000 more than it did before undertaking that work. The Synod of Indiana, which formerly took out of the Board's treasury about \$2,000 yearly more than it put in, supported last year all its weak churches, and has in the hands of its treasurer \$2,500 for the Board's work. The Synods of New York, Pennsylvania, Baltimore and Ohio are rapidly pushing their sustentation schemes to a point where they will be able to take care of all their weak churches, and to contribute larger sums than ever towards the general work of the Board. From present prospects we are encouraged to hope that all the strong Synods east of the Mississippi River will in the near future support all their weak churches and increase largely their contributions towards the general and growing work of the Board.

But when that is done the Board will still have three important branches of work in the older States, viz.: that of aiding in the support of missionaries in newly-opened districts, and among the poor in our large cities, and that of providing means of grace for the growing foreign population. The last class has been criminally neglected by our Church. To-day we face the fact that the percentage of growth during the last decade has been larger among the foreign population than among the native, and that, even in the older States. Take for example, the number of foreigners who do not speak our language, whom the Board is expected to provide for in the five great States of New York, New Jersey, Pennsylvania, Ohio and Illinois. According to the Census of 1890 there are in the State of New York 531,747 Germans, 9,708 Dutch, 28,430 Swedes, 6,238 Danes, 8,602 Norwegians, 58,466 Russians, 15,598 Hungarians, 9,129 Bohemians, 22,718 Poles, 20,443 French, 64,141 Italians, 1,603 Spaniards, 284 Portuguese, 413 Greeks, and 11,916 from Asia, Africa and the Islands of the Pacific. There are in the State of New Jersey 110,822 Germans, 8,569 Dutch, 4,159 Swedes, 2,991 Danes, 1,317 Norwegians, 5,320 Russians, 3,417 Hungarians, 306 Bohemians, 3,615 Poles, 4,714 French, 12,989 Italians, 145 Spaniards, 20 Portuguese, 27 Greeks, and 1.728 from Asia, Africa and the Islands of the Pacific. There are in Pennsylvania 251,554 Germans, 3,801 Dutch, 19,346 Swedes, 2,010 Danes, 2,238 Norwegians, 17,315 Russians, 24,901 Hungarians, 2,031 Bohemians, 25,191 Poles, 9,033 French, 24,662 Italians, 216 Spaniards, 131 Portuguese, 81 Greeks, and 4,019 from Asia, Africa and the Islands of the Pacific. There are in Ohio 240,783 Germans, 2,742 Swedes, 956 Danes, 511 Norwegians, 4,576 Russians, 5,431 Hungarians, 11,009 Bohemians, 5,937 Poles, 7,171 French, 3,857 Italians, 61 Spaniards, 86 Portuguese, 59 Greeks, and 1,444 from Asia, Africa and the Islands of the Pacific. There are in Illinois 346,469 Germans, 11,363 Dutch. 86,514 Swedes, 12,044 Danes, 30,339 Norwegians, 8,407 Russians, 3,126 Hungarians, 26,627 Bohemians, 18,878 Poles, 8,540 French, 8,035 Italians, 152 Spaniards, 255 Portuguese, 254 Greeks, and 3,192 from Asia, Africa and the Islands of the Pacific. In this computation the Welsh, the Mexicans, the people of Central and South America and the West Indies are omitted. Nor is any mention made of the foreign population of New England, Delaware, Maryland and the District of Columbia, or that of the great States of Michigan, Indiana and Wisconsin-all this side the Mississippi River. The figures here show that there are 2,184,922 people from foreign lands in the five States named above who are not able to worship God with profit in our language. The work of the Board is simply tremendous, and likely to continue so for a century to come if the country is to be saved for Christ. All the funds that come to its treasury at the present time could be wisely expended on its three departments of work in the older States.

The Assembly's attention is called, secondly, to the demands of the six States recently admitted into the Union. These are prodigious in their extent of territory. Of land surface they include 545,100 square miles, or nearly one-fifth the entire area of the United States, exclusive of Alaska. Even the three mountain States, namely, Montana, Wyoming and Idaho, promise to support in the near future as large a population to the square mile as the Dakotas and Washington. Companies for irrigation are already drawing from the treasures of the snow, turning the rivers into irrigating canals, and opening artesian wells in the sides of mountains. It cannot be doubted that some of the largest cities and the most thickly inhabited districts of our country will in the near future be found in the valleys of the Rocky Mountains. is all important, therefore, to supply these embryo commonwealths with missionaries, not only to lead the people to Christ, but to lay sound and Christian foundations for the State. The personal and social, as well as the religions influence of educated men like our home missionaries can hardly be estimated. It is often said by the older citizens of Columbus, Ohio, that the image of the late Dr. James Hoge, the first home missionary there, is seen to this day on most of the laws of the State regulating religious and moral

interests. How important it is that these great States which have soon to make their laws, and lay the foundations of all their civil and religious institutions, should be fully supplied with the great principles of the gospel. Now, and not fifty years hence, is the time to mould that one-fifth of our country into the common likeness of the older States. For "moral forces," says Prof. Phelps, "not only accumulate fast, but they set quick in the mould of national character. They are indurated rapidly, and for centuries to come. That process of national conservatism which results in fixed character, and which in the Oriental world has produced such immobile usages, laws, beliefs and institutions, is in these six great States in its beginning. We have the opportunity and the privilege of shaping it just here. It can be made almost what we please just now; not so half a century later. It can be changed, revolutionized, headed this way or that at present; not so perhaps three decades hence. The plastic hand of a spiritual Christianity can give character to it to-day; but time, if not used aright, will make it such that our religious institutions, so far from giving character, must receive it, and receive it from forces foreign to their history, and alien to their spirit." It is important to the homogeneousness of our institutions as well as to the Christian character of our nation to have these new States permeated like the rest with the pure principles of God's word.

All this, of course, is second in importance to the direct religious needs of these States. There the conflict is now going on with the hosts of evil, and reinforcements must be sent to them if we are to hold our ground. "Some of the agents of Satan, in operation in South Dakota are such," says the Rev. H. P. Carson, D.D., "as are common where the people are from necessity or choice, intensely employed with material affairs, and regard themselves as having for a time at least, reached a region beyond Christianity, and so give way more to the prevalent sins of frontier or mining towns and larger centres of population everywhere. Prohibition of the sale of intoxicating liquors as a beverage continues to stand as our State law, but it meets with stubborn opposition in mining centres, and wherever the foreign-born citizens are in the ascendancy." "The urgent, crying need of Montana," says Dr. S. E. Wishard,

"is men, consecrated men and adequate support. Give us the men," he adds, "who know the gospel and can preach it, who can climb these mountains and go down into the mines-men with the flaming message of love—who must preach. We want eight men to-day to take fields already waiting for occupancy, and as many more to possess our unexplored parts—unexplored because we dare not go to the people unless we can promise them bread. We want at least two pastors at large with evangelistic gifts, who have skill to awaken the consciences of men, then point them to the Lamb of God." "The whole west end of the State of Washington," writes Dr. T. M. Gunn, "is steadily growing in spite of the general depression, and the building during the coming year of over two hundred miles of new railroad, promises to cause still greater development, especially of the region between Tacoma and Portland. Seven years ago there were but two large towns, Tacoma and Seattle, in the entire west end of the State. Now there are two large cities, Tacoma, with a population of 45,000, and Seattle, with 55,000, and nearly one hundred towns ranging in population from 500 to 5,000. There is now scarcely a town that cannot be reached within twenty-four hours either by boat or by rail. Every review of this vast region reveals fresh evidence of a great and marvellous future.

"The inter-mountain region is developing with equal rapidity in irrigation, in mining, in agriculture, in milling and in fruit-raising industries. Large and imposing State institutions are being erected, and the higher education of its people is provided for on a grand scale. In north Idaho, as well as in east Washington, there is a large area of farming lands being taken up by intelligent settlers, who are erecting for themselves comfortable homes and schoolhouses for their children. All these people look to us for the means of grace. Whilst the Church has been restraining us from going too fast the people on the ground are rebuking us for neglecting precious souls, and losing the best positions in the State. Our greatest need is young men who are willing to do a heroic and selfdenying work for Christ. It is easy to supply places where the foundations are well laid, but there is a long list of hard and destitute fields to which it seems almost impossible to induce any one to go, yet these are just as promising as were the others a few

years since. To supply such places we now need at least nine men in addition to those mentioned already."

The Assembly's attention is called, thirdly, to the demands of the three great Territories occupying the southwestern part of the country. Oklahoma has been but recently opened to settlers, and yet it has already a population that will justify it in seeking before long a place in the sisterhood of States. In writing concerning the Board's work in the Synod of the Indian Territory, Dr. R. W. Hill says: "this statement would be very incomplete were it to make no reference to Oklahoma. It is nearly four years since that part of our Territory was first opened to settlement, and in that time the change has been truly marvellous. In no other section of the country could such changes have been possible, but with a population waiting for the opportunity, it only required the opening of the gates to secure the immediate occupation of every acre of land in the whole of original Oklahoma. Towns sprang up at every promising centre, and within the first year these had assumed a substantial and permanent character. After the lapse of four years, the actual growth is greater than was predicted by the enthusiasts of the first year. It has been very difficult to keep pace with the growth of the Territory. There is no question as to the speedy opening of the Cherokee strip, and with that will come another great rush into Oklahoma, a rush even greater than the first one. Up to the present time the first rush of people into the Territory has left a permanent population of not less than 200,000. It is safe to predict the doubling of this during the coming year. With this vast increase of population will come urgent demands for the gospel. To meet this we shall need a great reinforcement of missionaries. These can doubtless be secured from our Theological Seminaries, if the Board will adopt the policy of enlisting them in advance, but if it waits till the opening of the country before enlisting them, it will be too late. Heretofore we have been laboring to keep up with the population, but wisdom under these circumstances would dictate the policy of securing beforehand a man for every new county. We would like to have twenty men for the work; we must have at least ten, and that independent of the five or six additional ones for the older work. These men should be full of love to God and men, and strong enough to endure the discomforts of a new country.

"The population of Oklahoma is drawn almost entirely from the other States, and is very largely American. In fact, three-fourths of the population have come from Kansas, Arkansas and Texas. For this reason the work is uncommonly encouraging. We are not only able to reach all the people, but we find them in the main ready to receive the gospel. But with this readiness to receive the gospel there comes a greater amount of poverty than in any other section of our country, for Oklahoma is wholly settled by poor people. The white population of the Indian Territory, for whom we are urged to do what we can, is perhaps equally poor."

In New Mexico and Arizona the missionaries and the teachers of the Board have to encounter an effete civilization as well as a corrupt religion. Hence the first work is that of laying foundations which is always slow and difficult. "It is true," says the Rev. Jas. A. Menaul. "that we are in a formative state in New Mexico; nevertheless, we are forming, or rather, transforming. The past and much of the present work here is laying the foundation. As others have seen us and even now see us, we are down in a deep, dark hole, but at the bottom of this hole all of us missionaries and evangelists are engaged in putting in place, with the best of cement, the granite foundation stones on which future laborers will build the stately edifice of Christ's Church. In this laborious work, mid dust and mud, nothing but the old Bible truths which were preached by our fathers will meet our case. Even the most out-of-the-way families are to-day provided with a pure gospel in these valleys of New Mexico. More men of apostolic zeal and self-denial are needed to bring our deluded people to Christ." Will the Church respond to this loud cry of her children for the bread of life to distribute among the perishing in New Mexico and Arizona?

The Assembly's attention is called, fourthly, to the demands made upon the Board by the exceptional populations of the country. It will be remembered that fifteen years ago our Home Missionaries could find but little access to the Indians or the Mexicans. The doors of their houses were shut in their faces, and horrible epithets like "Protestant devils" were applied to them.

Their names were used as the "bugaboos" of Mexican children to frighten them into obedience. They were no more welcome in Utah and on some of the Reservations of the Red Man than in New Mexico. Though the hateful spirit of fifteen years ago may still remain among certain Indians, Mexicans and Mormons, the missionaries receive from all of them a very different treatment. The schools carried on by the women of the Church have opened the closed doors and touched the hardened hearts. They have created a demand for the missionary almost everywhere, so that the great question which the Assembly is called upon to settle to-day is, shall these people be supplied with the preached gospel? The call is loud, earnest and pitiable.

The influence of our ministers and teachers is widening and deepening even in Utah. "The barriers of bigotry and prejudice," says our Synodical Missionary, "are slowly yielding to the contact of Christian life and teaching. This was impressively illustrated recently when we were invited to hold in the Mormon Tabernacle the funeral services of a beloved fellow worker who had gone to his rest. The service was largely attended by the Mormon people. Every year adds new churches to our roll where the missionary's work is bearing fruit. We want eight men to-day to take fields already white to harvest, and as many more to possess unexplored regions. Shall we have them?" What is the Church's reply to this?

The Assembly's attention is called, once more, to the demands made by some of our rapidly-growing States. Take for example Texas, a State larger in extent of territory than the German Empire with its 65,000,000 people. As yet we have only begun to gather our own dispersed people. The growth of this Commonwealth is almost phenomenal, and many of the people who are entering it know very little about the gospel of our Lord and Saviour. "Our vicinity to Mexico," says Dr. H. S. Little, "opens a wide door to us. Tens of thousands of men and women have crossed the river and are now citizens of the United States. They learn the vices of the borders and acquire mistaken ideas of Christianity. There are also in Texas many thrifty, excellent Germans who might be reached, if we had the missionaries. At least a score of counties peopled largely

by Bohemians, French and Swiss, might be brought to Christ, if we had the means for such an undertaking." "Our work in Tennessee," says the Rev. C. A. Duncan, "will suffer great loss unless we secure at once nine additional ministers for our The field for one of these will be among vacant churches. a very interesting foreign population, mostly Scotch, at Blossburgh and the adjacent villages. In that region there are from 2,000 to 2,500 sturdy miners who are Presbyterians by inheritance and should be cared for by us. We need four young men for summer evangelistic work to go out, two by two, into the counties of Hancock and Claiborn, Union and Campbell, where the soil is virgin as far as our Church is concerned. It has been stated on good authority that, in one of these counties, only one Presbyterian sermon has been preached since the war." The demand for the teacher and preacher in this mountain region is so urgent and extensive as to cause no little perplexity. "The largest part of Michigan," says the Rev. D. Howell, "is as yet a forest. In this forest are found hundreds of lumber camps and thousands of small settlements. The lumber camps move as the timber disappears. The settlers who follow the lumber men can barely support themselves and families, much less build churches. But they have precious souls to save and the Presbyterian Church should do all she can to save them. In all the northern sections of the State there are many who are Presbyterians and who could easily be gathered into our churches. We need at once twelve able, active and wise men to occupy fields partially developed. These men we must have. And, we need, also, three more capable of doing detailed exploring, evangelistic and general pastoral work." Other States might be mentioned in this connection which are just as urgent in their demands upon the Board. Our response to all of them will be very inadequate, unless a large increase of men and funds is placed by the Church at our command during the coming year.

THE HINDRANCES.

It is impossible to name all the hindrances in the way of evangelizing our land. A number of them are common to every State and County, and therefore need not be mentioned for the informa-

tion of pastors or people. There are hindrances, on the other hand, peculiar to certain regions of country and conditions of society which ought to have a place in our Annual Report. One of the greatest of these in such States as Montana, Idaho and Texas, and in Territories like New Mexico and Arizona, which abound in farms and ranches, is the scattered condition of the people. It is almost impossible to gather any considerable number of ranchmen into a church on the Lord's Day. Nevertheless, many of them have petitioned the Board to send them missionaries. Parents and friends in England, Scotland and Switzerland have offered to contribute towards building houses of worship, if the Board is only willing to furnish and support the pastors and stated supplies. This should be done, but it involves a large expenditure of money to furnish a small number with the gospel. "The widely scattered populations of Utah and Montana," says Dr. Wishard, "make it difficult to reach all, or any considerable number of them. Owing to this cause thousands of young men, even from Presbyterian homes, are not visited by our missionaries." This presents a problem of grave importance which the Board has not as yet been able to solve.

The second hindrance to the work of Missions is the constant removals of our people from the East to the West, and from one State or Territory to another. This is one of the reasons why so many of our churches become feeble and often extinct. Those who live in old and settled communities can form no conception of the extent to which this migration goes on in various parts of our land. "Owing to inability to make a living on farms bought at high prices, thousands of our people have been compelled," says Dr. Fleming, "to leave Kansas in debt. It is estimated that when public lands were opened at Oklahoma, nearly one hundred thousand people emigrated from our State to that Territory. Consequently, what were for a time thriving and seemingly prosperous communities, became abandoned prairies and deserted villages. Churches, schools and homes were decimated, and the work begun with so much promise had either to be abandoned altogether, or carried forward under the greatest discouragements." "One of the hindrances to our work in parts of southern California," says the

Rev. F. D. Seward, "is the great depression following a boom. This not only checks progress in the depressed places, but it drives multitudes of the people away to other places." The exhaustion of mines in the mountain States compels hundreds of families to go from place to place, in order to make their living. This creates a constant fluctuation in the churches which are dependent for their support on that species of industry. Here and there restlessness arising from religious vagaries and skeptical views drives people from one region to another. "Mormonism, when Nauvoo was the seat of the Mormon Church, furnished," says Dr. Bailey, "a lawless band of refugees, who went all over southwestern Iowa. This created a restlessnes especially along the southern border, and is still felt up the Missouri Valley as far as Sioux City. After his release from imprisonment in Boston for blasphemy, Abner Kneeland came to Iowa in 1838, and established his infidel colony at a point on the Des Moines River, called Salubria. From here he wrote back to his friends, saying: 'Come on, I have found a country where there is no Bible, no priest, no Sabbath, no heaven, no hell, no devil. Come, here is liberty.' For a time this influence extended very widely, but by changes of a favorable sort, all the region is now largely under the blessed influence of Christianity, and the Presbyterian Church has done her share in bringing it about."

The third hindrance to the work of the Board is the large number of people, in nearly every community, who are unable to speak the English language. "Those settling in the older portions of Michigan," says Mr. Howell, "are a bar to the advance of true religion. These people, so far as they profess to be anything, are high Lutherans who have brought with them their old country views of preaching and practice. The English-speaking churches generally die where they settle. Even the moral tone of the community is not improved in many instances by the establishment of foreign churches." The early settlers of California were Mexicans who did not speak our tongue, did not respect the Sabbath, did not care for the Bible, and had but little conception of what is pure, active Christianity. Their language and customs still stand in the way of Home Mission work in the Empire State of the West. "The large majority of the people in many of the smaller

towns of Utah," writes Dr. Wishard, "are foreigners and very many of them cannot speak our language. But few who have not tried the experiment can realize what a barrier to reaching the heart is an unknown tongue. When it is remembered that more than twenty-five per centum of the population of the United States live in cities of more than 8,000 inhabitants, and that entire wards in many of them are occupied almost wholly by people speaking foreign languages, some conception may be formed of the difficulty in reaching the masses. Inability to speak our language increases also the clannishness of our foreign population, and drives them into communities of their own, not only in cities, but also in rural districts. Hence a missionary in such places is useless unless he can speak the language of the people. It is everywhere acknowledged that our Church has not done its full duty in the direction of raising native ministers to preach the gospel to our foreignspeaking population. This has been an impediment in our way of reaching many of the most desirable and important people in the land

The fourth hindrance is the machinations of the Jesuits. They have a missionary in nearly every nursery in our large towns and cities, and a representative in every legislative Assembly. They seek to exert the combined influence of the mitre, the purse and the sword. Their strategy and their tactics are arranged for the South and the great West. In many cases their pioneers are political agitators, and their priests demagogues. They are in alliance with crowned heads and command the gold of princes to further their enterprises. They are seeking to gain in the New World the power which they have lost in the Old.

The fifth hindrance is the spirit of uneasiness that pervades the masses, East and West. This assumes at one time the arbitrariness of trades union which boycotts the innocent merchant and the industrious tradesman, if they do not obey their behests. It assumes, at another, the form of socialism which seeks to reconstruct society on a new basis. Sometimes it assumes the more hideous form of communism which aims to destroy that fundamental principle of ethics which teaches that a man has an undoubted right to all the property he can acquire by the legitimate use of

his powers. It assumes, also, as in Chicago, in 1886, the form of anarchism which seeks to bring about by violence a state of society not regulated by any principle of government, law or order.

The last hindrance which we shall mention is skepticism or infidelity. This may be divided into intellectual and practical. The former has its clubs, its platforms and its press. It enlists in its service philosophy and poetry, logic and eloquence. It commands the tongue of the orator and the pen of the editor. It is resolute, formidable and aggressive. The latter is still more dangerous. For it pervades every community. It shows itself in the spirit of the age, in the shape of indifference, materialism, political corruption, cupidity and love of ease. To this may be added the luxurious habits of our people, and especially the fearful curse of intemperance which is tying as with the green withes of the Philistines our legislators, which is causing by bribery the officers of the law to obey its orders, and which is gradually, but surely destroying the nervous fibre of the whole nation. These combined create an alarming condition of things.

THE GROWTH OF THE WORK.

In spite of these hindrances which are both numerous and strong, the work of Home Missions is going on with a goodly degree of success. Abundant evidence was given during the last year that the old gospel has not lost its power, and that God's arm is not shortened that it cannot save. Numerous revivals are recorded by our representatives on the field. In places, whole communities were melted under the loving power of God's spirit. "Passing through a mining town in the mountains of Kentucky, I preached in it, "says the Rev. Mr. McDonald," at night. The place was filled from pulpit to portal, and the power of the Holy Spirit seemed to take possession of preacher and hearer. At the close of the sermon some thirty-five or forty persons rose to ask for prayer. In the same place, but on a subsequent visit, I learned of a Scotchman who was in charge of the mines, a most valuable man, but addicted to drinking and atterly irreligious. I sent a messenger to

invite him to hear a fellow countryman preach the gospel. He accepted the invitation and came. Before preaching I sang an old hymn in the Scottish dialect. At the close of the service the man came up to me, saying: 'You've got me. I could na stan that, I just filled up when I heard that hymn. I'm comin' to church after this." "Though the last year was not marked by any startling advances in our work," says Dr. Wishard, "yet the Mills Meetings at Salt Lake City and Ogden gave the Mormon population opportunity to witness, and some of them to share, the rich blessings that came to all the churches on the occasion of those meetings. Four of our smaller mission churches in Utah have been the scene of unusual religious interest, adding to the membership and working power of the churches." "The Lord," says Dr. Bailey, "wonderfully blessed our work last winter in Iowa. One little church that plead long and hard for organization, more than doubled its membership under a series of meetings led by our Sunday-school missionary, a devoted ruling elder." "It is true," says Rev. John Menaul, "that we are not doing wonders in New Mexico, but it is also true that a great deal more is being done than can be seen by, or known to, the workers. When we remember how long these people have been trained in error, how every step of the gospel of Christ has been and is being opposed by a priesthood claiming the place and power of God; how all of our teaching and preaching has been interpreted to the people as being possessed with the devil; how the people have been frightened and warned against us, the wonder is that any progress has been made. The fact that there are so many hundreds of Mexican church members to-day who, a few years ago, were bitter enemics of the gospel and of Protestant Christianity, proves that God is clearly blessing His people and their work in saving souls." "Many churches in northern California," says the Rev. James S. McDonald, "have been greatly revived and strengthened by the evangelical labors of Rev. B. Fay Mills, but these are mostly in the larger places." "During last winter," says Rev. James A. Menaul, "sixteen members were added on confession of their faith to the Santa Fé Church. Five of these are members of the Santa Fé Training School, and other pupils gave evidence of true repentence. At Las Cruces a number

were added to the church during the past winter, and also at the Taos Mission." Under the preaching of Rev. Mr. Bachman, of Tennessee, more than a score of the pupils in our schools at Asheville, North Carolina, were brought to Christ and to communion with the church. "The state of religion in the Synod of Michigan," says Mr. Howell, "is very encouraging. Many of our churches were blessed during the winter with revivals of religion. In many districts pastors have sought help from evangelists, but they have failed to secure all they needed." "The Lord," says Dr. Gwynne, "greatly blessed the work in the Synod of Oregon during the past vear. In connection with the churches which I have visited since January 1st, 1893, there have been more than one hundred and fifty conversions. With but few exceptions, all the churches of our Synod have received accessions to their membership. There have been among them a few remarkable conversions. A woman who had been the terror of the whole neighborhood in which she lived stood up for prayers." "In our large cities," writes Dr. Sexton, our synodical missionary for Nebraska, "the special evangelistic efforts have been attended with large ingatherings, which have greatly encouraged and strengthened all our churches. It is not possible at this date to give the number of hopeful conversions, because the fruits of the revivals have not yet been all gathered. Our smaller churches have to a considerable extent shared in this shower of blessings." "During the last year," says the Rev. H. Keigwin, of Florida, "many of our churches were greatly encour-"There were last aged and strengthened by revivals of religion." winter," says the Rev. Mr. Seward, "precious revivals under the leadership of the Rev. B. Fay Mills in most of the cities of southern California. By a plain and earnest presentation of the gospel, and by a most efficient organization of the working forces of the churches, great good was done in the quickening of Christians, as well as in the conversion of sinners."

Whilst no great revivals are recorded, the work of Missions is said to have been most prosperous in other Synods. This is to be seen in the new enterprises started, in the number of churches which became self-supporting, and in the increased liberality of their members. The table given below will furnish the reader

with some aid to the full understanding of the progress of the Board's work in the directions just indicated.

| Churches organized during the year13 | 2 |
|---|---|
| Churches that became self-supporting during the year 50 | 0 |

THE AGENCIES.

These may be classed as direct and indirect. The direct agencies are those appointed by the Board and supported wholly, or in part, with funds from its treasury. Among these may be mentioned, first, the Synodical Missionaries, who receive their whole salary from the treasury of the Board. These have no immediate connection with individual churches, but hold themselves in readiness to aid any or all of them in cases of emergency. In conjunction with the Home Missionary Committees of the Presbyteries, they visit the towns and rural districts with the view of ascertaining their spiritual needs, and of supplying them, if necessary, with the preached gospel. Their names and fields are as follows:

| REV. | R. N. ADAMS, D.DMinneapolisMinn. |

The Synod of New Jersey employs and pays the salaries of the Rev. Allen H. Brown and the Rev. Alfred H. Dashiell as its

Synodical Missionaries; and the Rev. James N. Croeker, D.D. acts in the same capacity within the bounds of the Synod of New York.

The most numerous agents employed by the Board are the Home Missionaries. These are a noble band of self-denying and devoted ministers who are settled over one or more churches as pastors or stated supplies. It is expected that the individual churches which enjoy the services of these men shall pay all they can towards their support, and the Board, representing the whole Church, is applied to, to supplement that sum to an amount regarded by the Presbyteries as a living salary. It is expected of the Presbyteries and the Committees of the same to reduce this demand in all cases to a minimum. In this way, small and poor communities in every part of our land are enabled to enjoy the blessings of the gospel.

During the past year the Board aided in paying the salaries of 1723 missionaries who labored during the whole, or a part of the year, and who were distributed over our States and Territories as follows:

| ALABAMA 6 | MONTANA |
|------------------------|-----------------------|
| ALASKA 8 | NEBRASKA 91 |

It is gratifying to learn from the above table that the Home Mission work of the Presbyterian Church is national and not sectional. The missionaries of the Synod of New Jersey are not on the list, because they are not paid from the Board's treasury, but from that of the State Synodical Sustentation. We have neither missionaries nor churches in South Carolina, Georgia, Mississippi and Louisiana for the reason that our brethren of the Presbyterian Church in the South are able to take care of that part of the field.

There are two more valuable agents of the Board that deserve notice in this report, namely, the middlers in our Theological Seminaries, and the lay evangelists of New Mexico. Sixty-five of the former devoted their last summer vacation in preaching the gospel and visiting the people. They were sent out as scouts to ascertain the lay of the land and the forces of evil with which the Church has to contend. By their youthful zeal and energy they, almost without an exception, performed a work of great value to the Church. The Mexican evangelists were largely employed to go from house to house dispensing the word of life. They can find access and welcome to households and individuals who are well-nigh inaccessible to the regular missionary. Most of these are self-sacrificing, devoted men who long to bring their fellow Mexicans to Christ.

By indirect agencies is understood those which aid the work of Missions on the field without being appointed by the Board or paid from its treasury. The first and most important of these is the Board of Church Erection. Much of the success attained by our home missionaries depends upon the liberality of the Church Erection Board in helping to provide for their congregations comfortable places of worship. Very few churches can live and thrive without a local habitation. Our missionaries fully understand and appreciate this. "No single agency," says the Rev. Mr. Wood, Synodical Missionary for North Dakota, "has helped to the results attained by our missionaries so much as the aid given by the Board of Church Erection. This noble agency of the Church has spent tens of thousands of dollars on this section of our country." The same is true also of other regions. The

next indirect agent is the Sunday-school Department of the Board of Publication. Their missionaries and those of the Home Board work admirably together in all our Western fields. Its late action in appointing superintendents of the Sabbath-school work will tend to unify the two departments and render both more efficient. The Board would not discharge its full duty, if it failed to recognize the valuable aid received from our excellent Colleges and Academies. "It is not easy," says our Synodical Missionary in Kansas, "to overestimate the beneficial effects upon Home Missions of our educational institutions, namely, the Synod's College at Emporia, and the Lewis Academy at Wichita. Though young and considerably crippled for the want of funds, yet their influence has had a marked effect, not only upon the candidates for the ministry, but also upon hundreds of young men and women now exerting a wide influence for the cause of Christ in different places throughout the State." "The influence of Daniel Baker College in Texas," says Dr. H. S. Little, "cannot be computed. By its noble professors and 300 students it is lending our Home Mission work a most valuable aid. The Glen Rose Collegiate Institute, with its 200 students, is following close in the footsteps of Daniel Baker College. Our Synodical Missionary for Tennessee writes that Maryville, Tusculum and Washington Colleges, and the Schools located at Asheville and elsewhere, in the mountains, are adding strength and permanency to our Home Mission work. Of our colleges in Colorado, Dr. T. C. Kirkwood writes, "They have done a great work and are increasing in influence. Out of them have already come some of our best missionary evangelists, two of our teachers and a large number of admirable workers in our churches. Five young men, whose education was begun in these institutions, will soon enter the gospel ministry." "Pierre University, South Dakota, was started," writes the Rev. Dr. Carson, "before the Synod was organized, and by home missionaries, who saw that the helpful influences of a College were needed more and more as the country grew in population, and the Church increased in members." Similar words of appreciation of the aid offered by our Colleges in other parts of the country have come to us during the year,

but they are too numerous to be quoted in this connection. The following from the pen of Dr. Fleming is probably true of every Synod in our Church: "Whether we can in the future hold what we have already gained through our Home Mission work depends largely upon whether we can educate our own youth. It is clear that we cannot do it without a better endowment and a larger equipment of our institutions than we have at present. If this is not forthcoming we are bound to lose the hold which we have already gained." It is hardly necessary to add that the Mission Schools carried on by the Woman's Executive Committee afford material aid to the Board's work. "To our Schools," says Dr. R. W. Hill, "more than to any other cause is due the present excellent condition of our Home Mission work in the Indian Territory." "Progress in our Mission School work in Utah means," says Dr. Wishard, "progress in all our Home Mission undertakings. The influence of our teachers and pupils is rapidly widening and deepening. Our schools are furnishing some of the best workers for our Home Mission field "

THE PROSPECTS.

The Board of Home Missions has no disposition to indulge in vague predictions concerning the future of our Church or country. Nor is it prepared, on the other hand, to yield to that morbid feeling which insists on alleging that things are growing worse as the years go by. Ours is a spirit more bright, more hopeful, more full of trust in God and the Church. It believes in the world's progress, in the bud that unfolds to the blossom, and in the blossom that matures to fruit; in the past that generates the present, and in the present that gives rise to the future. From the condition of the work of Home Missions to-day, we infer that the future will be most hopeful. The outlook is certainly bright, but bristling with all kinds of dangers. The only limit to our work, East or West, is the want of men and means to push it forward. The great question respecting the future resolves itself to this: are God's people equal to the opportunities afforded them for doing good? The field waves from centre to circumference with golden grain ready for the reaper. Having reached a most important crisis, is the

Church ready to meet it? In the secular world pulses are beating at a fever heat. Electricity is the only symbol that can adequately set forth the rate at which material progress is advancing. Throughout the great West society is in a perpetual whirl, foaming like a boiling cauldron. All is hurry, bustle and confusion. The question is no longer asked, how a thing can be done best, but how it can be done the quickest. Houses are run up as by magic; mountains are tunnelled in a day; torrents are bridged whilst people are asleep, and hills are leveled with a celerity that would have frightened our forefathers. With every worldly enterprise thus quivering with life and activity, the Church, to which is intrusted the world's salvation, cannot move at a snail's pace without proving recreant to her trust. She should stand in her lot as a compact Christian force holding not one spot, but every part of the land, and communicating her divine touch to every State and Territory like the vibrations of the light which seeks to disclose every object within its reach.

How does the future of the Board's work appear to those who are stationed on the high towers that overlook the field? "The future," says one of our synodical missionaries, "betokens hard work and plenty of it. With good men and fair support we shall soon reap, even in these valleys of the Wahsatch range, an abundant harvest. The door is wide open and there are many adversaries, but they cannot stand long before the faithful preaching of a loving gospel. The success of the past in this Territory is a pledge for the future. The foundations laid are only the beginning of the superstructure. What has been, shall be. What has already taken place in the East will be accomplished in the West, if the Church proves true to her Lord and Master." "The future," says another synodical missionary, "is bright as the morning star, and big with blessed results in years to come. The entire country, if I understand the signs of the times, is beginning to advance as it has never done before." "The work of the Home Board," says still another synodical missionary, "will, nay, must prosper. The 'old, old story' has not lost its charm; the gospel of Christ is still the power of God and the wisdom of God unto salvation to every one that believeth."

From the present demands of our country the question which this General Assembly is called upon to answer is, is the Church doing all in her power to shape aright our future and that of the world? Is she likely to repeat her record of the last two years, or is she determined to do better than she has ever done? "Her contribution to the Home Board during 1890 and 1891, was so disappointing and deficient," says Dr. Heer, "that the year closed in April, 1891, with a debt of \$98,000, a decrease of \$70,000 from the sum reported the year before. Yet, the debt was reduced by \$31,000. But, how was that reduction made? By retrenchmentby that hateful and absolutely godless thing, retrenchment. By bringing untold hardship upon the devoted missionaries through the reduction of their salaries, and the delay in forwarding them. By refusing to enter the open fields and answer the cries of distress. The Presbyterian Church has for two years stood still, or rather retreated, while the country has gone rapidly forward, and the devil been left free to go with it. This is an alarming state of things! May we not expect her to take a more distinct, worthy, Christ-like stand in this great matter of the preservation of our land, and thereby the conversion of the world? Ought she not to launch herself into these grand interests with the self-abandonment of an army that contends for its own firesides, and with a loyalty to Christ like that of soldiers who fight for the honor of their country, which is to them dearer than life? Ought not every one of her members, East and West, North and South, to realize it as his bounden duty, as his sacred privilege, as one great function of his life—in the disregard of which he is an unfaithful and un-Christ-like man—to contribute his own modicum of faith and prayer, zeal and money, to the blessed cause of Home Missions?"

THE MISSION SCHOOL WORK.

Many of our church members have never understood the connection existing between this noble work and Home Missions proper. It is Home Missions modified to meet new circumstances and extraordinary conditions. Whilst the work of evangelizing the country which lies between the Atlantic Ocean and the Mississippi River was going on, nothing was needed but missionaries to

preach the simple gospel of Christ. The people to be reached spoke our language, and were in sympathy with all our institutions. The Indians who spoke foreign tongues were regarded as heathen, and committed by the Church to the care of the Board of Foreign Missions. But, when it devolved upon the Home Board to provide for the exceptional populations of the Indian Territory, New Mexico, Utah and Alaska, the methods of former years were not adequate. Hence the school work was added to the Home Mission appliances as a necessity arising from peculiar circumstances. this way only has the Board been able to meet the new condition of things. But as the charter did not admit of its spending Home Mission money on any kind of schools, the women of the Church were begged to undertake the furnishing of funds. Most nobly did they respond to the call, and the growth of the work has been almost phenomenal. It has more than fulfilled its important mission of preparing the way for the introduction of the gospel. The hope entertained that the parents would be reached through the children has been more than realized. "To our schools," says Dr. W. R. Hill, "more than to any other cause, is due the present condition of our work in the Indian Territory. From these schools have gone forth those that have filled our churches, and aided us in extending Christ's kingdom." "Many of the young Mexicans who have been educated in our schools, and who are friendly to Protestant christianity," says the Rev. Mr. Menaul, "are among the leading men of the Territory. They are able to take positions as school teachers, and hold county offices on an equal footing with the young men whose parents are among the richest of the Roman Catholics.

"All who are engaged in this work among the Mexicans are encouraged. We see them being enlightened in the truths of the gospel. Papers and tracts in the Spanish tongue are freely distributed among them. These silent messengers are working their way into the darkest homes, and, as a result, we find to-day in the southern part of New Mexico, thirteen Protestant evangelical churches spiritually prosperous though poor in the things of this life." "Mission school work in Utah," says Dr. Wishard, "was never more important than to-day. There is no other religious

instruction furnished multitudes of children than that which we furnish them. There are twenty-six Mission Schools and four Academies in which our educational work is carried on by sixtyfive teachers and four matrons. This Mission School-work costs the Woman's Executive Committee \$35,000, and furnishes secular and religious instruction for nearly 2,000 pupils. There are seven other Mission School-houses that were once occupied, but they have had no work done in them during the past year. All but two of these are tolerably well equipped with appliances. Our work closed in them for the lack of funds to carry it forward. Every one of these stations ought to be reopened next year, and provided with the best of teachers. Mission School-work was never more important in Utah than it is to-day. The four Academies are now on a permanent basis for successful work, and each is supplied with a well-qualified principal." Perhaps the most important work of the Synod of Tennessee is to educate and Christianize the million or more people in the mountains. These are believed to be, from their history, traditions, peculiarities and names, of Scotch and Scotch-Irish descent, and originally Presbyterians. Until recently the country knew very little concerning them. During the late war they were, with a few exceptions, loyal to the government and believers in the integrity of the Union. Many of them carried the musket, and not a few fell in defence of their country. They have not felt the commercial quickening and business activity witnessed all around them, because their homes are in the mountains, too high to be affected by the whistle of the locomotive or the passing tides of immigration. Hence they have been hitherto neglected by the brethren of their own faith and blood. "But, after a lapse of a hundred years," says Mr. Duncan, "we are beginning to wake up to the importance of reaching them. Appeals should be made to the whole Church to help in this great work. Would that we could speak loud enough to be heard by all, and possessed earnestness and pathos enough to make all heed our cry! There is no hope for this people, except in the establishment among them of Christian schools and churches.

"During the last year the new Normal and Collegiate Institute at Ashėville, N. C., which is in every way well equipped, was

opened with a hundred and seven young ladies. By new buildings and additional teachers, Maryville College has increased its ability to receive and care for new students. In upper East Tennessee it has just been determined to consolidate Washington and Tusculum Colleges, thus advancing the standard of education, securing economy of administration and harmonizing conflicting interests. Three new schools, under the patronage of the Home Board, have recently been established—one at Mt. Nebo, Tenn., and two in North Carolina, at Red Oak and Dula's Springs. In December, 1892, a mission with twenty-eight members was established in connection with the church at College Hill, N. C., for the convenience of the girls and the young ladies in attendance on the schools." A boys' Industrial School has just been started near Asheville. In this are to be taught the rudiments of English education and the practice of the industrial arts necessary to making a respectable living in that part of our country. It is to be a distinctively Christian institution but not sectarian. "Our Church," says Judge Peckenpaugh, "ought to be proud of her Mission work and workers in Alaska. The large majority of the Mission teachers have been and are truly consecrated, earnest Christian men and women, and for them and to the glory of the Master, the results of their labor, as now seen in the advancement of the native people, speak volumes. Brother Austin's management at Sitka has been like magic in bringing about harmony and prosperity. Dr. and Mrs. Thwing have been and are doing a good work at Fort Wrangle. They are untiring in their zeal, and have their hearts, I believe, set on doing good."

The number of the teachers and their assistants in the different schools, the funds received for their support, and the results of their labors, are given in the table below:

SUMMARY OF SCHOOLS, TEACHERS AND SCHOLARS.

| Among the Indians | Schools. | Teachers. | Scholars. |

APPOINTMENT OF MEMBERS.

The term of service of the following members expires with this meeting of the General Assembly, namely:

| | Ministers. | Laymen. |
|------|-------------------------|----------------------|
| Rev. | THOMAS A. NELSON, D.D. | Mr. John S. Kennedy. |
| " | JAMES M. LUDLOW, D.D. | " John E. Parsons. |
| " | GEORGE L. SPINING, D.D. | " HENRY E. ROWLAND. |

Mr. D. B. Ivison was elected to serve to the end of the year in place of Mr. E. H. Brinkerhoff, resigned. The death of Mr. John Taylor Johnson has made a vacancy to be filled by a layman.

All of which is respectfully submitted.

By order of the Board.

WM. C. ROBERTS, Corresponding D. J. McMILLAN, Secretaries.

APPENDIX.

REPORT OF THE STANDING COMMITTEE ON HOME MISSIONS.

Your Standing Committee on Home Missions, having reviewed the Twenty-third Annual Report of the Board, are of the unanimous opinion that it is one of the most masterly and exhaustive reports that has ever been presented to a General Assembly. It presents the field, the finances, the demands, the growth, the hindrances, the agencies and prospects in so compact and intelligent a form that we believe if copies of it were scattered by the ton over the Church, it could not fail to awaken her ministry and membership to the magnitude and importance of the work committed to this Board. Without disparaging any other department of the work of the Church, if the startling statements made in this Report are supported by facts, and we do not question them, then we do not hesitate to say that the interests involved are so vast and far-reaching, and the issues so stupendous, that the work of this great Board stands at the front of all the agencies of the Presbyterian Church for the upbuilding of the kingdom of Christ in this land. We do not discount any other, but we magnify missions at home and for the upbuilding of Christ's kingdom in our own land. If we are to go into all the world and disciple all nations, we must get the money and raise the men at home. It is by the Church at home that the Church abroad is to be established and built up. There need not be and should not be any rivalry between foreign and home missions. For unless home missions be sustained, foreign missions must languish and die. The most zealous and intelligent worker in the one will be equally devoted in the other.

The Report opens with the announcement that one of the Secretaries of the Board, Rev. Henry Kendall, D.D., has entered into the rest of the blessed who die in the Lord. He was a man of the highest character, of unusual organizing powers, and of great intensity of purpose. The work of home evangelization was with him a passion.

With gratitude we record his long and faithful service.

The Report also announces the resignation of one of its Secretaries, the Rev. William Irvin, D.D., on account of impaired health. Thus within the year two vacan-

cies have been made in the Board.

Out of the 1723 missionaries laboring under the Board, eight have been called to their reward in the year just closed. Whilst these faithful men will be missed in their fields and work, it is a matter of devout gratitude to the Head of the Church that so few have been taken, whilst the large army of workers has been permitted to pursue its accustomed and chosen labor unmolested by "the pestilence that walketh in darkness and the destruction that wasteth at noonday."

The Roll of Honor is as follows: John S. Atkinson, Charles Bonekemper, John A. Brown, Duncan B. Crockett, Stonewall J. Dobson, George J. Reid, D.D., Alexander

Walker, Thomas Wylie.

The Report makes mention of the removal by death of a number of its liberal supporters, and the pleasing fact is also recorded that, in their bequests, they did not forget this Board, which, while they lived, was dear to their hearts, and which, though they are dead, still enjoys the blessings of their thoughtful benefactions.

Two important offices have been created by the Board. One having charge of the interests of young people's societies and Sabbath-schools, in regard to Home Mission work; the other having charge of the mission-school work of the Woman's Executive Committee. The former has been filled by the appointment of Rev. Thornton B.

Penfield, the latter by the election of Rev. George F. McAfee. Your Committee believe this to be a wise action and a judicious selection, and recommend its approval,

Your Committee records with satisfaction that the Board of Foreign Missions has transferred its missions among the different tribes of Indians in the State of New York, among the Dakotas and Nez Perces, to the Board of Home Missions, to take effect May 1, 1893, subject to the approval of the General Assembly. This act will involve the expenditure of many thousands of dollars, which has hitherto been borne by the Foreign Board. But, believing that this work properly belongs to the Home Board, your Committee recommend that the transfer be approved.

The Report of the Board gives the cheering assurance that the appointment of pastors-at-large, authorized by the last Assembly, has worked with gratifying success, and in view of the need of many of the churches under the care of the Board of a pastoral oversight, your Committee suggests that the Assembly encourage the Board to

increase the number of these laborers on the field.

It is a matter of congratulation that the Christian Endeavor, Westminster League, and other young people's societies are active in Christian work, and that the Board has appointed a man to have charge of such societies in connection with Home Mission work, and it is confidently believed that this officer of the Board will increase the

efficiency of our work among the young in our Church.

The Board reports that several of the strong Synods have come to their aid in the support of the weak churches within their bounds. Notably among these are the Synods of Indiana and New Jersey. By means of a sustentation scheme, the Synod of New Jersey takes care of all the weak churches within its bounds, and contributed to the Board \$6000 more than it did before undertaking that work. Truly they that water others shall themselves be watered. The Synod of Indiana, which formerly took out of the treasury of the Board \$2000 more than it put into it, supported last year all its weak churches and contributed largely to the Board in addition. The Synods of New York, Pennsylvania, Baltimore and Ohio are rapidly reaching the point when, by sustentation, they will take care of their weak churches, and contribute more than ever to the Board. We emphasize this as one of the signs of marked progress, and with the Board we are encouraged to hope that all the strong Synods east of the Mississippi River will, in the near future, support all their weak churches, and at the same time increase their contributions to the Board. Mention should be made, in this connection, of the scheme of Synodical evangelization in the Synod of Illinois, by which it supports several evangelists, and at the same time continues its contributions to the Board. This will, no doubt, eventually result in Synodical sustentation.

The question has sometimes been raised whether or not a sectarian spirit was pushing all denominations to plant more churches than their treasuries or the condition of the country warranted. A Committee was appointed at Portland to meet with a like Committee from other denominations to confer upon this subject. Others were invited, but the Presbyterian, Congregational and Reformed Dutch Church only responded. After a careful investigation it was discovered that there were 133 mission fields occupied by Presbyterians and Congregationalists. Of these 91 are places ranging from 2000 to 2500, where there could be no unhallowed rivalry. Thirty-one have never been in dispute as to occupancy both by Presbyterians and Congregationalists. Of the remaining eleven, seven have been satisfactorily settled, and the four others will soon be amicably adjusted. It is therefore a groundless accusation that these denominations have been trenching upon one another's ground, and the evils have been greatly exaggerated, and your Committee is happy to say that the Presbyterian home missionary is required by the printed terms of his commission "to avoid interfering improperly with existing organizations, or multiplying churches from mere sectarian considerations."

The work of the Board has been modified to meet new circumstances and extraordinary conditions. Whilst the work of evangelizing the country beyond the Mississippi was going on, nothing more was needed than to preach the Gospel, but there
came a time when to reach the exceptional populations of Indian Territory, New
Mexico and Alaska, the methods of former years were inadequate, hence the school
work was added to Home Mission appliances. In this way only has the Board been
able to meet the new condition of things. But as the charter did not admit of spending
Home Mission money on any kind of schools, the women of the Church were appealed
to to furnish the needed funds. Most nobly did they respond to the call, and the

growth of the work has been almost phenomenal. Missionaries in Mexico, Utah, Alaska and Indian Territory all bear testimony to the value and efficiency and import-

Alaska and indian Territory and pear testimony to the value and emictency and importance of these schools in connection with Home Mission work. The following is a summary of schools, teachers and scholars among the Indians, Mormons, Mexicans and in the South: Schools, 122; Teachers, 379; Scholars, 8175.

The field covered by this Board is the entire country, stretching from Florida to Alaska, from the Gulf to the lakes, and from Maine to California, embracing more square miles than the continent of Europe. Two-thirds of it lie west of the Missisterior was approach better converge the private protector of this follation. square miles than the continent of Europe. Two-thirds of it lie west of the Mississippi. We cannot better express the unique character of this field than in the language of the admirable Report: "Its operations embrace millions of the native and foreign population in our cities. The sailors of the seaboards and the islands dotting our Atlantic and Pacific coasts, as well as those on the shores of the Great Lakes and along our canals and rivers. The operatives in the great factories of New England, the Middle States and the West, the farmers and ranchmen on the great plains of Texas, Kansas, Montana and New Mexico, and along the rich valleys of the Alleghenies and the Rocky Mauntains, the miners of Pengalyania. We wanted the Alleghenies and the Rocky Mountains, the miners of Pennsylvania, Wyoming and Washington, the people along the great railways, the Indians, Mormons and Mexicans, and the Chinese who have brought to our shores the idols of their own heathen country."

And yet in this vast territory the Board reports the humiliating fact that fewer churches than usual have been organized last year, as in former years as many as 200 have been organized and furnished with pastors and stated supplies, but this year the number has fallen to 132, not because there were no demands for more. Scores of points loudly calling for churches and ministers had to be passed by. Retrenchment instead of progress has been forced upon the Board by the failure of the Church to come up to the help of the Lord with their offerings. Fully 750,000 foreigners landed on our shores last year, yet the entire gifts of the Church to the whole work were \$967,455.88. The unprecedented growth of our population demands at least the doubling of this amount this year, if the Board is to send forth laborers into these

ever-widening fields that are white for the harvest.

As if to stimulate the Church to its high endeavor, the Lord of the harvest has been granting showers of blessing. The Word of God has not returned unto Him void, but has prospered in the thing whereunto He has sent it. The laborers that have gone forth bearing precious seed have come again with rejoicing, bringing their sheaves with them. Revivals of religion have been enjoyed in California, Florida, Oregon, Michigan, Utah, Kentucky and North Carolina. As a result of faithful labors 10,028 souls have been added to the churches under the care of the Board on sion of faith. Truly the Lord has done great things for us, whereof we are When we consider the difficulties and hindrances which these brethren on confession of faith. Home Mission ground have to encounter in prosecuting their labors, to wit, the lack in many parts of the country of suitable places in which to gather the people for worship; the scattered and widely separated character of the population-the multitudes speaking only a foreign tongue and who are absolutely inaccessible to mission effort by an English-speaking missionary—the worldliness, skepticism, unbelief and withal the iniquity that abounds in so many forms; when we remember all this, we cannot but exclaim in the light of these figures, "Behold what God hath wrought!" And may we not justly interpret this as the voice of God speaking in trumpet tones to the Church, and saying, "Bring ye all the tithes into the storehouse, that there may be meat in mine house, and prove me now herewith, saith the Lord of hosts, if I will not open you the windows of heaven and pour you out a blessing that there shall not be room enough to receive it?" (Mal. iii. 10.)

Oh, brethren, shall the slumbering Church awake from her apathy, and seizing the opportunity, make it possible by meeting her responsibility, for her waiting and willing Lord to bestow upon her this overflow of His Spirit? Surely the Macedonian cry that comes up from every part of this broad land ought to arouse the dormant energies of this great Church and send her forth "Fair as the moon, clear as the sun, and terrible as an army with banners," until this land be taken by a bloodless victory with the sword of the Spirit, which is the Word of God, and given to Jesus Christ, its rightful Lord and King. How long shall the ark of God dwell in curtains and His people abide in houses of cedar? The first condition of Christian discipleship is "deny thyself." Are His people fulfilling this first great law of His kingdom? He who sat over against the treasury declared that the widow that gave her two mites cast in more than all the rich men, because she denied herself to do so. Paul says of the churches of Macedonia that their "deep poverty abounded unto the riches of their liberality." But when we turn over the records of the Church we find that many give nothing to this cause, whilst many who are classed among the wealthy churches gave but a pittance to this great work. Last year there were 1821 non-contributing churches to Home Missions.

Brethren of the Assembly, has the Church with which you stand personally connected given to this cause of Home Missions as much as it might have done had the proper effort been made? Will you not take this subject home and press it upon your churches until they do their whole duty to this great cause? We are upon the verge of great events. Never was there a period when every worldly enterprise quivered with such life and activity. The question is not how well, but how quickly a thing may be done. Cities spring up like magic; a State is born in a day; mountains are tunneled with incredible speed; chasms are bridged while populations sleep; the telephone, the telegraph and railroad have annihilated distance; the circumference of the world grows smaller, and the dream of Verne's "Around the World in Eighty Days" is now more than realized.

"We are living, we are dwelling,
In a grand and awful time,
In an age on ages telling,
To be living is sublime."

The Church to which is committed, under God, the salvation of the race dare not move slowly. She must stand abreast of this mighty procession as it marches to the opening of the new century. She must keep the standard of the cross alongside the banner of civilization. She must hold not one part or some parts of this land for Christ, but every foot of it must be conquered by her, and her divine touch must be felt by

every State and Territory.

And since this is a memorable year in our history as a nation, and the world is gathering to celebrate with us the discovery of this Western Continent, shall we not signalize it by making an onward movement in this great work of Home Missions and wiping out this paltry sum of \$39,000 which rests upon this Board? Let us bring a thank-offering to Him who has given us this goodly heritage, such as patriotism and Christianity demand, and declare as we lay it at the feet of Him who is the Governor among the nations, that we will give ourselves no rest until this broad land is brought to Christ.

Your Committee offer the following recommendations:

Resolved, 1. That this Assembly appreciates the faithful and voluntary service of the members of the Board, and the efficiency with which the affairs of the Board have been administered by the executive officers, and commends it to the support and confidence of the whole Church.

Resolved, 2. That the Board be enjoined to expend more for the evangelization of our great cities, and to plant the Church in these centres of influence.

Resolved, 3. That the Assembly recognizes the increasing usefulness of the Woman's Executive Committee and enjoins upon pastors and elders to encourage this work among the women and children of the Church.

Resolved, 4. That the Sabbath-schools of the Church be recommended to set apart the third Sabbath of February, 1894, as a day for special offerings for the Home Board.

Resolved, 5. That the Presbyteries be instructed to exercise greater caution in recommending appropriations for churches that have for many years been receiving from the funds of this Board and yet have made no progress towards self-support.

Resolved, 6. That the self-sacrificing labors of our home missionaries demand the sympathy and thoughtful consideration of the entire Church.

Resolved, 7. That the minutes of the Board having been examined and found to be faithfully kept, are approved so far as written.

Resolved, 8. That the Report of the Board for 1893 be specially commended to pastors and elders for their careful consideration and study.

Resolved, 9. That the following members, whose terms of service expire with this Assembly, be reclected: Ministers—Rev. Thomas A. Nelson, D.D., Rev. James M. Ludlow, D.D., Rev. George L. Spining, D.D.; Laymen—John S. Kennedy, John E. Parsons, Henry E. Rowland; and that Mr. D. B. Ivison be elected in place of Mr. E. H. Brinckerhoff, resigned, and that Mr. Charles E. Green be elected to fill the place made vacant by the death of Mr. John Taylor Johnson.

In behalf of the Committee,

L. Y. GRAHAM, Chairman,

REPORT OF THE CORRESPONDING SECRETARY OF THE WOMAN'S EXECUTIVE COMMITTEE.

To the Board of Home Missions:

GENTLEMEN:

The Fourteenth Annual Report of the Woman's Executive Committee of Home Missions, which is herewith presented, is the brief story of a year's work done by more than 100,000 Presbyterian women, grouped along Presbyterian lines into numerous church societies, 169 Presbyterial and 26 Synodical Societies, from the Atlantic to the Pacific. The great court of the Church which, in the providence of God, called Presbyterian women to a specific work—namely, the Educational Work of the Board of Home Missions-recommended also the central organization which, as the heart of organized effort for Home Missions by the women of the Church, thus records the pulse-beats of a twelvemonth, with humble thanks to the Lord of Life, in whom alone it lives and moves and has its being. That He has vitalized the lifestream through all the arteries and veins of our organization is proven by the increased interest, information and effort reported by our missionary societies, and the increased influx into our treasury from active contributors, which has swelled our receipts to nearly \$9,000 more than last year's total sum. The result of such vitalization is more elastic health in our body itself, as well as more extended work in the field committed to our care. The reflex action of increased and more intelligent effort upon our missionary societies themselves is not the least blessing for which we give thanks, as we come up before the Lord with our year's tribute of praise. The advance along the line has been from the *living* workers—notably the *young people*—which fact alone has peculiar significance and encouragement. There has been a decrease of more than \$22,000 in legacies from the amount received in the previous year, hence the Permanent Fund, to which such donations are applied, has not swelled materially. But if we have not thus been enabled to "lay by for a rainy day," we have, by the steady gifts of the living, been able to meet all our obligations; and to pay our bills promptly is as comfortable as to put money into the bank. The record of the year in dollars and cents is \$373,142.13, a total which includes the receipts from various miscellaneous sources other than the self-denying and systematic contributions of the women of our societies and their children. Tuition fees to the amount of \$13,750.66 demonstrate the conscientious collection, by our teachers according to their instructions, of payment for school privileges, where parents are able, that a spirit of self-reliance and self-respect may be fostered in our mission schools.

This educational work of the Board of Home Missions has made available also funds from Indian Nations and from the National Government, which mission work would not otherwise secure. Practically stated, these moneys are the partial, financial recompense which the Government and Indian Nations make to the mission workers who come to their aid in their extremity. They amount this year to \$33,616.44 from Indian Nations, and \$39,037.31 from the United States Government. But it has been

resolved to relinquish Government money in support of day-schools during this year, and at the close of it to decline all Government appropriations. The healthy increase of gifts throughout all our Synods is our best guarantee of the gradual abolishment

of this supplementary Government aid.

From the sources already mentioned as miscellaneous, with other sums which may be classed under such a head, including legacies to the amount of \$514, has come the sum of \$125,057.13, which deducted from the total leaves \$248,085.00. Of this sum \$37,801.29 enters our treasury for work among the Freedmen, and has been sent to the treasurer of the Freedmen's Board at Pittsburgh for its legitimate disbursement. The remainder, \$210,283.71, shows an advance for "Home Mission" work, technically so called, of \$16,283.00 over the sum so designated last year. While by act of the General Assembly, the Woman's Executive Committee is only the transmitting agency for the funds contributed by Women's Societies to the work among the Freedmen, this central organization has urged the appointment, in every Presbytery, of a Secretary who shall stimulate work for this purpose in every society; has thus provided for organization without expense to the Freedmen's Board; has devoted gratuitously one issue of the Home Mission Monthly to the Freedmen's work, in the same measure as the claims of other fields are presented; and has not ignored the needs of this people in the presentment of the general work made by the speakers employed by the Woman's Executive Committee.

The direct contributions of Sabbath Schools have not reached last year's totals and yet the general advance has resulted, in some measure, as already intimated, from the increased interest and effort of young people—particularly of the missionary committees of Christian Endeavor Societies. Of the estimate that the Woman's Executive Committee places upon this grand Christian Endeavor army in our land, and of their faith in the reiterated declaration of the leaders of the movement, that it is designed to work in already-established church lines of Christian effort, the fact is significant that a new officer has been specially called, to enlist and secure the coöperation of Christian Endeavor Missionary Committees. Presbyterian Christian Endeavor Societies can do no grander, elemental, vigorous missionary work than to assist in making Christian citizens out of the youth of our exceptional populations.

During the year boxes for Home Missionaries and mission schools have been

sent out to the valuation of \$47,525.36, and to the Freedmen to the valuation of \$14,551.97—some societies confining their efforts for Home Missions entirely to the preparation of boxes. It would, perhaps, increase the interest in such societies if a full understanding of the special Home Mission work committed to Presbyterian

women were more universal.

That medium of communication between the central organization, the church societies and the missionary workers, the Home Mission Monthly, has proved the necessity of its being, and its increasing value in the gratifying length of its subnecessity of its being, and its increasing value in the grafifying length of its subscription list this year, which far exceeds that of any other year in its history. Readers of other denominations have paid it their tribute of praise, and more than one substantial gift to the treasury from such sources has followed the interested perusal of the facts set forth in our magazine. The entire publication department shows augmented activity, as the distribution of 177,694 leaflets, in payment for which \$1,484.15 has been received, illustrates—the gain over last year being \$125.17. Large orders from missionary societies of other denominations also testify to their quality and universal adaptability. They have been sent to all parts of the United States, to Canada, Scotland and Ireland. The distribution of 21,804 mite boxes, and of 05,082 missionary envelopes has carried suggestive lessons and brought back and of 95,982 missionary envelopes, has carried suggestive lessons and brought back the Lord's money in praise offerings and self-denial gifts. That there is method in organization, faithful and intelligent work, and systematic giving in our church societies, our figures thus detailed abundantly show. That, with all our nice organization and equipment, our better methods and more interesting programmes; with our fuller knowledge of the bitter need of our effort for gathering the thousands of neglected children into Christian mission schools, our Presbyterian women should and will rise even more loyally and zealously to the work, we firmly believe.

In response to the recommendation of General Assembly, and the counsel of the Board of Home Missions, the Woman's Executive Committee has assumed the support of several evangelists in fields where the school work has opened the way for

This is a natural step in advance, while it in no way usurps the functions of the Board of Home Missions. Our relations are reciprocal, and we do but follow up our own work when we supplement the teaching in Mission and Sabbath Schools with our scholars. The support of the first evangelist thus taken under the care of the Woman's Executive Committee has been pledged by the Baltimore Synodical Society, who thus ensure a laborer among the hitherto uncared-for Ute Indians.

We have had repeated calls during the year to undertake work beyond the restrictions placed upon us by General Assembly—notably for opening schools among the colonies of emigrants located in masses in various parts of our land. Such calls have come from Chicago for the great foreign populations there; from districts in Pennsylvania where there are thousands of Italians; from New Jersey with its Jewish settlement and foreign element, and from various quarters where there is kindred need. Our defined limitations make it impossible for us to open schools among these peoples, who are supposed to come under public school provision—unless, indeed, the Court of the Church, which called us into being as an organization, enlarges our outreach and extends our powers. In some States our auxiliary societies have been urged to assist in Synodical Sustentation, which would divert the funds relied upon for sustaining the school work already undertaken by the women of the Church, who, having a specific department of Home Mission work laid upon them, feel in duty bound to support it. They believe, moreover, that inasmuch as sustentation is designed to relieve the Home Board, such diversion of funds from a pledged department of its work would defeat the object. The success of women's work for the Educational department-acknowledged to be necessary and fundamental in the Home Mission enterprise among the exceptional populations—is due solely to careful organization, and patient and persistent endeavor for a definite purpose. At headquarters the appointment and management of this Home Mission school work, the apportionment of its maintenance among the loyal societies of the various Presbyteries and Synods, and the general supervision of the far-reaching mission fields, have called for unflagging attention and careful consideration—the receipt of more than 20,000 letters within the year testifying to the amount of detail in the correspondence. In this oft-times perplexing oversight and care of the school-work, the officers of the Woman's Executive Committee would record their grateful appreciation of the unfailing courtesy and the thoughtful and wise advice received from the Board of Home Missions. In response to the earnest appeal of the Woman's Executive Committee they have also created a new office in the Board, which gives to the Committee a general Superintendent of Schools, thereby ensuring closer communication between office and field workers, and, it is believed, greater efficiency in every direction. The uplift of the unceasing prayers and cooperation of our societies is also a matter for grateful acknowledgment. The busy women of our churches are the faithful coadjutors who have made the successful carrying out of the year's plans possible.

From the workers and the management we turn to the work itself, for which the consecrated money is expended—in proper shelters for the scholars and teachers, the school appliances and support of the work, and the teachers' salaries. The necessary school buildings, chapel school houses for day schools, and more expensive structural work for the boarding and industrial schools, make an important and distinctive part of the Woman's Home Missionary work, hence the large sums expended, which the Board administers for us, the properties being vested in that body. The wisdom of such expenditure in building institutions befitting the dignity of the Presbyterian Church is manifest on every field. Our boarding schools and academies are Christian centers of light in Alaska, Utah, Indian Territory, New Mexico, Arizona, and the mountains of the South. The projected Asheville Farm School, which is the largest undertaking of the year, will provide for the boys of the Southern Mountain people, as the two noble institutions already established in Asheville, N. C., administer to the needs of the girls. (Alas, that hundreds had to be turned from their doors this year!) Several new day schools have also been opened among the mountain people of North Carolina, Kentucky and Tennessee, the responsiveness of these neglected kinsfolk plainly indicating the field as legitimate for Presbyterian mission enterprise. Our Synodical Superintendents, in every field, report almost universally that the schools were never in better condition, by which we recognize the conscientious labor and

efficiency of our devoted teachers. The duties of these faithful missionary workers, especially in some isolated fields, are so manifold and unusual, that few can estimate the peculiar strain put upon them in the performances of such tasks. One teacher describes how the early morning laundry work is interrupted, owing to the filling up of the kitchen by the head men of an Indian people who want counsel and advice of the teacher whom they have learned to trust. And, again, incidentally mentions the busy minutes after school hours when the clothing in missionary boxes must be re-adapted to the wants of the children-boxes prepared, in some few instances, more zealously than wisely, and which are, she says, calculated to answer the query, "Why do the heathen rage?" This is only an illustration selected at random.

In school and out the teachers' hearts and hands are full, in order to meet the claims of the pupils so handicapped by natural evil surroundings and hereditary tendencies. And yet from every field has come the welcome news of religious awakening, of souls born into the kingdom, and of the manifest presence of the Spirit

The schools and teachers are distributed as follows:

| | Schools. | Teachers.* | Pupils. |
|-----------------|------------|------------|---------|
| Indians | 3 8 | 175 | 2,458 |
| Mormons | 32 | 89 | 2,286 |
| Mexicans | 30 | 53 | 1,577 |
| Southern Whites | | 62 | 1,857 |
| (D) 1 | | | 00 |
| Total | 122 | 379 | 8,178 |

Our auxiliary societies have also contributed towards the support of 12 schools and 31 teachers among the Freedmen, thus increasing the total number of missionary

teachers to 410.

These are not enough. To strengthen and improve the work of the schools which have gained so strong a foothold in each field more workers should be commissioned and additional room furnished. Every year the child of our care outgrows its clothes—and it is but a sign of health. In every field the opportunities seem wider, the "nick of time" more critical, the "ridge of destiny" to be seized and held more apparent. What is done for the youth in Alaska, in Indian Territory, in Utah, in New Mexico and Arizona, in the Southern Mountains, counts now as it never may again. We have established strategic outposts among the exceptional populations of our land, and the prayerful effort of all the women of our Church is none too great a force to guard them. It is the President of the Board of Home Missions who says, "Vigilance in watching opportunity; tact and daring in seizing upon opportunity; force and persistence in crowding opportunity to its utmost possible achievement—these are the martial virtues which must command success." These are the qualities which should carry on the Christianizing school-work in the neglected corners of our country.

During the year Mrs. M. E. Boyd, the gifted and efficient Secretary of the Woman's Executive Committee, has retired from the active office work to recover impaired health and strength. The claim on her wise counsel and loving interest as a Vice-President of the Committee, however, we, most happily, need not forego. A staunch friend of the Woman's Executive Committee—the loved and honored Dr. Kendall, Secretary of the Board of Home Missions-has been called home during our fiscal year. We hallow his memory, which can never cease to stimulate us in the work to which he attached such vital importance. The retirement of Dr. Irvin, another Secretary of the Board, also deprives our organization of a genial and courteous friend and ally at hand while we still count upon his moral support and sympathy. Thus there are always some without whom we must face the opening year—some have dropped out of our Presbyterial ranks—but the Lord and the Lord's work are ever with us. Our expectation is from Him. We expect large things from Him, who still

says, "According to your faith, be it unto you."

Respectfully submitted.

EMELINE G. PIERSON.

(Mrs. Frederick H.)

^{*}This number includes all teachers, matrons or assistants who have been commissioned for the whole or any part of the year. †Including Alaskans.

TREASURER'S ANNUAL REPORT.

MISS S. F. LINCOLN, TREASURER, in account with the Woman's Executive Committee of Home Missions of the Presbyterian Church.

Dr. Cr.

NEW YORK, May 16, 1893.

Examined and found correct.

FRED'K A. BOOTH, Auditor.

FIFTY-SIXTH ANNUAL REPORT

OF THE

BOARD OF FOREIGN MISSIONS

OF THE

PRESBYTERIAN CHURCH

IN THE

UNITED STATES OF AMERICA.

PRESENTED TO THE GENERAL ASSEMBLY, MAY, 1893.

NEW YORK:
MISSION HOUSE, 53 FIFTH AVENUE.
1893.

BOARD OF FOREIGN MISSIONS.

MEMBERS OF THE BOARD.

- 1890-1893. Rev. George W. Alexander, D.D., Rev. Joseph R. Kerr, D.D. Messts. Henry Ide, Warner Van Norden, and D. W. Mc-Williams.
- 1891-1894. Rev. R. R. Booth, D.D., Rev. C. H. Parkhurst, D.D., Rev. W. R. Richards, D.D., Edward Wells, Esq., Messrs. G. S. Coe and D. R. James.
- 1892–1895. Rev. William M. Paxton, D.D., Rev. J. D. Wells, D.D., Rev. John Balcom Shaw, Rev. David Gregg, D.D., Messis. William A. Booth, E. M. Kingsley, and Alexander Maitland.

OFFICERS OF THE BOARD.

Rev. John D. Wells, D.D., President.
Mr. William A. Booth, Vice-President.
Rev. Frank F. Ellinwood, D.D.,
Rev. John Gillespie, D.D.,
Mr. Robert E. Speer,
William Dulles, Jr., Esq., Treasurer.
Rev. John C. Lowrie, D.D., Secretary Emeritus.

Rev. THOMAS MARSHALL, D.D., Field Secretary.

LETTERS relating to the Missions, or other operations of the Board, may be addressed to any of the Corresponding Secretaries, 53 Fifth Avenue, New York.

LETTERS relating to the pecuniary affairs of the Board, or containing remittances of money, should be sent to WILLIAM DULLES, Jr., Treasurer, same address.

THE CHURCH AT HOME AND ABROAD contains a large amount of Foreign Missionary matter. It is the organ of all the Boards; price, one dollar a year; published by the Board of Publication and Sabbath-School Work, 1334 Chestnut Street, Philadelphia, Penn.

Woman's Work for Woman and Our Mission Field, published monthly, under direction of the Woman's Foreign Boards and Societies, at 53 Fifth Avenue, New York. Price, 60 cents a year. Address orders as above.

CHILDREN'S WORK FOR CHILDREN, published monthly for the Woman's Foreign Boards. Price, 35 cents a year. Address, 1334 Chestnut Street, Room 25, Philadelphia, Penn.

FORM OF BEQUEST.—The Board is incorporated by an Act of the Legislature of the State of New York. The corporate name to be used is—The Board of Foreign Missions of the Presbyterian Church in the United States of America.

CERTIFICATES of Honorary Membership may be had on the payment of thirty dollars; and of Honorary Directorship on the payment of one hundred dollars.

ACTION OF THE GENERAL ASSEMBLY

AT WASHINGTON, D. C., MAY 24, 1893.

THE Fifty-sixth Annual Report of the Board of Foreign Missions, and the manuscript volume of its Minutes for the year ending April 30, 1893, were presented to the General Assembly in session at Washington, D. C., May, 1893, and were referred to the Standing Committee on Foreign Missions. The Committee consisted of— Ministers: Herrick Johnson, D.D., J.J. Lucas, D.D., John P. Scott, D.D., A. N. Hollifield, D.D., Robert Court, D.D., Virgil F. Partch, William A. Lattimore, William A. Lingle, R. H. Nassau, M.D., Thornton M. Niven, and Chauncey D. Edwards.

Elders: Royal E. Barber, Morris H. Stratton, Esq., F. Y. Hamilton, Esq., James B. Neal, M.D., Thomas R. Stockton, Henry Parsons, Esq., Andrew Blair, John Buchan, Marshal Glover, and J. J.

Le Sesne.

On Wednesday, May 24th, this Committee reported to the General Assembly, and on its recommendation the following action was taken:

1. That we send to the Rev. John C. Lowrie, D.D., the patriarch of our band of living workers, the following message signed by the Moderator:
"Our hearty congratulations. We thank God that you have lived to see this day. We bring this tribute of a grateful Church to the yet living leader who has just covered threescore years with his honorable service."

2. This year the sainted Mitchell has passed to his crown and kingdom.

Your Committee would recommend:

That a memorial-offering be made in honor of his work, that it be given to the Laos field toward which he leaned with such tender interest, that it be limited to \$25,000 to be spent in enlarging work under the direction of the Board, and that it be known as the Mitchell Memorial Laos Fund.

3. This year the Board has had given to the Treasury more than one million dollars. Your Committee would recommend:

That we thankfully recognize the good hand of our God in this gift of the Church to the heathen world, and in proof of our gratitude and in joyful recognition of the outfield opportunity and the infield sufficiency, we will aim at \$1,200,000 this coming year as the sum to be given the work of Foreign Missions, counting on the noble women of our Church to help us in this enlarging work, and sure that the self-sacrificing liberality and the enthusiastic devotion which have always marked their co-operation will not fail us in this new

4. Your Committee would further recommend as the sense of this As-

sembly:

That the time is ripe for a forward movement, and that it should now be undertaken both in outfield and infield work, organizing for the occupancy of new fields and the planting of new stations, reaching every church and every member of every church, stimulating liberality, and especially seeking to get the power of profound conviction and the glow of godly enthusiasm concerning this vast world effort into every one of our 7,000 pulpits.

5. That the Field Secretaryship has met a pressing need, has discovered still greater possibilities, and has vindicated its right to be, as one of the conspicuous features of our infield work. The Assembly therefore authorizes through the Board the unreserved continuance of the office, and recognizes it as a "door opened," through which may come to the Church both a wider

intelligence and a larger liberality.

6. In view of the great need of laborers and of the command that we should pray the Lord of the harvest to send forth laborers, we urge that constant, definite, and importunate prayer for laborers be offered; and assured that the Lord of the harvest will hear this prayer thus offered, we urge on all our people the duty and privilege of constant self-denial to the end that the Lord may bless us at home, that His way be known on earth, His saving help among all nations.

7. That we make grateful mention of the children's missionary service at Christmas time, and commend this beautiful offering of gifts to all our Sabbath-

schools.

8. That in view of the varied channels of systematic benevolence under responsible direction, and the multiplied agencies for good that have the watch and care of our Church, we deprecate promiscuous giving to independent and measurably irresponsible missionary efforts, and we earnestly call the churches to consider whether there should be encouraging response to these loving appeals.

9. That we approve of the Board's determination to send to the open fields of the world all qualified men who may apply. So long as the harvest is great and the laborers few, it must be the duty of the Church to put into the harvest

field those whom God calls in answer to her prayer.

10. That if a field of peculiar and special need send out its Macedonian cry, and a man be found to match that need, even though he be already in the ministry, the Board be not restrained in placing the need before him for his prayerful consideration.

11. That the Assembly hereby approves of the final transfer of the Board of Missions among the American Indians to the Board of Home Missions.

12. That the Assembly hereby approves of the action taken by the joint conference of our Board and the Executive Committee on Foreign Missions of the Presbyterian Church in the United States touching co-operation on the foreign mission fields,

13. That an amendment to the Board's Charter is desirable, and the Assembly hereby instructs the Board to prepare and present to the Legislature of the State of New York, with proper advice of counsel, an application for an amendment to the Charter which shall provide in substance an additional clause in

the Charter to the following effect:

"That the management and disposition of the affairs and property of such corporation shall be vested in twenty-one Trustees, who shall be appointed from time to time by the General Assembly of the Presbyterian Church in the United States of America, for such terms as the Assembly may determine. But the number of such Trustees may be increased or decreased at any time by the said General Assembly, and in case of an increase the additional trustees shall be appointed by the said General Assembly of the Presbyterian Church in the United States of America, provided, however, that the members of the Board as at present constituted shall continue to hold office until their successors have been appointed by the General Assembly."

14. That the Minutes of the Board having been examined by your Commit-

tee, be hereby approved.

15. That the following members of the Board whose terms of office have expired, be elected, to wit—Ministers: Rev. George W. Alexander, D.D., Rev. Joseph R. Kerr, D.D., and Messrs. Henry Ide, Warner Van Norden, and D. W. McWilliams.

And that there be added to these to fill the vacancies in this class, Rev.

John R. Davies, D.D., and Mr. George D. Mackay.

INTRODUCTION

TO

FIFTY-SIXTH ANNUAL REPORT

OF THE

BOARD OF FOREIGN MISSIONS.

In presenting its Fifty-sixth Annual Report to the General Assembly, together with the volume of its Minutes for 1892–1893, the Board of Foreign Missions makes grateful mention of the divine favor with which the year has been crowned. It has been a year of blessing at home and abroad, although the light has not been unmingled with shadow. Serious illness, superinduced by prolonged and exhausting labors, required our beloved Secretary, the Rev. Arthur Mitchell, D.D., to relinquish his desk early in the winter and to seek a milder climate. But neither climate nor medical skill availed to save his valuable life. After spending a few months in Florida he was removed to Saratoga Springs, where he died April 24th. The Board has spread upon its Minutes a brief tribute to his noble life and character, and its estimate of the great loss sustained in the death of one who had rendered such conspicuous service to the cause of Foreign Missions.

On invitation of the Board, Mr. William Henry Grant, who, through love for the work, had recently visited our Asiatic missions, kindly consented to take charge of Dr. Mitchell's correspondence during his absence, while the Rev. James S. Dennis, D.D., of our Syria Mission, generously undertook to conduct the Monthly Concert Department of *The Church at Home and Abroad*, hitherto edited by Dr. Mitchell. These brethren are entitled to the thanks of the General Assembly, not only because of the valuable service rendered in the emergency, but because they have rendered it without cost to the Board.

The year was exceptionally trying to health in several of our mission fields, especially in North India and Persia, where an epidemic of cholera of unusual severity was experienced, followed in India by a visitation of fever. In both countries, however, our missionaries were mercifully preserved, although much exposed to the ravages of the prevalent diseases. This exposure was especially dangerous in Persia, where the conditions required and received heroic service at the hands of our missionaries, calling forth grateful public recognition from the Shah and from the diplomatic representatives of foreign governments. In both India and Persia, however, several of the native force fell victims to the scourge, as also Mrs. Alexander, an English lady, who for a number of years had been the efficient matron of Woodstock Seminary.

Four of our missionaries ceased from their labors during the year: Miss Mary M. Baskin, who, after fourteen years of faithful service in behalf of Chinese girls in the Occidental School, San Francisco, died in Tucson, Arizona, May 30, 1892; Mrs. J. L. Scott, for more than thirty years a missionary in connection with the Board, and for the last fifteen the beloved and efficient Principal of Woodstock Seminary, died at Mussoorie, India, June 2, 1892; the Rev. John Newton Young, who after a little more than a year of residence on the field, died in Peking, China, February 18, 1893, cut off at the very threshold of his work; and Mrs. D. P. Cochran, for almost forty-six years connected with the West Persia Mission, and greatly beloved and honored, who died in Oroomiah, March 9, 1893.

Fifty-six new missionaries were sent to the field last year, of whom nineteen were men, sixteen were wives of missionaries and twenty-one single ladies. The number of foreign missionaries in connection with the Board is 623; while the native agents of all grades reach a total of 1,647, including 187 ordained ministers.

In accordance with the action of the General Assembly of 1885 ordering the gradual transfer of the missions among the American Indians to the Board of Home Missions as the conditions of the work might warrant, the Board of Foreign Missions, after conference with the Home Board through a joint committee, at its meeting March 20, 1893, transferred what still remained of this work in its hands, the transfer to take effect May 1, 1893,—subject to the approval of the General Assembly. (See Minutes of Board, p. 200.) Though cheerfully acquiescing in this order of the Assembly as eminently wise because of the changed conditions in our country, the Board turns from this its first field of missionary effort with sincere regret, and with the earnest prayer that, under the fostering care of our sister Board, the American Indians may still find a

large place in the sympathies and beneficence of the Church, and that the Gospel may have free course and be glorified among them. The detailed reports from the missions herewith submited call for devout thanksgiving. The outlook was never more encouraging. Japan, though still feeling the reaction Japan. against foreign influence and falling behind the phenomenal ingatherings of a few years ago, reports a steady growth in church life with decided gains in conversions from the unevangelized. The missionaries in Korea, though still Korea. busy with foundation work and planning for a wider occupancy of the country, are not without the "joy of harvest." The work especially at the outstations is most promising. In China, notwithstanding petty persecutions, and appre-China. hensions of more serious opposition in retaliation of the iniquitous legislation of our Government against the Chinese in the United States, steady progress has been made. Neither the north nor the south has kept back, while the Central Mission has more than held its own. Shantung reports an ingathering of nearly 600, and Canton 181, while both are pushing with increasing vigor and success the work among the outstations. The Island of Hainan, the field of our Church exclusively thus far, has been fully explored by our missionaries and is found to invite un-Siam and Laos, challenged occupation. Siam and Laos, especially the latter, are yielding rich returns for all the life and toil and treasure which the Church has expended on them. Laos bids fair to become a second Burmah, repeating the marvellous story of the Karens. Almost three hundred were received into her churches last year, and the mission, in interpreting the voice of God, sends home a stirring appeal for reinforcements with which to establish three new stations. Like Hainan the field is ours unchallenged and undivided, and the responsibility cannot be shifted. India, after almost three-score years of India. patient sowing, is now yielding steadily increasing harvests, while the establishing of the pastoral relation in several instances during the year and progress in self-support give good promise of substantial and permanent growth. Our Church, which has heretofore labored largely among the high caste and Mohammedan population, is now sharing as never before the great ingatherings from among the low castes. Of the three hundred and thirty-five received last year, however, a goodly number were from among the higher castes and the Mohammedans, while the educational and the literary work for which our missions have been conspicuous continue to render important service in bringing about the submission of India to Christ.

Substantial progress has been made in Persia, notwithPersia. standing petty persecution here and there, and the highhanded closing for a time of our school and church in
Tabriz, and the continued unjust and cruel imprisonment of our
native preacher, Mirza Ibrahim, in spite of most earnest protest on
the part of our missionaries and of foreign residents, official and
unofficial. But "the word of God is not bound." One hundred
and eighty-six were received into the church on confession of faith
and all departments of the work show a healthful growth.

Syria. The work in Syria, though still embarrassed by Government restrictions, shows a gratifying advance especially in the demand for mission schools among the villages.

Africa. Ethiopia, with increasing earnestness, is still stretching out her hands unto God. Notwithstanding the restrictions within French territory on the West Coast, which now includes our Benito station, seventy-three in that part of the mission made a profession of their faith, while one hundred and twenty were received in the northern field, within German territory. The project of entering the interior to which the Board stands committed, and which is elsewhere referred to in detail, marks a new epoch in our work in the Dark Continent, and is a humble attempt on the part of our beloved Church to keep step with the providence of God in opening Africa to the Gospel.

Mexico. Among our missions in Mexico, Central and South
America, the year has been one of sowing rather than of
reaping, and yet there has not been wanting evidence of the quickening and converting power of the Holy Spirit. The peculiar difficulties incident to missionary effort in Ro-

Central America. man Catholic countries have been keenly felt in several of our missions, but the gathering

of several hundred hopeful converts into the churches, and the wide dissemination of Gospel truth by means of church and school and printed page, encourage the hope that our

South America. neighboring republics are beginning to share with us the blessings of a pure Gospel, and of a

Church unfettered by superstition and a debased priesthood.

The total number of conversions reported by all our missions for the year is 3,452, being an increase of 10 per cent. on the entire roll of communicants reported last year.

A full statement of the receipts and disbursements for the year will be found in the Treasurer's report. The outcome is most gratifying, showing a total of receipts from all sources of \$1,014,504.37, and a balance in the treasury of \$1,858.72, after meeting all obligations, including the deficit of \$54,521.05, carried over from last year. It will be noted that there is an advance in every department of receipts.

The efforts of the Field Secretary in the West, which have been well-directed and untiring, commend themselves to the Board and to the Church at large as most valuable. These efforts, together with a system of correspondence with pastors and sessions carried on from the Mission House, are known to have done much in furnishing information, in kindling zeal, and in securing increased gifts to the cause. Special mention must be made of the Week of Prayer and Self-Denial which, on recommendation of the Board, was widely observed in all sections of the Church in March. In view of the outcome of the effort, the Board adopted the following minute:

"The Treasurer having reported that the contributions resulting from the observance of the Week of Prayer and Self-Denial observed in the interest of Foreign Missions from March 19th to 26th, had amounted, up to date, April 17th, to about \$20,000, it was resolved that the Board express its grateful satisfaction to God for this truly Christian response from churches, Sabbath-schools, families, and individuals to the ever-increasing demands of its work. It affords a new encouragement to the conviction that there is a widely extended spirit of faith and prayer among the old and the young, which claims the fulfillment of Divine promise for the proggress of Christ's kingdom.

"The Board would express the hope that in the coming year there may be a like observance of a special period of prayer and self-denying gifts, and that the observance may be general through the Church."

The Women's Societies and Boards with characteristic fidelity and enterprise have exceeded the figure attained last year, reaching the handsome total of \$329,889.20, while the Christian Endeavor Societies have nearly doubled their gifts.

Through the noble gift of \$5,000 from Mrs. William Thaw, of Pittsburgh, conditioned on the receipt of other gifts, making a total of not less than \$20,000, the Board has purchased two properties in Wooster, Ohio, to be used as Homes for the children of Foreign

Missionaries; one for girls and younger boys, and the other for older boys and young men. The securing of the additional funds is due, under God, largely to the indefatigable efforts of the Rev. E. P. Dunlap, of our Siam Mission. The Homes are to afford to children whose parents remain on the field all the comforts and privileges of a Christian family at a figure within the ability of the parents to pay. The outlay for matron and incidentals will be met from a special fund provided for in part by the projector of the scheme and other generous friends. The children will receive their education in the public schools of Wooster and in the University, the latter having generously offered to admit them to the privileges of the full course without charge. The Homes will be under the supervision of a Board of Managers, consisting of twelve ladies with an Advisory Committee of three gentlemen, all to be chosen by and responsible to the Board of Foreign Missions.

The terms of the following members of the Board having expired, the Board respectfully asks that the vacancies be filled by reappointment or otherwise: Rev. George Alexander, D.D., Rev. Joseph Kerr, D.D., and Messrs. Henry Ide, Warner Van Norden, and D. W. McWilliams.

The thanks of the General Assembly are due to the American Bible Society and the American Tract Society for their cordial and generous response to the requests of our missions for gifts of their respective publications, and for assistance in printing books in the vernaculars of our mission fields.

In accordance with the instructions of the Assembly at Portland a conference with representatives of the Executive Committee on Foreign Missions of the Presbyterian Church in the U. S., touching co-operation in the foreign mission fields, was held at the Mission House, New York, on January 12, 1893. It took place in connection with two wider conferences which were held in the same place on January 10th and 11th respectively, at the suggestion of the Alliance of Reformed Churches which convened in Toronto last October. The first conference was composed of representatives of Foreign Missionary Boards connected with churches identified with the Alliance, and members of the American Branch of the Foreign Missionary Committee of said Alliance, while the second included representatives of most of the Protestant Evangelical Foreign Missionary Boards in the United States and Canada.

The conferences were marked throughout by a devout and earnest spirit, while the papers and discussions—all on practical topics—were most suggestive and helpful.

The following is the action taken by the joint conference held January 12th, so far as adopted by this Board, and which the Assembly is respectfully asked to approve:

- "I. That while the Committee and the Board sympathize deeply with the desire of the Synod of Brazil to provide for raising up a well-equipped ministry, and will hold themselves in readiness to co-operate with the Synod in establishing an institution for the training of such a ministry on an economical basis, yet, inasmuch as no permanent location has yet been agreed upon, and, as it does not yet appear how many students will avail themselves of the privileges of such an institution, and, as no plan has been submitted giving an estimate of the probable expense of providing and maintaining such an institution, the Committee and the Board, while cordially acquiescing in the continuance of the work of Rev. J. Rockwell Smith, D.D., at Novo Friburgo, undertaken at the direction of the Synod, think it wise to defer further action in the matter for the present.
- "2. That Rev. M. H. Houston, D.D., on behalf of the Committee, and Mr. Robert E. Speer, on behalf of the Board, be appointed a committee to correspond with the missions in Central China regarding co-operative action in mission matters.
- "3. That Rev. F. F. Ellinwood, D.D., on behalf of the Board, and Rev. M. H. Houston, D.D., on behalf of the Committee, be appointed a committee to correspond with the missions in Korea regarding co-operative action in mission matters.
- "4. That either the Committee or the Board is free to send with the full consent of the other in each special case any accepted missionary candidate to any field occupied by the other—supporting him and any such share of the work as may be determined by the mission to which he is sent and with which he co-operates, the missionary to work under direction of and in full co-operation with the mission already established, the Committee and the Board reserving the right to confer with the missions before final action, if deemed best.
- "5. That the conference express the earnest hope that the Committee and the Board will request of their missionaries wherever located to report from time to time suggestions as to methods of cooperation."

MISSIONARIES SENT OUT IN 1892-1893.

Missions in Africa.

Miss J. A. Nassau, returning. Miss Louise A. Babe. Dr. and Mrs. C. J. Laffin. Mr. Matthew H. Kerr.

Mission in Brazil.

Mrs. F. J. Perkins.

Mission in Colombia.

Miss M. B. Hunter.

Mission in Chili.

Rev. Edson A. Lowe.

Missions in China.

Rev. and Mrs. George Cornwall and child.

Rev. and Mrs. L. J. Davies.

Rev. and Mrs. George F. Fitch and children, returning.

Rev. F. W. Jackson, Jr.

Rev. D. N. Lyon, returning.

Rev. and Mrs. Paul McClintock.

Rev. and Mrs. J. L. Nevius, D.D., returning.

Rev. and Mrs. E. W. Thwing.

Rev. J. L. Whiting, returning.

Dr. and Mrs. D. A. Beattie.

Mrs. R. L. Abbey, returning.

Miss Ruth C. Bliss, M.D.

Miss E. M. Butler, returning.

Miss Anna M. Larsen, M.D.

Miss Mary A. Snodgrass.

Miss Gertrude Thwing.

Mission to the Dakotas.

Rev. and Mrs. A. F. Johnson.

Miss B. A. R. Stocker.

Missions in India.

Rev. and Mrs. C. W. Forman, D.D., and children, returning.

Rev. and Mrs. J. N. Forman, returning.

Rev. and Mrs. C. W. Foman, M.D., and children, returning.

Rev. J. N. Hyde.

Rev. and Mrs. C. A. R. Janvier and child, returning.

Rev. and Mrs. S. H. Kellogg, D.D., and children.

Rev. L. B. Tedford, returning.

Mrs. Effie H. Braddock and child.

Miss Emily Forman.

Miss Emma Morris.

Miss Emma L. Templin, M.D.

Miss S. M. Wherry, returning.

Missions in Japan.

Miss Bessie Brown.

Miss Mary K. Hesser, returning.

Miss Mary M. Palmer.

Miss Anna B. West, returning.

Mission in Korea.

Rev. Graham Lee.

Rev. and Mrs. F. S. Miller.

Rev. and Mrs. S. F. Moore.

Rev. and Mrs. W. L. Swallen.

Miss Victoria C. Arbuckle.

Miss Ellen Strong.

Mission to Laos.

Miss Emma Hitchcock.

Miss Annabelle King.

Missions in Mexico.

Rev. C. S. Williams.

Rev. and Mrs. J. G. Woods.

Miss Ella De Baun, returning.

Miss Edna Johnson.

Missions in Persia.

Dr. George W. Holmes and children, returning.

Mrs. George W. Holmes.

Rev. William A. Shedd.

Rev. J. N. Wright, D.D., and children, returning.

Mrs. J. N. Wright.

Dr. J. G. Wishard, returning.

Mrs. Dr. J. G. Wishard.
Miss Cora Bartlett, returning.
Miss Mary A. Clarke.
Miss Anna G. Dale, returning.
Miss Mary Jewett, returning.
Miss Jennie F. McLean.

Mission in Siam.

Rev. and Mrs. E. P. Dunlap and children, returning. Miss Edna S. Cole, returning.

Mission in Syria.

Rev. and Mrs. W. K. Eddy and children, returning. Rev. and Mrs. Samuel Jessup, D.D., returning. Miss Ellen M. Law.

MISSIONS IN AFRICA.

Gaboon and Corisco Mission.

BARAKA: on the Gaboon River, near the equator, 10 miles from the sea; occupied as a station, 1842; transferred from American Board, 1870; laborers—Rev. Robert H. Nassau, M.D., Mr. E. A. Ford, and Mrs. T. Spencer Ogden; French assistant, M. Bizuel and wife; Rev. Ntaka Truman; two licentiates and two native helpers.

ANGOM: above Nengenenge, on the Como River; occupied as a station, 1881; laborers—Rev. and Mrs. Arthur W. Marling; two native helpers.

CORISCO: 55 miles north of the equator, and from 15 to 20 miles from the mainland; occupied as a station, 1850; laborers—Rev. Ibia F. Ikenge; two native helpers. Outstation at Mbiko, on the mainland, opposite Corisco.

BENITO: 92 miles north of Gaboon; occupied as a station, 1864; laborers—Mrs. Louise Reutlinger, Mrs. C. De Heer, Miss Hulda Christiansen, Captain and Mrs. Menkel, and Rev. Frank Myongo; 4 male and 1 female helpers, and 1 Bible-woman.

BATANGA: 170 miles north of Gaboon; occupied as a station, 1875; laborers—Rev. Messrs. G. A. Godduhn, W. C. Gault, A. C. Good, Ph.D., and their wives; Miss Isabella A. Nassau and Miss Louise A. Babe; one licentiate and five native helpers.

Kangwe: on the Ogowe River, 130 miles from the sea, or 90 miles direct; occupied as a station, 1876; laborers—Rev. Messrs. Herman Jacot and W. S. Bannerman, and their wives; French assistant, M. E. Presset; two licentiates and ten native helpers.

In this country: Rev. R. H. Nassau, M.D. In England: Mrs. A. W. Marling.

Among the important events connected with the history of this mission for the past year are the transfer of Kangwe Station to the Societe des Missions Evangeliques, and a forward movement looking to the occupation of the interior behind the coast belt at Batanga. Both these measures are in accordance with the policy adopted by the Board some time since on recommendation of the mission. The transfer of Kangwe is in pursuance of a plan already reported to the Assembly of withdrawing ultimately from French territory, and of occupying more fully the northern part of our field, which is under the German Government. It is with deep regret that the Board turns from a region where the work has been so greatly blessed, but the difficulties of conducting a mission under the restrictions hitherto imposed and referred to in former reports, increase rather than diminish, and seem fully to justify the course adopted. Moreover, the Board has the satisfaction of knowing that the work passes into the hands of a society thoroughly evangelical and one whose relation to the French Government enables it to deal more easily with the difficult problems involved.

By authority of the Board Dr. Good made two journeys into the interior, beginning July 20, 1892, and ending October 4th. He penetrated about one hundred and seventy miles from the coast, passing entirely through the forest belt. One important fact brought to light by the exploration is that the tribes throughout the region traversed belong very largely to the great Fan or Pangwe stock, so that the

language difficulties elsewhere so embarrassing are very greatly reduced, and inter-tribal wars are less likely to interfere with the progress of the Gospel.

On recommendation of the mission the Board has authorized the opening of a new station at Nkonemekak, about seventy miles from

the coast. Concerning this place Dr. Good wrote:

I was especially attracted by a long line of almost continuous villages, called Nkonemekak where the people seemed to swarm on all sides. This line of towns partly encircled the base of a hill which struck me as an admirable site for a mission station. The elevation of the town was only 1,600 feet, but this hill is, I think, at least 200 feet higher. Here is, in my opinion, the site for our first interior station. Taking into consideration all my observations, both going and returning, I should say Nkonemekak is from fifty-five to sixty-five miles a little south of east from Batanga in a direct line. By the crooked path we must travel the distance is not less than seventy miles, but this is the first large centre of population on elevated ground we met with in coming from the coast, and the largest to be found in this region within one hundred miles of the sea. This point can be reached from the coast by two or three different roads, and from here we can go eastward by two roads, which soon become three. This is an important consideration in a country where any chief who imagines he has a grievance may close the road against us. Here, too, food is reasonably abundant, though not very cheap. And in all this region I found the people friendly and ready to listen to the Gospel wherever I stopped long enough to preach to them.

It is the purpose of the Board, provided its funds justify, to open a second, and even a third station as soon as possible. The second station will probably be located at a place called Zingi, where within a few miles there are large groups of towns, and a number of villages. It is distant from Nkonemekak four or five days. Being located in the hill country, more than 2,000 feet above sea level, it is likely to be healthful. Dr. Good was especially attracted to this place because he found there a "mingling of many clans or families, not only of the Bulé, but also of the Fan." He adds, "I saw nowhere else on my whole journey such a mingling of different clans. Each of these clans numbers from five to ten thousand souls, scattered through twenty or thirty groups of towns, some of which are still in their old homes to the eastward, while others have already gone farther west; but no matter how widely separated, the members of each clan always try to keep up communication with each other."

The occupation of this region at an early day is of the first importance, as the German Government has assured the Board that the territory occupied by our mission will be regarded as exclusively ours, and the territory occupied by the Roman Catholics will be held equally sacred for them. If the plan suggested by Dr. Good, and approved by the mission, can be carried out it will secure a promising field for uninterrupted effort stretching away toward the Soudan.

The mission force on the field has been increased by the return of Miss Nassau after a furlough, and the appointment of Miss Louise A. Babe, both of whom are located at Batanga, while it has been depleted by the temporary absence of Mrs. Marling, in England, because of ill health, and the withdrawal of Dr. and Mrs. John McMillan, who have severed their connection with the Board. Dr. and Mrs. Good,

and Mr. and Mrs. Gault have been transferred to Batanga, the former to labor in connection with the opening of the new station in the interior; Mr. and Mrs. Jacot have, at their own request, been transferred, with Kangwe Station, to the French Society; Mr. and Mrs. Bannerman have been assigned for the present to Angom, while Dr. Nassau, who expects to return to Africa during the summer, when he has completed the proof-reading of the revised edition of the Mpongwe New Testament, has been assigned to Gaboon. C. J. Laffin, M.D., Rev. R. H. Milligan, and Mr. M. H. Kerr are under appointment for the new station in the interior.

Baraka Station.

The transfer of Mr. Gault to Batanga last year left this station without an ordained missionary, save as Mr. Marling, of Angom, was able to give occasional help. Mr. Ford, however, the lay missionary in charge, and Mrs. Ogden, together with such native assistance as was available, managed to carry on the various departments of the work without serious interruption. The year was one of rich blessing, exceptionally so for Baraka, which has been justly regarded as a difficult field because of the anti-spiritual influences usually found in a port of entry. A deep earnestness was manifested at the beginning of the year by quite a number of the members of the church, and persons in the inquiry class seemed profoundly impressed. Sixteen were admitted on confession of faith, while two who had been under suspension were restored. It was found necessary, however, in vindicating the honor and preserving the purity of the church, to suspend six because of sinful lives. The present membership is sixty. Mr. Truman, the native minister, conducted the services Sunday morning and evening, while an English service in the afternoon was carried on by Mr. Ford. A society formed on the general principles of the Christian Endeavor Society in this country was organized with a membership of forty. The young men of the congregation have maintained a weekly prayer-meeting, and have also visited the surrounding towns to hold religious services. Licentiate Igini for the past three years has been employed as a Bible-reader at Ovendo Point. some ten miles distant, and, although the results are small, much conscientious work has been done. One man who had been under the instruction of this Bible-reader was baptized during the year, and another is being taught as an inquirer.

Educational.—The school was reopened with twelve boarding scholars in a new bamboo house which had been erected for the purpose near the dwelling occupied by Mr. and Mrs. Bizeul, the French teacher and his wife. This new arrangement admitted of closer and more constant supervision of the scholars, and has resulted in marked benefit to the school. Under the supervision of Mrs. Ogden the weekly meetings held by the women, who were formerly school girls in Baraka, have been continued, and now include all the women who wish to attend. They are instructed in the Catechism and the Bible. The monthly missionary meetings of the women have also been well

sustained, the gifts for the year amounting to \$25.

The burdens of secular care resting upon Mr. Ford because of the receiving and shipping of goods for the mission has made it impossible for him to devote the amount of time to spiritual work which he would gladly have done. Requests are frequently received from the region around about Baraka for missionary help. The assignment to Baraka of Dr. Nassau, who expects soon to return to Africa, will enable Mr. Ford to give more attention to outside points. Concerning this the latter writes:

Requests have come repeatedly from the Mpongwes on the other side of the river that some one go and preach to them. Quite recently a man from a Fan village three or four miles away, where a Christian from Angom had held a single meeting, came to me and plead earnestly for some one to come there to preach, offering a house and food for five months for the man whom we should send. He said, "My parents brought me forth in the darkness, but now I see the light. That word I hear is sweet. I think that food is not good to taste only, a man must eat plenty and fill himself." I hope that the same young man who went there first, may be stationed at this or a neighboring town.

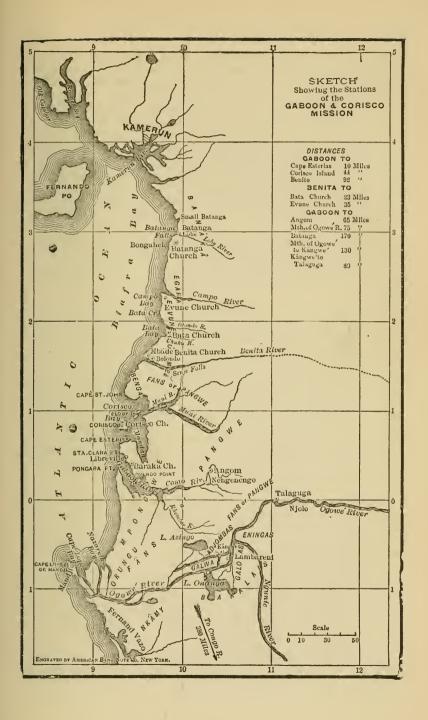

Corisco is virtually an outstation of Baraka. It has been visited twice during the year by members of the mission; once by Mr. Gault and once by a committee consisting of Dr. Good and Mr. Ford. The Rev. Ibia K. Ikenge, who was formerly in charge, has resided on the mainland on the north side of the bay, meanwhile visiting the island from time to time until some permanent course is determined upon by the mission. Concerning the visit of the committee Mr. Ford writes:

We found that in spite of all discouragement in the last two years the larger part of the church members had remained faithful, and that the assiduous efforts of the Spanish priests had only drawn away a few who were attracted by the liberty offered them to drink, to work or dance on Sunday, and the like.

The committee were greeted with good congregations. Two elders of the church had been at work during the year in various parts of the island. The mission proposes to establish a school on the island, but with the understanding that most of the scholars shall be from the mainland. This is considered essential to the development of the work on the island, and along this part of the coast.

Benito Station.

The intimation given a year ago that the territory where this station is located seemed to have passed into the hands of the French, has been confirmed by two official visits from a representative of the Government at Baraka, who examined the schools. Happily the ladies in charge had been giving some instruction in French, although the main work is done in the vernacular. In this way they were able to meet the letter of the requirement of the French Government, and the examiner expressed his satisfaction, advising also that the ladies present their claim to the Government for the usual grant-in-aid made to schools in French territory. This the missionaries, with the approval of the mission, have declined to do for the present, preferring to be as little embarrassed by the Government as possible.

The church at Benito, under the pastoral care of Rev. Frank S. Myongo, has had a prosperous year. Thirty-four were received on confession of faith. This number represented no less than five different tribes, namely: Bapuku, Benga, Kombe, Balengi, and Ibule. Concerning one of them, a Balengi woman, Mrs. Reutlinger writes:

Elder Njumba, in his frequent trips up the river, was led to her town, and through his instrumentality she was brought to the knowledge of the Saviour. Her husband and brother accompanied her down the river, and when on Sabbath morning they came a little late, and found the church crowded, and many outside for want of room, her husband told her she had better not try to enter, for, as she was a Balengi, she might be sent out, and so made ashamed. But she knew why she had come, and did not fear to enter, though her people remained out-of-doors. After the service, when we heard of this, we called the husband and brother, and told them that in the house of God there was no distinction of persons or tribes.

The Sabbath-school, composed of about an equal number of children and adults, has been well sustained. Prayer-meetings, both at the station and in the surrounding towns, have been fairly well attended. The outstations connected with this station are reported as follows:

Mbade. At this station the Bible-reader has kept up the usual services, visiting other towns occasionally, and spending a few weeks at a destitute place, where are several inquirers, and an urgent wish for instruction. *Melega*. The work at this point has been faithfully carried on, and with a good degree of visible success. The Bible-reader from this place has visited and carried the truth to points along the coast as well as up the river. Name. Here a Bible-reader has been stationed during the latter part of the year, whereas formerly only occasional visits were made. The young man has been well received, and seems encouraged and earnest. He was under instruction at this station some six months before going to occupy that place. Hanje. This place has not been regularly occupied, only visited from time to time, but we hope soon to establish a Bible-reader there. The call is very urgent. Up the Benito. The river as far as Senje, and the various creeks, have been visited by a home missionary, employed by our church for that purpose, and supported by special contributions. Elder Njumba has also made a number of visits, and these have not been without visible fruit. We hope to do even more in that direction during the coming year.

The ladies in charge have felt a deep interest in these up-river tribes, especially the Boheba people. This tribe is gradually crowding down the river, and within a few years will probably reach the coast. The missionaries are therefore all the more anxious to bring them

under the power of the Gospel.

Educational,—Two schools, one for boys and the other for girls, have been in operation during the year, with a total enrollment of 60, of whom 25 were boys. Twenty-six of the girls and 14 of the boys were in the boarding department. Twelve different tribes are represented in the school. Mrs. Menkel, the wife of Captain Menkel, of the mission schooner "Nassau," has rendered cheerful and efficient help in connection with the schools.

Literary.—Mrs. DeHeer has completed her Benga-English and English-Benga dictionary, which bears evidence of an immense amount of painstaking labor; she has also revised a Benga primer, which is

now going through the press. The mission has requested her to undertake still further work in this direction, including the revision of the Epistles in Benga, and also parts of the Old Testament already in manuscript.

In addition to the other burdens devolving upon the three ladies in charge, they have accomplished a good deal in caring for the sick.

The report says:

There has seemed to be an unusual number of accidents during the year just past, and the wounded have come from near and from far for treatment. Many ugly ulcers have been treated with comparative success. Better than all, while bodies have been helped, souls have also been blessed, and patients have become earnest enquirers. One woman, who came a distance of ten miles to have a crushed foot cared for, told us that the first prayer she ever uttered was when she lay helpless under the weight of the tree she had just felled, she cried, in the depth of her need, "O God, bring me to your people, and bless the means they use to my recovery." Three months afterward she returned home a changed woman. For two months she was visited daily in the town near here, where she stopped with some relatives. The Word of God was read on these visits and prayer offered. A young girl, lying ill in the same town, was thus won, as we hope, for Christ.

Captain Menkel, whose home is at Benito, furnishes a detailed report of his work, giving a record of a busy year spent in overhauling and sailing the schooner, and in the erection and repairs of buildings at the various stations.

Batanga Station.

Batanga is the most northern of our stations on the West Coast of Africa, and for the present at least will be the centre of our missionary operations within German territory. So far as known now, it is the most convenient point of departure from the coast for the station about to be established in the interior. For a number of years it was an outstation of Benito, and was manned by native helpers under the supervision of the missionaries at the latter station. Since it was erected into a station the progress of the work has been marked, each year showing a decided advance. The church has now 358 communicants, scattered over quite a territory, with Batanga as the centre. The church building, so called, for it is a dilapidated structure, is quite too small to accommodate the congregation, and it is seriously proposed to organize another church at Lobe, a waterfall three miles farther north, and one at Lake, where the people are building a new house of worship. Eighty-one persons were received on confession of faith during the year, and there are now 197 in the inquiry class. The Sunday-school at Batanga numbers 320, and the whole number enrolled in all the schools connected with the station is 660. The gifts of the church amounted to \$236. The outstation at Bwambwe is self-supporting, the people having paid their Bible-reader and erected a house for public worship. In addition to his other duties, Mr. Godduhn devoted part of each Saturday to the instruction of the Bible-readers, until the arrival of Mr. Gault from Baraka, who gladly undertook the service. By authority of the Presbytery, a church was organized at Ubenje, among the Egara tribe, with 11 members from the Batanga

church and 19 from the Evune church. In connection with the organization, 22 persons were also received on confession of faith, making a total roll for the new church of 52 and a Sunday-school mem-

bership of 90.

Mr. Godduhn and Mr. Gault made several evangelistic tours, the latter visiting the churches at Bata and Evune. Concerning the former, Mr. Gault reports the work encouraging, notwithstanding "the constant and increasing hindrances caused by the rum traffic." Some 50 or 60 inquirers were under instruction, including both Bohebas and Pangwes. No report has been received of the number admitted to this church for the year. At Evune there is a church of over 200 members. Mr. Gault made two visits to this church during the year, at one of which he administered the Lord's Supper, receiving 12 into the church on confession of their faith. He also visited Myuma, a place ten or twelve miles north, along the coast, where we have a Bible-reader, and where 35 members of the Evune church live. Because of tribal wars, they had found it difficult to attend even the communion services at Evune; the Session of the church, therefore, accompanied Mr. Gault, and a communion service was held in a small house of worship built by the people themselves. Over 50 persons were found in the catechumen class, of whom 27 were received on confession of faith. The people at this point requested to have a church organized, and the Presbytery, at its recent meeting, authorized the step. In connection with his visit to these churches, Mr. Gault also ascended the Campo river as far as the rapids. Within easy reach of the rapids he found twelve or fifteen villages in which were a few Christians and a number of inquirers, the head man of one of the villages being a member of the Evune church. They have built a small bamboo house, in which they hold morning and evening worship; also meetings on the Sabbath.

Concerning the outlook for wider usefulness, Mr. Godduhn says:

So far we have mainly worked among the tribes living along the coast, while innumerable masses of Mabeyas, close behind us, have received very little attention. I went a few times and licentiate Itongolo, with some of the elders, spent several days each month preaching the Gospel to them. We have a few Christians among these people, and many of them are in the inquiry class, but I hope a more systematic work may be done among them during the coming year.

Educational.—The school was reopened after an enforced vacation, when 150 children presented themselves in a pouring rain for enrollment. It was impossible to receive more than 25 as boarding scholars, and about the same number came as day scholars from the surrounding towns. Miss Babe has assisted Mr. Godduhn in the care of this school. About 60 of those who applied were girls, for whom no provision had been made. Miss Nassau, however, is now giving attention to this department of the work, and even without a building, is going from town to town teaching the girls and telling the story of God's love to the women. Provision has also been made for erecting a cheap structure for a school at the centre.

The mission is profoundly impressed with the need of wider, although

inexpensive, educational work, and has made provision for opening several schools in the northern part of the field. On this general subject Mr. Godduhn writes:

The Lord has opened to us a great door of access to these tribes. The harvest is great, but the laborers are few. There is therefore the most imperative need for increased educational work, so as to raise up native heipers, such as school-teachers, Bible-readers, and ministers. This is an absolute necessity if the mission is to keep up with the growing demands from all sides. If we neglect this work our mission can never extend as it ought to do. I would also be glad to see an *industrial school* at Batanga. I believe that the most effective way to counteract the intense desire for trade among the young men would be an industrial education, but the most pressing need in the near future is the raising up of native helpers for the spiritual work.

Kangwe Station.

Twice during the year Dr. Good was called by the Board from his work at this station; first, to examine and report on our work in Liberia, and afterwards to explore the region behind the coast belt at Batanga. These two protracted absences left the burden of care at the station during the greater part of the year in the hands of Mr. Jacot until he was joined by Mr. Bannerman after the transfer of Talaguga. Dr. Good, however, was able to render valuable help for a few months, especially in the revising of the Mpongwe New Testament, which he was able to complete. The manuscript is now in the hands of the Bible Society in New York, and, by authority of the Board and at the request of the mission, Dr. Nassau is engaged in reading the proof while on furlough in this country. The churches on the Ogowe received forty persons on confession of faith, making a total of 369 communicants and 351 catechumens or inquirers. The largest number was received in the Olamba church, the latest organized on the river. Special gratitude is expressed at the baptism of Bie, the first of the Fan tribe on the Ogowe to receive the sealing ordinances. The conversion seems to be thorough, and hope is entertained that his example may be followed by many of his tribe. At Nambalie the church has built what is called a bamboo parsonage for the accommodation of its preacher, and has collected money for the purchase of a bell. The people living in the Lake in the Ogowe have collected material for the erection of a chapel during the coming year, while the Olamba congregation are about to erect a house for their Biblereader.

Mr. Jacot for the most part conducted the services at Kangwe and gave instruction to a Bible-class. A most important feature of the work has been the instruction of the Bible-readers. The report says:

In October all the Bible-readers were gathered from their different fields and outstations for a month's instruction of four hours daily. The class numbered twelve. They were trained in the life of Christ, reciting the books of the New Testament, writing, sacred geography, Acts of the Apostles, written plans of sermons, and memorizing and locating texts, with daily reviews and a general review at the close of the month. Lectures, or rather conversations, were held on the subject of prayer, personal piety, methods of study, and modes of preaching the Gospel. Every Wednesday afternoon and Saturday, over Sun-

day, they were sent two and two to preach in the neighboring towns. We have reason to believe that this month's instruction was time most profitably spent.

These Bible-readers number ten, three of them working among the Fan and the remainder among the Mpongwe-speaking tribes. Each one is provided with a canoe-boy, and most of them render quarterly

reports of towns visited and meetings held.

Educational.—The Boys' Boarding-School has been under the care of Mr. Presset, the French teacher, formerly stationed at Baraka. Not only has he taught the boys in the school-room and directed their manual work out of-doors, but in the occasional absence of the missionaries, has also assumed the not inconsiderable task of buying the daily supply of food for the station. Mr. Jacot writes:

Since his arrival in December of last year, the number on the roll has risen steadily, and we have reached the maximum figure allowed us by our appropriation, 60, and are obliged to refuse admittance to many who have asked to come. This number, besides, is the extreme limit that can advantageously be placed under the care of one teacher. The school-room is now well furnished. New benches have been made to replace the hastily-constructed ones of former years. Just before the dry-season vacation, our oral examination was conducted by one of the missionaries, covering all the branches, and small prizes distributed to the most faithful and deserving of the scholars. The result of the examination showed considerable progress on the part of nearly all the children. The copy-books were tidy, and several of the older boys write a neat, legible hand. Several recited pieces of poetry in French, of which they seemed to have an intelligent appreciation, and on the whole the scholars seemed to have broadened out considerably their mental horizon. The religious instruction has not been neglected. All the scholars recited fluently either in French or Mpongwe the answers to the Catechism, and the advanced classes also recited Scripture passages in French, and gave an intelligent account of Scripture facts and stories. Several of them have been received into the inquiry-class during the year.

It is noted as a special sign of encouragement in the school, that while last year there were but ten or twelve Fan among the pupils, large numbers made application this year, so that it was necessary to

arrange to have equal numbers of Fan and Mpongwe.

The Girls' Boarding-School has been continued without interruption. Ten girls were in attendance, most of them betrothed to Christian young men. They are taught to read and write in the native language, also to sew and to do general housework. Should the school be continued, it will be indispensable to teach the girls French, in order to meet the requirement of the Government; but, as intimated elsewhere, this responsibility will belong to those into whose hands the work now providentially falls.

Angom Station.

The arrival of Mrs. Marling from the United States, who joined her husband early in the year, greatly strengthened his hands in the work at this station. Unfortunately, however, owing to a narrow escape from shipwreck during the voyage out, and the consequent severe nervous shock, it soon became evident that Mrs. Marling was not able to bear the strain of the African climate, so, after a few months, she

was compelled to return to England, leaving her husband once more

the only foreign missionary at Angom.

Mr. Marling-reports that, except during his absence from the station, preaching services were held in the Fan language every Sabbath morning, and a class for the young in the afternoons. A church was organized, under the direction of the Presbytery, consisting of fourteen members. After referring to one of these members, who subsequently died in the triumph of faith, Mr. Marling adds:

Some others of the church members have been encouragingly faithful. One of these, Otogo, who believed in Christ several years ago, and afterwards removed to a distant place, there held to his faith, and although sick of a wasting disease used to gather the children about him and teach them the truths he had learned at the mission. Similar work has been done by two others of the church members in the villages where they respectively reside. One of these, Oke, who has lately been chosen as an elder, has for a long time been especially zealous in teaching, the work having been done in his case as in the others without any pecuniary reward from the mission. All of these have to endure from their heathen neighbors more or less reproach for the name of Christ, and for obeying the peaceful and pure precepts of the Gospel.

The organization of this church is the outcome of much patient and prayerful sowing on the part of Mr. Marling and his co-laborers, and is hailed as an evidence that what was sown in tears is being reaped

in joy.

Mr. Marling devoted a large amount of time to school work during the year, something he regards as indispensable if the religious work is to have any depth and permanence. He has prepared a Fan Primer, which, although yet in manuscript, he has tested by having parts of it transferred to the blackboard. The Primer includes a course of elementary French lessons for the children who have passed through the first or Fan part of the book—this to meet the requirement of the French Government. Mr. Marling mentions with gratitude the permission granted by the Governor at Baraka to have the book printed in the Government printing press in the form of large mural lessons. When the cost was estimated, however, it was found that the appropriations of the mission did not allow of the expenditure. On learning this, the Governor generously gave a written authorization to have the work printed without expense, except for the paper used. Unfortunately, it developed later, that the press was so crowded with work for the Government that nothing could be done with the Primer for some time.

Mr. Marling during the past year has devoted considerable time to the preparation of books in Fan, and he has now been authorized by the mission to complete several small books, including the Gospel of Matthew, and to see them through the press during his approaching furlough in the United States.

In addition to church work and school work, the missionary has

been busy in other directions. He says:

Medicines have been almost daily dispensed to the sick. Many cocoa, coffee, and rubber trees have been planted on the mission grounds, with the hope of gradually inducing the natives to cultivate such trees, which are well

suited to this climate. It is not, however, a simple or easy matter to induce the native to adopt a form of industry to which he is not accustomed, and of which, as in the case of tree-planting, the fruits will not be reaped till after the lapse of some years. There is more hope of the children being trained to such habits and continuing in them after they have grown up.

Mission in Liberia.

MONROVIA: Rev. Frank B. Perry. Brewersville: Rev. J. W. N. Hilton.

SCHIEFFELIN: Wm. H. Blaine. CAREYSBURG: Rev. R. A. M. Deputie.

GRASSDALE: Jno. M. Deputie.

GREENVILLE, Sinoe: Rev. D. W. Frazier. Queh, in Upper Virginia: Samuel J. George.

WARNEY: J. E. Jones.

Mt. Tabor: Mrs. S. E. Nurse. Granger: Elizabeth C. A. Perry. White Plains: Rev. Z. R. Kennedy.

There have been no great changes in the work of the mission the past year. The report of the Presbytery, however, which is just received, indicates on the part of the members of the mission an earnest desire to extend the work largely during the coming year. Partly because of the small forces working in connection with our own church, and partly, members of the mission have thought, because of insufficient funds, and partly because of the inherent difficulties of the work itself, the progress made during the past year, while noticeable, has not been as great as all desired. Mr. King and Mr. Frazier have come to this country as representatives of the Liberia Government to the World's Fair, and it is to be hoped that on their return the work may be prosecuted with more aggressive purpose for the deepening of true spiritual life among the Liberians, and for the evangelization of the inland tribes.

Ours is one of the weakest churches numerically in Liberia. It has perhaps in all 1,000 members; and of the 332 communicants reported by the Presbytery this year, less than fifty are natives or Aborigines. And yet we have been nearly sixty years at work in Liberia. Looking back over ten years we have not made very great progress. The majority of the Liberians are probably connected with churches, but having come from this country where they were allied with Methodist and Baptist churches, naturally connect themselves with those same churches in Liberia.

During the year Rev. A. C. Good, of the Gaboon and Corisco Mission, visited the workers in Liberia, and sent a most interesting report regarding the work, noting not alone the difficulties, but also the real hopeful features and signs of true progress. He pointed out the importance of Liberia, not alone for itself, but also because of the route through Liberia to the interior, which, so far as could be learned, is as good a route as can be found anywhere along the west coast into the The Presbytery's meetings have been only annual, and Soudan. the work for its best and wisest direction needs some more constant oversight than Presbyterial meetings have been able to give to it. At the beginning of the year Rev. Robt. Cochran had been assigned to Liberia to work in co-operation with the men already there, although in a more general way. It has been impossible for him to go, however, and it is questionable whether the Board will deem it wise to send any men to Liberia in the near future.

Mr. Good's report advises at once the development of the school at Clay-Ashland for the purpose of training competent men to teach throughout our schools, and also to raise up thoroughly equipped ministers. Both because of the large expense, however, and the lack of suitable agencies at present, and the fact that the Methodist Mission in the north of the country and the Episcopal Mission in the south seem to be for the present pretty thoroughly covering the ground, while the Lutheran Mission of Muhlenburg is working successfully a little inland, it is scarcely deemed expedient at present to undertake this new enlargement. It is questionable, moreover, whether English-speaking missions could push from Liberia into the Soudan with any hope of keeping the route open permanently. The French seem to be slowly swinging around back of Liberia, and one of their requirements is that the French language must be spoken in the territory under their control.

No permanent policy regarding our work in Liberia has been determined upon as yet, and that we may act wisely in all things, and that the faithful men working there may be so filled with the Holy Spirit as to be guided and empowered perfectly by Him, should be the prayer of all of us, while we pray also that what Dr. McPherson writes of as an accomplished fact in his History of Liberia, may indeed be found to be a prophecy of the truth:

"If we make allowance for the errors and mistakes of an untrained and inexperienced people, the history of Liberia may be regarded as a demonstration of the capacity of the race for self-government. Upon the capability of individuals is reflected the highest credit. The opportunities for a rounded-out and fully-developed culture afforded by the peculiar conditions of life in the Republic produced a number of men who deserve unqualified admiration. From the earliest days of the colony, when Elijah Johnson upheld the courage of the little band in the midst of hostile swarms of savages, to the steadfast statesmanship of Russwurm and the stately diplomacy of Roberts, there have stood forth individuals of a quality and calibre that fill with surprise those who hold the ordinary opinion of the possibilities of the negro. The trials of the Republic have afforded a crucial test in which many a character has shown true metal. It is not too much to assert that the very highest type of the race has been the product of Liberia.

"There are other aspects in which our tropical offspring has for us a vital interest. Perhaps the most important is the connection it will have in the future with what is called the Negro Problem in our own country. There have been and are thoughtful men who see in colonization the only solution of its difficulties. Others ridicule the very suggestion. It is a question into which we do not purpose to go. But there is scarcely any doubt that when the development of Liberia is a little more advanced, and when communication with her ports becomes less difficult, and when the population of the United States grows more dense and presses more upon the limits of production, there will be a large voluntary migration of negroes to Africa. And no one will deny that the existence of a flourishing Republic of the black race just across the Atlantic will react powerfully upon all questions relating to our own colored population."

MISSIONS IN CHINA.

Canton Mission.

CANTON: Rev. Messrs. H. V. Noyes, B. C. Henry, D.D., A. A. Fulton, O. F. Wisner, Andrew Beattie, and their wives; J. M. Swan, M.D., D. A. Beattie, M.D., and their wives; Miss E. M. Butler, Miss M. W. Niles, M.D., Miss H. Lewis, and Miss Ruth C. Bliss, M.D.

KANG HAU: Rev. E. W. Thwing and wife, and Miss Gertrude Thwing, LIEN CHOW: E. C. Machle, M.D., and wife, and Miss L. Johnston.

HAINAN: Rev. Messrs. F. P. Gilman, J. C. Melrose, P. W. McClintock, and their wives; and Rev. Alfred E. Street, H. M. McCandless, M.D., and wife, and Mr. C. C. Jeremiassen and wife.

In United States: J. G. Kerr, M.D., Rev. J. C. Thomson, M.D., Rev. W. H. Lingle, and their wives; Mrs. W. J. White, Miss H. Noyes, and Miss M. H. Fulton, M.D. Native Ministers: Rev. Lai Po Tsun, Canton; Rev. U. Sik-kau, Mui-luk; and Rev. Kwan Loi, Lien Chow. Unordained evangelists, 23; assistants, 19; teachers, 44; Bible-women, 15.

The report received from Canton Mission is on the whole cheerful and full of hope. The accessions have not been large, but, nevertheless, they have shown a hopeful increase over previous years. Quiet has reigned at most of the outstations, the only exceptions being found at Chik Hom and at Sam Mo in Hunan. No violence has been shown toward the missionaries, though several native Christians have suffered persecution. They have, however, persistently refused to deny their faith, and have shown a Christ-like spirit of patience. A new station has been established at Kang Hau under the supervision of Dr. B. C. Henry. Rev. and Mrs. E. W. Thwing and Miss Gertrude Thwing, are now occupying the missionary premises, recently enlarged, and are at work upon the Hakka language, which differs materially from the Cantonese. It has been felt for some years that the most hopeful element in the population of the Canton Province was to be found among the Hakkas. Though accepting the "Three Religions" of China, Confucianism, Taoism, and Buddhism, they are less bigoted and resisting than the great body of the population.

During the year additions were made to the missionary force by the appointment of Rev. E. W. Thwing and wife and Miss Gertrude Thwing, Rev. P. W. McClintock and wife, and Miss R. C. Bliss, M.D. Drs. John G. Kerr and J. C. Thomson and their wives returned to this country on leave of absence, also Rev. W. H. Lingle and wife on account of Mrs. Lingle's health. Mr. C. A. Colman, who had been under the employment of the mission, severed that relation and re-

turned to this country.

Property has been purchased for missionary residences and other purposes at Yeung Kong, and it is confidently expected that in the early autumn of 1893, Rev. Andrew Beattie and Dr. David A. Beattie and their wives will be able to take up their residence at that point, and that the station will be fully established.

Churches.

The First Church of Canton has secured a new chapel in the western part of the city, and although this is removed at some distance from the former site of the church, active efforts are made to bring the scattered membership to the new position. The chapel is well situated for street preaching. A dispensary at the new location is mentioned as greatly to be desired. The present number of communicants, after considerable sifting, is 107. Rev. A. A. Fulton has had the oversight of this church.

The Second Church of Canton, under the direction of Rev. B. C. Henry, D.D., organized in 1872 with 12 members, has now 295. Forty have been received into the church on confession of faith and 2 by letter. Fourteen members have died. It is a gratifying indication of the spirit of this congregation that its contributions have reached \$232, also that its Bible-class and Sabbath-school number 270 per-

sons.

San Ui Church, Rev. A. A. Fulton stated supply, has 31 me.nbers; three have been received on profession of faith. "A Gospel Medical Boat," or movable dispensary, was anchored near this city for some weeks, during which time it was visited by more than a thousand patients.

Canton Third Church, under the care of Dr. Henry, reports 82 members. The fidelity of some of the Christians has been severely tried, but they have stood the test. Eleven members received at outstations during the year have been enrolled in the membership of this church. All together 14 have been received. Contributions, \$81.

Chic Hom Church, under the care of Mr. Fulton, has received 16 members on profession of faith; present number of communicants, 63.

Shek-lung Church, under the care of Dr. Henry, has received 15 on profession of their faith, and the present number of communicants is 72. Lin Po' Church, under Dr. Henry's care, has had a prosperous and encouraging year. The services have been unusually well attended. Christians have met regularly at four different points on the Sabbath.

At Pak-Chak, seven miles from Ap-Chi-ling (one of the main centres), one of the Christians gave a house, rent free, for services, but in July, during a severe storm, this house, with twenty others in the village, was blown down. The Christians at Ap-Chi-ling thereupon came to their help and subscribed a sufficient amount to secure a new place of worship. Fifteen have been received into this church, and the

membership is 104. Contributions, \$32.

Lien Chow Church, Rev. Kwan Loi, pastor, has had a prosperous year. Twenty-five have been received; services have been well attended. A number of the members belong to the Shanghai Prayer Union, and these with the members of the Christian Endeavor Society and the resident missionaries, spend a half hour before each Sunday service in prayer. The present number of communicants is 92; contributions, \$70.

Yeung Kong Church, Rev Andrew Beattie supply. This church

was organized in 1890 with 12 members, 3 were received during the year; present number, 19. The first Christian burial which occurred at this church upon the death of Mr. Li, a teacher in the employ of the mission, appears to have been the means of creating a profound and salutary impression upon the citizens. The Kang Hau Church during the most of the year has been under the care of Dr. Henry. It was organized in 1890 with 11 members. Three have been received; present number of communicants, 21. Contributions, \$7.

San Ning Church, Rev. A. A. Fulton supply. Adults baptized, 3; whole number, 16. Fa Ti Church, ministered to by Rev. Messrs. Noyes and Wisner, organized in 1891 with 32 members. Sabbath services and weekly prayer-meetings are maintained. The older members of this church are active in evangelistic work in the city. And on Saturdays they visit the villages in the neighborhood, preaching the Gospel. A woman's dispensary at this point has done much to attract the women to the services. Eleven have been received on profession of their faith. Contributions, \$23. Present number of communicants, 53.

Tai Kat Church, under the care of Dr. Henry, has received 9 on profession of faith, and has a total membership of 38; contributions, \$6.

An interesting work has extended northward from Lien Chow into the province of Hunan. A school which had been started at Kong Wa in this province was discontinued last year on account of opposi-

tion, but it will be reopened the coming year.

At Lam Mo in the same province, an interesting work was opened in 1880, which has been attended with no little difficulty. The Christians here have been sorely tried. The house of the colporteur, Tang Chi Kwong, was entered during the morning service by a mob of twenty men, led by the son of the official of the town. The colporteur was seized and beaten, but managed to escape while being carried to prison. After the departure of the mob the Christians re-assembled under the leadership of another brother, but they were again disturbed and their leader seized, beaten, and imprisoned. During his imprisonment he received 200 blows with the bamboo, but steadfastly refused to renounce the faith, or worship the idols into whose presence he was brought. After his arrest the brethren united in an appeal to the authorities, with the effect that the man was released, and a written assurance of protection given to the Christians. When this became known seven persons, who had previously desired baptism, presented themselves for examination, and the Rev. Kwan Loi had the pleasure of baptizing five of them before his return to Sam Kong. One of those baptized was a boy who, while visiting the imprisoned Christian, was threatened with like treatment should he become a Christian. The administration of the sacraments of baptism and the Lord's Supper was witnessed by a large number of people who would not otherwise have listened to the Gospel.

Street Chapel Work.

Three chapels have been opened during the year to daily services. At the Treasury Street Chapel a book-room, where Christian litera-

ture has been dispensed, has continued to be a centre of influence. One of the chapels has been used on two days of the week as a dispensary for women under the direction of Dr. Niles. Thousands have been treated, and evangelistic services have been held by Biblewomen. Many of the women thus attracted have begun to attend the services of the Third Church. Two native assistants have taken part in the preaching, and the services have generally been well attended. At the 15th Ward Chapel Rev. A. A. Fulton has had charge. The place of meeting has been changed to a locality which is deemed favorable for the work. The daily attendance is reported as very large.

Schools.

There are 40 schools of all kinds, with an aggregate attendance of

Boarding-Schools.—The Men and Boys' Boarding-School at Fa Ti is continued under the care of Revs. H. V. Noves and O. F. Wisner. The total enrollment for the year has been 100, with an average attendance of 85. The aim has been to bring the majority of the sons of the native Christians into the preparatory and intermediate departments for some degree of Christian education. From the picked men from the intermediate the advanced department is filled. those have been admitted to this department who have desired to become helpers, and whom, on examination, the mission has been willing to train for that purpose. For want of room about 40 applicants have been turned away, among whom were many desirable students. An increasing desire is manifested by native Christians to have their children educated. At the end of last year three young helpers of unusual gifts were sent out, and later two others, all of whom are doing satisfactory work in the outstations.

Regular Sabbath preaching is maintained both morning and afternoon. The Christian Endeavor Society meets on Sabbath afternoons. Two afternoons a week have been given to discussions of particular topics. An interesting and profitable curriculum is presented by Messrs. Noves and Wisner as having been adopted in this institution. For the advanced class the outline embraces Exposition of Chinese Literature, Christian Theology, Church History, Exposition of the book of Daniel, algebra, map drawing, and Romanizing Chinese.

Canton Girls' Seminary.

This has been under the care of Misses Butler and Lewis. It includes a training-school for women and a school for girls, the latter in three departments. Well-trained, faithful native teachers have been employed. One hundred and ninety have been enrolled, of whom 54 were adult women. The accommodations which are only provided for a hundred have been greatly overcrowded. The Chinese language only is used in this school. Food is prepared in Chinese style, and care is taken not to raise the girls above the grade of their future homes. The training-school embraces first of all those who are being trained as teachers and Bible-readers; it also receives any respectable

woman who desires to learn Bible truth. The majority of these enter as heathen women. Many of them are induced to attend by their Christian husbands, sons, or relatives who are interested in their salvation. The instruction given is mostly religious; the entire New Testament, and many books of the Old Testament and the Shorter Catechism, have been memorized and explained. The advanced class have been required to pass an examination in the Evidences of Christianity and Church History, and are taught singing. The Seminary is noted, says the Canton report, for its many religious services. Almost every day of the week has some service calculated to increase the Christian knowledge and develop the character and efficiency of the pupils. Contributed in the school \$59.56 for various objects. Its Missionary Society continues the support of two women in the country, who are selling books as a means of gaining access to the people. The Seminary, as a body, attend the Sunday-school and services of the Second Presbyterian Church. Sixteen pupils, namely, 6 women and 10 girls, united with the church. Some are known to have united with the church after leaving the institution. Misses Butler and Lewis have maintained a Sabbath-school in connection with the Second Church. Number of pupils enrolled, 220; teachers, 25.

Day-Schools.—There are 18 day-schools for boys, with an aggregate attendance of 548 pupils. Seven of these schools have been under the care of Dr. Henry, and are located at various outstations. Good work has been done in these schools, though in some instances the boys have been obliged to withdraw in September in order to attend to farm work. Seven day-schools have been under the care of Rev. A. A. Fulton. Some of the native teachers have engaged to some extent in preaching. These schools have been watched over, and in one case an unsatisfactory teacher was dismissed and the school was closed. The day-school at Yeung Kong has been under the care of Rev. Andrew Beattie. The native teacher was baptized in December

and gives promise of being a valuable assistant.

Day-Schools for Girls.-Twenty day-schools for girls, with an aggregate attendance of 647, are scattered widely, one at least being fifty miles from Canton. Seven have been under the general supervision of Miss Lewis. At Kam Li during the month of November a band of robbers set fire to a theatre. The fire spread over the city and 2,000 lost their lives, and 200, doubtless small girls, were kidnapped to be sold into slavery. While the fire was raging a few native Christian women met in the school building and prayed that the building might be spared; their prayer was answered. The depravity of these robbers seems fully equal to that of the Arab slave raiders in East Africa, who are willing to destroy a dozen or a score of lives for the sake of procuring one slave. In one or two of these schools the teachers having had also some medical education, are carrying on some degree of dispensary work. Several schools have been under the care of Miss Butler since October. One school has been under the care of Mrs. Henry, 25 pupils being enrolled; nearly all in daily attendance. The crphanage has also been under the care of Mrs. Henry. Three little (hildren have been received; three of the

infants have died; 16 are now in the institution; one of the girls is studying medicine; one is an assistant teacher in the Canton Seminary; nine others are pupils there; four have been received into the communion of the church, making ten in all of these waifs who have professed their faith in Christ.

Hospital and Medical Work.

"This is the property of the Medical Missionary Society in China, under whose management the whole work of the hospital is carried on, the current expenses each year being met by local subscriptions from the foreign community of Canton and the Chinese officials. The salaries of the physicians in charge are paid by the Presbyterian Board of Foreign Missions, and the evangelistic work, by special provision of the Medical Missionary Society, is under the direction of these physicians."

Since the return of Dr. Kerr to this country the medical work has been under the supervision of Dr. Swan, who has had special charge of the male department. The female department has been under the care of Dr. Mary W. Niles. Hospital duties and evangelistic work have proceeded hand in hand. The illness of Mrs. Lingle at Macao and Mrs. McCandliss at Hainan called Dr. Niles away for a few weeks, during which time Dr. Swan took charge of the woman's department. Of out-patients there have been 17,346 males; 6,325 females; total 23,671. In-patients, males 1,074; females 453; total Surgical operations on males 1,697; on females 811; total Visits in homes by Dr. Swan 100; visits by Dr. Niles 279; operations in homes by Dr. Niles 116; visits in homes by Dr. Niles' assistants 94. Evangelistic work has been mostly under the care of Dr. Swan. A more inviting field, says the report, can hardly be imagined than is found in connection with the hospital work. Regular religious instruction has been continued among the out-patients, and every possible opportunity has been used for giving a practical knowledge of the Christian religion to the in-patients. All who were able have been expected to attend morning and evening prayers. In the wards of the hospital there have been 20 applicants for baptism, of which 16 were admitted; 11 of these were women. Many more patients exhibited a general interest in Christianity, but have not as vet openly confessed Christ. Care has been taken to forward the name of the in-patient to the missionary or native helper nearest to the place of residence, that the work may be followed up. Native evangelists employed in connection with the hospital have labored faithfully; one unfortunately resigned during the year and went to Singapore. A Society of Christian Endeavor was organized in the institution by Dr. Niles in September last; it has 21 members. It has enjoyed a visit from Rev. Dr. and Mrs. Frederick W. Clark, of Boston. The school for boys in connection with the hospital has had an enrollment of about 100; three pupils have been received into the church. A school for women has been under the care of Dr. Niles since Mrs. Kerr's departure, 163 pupils enrolled. Mrs. E. P. Thwing, who has been for a year

a resident of Canton, has kindly assisted in the care of this school; 8 of its pupils have been received into the church. Three have entered the boarding-school and one the woman's training-school. A Bible-reader, supported by the Christian Endeavor Society of the Long Run church, Ohio, is reported as having been diligent in her efforts to lead others to Christ. Faithful work has been done by native Christian women as well as missionaries among the women and girls at the hospital. A medical class, consisting of 16 young men and 8 women, has been in training at the hospital. Dr. Niles has had principal charge, assisted by a faithful medically educated native woman.

School for the Blind.—A school for the blind has been carried on under the direction of Miss Nyrup in a locality known as Honam. A native blind teacher has given the principal instruction and has shown a remarkable talent for teaching. Her pupils have made quite remarkable progress in reading; some of them also in writing and in knitting. This woman has embraced every opportunity for religious work. It is thought that the blind girls thus educated may be made, with the Divine blessing, faithful and efficient Christian workers. They have in almost every case been rescued from a destiny of shame. This school for blind girls, which has a history of romantic interest, owes its origin to the medical work of Dr. Niles in the families of high officials, who have given \$1,000 for its uses. A hospital and dispensarv have been carried on at Yeung Kong under Rev. A. Beattie. Most of the work has been done by the native assistant. Outpatients 11,100; in-patients 14; surgical operations, mostly dental, 431; visits to homes 1,521.

A dispensary has been carried on by Dr. Niles, open on Wednesdays and Saturdays. A faithful native woman has prescribed for patients daily, giving also much Christian instruction. An assistant also has done much work in the same line. In this dispensary 4,656 new patients have been treated. In addition to dental work, about 100 surgical operations have been performed. In the dispensary at Fa Ti, under Dr. Niles' care, there have been 1,062 new patients; return visits 1,065; minor surgical operations 58. Mrs. Noyes and her Bible-readers have given religious instruction in connection with this

work.

Outstations.

Sixteen of these have been under the care of Dr. Henry, namely: Shek-Lung, 60 miles east of Canton; Sam Kong, 8 miles west of Shek-Lung; Wong Un, 20 miles from Shek-Lung; Lin Po, 70 miles east of Canton, where a licentiate and colporteur, a Bible-woman and 2 preachers have done excellent work; Ty Lung, 6 miles from Lin Po. A girls' school has been reopened at this point. Ap Chi Ling, 12 miles from Lin Po. Here is a vigorous church of 54 communicants. Sha Ho, 6 miles east of Canton. From this centre about 60 villages have been reached with Christian influence. Ma Fong, 5 miles from Tai Kat. Here a school building is given free of rent by one of the members. Superstitious neighbors stopped up a well on the premises, on the plea that it was opened on the back of a dragon,

and was therefore injurious to the place. The well had existed for 30 years, but the disturbances of the dragon had only recently been discovered. Ching Chi Ling, 15 miles from Tai Kat. Some persecution has been suffered at this point. Fuk un Shin, 17 miles northwest of Tai Kat. Here a native Christian has given the use of his house for evangelistic services. Widespread interest has been awakened among the Hakka villages. In this neighborhood 4 have been baptized, and there are many inquirers. Ngo Tan, 30 miles north of Tai Kat; Ho Chow, 4 miles from Ngo Tan. A villager having given the use of his house for a chapel, a native preacher at Ngo Fan was induced to give his earnest attention to the place. As a result, 9 men, 7 of whom belonged to most influential families in the place, were baptized. The native preacher has many invitations from influential people to give them instruction. Converts are fearless in giving testimony for Christ. Some opposition was made, but an appeal to the authorities has quieted it. Kang Hau, which is on the Lien Chow River, 210 miles by boat from Canton, has become a station, and is occupied, as stated above, by Mr. and Mrs. Thwing and Miss Gertrude Thwing. The attitude of the people is friendly. The mission property is built on a lot secured by perpetual leases at ro cents per annum. When the house was completed 300 people from the neighboring villages assembled to offer congratulations and congratulatory scrolls. They also partook of the refreshments provided.

Sheui Ho, eight miles from Hang Hau. Services are held here regularly, and one woman was baptized. Tan Fung, on the North River, fifty miles below Kang Hau. Work was begun here at the earnest request of the people, but a violent opposition has been made by a few of the evil-disposed men. Both of the colporteurs have

finally been obliged to give up their work.

The field formerly in charge of Rev. Mr. White, known as the "Four Districts," came under the care of Rev. A. A. Fulton, who has made since that time frequent visits. Yan Ping district. A friendly note was written by the magistrate of the district enclosing his card and saying that he had issued a proclamation warning the people not to molest the missionaries and helpers in their labors. This district has suffered a great loss in the death of Mo Hing Sham, one of the most faithful native preachers. A scholarly man who for years had been a sorcerer, was converted, and after forsaking idolatry he soon began to preach—to the astonishment of his neighbors. He promises to be a very useful man. Two of his sons, one a school teacher, have been baptized.

The stations under the care of Rev. A. A. Fulton are as follows: San Ui, 80 miles west of Canton. Two adults have been baptized; native preachers and teachers have visited 64 villages. Chik Hom, 115 miles from Canton. In July a crowd of men entered the chapel, beat the preacher, and stole \$40 belonging to the mission. No indemnity has yet been secured. Chung Lau, 145 miles southwest from Canton. From this point the native preachers have reached 120 villages. No Foo, 145 miles from Canton. A large number have attended the services in the chapel. The people are very friendly, and great hope

of success is expressed. Fifty-one villages were reached from this point. San Cheung Fau, 105 miles southwest from Canton. San Ning City Chapel is not well located, and the attendance not satisfactory. Some of the brethren therefore contributed toward the purchase of a site and sent an appeal to the Chinese in the United States for subscriptions. Nearly \$2,000 have been subscribed, and it is hoped that a new building will soon be secured. Ku-Tsing opened in 1889; number who attend the services is large; threats of persecution have deterred several who were hoping to be baptized. Kok is 12 miles west of San Cheung-Fau. A vigorous work is here carried on. Shing Fong, six miles west of Shun Kok. This is a large market-place; a chapel has been secured during the year and thousands have for the first time heard the Gospel. In nine-tenths of the villages reached by Mr. Fulton the Gospel had never before been heard. No ill-treatment has been received. Five hundred and eightytwo villages have been reached during the year.

A Gospel medical boat, under the direction of Mr. Fulton and attended by a native medical student, has done good itinerant work. It visits towns on the river, and the native physician in charge prescribes for the sick who apply. This Gospel Medical Boat is supported by four of the Christian Endeavor Societies in the United States. The number of patients who have received medical aid by means of it is 7,940. Each patient pays a 6 cash registration fee, and this amount has provided patients with tracts, of which 6,500 have been distributed.

The "Medical Boat" has done much to allay prejudice.

One outstation has been under the care of Rev. H. V. Noyes, namely, at Macao. Services have been held on the Sabbath, attended by from 20 to 40 persons. The Bible-classes met on Thursday evening. Communion services have been held quarterly. There are ten members connected with the church at this Yeung Kong. This outstation has been under the care of Rev. Andrew Beattie. Now that suitable property is secured this will become a station. The work here has been supported by the men and boys of the South Street Presbyterian Church of Morristown, N. J. Comparatively little preaching has been done in the chapel during the year. Many persons have visited the dispensary, and many visits have been made to the reading-room, under the care of a native preacher. For a long time all efforts toward purchasing property at Yeung Kong have been baffled by opposition. The year closed without success, but since the annual report was written the purchase has been made. Muiluk. This station has been under the care of Mr. C. A. Colman, who has since withdrawn from the mission. There has been much opposition in this place. A man who was suspected of serving our missionaries was arrested and beaten with 600 blows with the bamboo. Finally a native official sanctioned the rental of a place for the preaching of the truth.

Bible-Readers.

The work of the Bible-readers under the direction of Miss Lewis has been prosperous. Five additional readers have been secured during

the year. Three Bible-readers have been under the care of Mrs. Noyes. One formerly under the care of Mrs. Thomson is at work in Macao. Two ordained preachers are reported, and 2 licentiates, 19 preachers, 15 colporteurs, and 2 medical assistants. In the girls' schools 25 teachers are reported, 17 Bible-readers, and 1 female medical assistant.

Literary Work.

Mr. Noyes has completed the translation of the books of I and II Samuel, II Kings, I Chronicles, Ezra, Nehemiah, and Esther. Most of these have been examined and approved by Dr. Henry. Dr. Henry has finished the translation of the book of Isaiah, Proverbs, Ecclesiastes, Song of Solomon, and the 12 Minor Prophets. Most of these have been through the hands of the Committee on Publication. The book of Jeremiah is ready for examination. Mr. Wisner has given valuable assistance in the work of translating, also in the preparation of an algebra for the school. Mr. Noyes has commenced the translation of Bishop Hurst's Outline of Church History and Bible History.

Miscellaneous.

Fifteen colporteurs have sold and distributed 12,000 Gospels and tracts. The Native Booklending and Evangelistic Society has accomplished a good work. This is supported by the members of the churches. A wealthy neighbor has purchased through Mr. Wisner a number of books on agriculture, and subscribed for four leading periodicals in America. He will employ an interpreter to translate them for him.

The new missionaries, Rev. and Mrs. E. P. Thwing, and Miss Gertrude Thwing, and Miss Ruth C. Bliss, M.D., are warmly welcomed, and have made a vigorous beginning on the language.

Hainan Station.

The great island of Hainan has received increased attention from the Board during the past year owing to the great promises of this large island with a million of population, and that of an impressible sort; and especially in view of the fact that the mission of the Presbyterian Board is alone in its responsible occupancy as a mission field. Rev. A. Street and Mr. and Mrs. McClintock have greatly cheered the hearts of the missionaries by their arrival, as had Miss Suter, who arrived earlier and who has recently been married to Mr. Jeremiassen. The number of natives received into the church is larger than in any previous years. The different lines of work have been carried on as usual with the exception of the girls' school at Kiung Chow, which, from unavoidable circumstances, was temporarily closed. A faithful native helper in Kiung Chow has held daily services in the small chapel, and has gone from ward to ward of the hospital instructing and encouraging the patients. He has also made many visits from house to house. Patients received into the hospital have been followed up with spiritual influences after leaving for their homes. Many of the students present at the great Chinese Competitive Examinations have been listeners to the preaching of the Gospel and have invited the missionaries to visit their markets and villages to preach the Gospel. Some even go to the evening prayer-

meetings.

Of schools the principal one is at Nodoa, where 16 boarding pupils are in regular attendance. Good work has been done and there is much encouragement. Of day-schools there is one at Kiung Chow and another at Nodoa, 90 miles in the interior. The former is under the care of Rev. J. C. Melrose, and the latter Rev. F. P. Gilman. Sunday services have been held for the pupils and for all others who were disposed to come to the chapel-room of the school.

Medical Work.

The hospital in Kiung Chow has been under the care of H. M. McCandliss. Very inadequate accommodations have yet been provided, but 315 in-patients have been accommodated for longer or shorter periods during the year. Much greater confidence is shown by the people than at first. As bearing upon the question whether the opium habit is injurious, the medical report states that most patients with dysentery have been saved; no smoker with dysentery has survived. Hospital patients are taken entirely at their own expense, and they pay a small entrance fee; they are supplied with all medicines on the premises, but are charged cost price for medicines taken to their homes. The medical missionary contributions amounted to \$200. Number of in-patients, 315; out-patients, 7,521; opium poisoning, 5; deaths in hospital, 9; operations, 33; \$625 have been received from all sources, more than half of which was from the Chinese.

A dispensary has been opened at Nodoa under the principal care of Rev. F. P. Gilman, though assisted by a graduate from the Canton hospital school. Number of out-patients treated, 7,503; in-patients, 27; number of surgical operations, 125; visits to homes, 75; evangelistic work has been carried on among the patients by the native assistant.

Outstations.

The Christian work carried on at Nodoa has been under the care of Rev. F. P. Gilman. Rev. A. Street has devoted his time to the study of the language. Seven persons have been received into the church, five of whom had been students in the boarding-school. A prominent feature has been the street preaching in the market during the latter part of the year. Mr. Gilman, or the native preacher, with some of the larger boys from the school, have been out in the surrounding country preaching, and dispensing tracts. Most of the towns on the northwest of the island have been visited in this way during the year. Nam-fong, ten miles south of Nodoa, in charge of Mr. Gilman, shows some elements of promise. Mr. C. C. Jeremiassen, with one colporteur, is devoting his attention to the Loi people, who live in the interior, and who are not properly Chinese in their religious faith. It is believed that there is much more hope of success here than with any

other people of China or the adjacent islands. The small printing press at Nodoa has been kept at work largely by the students in the boarding-school. They have printed 500 copies of the Romanized hymn-book, also 24 pages of a Romanized version of St. John's Gospel in Hainanese, translated by Mr. Jeremiassen; 3,800 pages have been printed. Mr. Jeremiassen has also translated a catechism into the Hainanese vernacular.

The report states that a church bell, given by friends in Warsaw, Geneseo, and North Sparta, N. Y., had arrived in the country and was making its slow progress toward the interior. The mode of transport

is not stated.

Mr. Jeremiassen has travelled over a large portion of the island preaching in hundreds of villages and dispensing medicines to thousands. One of the most extensive trips was begun in February, and occupied nearly five months. While preaching the Gospel was the main object of the journey, yet Mr. Jeremiassen was desirous of ascertaining suitable locations for new centres of work. An interesting account is given of his intinerary. Leaving Kiung Chow the seventh of February, and proceeding by way of Nodoa, he moved southwestward until the Central Valley River was reached, then following the course of the river westward, he came to a Chinese walled village, Loking, where a week was spent in preaching and healing the sick. The village is situated on a large plain sloping toward the south coast, and is one of many Loi villages which deck the plain. It is thought to be a most promising missionary station. Then a journey of three days brought Mr. Jeremiassen to Lok-la, on the sea-coast. This is an important market town, and the people were found to be exceedingly friendly, coming in large numbers to the daily services. Many also from the surrounding country came to receive healing. These people, though Lois, speak the Hainanese, and they urged Mr. Jeremiassen to take up his residence with them. After a stay of nine days, a boat was hired and several of the towns on the coast were visited, also two small islands near the coast, inhabitated by fishermen, who listened to the Gospel with great interest. The next place was Ji-lim, at the head of a harbor of the same name. This harbor is well-known as the anchorage of the East India Company's ships while waiting for the change of the Monsoon. Five days were spent among these people, and the place was regarded as a strategic point from which to carry on missionary work. Mr. Jeremiassen returned in a northeasterly direction and then directly north to the centre of the island; the route taken lying close by the foot of the "Five and Seven Finger" Mountains, well-known landmarks for all the Chinese in the southern part of the island. The region is dotted with Hainanese villages, and at the foot of the mountain there is a good location for a mission station. Going still to the north a high plateau is reached. Here the people have been much interested, and repeated requests have been made for schools. This place is two days' journey from Nodoa and very desirable. The journey was an interesting and profitable one. Most of the villages had not been previously visited, and the knowledge gained will be of great value to the mission in extending its work on the island. When the

report was written, Mr. Jeremiassen, accompanied by his wife, had started upon another visit to the Loi country. During the year he has treated about 3,500 sick persons.

Central China Mission.

Ningpo: on the Ningpo River, 12 miles from the sea; occupied as a mission station, 1845; laborers—Rev. and Mrs. W. J. McKee, Rev. and Mrs. V. F. Partch, Miss Annie R. Morton, Miss Edwina Cunningham.

SHANGHAI: on the Woosung River, 14 miles from the sea; occupied as a mission station, 1850; laborers—Rev. and Mrs. J. M. W. Farnham, D.D., Rev. and Mrs. J. N. B. Smith, D.D., Rev. and Mrs. George F. Fitch, Rev. and Mrs. John A. Silsby, Mr. and Mrs. Gilbert McIntosh, Miss Mary Posey, Miss Mary E. Cogdal.

HANGCHOW: the provincial capital of Chekiang province, 156 miles northwest of Ningpo; occupied as a mission station, 1859; laborers—Rev. and Mrs. J. H. Judson, Rev. and Mrs. J. C. Garritt.

Soochow: 70 miles from Shanghai; occupied as a mission station, 1871; laborers—Rev. and Mrs. J. N. Hayes, Rev. D. N. Lyon, Rev. and Mrs. Joseph Bailie, Rev. W.

N. Crozier.

NANKING: on the Yang-tse Kiang, 90 miles from its mouth; occupied as a mission station, 1876; laborers—Rev. and Mrs. Charles Leaman, Rev. and Mrs. W. J. Prummond, Rev. and Mrs. T. W. Houston, Miss Mary Lattimore, Mrs. R. E. Abbey. In this country: Rev. and Mrs. V. F. Partch.

Ningpo Station.

The report begins:

Our station has suffered an irremediable loss in the enforced return of Mrs. Butler to America. The stimulus which we received from the example of her zeal was not the least of her influence. As to the natives, the following extract from the Presbyterial Narrative will show their feeling: "The good example that Mrs. Butler has set for the church is matter of common knowledge. Alas! she has again fallen sick and must return home. It is indeed the Lord's will, but it is the occasion of sadness to the church."

Mr. and Mrs. Partch have been obliged to return by Mrs. Partch's serious sickness, and Mrs. Butler's and Mrs. Partch's work must fall largely on Miss Morton and Miss Cunningham, who will bravely carry it, but who ought not so soon to be burdened with so heavy responsibilities.

Churches.—The Ningpo church has received ten on profession of faith during

the year.

The church of Sæn-poh, which at its beginning forty years ago was phenomenal in its growth, of late years has seemed to be at a stand-still,—the number of conversions barely equalling the number of deaths. Last year, however, two were received. One of these is an interesting case. Several years ago his wife was taken sick, and, the local medical treatment proving unavailing, he was persuaded to take her to Dr. Barchet's hospital in Ningpo. They had the greatest difficulty in persuading him that the doctor's giving the treatment free of charge proceeded from disinterested motives. For months even, after his wite was discharged from the hospital, he persisted in saying, "The world has not any such good men. There is something behind it." In the meantime his wife had been all but converted at the hospital, and was constantly bringing all her powers of persuasion to bear on him. He finally yielded, gave up his cynicism, and believed. Now, what does the wife do but grow cold and inclined to discourage her husband.

The Yü-yiao church reports five additions. One old man of sixty-nine is among the number. He shows most remarkable childlike faith and willingness to be taught. Every Sabbath sees him in his place with Bible and hymn-book. We have one very earnest blind man in the church there. He specially wants

to lead the children to Christ.

The church at Bao-kô-tah has received three. Pastor Üoh writes:

The prayer band in our church, whose custom it is to pray every day at noon, has continued now for two years. The blessing obtained from these prayers is not small. Not only believers but unbelievers have prayed. Although our prayers have not resulted in the conversion of all for whom we pray, yet we believe that many hindrances to belief have been taken out of the way. One of these hindrances is the Manila Lottery, and it has been removed. The business is no longer carried on here. Another is opium, and though the old root still sticks firm in the earth, we are confident that the Lord's power will pull it up.

Ten have been reached at Song-ô, one of the preaching places connected with Zông-yii church. Quite an interest has been aroused.

As far as human influence can be traced, the beginning was a certain man's visiting his Christian relative in Shanghai and coming back with new light in his soul to become an earnest preacher. He had hardly begun to preach before he awakened another soul more ardent than his own. And so the interest grew. Like rumor in the world, each telling of the "old, old story" increased its force, but, unlike rumor, each retelling brought the story nearer the truth. The friends and neighbors of those thus early interested began with one accord

to keep the Sabbath and attend church.

Medical Work.—The latter part of 1891, for about two months, medical work in connection with preaching was carried on at Siao-lu-deo, one of our old stations and churches. It was hoped that both church members and heathen might be stimulated to new interest. Doubtless the attention of many was called anew to the Gospel by these special efforts, but there were no visible fruits. Patients, however, were numerous, about 1,200 in all. In the spring of this year similar work was carried on in Yü-yiao. The patients numbered only 267. The workers especially enjoyed their afternoon work, that of going out into various parts of the city and country to preach. They visited several Buddhist monasteries and nunneries, finding ready listeners, especially among the nuns, some of whom listened with tearful eyes and confessed that they longed for this salvation. Drs. Zi and Yiang have spent the most of the time with their fathers, pastors respectively of Ningpo and Tsiu-'ông churches, and doing more preaching than healing.

The Presbytery.—The Presbytery this year has had rather an uneventful meeting. An arrangement was made at it with the Shanghai Presbytery jointly to establish a theological seminary. It will be begun on the peripatetic plan.

The teachers will remain stationary at the different stations and the pupils will

go to them in turn.

The Presbyterial Academy.—The total contributed for the Academy has been \$124, as against \$74 for last year, the increase being almost wholly from native sources. There are at present thirty-two pupils, about the same as last year. During the year four have been received into the church and four more are now applicants for baptism. There is a band, organized by the boys themselves, which meets nightly for prayer and Scripture reading. There are four day-schools with sixty pupils.

The Girls' Boarding-School.—Miss Morton reports as follows:

The year just closed has been an eventful one in the history of our school; a new superintendent was installed, and practically a new building was erected. The departure of Mrs. Butler was a great loss to us, for her advice and experience were invaluable in beginning our new work.

We can now receive about fifty pupils comfortably. At present we have

forty-three enrolled, eight of whom were received this year.

Eleven of the girls now present are church members, two having united during the year; there are also five inquirers. All of the others are under

fourteen years of age.

The Saturday evening prayer-meetings for the Christian girls have been continued during the year, led by myself, and on Sunday evenings a more general meeting was held, attended by all but the very youngest, and conducted on the Christian Endeavor plan.

The girls each contribute their mite toward the support of the church, the older ones subscribing regularly. At Christmas they made their annual offer-

ing for foreign missions.

We have met with some encouragement in the matter of foot-binding, or rather un-binding. The seventeen-year-old daughter of our Ningpo pastor unbound her feet and entered the school this year. Fearing her idea might only be to study a year or two, and then re-bind them on leaving the school, I questioned her as to her motive. She replied, "I unbound them for the sake of Him who gave me a soul to care for!"

One of the girls who left the school last winter had always been in the habit of re-binding her feet during the vacations, but she writes me that she has not bound them this time, and does not intend to. Still another who leaves this year is struggling with her conscience in the matter, and has asked her

mother's permission to leave them unbound.

Girls' Day-Schools.—Mrs. Partch and Mrs. Butler had supervision of these, but Miss Cunningham has charge of them now in connection with Mrs. McKee,

Itineration.—'The Bible-readers have spent two months in itineration among the different stations. Mr. Partch writes:

One trip of the Bible-readers may be described a little more in detail; viz., that to Ling-sæn. The party consisted of Mrs. Partch and three Bible-readers, together with a few impedimenta, such as the writer, the baby, and the baby's Ningpo cow. For two weeks daily trips were made either on foot in the immediate vicinity of Ling-sæn or by foot-boat to the farther villages. Much interest seemed to be aroused, and some came to church at our invitation from villages three miles distant. The writer and his teacher, together with Mr. Dzing, our helper there, went out book-selling and preaching every day, and always met respectful treatment and sometimes close attention.

Work for Women.—Mrs. Butler reports concerning a Sabbath afternoon class which met in her study:

It was composed of the mothers who, on account of young children or babics, were not able to go to the Sunday-school. They brought their children

with them, and no one minded if they were not just as quiet as mice. These young women and the women from the school made on an average a class of about twenty members. We always spent an hour or two in profitable study of God's Word.

Mrs. McKee reports the Woman's Industrial Class in good condition.

The Mothers' Prayer Circle has regular meetings. Mrs. Butler reports:

The school for Christian women was opened the latter part of October. Mrs. Tsiang Æ-tsia was called in from her work in the country to assist me. She was much astonished at being chosen for the teacher, and with tears in her eyes she remonstrated, saying, "I know you have made a mistake in calling me to assist you in this work: it is very important that the women should have a wise and patient teacher, to whom they can go for help and counsel, who will influence them for good, both by precept and example: I am so weak and inefficient that I tremble to undertake the responsibility.

Nevertheless, to the patience, gentleness, tact, and good Christian influence of this humble Chinese sister is due much of the success of the school. For more than a month, while I was confined to my room with a fever, she had the whole burden of the work on her hands, with no help except such as she could get by coming to me in my sick-room. In her weakness she trusted to

the mighty power of God, which never fails!

The school was in session eight months, with a vacation of three weeks at The whole number of women in attendance from October China New Year. to June was twenty, which includes the six Bible-women, whom Mrs. Partch and myself thought it advisable should have a month's special instruction in the Bible before entering upon their year's work. Our study with the Bible-women was in the Acts of the Apostles. The Holy Spirit was manifestly present with us to unfold the word and to fill us with desire for His mighty power to work through us in consecrated service. I am sure the Bible-women never before saw so clearly that it was Jesus and Jesus only that the Apostles preached and taught as the Gospel message, and that they went forth to their work fully convinced that this was the message they were to carry to their heathen sisters.

This experience, more than ever, convinces me that the principal work of the missionary is to teach the word of God to the Chinese converts, especially to those who are to work as evangelists among their own people, so that they being filled with the Word, to the expulsion of heathen superstitions and ceremonies, will live and teach a pure Christianity.

Of the other fifteen women who were in the school, ten were Christians, four were enquirers, and one, a heathen woman of the higher class of Chinese. The women recited to me daily the lessons they had learned with the teacher's

help the day before.

Their mental progress was remarkable, for without exception they worked

diligently and faithfully.

But it is not so much of the mental progress of these women that I would speak, nor yet of their personal history, but of the wonderful change which was wrought in them spiritually, as day by day the Holy Spirit blessed to them the explanation of God's Holy Word. Our plan was to read to them day by day the life of our Lord as St. Luke gives it, supplemented by some of the other discourses, miracles and parables related by the other evangelists, and talk about the portion read, in the most simple manner, so that they could grasp the lesson and repeat it to me the following day.

It pleased the Holy Spirit to use the story of the first Passover, in connection with the story of our Lord's suffering and death, to convey to the minds of these women the wonderful doctrine of salvation through faith in Christ's re-deeming blood. The heathen woman who came simply to study, is a remarkable instance of God's grace in bringing indifferent people under the power of the Gospel. Mrs. Wong did not desire to learn "this new way"; all she wanted was to fit herself to earn a livelihood. Brought up from birth as a lady, with servants always at command and depending on them as only Chinese ladies can, it was a trial and mortification to her to be seen in the company of women who were of the same social standing as her waiting-maid. She was ashamed to be seen entering the school, wanted to be allowed a private room for study, fearing to be seen by visitors to the school, was indifferent to the rules and regulations, which gave us no end of trouble and work for a few weeks.

But gradually, as she became interested in the story of the Gospel, all this changed: instead of being late, she came early, so as not to miss any of the Bible lesson. For days she seemed anxious and excited during the morning lessons, and at last cried out, interrupting me as I was pressing home the offer of grace, "What must I do, what must I do?" She declared herself convinced of the truth of the Gospel and said that she would from that day follow Jesus, and begged to be taught how to serve him. In talking with her about living a Christian life I asked if her husband would be willing. She said, "Yes, he is willing, but he does not know what this religion is; he has never been taught about the new birth, the turning of the heart to serve God, this inner life. Oh! he does not know, he does not know what it is to be a Jesus disciple." Her husband came once with her to visit me, and twice, alone, I learned from him that she was in the habit of praying regularly every day, and that she was teaching him and their children that which she had learned at the school. The husband and wife spend their evenings in the study of God's Word. Not being satisfied to confine their study to the New Testament, they asked for a copy of the Old Testament, that they might "read all that the Holy Classic contained." The husband, as well as the wife, seems deeply interested, but they have still much to learn concerning God, and of what He requires or forbids of those who would serve Him. There are many sacrifices to make, many persecutions to endure.

Shanghai Station.

The report begins:

The work, too, has everywhere been encouraging, with real progress "all along the line." All have had a share in the burdens and responsibilities, as well as the joys of laboring for the thousands of poor lost ones at our very doors

Evangelistic Work.—Dr. Smith has traversed all the main streets and nearly all the alleys of the great eastern suburb, where there is no other means of grace, having preached and talked on the streets, in the tea-houses, in the shops and homes of the people and wherever he received an invitation or encouragement. He has been direct and personal in his talks, and usually well received. On Sunday afternoons he has preached at a day-school, with an audience of from fifty to one hundred persons.

A similar work has been prosecuted by the native assistants in our three outstations at Tseu-p'oo, 'Au-so and Soong-kong. Natives are better adapted to this work, and special prayer is made by a prayer union, spread over China and distant lands, that God will raise up devoted native evangelists in this country.

Day-Schools.—Sixteen day-schools are under the care of Dr. Smith, Mrs. Farnham, Mr. Silsby, and Miss Posey and the Second Church. As Miss Posey well says in her excellent report: "As evangelizing agencies day-schools can scarcely be overestimated. I am glad to report that more has been done in this line than ever before; not only because of more efficient native assistants, but because of both Mrs. Silsby's and Mrs. Smith's work. 'A little child shall lead them,' and every little one opens a door to enter into his home; with this in view the schools have been divided up, giving each helper a chance to enter these open doors."

Only a few of the scholars are from Christian homes. Any Christian Endeavor Society at home can help by sending attractive cards, even advertisement cards, for use as prizes in the schools.

Day-school Statistics.

| Dr. Smith's | 6 schools; | boys, | 176; | girls, | 25; | total, | 201 |
|----------------|------------|-------|------|--------|------|--------|-----|
| Mrs. Farnham's | 3 '' | | 55; | " | 45; | 6.6 | 100 |
| Miss Posey's | 5 '' | 6.6 | 133; | | 68; | 6.6 | 201 |
| Mr. Silsby's | I " | 6.6 | 36; | | | 6.6 | 36 |
| Press Church | I " | 6.6 | 22; | | | 6.6 | 22 |
| Total in | 16 '' | 4.6 | 422; | 6.6 | 138; | 6.6 | 560 |

Girls' Boarding-School.-Miss Cogdal says: "The total enrollment for the year was thirty-one pupils, and fourteen of this number are children of native Christians. Of the thirty-one pupils nineteen are communicants, six having been admitted this year.

"The girls do their own housework, sewing and washing, and receive in-struction in native embroidery. The labor of overlooking the pupils in all this work is very much lightened by the faithful help rendered by Mrs. Dzau, a Christian widow, whom we were so fortunate as to secure as school matron,

and who is able to assist with the teaching." "I believe most of them try very hard to be good, obedient girls, and some of them give promise of becoming exceptionally good women and earnest

Christian workers. When we think of the women now doing earnest Christian work, who were pupils in this school in the days gone by, we thank God

and take courage.'

The Lowrie High-School for boys is under the superintendence of Rev. J. A. Silsby. Forty-five pupils have been enrolled during the year. Twelve are church members, and several others have applied for membership. Eight have been received into the church during the year. Three,—all church members,—have left the school, and are engaged in printing offices. The pupils have prayer-meetings twice a week, conducted by themselves. Some give promise of great usefulness as Christian workers.

There is a theological class of four young men.

Sunday-Schools.-The one at the South Gate is the largest, has raised the most money, -\$48 this year, -and is probably the most efficiently organized. It was begun in 1870, and has continued without interruption. As many as 365 persons have been in attendance, and during the past year, on one occa-

sion, there were 265 present.

Prayer-Meetings.—Five prayer-meetings, composed of little groups, are held on the same evening in different places by the members of the Third (Hongkew) Church. A weekly meeting is held at the South Gate for prayer that God will raise up native evangelists, and another is held for Christian workers. A weekly prayer-meeting and Christian Endcavor Society is held at the Second (Press) Church.

Woman's work has received more attention this year than ever before. Every woman in the mission has a share in visiting from house to house.

Mrs. Smith has a class twice a week for training the women of the church. Miss Posey speaks of the good results already apparent from this class. She says of the pastor's wife: "I never heard Mrs. T'aung talk so well before. In explaining sin she said, 'I am commanded in God's Word to tell you of this Gospel, and if I don't I would be committing sin.' Paul said, 'Woe is me if I preach not the Gospel."

Presbytery.—The Presbytery resolved not to aid any student for the ministry or license or ordain any one who uses tobacco or intoxicating liquor.

Literary Work.—Dr. Smith has been preparing an Introduction to the Study of the Bible for the Theological Students, Mr. Silsby has had charge of a monthly Sunday-school paper, and Dr. Farnham, at the request of the American Bible Society, and with the approval of the members of the Mission, has

been engaged with Archdeacon Thomson in revising the Shanghai Colloquial New Testament.

Dr. Farnham has, as heretofore, been associated with the Rev. I. E. Cardwell, of the American Bible Society, in editing The Child's Paper and The Chinese Illustrated News, two monthly religious magazines.

All the Tract Society's printing is done at our Mission Press, and 286,931 books were sold or given away during the year, mostly sold at nearly the cost

price, making a total of about 4,380,156 pages.

Instances of the usefulness of Christian literature are frequent.

Nearly seventeen years ago the Venerable Archdeacon Moule translated for The Child's Paper the story of the Russian Serf, who, when his master's family was attacked by a pack of hungry wolves, threw himself off the sledge to be devoured while the family escaped. On a recent Sabbath morning one of our students for the ministry preached in the Hongkew chapel on the text, "He saved others, himself he cannot save," and illustrated and applied the truth very forcibly. Among other illustrations he told the story, published so long ago in I'he Child's Paper, of the Russian Serf who saved others, but himself he could not save.

A few months ago Mr. Woo took into the pulpit Dr. Edwards' Seventy Resolutions, translated into Chinese by Dr. Blodget, of Peking, and published by the Chinese Religious Tract Society. After reading and expounding the Scriptures, he took up this little book and spoke of the great good he had received from reading these resolutions, and said he would read and explain them from Sabbath to Sabbath, and then he had twenty more of his own that

he would add. Among those which he added were:

r. "We ought in the presence of rich people and officials not to be ashamed to confess that we are Christians.

"We ought not to fear the idols.
 "We ought to contribute more liberally for the support of the Gospel.

3. "We ought to contribute more liberally for the support of the Gospel.
4. "We ought to preach the Gospel, though not employed or paid for it."

The Mission Press.—The printing done at the Press for all parties, under Mr. McIntosh's superintendence, he says in his very interesting report, amounted to 995,496 books, tracts, etc., making 42,418,457 pages. Of the 92 men employed in the Press, 38 are church members, and 21 are members of the Christian Endeavor Society.

The 2d Church, connected with the Press, has opened a branch preaching chapel in a thickly populated district, where regular services are held with an

audience of thirty or forty persons.

The following is the report of production in detail:

| | Copies. | Pages. |
|----------------------------|---------|------------|
| Scriptures | 384,900 | 27,879,600 |
| Religious Books and Tracts | 347,340 | 8,041,585 |
| Calendars | | 385,600 |
| Chinese Magazines | 229,000 | 4,347,600 |
| English " | 14,300 | 805,800 |
| Miscellaneous | 19,956 | 958,272 |
| | 995,496 | 42,418,457 |

Mr. McIntosh adds:

Truly thankful are we for the Press and for the increasing influence of its publications. These latter accompany the missionary in his houseboat, or cart, or on his wheelbarrow, or in his pocket. After he has gone, they go on telling their story and delivering their message in tea-house or yamên, or by the way; and when the missionary has to turn back he sends on these tireless, fearless, faithful messengers to the regions beyond.

Mr. Silsby closes his report of the work at the South Gate with the fol-

lowing summary of some of the encouraging features of our work :-

I. A larger and better equipped force of foreign laborers.

2. We have been less cramped for money,—partly on account of the cheapness of silver, which is the currency of the country.

3. A larger and better attendance at our schools. A better class of schol-

ars and a better and more systematic work.

4. Encouraging growth in the church and increased earnestness on the part of native workers.

5. A larger and more systematic work among the women.

6. Increased itinerating and evangelistic work.

7. Larger and more regular Sunday school attendance.

8. Increased contributions and adoption of a better method of giving.

9. Buildings and grounds in better condition.

We feel encouraged to ask God for even greater things during the coming year, and ask all our friends to join us in prayer for abundant showers of blessing.

Hangchow Station.

The report begins:

We make our report with more hopefulness than for some years past. We can bear record to the faithfulness and zeal and prayerfulness of our native helpers. There is a desire for a higher degree of spiritual life among the Christians. The actual results of the year's work are more encouraging. Doors are opening, into which we will not fail to enter, if we can have needed reinforcements. One worker has been added to our number by the marriage of Mr. Garritt to Miss McDannald, of the Southern Presbyterian Mission.

Mr. E. L. Mattox, of McCormick Theological Seminary, has been appointed and assigned to the Central China Mission in fulfilment of the Board's promise to send some one to help here at Hangchow.

The Educational Work.—The High School.—The school year has been one of quiet, steady work. There are at present three native teachers, two of whom are themselves products of the school. One, Mr. Tsang, has been out nearly three years, and bids fair, with maturity and experience, to be an efficient help.

The present number of scholars is forty-five. Of these eighteen are professing Christians, and all but eleven of the others are from Christian families. At each meeting of the session some have presented themselves for member-

ship, and six have been received.

The industrial department has been dropped for the present, simply because we had not the time to look after it. We still feel the importance of this part of the work, and shall renew it as soon as our needed help shall arrive.

The Young Men's Christian Association and the Debating Society have

been carried on as usual.

This year completes the first decade of Mr. Judson's superintendence of the school. At the first the scholars were indentured to remain in the school till nineteen years of age; now there is a course of study covering ten years, and scholars are indentured to complete the course. Previously but little had been done in teaching the sciences; now there is quite a full course in Mathematics, Physics, Chemistry and Astronomy, and apparatus has been added to the amount of not less than two thousand dollars. A not inconsiderable part of the apparatus has been made in the school.

In ten years 99 boys have been in attendance. Of these, 45 are now scholars. Of the remaining 54 the majority were in the school for only a few months on trial, and were dismissed for various reasons. Some were dropped out after three or four years, 16 have been fully graduated; 12 of them belong to Christian families, and all became members of the church before leaving school. Four are licentiates, four are day-school teachers, three are personal teachers, two are teaching in the High-school, one is teaching English, one is studying medicine, and one is in business for himself. One of the licentiates

is superintendent of the Ningpo Presbyterial Academy.

The Day-schools.—The three day-schools in llangehow were given over by Mrs. Judson into Mrs. Garritt's hands. The South-end school is reopened with 14 scholars. A school has been opened in a hitherto unreached neighborhood, and seems to be favorably regarded by the people around. are 11 scholars. The Bi-z school has about 20, and the school at Sin-z 12.

The Churches,—There is a net increase of eight communicants in the Hangchow Church. Two of those added are old women, both over 70 years old, living in a small village at a distance from Hangchow. There are others in their village and neighboring places who are anxious to learn the truth.

The Sunday-school aids in the support of one of the Bible-women.

Three have been received into the communion of the Sin-z Church by pro-We would be glad to open a dispensary in Sin-z if we had the physi-The people in that region still think that foreigners use unlawful medicines in propagating the Gospel, and when they see the Christians partaking of the communion, say that the elements are medicines and potions of some

Evangelistic Work,-"One very interesting work we engaged in, early in the year, together with the workers of other missions. This was an organized canvass of the whole city, preaching the Gospel in all the streets, large and small. The plan will be continued next year, it being only possible to devote the two months just after New Year to it. We also hope to follow up the impressions made by more individual work. But our present force of workers is all too small.

"Itinerations to the west of Hangchow have been fruitful. A marked change is reported in the attitude of the people toward our preachers. They are listened to with more respect and interest. Several villages in Siao-san district have also been visited, and a number were earnest in their desire to

know more of the Gospel.'

Soochow Station.

Mr. Lyon was home most of the year, leaving the work to Mr. Haves and Mr. Bailie and Mr. Crozier. The two latter are still hard at work on the language. Mr. Hayes has had supervision of the chapels and the schools. There are eight day-schools, with a total average attendance of eighty. A boarding-school has been opened, a small appropriation having been made for the purpose, by Mr. Hayes.

Chapels.—T'song-men Chapel.—At this chapel Mr. Zia preaches daily. The school at this place numbers only nine pupils. Though we provide school-house and teacher, the poor people of this district are so destitute that they are compelled to keep the children of school age at home (?) to help to earn a pittance. Mr. Zia says the rich are too rich to come to our school at all, and the poor are too poor to come in large numbers.

Miao-zien Chapel.-With the exception of thirty days spent in the country, Mr. Hayes, accompanied by Mr. Chang, has preached at the Miao-zien Chapel

every week-day afternoon.

At the Wu Sa-jah chapel our colporteur, Ah Sen, preaches four afternoons

in the week.

Church.—The church at this station for some years past has been without a staff of officers. This year three elders and two deacons were elected. The church numbers 30 members, 15 male and 15 female. We had three baptisms two adult and one infant. At present there are three enquirers.

One of the saddest events of the year was the suspension of a young man, Ah Pao, for opium smoking. Though he had been to Dr. Park, of the Methodist Mission Hospital, and had come out as cured, and had walked in our midst for two years, still he had been constantly indulging in this curse. Finally it

became known and he was suspended.

Dr. Park says that nine out of every ten of those reported as cured of the opium habit follow the same course. Their first race on leaving the hospital

is to the opium den, or if they don't immediately indulge, they go to drown their first troubles in forgetfulness. The other tenth, though not actually possessed of an opium devil, quietly indulge in the drug at their own homes.

Evangelistic.—Mr. Bailie writes of an interesting itinerating tour:

Came back to our boat and went on west till we reached Moh Doh, a town of considerable extent, but where nothing is being done more than that Dr. Dubose of the Southern Presbyterian Church has a chapel which he visits once a week or fortnight or maybe monthly. At this place I made an attempt at preaching to a big crowd that surrounded me on a bridge. But there happened to be a man present who had heard Dr. Dubose, and he spoke up and boat and went off for Kwaung Foh. On the canal between Moh Doh and Kwaung Foh are two places, villages, called the Little and the Big Stone Wharf. Here there are about 2,000 or 3,000 stonecutters and quarriers. Here my teacher and I both addressed crowds, and though the place is farther from Suchow by four or five miles, the people understood me better than those at Moh Doh seemed to do.

We next came to Lung Doon Djao. At this place the canal is clear and broad, and as it was near night we resolved to stay over night there. were very well received. We went around and informed the villagers that we were going to address them on Christianity, and went back to the boat and sang "Jesus loves me, this I know," in Chinese, whereupon the whole village assembled as at the ringing of a church bell. When all had come we addressed them. My teacher followed me and explained more clearly the drift of what my address was, and I never saw any man, Chinaman or foreigner, that spoke with more moral earnestness than did that young man with his already bright face lit up by the glories of the sinking sun, as he stood on the stern of our little boat beside me, and addressed that perishing crowd. No doubt the Spirit of God was working in the hearts of those poor, ignorant people. One man who seemed to be the elder and sage of the village would interrupt now and then with very pertinent questions, which were all well answered by my friend Mr. Li. When the shades of night came on and we had to shut the world out of our little boat, it was with some of the saddest and sweetest reflections that a review of the day was taken: sad when we looked at Kwaung Foh, but sweet when we considered the little village beside whose banks we were spending the night, and where the Gospel had been listened to so intently for the first time.

On the night of the 21st of November we stopped at San Vn Dyao. In the dark I perceived one man and spoke to him of sin and death and a Savicur and life. He invited me to go ashore and enter his house. I did so. The village assembled, and they all listened to me for nearly two hours. They all said that what I said was very true. Went to sleep with thankful heart.

I have no doubt as to turning the people of the country to Christ as soon as they understand enough to open the way to their hearts for the Holy Spirit. Townspeople seem to me to have received the hardening of their hearts already.

The country folk are sincere and more open to conviction of the truth. have met some few who had heard the Gospel before. One man who lived away in the recesses of the mountains, is, I think, a Christian at heart. He said he believed all I told him. As soon as the spring makes it warm enough for me to venture out, I'll have to visit that man again.

Nanking Station.

In December, 1891, Miss Law was married to Mr. Drummond. Last September Mrs. Abbey returned to the station, leaving two of her children in the United States. She was eagerly welcomed, and writes joyfully of the goodness of being back in His good and large service in China.

Opposition.—The effect of the riots has now disappeared, but we are still made to feel that we are under official disapproval. If any opportunity occurs to throw obstacles in the way of our work it is not lost. The opening of a new country station was met by the imprisonment of the man who rented us the building. One Bible-woman was refused the right to pay the annual taxes which confirm her in possession of ancestral land. The granting of a title to a new piece of land has been refused during the whole year. When a street chapel was broken into and the keeper beaten severely, only the slightest attention was grudgingly paid to it, and when our large bell and other articles were stolen from the central chapel, no attempt was made to find the articles or the thief. Evil reports are too common to deserve special mention. In various ways Satan finds many tools ready to carry out his wishes in opposing the work of our Lord. But he cannot prevail. Those who are willing to hear are more than ever before, as also the open avenues for welcome work.

Preaching and Itinerating.—Mr. Leaman has preached in the central chapel on Sundays and Wednesdays. A native preacher has been telling the story of Jesus constantly at Tong dsing, a country village surrounded by ninety-three farm-villages. Some vicious official opposition has been broken down. Mr. Drummond is expecting to itinerate with Mr. Houston more and more in the wide-open country districts. Our work must push out into these districts.

Woman's Work.—The Woman's Training-School has had fourteen

pupils. Miss Lattimore has had charge of it.

Ah-Ming Sao helped to teach, and was always ready when called on to do all in her power. She was a great help in more ways than one, for the women all liked and respected her. It was impossible to classify the women very well, but five kept together quite well in the Sunday-school Lessons, and three in a little Primer. The Sunday-school Lessons, Peep of Day, the Catechism, a Primer, and recognizing Chinese characters, were taught. Besides, two women used Luke's Gospel for a reader, and one used Mark. Being much cramped for room, we overflowed into the dining-room and Mrs. Drummond's class-room.

Two Bible-women have visited outside constantly.

The Sabbath-School.—Our Sabbath-school is a very encouraging feature of the work. It is superintended by our Boarding-school teacher, Mr. Li, and has 13 classes under competent teachers, and there are from 90 to 110 in attendance, both old and young. Mrs. Drummond has an especially interesting class of fifteen little tots.

Z Girls' Boarding-School.—Mrs. Leaman says:

The Boarding-school had been opened three months before our return by our faithful Chinese teacher, Mrs. Li. We returned very unexpectedly to our people, and when, a few moments after our arrival, I went into the school, I found everything going on in the best of order.

Two girls from the school united with the church during the year. Now all

over twelve years of age are professing Christians.

Two of our first class of girls are still with us. They have finished geography and one book in physiology, and are well on in the second book of arithmetic. They have also committed to memory the Child's Catechism and the Shorter Catechism, the whole of the New Testament and part of the Old.

We have had fewer applicants this year than formerly. This is because we insist on unbound feet, but we feel sure we can get all we can accommodate.

They must come in as God made them.

Two of our girls married from the school this year, and are still with us as our helpers. They were both engaged when baby-girls to heathen boys, but before marriage both of the young men asked for baptism, and now we have two Christian homes,

Boys' School.—At present there are sixteen boys in the school, of whom five are baptized Christians, and four more have applied for baptism. One boy went from the school as a helper with the Baptist mission in Szchuen.

The school has now been placed under the care of Mr. Houston. Mrs. Abbey expects to devote a large part of her time to it, and will be a great

assistance.

There are three day-schools, none of them large as yet.

Summary.—Three city chapels, one outstation, one country preaching circuit; girls' boarding-school, boys' boarding-school, women's training-school, Sabbath-school, and three day-schools; forty-one baptized communicants, of whom ten have been baptized since our last meeting, and fifteen baptized children. Among these, six are teaching in our schools, three are preaching, two are Bible-women, one is a personal teacher, and three others are teaching in the Sabbath-school; eight more have asked for baptism and have been taken as probationers. We hope that an organization may soon be effected.

STATISTICAL TABLE.—FOR THE YEAR ENDING SEPTEMBER 30, 1892.

Peking Mission.

PEKING: the capital of the country; occupied as a mission station, 1863; missionary laborers—Rev. J. L. Whiting, Rev. John Wherry, Rev. and Mrs. A. M. Cunningham; Robert Coltman, M.D., and wife, G. Y. Taylor, M.D., Miss Grace Newton, Miss Marion E. Sinclair, M.D., and Miss Jennie McKillican.

In this country: Mrs. J. L. Whiting, Rev. J. W. Lowrie, B. C. Atterbury, M.D., and wife, Mrs. Reuben Lowrie, and Mrs. John Wherry.

The past year in Peking and vicinity has not been marked by any unusual manifestations either of religious interest or of opposition. There has been steady healthy growth along many lines, while there have also been discouraging features. Among the latter have been some sad manifestations that the native Christians have not yet attained, neither are already made perfect; the drifting of a number of our members at San Ho toward Romanism—since there has been no one who could take up that work since Mr. Whiting's return to America; the unhappy condition of the church at Cheng Chia Chuang, where the native helper sent there to minister was not kindly treated. All these are only calls to new and more earnest prayer on the part of the Church at home. Among the encouraging features of the work are the regular and large attendance of attentive hearers at the street chapel; the genuine growth in Christian character of not a few of the members and helpers; the increasing number of families that open their doors to the Christian physician and teacher; the good-will manifested in our several schools and the faithful work done by the sixty-three pupils in our two boarding-schools and the forty-five in our five day-schools; the large attendance on the week of prayer services and the manifest desire for more of the power of God's Spirit; while thirty-nine persons have been received into church membership during the year.

The depleted condition of the working force has compelled retrenchment rather than allowed advance. The report says sadly: "Ours is a struggle for maintenance rather than a vigorous pushing into new and opening fields. Mr. Langdon is engaged in the home field. Mr. Lowrie's ill-health compelled his remaining in America a second year; while Mr. Whiting has also been at home on furlough." Since this report was written and before it was received a cablegram announced the death from small-pox of Mr. Young. Mr. Young was graduated from Princeton Seminary in 1891, and went in the fall of that year to Peking. He has been taken apparently from the very threshold of his life's work, yet taken to the work of the larger life in the land where His servants see His face and serve Him. His quiet and faithful earnestness will find scope for yet larger service there. Some one must be found to take his place, and others must go to enable the mission to press out from Peking to take possession of more

land for our Redeemer.

Evangelistic Work .- Dr. Wherry reports:

"I have had during the year 1892 general charge of the native evangelists. Of these the Rev. Chia Lan Fang has been chiefly employed in preaching to the Christians and evangelizing the heathen in the villages of San Ho Hsien, forty miles east of Peking, whither he has recently removed his family to re-

side permanently. On account of the present utter inadequacy of our mission force, the very promising work of that region has through the year been necessarily but feebly sustained, and its eventual outcome is giving us grave con-While few, and we hope none, of our church members are in danger of reverting to heathenism, we have had serious apprehensions of a perversion of a considerable number to Romanism, agents of which have been active amongst them. It adds to our regret that an employé of our own mission, though not a member of our church, aided for a time this threatened movement, having himself by a second baptism become a pervert to that church. We are anxiously awaiting the return of our absent missionaries to take up again earnestly the San Ho work. In the meantime Mr. Chia is trying to strengthen the faith of those already baptized, and to instruct the new inquirers that are still from time to time met with. He has been assisted by two colporteurs, Mr. Sun and Mr. Lu, the latter of whom has recently been removed to Hsi Shan. A Christian school under a resident church member adds a little to the light. In the city of Peking the Rev. Teng Ying, husband of the chief and very efficient teacher of the Girls' Boarding-school, has given his time to daily preaching in the chapel on Yen Tai Hsieh street. The audiences continue here, after twenty years work, to be large, and outwardly respectful and attentive. Among the few specially interested a Manchu bannerman is noticeable, as having after years of apparently fruitless attendance at last come out as a decided and earnest Christian. Such instances encourage us to look for present fruit in street preaching, though generally the most marked result is the very wide diffusion of the name and claims of Christ, which is, we believe, preparing the way for future extensive Christian move-ments. Mr. Yang Tsai Chih, licentiate, is in charge of the station at Shih Chih Fu, in Ku An Hsien, forty miles south of Peking. Though the only persons of that station who have been baptized (except a former school-girl, recently married), have removed to Peking, there are a number who are Christian in conviction, and who have desired earnestly to have a preacher sent to To these and their families Mr. Yang has free access, and through them he is introduced to an indefinite circle of heathen relatives and acquaint-The colporteur Lu, now at Hsi Shan, twelve miles west of Peking, is a most devoted worker, and has brought a number of persons into the church. For our station at Cheng Chia Chwang, forty miles north of Peking, we unfortunately have at present no man that can be spared.

"The instruction of several classes of inquirers on the mission premises has been shared by Mr. Teng and myself. Some of these inquirers have already been received into the church and others are candidates for baptism."

"Church.—I have remained during the year stated supply of the First Church, the membership of which now approximates two hundred. Of the Sabbath-school, one of our personal teachers, Li Tsung Chih, is the efficient superintendent. In the First Church twenty-nine adults and several infants have been baptized within the year."

Literary Work, etc.—Dr. Wherry says:

"I have given much time to the North China and Chinese Religious Tract Societies, in both of which I have editorial duties in examining and revising tracts, preparing Sunday-school lessons, and writing articles for the North China Church News. I have given still more time during the latter half of the year to the Bible translation work now in progress, being one of five members of the committee for the higher classical style."

Boarding-Schools.—Girls' Boarding-School.—Miss Grace Newton writes:

"The school for the past year has been very free from illness, for which we are very thankful to God. We opened school in the autumn with thirty-six pupils, but for various reasons eight have left, so that now the number is twenty-eight. This is a smaller number than we have had for two or three years. The spirit of the school has been good throughout the year, and just

at present, as a result of the week of prayer, there is considerable earnestness among the Christians. For the past ten days five girls have been meeting in my study every evening to pray for those who are not Christians. The assistant teacher, who had done faithful work for two years, married in June and was taken away to Shantung, but her place has been admirably filled by another pupil, now promoted to be teacher. The new assistant, like her predecessor, is organist in the First Church. She also gives one of the younger girls music lessons. The standard of scholarship is slowly rising. The girls, though by no means so bright as American girls of corresponding age, are still quite diligent, and make fairly good progress. One more step toward self-support has been taken, namely, insisting on the girls paying for their own books. I mark them for their lessons, and according to the number of perfect lessons give them money. With this money they help to pay for their books, pens, etc."

Boys' Boarding-School.-Mr. Cunningham reports for this school:

"We feel very thankful for the general good health. The attendance will average about thirty-three. A year ago a number of boys had to be dismissed on account of hostility to the principal Chinese teacher. Other boys have been admitted, however, and now our number is about what it was last year, while the order and spirit of harmony manifested now in the school is most There has been improvement over last year in the quantity and character of the boys' clothing. Our boys contribute half their Sunday lunch as a weekly offering, while a considerable number at Christmas gave of their own few cents either to the church or to make some very poor person happier, because it was Jesus' birthday. One boy said: 'I've only one cent, but I'll give that.' So he did. Each Sunday afternoon the boys write out what they can of the morning sermon. The smallest commit the text to memory, while it is often gratifying to find that certain of the better minds have grasped the salient features of the sermon in outline, incident, and teachings. For Sundaymorning prayers a new hymn is committed to memory, while on other days the Sunday-school lessons and parallel passages, etc., are studied. The boys have pursued faithfully throughout the year their course of study in Chinese and foreign branches. Ten of the boys are members of the church, while four are catechumens."

Work among the Women.—Miss Janet McKillican not spending so much time in the country has had more work among the women in the city. A class of twenty women have just finished a month of Bible study, giving their whole time to it. Miss McKillican says:

"Some of them I know received a spiritual blessing. Mrs. Tien has gained admittance into several new families and visits them weekly, teaching them to read and preaching to them the truth. There seems to be more interest than formerly among the women who come to the dispensary. Several have made good progress in the study of the character of their own accord. The attendance and work of the two girls' day-schools are about as usual."

Medical Work.—The support of the hospital, which had come from independent sources, has been undertaken regularly by the Board, the desire being that all such gifts should pass through the regular channels.

Dr. Taylor states that:

"Nothing special has marked the year's work of the An Ting Hospital. In October Dr. Atterbury was obliged to take his family to America, but soon after his departure Dr. Coltman and family came from Shantung by permission of that mission, and consequently all branches of the work have been carried on without interruption. Admissions to the wards, attendances of outpatients at the dispensaries, and visits to patients in their homes, have all

been about as numerous as usual. Three medical students are receiving systematic instruction in addition to the experience gained in the wards and dispensaries. The work in the country continues very encouraging. Two dispensaries in Huai Jon and San Ho districts are visited regularly with satisfactory results. During the summer months Dr. Atterbury also dispensed medicine at the Western Hills Sanitarium.

"Dr. Coltman arrived at his station of Teng Chow Fu in March, and was busy with medical work there until November 1st, when he joined this mission to take up Dr. Atterbury's work. Dr. Coltman has been invited to remain

permanently in Peking.

"The medical work for women and children at Ya'erh hu tung has been carried on by Miss M. E. Sinclair, M.D., aided by Miss McKillican. A new gateway, with a handsome signboard, has added to the attraction of the place externally and a few minor improvements to the comfort within. The spreading fame of the hospital and the growing confidence in the foreign lady physician's benevolence and skill are shown in a rapid increase in the number of patients who are willing to avail themselves of her help. Within the yearthe third of the existence of the hospital on its present site—nearly seven thousand have been treated at the dispensary, and hundreds of others in country tours, and sixty-five cases admitted to the wards. In addition no fewer than three hundred and twenty-five visits have been made to the homes of patients, who from extreme illness could not, or from social propriety would not come to see the physician herself. To the dispensary patients the Gospel has been taught in a quiet, conversational way, in a comfortable and well-adapted waiting-room, by a competent Bible-woman, Mrs. Tien. Though but slight impression can be made at a single visit, yet as many of the patients return again and again with new ailments or bring their friends, eventually a good deal of religious knowledge is thus imparted. To the in-patients more systematic instruction is given. They are, as far as possible, taught to read the simpler Christian books. Morning and evening prayers are conducted for their benefit, and when able they are encouraged to attend the service of the First Church in an adjoining court. In this way an elementary knowledge of Christianity is carried into many homes, not only in the city but far and wide in the country, for many come long distances. Many of these in-patients remain long enough under instruction to have their faith in idols shaken and seriously to promise not again to worship them. A few become deeply interested in spiritual matters and return when opportunity offers for further instruction. All carry Christian books with them to their homes. Two have been baptized within the year on profession of their faith in Christ. Perhaps the most encouraging feature of Dr. Sinclair's work is the freedom of access to the women of well-to-do and official families in their own homes. Here she has opportunity quietly, without the haste and confusion attending an ordinary Chinese clinic, to teach not only patients but the many friends and servants who are sure to be in attendance; and so the Gospel is carried into influential families where otherwise, under ordinary circumstances, it would never be heard at all. The mere breaking down of the pride and prejudices of this class, hitherto so hard to reach, is a great gain. Sometimes Dr. Sinclair and Mrs. Tien, the Bible-woman, improve these opportunities by repeated visits after the patients are restored to health. As work among the higher classes, unless checked by some untoward occurrence, is sure to develop into large proportions, it is very desirable that a suitable lady assistant should be found who, introduced by Dr. Sinclair, should keep up acquaintance with such families long after the need for medical aid has passed by. In the present constitution of Chinese society this seems almost the only hope of the evangelization of the women of the upper classes. Frequently only desperation can overcome Chinese prejudices as seen in calling a foreign physician, as is often the case when too late for effectual help; but prejudice once overcome it is comparatively easy to keep up friendly relations. Many patients in gratitude for cure offer compensation, which is not taken, or gifts. Sometimes these, especially when of food, can be made to minister to the comfort of the poorer in-patients. One individual gave twenty pounds of tea, and another made a contribution 'for the poor' of one hundred Mexican dollars. This is the largest yet given by a Chinese."

Personal.—The report of the mission continues:

"Rev. J. Newton Young has passed his first examination very satisfactorily, and continues to give his time chiefly to the study of the language.

"The general health of the mission has been good.

"Our number has been increased by the addition of Dr. Coltman and family, while two of the families of the mission have been gladdened by the arrival of a first-born—Dr. and Mrs. Atterbury's little son, Boudinot; Mr. and Mrs. Cunningham's little daughter, Hope. Our number has been diminished by the return home of Mrs. Wherry and daughter Edith, and Dr. Atterbury and family."

Mr. Young's death has brought its burden of sorrow and loss into the mission since the above was written. Two new men, Rev. C. H. Fenn, of Tonawanda, N. Y., and Rev. F. E. Simcox, of Allegheny Seminary, with their wives, will go to the mission this fall. Mr. Whiting has already returned. If God will raise up some man who has been baptized with the Holy Ghost and with fire to take Mr. Young's place, and will permit Dr. Atterbury and Mr. Lowrie to return soon, we shall look for large steps forward in the near future.

Shantung Mission.

TUNGCHOW: on the coast, 55 miles from Chefoo; occupied as a mission station, 1861; missionary laborers—Rev. Messrs. W. M. Hayes, S. B. Groves, and their wives; Robt. Coltman, Jr., M.D., and wife; Mrs. E. G. Ritchie, and Miss M. A. Snodgrass; Rev. Yue Kih Yin and Rev. Tso Loi Wen; I licentiate, 15 teachers.

CHEFOO: the chief foreign port of Shantung; occupied as a mission station, 1862; missionary laborers—Rev. Messrs. John L. Nevius, D.D., Hunter Corbett, D.D., Geo, S. Hays, George Cornwell, and their wives; Rev. Frederick W. Jackson; 27 licentiates, 44 helpers, 5 Bible-women.

CHINANFU: capital of the Shantung province, 300 miles south of Peking; occupied as a mission station, 1872; missionary laborers—Rev. Messrs. John Murray, W. B. Hamilton, and L. J. Davies, and their wives; J. L. Van Schoick, M.D., and wife; 3 helpers, I Bible-woman.

WEI HIEN: 150 miles southwest from Tungchow; occupied as a station in 1882; missionary laborers—Rev. Messrs. R. M. Mateer, F. H. Chalfant, J. A. Fitch, and their wives; Rev. L. A. Leyenberger; W. R. Faries, M.D., and wife; Miss Emma F. Boughton, Miss Mary Brown, M.D., Miss Fanny Wight, and Mrs. M. M. Crossette; Rev. Chang yu-fung, Lan yue-hwoa, Li ping-i, Lan yung-seng; 1 licentiate, 51 teachers, 3 Bible-women.

ICHOWFU: 150 miles southwest from Chefoo; occupied as a station in 1890; missionary laborers—Rev. Messrs. W. P. Chalfant, C. A. Kıllie, and W. O. Elterich, and their wives; C. F. Johnson, M.D., and wife, and Miss A. Larsen, M.D.; 5 native assistants.

CHINING CHOW: southwest from Chinanfu; occupied as a station in 1891; missionary laborers—Rev. Messrs. J. H. Laughlin, Wm. Lane, and their wives, and Miss Emma Anderson.

In this country: Rev. Messrs. C. W. Mateer, D.D., C. R. Mills, D.D., and their wives; Rev. Gilbert Reid; J. B. Neal, M.D., and wife; and Mrs. J. A. Leyenberger.

There have been several important changes in the Shantung Mission during the year. At *Chefoo*, Rev. Dr. J. L. Nevius and wife returned to their field after a leave of absence protracted on account of the ill-health of Mrs. Nevius. Rev. George Cornwell and wife and Rev. Frederick W. Jackson, were added to the missionary force at this station. Dr. Corbett and Mr. Hays have continued their labors in the instruction of a class of native preachers and teachers.

In reference to the whole subject of Normal training of Christian workers, a letter from Dr. Corbett says: "We have an interesting class of 62 Bible students and inquirers spending the winter in study at Chefoo. These men are from 18 to 72 years of age, and represent

as many towns and villages within a radius of 200 miles or more, as there are men. In addition to this class there are seven other classes taught at different points in the interior by trained men. We pay from four to five cents per day for food for each man who has to leave his home; no other cost. We find that men who have been taught in this way are much more efficient, and have a better knowledge of the Bible than those who are left to study alone, with perhaps no Christians living within miles of their homes."

Dr. Corbett has continued his tours among the outstations where he has been blessed with his usual degree of success. He says in a recent letter: "The work in this end of the province is now full of promise, and there is every reason to hope with a sufficient force to work, and especially to superintend the new stations and towns where the Gospel is taking root, that there will soon be a time of large ingathering. Yesterday it was my privilege to baptize six young men of much promise from our schools. This makes 77 I have received into

the church the past year."

Mr. Hays has also given much attention to itineration in the interior. The new missionaries, while devoting their chief attention to the language, have also seen something of itineration among the scattered and thronging cities and villages of Shantung. Sometimes the record of a single concrete case of conversion and of godly living may give a clearer conception of the reality and power of the divine blessing upon missionary work than whole tables of statistics. The following account of a native Christian, given by Dr. Corbett, is an illustration:

"In the year 1867, Yu He Hwoa entered the street chapel at Chefoo, China, and heard for the first time of salvation through faith in Jesus Christ. He became much interested and asked if there was hope for him. He said that on account of famine he had sold his property, 250 miles in the interior, and was now waiting for a boat to take him to There he expected to join a friend who had charge of a Taouist temple and become a priest. He had lived a strange life in all the darkness and hopelessness of heathenism. His wife offended him about two years after their marriage, and he sold her and an infant daughter for a sum equal to \$35. He came to the chapel day after day, and finally accepted an invitation to come and stop at my home, where he could receive daily instruction. He was illiterate, but the preachers and others read to him until he thoroughly memorized a Christian catechism and many portions of Scripture. When he came to understand the fearful nature of sin, he was well-nigh overwhelmed and prayed day and night, often with strong crying and tears, for mercy and help. He had to contend with a fearful temper which he had never learned to control, and also with many superstitions which clung to him from childhood. He fully accepted of Christ as his all-powerful Saviour, and has since lived a faithful and consistent life. He was always at church on the Sabbath, and the prayer-meetings were his especial delight. He improved every opportunity to witness for Christ and plead with men to accept of salvation.

"He supported himself by carrying chairs, pasturing cattle, gathering grass, etc., doing whatever came to his hand. He thus earned but

little money, but by great economy always managed to save some which he deposited from time to time with his pastor. He contributed liberally to the support of the Gospel, giving at one time \$7. He also did much to help the poor. In cold and stormy weather, he took delight in sharing his room and food with the destitute. One man who had met with misfortune, and was reduced to beggary, was in his 73d year, by the kindness and faithful teaching of Yu He Hwoa, led to accept Christ, and was baptized. Mr. Yu spent many an afternoon distributing tracts, and pleading with men to believe in Jesus. He always carried a Bible and hymn-book, and was often seen sitting by the roadside or in the fields, surrounded by a little group of men and boys, reading the books or listening to his story. Some years ago he became greatly discouraged because no one seemed to desire salvation, and he resolved to secure a large wooden cross, and carry it through the streets, in the hope that the sight might lead men to inquire its meaning, and induce them to believe. He finally had a banner pre-On one side he had written an account of his own life, and of what the Gospel had done for him; on the other, an outline of the plan of salvation, and the folly of idol worship. This he carried with him for years, and constantly besought men to read it. Many years ago he purchased his coffin and burial clothes, had his grave dug and arched over, and his tombstone erected. He prayed for a sudden death. On Sabbath morning, January, 1893, he came to church and seemed unusually well; but while eating his noon meal he was taken ill, soon lost consciousness, and so continued until his death the next day at the age of 72. A short time before his death he told a friend that he still had a little money (about \$25). He requested that after his death this be used to buy catechisms and other books for distribution. He has left a fragrant memory, and all feel that he has passed into the 'Better Country.'"

A local report from the Chefoo station says: "The work in connection with the Chefoo station embraces 6 organized churches, besides unorganized work. The total membership in connection with the station is 635, of which number 81 were added on confession of their faith, during the past year. The increase in membership, allowing for

deaths and removals, is 79.

"There are 36 schools, of which 26 are for boys and 9 for girls. The other is the Chefoo normal school for the training of preachers, with an attendance last year of 26; 21 of the schools are for both day-scholars and boarders. Three besides the normal school are for pupils especially selected. One small school is for blind boys. The total number in the schools is 515. Of these 409 are boys, 108 are girls; 341 are day-scholars, 174 are boarders. A large proportion are from heathen homes. The working force consists of 39 native preachers, licensed, but not ordained; 4 Bible-women, and 40 teachers in the schools, besides the foreign missionaries. Each of these preachers has his district where he is carrying on services and preaching to the people regularly throughout the year. Besides the schools, inquiry classes have been held at various points during the winter months. These are for those seeking baptism, and for new converts needing instruction. The

in Chefoo, under the instruction of Dr. Corbett and Mr. Hays, had 71 attendants, most of them remaining about two months. There were seven others under instruction from the native preachers, and

numbering in attendance 136.

"The work of evangelization as well as education has been under the direction of Dr. Corbett and Rev. George A. Hays. Dr. Corbett spent 113 days in ontstation work, preaching to the people at numerous markets, conducting services and administering the sacraments at the Christian centres, and examining the pupils in the schools. In the spring, Mrs. Corbett with their two youngest children accompanied him on his first trip of 45 days, helping very much to 'draw the crowds.' Mr. Groves, of Tungchow, was his companion in the autumn. Seventy-seven were admitted to church membership, ten more than last year, and the work is in a generally encouraging condition.

"Mr. Hays made two tours of itineration, one of 44 days in the spring, and one of 29 days in the autumn. Four new members were received, increasing the number in Chi-Hia from four to eight. During the rest of the year he has been preaching regularly in the Chefoo church, teaching classes in the Normal School, and inquirers' classes.

"The time of Dr. and Mrs. Nevius, who had been absent for two years in America, and who returned to Chefoo on the 13th of October, has been occupied by literary work, chiefly in the work of revising the New Testament in Mandarin; Dr. Nevius being a member of the committee appointed for that purpose. In this work Mrs. Nevius renders him valuable assistance. The new missionaries, Rev. and Mrs. Geo. Cornwell, and Rev. Frederick W. Jackson, Jr., have been at work upon the language, and in January passed their first quarterly examination, to the complete satisfaction of their examiners."

The statistics of Chefoo Station are as follows:

| Ordained missionaries | 5 |
|--------------------------------|-----|
| Native licentiates | 38 |
| Bible-women | 4 |
| Number of churches | 6 |
| Present number of communicants | 635 |
| Added during the year | |
| Total number of schools | |
| Total number of pupils | 515 |

At *Tungchow* Messrs. Hayes and Groves have given their chief attention to instruction in the college, though Mr. Groves having so recently been added to the mission has been compelled to give much attention to the study of the language. They have been ably assisted

in this work by Mrs. E. G. Ritchie

The absence of Dr. and Mrs. C. W. Mateer, who are on leave of absence in this country, has been greatly felt in the work. Dr. and Mrs. Chas. R. Mills returned to this country on leave of absence during the year. Dr. and Mrs. Coltman with the approval of the mission removed to Peking to assist in the medical work of the Peking Mission. The Tungchow College has enjoyed a year of good average prosperity. The list of students has been full and the capacity of the institution has been taxed as in the past.

At Chinanfu, the Jasper McIlvaine hospital, which had been so long delayed owing to difficulties in securing titles to land, has been accomplished during the year. The hospital and dispensary work has been under the care of Dr. J. L. Van Schoick. The failure to receive reports from Chinanfu, as well as other stations in Shantung, renders it impossible to give the details of the different missionaries' work. That of Rev. Gilbert Reid, however, who took a leave of absence near the close of the year, has been received. He has had the management of the street chapel services, in which most of the preaching has been done by native preachers. He has also had charge of an inquirers' class for a part of the year. This work has been interesting and profitable. A good indication of the interest felt by the pupils, who range from 17 to 70 years of age, appears in the fact that they continued their studies after reaching their homes, some of them living at a distance. Mr. Reid has participated in the preaching services held in the Gospel tent which had been erected at the time of the Annual Fair. Preaching was maintained from nine in the morning till five or six in the afternoon. Several new inquirers appeared as a result. In the country work under the care of Mr. Reid, carried on at six different places of worship and including four boys' and one girls' school, 17 persons were received by baptism into the church, one an old man of 80 years, greatly impaired in his faculties by deafness, but still able to receive the offer of salvation. Mr. Reid found about 70 inquirers representing about 30 villages. A peculiar line of work which has fallen to his hands is that of negotiating the purchase of property, settling difficulties with the authorities, etc. Among the results accomplished in this line was the permission finally given to erect a hospital. Second, a friendly and favorable proclamation covering the general work. Third, two other proclamations of protection for three other stations. Fourth, a positive settlement of difficulties, and a removal of obstacles at Chi-ning Chow, as a result of which property favorable for mission purposes was purchased during the year. Special proclamation was secured at Chi-ning Chow for our missionaries.

Mr. Reid paid a visit to the two cities which claim to be the birthplaces of the great Chinese sages. Although riots had been raised against the Roman Catholics, Mr. Reid received special marks of favor, including a portion of the scrolls written by the Duke of Confucius, an alleged descendant.

Mr. Reid and Mr. Levenberger together secured the settlement of some very annoying difficulties with the Roman Catholics in one of the country stations belonging to Wei Hien. The mission at its annual meeting voted special thanks to Mr. Reid, and also to the governor of the Province who had shown peculiar favors to the mission.

In the month of May, Rev. W. B. Hamilton of the Chinanfu station was married at Chefoo to Miss Margaret Woods, who had previously been appointed as a missionary of the Board.

Mr. Hamilton has acted as stated supply of the Chinanfu church.

He has also made two tours among the outstations.

The Chinanfu station reports 4 ordained missionaries; 26 native helpers; 182 communicants, of whom 52 were added during the year; total number of pupils in schools is 138; the contributions amounted to \$35.

At Wei Hien the local work is largely centred in the hospital and dispensary services conducted by Dr. William R. Faries and Miss Mary Brown. Mrs. Robert M. Mateer has also exercised to some de-

gree her gifts as a medical missionary.

In the autumn Messrs. Levenberger and Fitch made an interesting and profitable tour among the outstations, finding much to cheer and encourage as well as some indications of apathy and unconcern. It was clearly demonstrated by the tokens which they found of spiritual progress among the natives of Shantung, that the Gospel is the wisdom of God and the power of God unto salvation to them that believe; and again and again there, as elsewhere in North China, the missionaries have found that not only those who had been trained from their youth, but in many cases those who had lived a long life in heathenism, were capable of being reached with the offer of salvation, and capable too of bearing, even in the infancy of their faith, precious fruits of righteousness. One old man is mentioned in particular, who had taken strong hold of Gospel truth and who, being much in prayer, and at the same time consistent in his life, had been the means of bringing all of his household to Christ. The time came when he must close his earthly career, and he fell asleep in Jesus, having witnessed a good confession to the end. It is in this hopeful country work that the success of the Shantung Mission lies. Its history has to a large extent been a reversal of the idea that substantial fruits of mission work are gained only by beginning with children, and building up the Christian life and character through long years of instruction. There is no reason to despair of the adult populations of heathen lands, but rather there is reason for increased effort to save those whose earthly course is wellnigh run. Scores of aged Christians, though only children in their Christian hope, are found on the records of the Shantung churches.

The following passage we quote from a letter of Mr. Fitch on this subject: "One was a woman of thirty-five or forty years, who, although she could not read, repeated two chapters of Matthew. One of the men repeated First and Second Peter entire. There were two blind men, one an old man who repeated Matthew 6th chapter to the middle of the 7th. The other blind man repeated the whole of Second Peter. He had on former occasions repeated the whole of Matthew and Hebrews. Such stations in the midst of a community that reviles and opposes, may be few in numbers and show few inquirers, but it

does you good to meet them. You feel assured that God's word is taking deep root there, and have faith that it will yet bear much fruit."

The clerical missionaries of the station, namely, Messrs. Mateer, Chalfant, Fitch, and Leyenberger, have had charge each of a well-defined district in which the churches and the groups of believers have been cared for. The great work of the Shantung Mission is that of itineration, a work really of bishops and not unlike that of the early apostles who extended their influence over the widely scattered cities. The cheapness with which day-schools are maintained enables the missionary with his corps of native teachers to cover a great extent of territory with comparatively moderate means, and the whole work of evangelization in these country districts is carried forward on the most economical basis. It corresponds largely to the work of the missionaries of the Free Church of Scotland in India called "village work."

At the date of preparation of this report no medical reports have been received from Wei Hien. A most interesting work has been carried on by Mrs. Crossette among the patients in waiting at the hospital. This has been direct spiritual work and has been carried on with untiring zeal, and it is to be hoped not without permanent results. Mrs. Crossette has in her quiet way preached the Gospel to nearly 1,300 dispensary patients, and friends of patients. Being possessed of a good knowledge of the language she has been able to express herself clearly to these patients, and to present the Gospel in all its attractiveness as the pearl of great price, the precious solace which neither

sickness nor poverty nor sorrow nor death itself can destroy.

There are trials in this work and sometimes sad disappointments. Mrs. Crossette gives an account of a young girl nineteen years old, who spent three or four months in the hospital for treatment of the She seemed bright and teachable, and she won in a high degree the confidence and affection of her devoted teacher, but just when Mrs. Crossette had some hope that she would soon be received into the church, a mandate came from the girl's mother forbidding further study and she was taken back to her home, which unfortunately was a den of gamblers. Nevertheless substantial evidence has been given of the girl's continued interest in the Truth. It is one of the incidents of missionary work that the good seed, though lodged in the mind and heart of some poor heathen, passes from the direct care and continued influence of the missionary, while yet there is reason to believe that He whose word never returns to Him void, but like the snow and rain accomplishes that whereunto He has sent it, continues to germinate in the heart and life, and that it will appear in the last great day.

The successful opening of Chi-ning Chow, a large and influential city lying to the southwest of Chinanfu, was one of the signal and cheering events of the year in the Shantung Mission. Three or four years ago an attempt was made to occupy Chi-ning Chow, but was thwarted by mob violence. Dr. and Mrs. Hunter and Rev. William Lane were driven out two years ago, under circumstances of imminent

neril.

The station is now occupied by Rev. Messrs. J. H. Laughlin and William Lane and their wives, and by Miss Emma Anderson. Rev.

R. H. Bent, now resident at the station, was appointed as a missionary near the close of the year. Property fairly well suited to the needs of the station has been purchased and a partial fund has been raised for the erection and equipment of a hospital. The outlook of the station seems to be good for an extended influence not only in the immediate vicinity, but throughout the extensive district dotted with cities and

villages in which the Gospel has not been preached.

The following from a letter of one of the missionaries at Chi ning Chow will give to the churches a pretty clear idea of pioneer missionary life in Central China: "Yours conveying the welcome information of an extra grant of \$2,000 to help pay for this house came by last messenger. Our way brightened wonderfully by this extra grant. We shall continue, as we have begun, to be as economical as possible this year, aiming to keep our entire expenses within the aggregate of the original appropriations. Certainly if you saw our homes you would appreciate this. Our sitting and dining-room are one, the kitchen often finding its way in there too. Yes, and my study too. The room is 11 x 9 feet, with one window, of paper originally, but into which we have set four panes of glass. Straw matting covers the brick floor. A Chinese door lets in the cold wind. The building of a chinney and the insertion of the aforesaid panes of glass are the only expenditures we made on the entire room. But what we are saving the Board, we are losing ourselves. For the room, small as it is, is so draughty that only by dint of a constantly roaring fire can we keep moderately warm. We try to keep down Coal costs twelve American dollars per ton. the quantity by cooking breakfast on the dining-room stove.

"The people generally continue to be very friendly. We go about through the city with less reviling than in Wei Hien. Our ladies are now making calls (in chairs) on the best families of the city. We have a boys' day-school started with five pupils. My second class of inquirers is now here studying—ten men, chiefly from country villages, and rather promising. We invite them for a month and allow each man five cents a day for food. Getting these men from different parts of the country will, we hope, open up centres for country work which, here as elsewhere, is the more promising. I enclose our first statistics."

In regard to the degree of toleration which the missionaries enjoy, Mr. Laughlin in a more recent letter says: "Our friendly relations with the officials and with many of the common people still continue. The former invited me to a feast last week and presented me with a handsome silk banner containing besides the complimentary inscription, the signatures of ten officials with their rank and office, all in gilt letters.'

The work at Ichowfu has progressed without serious interruption

during the year.

The personal report of the Rev. William P. Chalfant for the year, presents many interesting points and shows a laudable degree of activity in the service of the Master. In the last days of December, 1891, a class of 25 Christians and inquirers assembled at Ichowfu for instruction, and were taught for a month, being divided into two grades according to capacity.

The work of itineration which forms so large a part of missionary service in North China was commenced on the 22d of February; accompanied by a native helper, Mr. Chalfant preached from village to village, taking them in order, though the cold and lack of proper accommodations for travel made this rather severe service. The Roman Catholics had tried to supplant the work of our mission by establishing paid day-schools in the village instead of stimulating the people to seek for the education of their children without such inducements. The fact that the funds were subsequently withdrawn, whereupon the schools collapsed, would seem to look as if the experiment had been tried chiefly for the purpose of securing the field.

In the beginning of March another tour was made in company with Mr. Elterich, and in the middle of the month, Mr. Chalfant was accompanied by Dr. Johnson on a tour to the southern stations. A severe blow to Mr. Chalfant awaited him on his return to his home in Ichowfu, where a beloved little daughter passed away on the following day. After this affliction, work was chosen in the cities nearer to his bereft home

for a time.

On a trip to Shanghai for the purpose of imperative business, Mr. and Mrs. Chalfant had some trying experiences with the mobs in the districts south and southwest of Ichowfu, and not far from the centre of the disturbances in Central China, which occurred at that time. By the kind providence of God both were preserved from harm.

Later in the year Mr. Chalfant visited various places north and

northwest; at one time accompanied by Mrs. Chalfant.

As the close of the year approached, a native class of about forty persons was gathered at Ichowfu. Eighty-five days have been spent in itineration proper, making no account of the journey to Shanghai. Though large results are not recorded in any of the reports or letters from Ichowfu, yet for so new a station the outlook is encouraging and

the disposition of the people seems friendly.

During the year Mr. Killie was obliged to take a leave of absence and visit Japan for his health. Care of the business department of the station, together with direct missionary work, had seriously impaired his strength. Visits were made by Mr. Chalfant, Dr. Johnson, and Mr. Bent, who was at Ichowfu at that time, to a seaport town, Ching Kow, sixty miles southeast of Ichowfu, where with a single exception a missionary had never been seen. They were kindly received and found abundant opportunities to preach, for the motive of the people seemed to have more reference to possible business advantages to their town than to moral influence which might be exerted.

In speaking of the warmth of appreciation he found on the part of his Chinese converts on returning after an absence of several weeks in pursuit of health, Mr. Killie says: "I am sure the welcome that we received from the Chinese was enough to make a sick man well. My Chinese teacher came out three days' journey to meet us, and my personal helper walked out sixty miles at his own expense, just to welcome us home. God has been very good to us in giving us the love of so many of these dear native Christians. I do thank Him for the privilege of working among these people. From all of our country stations have come words of welcome, and we are very happy over it, you can be sure."

Of the dispensary work and the need of a hospital at Ichowfu, Dr. Johnson writes as follows: "The dispensary has been open every day, Sundays excepted, during the year. The attendance has not been quite equal to last year, but the number of patients who have returned for continued treatment has been proportionately greater, which is very encouraging. Last year out of 3,000 visits, 1,486 were return visits; this year out of 2,570 visits, 1,526 were return visits.

"We think now that we are about ready to begin *planning* for a hospital, and with the arrival of the lady physician something definite in that line will probably be begun. Up to this time I have felt that the dispensary was all we ought to undertake, but now we are getting so thoroughly settled that we can begin to think about a hospital. One has to begin planning for a thing a long way ahead in China. But as all things come to him who waits—and works, we hope that before many years there will be a hospital in connection with our work in Ichowfu. A good part of my time and energy this year have been expended on the medical class which Dr. Neal turned over to me during his furlough home.

"They have been here since March 1st, and have received medical instruction four days in each week, and besides this two lessons a

week in religious instruction from Mr. Elterich.

"I think they bid fair to recompense well all the time and labor one can give them, and I feel sure they will make earnest Christian workers as well as competent medical men."

^{*} Last year's report.

MISSIONS TO THE CHINESE AND JAPANESE IN THE UNITED STATES.

SAN FRANCISCO: mission begun 1852; missionary laborers—Rev. I. M. Condit and wife; Miss Maggie Culbertson and Miss J. E. Wisner; three teachers in English; two native helpers.

Among the Japanese: E. A. Sturge, M.D., and wife; one native superintendent and one native helper.

OAKLAND: mission begun 1877; two teachers.

PORTLAND, Oregon: Rev. W. S. Holt and wife, and Mrs. J. P. Martin.

NEW YORK: one native superintendent.

Chinese in California.

During the past year the Rev. Alexander Kerr resigned a service which he had carried on for several years, during which time he had been in charge of a varied and exacting work of teaching and superintendence of the general mission, centering in San Francisco. His resignation was accepted and he became pastor of a church in Illinois. Rev. I. M. Condit was thereupon transferred from Oakland to San Francisco, where he became superintendent of the entire field, em-

bracing twelve stations and outstations.

Notwithstanding the disturbances growing out of the restrictive governmental measures and general persecution of the Chinese population on the Pacific Coast, there has been evidence of increased interest in the San Francisco mission. The morning congregations in the Chinese church have averaged an attendance of 250. The women and girls of the Chinese Home have attended both morning and evening services. There have been 14 additions to this church during the past year against 8 last year. The Sunday-school has increased to the number of 60; 14 teachers are now engaged. Their faithful attendance is gladly acknowledged by the missionaries. About two hundred pupils have been enrolled during the past year, but the changes in the Chinese population are greatly felt.

Mrs. Condit has carried on a successful Bible class. An infant class with 125 scholars enrolled is connected with the school. The children are largely pupils of the Loomis Memorial Day-School and the Occidental School. Some of the pupils are sent in from Chinese families. Monthly concerts and meetings of the Missionary Society are held monthly. The contributions, combined with those of Oakland, are devoted to the support of a native preacher in China. A Christian Endeavor Society has been formed, embracing over 25 members. The mission has joined in the union preaching services held every Sabbath evening. A Chinese Association has been maintained.

The evening Mission-School has enrolled some 250 pupils. Rev. B. Fay Mills conducted a union meeting for the Chinese in the Chi-

nese church; several thousand attended, including the Chinese Consul-General and his attaches. Many Chinamen expressed a desire to lead new lives, and many did not begin to seek the Way of Life. A Christmas entertainment for the infant school was furnished by the King's Daughters of the First Church of Oakland, and a Christmas tree was prepared by the Masalaama Band of the First Church of San Francisco. The Loomis Memorial School has enrolled 70, with an average attendance of 28. Miss J. E. Wisner gives a very favorable report for the year.

The Occidental Woman's Board of Foreign Missions.

The Occidental Woman's Board of Foreign Missions has had an exceptionally prosperous year, particularly in its effort to secure new accommodations for the Home for Chinese Girls. "Never," says the local report, "have more girls been cared for in the Home, nor has there ever been a time when the influence of its protecting care has been more frequently sought and found by the down-trodden than during the last twelve months. Dark clouds at one time overshadowed the Home, and threats were sent that if the shelter to girls escaping from Chinatown was not withdrawn, trouble would overtake the work; but the undaunted spirit of Miss Culbertson, the missionary superintendent, was unmoved, and with the strong protection of the Chinese Consul pledged to the Home, all fear was soon dispelled. These increasing demands have rendered an increase of accommodations indispensable, and much of the thought and effort and prayer of the year has been devoted to the problem of securing a new position. These efforts have at length been successful. A commodious property has been secured, and corresponding liberality on the part of many friends, together with the effort of the children of the church, East and West, has in a large degree provided the means. Already this Home and school has begun to bear fruit. During the year, Nook Lien, one of the Christian women who had been trained up from childhood in this institution, has returned to China to labor among her own people as a native helper or Bible-reader. Ah Tsun, another woman who had been trained in like manner, returned with her husband to China some years ago, and who while there devoted herself to Christian work, has returned to America, and is now engaged as house-visitor in San Francisco."

Twelve of the girls have during the year renounced idolatry and have begun to worship the true God. They have all been received into the church.

The Occidental School, in Brennan Place, has been very prosperous, though for a time it seemed impossible for it to rally after the death of Miss Baskin. Seventy-five boys and girls have been enrolled during the year. The number of girls is nearly doubled. This shows an increasing appreciation of female education on the part of the Chinese. The day-school is under the care of Miss M. E. Alexander, whose influence is producing satisfactory results.

Miss Lucy Durham has been engaged untiringly in house-to-house

visitation, penetrating the dark and uninviting heathen homes with messages of the Gospel of Christ. One hundred and eighty-four families have been visited during the year; 15 have been taught English, and thus brought into the Sunday-school, and 3 into the church. Biweekly visits have been made to the county jail, where about 40 Chinese girls have been brought under Miss Durham's influence. Four of these have gone back to China. During the year it is expected that the new Home will be completed and occupied, and that

a new era will have dawned upon this most interesting work.

The Oakland branch of the mission has grown in spirituality during the year, though but 3 have been added to the church by baptism, and 3 by letter, and 2 new elders have been elected, 1 having returned to China. The Sunday-school has 35 pupils. The school is held in the First Presbyterian Church, Rev. Dr. R. F. Coyle, pastor. An entertainment was given to the Chinese youth of the Sabbath-school by the teachers, and was well attended by the pastor and many members of the church. An evening-school with 80 pupils has been maintained, with one hour given to Bible-study conducted by Mr. Jones and young men from the Welsh Presbyterian Church. A Christian Endeavor Society with 36 members has been formed; sometimes 20 of these members speak or pray at one meeting. The young men have started a fund for building churches in China. They have \$435 for the church in San Ning district, a memorial to Mr. John Condit, father of their pastor.

One thousand dollars have already been sent from the Chinese of our different stations, and another \$1,000 will soon follow. One young man gave two months' and another one month's wages for this

fund.

The Foreign Missionary Society, which meets monthly under the supervision of Mrs. Condit, but with Chinese officers, gave \$100 to-

ward a native helper who is at work in China.

Three young men have been baptized and there are 9 church members. Thirty-six scholars in the Sunday-school, and 40 at the evening-school. Mrs. Fraser has taught this school for eight years without compensation. From a small group in her own house it has passed to a comfortable chapel owned by the Board of Foreign Missions. Wong Sing, of the Oakland Mission, works during the day to support his family in China and teaches in the school every evening. He holds services on Thursday and Sabbath evenings and conducts Bible classes every night. At the Christmas anniversary the advanced class gave a beautiful Scriptural recitation, after which, ice-cream and cake were served to the large audience present. Mr. Condit presided, and the Rev. Mr. Garrette, pastor of the church at Alameda, made a few telling remarks. Then a sum was raised to pay off a small debt incurred in building of the chapel. Fifty-three dollars was secured in a few minutes, and the chapel is free, with some surplus for furnishing.

At Berkeley, Dr. J. C. Thomson and wife, of Canton, spent some weeks, during which they started an evening-school, which is still continued under the care of the church of which Dr. H. A. Ketchum

is pastor.

At San Rafael, Mrs. Shaver has the superintendence of the evening-school. There are now 7 Christians at this place, 3 having been baptized during the past year. Thirty are enrolled in the evening and 12 in the Sabbath-school.

The Chinese have contributed \$384 for different missionary pur-

poses.

The work is small at Los Angeles, as all the various denominations are located there and are carrying on work. An evening-school of 50 and a Sabbath-school of 30 pupils have been maintained. The Morrison Mission Band has had regular meetings of interest. The primary school is in a flourishing condition. The young men of Los Angeles have raised \$152 for a church in China, and \$133 for other benevolent purposes.

The removal of Rev. Dr. Noble to San Rafael has been attended with serious losses to the Chinese work in San Diego. Nevertheless, 2 have been received in the church by baptism, making a membership of 29 Chinamen in the First Presbyterian Church. There are 49 in the evening and 20 in the Sabbath-school. The Woman's Occidental

Board is doing a good work among the children of this place.

Mrs. S. B. Bell, the successful teacher at *Santa Barbara*, gives a good report of the school at that place. Three have been baptized during the year. Sixty-five are enrolled in the evening-school, and there has been a Sabbath-school with 40 pupils. Mrs. Benjamin Douglas, now living at San Diego, has shown much interest in this school and given valuable assistance.

A serious disturbance was created at *Sacramento* during the year by the murder of a Chinaman by the "Highbinders." Matters are now, however, in a fair way to be adjusted. One young man has been

baptized.

At Stockton, the First Church, Rev. Mr. Campbell, pastor, has become much interested in the Chinese work carried on in a room of the church. Twenty-one scholars are enrolled. Two have been baptized, 3 are being instructed with reference to union with the church. Efforts are being made to secure a home and gathering-place for the Chinese boys. The ladies presented the school with a large map of the United States during the holiday season.

Santa Rosa has suffered much from removals, though good results number from the work done. This little mission was begun by the Chinese themselves, but, after a time, it was raided by hoodlums and all the property destroyed. American friends came to the rescue and assisted in securing a room and a teacher. The little band meet now in a mission chapel. One Christian boy paid the taxes last year.

The number of Chinamen in Napa is small. Lee Hing, a faithful Christian man, is still there, and holds services on the Sabbath. They

have given \$25.50 for the church in China.

Work among the Japanese.

The past has been the most successful year in the history of the Japanese Mission in California. This is no doubt largely due to the new quarters which have been secured.

At the beginning of the fiscal year the Board found opportunity to purchase buildings which had been used by our Theological Seminary of the Pacific Coast. The Japanese work had previously been confined to very cramped and every way undesirable quarters, paying rent at high rate for very poor accommodations. It seemed impossible to attract the Japanese and give them a homelike feeling to any great extent. The experiment has realized greater success even than had been anticipated.

The Japanese Church.

The church has received during the year twenty-three accessions, fifteen upon profession of faith, and eight by letter. The whole number received into this church since its organization, a little over seven years ago, is one hundred and thirty-three. A number of these are now doing a good work for the Master in their own land.

During the past year all the religious services have been better attended than ever before, and an excellent spirit has been manifested.

Each Sabbath morning a consecration meeting has been held, followed by Bible classes in English and Japanese, and in the evening a regular service with preaching.

The average attendance at the Wednesday evening prayer-meetings has been about forty. The free-will offerings have been as follows:

| For charitable work in Japan | \$7.80 |
|----------------------------------|----------|
| For the Synod of California | 7.10 |
| For Foreign Missions (on hand) | 5.70 |
| For the International Y. M. C. A | 9.50 |
| For our Christmas entertainment | 80.00 |
| For our two Theological students | 100.00 |
| For the purchase of hymn-books | 14.20 |
| For incidentals | 137.10 |
| | 4 . |
| | \$361.40 |

Besides this the young men have paid at the rate of \$420 per year

for the building which they occupied.

The Japanese Young Men's Christian Association now numbers ninety-seven members, all the active members being members of the church. The work being done by this association is much like that of the Young People's Christian Endeavor Societies. There is a good reading-room with a score of Japanese papers and periodicals, and a few good American papers and magazines. There are classes for physical as well as mental development. The young men have published, at their own expense, a monthly bulletin of twenty pages for free distribution.

In the evening educational classes there are at the present time thirty-seven regular attendants. Nine young men are in the German class, about a dozen in the advanced English class, while the rest are studying the first, second, and third English readers, with translations. Every evening, from 9.30 to 10 o'clock, a short religious service in the nature of a prayer-meeting is held, nearly all the students remaining and quite a number taking part.

The new home has proved of great advantage to the work. Besides the chapel, reception-room, reading-room, dining-room, and kitchen, there are sixteen good-sized sleeping-rooms, each plainly furnished with iron bedsteads, tables, and a strip of carpet. At present these rooms are all occupied, and we hope in the not very distant future to be able to fit up a dozen more in the third story. Nearly all the young men belong to the student class, and nearly every province of the Sunrise Kingdom is represented in the home.

The Chinese in New York.

The work among the Chinese in New York under the direction of the Board has been carried on as usual by Mr. Huie Kin. His personal report states that the Chinese population in New York has advanced from six or seven thousand to ten thousand; among these last there are twelve families, and Mrs. Huie Kin, wife of the missionary, has been at work more or less among the women and children. Some of the former have expressed a desire to have their children baptized, though themselves not quite prepared to take that step. Another of these women has stated that her husband and son, as well as herself, hope to be baptized soon. These persons are under instruction designed to prepare them for this important step when they shall give proper evidence of sincerity in their desire. The congregations have been kept up and have increased in interest notwithstanding the stern state of public sentiment in regard to the Chinese. The Sabbath-school has an average attendance of 43, with an enrollment of 224, as against 156 last year. There has been an extra service every Sabbath afternoon; two men have united with the church; fourteen hopefully converted. Two men are now employed as missionaries; one in San Diego, California, and the other in Brook-Nineteen sick Chinamen have been visited by Mr. Huie Kin. One has died, expressing in his last moments his faith in Christ, Many of his friends came to the funeral services and heard for the first time the presentation of the Gospel. Mr. Kin has in various ways given assistance to his countrymen who were in trouble owing to the persecution and difficulties under which they labor. The responsible work of carrying on the Sunday-school and of assisting Mr. Kin in various ways has rested mostly upon the congregation of the University Place Church, Rev. George Alexander, D.D., pastor. A goodly number of Chinamen have through this means been received into the membership of that church, and are now in the list of members.

Portland.

The report from the Chinese Mission in Oregon is very brief. Mr. and Mrs. Holt have continued their work during the year. Mr. Holt has labored as opportunity was offered among the Chinese in preaching and in school work, also to some extent in visiting other cities where the Chinese are known. Mrs. J. P. Martin has had charge of the Home for Chinese Girls, in which there have been six refugees and pupils. The little church which has an enrollment of 32 has been greatly scattered during the year, so that not more than one-third of the total membership are now on the ground. This is the result of constant removals and changes to which the Chinese population of the Pacific Coast must continue to be subject. One consolation is that so far as those who are reached received saving impressions of the Truth they may become missionaries elsewhere, extending to others the knowledge which they have received. The same struggles which have been met in San Francisco in extending protection to the inmates of the Home have been encountered in Portland. During the wast year the work has been one of many discouragements, but it is a work of humanity as well as of Gospel propagation.

Within the year the Woman's North Pacific Board has transferred to the Board of Foreign Missions the title to the property occupied as the Home, its present valuation being \$6,000. The Woman's Board is justly entitled to the thanks of the Church for their earnest and self-sacrificing efforts in securing this property for so noble a work of

rescue and protection.

MISSION IN GUATEMALA.

Organized in 1882: station, Guatemala City, about 60 miles from the seaport of San José; laborers—Rev. Messrs. E. M. Haymaker and D. Y. Iddings, and their wives. *In this country:* Rev. and Mrs. E. M. Haymaker,

Guatemala, as a mission field, is encompassed with difficulties. It is not large, its area being but five times that of New Jersey, while its population numbers less than a million and a half. Of the inhabitants, about 180,000 are white, largely Spaniards, 300,000 Ladinos, people of mixed blood, and the remainder indigenous races, commonly called Indians. Of the last named, many are descendants of the ancient Toltecs, who were driven by the Aztecs out of Mexico. They are chiefly agriculturists, living in villages, while at the same time they are the coolies and beasts of burden of the country. The condition of the people socially, morally, and religiously is deplorable. A few years ago the percentage of illiteracy was estimated at 90, although the system of education introduced by President Barrios has made quite an improvement in this direction. Measured by moral and religious standards, the condition of the people is still worse. For three hundred years Rome has been supreme. Religion is little more than a "baptized heathenism," and it is difficult to see the difference between the people of Guatemala worshipping images in their churches, some of them hideous and grotesque, and people in heathen lands bowing down to their idol gods.

The mission of the Presbyterian Church is the only lighthouse in this dark land. After ten years of patient, though somewhat discouraging labor, the first house of worship was dedicated a year ago, and during the past year two churches have been organized in the edifice, one of Spanish-speaking and the other of English-speaking people. The former comprised 15 members, and the latter 20, of whom 14 were baptized. Mr. Iddings writes: "The special meetings we have had in connection with the organization, such as the ordination of the elder and the baptism of new members, have created new interest, so that the congregation has been growing rapidly." In addition to the regular services held in the church, including a Sabbath-school, there is a young people's meeting. One of the marked features of the year reported is the steady growth in the number of those who sympathize, at least intellectually, with

the mission work.

Outside the capital, something has been done in Santa Rosita, San Augustin, Acasaguastlan, and Quezaltenango.

Educational.—Concerning this work, Mr. Haymaker, who is at present on furlough in the United States, writes:

The school has done admirable work this year, although Don Victor, the teacher, had a very serious attack of pneumonia, and, for a few days, we feared greatly that we should lose him. But the Lord spared him to us, and his work was continued. A comparison with the reports of other years gives interesting information as to the growth of the school. The first year we began the school with 3 pupils, and closed with 27. The second (last) year we began with 18, and closed with 53. Victor has just written that this third year begins with 48 pupils, and we have as much reason as ever to hope for increase during the year. This is the most hopeful branch of our work—only we must have a boarding department. It would quadruple the efficiency of the school.

A good deal of literature, in the form of tracts, printed on the mission premises, has been sold and distributed gratis. Our missionaries set a high estimate on the printed page as an evangelizing agency. The tracts are sought and eagerly read by many, both in city and country.

The report closes with the following words of encouragement:

We feel very much encouraged by the present aspect of the work. We have a group of young men who, though not so very intelligent, are at least in earnest, and are bold in disseminating the Gospel. A good spirit prevails among them. They care for each other in sickness, and keep an open eye to the interests of the church. The members of both churches show great interest, and, in many cases, enthusiasm in favor of the work. We are, therefore, filled with hope. May God bless the work!

The Rev. William F. Gates is under appointment to this mission, and expects to join it toward the close of the summer.

MISSIONS IN INDIA.

Lodiana Mission.

Lahore: the political capital of the Punjab, 1,225 miles northwest of Calcutta; mission station commenced, 1849; missionary laborers—Rev. Charles W. Forman, D.D., Rev. J. C. Rhea Ewing, D.D., Rev. J. Harris Orbison, M.D., Rev. Henry C. Velte, Rev. U.S. G. Jones, Rev. J. M. McComb, and Prof. J. G. Gilbertson and their wives; Rev. Isa Charan, Rev. Dharm Das; one licentiate, two native doctors, and ten native assistants, of whom four are women. Outstation at Waga, Miss Clara Thiede, one native teacher.

In England: Mrs. John Newton.

FEROZEPORE: 50 miles southwest of Lodiana; occupied as a station, 1882; Rev. F. J. Newton, M.D., and wife, and Rev. J. N. Hyde; one native minister, one licentiate.

HOSHYARPORE: 45 miles north of Lodiana; mission station commenced, 1867; Rev. and Mrs. K. C. Chatterjee and Rev. Muhammed Shah; licentiates, two; native helpers, seven.

JULLUNDUR: 120 miles east of Lahore, 30 miles west of Lodiana; mission station commenced, 1846; missionary laborers—Rev. and Mrs. C. B. Newton, D.D., Miss Caroline C. Downs and Miss Margaret C. Given; Rev. Abdullah; three licentiates; native lielpers, twenty-nine, of whom seven are women.

LODIANA: near the river Sutlej, 1,100 miles northwest of Calcutta; mission station commenced, 1834; missionary laborers—Rev. Edward P. Newton and Rev. Arthur H. Ewing, and their wives; Miss Sarah M. Wherry, Miss Emma Morris, Miss Emily Forman; Rev. John B. Dales; native assistants, eighteen. Outstations at Jagraon, Rev. Ahmad Shah; at Khanna, Rev. Jaimat Singh.

AMBALA: 55 miles southeast of Lodiana; mission station commenced, 1848; missionary laborers—Rev. and Mrs. Benjamin D. Wyckoff, Mrs. Wm. Calderwood, Miss J. R. Carleton, M.D., Miss Emily Marston, M.D.; one lady assistant; Rev. Sandar Lal, Rev. Henry Golok Nath, Rev. C. Uppal, Rev. Matthias; licentiates, five; native assistants, sixteen. At a station in the plains, in the cold season, and at Ani, in the hills, in the hot season, Rev. and Mrs. Marcus M. Carleton, post-office, Ambala Cantonments; two licentiates and three helpers. Outstations at Jagadri, Rupar, and Morinda.

SABATHU: in the lower Himalaya Monntains, 110 miles east of Lodiana; mission station commenced, 1836; missionary laborers—M. B. Carleton, M.D., and Mrs. Carleton; Rev. T. W. J. Wylie; one native teacher, one Bible-woman.

SAHARANPUR: 130 miles southeast of Lodiana; mission station commenced, 1836; missionary laborers—Rev. Alexander P. Kelso, Rev. R. Morrison, Rev. C. W. Forman, Jr., M.D., Rev. Henry Forman, and their wives; Miss Jessie Dunlap and Miss Agnes L. Orbison; Rev. John A. Liddle; licentiates, three; native assistants, twelve, of whom six are women.

Dehra: 47 miles east of Saharanpur; mission station commenced, 1853; missionary laborers—Rev. Reese Thackwell and Rev. W. J. P. Morrison, and their wives; Rev. J. F. Ullman, Miss Harriet A. Savage, Miss Elma Donaldson; two native ministers; three lady assistants in teaching and zenana work; sixteen native assistants, of whom six are Bible-women.

WOODSTOCK: in Landour, 15 miles eastward from Dehra; school begun, 1874; missionary laborers—Mrs. E. H. Braddock, Miss Clara C. Giddings, Miss Mary E. Bailey, Miss Susan A. Hutchison, and Miss Clara E. Hutchison.

In this country: Rev. and Mrs. A. P. Kelso, Rev. Howard Fisher, Mrs. F. J. Newton, and Miss S. A. Hutchison.

Lodiana Mission.

This mission, lying mainly within the Punjab, covers a region bordering on the Himalaya mountains, extending from the Ganges on the southeast to the Indus on the northwest, a distance of some 500 miles,

with an average width of 50 miles. The population is composed almost equally of Mohammedans and Hindus. The language used in the villages west of the Jumna is the Punjabi, and in those east of the Jumna, Hindi, while the Urdu is much spoken in the large towns and

by educated classes everywhere.

Some phases of mission work met with serious interruption during part of the year because of the prevalence of cholera and fever, which, added to the unusual intensity of the heat on the plains, rendered continuous and effective labor difficult. Through riches of divine mercy, however, our missionary families were preserved, although some of the native Christians fell victims to the prevailing diseases. As will be seen from the detailed reports, educational work, from the theological seminary and the college down through the successive grades of schools, has been highly satisfactory. Most of the station reports, however, place special emphasis on the work among the villages in the districts, of which the several stations are centres, rejoicing in the rich fruitage already gathered and in the promise of a still more abundant harvest. Both the Lodiana and Farrukhabad missions send earnest pleas for reinforcements, that this ripening harvest may be successfully reaped. Both urge the necessity for village missions and the more adequate supply of properly equipped native agents.

The death of Mrs. J. L. Scott, Principal of the Woodstock Female Seminary, elsewhere referred to, brought to an unexpected close the labors of an eminently useful life. Mrs. Effie Hallock Braddock, appointed by the Board as the successor of Mrs. Scott, has entered upon her work. The Rev. C. W. Forman, D.D., Rev. C. W. Forman, Jr., M.D., with their families, and Miss S. M. Wherry rejoined the mission after a furlough. The mission force was increased by the appointment of Rev. J. N. Hyde, who has been assigned to Ferozepore, and Miss Emma Morris and Miss Emily Forman, daughter of the Rev. C. W. Forman, D.D., who were appointed for work among the low castes at Khanna, near Lodiana. The Rev. Howard Fisher, on recommendation of the mission, was granted leave of absence by the Board to pursue a medical course in this country at his own charges with a view

to enlarging his sphere of labor as a missionary.

The negotiations referred to in the last report for the transfer of Rawal Pindi to the mission of the United Presbyterian Church of America, have been continued, and only await the settling of legal questions to be completed—indeed, missionaries of the United Presbyterian Church are already in possession, and are prosecuting the work along the lines formerly followed by our own mission.

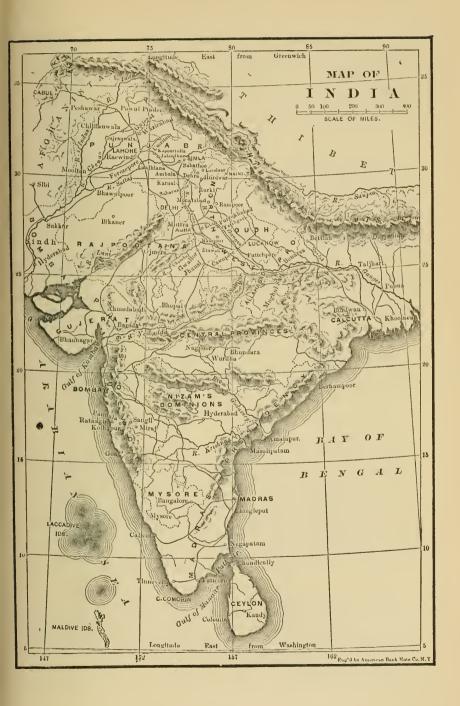

Lahore Station.

The church at this station numbers 213, exclusive of children, of whom 64 were admitted during the past year by baptism, most of them being of the Churah-caste, and from the district. The missionaries regard this arrangement as unsatisfactory, and hope, at no distant day, to have separate church organizations in several villages in the district. The church had hoped to call a native pastor, but found it im-

possible to secure a suitable man. The missionaries have therefore. continued to supply the pulpit, while the congregation has supported a preacher at Manehala, one of the outstations, and also given Rs. 170 (\$56.66) toward the salary of the Presbyterian missionary in Hoshyarpur district. The Sunday-school also made an offering of Rs. 200 (\$66.66). which was devoted to mission work in the district. Twice during the history of this church the building has needed enlargement. During the past year, from funds received from friends of the late John Newton, D.D., in England and America, a transept has been added to the church, with a memorial tablet for Dr. Newton. Deep regret is expressed at the death of Mr. Christopher, for many years a deacon of the church. He was stricken with cholera, and died after a few hours' illness. Shortly before his death he said: "Christ says, 'My peace I leave with you, my peace I give unto you.' I have that peace." Services have been maintained in what is called the English Presbyterian Church, which includes a large number of English-speaking natives. The Sunday-school, under the superintendence of Prof. Gilbertson, reports a roll of 100. A new church is under process of erection, the cost being met by residents of Lahore.

Evangelistic.—This work has been carried on both in English and in the vernacular. On four evenings of the week there is preaching in Hindustani by the missionaries or native brethren in the three chapels situated in the midst of the densest part of the population. On Sunday evenings the service in English for educated natives at the Lohari Gate has been largely attended by students of the various colleges and schools in the city. The "Indian Christian Association," consisting of a number of native Christian young men of Lahore, gives promise of increasing usefulness. It is under the presidency of Dr. Orbison, and is conducted somewhat on the lines of the Y. P. S. C. E. of the United States. The work in the district during the year has been chiefly among the low castes, or sweepers, although the higher classes have not been neglected. In the larger villages regular bazaar preaching has been maintained, save in one or two instances. One hundred and three baptisms, including children, are reported in the villages of Manihala, Sogah, and Wagah. Miss Thiede, in additio 1 to giving instruction in a school for Christian children and one for women and girls in Wagah, visited twenty villages and also prescribed for 5,410 patients, although not herself a regularly trained physician. Concerning the work among the low castes the report says:

There is among them a wide-spread desire for better things and a feeling that these better things will be found in Christianity. There is a seeking after God, and a remarkable interest in hearing of the love of God as manifested through His Son our Saviour. A large number have been admitted by us to baptism, and still larger numbers are seeking admission thus into the Church of Christ on earth. There are indications that in this country at the present time is taking place a movement of great significance and far-reaching consequences, a movement diffusing itself throughout the lower strata of the population, comprising many millions of souls, which will result in their becoming Christians. In this the history of the early Church is but repeating itself. It is now a generally accepted fact that the work of instruction among the sweepers must be done by those of their own number. In accordance with this view two of the more promising men have been given special training

during the year. One of these was a faquir and the son of a faquir. There is at present great need of a village mission in connection with the Lahore Station. It is impossible to properly carry on the work already begun—much less to enlarge it—until a mission bungalow is built in the very midst of the district itself. In no other part of the work is there greater promise of immediate results—in no other part of the field is there a more open door for the preaching of the Gospel. It is earnestly hoped that this great need will be satisfied at once, otherwise the work that has already been done will suffer irremediable loss.

Educational.—The Mission College has maintained its record for popularity and efficiency. The teaching staff comprises four missionaries, including Dr. Ewing, the principal, who have devoted a large part of their time to the work, and also native instructors in several departments, such as Sanskrit, Persian, and Arabic. The roll, which has steadily increased for the past five years, numbered 185. The University examinations, which are popularly received as the test of scholarship in India, are reported to have been satisfactory, one of the students having stood first in the B.A. examination. The income from fees has largely increased, not only because of the greater number of students, but because of the higher rate of tuition which the Government requires to be charged. The report adds:

The study of God's word has formed a part of each day's work, and our hearts have been made glad by unmistakable evidence of the working of the truth in the hearts of some of our students. As to the depth and permanency of such impressions we are in most cases left to mere conjecture, seeing that any open avowal of faith in Jesus Christ as the Saviour would subject the one making such profession to the severest trial, and this acts as a deterrent. We have this year more Christian students than at any previous time, there having been 13 in attendance. Bearing in mind the great object for which all our work is done, we aim to come into personal association with our students and thus to influence them for good.

Surely such efforts put forth in such a spirit cannot fail to receive the Divine blessing!

Boys' Schools.—The report says:

These consist of three departments, viz., main school, branch schools, and night school for adults. During Mr. Forman's absence, Mr. Jones had charge of the main school. There have been enrolled in the main school 393 pupils; in the branch schools, 395, and in the adult school, 58, making a total of 848. All the pupils have been regularly taught the Scriptures, Messrs. A. Orr and Prem Das, our catechists, giving efficient help. The pupils in these schools, being at an impressible age, afforded good material for the instilling of Christian truth. The Assistant Inspector made the following remark in the logbook during his last visit to the school: "I know of no other school in the circle where the teaching and discipline exert a better influence on the manners and character of the scholars than in the Lahore Mission School."

Christian Girls' Schools.—These have been mainly under the charge of Mrs. Gilbertson, Mrs. Ewing, and Mrs. Forman. The epidemic of cholera and fever decreased the number in attendance, the total enrollment being 328. Mrs. Gilbertson writes in a hopeful strain, although they have not had the joy of welcoming any of the girls this year to the fellowship of God's people.

The Sunday-school for Mohammedan girls was maintained with an

attendance of 50 girls.

The Christian Girls' School connected with the Indian Female Normal Society continues to co-operate most efficiently with our mission. Three girls, well equipped, have been sent forth to take up work for Christ. "Indications, too, there have been, of the working of the Divine Spirit in our midst—the Lord adding to the church from amongst our girls such as are being saved; the added ones showing the reality of the faith which they publicly confessed at the Lord's table by the witness of a changed life."

Medical.—This work, under the efficient management of Dr. Isa Das and Dr. Phoebe Isa Das, has been conducted in the two dispensaries, one for men and the other for women. The attendance of patients in the male department was 22,250; minor operations, 680. In the female department, 19,209; minor operations, 537; special

cases, 864. Concerning the work Dr. Isa Das writes:

In both dispensaries, before distributing the medicines, the glad tidings of the Gospel are proclaimed. When it becomes known to the patients that the Christian people of America, although they do not know us and have no connection with us and gain no worldly advantage from us, yet show their sympathy with us, they are struck with wonder and even gratitude, and often are inclined to listen with great readiness to the Gospel message. Tracts are given to those who are well-disposed. Through this work of healing those who are opposed to Christianity are often influenced to cease their opposition and even become friendly in their attitude toward us and our preaching.

Ferozepore Station.

The temporary return of Mr. Fisher to the United States, elsewhere referred to, left the station in charge of Dr. F. J. Newton, with two native assistants. No additions are reported to the church, which now numbers 34. Dr. Newton devoted a good deal of time to work among the villages. He refers especially to an itinerating tour made before Mr. Fisher's departure. He writes:

We took no tent with us, but only such things as were necessary, and so few that we could move lightly; a medicine-chest, a baby organ, a magic-lantern, bedding, cooking utensils, a few clothes and books. A two-ox cart easily carried all, while we journeyed on foot. We put up in the village <code>Dharm-sala</code>, or rest-house for travellers. Only Hindus are admitted, as a rule, to these places, but the Christian preachers are always made welcome. We borrow <code>charpoys</code> (bedsteads) of the people, who readily lend them to us, and then a curtain spread across one end of the room makes a perfectly private and comfortable apartment. The <code>Dharmsala</code> (there are generally several in a village) is in the centre of the town, and our presence always attracted visitors, who would sit and converse with us for many hours during the day, and to a late hour in the evening. There is no better method of getting at the very core of the population, and the hearts of the people.

Of the people in these villages, the report says:

The people generally, all classes, are slaves to innumerable superstitions, as well as extraordinary prejudices. These, in many instances, interfere seriously with health. Such are preconceived and baseless notions as to the treatment of disease, as well as care of the sick. Many will on no account take medicine on unlucky days, as Thursday of the week days, and certain days of the month. However serious the patient's condition, it is safer to postpone the remedy than to risk its application on unlucky days. In fever, it is an accepted principle that the patient must be starved. The sick must

not wash; water is dangerous. An ulcer or wound or sore of any kind is, as a rule, carefully guarded from contact with water.

In the Mission Hospital, which is little more than an unpretending dispensary, 5,366 patients were treated, while the number of visits aggregated 9,938. These patients were from 134 villages, situated in the district surrounding Ferozepore. Each patient is required to put one pice into the dispensary collection-box before receiving his medicine. A few put in larger sums. Gradually western medical science is gaining ground, as against the Yunani, or Greek, system, practiced by the Hakeems, or native doctors. Each morning's work in the dispensary is begun with reading of the Scriptures, and prayer in Punjabi. For the wider influence of our work there is need of better accommodation, and the mission has more than once recommended the erection of a suitable building for hospital purposes.

Hoshyarpore Station.

The native church at this station, under the pastoral care of Rev. Muhammed Shah, reports 53 communicants and 127 adherents, residing partly in the city, and partly at the outstations. The usual services on Sunday and during the week were held with encouraging interest, and a Sunday-school for the younger members of the congregation. Weekly offerings have been made to meet the congregational expenses, and one pice in every rupee of income has been given by the members toward the support of the pastor, the total contributed during the year for all purposes being about Rs. 140 (\$46).

Evangelistic.—On this phase of the work, Rev. K. C. Chatterjee, in

charge of the station, writes:

The distinguishing feature of the year's work has been the spirit of inquiry manifested by the low-caste people, the Churahs and the Chamars, and the large number of them baptized. The inquiring Churahs have been entirely from the Dosnah Tehsil (customs or tax-collecting centre). Some of them earn their livelihood by brick-making. Others work as menials to land owners and cultivators, and a few are engaged as scavengers of towns. Those living in the city have not yet shown any interest in Christian teaching. The Chamars have been mostly from the Hoshyarpore Tehsil. Their caste work is to clean hides and skins. Some of them, however, have given up this work and earn their livelihood by weaving cloth. Of the two classes, the latter are most clean and devotional. Both came in large numbers during the summer months to the missionary and his assistants for inquiry and instruction, and we returned their calls by visiting them in their own homes, and spending many pleasant evenings in reading the Scriptures to them, and in prayer and praise and conversation about the interests of their soul.

This blessing has been largely in connection with the work at the outstations, of which there are four, Ghorawaha, Dosnah, Tanda, and Garchankur, forming the centres of the village work. In each of these centres is an evangelist, a licentiate or a catechist, assisted in some instances by colporteurs. The work at Tanda is supported by the gifts of the native churches connected with the Presbytery of Lahore. The work at Dosnah has been especially blessed, 30 hopeful converts having been baptized during the past year. There is now a congregation of 61. At Tanda, where the pastor of the Hoshyarpore church,

and his wife, have been doing evangelistic work, 30 have been received into the church. At Ghorawaha, where the work has been carried on for eighteen years, there are 42 professing Christians, all from the

upper classes of Hindus and Mohammedans.

In evangelistic work the upper classes have not been overlooked. Preaching in the chapel, in the reading-room, in the streets and market place and at fairs, has been kept up by Mr. Chatterjee and his assistants. Many inquirers are reported, some of whom are ready to accept Christ as a man of holy life and pure teaching, and a few have made a private confession of their faith in His vicarious death, but only two were found willing to confess Him in public baptism, one of whom soon relapsed into his old ways.

The Girls' Orphanage and Boarding-School, under the supervision of Mrs. Chatterjee, had 32 pupils at the close of the year, of whom 12 were orphans, the rest being children of Christian parents who are still

living. The report says:

The standard of secular instruction is up to the fifth class of the upper primary department. There has been steady progress in this direction since the establishment of the institution in 1888. The Scriptures are taught with great care, and every effort is made to improve the character and deportment of the girls. Sewing, knitting, cutting, and other useful domestic attainments have been taught, and lessons in vocal music have been given.

Educational.—Two day-schools, under the direction of Miss Lena Chatterjee, have been open during the year, one in the city, and the other in the neighboring town of Bahadarpur, with a total enrollment of 60 girls. In addition to primary and religious instruction, the girls are taught knitting, sewing, and embroidery.

Jullundur Station.

Jullundur is a place of 45,000 inhabitants on the railway between Lodiana and Lahore. Rev. C. B. Newton, D.D., in charge of the station, has given special attention during the year to the development of the spiritual life of the church, and to stimulating it to self-support with most encouraging results. Up to this time the church has been worshipping in the boys' school-room, but a subscription for a house of worship has been made, yielding monthly about Rs. 40 (\$14), about half of which is contributed by the native Christians. New elders have been chosen, and new responsibilities laid upon them. The Sunday-school has been reorganized and greatly enlarged, with the result that over 100 heathen boys are now enrolled. Three converts from heathenism were baptized in Jullundur and Kartarpore during the year. One of these was a Rajput Mohammedan Dervish. The report says:

He is the son of a Mullah, or incumbent of a mosque near Amritsar, but had lived as a Dervish for some fifteen years in a village near Jullundur. He had gained considerable reputation for sanctity by the practice of austerities, such as digging a grave and living in it for a month at a time. This he did two or three times, and on one occasion lay with his forehead on the ground in his grave so long that the white ants thought he must be a real corpse, and proceeded to devour him. Of course, they were interrupted before very long,

but they left a scar on his forehead, which still remains. He told me that with all his austerities he could not get rid of his sins or obtain the peace he sought. He was sick of the life he had led for so many years, and felt it was a perpetual fraud. He embraced Christianity with earnestness and is a hopeful convert.

Evangelistic.—The work in the district has been most fruitful, 94 having been baptized during the year, of whom 57 were adults. These were scattered in 15 villages, including the outstations of Rupar and Morinda. Rupar is a large town on the banks of the Sutlej, containing 16,000 inhabitants, four-fifths being Hindus and the rest Mohammedans. The Rev. P. C. Uppal has been stationed there for the past year, and has done most excellent work. Those baptized are from the lower castes, 16 being Ram Dasis, and 81 Maghab Sikhs. Although poor the people are by no means dependent; moreover, great care was taken to impress upon them the fact that baptism would not lead to service or money. As a test of their sincerity they have been required to cut off the kes, or long hair, which is the symbol of their former religion. They have been subjected to severe persecution for Christ's sake, but have not denied their Lord. Dr. Newton adds:

There seems to be a spirit of inquiry among the villages, and we have every reason to hope for large accessions to the church during the coming year. Our chief care is to keep these people in hand, and instruct them after baptism. The plan is to have schools in as many villages as possible for Christian children, and to make the teachers of these schools in a limited sense pastors, each in his own field. The chief difficulty is to obtain suitable men for this work, and the aim at present is to pick out the most promising lads and young men from among the villagers themselves, train them for this work, and set them at it.

The work of Miss Given and Miss Downs among the women and girls is largely evangelistic. They have had under their charge during the year 48 zenanas. In 12 of these they make only occasional visits; in the remaining 36 there are 55 regular pupils. In some of the houses quite a number of hearers are frequently gathered on the roof, the hostess calling in her friends and neighbors to hear the Gospel. The ladies have maintained a Sunday-school in the city with an attendance of about 70. They also superintended three other schools of the nature of Sunday-schools, held during the week, where 25 pupils were enrolled. During the cold season they regularly visited the villages near Jullundur, where they were cordially received, one woman saying to her neighbors that, "Since the Miss Sahibs have been coming here I have thought about these things, and I see that the way they tell about is the only way of salvation. Now you must listen and hear about it too."

Educational.—The High-School for boys, under the management of Mr. Brown, a headmaster of sterling Christian character, has flourished, Dr. Newton conducting religious services, and also teaching the first and second classes the Bible. The latter writes:

Whatever difficulties arise out of the Government grant-in-aid system, and the necessity of our conforming to the Government standards, I am more impressed than ever with the value of the opportunities for religious instruction.

Miss Given and Miss Downs have conducted five day-schools, three for Mohammedan girls, one for Hindu girls, and one for Hindu widows, with a total enrollment of 123 pupils. Twenty-five have attended the school for Hindu widows, and marked improvement is noticed in their character. The report says:

They do not lie to the teacher as they did, nor do they insist upon talking about the merits of the Hindu religion as they formerly did. Three or four of these widows have come to church several times, and once or twice to the women's prayer-meeting in the mission compound. They were especially impressed by a sermon on lying which they heard. One said that she had never known before that it was a sin to tell lies.

Lodiana Station.

Lodiana is a place of 40,000 inhabitants, situated near the south bank of the river Sutlej. It is one of the largest centres of trade in North India in wheat and other grains. Its population includes a number of Afghans and Cashmiris, with some Bengalis, but the greater part of the population are Punjabis, most of whom are Sikhs. The city is conspicuous in the history of our work in India as the first sta-

tion occupied by the Presbyterian Church in that Empire.

The church at this place numbers 133, of whom 7 were added during the year. The Rev. Mr. Hassanli, one of the elders, was recently ordained and installed pastor by the Lodiana Presbytery. Some of the officers and members of the church rendered good service in proclaiming the Gospel to non-Christians in the Katwali chapel in the city, under the direction of Mr. Newton and Mr. Ewing. Scarcely any opposition was encountered, and both the attendance and attention were encouraging. Mr. Newton gives the following incident:

In June a young man called on me and asked for a copy of the New Testament. I told him it was our practice to sell books, and named the price. He at once handed me the money and took a copy. On my inquiring who he was, he told me he was a Sikh, that his name had formerly been Hira Singh, but that he had cut off his kes (long hair) and dropped the Singh from his name, and was now plain Hira. It should be explained that both the long hair and the title Singh after the name are assumed by all Sikhs as badges of their religion, and that to part with them is tantamount to a rejection of their Guru (religious guide) Gobind Singh. I asked why he had done this, and he replied that he no longer had any faith in his former guru, and for that reason had cut off his kes and changed his name. I said to him, 'Since you have renounced Gobind Singh and the other sacred teachers of the Sikhs, what guru do you now believe in?' He said, 'Jesus Christ.' He then told me he had been employed in some Government post for six months at Tarn Taran in Amritsar district. While there he had become acquainted with Mr. Guilford of the C. M. S. Mission, and some native Christians. From the former he had borrowed a copy of the New Testament, which he had been reading, but had returned it before leaving the place.

Evangelistic.—In Jagraon, a place of 12,000 to 13,000 inhabitants, where years ago it was almost impossible to speak of Christ without encountering fierce opposition, the Gospel is now proclaimed to quiet audiences in the bazaar, while many visit the native minister in his own home. Two Faquirs, a Mohammedan and a Hindu, were baptized in a village in this district, while in the city one whole family

and four young men are candidates for baptism. In Khanna four Churahs were baptized, one of them being from a village ten miles from Khanna, and the other three from near Ropar in this district. A most interesting work is carried on among the Churahs and Chamars in the scattered villages where schools are maintained. In Bassi there is a similar work conducted by native helpers among the low castes, of whom 47 men and boys are being taught to read, including several sons of Christian converts. Measures have been taken for greatly enlarging this district work in the future. Miss Wherry, formerly of Dehra, has been assigned to Lodiana, and expects, with Miss Graham, a zenana teacher, to oversee the work in Jagraon, while Miss Emma Morris and Miss Emily Forman, who joined the mission last autumn, expect to work among the low castes in Khanna.

Educational.—Christian Boys' High-School.—The report of this school for the sons of Christian parents, Rev. A. H. Ewing, principal,

says:

The year just closed has been a prosperous one financially, and, it is hoped, a profitable one spiritually. The pay-roll from fees is better than ever before, and the number of those who, in the matter of clothing, are an expense to the mission, is constantly diminishing. The spiritual condition of the school, while much below what we hope for it, is encouraging. There are among the boys many earnest Christians who are striving to bear, not only the name, but the character of Christ. Quite a number have shown an earnest desire to preach the Gospel, and some have manifested a good degree of fitness for proclaiming the truth. Something has been attempted in this work by them in a few of the surrounding villages and in the city chapel. A Christian Endeavor Society, of which many of them are members, has been recently organized. A Literary Society has been organized for the High and Middle School Departments. The whole number of pupils is 94, of whom 76 are boarders, and 18 day scholars. The Industrial Department seems to be doing a useful work. In the various trades 37 boys in all are engaged. Some of these spend all their time, with the exception of that given to Bible study, in the shops; others work three or four hours, and still others but one hour and a half. It is a matter of some encouragement that within the last eighteen months four carpenters from here have obtained employment in railway workshops at fair salaries.

There are eleven day-schools connected with this station in the city, including the Boys' High-School, with a total enrollment of 691 boys and 59 girls. The prevalence of fever in the autumn seriously affected the attendance. The native evangelist, Rev. J. B. Dales, devoted a part of each day to giving instruction in the Scriptures in the High-School. The main school is opened each morning with prayer, and an exposition of Scripture, while every class has a lesson in the Bible daily. There is a great demand for a third missionary at this station, who would be free to devote a larger amount of time to the spiritual supervision of the work than it is possible for Mr. Newton to give with the burden of other cares upon him.

Concerning the zenanas and girls' schools, the report says: "There has been steady and gratifying progress in the schools, and some very good work has been done. Each school has the whole time of a Christian teacher, and the Mohammedan and Hindu girls attending the schools have the advantage of a thorough Christian educa-

tion. One teacher only has been engaged in zenana work during the year. She has had many willing listeners, and many that gave a verbal assent to the truth she teaches, but as yet give no practical evidence of having given up their old faith."

Literary.—Mr. Newton writes:

Throughout the summer a large part of my time was devoted to the revision of the New Testament in Punjabi, and from the 1st to the 23d of September I attended a meeting of the Revision Committee in Kasauli. I went there a week earlier than the Committee met, and stayed a week after it adjourned, but the latter part of my stay was employed in copying for the press the work that had been done, viz.: the Gospel of Luke, chapters 7 to 24. Since then the correcting of the proof has also fallen to my lot.

Ambala Station.

The churches connected with this station, located respectively in the city and the Cantonments, report a prosperous year. In both there has been a quickened spiritual life, and corresponding activity among the people. In the former a subscription was made early in the year toward the support of a pastor, but no suitable candidate had been found. The pastor of the Cantonments church, Rev. W. Basten, died during the year, greatly beloved and honored by the people. His place has not yet been filled, but the pulpit has been supplied by the Rev. H. Golaknath. The young men of this church, employed in Government and other offices, have allied themselves with Mr. Golaknath in Christian work, both in the Cantonments and in the surrounding villages.

Mr. Wyckoff and Mr. Golaknath, in addition to the usual bazaar preaching, each spent some time in the district during the cold season, the latter confining himself largely to the villages around Ambala because of his engagements as superintendent of the High School. He also attended the Mela at Thenasar, one of the famous resorts of Hindu pilgrims. More would have been done in this direction but for the illness of Rev. J. W. P. Morrison, who was laid aside from active

duty during much of the season for outside work.

The work among the women and girls has been continued under the supervision of Mrs. Calderwood, who has several assistants. Forty-seven houses are regularly visited. Mrs. Calderwood was disappointed in her plans for extending the work because of the opposition of a Brahmin woman, through whose influence a Brahmin house, which had been opened for a school, was closed. Four Hindu women who desired baptism received special attention, two of whom have been baptized, while the others are still under instruction. Concerning zenana work in the city, Mrs. Chowdry, who assists Mrs. Calderwood and Miss Dr. Carleton, writes as follows:

It is chiefly carried on through the medium of Dr. Carleton's dispensary and the Young Women's Christian Association. An interesting service is held in the courtyard every Sabbath morning for the benefit of the women who come for medical treatment. Dr. Carleton and I visited these women in their homes, as well as those who live under the strict rules of Purda, all of whom received our visits with pleasure.

Both the English and native branches of the Y. W. C. A. support a

Bible-woman, and these women together visit the neighboring villages,

where they receive a cordial welcome.

Educational.—The High-School in the city had a roll of 413 boys, an increase over that of last year. Religious instruction was faithfully imparted during the sessions of the school as well as in the Sundayschool. As the outcome of this the report states, that "more than one boy could have been baptized, but it was thought best to defer." The Spirit of God is evidently working in the school, and conversions are confidently expected. The school in the Cantonments was greatly aided in its religious work by several Christian soldiers who attended the Wednesday evening meetings and spoke of experiences in barrack life quite different from some phases of military life common in the Cantonments. The school passed through a crisis because of the baptism of one of the boys who confessed Christ. His baptism was preceded by faithful work on the part of Mr. Golaknath, so that the young man might be kept from a hasty confession of Christ. The members of his family and their friends became greatly excited. Golaknath writes:

Mass meetings were called, and the lad was sworn in to say that by means of a glass vessel and a magic wand I had mesmerized him, and got him so completely under my control that he said and did what I wished. Few believed this statement. However, they succeeded in raising subscriptions for establishing another school. A trader offered his bungalow gratis for three months for the use of the new school. Up to date they have not succeeded in breaking up our school. Our number is somewhat decreased. Although the heathen Government officials have been going personally from house to house for subscriptions, the Aryas who led the opposition in the beginning have retreated because of the rebuff which they received from the Hindus and Mohammedans. The latest news from the boy himself is that he is firm, and hopes to return to us soon.

Medical.—Dr. Jessica B. Carleton has continued her work in two dispensaries without interruption, assisted by Dr. Emily G. Marston, as far as her study of the language would permit. Fourteen thousand five hundred patients have been treated at the dispensaries, in addition to in-patients treated in the small building on the hospital site, and zenana cases, the figures for which are not reported. Dr. Carleton writes:

Mrs. Chowdry conducts the religious services in the hospital every Sunday morning, and also daily as far as possible. Twice a week she has accompanied me in visiting zenanas, and in this way four sections of the city have been regularly visited. In the Cantonments dispensary a Bible-woman is employed.

Referring to the Leper Asylum, which is under her medical care, Dr. Carleton says:

It has been much improved by the building of the Prince Albert Victor Memorial Ward from the money contributed by the rais. The bathing tanks, mentioned in last year's report, have been completed, and are a source of great comfort and cleanliness to the lepers. Their garden has been enlarged, and a number of fruit trees planted. A valuable addition to their number is a Christian Leper, trained in the Almora Home, who acts as teacher of the small school organized among them.

Mr. Wyckoff has looked after the religious interests of the asylum as in former years,

Sabathu Station.

Although the Board had it in contemplation, on recommendation of the mission, to withdraw from this station, it was decided after careful examination to continue it at least for the present. Dr. M. B. Carleton, who has been in charge, reports a roll of 26 communicants in the church, of whom six had been received on confession of faith during the year, four being lepers. Six others are asking for baptism, four of them inmates of the Asylum. The main work has been in connection with the Leper Asylum which had 108 inmates. Daily preaching service was continued except on Saturdays, attended by the members of the institution and others. In addition to his work at the Asylum Dr. Carleton reports as follows:

Some hundreds of patients attended from regions beyond Simla and among the native States, generally people who had known me in Kellu and elsewhere. During October, with medicines and tracts, I spent over two weeks among several of the native States, going as far as Kellu and spending there another two weeks. There a high-caste girl of about fourteen or fifteen years of age being totally blind, and having been cast off by her relatives and friends, came for treatment. I had but little hope of giving her sight. But a double operation for cataract gave her perfect sight, and on the sixth day she was up and about. I was never more gratified with a result. She at once broke her caste by eating from my hands and said she would never go back to her people, so I sent her to Ani to live. On this trip I was most cordially treated by Rajahs and people. I was welcomed into their own houses with the families. Many a religious discussion was carried on; one of these talks lasting two hours. One Rajah I found had a copy of the Hindi Bible, and had read it daily for years and believed in it.

Saharanpur Station.

Saharanpur is a city of 52,000 inhabitants, and is the centre of a district containing over a million souls. It is also an important railway centre, and the point of departure for Dehra and Landour. The mission regards this station as one of the most promising within its territory, and has made provision for its better cultivation by strengthening the missionary force.

The church, which has hitherto been ministered to mainly by the missionaries, has within the year called its first native pastor, Rev. John Liddle, and assumed part of his support. The communicants number 87, of whom 16 were added during the year on confession of faith. The Sabbath-school has an enrollment of 106. Several members of the church have voluntarily engaged in evangelistic work, led by the students and teachers in the Theological Seminary.

The English service on Sunday for the railway employees and their families was kept up during most of the year with an encouraging attendance.

Educational.—Theological Seminary.—This institution is under the care of the Synod of India, and controlled by a Board of Directors, representing the Lodiana and Furrukhabad Missions. Owing to the absence of Mr. Kelso on furlough, and the serious illness of Mrs. Henry Forman, much of the teaching last year devolved on Mr. Nathaniel Prem Das. Rev. Henry Forman, however, has now re-

turned to his duties, being joined by the Rev. Robert Morrison, of the Lodiana Mission. Twenty-five students were in attendance during the year, of whom four were graduated. Throughout the year the students were engaged in Sunday-school work, and also in preaching in different parts of the city and in neighboring villages. They took part also in the evening preaching service in the city school-house four evenings in the week, while during the summer they were occupied in the district under the direction of the missionary in charge.

The High-School had an attendance of 174 boys, of whom 107 were Hindus, 60 Mohammedans, and 7 Christians. The Government rule, which requires the school to furnish an average of twelve superficial feet of space for each boy in attendance, required the renting of additional room. Five boys passed the Allahabad University examination, and seven the Middle examination, one in each section securing a Government scholarship. The Scriptures have a prominent place in the curriculum. The headmaster of this school is an earnest Christian and takes a deep interest in the spiritual side of the work.

The Orphanage.—Thirty-eight boys were in attendance at the Orphanage, all except three working at trades. In addition to the regular pupils there are twelve former pupils boarding in the institution, and at the same time working for their living. This outcome of well-directed effort is greatly to be commended, and the report ascribes the result very largely to the earnest enterprise of Mr. and Mrs. Kelso in former years. Eight of the twelve boarders referred to above, who are soon to pass from under the direct influence of the missionaries, are members of the church, while four of the regular pupils have professed their faith in Christ. When it is remembered that the greater part of the pupils are small boys, the religious condition of the school would seem to be most satisfactory. Very few go out from the school without having professed their faith in Christ. To speak of the school as an orphanage seems in some measure a misnomer, for the report says:

Most of the boys are sons of respectable parents who are too poor to send their children to the more expensive schools, and are thus obliged to avail themselves of the instruction given here. We must look for our pupils from the poorer classes of Christians, and here we find a very large number who cannot go to the Christian boys' school at Lodiana.

Girls' Schools and Zenanas.—Miss Orbison and Miss Dunlap report 11 girls' schools under their care, with a total enrollment of 204. Instruction was also given in 73 zenanas, the ordinary teaching, however, being largely done by pundits, the ladies looking after the re-

ligious instruction in person.

Evangelistic work in the district, which hitherto has been greatly neglected because of lack of force, was prosecuted with some success. Mr. and Mrs. McComb, with Miss Orbison and Miss Dunlap, spent some time among the large towns and villages. The populous character of this district may be inferred from the statement that at the town of Kotah, twelve miles south of Saharanpur, from ten to fifteen villages, with a population ranging from 200 to 2,500 each, can be seen from a single spot, the low-caste population being especially

large. The preaching services were well attended everywhere, and Mr. McComb regards the district work at this place as full of promise. Miss Orbison writes concerning this work:

We found much interest shown by the women in what we had to say and sing. There were also many openings for schools, in but one of which have we been able to see work established for women. Jaisri Sing, one of the graduates of the Theological Seminary, was sent to Rampur, and his wife, one of Mrs. Kelso's former assistants, is now working voluntarily among the women and children in that place. She asked a few days ago for a Persian Bible for an inquirer from Cabul, who is a student in the Mohammedan Theological Seminary of Rampur, and who has become well acquainted with Jaisri Sing, and for an Urdu Bible for another inquirer. Rampur is a highwalled, well-built town, and has a Gujar population of 7,000. Although only ten miles from Saharanpur, but faint rumors had reached it of the Christian religion. We found a great desire in many places that we visited to have schools established. This is a very idolatrous place, but there is also an "Arya Samaj" (Arya Society), and we can see a gradual turning among the women from old ideas. One Hindu woman who has been hearing the Bible brought her idol to show and say that she knows better than to worship it longer.

The ladies have been deeply interested in visiting a Leper Asylum for women about a mile and a half from Saharanpur, where they have found an increasing interest in hearing the truth.

Besides the Sunday-school held in connection with the church there are five conducted in the city, taught largely by the students of the Seminary. A prominent feature in one of the schools is the increasing attendance of men.

Dehra Station.

Dehra is located in the northwest provinces, and lies between the Himalayas and a low range of hills called the Sewalick Range. The population of the district is about 150,000. The native church at this station reports a membership of 60, of whom 27 were added on confession of faith during the year. A new pastor, the Rev. Ralla Ram, has recently been called, and his ministry already gives promise of bearing good fruit. The English-speaking church, which is connected with the Presbytery of Lahore and worships in the same building with the native church, numbers 30, one of whom was added on confession of faith during the year. Mr. Thackwell reports itinerating tours through the district, accompanied by a native evangelist. He mentions the case of a village schoolmaster who gave close attention to the preaching and became anxious about the salvation of his soul. He had studied in a celebrated Mohammedan college and held Government certificates as to his proficiency in learning. A Rajput Zamindar (farmer), with his four children, had sought baptism, but had become alarmed by the threats of a certain shopkeeper. Masih Charan, a native preacher, who was sent to Nahan in the Sirmur State, whose ruler is favorable to Christianity, reports that when he first began to preach the young people opposed him almost to the point of assault. The blessing of God on patience and tact, however, overcame the opposition, so that now the people not only welcome him to their homes, but beg him to come and declare the message of salvation. The evangelist also conducts bazaar preaching and distributes portions of the Scriptures and illustrated tracts.

Concerning zenana work, Mrs. W. J. P. Morrison (nee Miss Geisinger) reports:

Our zenana pupils number 176, but this is not the limit of our opportunities. There is great demand for this kind of teaching here, and a force double the present one could be utilized in answering calls from the city and villages round about. Much could be said of improvement in our pupils, the deepening of the spiritual life of some, the rousing up from spiritual indifference of others, and general improvement. One of our pupils, a woman of the sweeper caste, was baptized last May, and from one of the villages a Babu and wife have put themselves under the care of our missionaries in another station for further instruction, with a view to baptism in the near future. The wife has been a pupil of ours since last January, and we tried to help the Babu in his study of the Scriptures. He has been investigating Christianity for more than ten years.

Mrs. Morrison, with Miss de Souza and a staff of workers, has conducted five day-schools for girls, two of them located in a village some three miles distant, the total average attendance being 77. In these schools only Christian teachers are employed, and on the Sabbath they are turned into Sabbath-schools, with an additional one for boys in a distant village, conducted by a native Christian elder. The average attendance in these Sabbath-schools is 117.

The Jane Cross Morse Memorial Zenana Training-Home has sent out its second class of three members who had completed the curriculum, and had rendered excellent service in practical work in the zenanas. One of these has been appointed by the mission to Lodiana station and two to Saharanpur. Another class has been formed to take the place of those graduated, it being the intention of the mission to select and train suitable young women born in India for zenana work, to labor in connection with our missionary ladies.

Educational.—The report of the Christian Girls' School, under the care of Miss Savage and Miss Donaldson, says:

The present year began for us under the most favorable circumstances. During our winter vacation, deep spiritual interest was manifest among the girls who remained in the school, and r1 of them made a profession of their faith in Christ and were received into the native Christian church. During the following June 13 others took the same step, and recently one of our English girls has been received into the English Presbyterian Church. Now, almost all our pupils of twelve years of age and upward are professing Christians. Their conduct during the entire year gives evidence of the sincerity of their profession. Their faithfulness in study; their anxiety to please in all their work; their helpfulness and sympathy in cases of sickness; their appreciation of kindness shown them; their love for the Bible, and for both public and private prayer, would be considered remarkable in girls of their age in European schools. The highest ambition of nearly every girl seems to be, that she may sometime be able to lead others to Christ.

The number in attendance was 82, of whom 7 were European girls. The death of a girl who had been in school twelve years without giving evidence of a change of heart, cast a gloom over the entire school, but, by the blessing of God, seemed to produce a deep impression upon the girls. The Government Inspector, in reporting his exam-

ination of the school, spoke in high terms of the proficiency of the scholars, adding: "The appearance and manners of the girls seemed to show that everything is done to promote their happiness and welfare, and I have great pleasure in recommending the continuance of the

grant."

The City High-School had a roll of 309 boys, many of whom passed an excellent examination in the "Provincial Examination in Scripture." Four boys obtained prizes. In order to meet the Government requirements of an average space to each student, the school-house has been somewhat enlarged. The High-School now includes what was formerly called the Karanpur Primary-School, and a new school in another part of the city was opened for low-castes, sweepers, and others, conducted by a Christian teacher, who devotes part of his time to evangelistic work. The night-school at Harbans has been carried on as heretofore.

Woodstock Seminary.

A dark shadow has fallen on this institution. For the first time in its history death has entered it, and that not once, but twice. First, the efficient and honored matron, Mrs. Alexander, fell a victim to the cholera, after an illness of ten hours; and later, the beloved Principal, Mrs. J. L. Scott, was called to her reward, having died June 2, 1892. Mrs. Scott had been feeling the influence of the climate and advancing years, and had been urging upon the Board the appointment of a successor. For some months before her death she had been relieved by her daughter, Miss Annie E. Scott, and was contemplating a visit to the home-land for rest and recuperation. But her work was done, and she sleeps beside her husband in Dehra Doon, in the hope of a glorious resurrection. Mrs. Scott first reached India with her husband in 1853, but returned to the United States in 1857 on account of his failing health. She resumed her work in India in 1877, having been appointed to take charge of Woodstock Seminary, which had been recently established. It is agreed on every hand that, under God, Woodstock owes what it is largely to the ability and energy of Mrs. To a well-cultivated mind she added superior organizing ability and rare business qualifications, but she was above all the missionary, and brought to the discharge of her duties love for the souls of those committed to her care, and love for India, for whose salvation she had given her life. Her daughter continued to act as Principal until relieved, at her own request, by the appointment of Mrs. Effie H. Braddock, who entered upon her duties late in the autumn of 1892. In view of the heavy burden of responsibility resting upon the Principal, the Board has placed the institution more directly in connection with the Lodiana Mission, and committed its supervision to a Board of Directors, consisting of three members of that mission, and the Principal and senior teacher of the Seminary. The plan has commended itself to the friends of the Seminary, and it is hoped that the division of responsibility will result in great relief to the Principal and in tying the institution more closely to the mission.

Ninety-four pupils were in attendance during the year, of whom

eighty were boarders, four of them being also pupil-teachers. The prevailing sickness in the community made the attendance of the day-pupils irregular, and the boarders suffered not a little from German measles and chicken-pox. The Government inspector, after a careful examination, reported the work of the school satisfactory. At the annual prize-giving in August, Mrs. General Nairn, the wife of the commanding officer of the station, was present and presented the prizes; the Rajah of Kappurthali also honored the occasion by his presence. A deeper spiritual interest is reported in the school, manifesting itself especially in missionary activity. The missionary society and band contributed Rs. 235 (\$78), which was appropriated to the support of a girl in the Dehra school and other phases of mission work.

J. M. McCOMB.

Farrukhabad Mission.

FATEHGARH—FARRUKHABAD: the former the civil station and the latter the native city, 733 miles northwest of Calcutta; mission station begun, 1844; missionary laborers—Rev. C. A. Rodney Janvier, Rev. John N. Forman, and their wives; Miss Mary P. Forman; Rev. Mohan Lal; two licentiates; native assistants, twenty-two, of whom five are women.

FATEHPUR: 70 miles northwest of Allahabad; station begun, 1853; missionary laborers—one native licentiate, two native helpers.

MYNPURIE: 40 miles west of Fatehgarh; mission station commenced, 1843; missionary laborers—Rev. Thomas Tracy, Rev. H. M. Andrews, and their wives; one lady teacher; nineteen native helpers, of whom ten are women; and at *Outstation*, four. ETAH: three native Christian helpers.

ETAWAH: on the Jumna, 30 miles southwest of Mynpurie; mission station commenced, 1863; missionary laborers—Rev. and Mrs. John S. Woodside; one native licentiate; ten native assistants, of whom five are Bible-women. Miss Christine Belz, teacher and zenana visitor.

GWALIOR: capital of a native state; mission station commenced, 1874; Mrs. Joseph Warren; Rev. Sukh Pal.

JHANSI: 250 miles west of Allahabad. Population, 52,000; occupied as a mission station in 1886; Rev. James F. Holcomb, Rev. Hervy D. Griswold, and their wives; two lady assistants; *Rev. Nabi Baksh*; one licentiate; five native assistants, of whom four are women.

ALLAHABAD: at the junction of the Ganges and the Junna, 506 miles northwest of Calcutta; mission station commenced, 1836; missionary laborers—Rev. J. J. Lucas, D.D., Rev. S. H. Kellogg, D.D., Rev. James M. Alexander, and their wives; Rev. W. F. Johnson, D.D., Miss Mary E. Johnson, Mrs. John Newton, Jr., Miss Mary L. Symes, Miss Jennie L. Colman, Miss. Margaret J. Morrow, and Miss Emma Templin, M.D.; one Christian female teacher and zenana visitor; Rev. John S. Caleb, Rev. Isaac Fieldbrave; seven native licentiates; native assistants, nineteen, of whom seven are women.

In this country: Rev. J. Lucas, D.D., Rev. James F. Holcomb, and their wives; Mrs. Thomas Tracy,

This mission occupies important centres of influence within the Northwest Provinces, and has a population resembling in many respects that of the Punjab. The Mehtars or Bhangis are at the bottom of the social scale in this mission as the Churahs are in the Punjab. While earnest attention has been given to every department of the work, it will be noticed that the station reports all refer with special interest to the work done among these low-caste people, and the wide doors of usefulness which God in his providence has opened among them. The ingatherings were not large, compared with the reception of whole villages, but they are especially encouraging as the first fruits of a harvest yet to be reaped.

The mission force has been increased during the year by the return of Rev. S. H. Kellogg, D.D., LL.D., with his family to India. Dr. Kellogg, after a protracted service in the United States and Canada in the theological seminary and pastorate, was reappointed by the Board at the urgent request of our North India Missions and the North India Bible Society, in order that he might be associated with other scholars in the revision of the Old Testament in Hindi. Dr. Kellogg's thorough mastery of this language, as indicated by his Hindi Grammar recently revised, and his wide scholarship in Biblical lines, marked him as eminently the man to have a part in this important undertaking. Dr. Kellogg will give himself in connection with this literary work to other forms of mission labor under direction of the mission. Miss

Emma L. Templin, M.D., has also joined the mission, taking the place of the lamented Dr. Seward, whose death was announced in the last report.

Farrukhabad-Fatehgarh Station.

Serious illness in the families of Mr. Janvier and Mr. J. N. Forman, requiring in both cases a journey to the United States to secure surgical skill, interfered with the volume of work ordinarily done at this station. Their absence from the field, however, was not without its compensations to the general work, as during their brief sojourn in this country both of these brethren rendered most effective service in pleading the cause of their beloved India. This they did over a wide range of territory, in season and out of season, and with very great acceptance. To meet in part the demands of the station, Mr. Tracy was transferred temporarily from Mainpuri, and added burdens were laid upon the Rev. George Rulach, the headmaster of the High-School. Unfortunately, the detailed report of the station has failed to reach the Mission House. From correspondence, however, it is learned that under the direction of the brethren named, the work in its several departments was as well sustained as was possible with a depleted force. The churches in Fatehgarh and Farrukhabad were regularly ministered to, while bazaar preaching and other phases of evangelistic work were continued by the native brethren.

The High-School for boys has continued under the same efficient management which it has enjoyed for several years past, but no sta-

tistics are available in the absence of the report.

Miss Blunt, who, in the absence of Miss Mary P. Forman, has had the responsibility of the zenana work, writes:

The work during 1892 has consisted in teaching in certain localities, and reading and expounding the Word in others. For this purpose I used to devote four mornings in direct teaching, and, of course, giving religious instruction to the pupils as often as I could. In the first week of August the Ladhwara doors were closed to me, because one of their number, Pirthe Lall, joined our faith. I was told that a very large gathering had met, and voted that no teacher should enter their doors, boys and girls would be withdrawn from all mission schools, and so I too must leave. I overheard them whispering the names of about four other men who were most anxious to join the Christians, but their relations had them in close confinement. Within a few days the Lord opened up new work in Masanih, Nagra, Barhpur, and later on in a Mohammedan house in the city. My scholars now number thirty, about ten of them young girls, the rest women. I have much opportunity of reading or speaking to these pupils, and have good attention. Six of my scholars are Mohammedans, and give most intelligent attention. May the Lord bring home the truth to all these souls, and to the many neighbors and friends who always sit around, or come in to hear the bhajans (hymns) and talk.

The Rakha Orphanage in Fatehgarh has continued under the joint care of Mrs. Jarbo and Mrs. Lohr. The roll numbered 28. Mrs. Lohr writes:

The girls have been very good lately, thanks be to God, have not given us any trouble at all, do everything so nicely and in such a happy spirit that it makes us quite happy to see them. We always have them in the house on Sundays for an hour or so to sing hymns and bhajans, and they enjoy that very much indeed. On one of these occasions I told them how little children at

home often saved the little money they got from their parents and relations, and instead of buying sweetmeats gave it to the mission. I told them that they ought to try and do some little things for the Lord too, and asked them to give a pice on the first Sunday of the month in the Sunday-school. They promised it very readily, and the following first Sunday I saw my girls with very happy faces put their pice in. The next Sunday again almost every girl put a pice in the little basket. One hardly realizes what important work it is to bring up children in an orphanage. We need much prayer, and I ask all the dear friends to pray for our work in this place.

In addition to the work in the orphanage and Christian village adjoining, the ladies have visited several villages in the neighborhood, where regular instruction has been given:

We have now more than seventy pupils in four villages: more than half of them are grown-up girls and women, and we could have more if I felt that I was able to take up more work, but as it is my time is fully occupied. In one village we began a school about three weeks ago, and it has now twenty pupils. My little Bible-woman goes there twice a week, and I go as often as I can. The people in that village are so thankful for their girls learning something, and the head man of the village, a very nice old gentleman, said to me, "I wish you could make our girls as good and diligent as European ladies." He said that he had seen a good many mission ladies, they were always working, even when they went out in their garys. I spoke to him for some time, and told him some things about Christ and his love for sinners. He listened very attentively, but did not say much. When he was going away he said that he would be very, very thankful for all we could do for the girls in the village. His little girl is always the first in school and stays the longest. We teach them to read and to write and for the present only very little arithmetic. Besides, they learn the Catechism and our bhajans, and later on I will try and teach them some needlework. In all the villages to which we go people listen very earnestly, and they often say that they believe in Christ and that they know their gods are false gods, but it seems as if one waits for the other to come out first. The other day was a Hindi holiday and all the people had made little gods of dirt, and put milk and food before them. I spoke to the people and told them how bad all that was. A Brahmin woman said: "Yes, mem sahib, I know the Hindi people are all great fools to do such things, but what is one to do?"

Mainpuri Station.

Mainpuri is a place of 30,000 inhabitants, the centre of a district containing over 800,000 people, scattered in 1,379 towns and villages. The missionary force at this centre is also responsible for the district of Etah, with a population of more than three-quarters of a million. But little missionary work is done in these districts outside of that of our own mission. After the withdrawal of Mr. Inglis, the station was in the hands of Mr. Tracy and Mr. and Mrs. Andrews. Providential circumstances, however, elsewhere referred to, required the almost immediate transfer of Mr. Tracy to Farrukhabad, leaving Mr. and Mrs. Andrews with the chief responsibility. In addition to the general superintendence of the work among the women, Mrs. Andrews has rendered valuable service as medical missionary, in many instances securing in this way an entrance to homes and hearts otherwise inaccessible. Miss Byrnes, a graduate of the Dehra Training-School, has been a most efficient helper.

Regular services were maintained in the church, with an attendance of almost the entire Christian community, the back part of the building

also being frequently full of heathen men and women attracted from the bazaar to the service. Eleven persons were received on confession of faith; two from Mainpuri, four from Etah, and five from Shikohabad. Mr. Andrews has introduced the envelope system for the offerings of the church, with a manifest increase both in the gifts and in the number of the givers; the total gifts for the year amounted to \$37. The spiritual condition of the church is reported as encouraging. Some of the members have been earnestly desiring and praying for outpourings of the Holy Spirit. The Sunday-school is attended by the entire membership of the High-school, teachers and scholars, and about twenty-five outsiders. Two other Sunday-schools have been in operation in connection with the boys' vernacular schools, with an attendance of about twenty-five each. A Sunday-school has also been maintained in Etah.

Evangelistic.—Concerning this department Mr. Andrews writes:

In regard to specific evangelistic labor, so-called, though it is no more evangelistic than the other departments of work already enumerated, the Gospel has been daily preached in the bazaar, and in the surrounding villages, at the melas held in the vicinity, and, most satisfactorily of all, at the opium weighments and payments. On these last two occasions we were privileged to preach and distribute tracts to thousands of men gathered from every part of the district, many of whom said they had never heard the Gospel before. With hardly an exception these men listened respectfully, and many of them even

earnestly, to the Gospel message.

May we not expect the seed scattered there will be wafted all over the district, preparing villages and homes to welcome the missionary whenever he shall come? I am convinced that such a district as Mainpuri, thoroughly worked, will show much better results than at present appear from our scattered efforts. It has been our policy to scatter the workers as much as possible instead of keeping a large force in the city of Mainpuri, where the Gospel has been faithfully preached for years. With this end in view, one worker was sent to Shikohabad, one to Etah, and one to Karaoli. In the cases of Shikohabad and Karaoli work was begun at the earnest request of citizens of the places who were favorable to the Gospel through their early training in a mission school. It has given me great pleasure to baptize in the Mainpuri church the mason who built it many years ago. He is a very earnest man, and employs his evenings in teaching others the way of life, while he works as a master mason during the day. He lives at Etah, and at first he was persecuted by his neighbors, losing his position on some Government work and being without work for some time. His skill, however, was such that he was finally restored, and seems to have the respect and confidence of his neighbors as well as of those whom he is trying to lead to Christ.

Mr. Tracy spent a month in the district preaching the Gospel as

he had opportunity.

Educational.—The High-School for the past year reports a roll of 106. Much gratification is expressed at the efficiency of the headmaster, Mr. F. A. Cooper, a gentleman of marked culture and refinement and of pronounced Christian character and missionary spirit. Instruction in the Bible and Catechism has been faithfully imparted. A quarterly written examination in the Scriptures has been held for the upper classes and an oral examination for the lower classes. The death of Elder Hulas Roy deprived the school of an earnest Christian teacher and the station of a most efficient helper. Mr. Andrews taught the Bible daily to the two highest classes. Concerning this form of

Christian effort he says: "This has been a most priceless privilege to me, and I consider it one of the most hopeful and promising forms of

missionary labor."

The withdrawal of the Government grant-in-aid from the girls' schools at this station caused the closing of them for a time, but Mr. Andrews later in the year was able to reopen three of them under Christian teachers, adding afterwards a fourth, at his own charges. Two of these were mixed schools, a new experiment in Mainpuri, although tried successfully elsewhere. Two vernacular schools for boys are reported in a flourishing condition. One of the teachers seems to be an earnest inquirer, having given up idolatry and all heathen practices, but not having yet closed with Christ.

Four boys' schools have been conducted in Etah, and one in Shikohabad. Three more ought to be opened immediately in villages close by among the Chumars, the cultivators of the soil. Earnest appeals for such schools have been received. The one girls' school in Etah, under the direction of the wife of a blind catechist, is spoken of as a

"model school, satisfactory in every respect."

Etawah Station.

Etawah is a city of about 30,000 inhabitants situated on the East Indian Railroad, and is also the centre of a large and populous district. The church, built in the busiest part of the native city, reports 30 communicants, of whom three were received on confession of faith during the past year, one being a Hindu. Regular services have been conducted by Mr. Woodside and native brethren. Several of the sweeper caste are candidates for baptism. Mr. Woodside reports an encouraging spirit of inquiry, not only among the common people, but among some of the higher classes. A number have applied to him for Bibles; among them a young Brahmin, who had passed the entrance examination from the Government School, and was about to enter the Christian College in Agra for the main purpose of studying the Scriptures under favorable auspices. Opposition on the part of Aryas has been encountered, also for a time from a Mohammedan preacher. Two Sunday-schools are connected with the station, with an aggregate attendance of 8o.

Evangelistic.—The native brethren spent the winter months in the district, visiting 215 villages, Mr. Woodside joining them at several

points.

Miss Belz, who has the oversight of the work among women, reports increasing access to the people, not only in the villages, but among persons of high caste. She writes:

In former years people in the city, and also in villages, used to say that I was going about to destroy their religion, and to persuade the women to come over to Christianity, and they would sometimes scoff at me; but a change has taken place, and that is now done very seldom; people seem to become more and more convinced that Christianity is a true religion. Of those who in former years would laugh at what I said about the Lord Jesus, there have been some during the last year who liked to hear of the way of salvation and seemed to approve of it heartily. One day an aged, respectable-looking Brahmin listened to my discourse quietly for a long time and said nothing, medi-

tating no doubt on what he had heard. When a youth about 15 years old came forward to oppose me and speak against Christ this old Brahmin said to him: "You be quiet, because the Lord Jesus is the Light, which has come from the Light." A woman in the city said to me: "There is now not so much worshipping of idols as in former times in this city. In consequence of your telling us about the true God the women's belief in their gods and goddesses has decreased considerably." I believe this is a fact. There is near the river a sacred place where a certain goddess is worshipped by women. I have been there frequently telling them of the vanity of idols, and of the worship of the true God. In former years when I went there I sometimes met with two or three hundred women on the way to this temple to worship that goddess, whilst now I find but few going there, so that I do not think it worth my while to go there again, and instead I go to the city or to some village, where I always find plenty of women to listen to the Gospel message.

Educational.—Zenana schools have been conducted as in former years by native women under the direction of Miss Belz. Two hundred and sixty pupils have been under instruction.

Five day-schools, one for boys and four for girls, are reported, the

former with a roll of 44, and the latter 200.

Morar Station.

Morar is in the native State of Gwalior, about four miles from the capital, on the line of railway between Agra and Jhansi. It is but a feeble centre of Gospel light, and yet the only one in the entire State with its population of two millions and a half. Mrs. Joseph Warren continues in charge of the station, being the only foreign missionary who has labored regularly there since her husband's death. She has been assisted by a native minister, who preaches in the bazaar, teaches in the Sabbath-school, and also does some evangelistic work in the district. The adopted son of Mrs. Warren has also done good service, especially among the native soldiers, winning their confidence through the administration of medicines. The past year in Morar, as elsewhere on the plains, was one of unusual trial because of the intensity of the heat. Mrs. Warren remained at her post during the hot season, as she has done with two exceptions for the past twenty years. It is believed, however, that a period of rest in the hills would have greatly benefited her, especially in view of the statement she makes, that "there was not one cool day from March to October." The Sabbathschool was held in the still unfinished church building with good encouragement, but no statistics are given. Mrs. Warren thus refers to a very essential requisite in missionary equipment: "This year God has given me a fine, strong, young horse. The one I was using was purchased by Dr. Warren a little while before he was taken. It rendered good service in God's work in India.

"I have done my work on the road more than ever before. God has given me more books too this year, that is, the means to buy them; these books I give to those on the road who thread their way to their homes in the villages miles and miles distant in the Gwalior State, where I cannot go myself. I have given out hundreds and hundreds of them in this way. The people seem ravenous for them, and the gleams of joy that I have seen on faces this year are a blessed earthly

reward for me. A book preaches for a longer time than a person can talk."

The heavy burden of secular care, in addition to the spiritual oversight of the station, naturally fell upon Mrs. Warren. She writes: "I have roofed our bungalow this year,—that is, I have had a layer of thatch put on. When it is a little cooler I must watch the goings-over of the roofs of the out-buildings. I do this part of my work willingly; it has enlarged me and brings me in contact with people whom I would not have known in other ways. The day laborers all about here know me, even those I have never known."

Jhansi Station.

Jhansi is exactly the geographical centre of India; it also occupies a central position among the stations of the three Presbyterian missions operating in that part of India, namely, the Canadian Presbyterian Church, the United Presbyterian Church of Scotland, and our own church. In all, these churches have twenty-one stations. importance as a centre of mission work can scarcely be overestimated. Four lines of railway converge there, with excellent Government roads intersecting the surrounding country in all directions. The two ordained missionaries stationed there are the only ordained men between Allahabad and Kotah, a distance of 430 miles east and west, and between Agra and Saugor, 280 miles north and south, or between Cawnpore and Oojein 350 miles. It is in the midst of a population which is estimated at from six to ten millions of unevangelized people, chiefly Hindus. In the absence of Mr. and Mrs. Holcomb, on furlough in the United States, the responsibility of this station devolved upon Mr. and Mrs. Griswold.

The new city church, referred to in the last report, was dedicated early in the year. Through the kindness of Government officials, the site on which the church stands was enlarged by the grant of a strip of ground both in front and rear, an addition which isolates the church from the adjoining buildings. As the station is yet comparatively new the church membership is small, numbering but eight. Hindustani services have been held regularly on Sunday mornings, the average attendance being 70. The morning service is followed by a Sunday-school for the adult members of the congregation, the native pastor instructing the Christian men, and a catechist the Christian women, while Mr. Griswold endeavors to gather for himself a class of

Hindus and Mohammedans as opportunity offers.

A colporteur, whose business it is to sell portions of the Scriptures and tracts, opens the church library and reading-room each week-day afternoon at four o'clock, and remains there until dark. The average number of readers is small as yet. It is believed, however, that this effort to attract the educated classes will increase in efficiency. It is worthy of note that up to this time the Bible, and various lives of Christ, are the books most frequently called for by the readers.

Evangelistic.—Mr. and Mrs. Griswold, accompanied by native helpers, spent two months in the district working from three large towns as centres, visiting the neighboring villages. They were especi-

ally welcomed by some low-caste people, and notably so by a community of Chatai-walas. There is great need of helpers to carry the Gospel to this people. Mr. Griswold is impressed with the

splendid opening for district work in this general region.

Educational.—The Girls' School on the mission compound, which, in the absence of Mrs. Holcomb, has been under the general supervision of Mrs. Griswold, has had a maximum enrollment of 68, the highest average attendance for any one month being 40. The girls include Christians, Bengalis, Mohammedans, Parsees, and Jews, representing mostly families of means. "The religious instruction is faithfully given, and in a variety of ways. The school is opened and closed with prayer, and Christian hymns, Bible verses, and catechism are regularly taught." A prominent member of the Municipal Board after visiting the school expressed great satisfaction, and remarked to a friend as he passed out, "Well, I always did say that the missionaries were the pioneer educators of India."

Two primary vernacular boys' day-schools have been held in the

city, with an attendance of 96.

The Zenana Work under Miss Peel has been conducted in the houses of Hindus, Bengalis, and Mohammedans. Forty-four pupils were enrolled. In connection with this work Miss Peel conducted a

Sunday-school in the little village of Asari.

Mrs. Griswold held a Sunday-school for the wives and children of the servants on the compound, and also conducted a day-school for their benefit. In addition she has visited the homes of the girls attending the school, where she has been cordially welcomed.

Allahabad Station.

There are two centres of mission work in the city of Allahabad, located respectively at Katra and on the Jumna. The church at the former continues under the pastoral care of the Rev. Mr. Caleb, assisted now and then by Mr. Alexander, the missionary in charge, while the church at the latter has been ministered to by Dr. Johnson and Mr. Fieldbrave. At Katra 6 persons were admitted to the communion of the church, 3 from the Christian community and 3 from among the Hindus, 1 being a Brahmin pundit. The Brahmin had been an inquirer for 18 years. After his baptism he returned to his village, hoping to reside among his own people, but finding this impossible because of persecution, he returned to Allahabad with his wife, who also has confessed her faith in Christ. The Jumna church reports 127 communicants, of whom 10 were baptized during the year, 1 a young Mohammedan munshi (teacher).

Evangelistic.—Mr. Alexander continued the Sunday service in his study for non-Christians, the class numbering 30. His time was largely given to work among the villages near Katra, where there has been an increasing interest among the low castes. He spent January and February with his family and 4 native assistants in tents among the villages in the districts of Fatehpur and Allahabad. The experience of a family baptized during this itineration illustrates the diffi-

culties attending a public confession of faith, even under the British flag in India:

At Bindki I baptized a family of 3 persons, father, mother, and one child. The man made a living by daily labor among the grain merchants in the bazaar. The day after his baptism he went out as usual to his work, but the news of his baptism had been published abroad, and no one was willing to give him employment. After vainly seeking for work all day he returned to his home utterly discouraged, and in the night he died suddenly. There is a lone Christian grave close to this heathen village in a plot of ground given for the purpose by a Hindu Zamindar. This gift is worthy of note.

Mr. Alexander adds:

During this tour over 200 villages were reached, some of them being visited several times. A number of Scripture portions, full Scriptures in Urdu and Hindi, and many tracts were sold. In my many years of experience of work among the villages I have never had so much success in reaching the people, nor have I seen so great a desire to hear the Word.

Dr. Johnson reports that evangelistic services had been held almost daily in the church in the city, which is located in a crowded bazaar; the attendance was encouraging, the opposition encountered being but trifling.

In reporting work among the women Mrs. Alexander states that in Katra and the adjoining village 61 zenanas were visited regularly by the 3 Bible-women until the retrenchment by the Board required one of them to be dismissed. Among the interesting facts reported in connection with this work is the following:

Less than a year ago a woman at Bhagara began with the Hindi primer; she now reads fluently from the New Testament, and has committed a large portion of the Hindi catechism to memory. Her husband is also a seeker after the truth.

In these zenanas the Christian Vernacular series of readers is used, but Mrs. Alexander finds an increasing desire on the part of the women to study the Bible as a text-book.

Educational.—In the absence of Dr. Lucas on furlough the Jumna High-School has been under the general direction of Dr. Johnson. It has a European headmaster and 3 Christian teachers, who took the main part in religious instruction, Dr. Johnson having time only for general oversight and a weekly service for the students. The roll

numbered 265, the average attendance being 228.

The Katra Middle-School was seriously inconvenienced by the burning of its building, supposed to have been the work of an incendiary. The classes have been accommodated temporarily in a bungalow near by. One hundred and twenty students were in attendance, of whom 28 were Christians, 54 Hindus, and 38 Mohammedans. When at the station Mr. Alexander devoted an hour each morning to instructing the highest class in the Bible, besides conducting the opening exercises. Several of the students were successful competitors in the "Budden Scripture examination." Some years ago Mr. H. C. Budden, an English gentleman connected with the educational department of the Government, collected a fund, the interest of which with

annual subscriptions is given in scholarships and prizes to those students of the Middle and Entrance classes in Mission and Government schools who pass the best examination in specified portions of Scripture.

The Jumna Girls' High-School, which was opened in 1888, reports a year of steady growth.

Situated on the north bank of the Jumna River, in a large open compound, the school has every advantage possible in the plains of India for health and comfort. Many times when cholera and small-pox have been prevalent in the neighboring city and villages it has escaped unharmed; and from the ordinary diseases of the country it has had unusual immunity.. The object of the school is to give a thorough education to the daughters of native Christians; not only by means of that learning which is obtained from many books and enables them to pass certain examinations and fit themselves for positions of usefulness, but by the Christian training which is based on one Book, yet, without which, all else that can be given is of but partial and transient value.

Fifty-six pupils were in attendance, of whom 50 were boarders. The school was seriously hampered during the year by the necessity of renewing the roof and making some alterations to the building, but the improvements have added immensely to the comfort, convenience, and healthfulness of the school. It is with deep regret we note that under the heavy burden of responsibility the health of Mrs. John Newton, the principal, gave way to such an extent that even a season of rest in the hills did not fully restore her. Under medical advice, she has had to return to the home-land for rest and change. Miss Morrow and Miss Colman, however, had so far mastered the language and become familiar with the duties that, with some help from Miss Johnson, they were able to meet the demands, Miss Morrow acting as principal.

There are 9 day-schools, including one for Christian girls and 3 for Hindu girls, with a total attendance of 431. Several of those for girls

have been under the superintendence of Mrs. Alexander.

Medical.—Miss M. L. Symes, since the death of Dr. Seward and until the arrival of Dr. Templin, was in charge of the dispensary, assisted by Miss Christian. She reports the total attendance of new patients at 3,342, general attendance 11,304, visits made to patients at their homes 219, visits to zenana mission-school 74. Miss Symes also accompanied Mr. and Mrs. Alexander for a time among the villages, where she treated upwards of a hundred patients. Miss Christian rendered valuable service in the dispensary. Some interest has been manifested in the brief religious service which precedes the daily medical work, but no conversions are reported.

Literary.—Dr. Johnson, in addition to his work in the Jumna High-School and church, and also in the Leper and Blind Asylums, has devoted a large amount of time to literary work in the translation of Bible stories and the preparation of tracts and books. This has been done in connection with the Christian Literature Society and the North India Tract Society. Forty-two tracts and small books, containing from 16 to 100 pages, were issued, and 11 different four-page tracts on such subjects as "Who is God?" "Hinduism Illustrated,"

and "Parable of Redemption." Dr. Johnson, in connection with Mr. Fieldbrave, has managed the Hindi religious paper, "Makhzan i Masihi"

Fatehbur.

Fatehpur has been for some time past simply an outstation of Allahabad under the superintendence of Mr. Alexander. The church numbers 22 communicants, 9 of whom were received during the year, 6 being converts from Hinduism. The mission-house is at present occupied by ladies connected with the W. U. F. Missionary Society of New York, who are in deep sympathy with our work. Jahanabad, a town of 10,000 inhabitants, 32 miles from Fatehpur, was occupied by a catechist and his family during the year. A number of inquirers are reported. The work at Bindki, 17 miles from Fatehpur, was interrupted by the removal of the catechist in charge, but has been again resumed. A large number of inquirers, mostly Chumars and Mehters, are reported. The Aryas have done what they could to oppose the work, but without success.

Kolhapur Mission.

KOLHAPUR: 200 miles southeast of Bombay; 45,000 inhabitants; mission station commenced, 1853; taken under care of the Board, 1870; laborers—Rev. and Mrs. G. W. Seiler, Rev. and Mrs. James M. Goheen, Rev. J. M. Irwin, Mrs. R. G. Wilder, Miss Grace E. Wilder, Miss Esther Patton, Miss Rachel Irwin, Rev. and Mrs. Robert P.

PANHALA: 14 miles north of Kolhapur; mission station commenced, 1877; laborers—

Rev. and Mrs. George H. Ferris.

SANGLI: 30 miles east of Kolhapur; work begun 1884; laborers—Rev. and Mrs. J. P. Graham, Mr. and Mrs. John Jolly, Miss Jennie Sherman.

RATNAGIRI: 70 miles northwest of Kolhapur; mission station commenced, 1873; missionary laborers—Rev. and Mrs. L. B. Tedford, Rev. and Mrs. W. H. Hannum, Miss E. T. Minor, and Miss Amanda Jefferson.

MIRAJ: about to be occupied as a station, the centre of the medical work. Dr. and Mrs. W. J. Wanless.

In this country: Rev. and Mrs. Galen W. Seiler, Mrs. L. B. Tedford, Mrs. J. P. Graham.

The year's work in the Kolhapur Mission has been marked by the opening of the new station at Miraj and the initiation of work upon the new hospital there. The year has been a quiet one in the mission save for disturbances at Ratnagiri brought on by the baptism of a young man. The commotion soon passed away, having served a good purpose in awakening inquiry and challenging attention. Mrs. and Miss Wilder were called away from their work for a while by the serious illness of Rev. Robert P. Wilder in England, but they have all returned now to India, Mr. Wilder having recovered. For the present he will attempt a special work among students and trust to the good hand of God for future guidance. During last year Dr. Gillespie visited the mission, and the results of his visit are spoken of in the report of Kolhapur Station. Mr. Tedford returned to his work in the fall. No new missionaries have been sent save Mr. Wilder and his wife, though the mission has strenuously asked for reinforcements.

At the close of the last annual meeting Dr. Gillespie visited the station and the mission. After he had talked to the native church on the duty of having their own pastor the church called Shrivaram Masoji and he was ordained and installed March 24, 1892. The fol-

lowing is his letter of acceptance:

"PANHALA, Feb. 18, 1892.

"REVEREND AND DEAR SIR: Firmly believing the call to be from the Lord I dare not refuse it; but after many prayers and a hard struggle I give myself entirely into the hands of the Lord for guidance, strength, and grace, and ac-

cept the call from the church.

Now, sir, I think that I need Divine as well as human help. I cannot believe for a moment that I am worthy for that high calling. Let me tell you that I shall be dependent upon you for instruction, direction, and advice, and you must kindly give me a free benefit of your long experience and knowledge of human nature. By accepting the call I do not think that I shall be able to accomplish anything till I learn under your direction to bear the burden of cares and trouble which the work involves.

cares and trouble which the work involves.

"In conclusion, sir, I beg the earnest prayers and sympathy and help from all my Christian friends in the church and abroad, and casting away all my doubts and fears I heartily say, 'Lord, here I am; use me for Thy service and

glory.'

'I remain, sir,
"Your obedient servant,
"Shrivaram Masoji."

Street preaching has been conducted regularly on Mondays and Fridays in front of the church in the city. Since Shrivaram has become pastor of the church Mr. Goheen has, after the regular preaching services were over in the church, preached to large audiences on the street in front of the church every Sunday evening. These services have been well attended, and with very few interruptions on the part of the audience. At the close of the preaching from 50 to 100 tracts have been given to those who stayed till the end. Most of these tracts, of which thousands have been distributed during the year, have been supplied gratuitously by Rev. H. J. Bruce, of Sátárá.

Evangelistic work has been carried on by Baizuba and Basantrav in Kolhapur, and by Sidarám at Wadgáv. These men hand Mr. Goheen monthly reports of their work, which show that thousands have heard the Gospel from them during the year. Basantrav and Sidarám made two tours together before the rains. With the use of the magic-luntern

they were able to gather large audiences wherever they went.

Sidarám has won a strong hold on the people by his kindness to them in times of sickness or trouble. The Patil of Kumuz, a town some nine miles from Wadgáv, was bitten by a snake. He sent his servants to Wadgáv to call the native doctor, who refused to go even though they were willing to pay him Rs. 25. Sidarám was ill and not able to go, but he called the servants into the house, prayed for the Patil and gave them medicine to take to him. The servants returned at midnight to tell Sidarám that the Patil had taken the medicine and had become conscious. Sidarám gave them more medicine, and in a couple of days the Patil sent word he was almost well and was coming to see him the next Monday. This same Patil had refused to allow Basantrav and Sidarám to preach or stay over night at Kumuz about a year ago.

Theological Class.—Mr. Ferris and Mr. Goheen taught the class in Kolhapur during the rains. Mr. Goheen taught Church History, Genesis, and the Acts of the Apostles. Two of the class, Basantráv and Sáyápá, showed much interest in these studies, and it is hoped

were much benefited.

Sunday-Schools.—Mr. Goheen has had Sabbath-school in the city church every Sunday at 8.30 A.M., with an average attendance of 300. About ten classes were taught by the native Christian men and women.

Golden Text cards have been given every Sunday to all who were present, and frequently tracts and leaflets have been given to all who can read.

Mr. and Miss Irwin have conducted an English Sunday-school for the students of the High-School.

Mr. Goheen has conducted a Teachers' meeting each week.

Zenana Visiting and Bible-Woman's Work.—On Friday, January 22, 1892, Dayabai, Poonabai, and Radhabai, were set apart to the work of Bible-readers by a special service in the girls' school-house in Kolhapur. They received the title of Bible-readers, indicating that they have not yet completed the course of study marked out for our Bible-women.

Mrs. Goheen having districted the town and allotted two wards for each day's visiting, Poonabai and Radhabai started out February 1st, 1892, to open their work in Kolhapur. The enthusiasm and zeal they showed in this beginning have not been in any appreciable degree lessened, although they have been exposed to ridicule in some places and rebuffs in others. Seeing them for the first time singing and talking in the midst of a group of women some school boys called out, "The mission has been sending men out preaching for years and now

they have let out the women too."

During a Mohammedan festival (the Moharam) two men, dressed in lugardies, paraded the streets to represent these Bible-readers. One carried an umbrella and the other a bundle done up in a colored handkerchief supposed to contain Poonabai's concertina and their books. They had acquaintances in most of the wards to begin with, and one house after another opened up to them. They have given the Gospel message with great directness. Their hopefulness about this and that case is infectious. Some people have offered them

money, telling them they deserved it for their good talks. This they refused, but they have accepted vegetables from the gardens of some houses where they visited. They had the usual month's vacation during April, but they continued during that month to visit regularly at the hospital and one or two other places.

Miss Irwin writes of her work among the women: "I have been going out to the nearest villages. I am not sure that they received much instruction, but I think they must have understood considerable of what I said, or they would not have appeared so interested. How

often I have wished for the 'gift of tongues.'"

Benevolent Society.—It has been Mrs. Goheen's aim to get the women together to promote a social and sisterly feeling among them. As it is the only regular social meeting, Mrs. Goheen encouraged them to bring their children, and the presence of the babies is not very helpful to the sewing, but it seemed to be helpful enough in the other directions. The society has generally met in the city. One week a Mohammedan family invited the society to meet with them. The invitation was accepted, and the family made much of the presence of the society. There was some preaching, much singing, talking, and laughing, the sale of a good many garments, orders for more, and pán supári and garlands to end up with.

Boys' Schools.—The schools in Kolhapur—two boys' and two girls' schools—have been carried on throughout the year. Shrukrawar Boys' School with 60, and Shanawar Boys' School with 80 boys.

Herla Boys' School has 25 names on the roll.

Girls' Schools.—Aditwar School.—A young Brahmin master has been satisfactorily teaching this school recently. He has been much interested in the progress of his pupils, and has joined the Y. M. C. A. as associate member. It was feared that the older girls would leave the school if a young man were introduced as teacher, and for a few days they did absent themselves, but soon returned.

A large, light, and airy room has been secured and fitted by a gift of

money from the Home Industrial School in Asheville, N. C.

The Somivar Girls' School.—Sonabai, the daughter of one of the helpers, a capable young woman, teaches the school, and has the love and confidence of her pupils.

High-School.—The report says: "The effort during the last term has been to raise the standard of efficiency in the school, both with regard to the secular and religious studies. As tending to this object, the following steps have been taken and results obtained:

"1st. A Government grant-in-aid, amounting to 331 rupees, has been received, coming at an extremely opportune time, when all other

grants had failed.

"2d. The increased grant by the mission.

"3d. We have so cut down the calendar of holidays, rearranged the examinations, raised the standard of passing, established a few scholarships in the lower standards, etc., as to raise considerably the standard of results, as shown in our recent annual examination in general.

"4th. We have greatly enlarged our library and laboratory, and in

a smaller measure also our gymnasium.

"5th. This term we have, after much effort, succeeded in enforcing the rule about our teachers regularly attending daily prayers; while proceeding in this matter we found it necessary to dismiss one of the higher teachers and receive the resignation of another. In place of these we are very glad to report the attainment of a long-sought opportunity in the engagement of two Christian B. A.'s who had studied in Jaffna and Madras.

"6th. This year there have been regular examinations in the Bible

in all the standards.

"7th. A Y. M. C. A. has been established in connection with the school. Since its organization, Mr. Irwin has conducted a Bible training class for workers in the Y. M. C. A. every week.

"8th. The enrollment during the last 9 months has been 106. The average daily attendance 88. The total regular expenditure of the

school for the last o months has been about \$900."

Later letters indicate that the Government grant may have to be lost this year, because of limitations which the terms of its bestowal would impose upon the Christian usefulness of the school. Mr. Irwin is anxious to have a building which will meet the growing needs of the school.

Christian Girls' Boarding-School.—"The end that we strive for in this school, as well as in the boys' school at Sangli, is so to train up the native children of our mission that they will become good and practical women and men, useful in the native communities where

they may reside.

"We receive into this school girls at the age of seven years, and in order that they may not be educated above their own way of living, we have them live much as they live in their own homes, or as they will doubtless have to live when they go out of school into homes of their own. The girls do all the work in the house—grinding, cooking, bringing water from the well, washing, sweeping and cleaning the house, sewing and mending, and have at least five hours in school daily.

"Mrs. Goheen has had a quiet talk with the girls each Sunday, and

they have been much helped and interested."

Panhálá Station.

The year began with a bright outlook for work, as Shivárám, with his family, was stationed here to do purely evangelistic work; but in about three months he was called to the pastorate of the Kolhápur church, and Panhálá was left with no native helper other than the teacher in the girls' school, and even she left during the rains.

One decided step forward has been taken in this field by the Ayatávádi church calling Satuba Ranbhisi to the pastorate of the church and his being installed over the church by the Presbytery of Kolhápur. This was the first church in the Presbytery to have over it a native

Christian as pastor.

School Work.—The girls' school was carried on until August, when the teacher was given the usual vacation and decided not to return to

Panhálá, leaving the school without a teacher. There have been 46 names on the roll. The boys' school at Ayatavádi was doing well under Bábáji Ránbhisi. He had won the affection of the boys, and was quite successful in teaching them, but was transferred to the Sangli boys' school. The Kodoli boys' school has 15 names on the roll.

Schools have been asked for in several villages near Kodoli and Ayatavádi, but lack of suitable teachers has, so far, prevented the re-

quests being granted.

Church Work.—The Panhálá church, though having 16 names on the roll, in reality has only 8 members who are able to attend services here; the remaining 8, being in other fields of the mission, ought to ask for letters to other churches of the mission.

One of our Christian girls has been received into the communion of the church on profession of her faith in Christ as a personal Saviour.

Ayatarádi Church.—This church made a forward movement by calling to the pastorate Satubá Ránbhisi, and agreeing to pay about one-half of his salary. He was ordained pastor of the church on March 5th, 1892, in the school house at Kodoli, at a meeting of the Presbytery of Kolhápur.

This movement has been blessed to the church, there having been

several additions to the church on profession of faith.

The church membership now consists of 33 adults and 35 baptized children. During the year 4 adults were received by letter and 4 on profession of faith. The church gives every prospect, under the blessing of God, of increasing its numbers.

Evangelistic Work.—Satubá, until he was ordained pastor of the Ayatavádi church, devoted his time to preaching the Gospel in the towns and villages, and as usual, commended Christ to the people by

his own humble and consistent life.

Santu and Satu and Shivárám have gone about bearing the precious seed of the Kingdom. Sunday-schools have been carried on as usual.

Medical Work.—The Government has opened a dispensary at Panhálá, so the mission dispensary building was sold to the Government and another dispensary was opened with the proceeds at Kodoli, which is a much larger place than Panhálá, and whose surrounding country

is much more populous.

Dr. Wanless was assisted in the medical work which was done at Panhálá by Somáji Gároji and Sáyad Abdul Razáck, who preached and gave personal Christian instruction to the patients. Tracts were also freely distributed to those who could read or could get their tracts read at their homes. During three months, 1,522 attendances were made by patients to the dispensary. Dr. Wanless and Mr. Ferris visited the surrounding villages healing and preaching.

Sangli Station.

The Church.—During the past year, 3 persons, all infants, have been baptized, and 3 adult members, with 7 baptized children, were dismissed to join the church organized at Ratnágiri. One member has

been suspended. The tithes of members and weekly collections have amounted, since January 1st, to Rs. 34-2-2.

The Sunday services in the town church have been well attended, and the non-Christian part of the audience has been attentive and

has generally remained during the entire service.

During the last Shimga festival the church was stoned. Application has been made to the chief to have the state repair the mischief done, but, thus far, he has given no answer favorable or otherwise.

Evangelistic IVork.—Preaching has been carried on in the church every Saturday afternoon, the day of the weekly bazaar. Mr. Graham has also preached in the towns about Sangli, being accompanied always by Govindiav, the native helper, who has also visited many

other towns, especially those near the railway.

Schools.—Since January the Boys' Boarding-School has been in charge of Miss Sherman. At the beginning of the year there were 30 boarders, which have increased during the past term to 38. Of this number, 29 are the children of Christian parents. Two boys, since January, have been taken from the school by their parents, and two have been expelled for bad conduct. The Bible-study has been a most gratifying feature of the work. During the past year the 2d and 3d standards have been studying Genesis, and during the past four months the two higher standards have studied John. The health of the boys has not been, on the whole, very good. About fifteen were ill with influenza in March, and during the past term about twenty boys have been attacked with a skin disease. The boys have done their own work as usual, except cooking and grinding. Six of the older boys can now sew fairly well on the machine, and during the year they have made no less than 150 garments for the school.

The Industrial School has not yet been opened. The principal cause of this has been Mr. Jolly's absence of some six months from Sángli since his arrival in India, owing to the tedious illness of Mrs. Jolly. It is hoped, though there are fears to the contrary, that Mrs. Jolly's health will permit her remaining in India. In February, in company with Dr. Wanless, Mr. Jolly visited several industrial schools and workshops in Poona, Bombay, and Northern India, for the purpose of gaining information as to the conduct of such work in this

country.

The erection of the industrial workshop in Sángli was begun in August. A number of small machines have arrived from America, and as soon as the building is completed the training of the boys can be commenced. It had been hoped that all would be in working order by January 1st, 1893.

Dayábái has taught a girls' school, and there have been schools at

Tasgan and for Mang boys.

Many tracts and books have been distributed.

Medical Work.—During January and February Dr. Wanless carried on work in the dispensary, treating 990 patients and making 15 visits to the homes of the sick. Somáji Gároji and Sayad Abdul assisted in dispensing for and treating the patients. Preaching in the dispensary has been carried on by Dr. Wanless and these native brethren.

Ratnagiri Station.

Church Work.—The Presbyterian Church of Ratnagiri was organized by the Committee of the Presbytery of Kolhapur on March 14, 1892, with eleven adult members and eleven baptized children. One elder, Khaudobá L. Padaghalamal, was installed at the same time.

Miss Mary R. Minor, whose presence had been a great help, who was making good progress in the Marathi language with a view to doing her share of the work, was compelled to return to the United

States in April on account of health.

A young Hindu of good caste, named Sadáshiva Gangáji Pedane-kar, was baptized in July, an event that caused some commotion and served to publish the Gospel in and around Ratnágiri. He had been a teacher in the Karale School from its organization in May, 1891, and was the first fruit of the present mission schools at Ratnágiri. His conversion was the first for many years there. Mr. Hannum writes that there are other young men, both Hindus and Mohammedans, who are thinking seriously of accepting Christ. Ratnágiri has been regarded as a hard station. A second elder has been chosen, and the time is soon anticipated when a fit man for pastor can be secured.

On July 23 a Society of Christian Endeavor was organized, consisting of the members of the church. It meets every Tuesday at the house of some member. A woman's meeting has been held weekly.

Evangelistic Work.—All the brethren in the church took advantage of the popular interest aroused by the baptism, and during July and August preached often in the business part of the town, Providence protecting them from persecution and securing them many hearers. Many copies of the Gospels have been distributed.

Schools.—The schools established last year have all been continued. The Chaundevatár Boys' School has had an average attendance of 27; the Chaundevatár Girls' School, 8; Karale Boys' School, 40, and Pomendi Boys' School, 22. The commotion in July threatened to break up the schools, but they have since shown signs of improvement.

A number of gifts for the work have been received. Among them are a handsome organ, a magic-lantern, a pulpit Bible, and a table for

the church.

Miss Jefferson writes: "In case after ten or twenty years I should forget my trials with the Marathi language I desire now to emphatically state that I have found it indeed difficult to get even the most limited knowledge of this tongue; and instead of thinking I had 'nothing to do but study the language,' it was my constant grief that I could do so little beside. Then, too, it is somewhat discouraging when you learn that instead of saying, as you thought, 'Sweep this room,' you have said 'Carry out this room,' or when making your best effort to use intelligible Marathi to have the person addressed look up with a helpless stare saying, 'Ingraji samajata nanhi' (I do not understand English). Nevertheless, I believe that God did not send me here to be conquered by a foreign language. How happy I was the first morning I tried to sell some Gospels and succeeded in dis-

posing of eighty-four Marathi and four Hindustani. Two Mohammedan women invited me into their houses, and although I could not speak a single word of Hindustani I accepted, and as there were no chairs a board was laid on the floor, and I took the humble seat, while men, women, and children gathered to see the novel sight. After remaining long enough to see and be seen I made my salaam and departed, longing for the 'gift of tongues.' One morning in the bazaar a Hindu shopkeeper bought a Gospel, and to show his hatred for its supposed teachings, tore it into atoms amid the laughter of a crowd of on-lookers. Another day on my way to a village I met two men, and on showing them the books, one was desirous of buying, but the other, who carried the money-bag, opposed him; but he was not to be so easily turned aside from his desire. When he found that words availed nothing he used more vigorous means, and after quite a conflict got his money, paid the price, and walked off with his Gospel, looking very happy. We can trust God to take care of His own word, knowing the promise, 'The entrance of Thy word giveth light.'"

Miss Minor reports: "Previous to the baptism of Jadoshiva Padoveka, some young men had been coming to our bungalow on Sunday evenings to sing Gospel songs with us, and some had also been coming daily to read the Bible with me, but after the baptism they did not dare come, as parents were warned to take care of their sons. young man is much interested in the Christian religion, and after the baptism used to come to see me, unknown to his friends, for, he said, 'It would be fatal to me if they knew of it.' He is much in earnest, and though not yet sure that the Christian religion is the true one, still he intends to search the matter, and, when he finds the truth, will follow it and not be bound by the traditions of his ancestors. These young men were very curious about our affairs—asked why we came from America, how much we paid for our bungalow, the amount of our salary; one day one asked to see my marriage robes, and was much surprised when I was obliged to confess that I had none. Still, we gladly welcomed them to our bungalow, for it gave an excellent opportunity to tell them the Gospel.

"One afternoon Miss Jefferson and I made a visit to Shirgan, a village about five miles from Ratnagiri. We took with us gospels and religious books to sell. Our experience was most novel. We had no sooner left the Damani than we were surrounded by the ever-present small boys, who showed themselves as full of depravity and original sin as any small boys in lower New York. They constituted themselves a self-appointed escort, and, as we went through the streets, heralded our coming with shouts, escorted us to each house, and tried to assist us in selling our books, though we did not need their aid. During our entire stay we were surrounded by a large crowd, and had we only been able to speak, would have had a large audience. We

succeeded in selling 35 books."

Miraj Station.

Miraj, as a station, was formally opened by occupancy on August 11th, although the medical work was begun by the opening of a dis-

pensary in a rented building in the bazaar on June 16th, and the work of erecting the mission buildings began, amid much rejoicing, on July 27th. The first formal service, apart from the preaching in the dispensary, was held in the travellers' bungalow on Sabbath, August 12th, there being present, besides Dr. and Mrs. Wanless and Miss Sherman, 9 adult Christians, 13 Christian children, the servants, and some outside people. This service has been conducted every Sabbath afternoon since by Dr. Wanless, the average attendance being about 18, mostly Christians.

During the three and a half months 2,375 attendances have been made to the dispensary and 85 personal visits made by Dr. Wanless to the houses of the sick in and about Miraj, including visits to the

palaces of the chiefs at Kurandward and Miraj.

Somaji Garoji and Sayad Abdool Kajack have assisted Dr. Wanless in dispensing for and treating the patients. They have also been faithful in preaching and speaking personally with the patients concerning their spiritual diseases. Malu Kanoji Bhosale has acted as general servant, giving out admission tickets to the patients and also distributing tracts among them. Somaji and Sayad have very frequently had people come to their houses to converse on religion, the Hindus mostly going to Somaji's and the Mohammedans to Sayad's house. The latter being a converted Mohammedan, his knowledge of Hindustani and the Koran has been of special service in preaching to and teaching Mohammedans, of whom there are 5,000 in Miraj.

The work of building the hospital bungalow and dispensary has gone on more or less steadily since August 1st, at times, however, interrupted by the unusually heavy and frequent rains. The children's hospital, which is being built with private funds given by friends in Canada to Dr. Wanless, in addition to the other buildings, when completed will provide space for 8 cots and room for a native nurse.

A woman's prayer-meeting has been organized and held every week in the home of some one of the Christian women, each taking turn in leading it, and has usually been well attended by men, women, and

children from outside.

Dr. Wanless writes: "A Brahmin student of Rajaram College, whose mother I had been treating for some time, has shown more than ordinary interest in reading a New Testament which I gave him. Referring to some of the chapters in Matthew which he had read he said that he thought the moral tone of Christ's teaching was excellent, 'but of too high a standard for a practical man.' It is this forsaking of sin which Christ taught in order to salvation that keeps many a Hindu from confessing Christ. They would like to trust Christ for salvation and their unjust practices for a living."

Before moving to Miraj, Dr. and Mrs. Wanless and Miss Sherman, by invitation, attended the opening of a new water-tank erected by a wealthy banker in Miraj. There were present about 2,000 persons, mostly people of high caste and position, and the Chief of Miraj. At the request of the Chief, Dr. Wanless presented for inspection the plans of the proposed buildings. The Karbhari took this opportunity,

in presence of the Chief, of publicly introducing the missionaries to the people, referring also to the work which the mission was about to establish.

The need is felt of an *ordained missionary* to take charge of the evangelistic and school work, and a *medical lady* to take charge of the

medical work for women.

"The thanks of the mission are due the Chief of Miraj for his kindness in giving us half of the travellers' bungalow and all the out-houses free of rent until the completion of our own mission bungalow; to the municipality for the remission of tolls on building and other materials taken within the town limits for use in building and medical work; to the State Karbhari, Mr. Chittray, for the many kind favors shown us in securing an opening for our work, for his aid in securing building materials for us, and for very many other kindnesses shown us, and for

his gift of 100 rs. toward the medical work."

The mission expresses thankfulness once more to Rev. Mr. Bruce, of Satara, for the many tracts supplied for gratuitous distribution, and to Mr. Wadia, of Bombay, for supplying empty bottles for dispensary patients, and especially to John H. Converse, Esq., of Philadelphia, whose generous gift of \$12,000 has made the opening of Miraj Station and the establishing of our medical work there possible. "Above all, our thanks are due our Heavenly Father, by whose kind providence and power this 'open door and effectual' has been prepared unto His children to live, preach, and teach the glorious Gospel of our Lord and Saviour Jesus Christ."

MISSIONS AMONG THE INDIANS.

Dakota Mission.

Yankton Agency, South Dakota; on the Missouri River, 60 miles above Yaukton; station occupied in 1869; Rev. John P. Williamson and wife; Miss Agnes Pond; Rev. Ilenry T. Selwyn; organized churches, 3; communicants, 339.

FLANDREAU, South Dakota; on the Big Sioux River, 40 miles north of Sioux Falls; station occupied in 1869; Rev. John Eastman; churches, 1; communicants, 101.

Lower Brule Agency, South Dakota; on the Missouri River, 80 miles above Yankton Agency; station occupied in 1885; Rev. Joseph Rogers; native helper, 1; churches, 2; communicants, 111.

POPLAR CREEK, Montana; on the Missouri River, 70 miles west of Fort Ruford; station occupied in 1880; Rev. Edwin J. Lindsey and wife; Miss Abbie L. Miller; outstations, 3; native helpers, 2; churches, 1; communicants, 17.

PINE RIDGE AGENCY, South Dakota; in southwest part of State, 300 miles west of Yankton Agency; station occupied in 1886; Rev. A. Fulton Johnson and wife; Miss Beatrice A. R. Stocker; outstations, 3; native helpers, 4; organized churches, 1; communicants, 22.

It is now 58 years since the Dakota Mission was commenced by a little band of missionaries under appointment of the A. B. C. F. M. As a result, we now have nearly 2,000 church members in the churches which are the outgrowth of that beginning. Of these churches, 8 with 590 members are under our Foreign Board, 9 with 620 members are under the Presbyterian Home Board, and the rest are connected with the American Missionary Association. Of the 1,200 Presbyterian church members among the Dakota Indians, more than 1,000 are among the Sioux east of the Missouri River, at Sissiton, Flandreau, Devil's Lake, and Yankton Agencies. These Indians number about 4,500, and were the first Sioux to come under the influence of the Gospel, and they are now as a body Christianized. As large a proportion of them are professing Christians as of the surrounding white population; and household religion, public worship, and the Lord's day are carefully observed. They are generally honest in their dealings, and, in proportion to their numbers, there are no more criminals than among the whites. In some points they are weaker, especially in the use of intoxicating drinks, but they seem to be less tempted to larceny. Of these Indians, those at Flandreau and Sissiton are now citizens, subject to the same laws as their white neighbors; and steps are now in progress to make citizens of the Yankton and Devil's Lake Indians.

But these eastern Sioux constitute only one-fifth of the total Sioux population. Among the other four-fifths heathenism is still dominant. At Pine Ridge Agency, out of a population of 6,000, we have only 22 communicants. The Episcopalians have more, but comparatively few. At Poplar Creek, where there is no other mission, in a population of 1,800, we have 17 communicants. So although the Lord has

done great things for the Dakota Mission whereof we are glad, there yet remains a great work to be done. For 13 years at Poplar Creek and 7 years at Pine Ridge our patient missionaries have "gone forth weeping bearing precious seed." Drops of blessing have fallen from time to time, but from year to year many plans have been frustrated and hopes of greater things have been blasted. But the past year things have looked brighter. Several have made profession of faith at both stations, and an effort has been made at each place to work through a church organization. At Poplar Creek a church of 17 members and at Pine Ridge (Wounded Knee station) a church of 15 members have been organized under direction of Presbytery. These members are yet but lambs of the flock that must oftentimes be gathered up in the arms of the shepherds, but they must be taught to walk together as a fold of Christ. The missionaries in these fields feel the need of prayer, especially at this time, that showers of blessing may fall upon these stations. And one of them remarks in his report that "it is nice to see the attendance at service increasing, but it is the change of heart for which we must pray."

In the older fields the character of the work is rapidly assuming a new form. There is no longer a citadel of heathenism to storm. Rev. John Eastman reports from Flandreau that there is not an adult Indian in that community who is not a member of some church. No other field could report the same, but in all the eastern field Christianity prevails. And now our work is to build the churches up in the most holy faith. The old communicants need Christian culture. But the work that calls for our deepest thought and greatest effort is the Christian education of the children. When the Dakota Mission was established there was not a school among the Sioux Indians, never had been, and for more than 30 years after there was not a school among them worthy of the name except the mission schools. The mission school was a place where religion was taught as well as letters. The pupils almost invariably became Christians. Afterwards many of them became native helpers and ministers. Thus education was the handmaid of Christianity, and heathenism was the enemy of both Chris-

After a time a new educational agent appears on the Dakota field. Under the lead of General Grant our Government discovers they have a duty to perform in the matter of instructing Indians. Schools begin to appear at the different Sioux agencies. They go to work as if they had come to stay. For some years there is plenty of room for both Government and mission schools. But the Government schools, and especially the Government boarding-schools, grow so fast that now there is a crowding for pupils, and the mission day-schools, being the weakest, are the first to be crowded out. The Government is the power, and the powers that be are to be respected. Agents have a pride in keeping up their schools. Rations, goods, and prizes are at their command to bring in children; and if these fail the police stand ready as a last resort. In the face of this counter movement the mis-

sion day-school goes under. Yes, we may say that among the Dakotas there is no longer any ground upon which a mission day-school

tianity and education.

can stand. This new educational agent has crowded it out. The mission boarding-school has also felt the effect of the crowding. But the boarding-school stands on a broader base. The children are collected from a wider territory, and the children being away from home, less pressure can be brought to bear on their parents. The Presbyterians of the Home Board have such a school at Good Will (Sissiton Agency) and the Congregationalists at Santee Agency, both excellent

schools of the Christian type.

Mr. Williamson, who writes this report, goes on to say: "Now we rejoice in this new interest which our Government is taking in the education of the Indians. We know our mission Boards would be glad to close their schools if the Government would do what the mission school is designed to do. I have already shown that mission schools were established to teach: first, Christianity; second, letters. Now, is the Government school reaching out to these ends? In literary and manual training the rapidity with which the Indian youth are advancing astonishes the careful observer. But now, as

missionaries, we must go on to inquire what is the

"Religious Teaching in the Government Boarding-Schools.—This is a vital question from a missionary standpoint. In the public schools among white people as they exist in our country it may be a matter of small importance whether any religious instruction is given. Indeed it may be judicious not to give any direct instruction in religious matters. The children are at home eighteen hours out of twentyfour, besides Saturdays and Sundays. There they may be gathered around the family altar. There the mother points them heavenward as she teaches them the simple evening prayer. From home they are taken to church. So whatever the lack of instruction at school, here is the opportunity to teach religion where it is best taught—at home. But under our present system of Government Boarding-Schools the case is very different. The children are taken from home at six or seven years of age. They are kept under the sole care of the school night and day ten months in the year till they are eighteen years of age. If sent away from the reservation they do not return home for from three to five years. From six to eighteen years of age is the time of life in which, as a rule, religious character is determined. We may say then that the religious character of these Indian children will be such as the Government makes it. Here is a great responsibility, and one that the Government should provide for. So let us inquire as to the means taken to secure competent religious instructors. In the examinations required of all who wish to be superintendents, teachers, and matrons in these schools, we find a number of questions designed to show whether the applicants are fitted to give manual and literary instruction, and also whether their lives will show an example of good morals. But there is not a question which would show whether the applicant is a theist, atheist, Christian, or of no faith. The instructors secured by this plan are what might be expected. I have known persons of all these classes made superintendents of boarding-schools. And as changes are frequent during the twelve years of school life, a pupil generally has the opportunity of being impressed by teachers of all these different forms of faith. A consideration of this Government system of boarding-schools must convince all thoughtful minds that as it now stands it is unfavorable to Christianity among the Indians.

"The Government Boarding-School system is of too late origin to form a sure judgment by its fruits, but it is already a matter of remark among our Christian Indians that their children from the Government schools when at home do not seem interested in religion as they expected they would be. We may expect that this will be more and more the case unless means are taken by some one to secure religious instruction in these schools. If we allow the public sentiment to be established that religion is a thing not to be taught in our Government Boarding-Schools, we may be sure it will not be taught, and sure, too, that the next generation of Indians will not be Christian. It is then the duty of the churches of our land to inquire how to secure Christian instruction in the Government Boarding-Schools.

"1st. The churches should endeavor to secure a ruling of the Indian Department that at least the superintendent of every Indian school is a professed Christian. The circumstances of the case make him a religious teacher, and a Christian nation should require that his teach-

ing was not pagan, infidel, or Mormon, but Christian.

"2d. Missionaries should use their best efforts to give religious instruction to the children in boarding-schools. I may say to the credit of the school superintendents, even those who make no claim to being religious, that they generally give missionaries all reasonable opportunity to instruct the children; and also are ready to send the children at the request of the parents to any church in the neighborhood. These opportunities should be used with discretion and made the most of for impressing religious truth, although they do not

fill the place of a Christian head of the school.

"3d. Christians with a missionary spirit, who desire the salvation of Indians, should seek positions in the Government schools. Within the past year the appointment to the positions of superintendent, teacher, and matron in Government schools has been placed under civil service rules, and is open to all. Any one who wishes to know about the examinations will receive information by addressing the United States Civil Service Commission, Washington, D. C. examination is quite rigid, but not very extended. The salaries are better than missionaries receive. Superintendents receive from \$1,200 to \$2,000. School-room teachers and matrons from \$500 to \$800. The past year there were not enough applicants passed examination to fill the vacancies. It may not be so another year, but I have no doubt Christians will stand an equal chance with others. Christians should awake and gird on the armor of preparation and be ready to occupy positions where they can so eminently serve the Master, who has commanded us to 'be wise as serpents and harmless as doves.'

"4th. Our churches must keep up the Mission Boarding-Schools till this emergency is past. These boarding-schools now bear the same relation to our mission work among the Indians that the Christian college does to the work of our churches at home, only intensified by the fact that the Indian children are taken from home at so early an

age. If we are to have trained Christian workers raised up among the Indians we cannot depend upon the Government to educate them.

"They must be educated in a Christian institution. So let the Presbyterian Church stand by the few boarding-schools she has established among the Indians and give them the support they need. Now that the General Assembly has recommended the abandonment of the present contract system let our Church step forward and furnish the few thousand dollars necessary for their independent management."

During the year Miss Dickson and Miss McCreight, after long and useful service, have retired from the mission. Mr. Johnson and Miss Stocker have begun their work energetically, however. It is with great regret that the Board of Foreign Missions will part from all these workers, when, according to the action of the Board March 20, the mission is transferred with the other missions among the Indians to the Board of Home Missions. The Dakota Mission has been one of the last under the care of the Board. No other wise course was open, however, than to transfer it in accordance with the action of the General Assembly and the natural distribution of work. The Indian work grows less and less and will soon be no longer distinguished from work for other classes of Americans.

Seneca Mission.

The report of the Seneca Mission for the past year is, on the whole, encouraging. Fortunately, one cause of disturbance which has kept the Indians in a greater or less degree of excitement for the past four or five years is removed for the present. The question of property belonging to the Indians at Salamanca has been settled by the execution of a 99-year lease to property holders. Although the income from this source is small, there are advantages in having a disturbing influence removed.

There has been a serious drawback on the Cattaraugus Reservation in the disturbances which were created by the reported scandals in the Thomas Orphan Asylum, which, though not connected with the mis-

sion, is so related that the spiritual interests of the mission at that station have been more or less embarrassed. It is especially unfortunate that in the difficulties which created animosities in some, or at least in one, of the trustees of the institution, the pupils of the Asylum were forbidden attendance at the Presbyterian Mission Church, although more than 20 of them were communicants. Notwithstanding these troubles, the congregation has otherwise increased during the year, and there is an earnest spirit manifested by at least a part of the members. This has been shown in the expressions of most earnest desire on the part of the people, that the work of the Board shall be carried forward more and more earnestly, and also by an effort on the part of the women of the church to make the place of meeting more attractive by the purchase of a good and rather expensive chandelier, wholly by their own gifts. The total membership of the church at Cattaraugus is reported at 119; pupils in Sabbath-school, 264; amount of contributions, \$225. No additions to the church during the year have been reported.

The interests of education have made a great advance through the efforts of Rev. Dr. William S. Hubbell, of Buffalo, in connection with the Honorable Thomas J. Morgan, Commissioner of Indian Affairs, in securing from the Department of the Interior admission to the Government Schools of Carlisle, Philadelphia, and Hampton of youth from the Senecas, Tonawandas, and other tribes of New York. About 60 have already been admitted. The primary school work of the Reservation is carried on under the direction of the State Superintendent

of Indian Schools, and is in a fair degree satisfactory.

The work of the Cattaraugus Reservation has been under the direction of Rev. Geo. Runciman, who has continued faithfully at his work,

though amid many difficulties.

The stations of Jameisontown, Oldtown, and Cornplanter of the Allegany Reservation, together with the station of the Tuscarora and Tonawanda Reservations, have been under the care of Rev. M. F. Trippe. Rev. William Hall, veteran missionary to the Senecas, has preached as his strength would allow to the little congregation at Jameisontown. The total number of communicants reported is 255. Eighteen have been added during the year.

The amount of contributions is \$365. Seven Indian helpers have been employed for the whole or a part of the time. Mr. Trippe has superintended or held services at 9 different points. A little church is in process of building at Onoville, carried forward by the efforts of

the Indians themselves.

Voluntary services have been given in maintaining worship among the Tuscaroras by Rev. Messrs. Sage and Marsh, of Lewiston, and the Rev. Mr. Snyder, of Youngstown. The total membership of the united mission is 374; added during the year, 18; total contributions, \$590. At the close of the fiscal year this mission was transferred to the care of the Board of Home Missions.

Mission among the Nez Perces.

The report from the Nez Perce Mission shows that progress has been made during the year. Miss Sue L. McBeth has suffered seriously from illness, but has recovered at least measurably, and has been able to resume her work. She has had seven young men under her care at Mt. Idaho preparing for the ministry and other forms of Christian work.

Miss Kate C. McBeth has carried on a similar work for women at Fort Lapwai, having seven women under her more immediate care, while other work has been done from house to house and in the Sunday-schools, as well as the local church. This mission, as well as the Dakota Mission and the mission among the New York Indians, was at the close of the fiscal year transferred to the Board of Home Missions.

The Board, in taking leave of this interesting mission among the Nez Perces, would record its high appreciation of the earnest labors, long continued, by the Misses McBeth, and of the success that has attended their work. It commends them to the Board of Home Missions with earnest prayer for their continued life and health and usefulness. The Lapwai church has been seriously distracted by dissensions and has fallen off somewhat in numbers; nevertheless, good work has been done. Of the \$112.30 contributed by the congregations, \$35 was given by the Woman's Missionary Society. Miss Kate McBeth has maintained a prayer-meeting in the Nez Perce language, and one also in the training-school in the English language. She is also co-operating with the Christian Endeavor Society and Sunday-school in Fort Lapwai Government Training-School.

Seven native ministers have maintained their relations to native churches, as follows: Revs. Robert Williams, Kamiah; Peter Lindsley, Lapwai; Moses Montieth, Spokane River; Robert Parsons, Wellpinit; William Wheeler, North Fork; J. Hays, Umatilla; E. Pond, Meadow Creek. The licentiates, Robert Parsons, Caleb McAtee, and Moses Montieth, have labored in the work during a part

or the whole of the year.

Statistics of the Nez Perce Mission.

MISSIONS IN JAPAN.

Eastern Japan Mission

YOKOHAMA: on the bay, a few miles below Tokyo; mission begun, 1859; laborers—Dr. and Mrs. James C. Hepburn and Miss Etta W. Case.

Tokyo: the capital of Japan; station occupied, 1869; laborers—Rev. Messrs. David Thompson, D.D., William Imbrie, D.D., George Wm. Knox, D.D., James M. McCauley, D.D., H. M. Landis, Theodore M. MacNair, and their wives; Dr. and Mrs. D. B. McCartee, Rev. George P. Pierson, Prof. and Mrs. J. C. Ballagh, Miss Isabella A. Leete, Miss Kate C. Youngman, Miss S. C. Smith, Miss A. K. Davis, Miss Annie R. West, Miss Annie P. Ballagh, Miss Bessie P. Milliken, Miss C. H. Rose, Miss Lily Murray, and Miss Sarah Gardner.

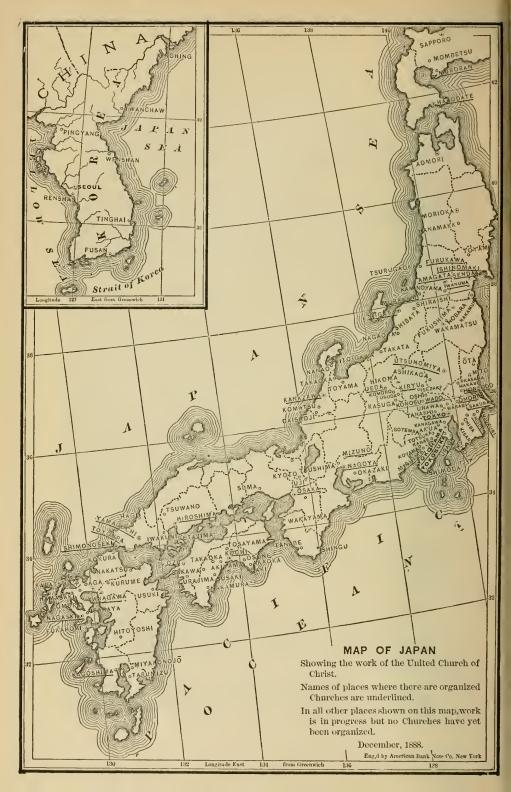

In this country: J. C. Hepburn, M.D., Rev. William Imbrie, D.D., and their wives; Miss Bessie Milliken, Miss C. H. Rose, and Miss Sarah Gardner.

The political restlessness which has characterized Japan since the establishment of the Constitutional Government still continues. struggle between the Diet and the Government is unabated, and some are apprehensive of a serious rupture sooner or later, while others hope for a gradual adjustment to new conditions. Naturally this political ferment distracts attention, and tells on mission work. The church which, some time previous to the reaction, increased in membership at the rate of thirty per cent, per annum, last year increased by but eight per cent. In the former period seed-sowing yielded a speedy and rich harvest, while now the most painstaking effort frequently produces little manifest result. The signs of promise, however, are much more encouraging than they were two years ago. Theological unrest has abated the churches are for the most part in harmony among themselves, many of the disturbing elements having withdrawn. The report, from the pen of Dr. Imbrie, gives this estimate of the situation:

Notwithstanding any and all passing or remaining causes for anxiety or discouragement, it cannot be gainsaid that Christ has laid the foundations of His Church in the land. There are many—very many—who have surely been called from darkness into light. There are men and women of good social position, and also others from among the poorest of the poor, to whom all things have become new.

More than usual changes in the missionary force have taken place. Dr. and Mrs. Hepburn, after a service of thirty-three years in Japan, were constrained to ask for leave of absence, because of increasing infirmities, which, in their judgment, meant a final withdrawal from their beloved work. In granting the request the Board passed the following minute:

In giving its official sanction to the withdrawal of these beloved missionaries from Japan, the Board records with devout gratitude to God its high appreciation of the honor done them, and through them the Board and the

Presbyterian Church, in that they were chosen to be the first heralds of the Gospel to Japan, and that they have been permitted to witness, and to have an important part in the marvellous upbuilding of Christ's kingdom in that Empire. In addition to his labors as a medical missionary, and a faithful expounder of the Word of God, Dr. Hepburn has rendered conspicuous service to Japanese literature. His Japanese-English Dictionary, his Bible Dictionary in Japanese, just completed, and the Japanese Bible, to which as one of the translators he devoted much of his best thought and energy, constitute an enduring monument not only of his scholarship and industry, but also of his deep affection for the Japanese. The Board expresses the hope that their return to the home-land may greatly benefit the health of Dr. and Mrs. Hepburn, and that, through the Divine blessing, they may yet accomplish much for their beloved Japan by stirring up the Church in this country to a deeper sense of her responsibility and privilege with reference to that Empire.

Much to the regret of the Board, Mrs. True, Miss Hays, and Miss Gardner have severed their connection with the mission; the first, after a long and valuable service, feeling constrained to undertake another form of Christian work in Japan; the second, because of ill-health; and the third, because of family exigencies. Miss Milliken and Miss Rose have returned to the United States on furlough, while Miss West, after a period of rest, has resumed her work in Tokyo. Miss Bigelow, who has been laboring for several years within the bounds of the West Japan Mission, has been transferred to that mission.

Evangelistic.-Much of this work has been carried on as heretofore through the Board of Home Missions, under the direction of the Synod of the Church of Christ. This Board is composed of foreign missionaries and Japanese Christians in equal numbers, and derives its funds from the Japanese churches, and the co-operating missions, the latter providing \$3.00 for every \$1.00 contributed by the churches. Several of our missionaries have devoted much time to direct evangelistic work in addition to their other duties. Dr. Thompson superintended the work within the bounds of the Second Presbytery of Tokyo, preaching in several churches and stations, both in the city and country. He reports the workers without exception as hopeful, and notes with gratitude that the anti-foreign reaction "gives some signs of dying out in many quarters." He records with devout thanks a striking objectlesson in Yochigi, north of Tokyo, where the character of an aged Christian woman, and the devotion of the Japanese Christians to her in her deep poverty until her death, so impressed their heathen neighbors that they insisted on bearing the funeral expenses, and in furnishing a burial plot free, at the same time extending an invitation to the Japanese preachers to proclaim the Gospel within their district. Mr. Pierson did a good deal of evangelistic work in Chiba, but spent the greater part of the year in Morioka, during the furlough of Rev. and Mrs. E. Rothsay Miller in this country. Mr. MacNair, in addition to his work in the Meiji Gakuin, and Bible Institute, accompanied by Mrs. MacNair, made several preaching tours in the provinces of Shinshiu, Echigo, and Shimosa, where they met with a cordial welcome.

Concerning work in the Province of Tosa, Dr. Imbrie writes:

It is not too much to say that the most remarkable single piece of evangelistic work done in all Japan was that accomplished in Tosa some eight or nine

years ago. And in no place has the work been more lasting. Nowhere else has so large a proportion of men of position and influence entered the church; and no other church in recent years has sent so many young men into the ministry. Both those on the ground and those who have visited the Province have been so much impressed with the present condition of affairs that the aid of Synod and of the Council of Missions has been sought to carry on special work there during the coming year. This has been gladly agreed to; and the hope and prayer is that the new labor now to be put forth may receive a new blessing from God.

Miss Youngman reports the work of what is known as the Uyeno Mission, near Uyeno Park, which was first opened for three months during the fair, but has been continued without interruption, as increasing in usefulness. The Scriptures distributed during the fair are frequently heard from, many persons applying for admission to the churches, having attributed their conversion to the Word thus received. Prayer-meetings, Sabbath-school, a daily reading-room and open-air preaching in the Park, are among the appliances used for the dissemination of the truth. Miss Youngman devoted much time to the relief of the sufferers from the earthquake in Gifu. Through her exertions much was done to minister to the physical wants of the victims of that calamity, while the openings for Christian work were effectively used.

Educational.—Meiji Gakuin.—The number of students enrolled during the year was ninety-seven, of whom forty-one were boarders. Of the entire number, forty-one were Christians. The report says:

The attendance, spirit, and diligence of the students, have all been praise-worthy. The graduates at commencement numbered 17. On four days in the school week instruction in the Scriptures has been given to the different classes by the several professors, each one of them, both foreign and Japanese, taking part in the work. On the fifth day of the week instruction has been given by Mr. Ibuka to the students, meeting as a body. During the year Mr. Ibuka has in this way gone through the Sermon on the Mount and the Epistle to the Galatians. Of the entire number of the graduates of this institution, fourteen per cent. entered the theological department; seventeen per cent. have gone to other schools in Japan; seven per cent. have entered theological schools in America, and the same percentage, American colleges; twenty-four per cent. are engaged in educational work; fifteen per cent. are in business; seven per cent. are doing evangelistic work without having entered the theological department; seven per cent. have died, and two per cent. are unemployed.

The *Theological Seminary* had an attendance of 43 students, of whom 4 were graduated. This institution, under the presidency of Mr. Ibuka, has enjoyed a year of prosperity, notwithstanding the reaction against foreign educational institutions. The curriculum has been modified so as to put greater emphasis on instruction "in those parts of theology more directly connected with the study of the Scriptures." A monthly conference of the professors and students has also been introduced, and, in addition to their duties in the seminary, most of the students have engaged in Christian work in and around the city.

At Azabu, where one of the students lives and conducts a Sunday-school, and where Mr. Ibuka holds a service on Sunday afternoons, a number of inquirers are reported, several of whom, it is expected,

will soon be baptized.

Joshi Gakuin.—This is the Girls' School formed by the union of Bancho and Graham Seminary. In reporting for the year Miss Leete writes:

We are happy to state at this time of depleted schools that there has been no falling off in numbers. We closed in July with 92, and opened in September with 96 in the school proper, and 34 in the primary and kindergarten. The teachers, and a number of the pupils in this school, are engaged in Sunday-school work in several of the churches in the city, while the three Biblewomen have rendered excellent service in Sunday-school, dispensary and Charity Hospital, also in house-to-house visitation.

The faculty includes four Japanese Christian teachers, but the management of the institution remains in the hands of the foreign missionaries.

Concerning Takata school, which has been supervised by Miss Milliken and Miss Davis in turn, the latter writes:

The school has continued through the year with the same number of pupils, 30. One of our graduates who left a home of wealth and case to go with Miss Milliken last year to this truly needy place, returned this year alone, or rather with one of our undergraduates as her only helper. The same faithful elder is in charge of the Japanese department. Two flourishing schools are kept up by teachers and older pupils.

Mrs. MacNair reports for the *Bible Institute* that 27 were in attendance, 3 of whom were graduated. The demand for the services of these trained women increases steadily. During the spring and summer vacations the members of the advanced classes were sent, in response to invitations, to ten different places, some of them quite distant from Tokyo. During the year weekly and semi-weekly meetings were also held in villages near the city. Mrs. MacNair has continued to give some instruction in Mr. Okami's school, and has superintended the Shinagawa School and the Yei Gakko, which reported respectively 28 and 22 pupils.

Mrs. MacCauley reports the attendance at the Shiba Kemo No. 2. or common school, to have been 200, with an average of 155. This shows a falling off and is due largely to the destructive fire which swept over that part of the city where the school is located, compelling a number of families to move elsewhere. Two of the mothers of the children have signified their desire to be baptized. The large Sunday-school, which is held in the same building, has been maintained with interest. A weekly prayer-meeting was conducted by Mrs. MacCauley in another part of the city during the year.

Miss Ballagh continued to divide her time between the Meiji Gakuin and the Industrial School for girls. The latter is an institution under the direction of Japanese ladies. There were 26 boarders and 10 day pupils. Ten of the girls were engaged in Sunday-school work in different places.

The Sumiyoshicho Gakko in Yokohama, under the superintendence of Miss Case, reports a prosperous year. The examinations were attended by a number of influential persons, who expressed their gratification with the result. Two of the native teachers made a public profession of faith during the year. This school is still in need of better accommodation.

The Shiloh Sabbath-school moved during the year into the new church, the gift of Dr. and Mrs. Hepburn and friends in America, much to the delight and comfort of all concerned. The Sabbath-school held in the village of Homuko, composed mainly of the children of fishermen, was continued.

Miss Case and Miss Bigelow, accompanied by two Bible-women, visited the Island of Sado, some thirty-four miles from the mainland, containing a population of 111,000, where they spent some time in

evangelistic work.

Miss Smith reports the work at Sapporo as somewhat discouraging, the anti-foreign feeling having reached that city of the Hokkaido. Petty attacks had been made on a native minister, and the house of a prominent Christian was mobbed on account of some reform he was trying to introduce. The Agricultural College, located at Sapporo, has been suspected of being a Christian college supported by the Government, and its revenue has been cut down 10,000 yen by the authorities. Mr. Oshoma, one of the Sapporo pastors, and head of the preparatory department of the college, has received threatening letters. Miss Smith laments the grave falling off in the number of pupils attending the school. The element of hopefulness is not wanting, however. She writes:

The Christians seem more zealous, and the communion Sabbath never passes without from one to five persons receiving baptism. All the older girls in the school have become earnest workers in our school, in Bible-classes and in the Sunday-schools.

Miss Smith greatly needs the fellowship and support of another

missionary lady.

Literary.—Dr. Imbrie has published a commentary on one of Paul's Epistles, and has almost ready for the press a commentary on another. He has also in press a work on Church Government, being a commentary on the Constitution of the Church of Christ in Japan. Mr. MacNair and Mr. Landis have been translating Gore's "Incarnation of the Son of God," which will soon be ready for publication. Dr. McCartee has continued his work of tract writing and translation, and has also been engaged in compiling and translating into Japanese a more extensive work designed for Sunday-schools, Bible-readers and catechists, and to assist those who labor in connection with these classes of assistants. The book is to contain a number of full-page illustrations.

This report may appropriately close with the remarks of one of the

Japanese pastors at a recent communion service:

Much has been done in which we rejoice. We have an organization stretching from one end of the empire to the other. But let us remember that all this is only a means to an end. The church exists for the sake of the kingdom. Let us see to it that its services and sacraments are made channels of grace to our souls. But let us also look without; let us carry the Gospel to those who know it not. And in all, and above all, let us remember, as our Lord has Himself taught us, that the kingdom and the glory belong to our Father and our God forever and forever.

West Japan Mission.

Kanazawa; on the west coast of the main island, about 180 miles northwest of Tokyo; station occupied, 1879; Rev. Messrs. Thomas C. Winn, A. G. Taylor, and their wives; Miss Mary K. Hesser, Miss F. E. Porter, Mrs. L. M. Naylor, Miss Kate Shaw; 3 outstations; 2 ordained natives; 2 native licentiates; 5 helpers and teachers.

OSAKA: a seaport on the main island, about twenty miles from Hiogo; station occupied, 1881; Rev. Messrs. Thomas T. Alexander, George E. Woodhull, and their wives; Miss Ann Eliza Garvin, Miss Alice R. Haworth, Miss M. F. McGuire, Miss Mary M. Palmer; 5 outstations; 2 ordained native preachers; 6 native licentiates; 3 Biblewomen; 20 teachers and helpers.

HIROSHIMA: on the Inland Sea; station occupied, 1887; Rev. and Mrs. Arthur V. Bryan, and Rev. and Mrs. S. F. Curtis; 3 outstations; 1 ordained native preacher; 2 native licentiates; 2 Bible-women; 6 native teachers and helpers.

Kyoto; station occupied, 1890; Rev. and Mrs. J. B. Porter; τ outstation; τ ordained native preacher; τ native licentiates; τ Bible-women; τ native teachers and helpers.

Yamaguchi; station occupied, 1891; Rev. and Mrs. J. B. Ayres, Rev. and Mrs. J. W. Doughty, Miss Gertrude L. Bigelow, and Miss Bessie Brown; 13 outstations; 3 ordained native preachers; 5 native licentiates; 4 native teachers and helpers.

Fukui : station occupied, 1891 ; Rev. and Mrs. G. W. Fulton ; 1 outstation ; 2 native licentiate preachers ; 1 Bible-woman.

Toyama: station occupied, 1891; missionary laborers, Rev. and Mrs. J. M. Leonard; 1 ordained native; 1 native licentiate; 2 Bible-women.

In this country: Rev. and Mrs. A. G. Taylor, and Rev. and Mrs. J. M. Leonard.

The gain during the past year in this mission has been mainly in the direction of spiritual growth. There has been also a gain in membership, though some of the churches have so revised their rolls that the reports do not show any increase over last year, while, in fact, there has been a decided gain in nearly all the churches. One of the most hopeful signs is in the fact that many who have been Christians for years show evident marks of growth in spiritual life. A decided preference is manifested in many of the churches for the preachers who faithfully and earnestly preach the Word of God, rather than for the men who preach merely intellectual sermons. The evangelists are laying more stress on the simple Gospel; and the Week of Prayer seems to have been unusually well observed in all the churches. Perhaps this growth in spirituality may account for the increasing conviction, constantly expressed by the non-

Christian public, that the country must look to Christianity for its moral reformation.

There has also been a step forward in the recognition of woman's work in the Gospel, and of the importance of giving more emphasis to special work for women. Miss Garvin writes: "In regard to woman's work in general, there is no doubt that it is recognized more than ever before as an important part of church work. That the Christian women themselves are becoming more active is due partly to this fact and partly to the Christian schools, which are annually graduating educated and capable young women to take their places as active members of the church."

The Presbyterian Church in Japan is already a strong and wellorganized body, but there is still an open and inviting field for the evangelistic missionary. Even where the churches have pastors, he is often asked to preach both to believers and unbelievers. His visits to pastorless churches and isolated companies of believers are

generally blessed with rich results.

Kanazawa.

Evangelistic work in the Kanazawa and west coast region has experienced more difficulties during the past year than any other part of our mission. Buddhist persecution and opposition have been very determined; the number of native workers, all too few at best, has steadily diminished, by the brethren being drawn away to other fields; and the reactionary wave, which seems to have spent its force for the most part in other places, has come later to that section. Still, the work is going on, and more and more dependence is placed upon private and individual work. Though not in good health, the senior missionary, Mr. Winn, has kept up his work of preaching and teaching without interruption, except during two months in the summer. Pastor Bamo and the students have maintained services in two churches and seven Sunday-schools, besides conducting a number of weekly Bible-classes and women's meetings. In the latter, says Mrs. Winn, are a number of ladies from the official class.

The Boys' School in Kanazawa had about 30 in attendance. Though not large as to numbers, the school shows a good record. Mr. Harkness writes: "Of the sixteen graduates, thirteen are professed Christians, and all are more or less engaged in Christian work of some form. Six of these are entering the work of the ministry. For the Sunday-schools of the city the school provides from five to ten teachers, some of whom occasionally conduct meetings in the preaching stations, as well as take part in other departments of the work of the church. The three who have left us not professing Christianity are, I am sure, persuaded of the truth of the Gospel, and are our friends. We are planning to put the school more in line with Government schools in its curriculum, so that our students will not find themselves so different from other students in that

respect."
The Kanazawa School for Girls shows the smallest number of

students it has had for seven years, the number enrolled being thirty-two. Among the reasons assigned for this are "decreasing interest in the study of English, and growing unpopularity of Christianity." "Yet," says Mrs. Naylor, "we have much cause for encouragement. The Bible Training Class has nine members this year, a part of whom graduate in February, and will be ready to go out as Bible-women to neighboring cities." A charity school has been opened in the city, of which members of this training class are the teachers. Besides this, these students teach in seven different Sunday-schools. Miss Hesser's absence has been keenly felt, but with the assistance of Misses Porter and Lafferty, of the

Children's School, has been kept up to the mark.

The past has been the most encouraging year in the history of the Kanazawa Christian School for Children. It reports 65 regular attendants, of whom 47 belong to the graded school under Miss Porter's direction, and 18 to the kindergarten under the supervision of Miss Lafferty. Of the kindergarten Miss Lafferty writes: "We have given the children daily lessons in the Life of Christ, and it is wonderful to see how well their little minds grasp the Bible truths." Parents of some of these little ones are being brought, through them, into the church. The department for larger children has an eight years' graded course, following the grades and regulations of Government schools, to which is added daily instruction in English and the Bible. Mr. Atozi, the Japanese principal, is a very earnest Christian, and an efficient instructor and manager. There is a flourishing Sunday-school in connection with this school, and altogether the outlook is most encouraging.

Fukui.

Fukui is another of the string of cities along the national highway, running north from Tsurnga. Mr. Fulton writes that he is surrounded by large towns and many villages which furnish a rich soil for a strong force of native evangelists. The work at Fukui has been slow and often discouraging. The revival of the silk industry has greatly absorbed the minds of the people; only five persons having come forward for baptism this year. The preaching tours made among the adjacent towns and villages have resulted in many hopeful gatherings and considerable diffusion of a knowledge of the Christian religion. He says the evangelistic work presents a brighter outlook than for several years past, and that the people are coming back to a more reasonable attitude toward Christianity than at any time since the reaction against foreigners and the foreign religion which has operated both against the external growth of the Church and very much interfered with its power.

Toyama.

Mr. Leonard and his wife have been living in this place, which is one of the strongholds of Buddhism, and have held together the little band of Christians there, besides conducting evangelistic work in the district. They have been much hampered by the withdrawal to other points of some of their most reliable native co-workers. Mr. Leonard reports that two Bible-women who were trained in the Kanazawa school have lately been added to their force, and are earnest in their endeavors to reach the people and gather the children into the Sabbath-school. Much personal work has been done and their close contact with the people by living in a native house has aided them in establishing an acquaintance and bond of sympathy which has very much increased their influence. A number of individuals are interested in Christianity, and come to their house for instruction. One lame man hobbles seven miles to the Sunday services.

Osaka.

In all the churches of the Osaka region under the care of Messrs. Alexander and Woodhull there has been a gain in membership, except in that at Yanagawa. This church has passed through peculiarly severe trials involving the expulsion of some members, but comes out of the fire with "more than fifty who are faithful, and who will be its hope and stay for the future." There has been a decided gain among all these churches in spiritual growth; and also in organized effort to extend the knowledge of the truth, as is evidenced in their systematic giving, and the means adopted for

reaching unbelievers.

The Osaka Girls' School: Miss McGuire has happily been reinforced by the arrival of Miss Palmer. For several years this school has been subjected to peculiar trials, but is now running more smoothly. The number of pupils is twenty-five. The course of study and the character of instruction are such that the school has an excellent reputation. Bible classes, including all the pupils of the school, are taught daily. The school does valuable mission work. The teachers and pupils carry on a very prosperous Sunday-school for the street children in a neighboring part of the city, averaging an attendance of more than one hundred. To each of the mothers of the children who attended the Sunday-school Christmas Entertainment was given one of the Gospels printed in the vernacular.

The Osaka Training School for Children, under Miss Haworth's supervision, is divided into three classes, each class being taught in a different part of the city. These classes have an enrollment of 70, with an average attendance of 60. This work is carried on in Japanese homes, as near churches or preaching places as possible. The object is to give training in the kindergarten and primary Japanese studies, but especially to create and develop Christian character. The means for the accomplishment of this object are, teaching sacred songs and stories, easy texts, instruction in simple Bible truths, daily devotions, and the example of Christian teachers. Five Japanese teachers assist in the work; two of whom are graduates of the Osaka Girls' School, and two of the Kanazawa School.

Yamaguchi Station.

The work of preaching the Gospel has perhaps had fewer hindrances in and about Yamaguchi than in any other part of our mission. Messrs. Ayres and Doughty have a co-laborer in pastor Hattori, who is both able and wise, and is also ready to second the missionaries in every aggressive movement. The two families at this station will soon be well housed, and are rejoicing in the recent arrival of Miss Brown.

The Girls' School is under the management of Miss Bigelow and Miss Brown. The present number of pupils is twenty-three. A rented Japanese house is used for school purposes. Pastor Hattori makes a good principal. The present outlook of the school is

thought to be encouraging.

Hiroshima.—In the region of Hiroshima also the work has suffered some from persecution and priestly intrigue. But Rev. Messrs. Bryan and Curtis find the field in which they live more and more interesting, and the new Presbytery of Sanyo unites with them cordially in organized effort for aggressive work. In the city of Hiroshima there has not been a large increase in membership, but under the able preaching of Pastor Tomigawa there has been growth

in church life and unity.

Kyoto.—Rev. J. B. Porter and family returned to Kyoto from a year's vacation in America about the first of July, and Rev. J. P. Hearst and family left the same month, returning to America on account of ill-health. The work in this station is now nearly three years old. From the beginning it has been of slow but steady growth. The frequent change of evangelists has somewhat affected the progress; but the present pastor, Mr. Yoshioka, is a man of mature years and experience, deeply spiritual, and has the love of his people. The number of believers is 80, with 100 children in the Sunday-schools. In the northwest part of the city is a preaching place with the special object of reaching the working people engaged in silk weaving. The meetings here are well attended, the evangelist, a graduate of the Tokyo Seminary, being an acceptable preacher. Meetings for women are held every week. One meeting is a prayer-meeting; another a working society, with the idea of raising funds for a new church building, the present rented house being quite inadequate. A Bible-woman makes her daily rounds among the Christians and such unbelievers as are interested in the truth, reading the Bible, distributing tracts, etc. Near the preaching place is the new dispensary. It was opened October 20th, and has been in operation three months. Its success has been beyond the best expectations. Dr. Hishikawa and Mrs. Porter already find themselves established in a work which keeps them busy, and opens access for the truth to many homes that could not otherwise be reached, besides giving relief to suffering humanity.

Tsuruga, the outstation of Kyoto, has had a checkered and trying year. Persecution of the bitterest kind, short of destruction of life, has driven most of the believers away and made it very hard for

those who remain. The Christians were tried in every way. The right of burial was refused for a while, and the body of a child was kept a month before it could be interred. We are happy to report that this state of things seems to have passed away, and the Rev. R. Nakajima and wife, with much consecration and zeal, are doing a good work. The missionary, who visits the place monthly, is encouraged to hope that this may yet be one of our interesting fields. Work among the Women.—Miss Garvin's "Normal Training-class"

for Bible-women" spent the first four months of the past year in study at Hiroshima. Early in the spring the study term closed, and the students were sent out two by two to the smaller outstations, where they did good work. Two other terms of study were held at Yanagawa and Usuki. The meeting at different places was for the purpose of giving to the students both experience and instruction at the same time. In accordance with the original plan, only eight women have been admitted to this normal class, though there have been forty applicants. These students will complete their studies and be ready for work next March. The class was formed with a special view to supplying Bible-women to the weaker country churches and preaching stations, where the need for woman's work has long been felt. The calls for Bible-women now exceed the number that will be ready to go. The direct mission work done in connection with the normal class may be summed up as follows: Four Sunday-schools started and left in the hands of resident Christians, three of which are still in operation, with increasing attendance and interest; regular women's meetings, held weekly and semiweekly throughout the year; considerable visiting done, with apparently good results, as seven conversions are said to be the result of the students' work during last winter and spring.

Of the above summary about one-half may be fairly credited to the Presbyterian Church (North), as it furnishes about half the missionaries and half the funds provided by the foreign missionary societies co-operating with the United Church.

MISSION IN KOREA.

SEOUL: the capital, near the western coast, on the Han River, and twenty-five miles overland from the commercial port, Chemulpo; mission begun in 1884; laborers—Rev. Messrs. H. G. Underwood, D.D., D. L. Gifford, S. F. Moore, W. L. Swallen, F. S. Miller, and their wives; Revs. S. A. Moffett and Graham Lee; C. C. Vinton, M.D., and his wife; Misses S. A. Doty, V. C. Arbuckle, and Ellen Strong. Evangelists, 4; helpers, 3; teachers, 3; Bible-woman, 1.

FUSAN: on the southeast coast; occupied as a mission station, 1891; laborers—Rev.

W. M. Baird and H. M. Brown, M.D., and their wives.

Gensan; on the northwestern coast; occupied as a mission station, 1892; laborers—Mr. J. S. Gale and wife.

The Korea Mission has been reinforced during the year by the appointment of Revs. S. F. Moore, F. S. Miller, W. L. Swallen and their wives, Rev. Graham Lee, and Misses V. C. Arbuckle and Ellen Strong. In February Rev. H. G. Underwood, D.D., and wife returned after a leave of absence, and just at the close of the year O. R. Avison, M.D., and his wife were appointed and are on their way to the field. The new station of Gensan was opened early in the year and was occupied by Mr. and Mrs. J. S. Gale. It is a seaport, and is under treaty concessions as a place of residence for foreigners. It is not important as to the extent or degree of its commerce, but it is favored with a line of steamers running from Nagasaki, and bids fair to become a place of importance as a gateway to the interior. Only four available points offer themselves as yet for missionary operations-Seoul, Fusan, Gensan, and a place on the northwest coast known as Pyeng Yang. The last is not yet fully open to foreigners as a place of permanent settlement. From these it is likely that missionary operations, for the next few years at least, must be carried on. Several other Protestant missionaries have established themselves in Korea, and, although the statistics of success are as yet small, it is believed that as a result of the foundations of work which are being laid, there will be within a few years a plentiful harvest.

During the year the Presbyterian Church South has established a mission in Korea, and already arrangements have been made between its Executive Committee on Foreign Missions and the Presbyterian Board U. S. A., with the authorization of the two General Assemblies, for thorough co-operation along missionary lines, all looking toward the establishment of one Presbyterian church in Korea. It is understood in a general way that the mission of the Australian Presbyterian Church will also come into this arrangement. Much outstation work has been done in the northwest part of the country, and the mission strongly recommend that the Board authorize the opening of a station at Pyeng Yang, to be occupied by Messrs. Moffett, Swallen, and Lee, at an early day. At the 6 outstations which are named as connected with the principal station 4 evangelists, 3 helpers, 3 teachers, and one Bible-woman are named as constituting the native force. One hundred and twenty-seven communicants are reported, 17 of whom were added during the year. Fifty-two pupils are in the schools. The amount of

.KOREA.

Christian work to be done has not been commensurate with the numbers of the missionary force, since all but two or three are yet so young in the work that a large portion of their time is occupied with the study of the language. Dr. and Mrs. Underwood, as above stated,

have been absent during the entire year.

144

The educational report of the mission is full of encouragement, though it is yet in Korea "the day of small things." The average ability of the Korean youth seems high for a race that has so long suffered so many depressing, if not demoralizing, influences. Of the boys' school the report speaks as follows: "In the boys' school lives a select band of the boys of the lower class in Korea, just advancing into youth and early manhood. They are intelligent, respectful, cleanly, truthful, and free from the vices and tendencies into which most Korean boys degenerate. In fact, everything about them, in contrast with others of their age and station, indicates the ameliorating influence of that Gospel which some of them profess and which all of them have an enlightened acquaintance with. From the examinations we have attended, we judge that all who have spent a considerable part of the year in the school have made fair progress in their studies. We especially note their proficiency in Biblical instruction, and in those branches of practical knowledge to which they have given attention, viz., geography and arithmetic.

"The superintendence of this school and the task of teaching the more liberal branches have been most self-sacrificingly performed by one of the busiest of our number. And yet the work demands not a part, but the whole of the time of a missionary, whose intensest interest shall centre about his opportunities of moulding these young lives, and whose wife shall rejoice to care for some of the temporal necessities of his charge. We therefore rejoice that the accessions received by our mission during the year, with the distinct expectation on the part of the Board that one of the gentlemen would devote him-

self to this work, enables such an appointment to be made."

In Mr. Moffett's work the importance of industrial instruction to the youth taught in this school is dwelt upon at some length, in order that those who go forth may possess the means of acquiring a suitable livelihood and of gaining that influence which will enable them to utilize their educational advantages. The report on the girls' school runs as follows: "The girls' school is a charming little community of the future wives of these young men. It includes some very sweet little Korean maidens, and some very bright ones too, and very highly educated as Korean standards go. Plainly its influence upon the lives of its inmates is potent for their good and that of those they shall hereafter influence. The work being done here is truly praiseworthy in its results. We have but one regret, namely, that the number of beneficiaries should be so small. There are but 9 scholars at present in the school, a number far too small to warrant the continuance of such an expense by our Board, unless with the expectation of immediate enlargement. Indeed, we strongly advise that steps be soon taken toward doubling, if not still further increasing, the number of these little girls. This is called for by the recent increase in instruction, and by the plans for a hoped-for new and improved school building,"

KOREA. 145

Mrs. Gifford has made a good beginning in work for women. As elsewhere in the East, the privations and sufferings of the female sex

appeal loudly for sympathy and help.

A theological school has been maintained at Seoul which, though small, promises good results, and the opinion has been reached by the mission that theological classes, so located as to accommodate the native helpers in all the different districts, will be one of the most hopeful means of securing an efficient native ministry. This method combines instruction with practical training.

The methods of evangelistic work in the city of Seoul differ somewhat from the plan of chapel preaching generally adopted in China. A room is attached to each mission station, one or more, where visitors are received and Christian conversation is had. The attendance may consist of one or a score, but the whole staple of conversation relates to the Gospel. The quiet of the place and the warmer contact socially may be supposed to be advantageous as compared with

preaching in a chapel.

The hospital report given by Dr. Vinton, medical missionary at Seoul, reports days of actual attendance at hospital, 191; at dispensary, 231; patients treated at hospital, 2,573; at dispensary, 486; number returning a second time to hospital, 1,241; number of minor operations, 171. The work was much crippled during the latter part of the year by the failure on the part of the Government to supply necessary drugs. In January the new dispensary building, formerly devoted to woman's work, surrounded by brick walls and now having glass windows and swinging doors, was opened for the treatment of patients. The President of the Foreign Office, the American Consul-General in Korea, and many of the foreign community were present; all seemed pleased with what they saw. The building though small is commodious and suited to the requirements.

Mr. Moffett, in addition to the charge he has had of the boys' school, has done considerable touring in the country during the year, especially in the north. Mr. Moore accompanied him on one of these tours, but was taken severely ill after a week's labor, and was, with difficulty, taken back without fatal results to his home at the capital. Dr. Vinton also accompanied Mr. Moffett for a short time in July in visiting the northern district, where there seems to be much inquiry and an encouraging degree of responsiveness to the labors of the missionaries. Already the Board has appointed a second medical missionary for Seoul, as the care of the hospital interferes seriously with dispensary work in the community at large and with the all-important work of visiting the country towns where the people are most responsive, and where the greatest good seems likely to be accomplished. During the year a dispensary work among women and children on a small scale was undertaken by Mrs. Gifford, in addition to other lines of work which she had undertaken. Mr. Gifford made an important and highly successful tour to the southward of Seoul, where he became much impressed with the importance and great promise of the field.

Dr. Brown gives an interesting report, though brief, of his medical

work at Fusan, the newly occupied station, at which he has been present for a very short time. Comparatively few cases of disease have been treated, yet a good beginning has been made. A serious obstacle lies in his way in the lack of proper quarters for patients requiring continuous treatment. The expectation of the poor sufferers is that the foreign physician can cure every disease, and yet, to do anything even approximating to the fulfillment of such an expectation is impossible when the physician cannot control the place of lodging, the care, the diet, the exposure, and the faithful use of medicine. A hospital in all serious cases is indispensable in a community where so much is expected, and where at the same time failure may lead to the most serious evils in its general influence upon the people.

Rev. Mr. Baird, though occupied for a part of the year in the erection of a house at Fusan and in the study of the language, has made a

good beginning in evangelistic work.

The report of Mr. Gale at Gensan exhibits a high degree of enthusiasm concerning the new field. Mr. Gale has been laborious in his study of the language and eminently successful, and as opportunity offers in touring also. He has high expectations of the field which he has chosen as offering abundant opportunity for evangelistic work. Mrs. Gale has done more or less as opportunity offered among the women while yet remaining in Seoul, and also in the new field chosen. This place is favorable for missionary work at any season of the year, as the mission premises are on elevated ground and free from the extreme heat and the malarious surroundings which are inevitable in the large capital city. Mr. Gale has been busy a part of the time upon the translations of the Epistles to the Galatians and the Ephesians. which are now completed. He has also revised a translation of Genesis and the Gospel of John. His report says that the evangelistic work at Gensan has been most encouraging. The people appeared truer, simpler, and more satisfactory to work upon than the average native of the capital. Farmers from the country occasionally call at the missionary quarters and learn something of the truth of the Gospel, and some of these have shown great earnestness, giving up their "devil" worship and ancestral worship, even though these customs are all-controlling in their native villages. Altogether a good beginning has been made in getting hold of the hearts of the people on the northwestern coast,

THE MEXICO MISSION.

Southern Mexico.

Begun in 1872 in the City of Mexico; missionaries—Rev. Messrs. Hubert W. Brown and J. G. Woods, and their wives; Miss A. M. Bartlett and Miss Ella De Bann, in Mexico City. Native ministers: Mexico City, Rev. Arcadio Morales, Rev. Abraham Franco; Toluca, Rev. Luis G. Arias; Jalapa (Tabasco), Rev. Evaristo Hurtado; Ozumba, Rev. Jose P. Nevarez; Zimapan, Rev. Felipe Pastrana; Jacala, Rev. Vicente Gomez; Zitacuaro, Revs. Daniel Rodriquez and Pedro Ballastra; Tuxpan (Mich.), Revs. Maximiano Falomino and Enrique Bianchi; Vera Cruz, Rev. Plutarco Arellano; Galera de Coapilla, Rev. Hippilto Quesada; Paraiso, Rev. Miguel Arias; San Juan Bautista, Rev. Leopoldo Diaz; Comalcalco, Rev. Eligio N. Granados; Cardenas, Rev. Procopio C. Diaz; Tixtla, Rev. Prisciliano Zavaleta; Frontera, Rev. Salmon R. Diaz; Reforma, Rev. Severiano Gallegos; licentiates, 6; helpers and teachers who are preachers, 14; teachers, 17; Bible-women, 2.

Northern Mexico.

Zacatecas: occupied 1873; laborers—Rev. Messrs. Thomas F. Wallace and William Wallace; Rev. Jesus Martinez, Rev. Brigidio Sepulveda, and Rev. Luis Amayo; licentiates, to; native helpers, 6.

SAN LUIS POTOSI: occupied 1873; Rev. C. S. Williams; licentiates, 2.

Saltillo: occupied 1884; Rev. Isaac Boyce and wife; Miss Jennie Wheeler and Miss Edna Johnson for a part of the year; licentiates, 7; teachers, 7.

SAN MIGUEL DEL MEZQUITAL: occupied 1876; laborers—Rev. David J. Stewart and wife; 1 teacher.

In this country: Mrs. T. F. Wallace.

The mission work in the Southern department of Mexico Mission has undergone some important changes during the year. Almost at the beginning of the year, Rev. Dr. Greene was obliged to obtain leave of absence on account of serious ill-health, and finally toward the close of the year he felt constrained to offer his resignation in view of the requirements and condition of his family. On this ground, as well as on the uncertain condition of his own health, his resignation was accepted. For ten years Dr. Greene has performed eminent service in the Mexico Mission, accomplishing more and severer labor than his health could safely permit. His influence over the Mexican ministry has been most salutary.

Rev. Hubert W. Brown, speaking for himself and the mission concerning Dr. Greene's resignation, says: "I cannot help dwelling first of all upon the loss the mission has suffered during the year in the absence of Dr. Greene on account of ill-health, especially as we have just received the news of his resignation and permanent separation from the work. Whenever I think of the press and its most admirable outfit, and of our widely extended work, especially in Guerrero, Tabasco, and Yucatan, and when I remember how warm a place he holds in the hearts of our native ministers and converts, I recognize the grand work he did for the Master during the ten years of his active

work in Mexico, and gladly pay him this tribute of grateful recognition, while I pray the Lord to still guide and prosper his work in the new

hands into which it shall fall during the coming years."

In the month of November, Rev. H. C. Thomson, D.D., was compelled to retire to the United States on account of the sudden and severe illness of his wife. This necessity was a matter of great regret, as a month remained before the closing of the Seminary of which he was the principal. Important accessions, however, have been made during the year to the missionary force, viz.: Rev. C. S. Williams, who has been stationed at San Luis Potosi, and Rev. James Woods and wife, who are assisting Rev. Mr. Brown in Mexico City in the manifold work which for some months had rested wholly upon his hands.

Sorrow has visited the mission in the death of a second child of Mr. and Mrs. Brown. Mrs. Brown, on account of the death of her two children and her own broken health, was obliged to return to her home in Chicago for four months. The bereft father, remaining at his post, wrote: "I need not tell you how much harder these trials made the work. But God has given me the needed strength, and to-day, while tired from the continuous strain and responsibility, I have fairly good health and hope to be able to go forward during the coming year."

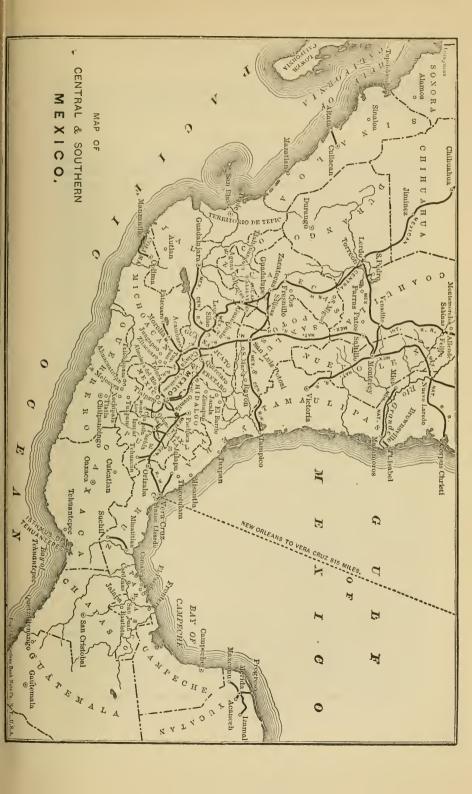

Just at the close of the fiscal year letters received from Rev. Dr. Thomson made it certain that on account of the continued illness of Mrs. Thomson, it would be impossible for him to return to the mission at present and perhaps for a long time to come, and in view of this uncertain outlook he felt it wise to resign his relationship to the mission. In view of the long-continued ailments of Mrs. Thomson in the past and the unpromising outlook for the future, the Board reluctantly accepted the resignation, feeling at the same time deep regret that one who has proven himself pre-eminently fitted for theological instruction, as well for literary work, and who for all purposes possesses so complete a knowledge of the Spanish language, should be withdrawn from the field. Dr. Thomson was one of the first three missionaries who sailed for Mexico twenty years ago. His service has been long-continued and assiduous, and in turning his attention to other forms of Christian labor he carries with him the respect and the best wishes of the Board.

The work of visitation to the outstations has necessarily been restricted during the year owing to the enforced absence of Dr. Greene, and the heavy pressure of redoubled labor upon Mr. Brown in Mexico City. Visitations, however, have been made into the State of

Hidalgo and also to Jalapa.

"At the beginning of the year," says the report of Rev. H. W. Brown, "I made my usual visit to our congregations in Hidalgo. Later I visited, in company with Dr. Greene, the work in Jalapa and Vera Cruz. Since Mr. Woods' arrival I took him with me to inspect the work in Almoloza, Capulhauc, and Toluca. Aside from an occasional visit to neighboring congregations, owing to the pressing nature of other duties I have not been able to do much touring."

The new missionaries sent out during the year,—Rev. C. S. Williams and Rev. J. G. Woods and wife,—are spoken of in the reports as

most welcome accessions to the mission. Mr. Williams, who had some previous knowledge of the language, has assumed full charge of the work at San Luis Potosi. Mr. and Mrs. Woods are in Mexico City.

Educational Work.

The work of the Theological Seminary at Tlalpam, twelve miles from Mexico City, has been carried on by Dr. Thomson and Mr. Brown, aided by Rev. Pedro Paufilo, a minister of the Mexican Church.

There have been thirty-four students enrolled and the station report shows that good work has been done, and that an improved spiritual tone has prevailed among the students. Seven have been employed in outstation work among the churches, at intervals during the year.

The loss to the seminary in the resignation of Dr. Thomson is very great. He had really been its founder and principal instructor. By the vote of the mission and the approval of the Board, Rev. Wm. Wallace, of Zacatecas, has been assigned to the work of the seminary

in connection with Mr. Brown.

The Girls' School in Mexico City, under the direction of Misses Bartlett and DeBaun, has had an enrollment of eighty-four pupils, forty-one boarders and forty-three day-scholars. The breaking out of sickness among the pupils and the illness of both the teachers, necessitated the close of the school a few days before the proper date, and the health of Miss DeBaun was so seriously threatened that her physician ordered her to return for three or four months, at least, to the United States. The year has been one of good average success and

prosperity.

The report rendered by Miss Barlettt concerning the eighty-four pupils who have received instruction during the year, says: "Never before have we had so large a proportion of satisfactory girls; girls who can be depended upon, who are bright, and lovable in their treatment of each other, and respectful and obedient to their teachers. Bible and catechism have been taught as usual to every class in the school. With seven of the more advanced pupils the study of the Old Testament has been pursued with profit and interest. Much Christian instruction has been given. In the Christian Endeavor Societies they have evinced a clear knowledge of and interest in the Truth. Although there have been forty-one house pupils, many were turned away who had applied repeatedly. The building has been filled beyond its proper capacity."

An earnest request comes from the school for a hospital room isolated from the other portions of the house. A case of typhus in the school in November made this necessity very clear. Four of the girls united with the church during the year, and at once offered themselves as members of the Christian Endeavor Society. Nearly all the members of the school have attended the society meetings with much

interest, though not all members.

In addition to the Theological Training School at Tlalpam and the Girls' Boarding and Day-School in Mexico City, twenty day-schools,

with a total of 867 pupils, have been carried on during the year. These are taught by the native teachers, the Girls' Schools by former pupils who have been trained in the Normal Seminary above referred to.

The Press.

The work of the press has fallen almost entirely to the supervision of Rev. Hubert Brown during the absence of Dr. Greene, who has been assisted, however, very efficiently by Mr. David C. Smith, a practical printer, who had gone out from England to Mexico as a lay missionary. The most important work of the press has been the publication of *El Faro*, of which an edition of 2,800 has been printed, or a total of 128,000 copies. Several missionaries have acted as an editorial committee. During the year Sabbath-school lessons have also been printed to the number of about 4,000. These have accomplished great good in the existing Sunday-schools, and in stimulating the formation of new ones. A large number of printed pages of books and tracts have been issued, making a total of 13,141,000 pages.

Prominent among the books published is the translation of Mairs' Christian Evidences, made by Dr. Greene. The translation made by Mr. Brown of Dr. Fisher's "History of the Reformation," is expected soon to be completed. In the editing of El Faro Mr. Brown has been assisted by Rev. Wm. Wallace and Rev. Pedro Paufilo. There are some signs of good in the present attitude of the native ministry. At the meeting of the Presbytery in April there was a general expression of mourning over the lack of spiritual life among the churches, and of earnest prayer for the revival of the work of the Holy Spirit, and the native preachers went to their churches with higher resolves.

The congregation at Vera Cruz has raised \$300 toward the building of a new chapel, and in one or two other places there is evidence of the spirit of self-support. Notwithstanding this, the general condition of the Mexico Mission has been felt for a year or two to be a subject of solicitude and of earnest prayer. Apparently there is need of a more vital touch and inspiration between the mission and the native ministers, and this is due very largely to the inadequacy of the present missionary force. The results of this constant and efficient oversight, which is so much needed, can hardly be realized while the number of missionaries is what it is. The mission must be reinforced, and the prayers of the Church are earnestly solicited for the blessing of God upon its ever growing work.

The annual mission meeting held in January, 1893, was one of the

most interesting and profitable ever held in Mexico.

The difficulties and shortcomings of the year, as well as its successes, were carefully and prayerfully considered, and the whole work in all its branches was candidly and dispassionately discussed, while a spirit of brotherly love toward each other prevailed among all. Resolutions were passed tenderly and regretfully recording a deep sense of loss to the mission in the necessary withdrawals of the two veterans, Rev. Drs. Thomson and Greene.

San Luis Potosi.

The reports from Rev. C. Scott Williams, who has recently arrived on this field, show that it has suffered greatly from neglect since the resignation of Mr. Beall, which occurred some months ago. Williams, who had obtained a knowledge of the Spanish language in Chili, has taken hold at once, and vigorously, and with a purpose to strengthen the things which remain. There is a little school of about 28 pupils which needs more efficient care, and the church membership is still found to be 96. Mr. Williams has employed an additional native preacher, who is giving his attention largely to the work in the city and to the important outstations, of which there are four or five. Two new members have been received during the year. need in San Luis Potosi of a church edifice with accommodations for a school and other forms of Christian work. The Board two years since purchased a piece of property for this purpose, but was unable to build at an estimated cost of \$5,000. A committee afterwards visited the place for the purpose of inspecting the premises and the work of the station generally, and their report was unanimous and most urgent in favor of the immediate rebuilding of the disgraceful property in which the mission is at present conducting its work. It is to be hoped that at an early date a suitable chapel may be erected at this place, and all the forms of work which had been begun, but had been subsequently suspended, continued.

Mr. Williams has employed two Bible-readers, who go from house to house. This work is yet in its infancy and encounters strong opposition. There is nothing the priests so much dread as the silent in-

fluence of the truth found in printed pages.

Zacatecas.

The Zacatecas field is divided into four districts. The first, known as the Laguna District, has 8 congregations, 4 preaching places, and 6 native workers. The second, San Miguel District, with 3 congregations, 2 preaching places and 3 native workers. This is under the care of Rev. D. J. Stewart. The Zacatecas District has 8 congregations, 6 preaching places, and 6 native workers, and is under the care of Revs. T. F. and William Wallace. Tlaltenango District has 6 congregations, 2 preaching points, and 1 native preacher.

In Zacatecas the native church was left without a pastor early in the year by the removal of Mr. Sepulveda to the Saltillo Mission. The care of the church has since that time been divided between the Messrs. Wallace, in connection with other lines of mission work. The attendance of the congregation in Zacatecas has been reduced more

than half by the prevalence of typhus fever.

The congregation at Jerez has suffered from the removal of its pastor, though it is now under the care of a student, who, though but 22 years of age, gives much promise.

Fresnillo has shown an increase of interest on the part of the young men in the congregation, though there, as elsewhere, the seed-sowing

of infidelity has produced its fruits.

At Sombrerete and Chalchihuites the work has been at a standstill owing to petty persecutions on the part of the authorities. They persisted in imposing a ministerial tax on a poor shoemaker because he takes charge of the religious services in the absence of the visiting pastor. The plea is not that he is a minister, but that he stands in the place of one, and exercises his official duties. An appeal was carried first to the District and then to the State authorities, but in spite of the presentation of a great deal of documentary evidence the appeal was not sustained. As a result public services have for the present been suspended.

At Cos the congregation has suffered greatly from the past misconduct of the spiritual leaders of the people. The attendance is now mostly confined to women, the male members of the church manifest-

ing great indifference.

There is much need in the Northern Mexico Mission as in the Southern, of an outpouring of the Spirit upon the church, and, first of all, a new baptism of moral earnestness in the native preachers.

Tlaltenango District has suffered from want of proper attention. So inadequate is the force of laborers that one young licentiate has

been obliged to care for six congregations.

Rev. T. F. Wallace has given to the outlying stations of this field thorough and prolonged labor in visitation, spending from two days to two weeks in each station, as the necessities of the place seemed to require. During the last eight months of the year six of the eight were spent in field work among the churches.

Rev. William Wallace has been occupied largely with the work of the principal station, preaching twice a month and engaging in pastoral work, also attending to the finances and correspondence of the

station.

There has been considerable activity shown by the members of some of the churches, especially on the part of the women. Five Ladies' Aid Societies have carried on work in various congregations (San Pedro, Gomez Palacio, Cos, and Fresnillo). While the men stand aloof at Cos, the women are reported as having commenced their work with great enthusiasm. The Missionary Society at Zacatecas has contributed about \$50. A Young Men's Association has also been organized.

The Mexican Home Mission Society is an ally of the church in the Laguna District, and continues to educate the churches in the

duties and privileges of self-support.

The fanalicism of the people runs as high as ever. People of wealth and standing dislike to compromise their positions by contact and

sympathy with the Protestant societies.

Infidel publications are actively disseminated. A Spaniard by the name of Verea has reproduced in his pamphlets what is known in Northern Mexico as Ingersollism. This seed-sowing of error has produced its fruit.

Scores of the poorer church members have been obliged to remove from the congregations in which they stood enrolled to other parts of the country to obtain the simplest means of subsistence. It is hoped that some means may be devised for keeping a hold upon those who thus migrate, providing for their spiritual wants in their new places of abode. There has been in the Northern as in the Southern field a decline in the membership of the churches during the year largely from this cause.

The total church membership of the Zacatecas field is 1,053; congregations, 25; preaching points, 12; workers, including ministers, licentiates, and laymen, 16. Numbers received into the church not reported.

San Miguel del Mezquital.

Rev. D. J. Stewart reports from the district of San Miguel del Mezquital a total membership of 52, 12 having been added during the year; 4 students are preparing for the ministry; 2 small day-schools are supported; 69 pupils in the Sunday-school; contributions amounted to \$108. Many of the people of this region have been scattered. The suffering can only be realized when it is remembered that corn has been sold at six Mexican dollars per bushel. Mr. Stewart's labors are carried forward with great fidelity notwithstanding the

heavy discouragements.

"Our work as Presbyterians," says a letter of William Wallace, relating to the work as a whole, "is almost exclusively devoted to four of the ten States in Northern Mexico. They occupy the very heart of this section and number about a million and a quarter. The forty Presbyterian congregations scattered throughout these four States, viz., Coahuila, Nuevo Leon, Zacatecas, and San Luis Potosi, have been for some years organized into the ecclesiastical body known as the Presbytery of Zacatecas. This Presbytery holds allegiance to the Synod of Pennsylvania, owing to the fact that a majority of mission-

aries who first occupied this part of the republic were from the Keystone State."

Saltillo.

The report from Saltillo mingles light and shade. In the local church at that place there have been 13 accessions to the church membership. For some months the church has been wholly under the direction of Mr. Boyce. This work, together with some other local duties which he has undertaken, has prevented the usual amount of visitation to the outstations. The need of more supervision is being felt in the Northern as in the Southern field. The weak churches. even their pastors, need constant encouragement and stimulus. They have during the year, as for the last two or three years, suffered from famine and its consequences. In order to realize the straits to which these poor people have been brought one must know that a day's labor of from 12 to 15 hours in the harvest could only gain the price of 3 pounds of corn—the latter being held at famine prices, while labor has been able to secure only mere nominal rates. In many places the people have been driven to desperation and have left their homes for other places of residence, not so much from any hope to do better as from a mere unrest and despair. This state of things has at last been partly relieved by the removal of import duties on corn and other cereals.

Some changes have been made in the location of native ministers in the Saltillo field, and there have been indications of prosperity not-withstanding the discouragements. In only two or three places have the churches failed to make at least some small addition to their membership.

The report rendered by Mr. Boyce of the Girls' School under the care of Misses Wheeler and Johnson is most satisfactory. During the year Miss M. L. Hammond has assisted Miss Wheeler in the conduct of the school—Miss Johnson only having arrived in the autumn. Miss Hammond's work was faithfully performed and her influence was in every way salutary. In reply to certain published statements which would indicate a degree of inferiority on the part of this school as compared with other denominations in the same field, it should be stated that the school rests squarely upon a missionary basis, and it is practically a Protestant institution. Very wisely it refuses admission to students of the town, whose parents wish to send them as boarding pupils. Those who live in Saltillo can be admitted as day-scholars only, and the boarding pupils are, as a rule, confined to children of Protestant parents living somewhere else.

This is the true ideal on which such a school should be conducted. Mere catering to the demands of resident Roman Catholics who will send their daughters on condition that they be boarded and sheltered, with the further condition, either expressed or tacitly understood, that religious instruction shall be at a minimum, is the poorest possible policy. It is a wrong to the contributors of mission funds at home, as it ignores the great end for which those funds are given—the conversion of souls to Christ through a pure Gospel, and it is an injury to

the mission work itself, as it lowers the spiritual standard, encourages worldly motives, and sinks the missionary idea into that of a mere

higher education.

The statistical report of the Girls' School shows 36 boarders and 25 in the day-school department. In Sabbath-schools 375 scholars are reported, while \$237.98 have been contributed by the churches; added to the communion of the church, 33—making a total membership of 563.

MISSIONS IN PERSIA.

Eastern Persia Mission.

Teheran: capital of Persia, population 200,000; work begun in 1872; laborers—Rev. Messrs. J. L. Potter, S. Lawrence Ward, and Lewis F. Esselstyn, and their wives; Miss Anna Schenck, Miss Cora Bartlett, Miss A. G. Dale, Miss L. H. McCampbell, Miss Mary A. Clarke, and Mary J. Smith, M.D.; 2 licentiates, 12 male helpers, 5 female helpers. Under appointment, Dr. and Mrs. J. G. Wishard.

HAMADAN: 200 miles southwest of Teheran, population 40,000; occupied 1880; laborers—Rev. Messrs. James W. Hawkes and W. G. Watson, and their wives; Dr. and Mrs. G. W. Holmes; Miss Annie Montgomery, Miss Charlotte Montgomery, Miss Sue S. Lienbach, and Jessie C. Wilson, M.D.; 1 licentiate, 8 male and 2 female native teachers.

Within the territory covered by this mission, especially in Teheran, where we have our largest work, various disturbing influences were felt during the year. First came the popular agitation against the "Imperial Tobacco Corporation," a monopoly exceedingly obnoxious to the people; the agitation finally issuing in riot and bloodshed, distracting attention from other things, and stirring up hatred against foreigners. This was followed in a few months by a visitation of cholera, which will be found reported under "Medical." The epidemic had a twofold bearing on our mission work. In the first place, it scattered the people so that the public services, both on the mission compound and on the west side, were suspended for a time. Some evil-disposed persons also tried to poison the minds of the common people with the idea that the Christians had brought the scourge upon the city. Mr. Potter reports the case of a Moslem who was heard to cry out, "Do not take the Christians' medicines, they brought the cholera." The missionary adds: "It is very evident that the conditions for Christian work here have changed materially within the year, there being now much less of liberty and more of bigotry manifest."

It cannot but be hoped, however, that the noble and self-sacrificing services rendered by missionaries and other foreigners during the prevalence of the cholera may redound ultimately to the advancement

of Christ's kingdom in Persia.

The missionary force has been increased at Teheran by the return of Miss Dale and Miss Bartlett after furloughs, and the arrival of Miss Mary A. Clarke, formerly of the Western Persia Mission, but now assigned to the boys'-school in Teheran; while G. W. Holmes, M.D., for many years connected with the West Persia Mission, and Mrs. Holmes, herself a well-qualified physician, have joined the force at Hamadan. Dr. and Mrs. J. G. Wishard, under appointment to Teheran, expect to reach Persia late in the spring.

Teheran Station.

It is gratifying to report that the spiritual condition of the church on the west side of the capital has greatly improved, notwithstanding

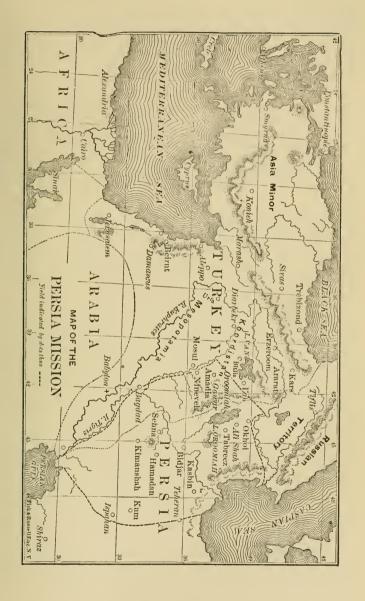

the untoward influences referred to above. As the outcome of much earnest prayer, and special religious services which were held in the new chapel of the church on the west side of the city, and also in the chapel on the mission premises, the members of the church were greatly refreshed, while quite a number of persons were hopefully converted. Seven made a public profession of their faith in Christ, all from the Boys' School, three of them being Armenians, two Parsees, one a Jew, and one an American. This is recorded as the largest accession at one time since the church was organized. Still others are believed to have experienced renewal by the Holy Spirit. Mr. Potter states that five Moslem inquirers had privately confessed to him their hearty acceptance of Christ as their personal Saviour, but they were not ready to make a public confession, which to a Moslem in Persia involves so much of hardship. The case of a Parsee who had become a Moslem is also referred to. He fell a victim to the cholera, but during the early stage of the disease expressly declared his hope in Christ, and his desire for Christian burial. It doubtless added to the spiritual power of the church that, after careful consideration, the names of six members had been dropped from the roll, most of them having been previously suspended. The membership reported is fifty-seven, and the total gifts \$287. In addition to the incidental expenses the church has become responsible for one-tenth of its pastor's salary, with the pledge to increase one-tenth each year until the entire amount is assumed.

Service in English was sustained during part of the year, though with diminished attendance.

Mr. Esselstyn made two visits to Rescht and three to Kasvin, the two outstations, during the year. At the former place preaching was continued on the Sabbath with a fair attendance, but the church was in such an unsatisfactory condition that it was dissolved, at least for the present. The school, however, with an attendance of 20 boys, mostly Armenians, is reported as prosperous and popular with the people. Three of the Moslem boys in the school were sons of the chief merchant of the city, and of a prominent man in the telegraph service. Other Moslem boys were applying for admission. Mr. Esselstyn also visited ten villages, reading and preaching the truth to an average of 30 Moslems in each. He and Mrs. Esselstyn have also made a large number of calls on Moslems and Jews, most of them for religious purposes, and have received calls from over a hundred persons whose business was inquiry on the subject of religion. During the summer preaching and Sundayschool services were maintained in the village of Dizashood, as many as 50 Moslems sometimes being present.

In reporting Woman's Work for Woman Mrs. Potter states that a woman's Christian Endeavor Society was organized among the Christian women who had become deeply interested in the building and dedication of the new chapel. The society holds meetings for prayer, the women entering into them cordially and with spirit. One hopeful conversion is reported as the result of this work. Mrs.

Potter writes:

Several of these sisters are quietly seeking to persuade their Moslem neighbors that Jesus Christ is the Saviour of the world, one finding opportunity as they came to her for eye medicine; another speaking her word while she buys her groceries in the little wayside shop. The free-will offerings of this society amounted to 11 tomans (\$16.50), most of which was appropriated to the furnishing of the new chapel. Mrs. Esselstyn conducted a class for Jewish women part of the year, while several of the ladies engaged in what may be termed zenana work—carrying the Gospel to the homes of the women.

Educational.—The attendance in Iran Bethel, the boarding-school for girls, was much smaller than usual, mainly because of difficulty in securing competent teachers. The session also had to be cut short because of the serious illness of Miss Schenck, upon whom the chief burden of responsibility rested, while Miss McCampbell was mastering the language. Happily the recent arrival of Miss Dale and Miss Bartlett has relieved the strain. Miss McCampbell writing of her first impressions speaks of "order and neatness reigning everywhere," and adds:

As the week went on we followed with keen enjoyment the daily routine duties of each, and found everything and everybody working according to clockwork regularity. It was interesting to watch the younger ones taking up the burdens dropped by their seniors—grouped in circles of five or six, and each group at its appointed task—sweeping, dusting, cooking, washing, etc., each at the appointed hour doing her special duty, even down to little Ghulshon with her tiny hands picking the specks out of the rice, while the older girls made preparations for cooking the same.

The attendance of Jewish girls was larger than usual. The serious difficulty growing out of the national custom of early betrothal is again referred to, four of the larger girls having been betrothed during the year, one Jewess and three Armenians. One case is cited where "the dear girl stood in uncontrolled emotion before the man she did not love, making a voluntary sacrifice of herself in order to gratify the selfish desire of a widowed parent."

Commendable progress has been made in the direction of self-support, the tuition charged those able to pay being larger than in any previous year. On the spiritual side the work has been full of encouragement. In addition to daily Bible study, and morning and evening prayers, the weekly prayer-meeting in charge of the girls has been continued. A special blessing was received one month when five of the girls, one of them a Moslem, "testified to their belief in a risen Saviour." Mention is made of the visit of a Princess during the year, who was so favorably impressed by what she saw that in bidding good-bye she said, "If God ever gives me a daughter she shall be yours."

Boys' High-School.—Mr. Ward reports the year in this school as one of mingled light and shadow. The protracted illness, and ultimate death from cholera, of the main Persian teacher, seriously crippled the teaching force, but to the praise of divine grace, it is recorded that he died confessing Christ as his Saviour. The report says:

The presence of mumps, measles, and cholera in the city interfered in a measure with the work of the school, and shortened the sessions a little.

Fifty boarders and seventy-one day scholars were enrolled. The school is advancing steadily, though slowly, toward self-support, parents being required to pay in whole or part whenever they are able. On the religious phase of the work the past year has been most satisfactory. The Y. P. S. C. E. has been active, and part of the time enthusiastic. During the revival some twenty-five to thirty of the students attended the meetings and gave much serious thought to religion. Only seven were accepted by the church session, but I trust that some seventeen at least have exercised saving faith. The meetings of the society were kept up until the cholera broke out, when seven of its members volunteered to act as nurses in the hospital, and rendered noble service.

The school in the Jewish quarter had an enrollment of twenty-five day pupils and twelve night pupils. An effort on the part of some Jews to close this school failed, although they had secured an order from the Minister of Foreign Affairs forbidding our missionaries to teach in the Jewish quarter. A friendly appeal to the Minister secured delay in order to give him an opportunity to investigate the matter, the result thus far being that nothing has been heard from him,

and the school goes on without interruption.

. Medical.—As it was impossible for the Board to fill the vacancy caused by the resignation of Dr. Torrence last year, the medical department of the work at Teheran devolved entirely upon Dr. Mary J. Smith, who continued the dispensary work two mornings each week, while still pursuing the study of the language. She reports 1,041 prescriptions, o66 patients, and 172 visits. The new dispensary on the mission compound, which is nearing completion, will add greatly to this branch of the work. The medical work which attracted most attention was that undertaken during the visitation of the cholera in August and September. As there was no physician in the village where the families of our missionaries were spending the summer, it was deemed advisable for Dr. Smith to remain with them. She, however, visited The Mission villages where the cholera was and administered relief. Hospital, which had not been opened because of the absence of sufficient medical force, was opened temporarily for the care of cholera patients, Mr. William C. Fox, U. S. Vice-Consul, and others heartily joining with our missionaries in providing for as many patients as could be cared for, both in the hospital and elsewhere in the city. The hospital was placed in charge of W. W. Torrence, M.D., who, though no longer connected with our mission, very cordially responded to the invitation to occupy the responsible position. As already intimated, a corps of volunteer nurses, in part from the Boys' School, tendered their services, and did excellent work, under the direction of the physician. The total number of deaths in Teheran has been variously reported at from 13,000 to 20,000. Eighty-two patients were admitted to the hospital, and some 2,000 were cared for by the missionary corps outside. It is to be recorded with gratitude that, notwithstanding the severity of the epidemic, none of our missionaries fell victims to it, and in only two or three instances were any natives connected with our work attacked. In an interview with Mr. Fox, the Shah expressed himself as gratified to learn of the good work which had been done by the American physicians during the epidemic, and the British Minister spoke of his "high admiration of the noble work undertaken by the

American missionaries in coming so promptly to the assistance of

the poor in a time of so great distress."

Literary.—The ordained missionaries at this station have each done something in translation and publication, including a tract or sermon by Mr. Esselstyn, the Westminster Confession of Faith, the Creed of the English Presbyterian Church, and the revising of Part I of "Pilgrim's Progress," by Mr. Potter. Further work in this direction has been assigned by the mission to six members, looking to the gradual preparation of a Christian literature in Persian.

Hamadan Station.

The cholera which ran a remarkably short course at this station interfered for a time with the regular work, affecting especially the schools. A more serious hindrance, however, was the bitter persecution of the Jews by the Moslems which intimidated many from venturing into the street, even to attend a Christian service. One young man, a member of the church, whose father and other Jews had been dragged from their homes by a mob, and compelled to accept the Moslem creed, was hurried before the Moslem priest, but, persistently refusing to deny his Lord, was finally released. It is recorded with devout gratitude to God that during the trying ordeal the Christian Jews stood firm. Miss Annie Montgomery, after a summer spent in Oroomiah, in lieu of a furlough in the homeland, returned to her work late in the autumn, greatly refreshed and stimulated by her sojourn in the West Persia Mission.

The church, under the pastoral care of Mirza Ohannes, had a quiet, uneventful year. None were added to the roll on confession of faith. One Moslem presented himself for admission, but the Session deemed it wise to defer his reception for a time. The attendance both of Armenians and Moslems was good until the cholera appeared. The same was true of the attendance on the Sabbath-school, the maximum number reached being 156, and the minimum 26. An important step toward self-support was taken during the year, the church pledging itself to pay five tomans per month (\$7.50) toward the pastor's salary, with the purpose of increasing the amount one toman a month each year until the entire

salary is assumed.

Educational.—The Boys' High School.—The report of this school, from the pen of Mrs. Watson, mentions the graduation of the first class from the school as a notable feature of the year. Four young men, three Jews and one Armenian, had completed the prescribed course of Persian and Arabic studies, Hebrew or Armenian, European history, physiology, grammar, algebra, and mental philosophy. They had been carefully instructed in the Bible, and had each made a public confession of faith in Christ. The mission hails these first fruits of this school with joy because of the promise which they give of efficient helpers in the field. Three of them are studying medicine under Dr. Jessie C. Wilson to fit themselves for wider usefulness in evangelistic work, two of the three meanwhile teaching part

of the time, and one being employed in the Imperial Bank, to help in their personal support. The fourth young man, an Armenian, expects to teach and at the same time to continue his preparation for the Gospel ministry. He spent last summer in work among the villages, of which a good account was received. The average attendance of day pupils, Armenians, Jews, and Moslems, was eighty, while about one hundred were enrolled. The serious illness of the native principal threw more than the usual amount of teaching into the hands of Mr. Watson.

Faith Hubbard School.—This school for girls narrowly escaped a severe crisis because of the uprising of the Moslems against the Jews already referred to. During the disturbance a Mollah (Moslem priest) sent to the school demanding one of the Moslem girls. Because of the prevailing excitement, and lack of efficient Government protection, it was thought wise to yield, and, as the Moslem feast was near at hand, all the Moslem girls were sent home. This prudent measure had the desired effect, as after the feast most of the girls returned to the school. Miss Lienbach writes:

Our school roll contained 107 names, 54 in the home, and 53 day pupils. Of the day pupils 24 were boys. Of those in the home 42 were Armenians, 7 Moslems, and 5 Jews. They are bright, quick, and as interesting children as one could wish to find anywhere. They are all members of the Band of Hope, and in six months raised nearly eight tomans (\$12) to help send the Gospel to other lands. In the home the girls as King's Daughters are ever watchful for the little acts of kindness to be done "In His Name." Very interesting and helpful meetings are held each week in our 'Prayer Room' by the Christian Endeavor Society. All seem eager to tell others of the Saviour they are endeavoring to serve, and each week they contribute something toward the spread of the Gospel in other lands.

The annual public exercises of the school, though held during the Moslem feast, were largely attended, a number of persons of influence

being present.

fewish Girls' School.—This is a day-school located in the west end of the Jewish quarter, and is under the direction of Mrs. Hawkes. Twenty-seven girls were in attendance during the year. Most of these were of tender years, as the objectionable custom of early marriage interferes with their long continuance in school. The Jewish community, unlike the Armenian, is not compact, so that the girls going to and from the school were subjected to rude treatment at times, but nevertheless persevered in their attendance.

A day-school is also held in Sheverine, a suburb of Hamadan. It had an enrollment last year of thirty, of whom thirteen were girls.

In addition to the provision made for Jews in the Boys' High-School, and the Girls' School, referred to above, a prayer-meeting is held Saturday evening, and a Sabbath-school and preaching service on the Sabbath in the Boys' High-School building. These services are attended by pupils of the school, former pupils, and some of the parents. Writing of this work Mr. Watson says:

There are many despairing signs among the Jews of Hamadan when we take a human view of their fickleness for the truth, their broken and dissevered condition religiously, and their disunited social condition, and the envy and avarice of their leaders. But when we have God's promise and know that

there is a little leaven at work and learn from history that God has used just such conditions for the overthrow of men's schemes and the advancement of His own design, we take heart and go forward.

The work at *Sheverine*, the only outstation connected with Hamadan, centres in the day-school referred to above. Service is conducted on Sunday by Mr. Hawkes, or one of the native helpers, one of the ladies from Faith Hubbard School usually being present. The women's prayer-meeting at this place received quite an impetus during the year by the opening of a dispensary by Dr. Wilson. The opposition of the Armenian priest, and the prevalence of wine drinking and wine selling, are among the obstacles encountered. There are said to be but two young men in the place not addicted to wine drinking.

In reporting Woman's Work for Woman Mrs. Hawkes mentions the Friday afternoon prayer-meeting in the Faith Hubbard School, attended by Armenian women and the school girls. A prayer-meeting was also sustained part of the year in the Jewish quarter for Jewish women and girls. In addition to this have been visits to Moslem homes, and other homes opened through the girls attending the schools, to say nothing of the unconscious influence exerted by the ex-

ample of our missionaries from day to day.

Medical Work.—The resignation of Dr. Alexander and the failure of the Board to secure a successor until recently, left the medical work of the station in the hands of Dr. Jessie C. Wilson and Mirza Saeed and Yakob, native Christian physicians, who had been trained by Dr. Alexander. These native physicians for the most part looked after the men, while Dr. Wilson cared for the women. In reporting for the station Dr. Wilson speaks in the highest terms of these physicians. In the providence of God the skill of Mirza Saeed was brought into conspicuous notice during the year. A distinguished official had fallen from a castle near Hamadan and was so seriously injured that neither Moslem nor Jew would undertake the case. Mirza Saeed was called, and by the divine blessing on his skill the official recovered. In true Oriental style he wrote a letter of commendation to the Prime Minister at Teheran, praising the skill of the Christian physician, and closing with the following paragraph:

The breath of Jesus was breathed into my dead body. Mirza Saeed took the uttermost trouble, and in his medical practice did not err the head of a hair, but showed skill so that friends and enemies cried, "Well done, Well done." I owe my life to him. I send this letter to the Vizier that he may take it to His Excellency, Exalted and Most Glorious, Most Highly renowned Prime Minister. May my spirit be a sacrifice. May he seal Mirza's certificate and may he become a source of boasting among his colleagues.

This drew from the Prime Minister a letter of thanks to Mirza, and the endorsement of a certificate of medical standing which had been issued to him by the English and American physicians in Teheran, together with a letter to the Governor of Hamadan to show kindness to Mirza Saeed. This incident is worthy of note as one of the substantial triumphs of medical missions.

Mrs. Hawkes rendered valuable help in interpreting for Dr. Wilson, and also in conducting religious services in the dispensary. As many as fifty women had been in attendance at one time, listening attentively and reverently to the reading and exposition of the Scriptures. Three thousand patients were treated during the year. Dr. Wilson might have added to her dispensary work a large practice among the women in their homes, but, as she was busy mastering the language, she wisely declined outside calls except under peculiar stress of circumstances. As a specimen of the discouragements encountered Dr. Wilson gives the following:

Perhaps one of the greatest discouragements is where they come for medicine and you have much hope of doing them good when the news comes, "We cut the Koran and found it was not good to eat your medicine." This happened in one case where the Serhangs wife of Sheverine sent for me. Mrs. Hawkes accompanied me, and in great style we rode out in their low, old-fashioned carriage, the bottom of which fell out before we got back. We were not long in traversing the two or more miles between our city and the village, and rushed on, stopping for nothing and not knowing when our carriage might all go to pieces at once like the "one hoss shay." After all this fine display they cut the Koran, and next day came the answer, "It is not good to eat your medicine."

Dr. Wilson reports the hospital in readiness for opening in a small way, provision having been made for twelve patients. As. Dr. Holmes is now on the ground it is expected that a beginning will soon be made.

The desire of the missionaries at this station for the extension of the work entrusted to them finds expression in an earnest plea again repeated and indorsed by the mission for another ordained missionary to give himself to itinerating work and the oversight of an outstation about a hundred miles distant. The time seems ripe for this extension and the missionary should be sent forthwith.

Western Persia Mission.

Oromiah (600 miles north of west from Teheran, the capital): station begun under the American Board, 1835; transferred to this Board in 1871; laborers—Rev. J. H. Shedd, D.D., J. P. Cochran, M.D., Rev. F. G. Coan, Rev. E. W. St. Pierre, and their wives; Rev. W. A. Shedd; Mr. E. T. Allen; Mrs. D. P. Cochran*; Misses N. J. Dean, M. K. Van Duzee, E. T. Miller, M.D., H. L. Medbery, and G. G. Russell; 31 ordained and 42 licentiate pastors, 98 native helpers, and 3 Bible-women.

Mountain Station—Mosul: opened in 1889; laborers—Rev. Messrs. E. W. McDowell and J. A. Ainslie and their wives; Miss Anna Melton; 5 ordained and 4 licen-

tiate native pastors, and 21 native helpers.

TABRIZ (nearly 500 miles north of west from Teheran): station begun, 1873; laborers—Rev. Messrs. S. G. Wilson and Turner G. Brashear and their wives; Wm. S. Vanneman, M.D., and Mrs. Vanneman; Mrs. L. C. Van Hook, Miss G. Y. Holliday, and Miss M. E. Bradford, M.D.; I ordained native minister, 7 licentiate pastors, and 25 native helpers.

SALMAS: *Haft Dewan* village; station begun in 1884; laborers—Rev. and Mrs. J. C. Mechlin, Rev. and Mrs. J. N. Wright, Miss C. O. Van Duzee, and Miss Jennie F. Mc-Lean; 1 ordained and 5 licentiate native ministers, 10 native helpers, and 1 Bible-woman.

In this country: Rev. B. Labaree, D.D., and Mrs. Labaree, Miss N. J. Dean, and Mrs. L. C. Van Hook,

The conditions of the West Persia Mission during the year 1892 have been such at times as to arouse much sympathy and anxiety for the workers. Sickness in some of the families, and the death of two lovely children, a son of Mr. and Mrs. Coan, while they were on a tour distant from home, and a daughter of Dr. and Mrs. Cochran. have brought affliction upon Oroomiah Station, in which the sister stations have also felt afflicted. The death of Mrs. D. P. Cochran at the advanced age of 71 years, who has been nearly forty-six years a missionary to the people of Persia, removed from the little circle there one upon whom the beauty of the Lord seemed to rest with peculiar grace and sweetness. Then cholera has invaded and fiercely ravaged the territory occupied by each of the stations in close succession, filling all hearts with trepidation at the possible issues of the epidemic to valued lives among helpers and church members, as well as within mission circles. And again, bitter opposition and persecution have been rife at different points, checking important measures, and keeping the workers in sorrow and suspense. But the Heavenly Father, who has permitted these trials to arise, has, on the other hand, caused consolation to abound to the mourners, has kept the pestilence away from the abodes of the missionaries, and in a surprising degree, from the homes of the native church members, and has abated the fierce opposition which raged for a time, particularly in Tabriz. Thus the several stations faced the opening year with somewhat lightened hearts and encouraged faith.

Some changes in the force have taken place during the year under review. Miss N. J. Dean and Miss M. W. Greene have been compelled to withdraw from work on account of impaired health, and Mrs. L. C. Van Hook has for the same reason taken a furlough home. On the other hand, Miss Mary Jewett has returned to her old field and work in Tabriz; Rev. J. N. Wright, D.D., rejoins the Salmas Station, with Mrs. Wright, to which has come also Miss

^{*} Died March 9, 1893.

Jennie McLean; and Oroomiah gets back, now as a full missionary, Rev. W. A. Shedd.

Oroomiah.

All the departments of missionary work at this station have been pushed forward with accustomed method and vigor, except when cholera has caused a check. The seal of the Holy Spirit, too, has not been wanting to the efforts to bring men to Christ and to edify the church. The general tone of the reports from the field is of substantial victories won, and yet of a hard-fought battle still in hand. The foes of the church without have never been more active; and the weaker, less stable, elements within have allied themselves with the opposition to delay the progress looked for. Still, the movement of the battle is forward. Difficulties and resistance but rouse faith and courage to a higher pitch. The workers are forced to more earnest and instant reliance on Divine strength, and thus sooner or later the obstacles are surmounted, and the Redeemer's cause rides on to triumph.

Hindrances and Encouragements.—The ecclesiastical influences which have come into the Oroomiah field within a few years are testing the foundations of the evangelical church. They are also, we believe, solidifying these foundations. They would undermine it, if possible, by offering an easier style of Christian living. Wine drinking is favored, looser notions of Sabbath observance are fostered, self-support of pastors and schools is practically discountenanced. Our church members, with but partially formed ideas on these matters, are shaken and unsettled. Some are attracted to the smoother paths, requiring less self-denial. There seemed at one time in the year, for instance, danger of serious reaction in the temperance cause, and an ominous return to social wine-drinking customs. A wet season had prevented owners of vinevards from making their larger grape crop into raisins. So a weakened conscience opened the way for turning the otherwise useless grapes into wine.

A deadening of spiritual life has also been noted in an unusual amount of contention and litigation one with another, such as grieved the Apostle Paul touching the Corinthian church. One of the largest and most hopeful churches has been sadly torn by internal dissensions and rivalries.

But in spite of these developments of unstable character, it is found that there is, underneath the surface, a stratum of genuine piety, a conscience which has been touched by the Holy Spirit, that sooner or later responds to the pressure of Gospel motives. So it has come about, after a vigorous discussion of high temperance obligations in the Synod, and some sharp discipline in the churches, with the gentle influences of the Holy Spirit, that many erring church members have poured their new-made wine into the streets, though they might have sold it at considerable profit, and have planted themselves on total abstinence ground anew. Many casks full of wine have thus been disposed of. It is a notable triumph

for the loftier principles of the Gospel. Another victory is in the reconciliation of the divided church of Gulpashan. Under the blessing of the Lord, after toilsome efforts, it has come to itself. The spirit of Christ has asserted its rule above that of the world. Humble confessions have been made by pastor and people, and the church, as one man, resumes aggressive work again. Since the recent Week of Prayer it has been baptized with a new outpouring of the Holy Spirit. The church of Geog Tapa, the largest evangelical church in Persia, has also since the opening of the present year experienced a powerful revival, such as has not been witnessed since the early days of the mission. In several other places during the year there have been gracious revivals, on the Barandooz plain in particular, where, in the villages of Saatloo, Dizza Takka, Shemshejean, and Saralan, there were near one hundred inquirers. These evidences of the Spirit's abiding presence are most inspiring in face of all that tends to pull down and destroy.

Dr. G. W. Holmes, who was unavoidably detained at Oroomiah the past winter, was a missionary there 18 years ago. In comparing the work at the two periods he is of the opinion that the power and volume of evangelical influence has increased threefold in these 18 years—in medical, educational, converting, and aggressive force. It is found on examination that just in the matter of church membership, in 1875 there were 729; now there are 2,289—a more than

threefold increase.

The General Synod.—This important body convened November 1st, in the church of Mart Mariam, in the city of Oroomiah, and continued its sessions the usual period of four days. There were present 29 pastors and 12 elders, a less number of the elders apparently than usual. A score or more of other church workers are

recognized as members of this body, without vote.

The gracious protection which a kind Heavenly Father had exercised over the churches and congregations here represented during the prevalence of the deadly pestilence, one only, perhaps, of the whole number having fallen a victim, imparted a deep feeling of gratitude and joy to the assembly. The spirit of fervent, grateful prayer signalized the meeting. The thought prevailed that these sparing mercies summoned all to yet other service for the Lord. No one thus favored might remain an unprofitable tree in His garden. There was likewise ardent supplication for the advance of the Gospel cause. The reports from the churches revealed that a lesser number had been added on confession during the year than the one or two previous years; but 183, as against 255 the year before. The pleadings for the outpouring of the Holy Spirit were very earnest. A sermon on preparation for receiving the Holy Spirit, by Mr. St. Pierre, lent special impression to the subject.

Another topic which engaged the deeper attention of the Synod, was the evangelization of the whole nation, especially that portion in the wild mountains of Koordistan. The increasing difficulties there, the embarrassments of the Patriarch through Romish intrigues, and other distracting influences, awakened very deep sympathy among the mem-

bers of the Synod for their brethren in those inhospitable regions. Efforts were made to increase the gifts of the churches to extend mis-

sionary enterprise in the mountains.

Reference has been made to the temperance discussion, which resulted in a general toning up of sentiment upon this vital question throughout the churches. As a consequence, one large church suspended 33 members, not for drunkenness, but for the manufacture of wine and for violation of pledges (the most of whom, it is understood, have seen the error of their ways and have renewed their temperance

vows).

The Synod considered favorably a petition for the erection of a new presbytery, to include the churches in the Tabriz and Salmas fields. Some of these are Armenian. This union of evangelical Armenians and Nestorians into one ecclesiastical connexion, making one family in Christ, is an interesting and very important development of missionary work, especially when we bear in mind the mutual jealousy and suspicion that is ever rife between different oriental nationalities. The bounds of the West Persia Synod, as thus extended, stretch now from the Caspian to the Tigris. It will include six presbyteries, counting in that on the western side of the Koordish mountains with our new station of Mosul as a center.

No little warmth of feeling was aroused in the Synod over the attitude to be taken towards their educated young men going abroad for purposes of a higher education, with the aim to return to find work under the Synod, or through appointment of some society or church in As in other missionary fields in the Orient, this has become a critical question. The rush to America is not surprising. From out of conditions akin to serfdom under Mohammedan masters, these Christian young men of Persia have opened their eyes to larger possibilities for themselves. The Gospel has been to them as the leaven of a new manhood. Education in missionary schools has awakened in them the consciousness of new powers. They have seen some of their own number getting a higher education in the colleges and seminaries of the West, and attaining to enviable positions of usefulness, reputation, and worldly comfort. So it has come about that few of the licentiates are willing to remain at home and minister to humble congregations on meagre salaries. There is danger that churches will become pastorless, and the higher schools be left without teachers. ment is not wholly to be derided, however. It is an almost inevitable outcome of missionary training, the key which has unlocked the mental fetters of ages. There are some worthy motives, too, at the bottom. But the evils are so serious to the churches and schools abandoned, to the true missionary spirit which the evangelization of the humbler populations of Persia demands, and to the young men themselves, of whom many will but make shipwreck of body and soul, that the Synod pronounced decisively against this going abroad for study with expectation of returning upon large salaries. It is undoubtedly the wish of most of these young men on leaving Persia to be sent back, after a term of study, by the Presbyterian Board, on a liberal salary, to some post which they shall provide for them. They are not wholly unmindful

of the benefits they have received from this Board. But the opinion of Synod was that they should return to Persia to place themselves under the same rules of the church and mission as the other preachers in the work. They would probably be dealt with in a liberal spirit by Synod and mission, not unmindful of their somewhat changed conditions. Should these young men come back under appointment from outside parties, and with salaries graded by American standards, it would be to introduce divisions, unholy rivalries, and contentions, as whenever sects and churches are needlessly multiplied.

It was hoped for a time that kind and faithful counsel had been heeded by some of the young men, and that they were nobly choosing to put personal aspirations on the altar of Christ to take the humbler lot of service among their own people with lower wages and larger

self-denial. But later reports dispel these hopes.

With a view to rousing the religious energies of the church, the Synod recommended the holding of a Spiritual Conference shortly before the Week of Prayer. Such a Conference was held at the College early in December. About 50 of the workers were present and the Word of God was greatly blessed. The most part went home quickened to more zealous efforts and confident of larger spiritual results. An unusual feature of these highly devotional and uplifting meetings was the presence of a young bishop from the Patriarchate, Mar Auraham, the probable successor of his consin, the present Patriarch of the Eastern Syrian or Nestorian Church. He was for a few weeks under Dr. Cochran's medical treatment, and took up some lessons at the same time. The atmosphere of this Bible Conference was a novelty to him, though in his childhood his father was a pillar in our evangelical church up to the time of his death. He seems to have inherited something of his father's gentle spirit and fondness for spiritual truth.

Another bishop, Mar Saureshoo (Hope-in-Christ), was also present. He is a truly evangelical man, often visiting the missionaries for spiritual intercourse. By way of contrast it is mentioned that the Bishop of Oroomiah, at this same time, was celebrating the marriage of his nephew to a little girl of to years, with accompaniments of music and

wine-drinking that were simply scandalous.

The Board of Evangelistic Work, which is in a sense the Executive Committee of the General Synod, has met regularly once a month during ten months of the year. It is the center of interest to the whole corps of workers. It shares with the missionaries the responsibility of church development and general discipline. It is a strong arm on which to lean. The assignment of preachers to their respective fields, the proportionate adjustment of salaries, the annual visitation of the churches, with the task of pressing the churches to advancing self-support, are among the levers which it falls to this body to handle. They also have an oversight of church and manse building. During the past year two important new church edifices have come to completion under their general supervision.

The Inner Mission.—This recent organization for special work outside the nominal Christians makes clear from month to month that

its call to be was from the Lord, and that He has given before it an open door. The past twelve months of its operations show a record of resolute effort, increased faith and prayer, of signal persecution, and some visible fruit. Says Dr. Shedd, who has largely brought it into being, "Through it the way seems open for the rapid evangelization of Persia." It is directed by a committee of native brethren and Dr. Shedd. It aims to employ a few humble consecrated workers on modest salaries, such as are well acquainted with the languages, and, if possible, have some knowledge of medicine. The agents of this unpretending organization have reached between ten and twelve thousand souls with the Gospel during the year. One of these laborers has done excellent work in a field of over 100 villages. His slight medical training has proved an efficient instrumentality in aid of his undertaking. The seed has been sown widely, and some cases of interest have come to the surface. A Bible-woman has been engaged in touring through the same field, and has brought the words of Gospel truth to the ears of near 3,000 persons, chiefly women. She has met with coldness and reviling twice only. Still the men do not look with favor on this instruction of their women. But in 20 villages she is cordially welcomed, and to these she principally confines herself now. Another worker in this line has been Mirza Ibrahim the early months of the year, until arrested and cast into prison. His case has attracted wide attention from all classes. His bold confession of Christ, his persecution and sufferings, with his firm stand against all efforts to induce him to retract, have drawn the hearts of all Christians toward him. Among the Moslems his case seems to have deepened the conviction of some in Christ as the true and only Saviour, while among the masses it has perhaps augmented their hatred of the truth. brother is still in prison, subject to great indignities and fiery temptations. It will be a miracle of grace if he comes out from the flames unscorched and his faith unshaken. Fervent prayer is offered up in his behalf from multitudes of hearts. This Inner Mission also encourages volunteer service on the same lines. A new station has recently been opened under its auspices in the city of Oroomiah, where one of Dr. Cochran's medical students, of large experience and zealous piety, has located himself, and with some aid from the Inner Mission treasury, will do medical work for all classes. And still another similar station is projected. It is hoped that the funds and workers will so multiply that each year one such new station may be projected into the heart of Persia as a strategic position for the Gospel. There are reckoned at least 400 such fields in Persia waiting for the words of life. There are many obstacles, but not more than in the days of the Apostles.

Mention should be made in this connection of the praying band of young men, organized for independent effort under the lead of a singularly devoted and influential young preacher, who this year, only too early, was called to his heavenly reward. Seldom has any death in the nation been so widely lamented as of this youthful servant of God, Râbi Oshana. He was recognized as a most consecrated man by all classes. His preaching was with fervor. His labors for souls were in season and out of season most fervent. But a few years ago, then

a fresh theological graduate, employed as school teacher, he came to his missionary superintendent, with the thrilling exclamation, in anguish of mind, "Oh, my sins!" Thus awakened to the falseness of all his previous Christian professions, he passed through a protracted period of anxiety, and almost of despair, before he came out to the full light of Christ's forgiving grace. With such a profound experience of sin and assured pardon, he became a powerful preacher, an untiring worker, an inspiration to the whole church. If not always discreet, men condoned his mistakes in their absolute confidence in the sincerity of his consecration. The band of independent workers organized by him feels that the mantle of this prophet has fallen upon them. They have turned with deepening interest to the Moslem work. It is reassuring to mark the developing missionary spirit among them, rich in promise of great blessings. From funds of their own raising, they have set one of their number to work, who, though of limited education, has been able by his tact and the sincerity of his tone, to carry the Gospel message not only to many Moslems of the poorer class, but also to Mullahs and noblemen, who listened to him with courtesy and even relish.

The Jewish Work.—There has been employed in this line of service the same evangelist who for some years past has found here a deepening interest in the teachings of Christ. He has ready access to Jewish homes, and even is allowed to speak in their synagogues. Three Jews were baptized during the year, men of standing in their community. They are preaching Jesus of Nazareth as the true Messiah among their own people, with much earnestness. Fifty families are reported as moving toward the light. Twenty-five of them are studying the New Testament, and as the supply had run short, and only six or seven copies were available, these were circulated among them and used by turn. Of the interesting work among Jewish women we will make mention later.

The Mountain Work.—That section of the field in Koordistan which falls under the supervision of Oroomiah Station has received special attention during the year past. Mr. Coan made a very important tour into and through it with his family, involving severe hardships and perils. He first visited the city of Van to have direct communication with the Turkish officials there relative to the obstructions put in the way of our schools in Gawar and other districts. Mr. Coan was eager to conform to all the governmental regulations with regard to public schools if only we might be allowed to prosecute our work unmolested. Fair promises were given, but it is too evidently the purpose of the Government here, as in all parts of the empire, to thwart missionary endeavor of every name.

The increasing and widely circulated reports that Mar Shimoon, the Patriarch of the Nestorians, had entered into very close relations with the See of Rome, looking to his reconciliation with the Pope, urged Mr. Coan to pay the Patriarch a visit in his mountain home. It was a toilsome climb, high up steep but narrow roads, over masses of unmelted snow even in mid-summer, and then down by perilous descents to the valley of Kochanes, the seat of the Patriarchal residence;

a journey of but three days from Van, but tedious and full of exciting incident. A grateful rest awaited them in the new and beautiful quarters which the Patriarch, with characteristic hospitality, placed at their disposal. Here Mrs. Coan remained very comfortably while Mr. Coan, after a little, made a tour of the outstations in the dis-

tricts of Jeloo and Bas.

The Patriarch gave Mr. Coan several private interviews, and ecclesiastical affairs were discussed very freely. It was evident matters had gone a long way in the direction rumor had indicated. But Mr. Coan, as representative of the American missionaries, for whom Mar Shimoon has always cherished a high esteem, was listened to in a most friendly spirit. The dangers involved in his secession to Rome, dangers of divisions and sanguinary conflicts among his own hotheaded followers, as well as the blot he would affix upon the fair name of his church, which had for ages withstood the allurements of the Roman Catholic Church, were frankly and fully set before him. The result was, that, encompassed though he is by many vexing embarrassments, brought on him in part by the presence of Anglican missionaries, through whom have arisen divisions and factions in his own family, the Patriarch was moved to retrace his steps, and to plant himself squarely against the Romanist's program. He gave Mr. Coan a paper pledging himself to resist Catholic aggression. He urged Mr. Coan on his way through the mountains to obtain as many seals as possible from bishops and priests to this pledge, and then to give the paper all the publicity possible in Europe and America.

The Catholic party at Mosul have sought to bring the Patriarch to indgment before the Turkish officials at Van for broken pledges. The issue is not yet known. The situation is a serious one. Much sympathy is felt for the head of this ancient church,—so often called "the Protestants of the East," beleaguered by many opposing influences, Roman Catholics, Anglican Ritualists, and the Turkish Government; not over-resolute in will power, and very much isolated by internal dissensions among his own family. There seems a probability that the old church will fall to pieces, and its divided followers be crushed beneath the iron heel of their eternal enemies, the Koords. whole Church of Christ cannot look upon such a possibility but with pain of heart. For ages this branch of the Christian Church has held its ground against fearful odds. Fierce persecutions and almost annihilating massacres have been its lot. And though it has lost its spirituality and the renowned missionary fervor of early ages, it still stands for exceptional purity of doctrine. It honors the Word of God and simplicity of worship as taught in the New Testament; it does not call the Virgin Mary the Mother of God; it has never tolerated pictures in its churches; it will not allow confession to the priest; it does not withhold the cup from the laity; it is liberal toward other branches of the Christian Church. In all these, and in many other respects, it deserves the sympathy and prayers of the true people of God everywhere.

Mr. Coan's visit to those interior districts where are mission helpers located was full of encouragement. Jeloo and Bas, which are outside

of direct Turkish control, are open to all the helpers and schools we can place in them. Friendliness to evangelical teachings, and opposition to Romish advances, are on the increase. Our helpers are commending themselves by their fidelity and earnestness. The outlook is

bright.

On the plain of Gawar the conditions are all just the reverse. It is the seat of Government. Romanist influences, backed by French officials in Constantinople, have full swing. The Protestant helpers are at variance with one another. The evangelical cause is pretty much at a standstill. A petition from the principal men of the district, to the governor and council, for permission to open schools, expecting us to supply them teachers, has not even been answered. So long as matters at the capital remain in so unsatisfactory a condition, missionary operations in these remote districts will not be allowed much favor.

Mr. Coan's tour lasted eleven weeks. He says of it, that in many ways it was the most satisfactory he has ever made. Everywhere a most cordial welcome was given to the message of the truth; and though in some aspects trying and full of sorrow, especially from the death of their little boy, and a serious accident to Mrs. Coan, during their stay in Van, yet in other respects the journey was full of joy and success.

Oroomiah College.—This institution remains under the joint care of Dr. Shedd and Rev. Mr. St. Pierre. The students reported last July in all the courses were: theological, 12; medical, 5; college course, 56; preparatory department, 55; industrial, 7; aggregating

135.

The graduating class which left the institution with the usual exercises on July 19th numbered 10. Their examinations indicated increasing self-reliance and independence of thought. This, while it involves perils for the young men, and perhaps for the cause which has nurtured them, still is a welcome sign of increasing robustness of character. In the long run it must result in greater usefulness.

The alumni meeting held at the close of the collegiate year is always a breezy occasion, at which the literary, social, and spiritual interests of the nation are pretty freely discussed. Criticism is outspoken; panaceas for the social ills of the people are proposed in much assurance; and some practical ideas get rooted, or if rooted before, are nursed along to their fruit-bearing season. "The problems of the educational work," says Dr. Shedd, "are pressing and difficult." Some of these are, "the danger of over-educating; the rush of young men to America; the need of more industrial work; the relations of the village schools to the college."

The Industrial Department elicits great interest. Mr. Allen is giving it hopeful direction and development. The funds at disposal do not allow of a rapid enlargement. Only a portion of the numerous applicants can be received. But the more that can be put into this course of training will relieve the pressure for a high academical career, and the fewer will be tempted to fling themselves into the whirlpool of American life, for which they are so ill-fitted.

It is our privilege to mention the visit, last summer, to our American shores of one of the most devoted and useful graduates of this missionary institution; for more than thirty years an evangelist eminently blessed of God among the peasants of Russia, but known and regarded with affection by the noble and wealthy of many cities. He was one of the early promoters of the "Stundist" movement. Though he has accepted Baptist views, we cannot but feel a holy pride in the great work which he has been permitted to accomplish through the training he received at Seir Seminary in the days of Perkins, Stoddard, and Cochran. He is still arduously at work, self-exiled to a distant part of the empire, where God has given him providentially a quiet field in which to sow and reap.

Fiske Seminary.—The withdrawal of Miss Dean, on account of her greatly impaired health, after a service of twenty-four years, has been seriously felt. Her presence and influence will long be missed. More than 60 girls have completed their course of education under her supervision, and many more have taken a partial course with her. The memory of her counsels and teachings is interwoven with the texture of their lives, and will go down to generations to come. And through the many villages where she has gone or her pupils have settled her words and her example remain

a leaven of Gospel purity.

For a time after Miss Dean's leaving, the school was under the care of Miss Mary Van Duzee, giving the newly arrived teachers, Miss Medbery and Miss Grace Russell, chance for study of the language. During this period the year's studies were brought to a close, and seven girls were allowed to graduate, with appropriate public exercises. At the same time a meeting of the alumnæ of the institution assembled for their triennial meeting; 72 of the number were present. Practical papers were read and discussed; one of them, by Dr. Emma Miller, on the care of children, was greatly appreciated. Devotional services and music, a social hour on the flat roof of the seminary at evening, a sunrise prayer-meeting, a question-box—such in general were the exercises that engaged the attention of these women for a part of two days.

The number of the pupils in the institution at its full was 92 boarders and 83 day pupils in the different departments, regular, primary, and kindergarten. All were Nestorians, except 12 from Moslem families, or children of converts from Islam. The institution considers itself highly favored in having received a new organ, the gift of a band of young ladies in the United States. Music lessons have been introduced as a new feature in the course for a few special pupils, under instruction from Mrs. Coan and Miss Russell. For these an extra charge is made. Organs are being brought into the country to a larger extent than ever before, and

lessons on the instrument are in growing demand.

The pupils of the seminary have hitherto worshipped on the Sabbath in the church of the adjacent Christian quarter of Mart Mariam [St. Mary's]. But the building has become scarcely sufficient for the local congregation, while the number of the girls in the

school has considerably increased. It was thought best last year, therefore, to hold separate services in Morton Hall, in the seminary building. Different preachers, missionary and native, were invited to conduct the services from Sabbath to Sabbath. The new arrangement proved very satisfactory. Both comfort and profit were sensibly increased. The new organ added much to the enjoyment of these occasions.

The new principals, Miss Medbery and Miss Russell, have now full charge of the institution, infusing into it new life and fruitfulness. Among other things, it is proposed to accept produce instead of cash for tuition fees, where it seems necessary. This will make it possible for some of the poorer peasants to give something for the education of their daughters. To those who wish, and can pay for it, instruction on the sewing-machine will be given. The object will be to educate a larger number in the commoner branches, while those who wish a more advanced course must pay for the same.

Work for Women .- Owing to the withdrawal of Miss Dean from the field of work, and the extra duties in connection with Fiske Seminary which have devolved on Miss Van Duzee, less outside work for women has been done than in some past years. Miss Van Duzee has, however, kept efficient oversight of the Bible-reader among the Jews. This excellent and faithful worker is constant in her visitation from house to house reading the story of Christ. Both before and after the cholera the people seemed to be unusually susceptible to religious Miss Van Duzee has also kept up her meetings on Fridays and Sundays for the Turkish-speaking women, which have been well attended. She thinks two more women have begun to follow Christ. One is a young bride whose husband is a church member, making another Christian home. The other is a woman whose husband and daughter were baptized last year. She has persecuted them most bitterly, and made her home a place of confusion and unhappiness. When the mother would storm and revile, the husband instead of answering back would walk out into the street, and the daughter would get her Testament and read. Her inability to provoke them to return her abusive language, for a time only fired her temper to greater heat. As the month of Moharrem approached, when the whole population devote themselves to frenzied grief over their martyred saints, she set her heart on having her daughter read from memorial compositions in the houses of the wealthy, for hire. The poor girl was sorely tried. She saw no way of escape but by a downright refusal to obey her mother, which an Oriental daughter is most reluctant to do. But God was preparing the way for her, and that the most joyous possible. He has softened the mother's heart, and she seems to have accepted Christ The home is greatly changed. Instead of ruling her house with impatience and reviling, the mother impresses her family by her gentleness. It is one instance; the imprisonment of the brother mentioned above arrested the attention of a partially enlightened soul and led it to Christ.

The regular Bible-reader for the Nestorian women of Oroomiah, Laya, was spared for a part of the year to the Mosul Station, to aid Miss Melton in her work. She has resumed her village visits, more or less interrupted by the cholera, however. The same cause seems to have occasioned the abandonment of the Summer Women's Conferences, for which appointments and careful preparation had been made. Much is due in this branch of the work for women to Mrs. Shedd's indefatigable labors. The presence of Miss Annie Montgomery a part of the year, on a vacation for rest from her Hamadan field, was, from her large and varied experience, a source of great pleasure and helpfulness to the workers in this department.

While shut up by quarantine regulations at Seir, Miss Van Duzee was privileged to have much hopeful intercourse with the families of Persian officials, military and civil, who had taken refuge on the mountain side. The wife of a young general of the army, who was a reader, desired Miss Van Duzee to come to her every day for a lesson in the New Testament. She made rapid progress. That her interest was thus awakened in Christian truth is indicated by the fact, that when her husband moved his tents to another village, the wife asked permission to take the Testament with her. And her last words to her teacher were, "Pray for me while I am away." Another Moslem lady, whose heart had been opened to the attractions of Christ through intercourse with a neighbor's family, converts from Islam to Christianity, also had

a lesson daily. Sweet and refined, like the beloved sister whose words and life have won her to faith in Jesus, and drinking in Christian truth with the relish of a thirsty soul, it is no wonder Miss Van Duzee found it delightful to open to her understanding the words of Life.

It is fitting to mention here the loss sustained in the field of work for women by the death of the Nestorian sister Moressa, wife of Pastor Yacob. She was one of the earliest graduates of the Female Seminary under Miss Fiske. For some years her husband and herself have been engaged in special labors for Mussulmans, drawing their support from English friends, but in close touch with our mission work. She had twice visited England with her husband to enlist sympathy and support for their enterprise. Everywhere, at home and abroad, Moressa commanded marked respect and interest for her dignified, ladylike bearing, her more than usual good judgment, and her patient, faithful labors for Moslem women. She will be greatly missed by all who have been associated with her.

Medical Work.—No special report has been received of the hospital and dispensary work. Dr. Cochran and his efficient native assistants were never more fully occupied. At the time of the cholera, Dr. Cochran's judgment and counsels were much deferred to by the Persian magnates of the district. He had published in advance valuable pamphlets on the disease, in the Syriac and Persian languages. The practical directions given by him as to the limitation and prevention of the epidemic, and the proper treatment under an attack, undoubtedly saved many lives. His services are eagerly sought for by Moslem and Jew as well as by Christian. And through his students as well, his influence is constantly extending, always a very positive factor in the advance of the Gospel cause.

Dr. Miller's real efficiency and ready willingness to aid those in need

of medical skill, are growingly appreciated by the natives. The calls upon her are rapidly increasing. During the cholera she showed no little heroism in visiting infected communities with means of relief and

timely counsel.

The Press.—Under the conditions of limited missionary force which have existed, it has been necessary for Dr. Shedd to assume the exacting duties of editorial and publishing departments in addition to his many other labors. The press has turned out during the year as follows: The regular monthly newspaper, The Rays of Light, 600 copies per month; the Sunday-school quarterly, compiled by Mrs. Shedd; a new primer in Syriac, 1,000 copies of 44 pages; some portions of the unfinished "Scripture Geography and History"; a portion of Andrew Murray's "Like Christ"; the minutes of Synod; pamphlets on cholera in Syriac and Persian, and a hymn-book in Persian for the Teheran Station.

A new printing house has been erected recently, much better adapted to the work than the old rooms built more than 40 years ago. It is hoped that it will long be a fountain of pure literature,

and a power for good.

The circulation of books has been much interrupted by the prevalence of cholera, Government interference in Turkey, and the lack of missionary force to push the business. It is one of the everpresent problems how to obtain a wider distribution of Bibles and evangelistic literature at a less expense.

Tabriz.

This station has passed from conditions of unusual prosperity and promise in the opening months of the year to those of peculiar trial and difficulty later on. The Week of Prayer in 1892 was greatly blessed to the church and schools. In answer to the earnest pleadings of God's servants, several in the boys' school were hopefully converted and united with the church. The number of students in the school was 75, encouragingly large. Five of these were theological students. On Sabbath days large congregations gathered to hear the eloquent and pungent sermons of Rev. Gregor Guergian. All his labors, public and from house to house, serving the Lord with humility and with many tears, were with power. His zeal and preaching have been like an electric shock to the Armenians. On some the impression made was favorable. The greater part, however. —the leaders, at least—were enraged, and, from fear of his growing influence, would have had the man "thrust out of their city." fact, a sharp persecution arose against this excellent brother. Complaints were sent to His Majesty the Shah, containing false and base His life even was threatened. There was fear of secret assassination. But the Lord stood between him and his enemies. No harm was allowed to befall him.

Before the time arrived for reassembling the boys' school cholera stalked into the city, and opening day was delayed until in October. With a stronger corps of teachers than usual, and with the prospect of a prosperous term ahead, the wheels were set in motion. So hopeful was the outlook that Mr. Wilson felt warranted in leaving the care of the work to his associates, while he started off on an important tour.

Two weeks later the Persian officials, instigated by the everhostile Armenians, without apparently a note of warning, closed the school, sealing up the doors, and also those of the new chapel. The

pretexts for these illegal proceedings were most whimsical.

Representations were made to the Shah. He sent repeated telegrams for the reopening of the buildings, to which the local authorities gave no heed. Delays in the mails, official procrastination, the absence of the United States Minister from Teheran, together delayed the opening for ten weeks. In the meantime the day scholars scattered to other schools, giving pledges not to return to the Protestant schools. The boarders were held together with a few lessons. Almost overwhelmed with the difficulties of the situation, the station set apart a day for fasting and payer, in which the missionaries at the other stations were to unite, in the hope that the good Lord would be pleased to hasten to their relief. But before the day came—just the evening previous—their spirit of contrite supplication was regarded by the Heavenly Father. Peremptory orders arrived from His Majesty the Shah, who was expecting soon the new American Minister, and was determined there should be nothing unpleasant for him to speak of at his first interview. The next morning, on Saturday, the last day but one of the world's Week of Prayer, the seals were officially removed. No conditions were imposed, as it was feared there would be, and no interruption has occurred since, though the spirit of hostility is doubtless as malignant as ever. "And it shall come to pass, that before they call, I will answer, and while they are yet speaking, I will hear."

The reassembling school had, it proved, suffered severely from the blow. The former roll of 75 had dwindled to 30. The Sabbath congregations, too, are much diminished. But the regular services of chapel and school are moving on hopefully, and gratitude fills those missionaries' hearts. They remember they are but the servants of the great Head of the Church, and can go no faster than He deems best. They are walking in close and humble dependence on the Master, willing to endure with Him and for Him. Their afflictions are His afflictions; the day of His triumph will be theirs

also.

Presbytery and Conference.—In May an important conference was convened of all the workers in the Tabriz and Salmas fields. In all, about 30 Christian workers were present, including Americans, Armenians, and Nestorians; missionaries, native preachers, teachers, and colporteurs. The first object of this gathering was the constitution of a new Presbytery, in connection with the Syriac-speaking Synod of Oroomiah. By invitation, Dr. Shedd, the Moderator of that Synod, and Pastor Shimoon, an ex-Moderator, and a most judicious counsellor, were present to assist in the deliberations. The necessary preparatory steps were taken. Messrs. Wilson and Mechlin

ask to be dismissed from the Oroomiah Presbytery, connected with the Synod of New York, to this new Presbytery; and the native ministers get leave to withdraw from their Presbyteries in Oroomiah for the same purpose. The Synod of Oroomiah was asked to recognize the new organization. Their approval is mentioned in the report of Oroomiah Station.

The Presbytery thus constituted examined and licensed four candidates for the ministry, graduates of the Tabriz Theological School. They approved themselves well to the Presbytery. The addition of these young men to the working force of the station was a great

satisfaction to all.

Another measure considered by the Presbytery was the formation of a standing committee of missionaries, native ministers, and laymen for the supervision of the evangelistic and educational work throughout the field, on the same general basis as that of the Synod's Board in Oroomiah, which has operated there to so good advantage

these several years past.

Popular meetings were held in connection with these business transactions, in which teachers and other workers took part. Some well-prepared papers were read and discussed, and various practical questions affecting the well-being of the church and the schools were considered quite fully. Devotional exercises of an excellent spirit were interspersed. The effect of the conference, as a whole, was very helpful. Of course, the irrepressible subject of a rise in salaries had to come up, and, as at the other stations, the clamor was loud for an increase. But on this, as on other topics, where diversity of sentiment existed, good feeling prevailed. No race friction was visible. The communion service held on the last Sabbath during the conference was the largest in attendance ever held by Protestants in Tabriz.

The Girls' School.—Mrs. Van Hook had charge of the school until the middle of June, when she left for America. It then passed under Miss Holliday's care. Cholera here, too, frustrated well-laid plans for its early reopening. In August its premises were surrendered to the charge of Dr. Bradford for the reception of a few cholera patients, and the fragment of the girls' school found a temporary lodgment in the Boys' School building. Six weeks later, "we returned," writes Miss Holliday, "with hearts full of thanks-giving to God for our preservation, an unbroken band, to our own home." Study was not resumed until October 3, and then with fewer scholars than usual. Twenty-two boarders and four day scholars, all Armenians, are reported. A part of the time lessons were given outside of the school to the daughters of a wealthy Moslem family, with a full understanding that Bible lessons were a part of the course. It is altogether probable that, but for the interference of the government, very many intelligent Moslem families would gladly avail themselves of such opportunities for the education of their daughters.

Owing to the violent opposition of the Armenians, and to some special trials with the older teachers, the school has not had smooth

sailing altogether since the new term opened. Miss Holliday concludes her report by saying, "We have, however, many causes of thankfulness in our preservation from disease and death, in the ability to carry on the school though crippled by the loss of two prominent teachers, in the helpfulness of the older girls and their general good spirit."

Medical Work.—Dr. Vanneman's practice has about doubled over that of the year before, as shown by his statement of prescriptions put up, calls made, and the financial receipts. This is encouraging in view of all the opposing currents which missionary operations of

every sort have encountered during the year.

Dr. Vanneman mentions some of the peculiarities attending medical practice in Persia, which a wise, tactful practitioner reluctantly accustoms himself to. He writes: "A medical visit in Persia quite often means two or three hours of one's time. In the homes of the better class tea must be drunk and conversation indulged in before seeing the patient, and the same process is repeated after the patient has been seen and examined. To hurry and be off would be to leave the impression that you had neglected the patient, or that you did not wish to be sociable."

During the cholera onset it was thought advisable by the station that Dr. Vanneman should remain with the families who went to the mountain side. Even there the fell disease showed itself and Dr. V.'s

services were of much importance.

Five medical students were under the doctor's instruction a part

of the year.

Dr. Bradford spent three weeks, in April last, in visiting the three outstations on the shores of Lake Oroomiah. She was warmly received everywhere. Though in the month of Mohammedan fasting, the people flocked around her and listened to reading from the Bible, while their bodily ailments were also ministered to.

One or two incidents from Dr. Bradford's own pen are worth

quoting. She says:

"We spent four days among the Koordish villages. In the first one, the whole afternoon our room was filled with women. We prescribed for about thirty of them, and so many stayed several hours there was plenty of time for reading and talking. The next morning a Koordish sheikh sent a large escort to take us to his home. His wife had been a patient of mine in Tabriz the year before, and she gave us a most cordial welcome. I never was entertained in just such a home before. The lady broke her fast in order to eat with us on the same cushions, but their little companions, just as brightlooking, children of the same father but of an inferior wife, could only venture inside the room and sit near the door. The sheikh had no Bible, though he told me that he wished to buy one. A few days ago I received a letter from the lady saying our colporteur had again visited them, and that they were now in possession of a Bible.

"In striking contrast to this was the home in which we were entertained the next day. We went by invitation to a sheikh, who pro-

fesses to accept Christianity. We had not been there half an hour until he was reading to us a proof-text from the Bible. Only one wife presides in the home, and all his household seemed to be in accord with him in his belief."

Early in August the cholera made its appearance in the city of Tabriz, and Dr. Bradford began the treatment of cholera patients, and had more or less under her care for five weeks. The total number of cases personally treated by her was 104. Of this number 55 recovered, 21 died, and of 28 she had no knowledge. A few

extracts from her report will be read with interest:

"The wife of the Swedish missionary died during her husband's absence, and their three little children fell for a time to our care. When we heard of her illness, Yexabet, the wife of our Armenian pastor, bravely volunteered to go and take care of her. As soon as death released her from her task, she was herself stricken with the disease."

She eventually recovered.

"The day she was able to leave the house, two Americans, Mr. Theodore Child, correspondent for the Harpers, of New York, and Mr. E. L. Weeks, an artist from Paris, arrived in Tabriz. The former and their dragoman were both sick with cholera. We were glad to make them comfortable in the large, airy school-rooms. For ten days Mr. Child was very ill, but he afterwards improved very rapidly. At the end of three weeks they left for Teheran, seemingly with health fully restored. A thorough gentleman and scholar, Mr. Child won the respect of all who met him. It was with deep regret that we learned of his death, two months later, near Ispahan."

"As one by one our servants left us, either through fear or on account of sickness in their own families, Miss Holliday, with her efficient school girls, kindly provided for many of our necessities. She and Mr. Wilson were always at hand, ready in any emergency, and encouraging all by their faithfulness to duty. We were especially fortunate in being able to do good to some who had not favored

our work."

"By the middle of September this terrible disease had spent itself. In this city it had claimed perhaps 10,000 victims. The 91st Psalm had become precious beyond expression, as it had comforted us and

others day after day."

Outstations.—The reports from the three old outstations show progress, but it is slow. One new outstation has been opened during the year in the city of Zengan, half way between Tabriz and Teheran. It has a population of from 20,000 to 30,000, chiefly Moslems; many of them, however, belonging to the heretical and liberal sect of Babees. There are a few Armenians and Jews. Mr. Wilson and Dr. Bradford spent a week here on their way to Hamadan to attend the annual meeting of the East Persia Mission, They found the new and capable helper starting off with a school of 17, and the prospect of an increase.

Dr. Bradford was much impressed with the isolation of the Christian workers at these several outstations. She writes: "No one

really sympathizes with them, and often it must be many years of patient seed-sowing before any signs of a harvest appear. These lonely sisters of ours especially need our prayers."

Salmas.

Mr. Mechlin has been pretty much alone during the year. The

return of Dr. Wright will strengthen the working force.

The year under review has been an uneventful one, but not without encouragements. The preaching services in Haftdewan and the four outstations have been well attended. In touring among the villages also the audiences have been generally good. Still, it is not easy to get at the people. They are chiefly farmers. In summer they are busy with their fields. In the winter their houses are cold and uninviting. Sunday is the principal market day of the week, and the men flock early in the day to the market town of the district. This in itself is a most serious drawback to permanent im-

pressions from Gospel preaching.

The strong Armenian "Nationalist" movement in this province, which has caused so much disturbance the past two or three years, and prevented a quiet attention to spiritual truth, is reported to have largely subsided. The people are more friendly to the missionaries, if not yet more eager to listen to their message. Their confidence in their own deeds of merit as sufficient to win their way to heaven remains unbroken. They seem abundantly satisfied with this easy way, and care for no other. Sin is no burden to their conscience. They have only to do a kind act to the poor, and guilt is washed off their account. Naught but the Spirit of God can open their blind eyes to see their need of Christ's help and Christ's righteousness.

The Girls' School has continued prosperous under Miss Cyrene Van Duzee's charge. The number in attendance has been 15 boarders and 63 day pupils. One, who has been connected with the school for some time as pupil and assistant teacher, has shown encouraging devotion to the truth recently. Her parents have left the Armenian church and gone to the Roman Catholic. Great pressure has been brought upon the daughter to become a Catholic also. But she has resolutely withstood their threats and fair promises.

Miss Van Duzee must come to America for rest this year. has been continuously at work for fourteen and a half years without a furlough, and well deserves one for her earnest and devoted ser-She is happy in turning her work over to so competent a

successor as Miss McLean promises in every way to be.

Outstations.—The work in Oola, which is chiefly a Nestorian congregation, has a favorable history for the twelve months past. The pastor does good, honest service. Two new members have been received into the church, and one who has long strayed away has been reclaimed. Two others were expecting to unite at the next communion. In Kohna Shaher the Jews remain friendly and welcome the preacher to their homes for Gospel teaching.

brightest spot is Khoi. Twenty-five houses of the Armenian community are Protestants, and are in pretty regular attendance on the Sabbath preaching services. A church has been formed. To this four new members were added during the year, and two others are

on probation.

A cloud hangs over one of the church members—suspicion of a serious crime—but it has not been proven. Much good work has been put into this community the past year, both for Armenians and Moslems, and important fruit may well be expected to appear before long. The preacher in charge is an able and popular worker, and some of the volunteer laborers from Oroomiah have aided him to good purpose. All the workers in this field report abundant access to the Moslems, and much readiness to discuss religious truth.

Râbi Khoorma continues her visits among the women in the towns about, and meets with encouraging cases. She is particularly hopeful of a Moslem woman, who is at great pains to make oppor-

tunities for hearing the Gospel read and explained.

Village Schools.—Nine schools are reported, with an aggregate of 248 pupils. Two of them are schools for girls, with 63 in attendance.

Mosul.

This, our newest station of the West Persia Mission, has been sorely pressed from lack of the necessary missionary force to man it efficiently. Early in the year Dr. Wishard returned to this country, and later Mr. and Mrs. Ainslie came home for their regular furlough. Consequently Mr. and Mrs. McDowell and Miss Melton have been left altogether alone to meet the many and urgent needs of the field. Efforts to secure a missionary physician for this station have not yet been successful.

For the hot trying months of summer, when to remain in Mosul is full of peril for foreigners, Mr. McDowell took his family to Mardin, the nearest station of the American Board, while he returned to tour among the mountain outstations. So long as the missionaries here have no suitable residence of their own in the city, built in some more healthy part of the town, and on proper sanitary principles, there must be great waste of time and strength in fleeing from the hazards of life, which summer conditions in Mosul involve, to some distant retreat. The brethren plead earnestly for the means with which to begin building this year houses for themselves.

For fifty years Mosul has been considered a strategic post from a missionary point of view. Heroic efforts have been put forth to plant a station there, looking to the Syriac and Arabic speaking populations for whom it is a centre. The story of saintly lives sacrificed in devotion to this consecrated enterprise is full of pathos and inspiration. The importance of the place as an outpost for the Gospel does not grow less by the delay of the Church to occupy it efficiently. As the seat of a great Roman Catholic Propaganda, year by year becoming more and more aggressive, and threatening to engulf the remnants of the non-Catholic churches in all that

region, it appeals to our Protestant Christianity as a place to be strongly held. The year past has witnessed a bold, determined stroke on the part of the Romanists of Mosul to secure the adhesion of the Patriarch of the Eastern Syrians, commonly spoken of as Nestorians, to the Papal See, with as much of that ancient church as could be induced to follow him. It would have been a great victory for the Romish propaganda had their plans succeeded. We have reason to believe they were frustrated by the timely visit of Mr. Coan at the residence of the Nestorian Patriarch, as elsewhere related. To counteract these movements of the wily Church of Rome, it is essential that our missionary force on the western side of the mountains should be a vigorous, aggressive body. The station should be fully manned at all times, lest overworked missionaries succumb under the trying conditions of the bad climate. Nor is it simply to defend threatened portions of non-Catholic churches from Romish encroachment that this station is important. The short residence of our missionaries in Mosul and their necessarily restricted operations, have already developed a decidedly friendly disposition among the Chaldeans on the plain of Mosul to leave the Papal Church, to which they have been attached by force rather than by love. Mr. Ainslie writes with particular interest of the large and important town of Elkosh. It lies about 25 miles north of Mosul; it is the seat of a famous Chaldean monastery, and an active centre of Roman Catholic influence. Says Mr. Ainslie: "This was formerly a strong Nestorian village, but the priests were duped into becoming Roman Catholic, and their congregations were compelled to follow them. This, in fact, is the general condition of the villages on the plain of Mosul. Most of the men are at heart Nestorians, and are only kept in the Roman Catholic communion by fear of the priests. We are putting the Bible into these villages as fast as we can, and it is doing its work, making the people restive under the rule of their priestly masters. If we can get a hold in Elkosh it will be a great victory in all that region. Two years ago one of our preachers was driven from that village with great violence, the priests and people taking away all his goods and pelting him with stones as he ran. Since that time I have been in that village, and had the pleasure of giving a Bible lesson to a good crowd of hearers. Now they are coming and asking for a preacher and The prospect is favorable for our opening a school in that village. In the face of determined opposition, which went at one time to the extent of threatening the life of the missionary, we have got a strong hold in Telkeif, one of the largest and most important of these villages." There is now in this same village an evangelical church, and an earnest spirit of inquiry prevails.

The signs of the times all point to a deepening interest on the part of the Papal Chaldeans in the Gospel pure and simple, and in their growing independence of ecclesiastical rulers. In the city of Mosul the indications are favorable. Among Chaldeans and Jacobites a new interest in Bible study is apparent. The Church in the city is taking hold well to work with Mr. McDowell in the open

field around them.

An encouraging meeting of the native presbytery was held last spring in the city. In the outstations on the plain of the Tigris here represented there was the assurance of growth and increasing spirituality. The noble little church of Hassan, which has, out of its deep poverty, done liberal things towards the support of its pastor, reports itself for the first time in many years with an abundant harvest. The church in Monsoreegah, under the lead of its zeal-

ous pastor, is making continual increase of membership.

In the mountain districts, so far as heard from, there has been a slight gain. Dihi, once entirely a Papal community, is now almost wholly Protestant, and the Protestants are of a robust type. Though without a pastor, their church work goes on with regularity, their numbers increase, and they have triumphed over many and serious obstacles, building themselves a church, the mission granting them some substantial assistance. Sixteen have united with the church in this place during the year. The lawlessness and turbulence of the independent tribes of Nestorians are not favorable to the progress of a Gospel of peace. But we look forward to the time when those daring spirits will bend their necks to the true Gospel of the lowly Nazarene, and then will become doughty champions of the truth, and the world will see a sweeping triumph of a pure and aggressive church. Certain signs make it seem possible that this crisis may not be far distant. Dr. Shedd writes from Oroomiah: "It seems to me that if matters run on a little further as they are running, we may have all the mountain valleys looking to us for light, just as the Nestorians of Oroomiah gave welcome to missionaries 50 years ago. It will not be one village here and there, but the people en masse of a hundred villages. If we are wise to see the chance and to accept the opportunity, and if we are ready to take up the burden of education and the expense, we may have this work, if God so will."

Educational.—There are three boarding-schools under the care of this station—two of them being in Mosul and the third in the mountains. The Mosul boys' school reports 23 students, most of whom are from the mountain villages, but some few from the villages on the plain. The girls' school had just 12 pupils, under the care of Miss Melton, divided into three classes of four each. The Mountain High-School in Tiary has been full, the number being limited to 15 for lack of room, though many others have applied to be admitted. As an experiment, it is pronounced by Mr. McDowell

a success.

This station has also provided teachers for seventeen day-schools, most of them located in the villages. These were attended by 165 boys and 35 girls.

SIAM AND LAOS MISSIONS.

Siam Mission.

BANGKOK; on the River Meinam, 25 miles from its mouth; occupied as a mission station, 1840 to 1844, and from 1847 to the present time; missionary laborers—Rev. Messrs, E. P. Dunlap, J. A. Eakin, J. B. Dunlap, F. L. Snyder, A. W. Cooper, and their wives; Miss Edna S. Cole, Miss Elsie J. Bates, and Miss L. J. Cooper; one native licentiate preacher; eight native Christian teachers, and ten other helpers.

PETCHABUREE: on the western side of the Gulf of Siam, eighty-five miles southwest of Bangkok; occupied as a mission station in 1861; missionary laborers—Rev. and Mrs. W. G. McClure; Walter B. Toy, M.D., and Mrs. Toy; Miss Annabel Galt; seven native teachers, and six other helpers. *Outstations:* Bangkaboon, Paktalay, Tharua Banphai, Ban Laam, and other places.

RATBUREE: occupied as a mission station in 1889; missionary laborers—James B. Thompson, M.D., and Mrs. Thompson; Rev. and Mrs. Chas. E. Eckels; one licentiate; two native teachers.

In this country: Rev. and Mrs. E. Wachter, Dr. and Mrs. Jas. B. Thompson.

The east and west have at last met in Siam. The English capitalist and the Chinese laborer are combining to introduce modern buildings and machinery. There is a desire on the part of the rulers for improvement as far as it relates to material things, while the people of the country have neither disposition nor aptitude for change. Methods of a thousand years' standing are not to be supplanted in a day. The new railway from Bangkok to the Korat Mines will soon be running sixty miles to the city of Ayuthia, some years ago a sub-station of Bangkok, but which has not been worked from lack of laborers. The little company of believers there will be glad to receive more frequent visits from the missionaries in Bangkok, thus brought within a few hours' ride.

Notwithstanding these outward developments there still remain eight million people within the bounds of this little kingdom unevangelized, who depend chiefly upon our church for a knowledge of the Way. The country seems open, and we have already some evidence of the work of grace in the *four hundred* church members connected with our mission.

The past year in the mission has been one of internal growth and preparation. The missionaries sent out two years ago have been compelled, by the crippled state of the mission force, to fill the vacancies caused by the death or retirement of their predecessors. After a detention in this country to build up his health, the Rev. E. P. Dunlap, who with Mrs. Dunlap has devoted eighteen years of his life to the evangelization of Siam, has entered upon his labors there for the third time. Miss Cole, who was delayed in Japan by sickness, has been welcomed back to her place as Principal of the Wang Lang Girls' School. We are sorry to report that Dr. Thompson, after much patient effort to continue his work at Ratburee, has been compelled to come home for a year's furlough. Mr. Eckels has been transferred

temporarily to take charge of the work of that station until reinforcements arrive. Among the events of the year in the mission circle are the marriage of Miss Parker to Mr. Cooper, in April, and of Miss Margaret Galt to Mr. Eckels, on Thanksgiving Day.

Bangkok.

Bangkok, the capital and chief city of Siam, has a population of 700,000. The mission has been working there for over forty two years amidst all kinds of discouragements, but the missionaries have never lost hope, and have never doubted that the seed sown in tears and in weakness would yield a goodly harvest in God's time. Each year's report rings out the same clear call to continue the work there. This year there has been a marked improvement in the visible results, there being 24 additions to the Bangkok churches upon confession of faith,

The First Church at Sumray, which reported last year only one accession on confession of faith, this year has received seven from the Boys' School. Preaching has been maintained throughout the year by Mr. Eakin. The Sabbath-school, under Kroo Pahn, one of the teachers in the Sumray High-School, has been very prosperous, having an average attendance during the school term of 110, with an enrollment of 140. Mrs. Eakin has conducted a Sunday afternoon Bibleclass, with 15 to 20 women present.

The Second Church at Wang Lang has been in charge of the Rev. John Carrington, Agent of the American Bible Society, who formerly was a missionary of this Board. When not touring, he has preached alternately with Kroo Yooan, a native licentiate. Four were added to the church on confession of faith. Miss Cooper has superintended the Sabbath-school composed mostly of girls from the Wang

Lang School.

The preaching and Sabbath school services were resumed at Ban Mai in August, under the superintendence of Mr. Cooper, with an average attendance of 25. Mr. and Mrs. Snyder have held a Sunday-school in the basement of their own house, with an attendance of 13 scholars from the neighborhood, who have from the first been trained

in systematic giving.

Tours.—In addition to the regular preaching and Sabbath-school work some touring has been done. The longest and most interesting was a three weeks' tour of exploration down the Gulf Coast by Mr. Eakin, accompanied by Mr. Eckels, of Petchaburee. They made the journey in a small mail steamer, visiting Bangtapan, Choompown, Chaiya, and Koh Simooie on the way. Their objective point was Nakawn, a city with a population of about 10,000. They reached this place after four hours' ride up the Nakawn River in a small boat, and were greeted on landing by the postmaster, who took them to the house of the acting Governor in a dog-cart. Here they were received and entertained as friends of the Governor, who lives in Bangkok. Mr. Eakin writes:

"We soon found ourselves in a large, airy room prepared purposely for us, and provided with all the furniture that was necessary, and orders were given

that meals should be served for us until our own provisions were brought up from the steamer. Such entertainment takes away somewhat from the romance of touring, but in this case, when Mr. Eckels took fever, we were thankful for so comfortable a place to stay. Assuring the Prapalat, or Acting Governor, that we had no connection with the Government, but that our sole object was to see the country and teach the Cristian religion, we inquired for Nai Kurt, formerly a candidate for the ministry. He sent for him, and when he arrived, he not only readily fell in with all our plans, but was forward to suggest methods of reaching the people to advantage. Before leaving, we talked with him about engaging in mission work, but he said his business and family affairs would not permit him to do so, but he was willing to act as a lay-worker, without pay, and do what he could to preach the Gospel and to teach the native Christians in Nakawn and the vicinity.

"On Monday evening we had a magic-lantern service on the Governor's veranda, at which about 500 people were present, who listened with interest to the story of Jesus. The next day several persons asked me to repeat the exhibition, and I obtained permission from the Prapalat to do so. Those interested informed the people, and by half-past seven the yard in front and the adjoining garden were crowded, besides many seated on the veranda in the rear

of the screen. It is estimated that there were 1,500 present."

Mr. Eakin and Mr. Eckels also visited a village on the coast, called Pakpanang, where there were some church members who talk of putting up a chapel. At this place they held five services in one day. One of the services was held in a Chinese temple, and the priests in charge invited them to preach. After the preaching, they sold out their small stock of books, and the people grumbled because there were not enough for all. While at the Governor's house they had many religious conversations with the Prapalat, who seemed impressed. They think the province ripe for the Gospel. On the way back they stopped at Bandon, where there are also quite a number of church members. About 700 portions of Scripture were disposed of on the tour.

Mr. Snyder reports several short tours during the year, one of which was to the old capital, Ayuthia, sixty miles north of Bangkok. During these tours he sold more than 500 copies of portions of the

Scriptures.

Miss Eakin has been extending her house-to-house work, visiting the houses of the pupils in the outside schools at Ban Mai and Dtalat Pblu. At Ban Mai she assists in the Sabbath-school, and teaches vocal music one week-day afternoon. A class of girls has been coming to her on Saturday afternoons to sew, and a class to study the Bible on Sabbath afternoons. She has sent three or four pupils to Wang Lang. She has as assistant now a very faithful girl who was at Wang Lang eleven years, and has lately been in Chieng-Mai.

Educational.

Our mission schools are coming into public notice. In the late issue of the Bangkok Times there was quite an article upon the educational situation in Bangkok. In comparing the value of the work done by the various schools—Government, Catholic, and Presbyterian—the editor gave the palm most decidedly to our mission, commending especially the thoroughness of the work.

The Boys' Christian High-School, under the care of Mr. Eakin and Mr. Cooper, has made marked progress during the year, both in attendance and organization. The total enrollment was 141, with an average of 81 present during the year. Three have graduated. Mr. Cooper has organized a literary society for the students of higher grades, which it is hoped will be of great benefit in developing the power for independent thought among the Siamese young men. religious side of the work is very encouraging. During the last nine months 7 of the most promising students have been received into the church on confession of their faith, and 3 more have intimated their desires in that direction. Others still are hopeful. A boys' prayermeeting has been organized especially for new converts, and meets every Sabbath afternoon to pray especially for the unconverted. Three of those thus prayed for are desirous of uniting with the church. It is expected now to enlarge this prayer-band into a Young People's Society of Christian Endeavor. A primary department is much needed in this school, which is already overcrowded. Mrs. Eakin has rendered efficient aid in caring for the sick among the students, and Mrs. J. B. Dunlap has given weekly instruction in vocal music.

The Wang Lang Girls' School ended its first term this year on March 23d, when a public examination was given, attended by American and other friends. This school has been crowded to its utmost capacity throughout the year. The second term began with 15 new pupils, 11 having left during the year. The total enrollment was the same as last year, with an average attendance of 26-22 of which paid in full. Miss Parker having been married during the vacation in April, the work of the school devolved upon Miss Cooper and Miss Bates, the latter of whom had only arrived in December, and should have been allowed to devote a large part of her time to the study of the language. The close of the year has welcomed back Miss Cole to take charge of much of the work, thus relieving the other ladies to complete their studies of the language under more favorable conditions. In the sewing-class the receipts have been greater by \$120, silver, than the expenses. The course of study has been improved, and written examinations have been held in all the classes above the primary. At the communion service, in November, 4 of the girls professed their trust in the Saviour, and were received into the church. These are the first additions from the school proper in over two years, though two former pupils have been received during that time. Two of these young Christians are daughters of a Laos King of Luang Prabang, a province far north of Chieng-Mai, and as yet unreached by Christian teachers, except, perhaps, in touring. They will have no one at home to aid them in their new life; yet we hope that they will meet no serious opposition. But they seem to realize that they may have to endure and suffer for Christ, and are resolved to serve Him at all costs. Almost all the girls in this school are boarders, and with the teachers the family at the table numbers at present 44. The desks in the school-room are all in use, and the primary department, which recites up-stairs, is rapidly encroaching on the sleeping apartments.

The Day-School at Ban Mai, which closes its second year in May, has been unusually encouraging, being not only almost entirely self-supporting, but also having an average of 28 pupils, out of a total enrollment of 54, while the English studies have in some cases been exchanged for Siamese. This school has been conducted by a native teacher, under the supervision of Mr. Eakin, who has visited it weekly and examined the classes on completion of each course of study. A large class has completed the Peep of Day, and all the older scholars are studying the Life of Jesus, and the majority have completed the Child's Catechism, and have shown an interest in religion. Altogether, the outlook is hopeful that this work is meeting the great end for which it was established.

The opposition to the day-school at Dtalat Pblu has proved too great, the attendance falling from 11 to 5, so that it is likely to be discontinued for the coming year.

The Press.

The press, in charge of the Rev. J. B. Dunlap, has moved to larger quarters, and has been vigorously pushed. The growing constituency of readers in Siam and the diligence and energy with which Rev. John Carrington, representative of the American Bible Society, has been extending the circulation of the Scriptures among the Siamese, have necessitated greater facilities for publishing. The number of pages of Scripture printed to the middle of November, ten and a half months, has amounted to 2,000,000, and pages of tracts 2,300,000. The printing of an edition of 500,000 copies of I. and II. Kings, begun in 1891, has been completed. The new eight-page monthly Christian newspaper, The Daybreak, edited by Mr. Eakin, closes its first year with a paid subscription list of about 300. Its readers are scattered all over Siam and the Laos country. Among the books published during the year are Dr. Bradley's Life of Christ, which gives the substance of all the Gospels in a connected story. A Siamese arithmetic and a treatise on compound numbers are now going through the press. A second edition (illustrated) of 6,000 copies of Pilgrim's Progress, which was begun and completed within the year, is now on sale.

The colporteur work done by all the missionaries and the agent of the Bible Society on their tours, has resulted in the sale of a large number of copies of portions of Scripture and tracts.

Petchaburee.

In connection with the Petchaburee Station there are four churches, under the direction of Mr. McClure and Mr. Eckels, with the assistance of two native licentiates.

The First Church in Petchaburee has been under the direct charge of Mr. McClure. At the church services the envelope system has been introduced, and has greatly stimulated systematic giving. Sabbath-school and weekly prayer-meetings have been regularly held. The attendance has been small, consisting chiefly of those connected with the mission and the schools. The Sabbath-school had an average attendance of 42, and its contributions amounted to about \$32

In addition to the first tour which Mr. Eckels made in April with Mr. Eakin to the Gulf Coast, a second tour was undertaken by him a few months later. On this latter trip he took two native helpers with him, Kroo Yooan, a licentiate from Bangkok, and Pa Boon, a sort of colporteur and general helper. While on the steamer going from Bangkok to the West Coast, opportunity was found for a great deal of work among the passengers. Kroo Yooan especially occupied a portion of his time in talking to his fellow-passengers about the religion of Jesus, and many of them showed a good degree of interest. After they reached Nakawn he was tireless in his efforts, visiting almost every house. The stay was short-less than two weeks. Fewer books were disposed of than on the former journey, but more direct personal teaching was accomplished. They again visited Pakpanang, where they were cordially received by the native Christians, and while they did not dispose of so many books as on their first visit, they were able to speak to many who wanted to know more of the truth. Mr. Eckels has made a very modest report of his own work while there, but from what he has said of the work of the native helpers it would seem that the language of Acts v. 42 would be quite applicable: "And daily in the temple, and in every house, they ceased not to teach and preach Jesus Christ." Mr. Eckels also visited Pak Ta Lay four times, and Ban Laam six times. At these places the attendance and interest were small, though a few faithful ones are yet found. The Ban Laam chapel was recently destroyed by a storm, so that the services are now held in a private house. On all these tours the hearts of the native Christians were encouraged, and a great number of portions of the Scriptures and tracts were disposed of. Early in the year Mr. McClure made a trip up the Petchaburee River with Dr. Toy. were gone 11 days, proceeding by boat as far as Ta Yang, where a Sabbath was spent, and then by horses to a Karen village about 30 miles further, which had never before been visited by missionaries, and perhaps not by any foreigners. Mr. McClure writes: "My time has been much occupied with station duties. The regular work has required three more or less extended discourses in Siamese each week. I have made several visits to Bangkaboon, where we have a small church."

Educational.

The Howard Industrial Boarding-School for Girls was under the care of Mrs. McClure the greater part of the year. She was partially relieved by the Misses Galt, who have been diligently studying the language. It was conducted as a day-school throughout the year, it not being deemed advisable to open the boarding department until Miss Galt should be prepared to assume control. The few girls requiring a home were cared for by the Siamese matron. One Siamese teacher has been employed. There was an enrollment during the year of 35 scholars. The sewing class met regularly.

The *Boys' Boarding-School* was under the direction of Mr. Eckels, though his long absences necessitated its being several times placed under the supervision of Mr. McClure. The classes have been re-

organized to conform to the new course of studies adopted by the mission. The lessons have been entirely in the Siamese language. An advance has been made toward self-support in the collection of a small fee from each scholar. The enrollment during the year was 18, 10 of whom were in the boarding department. With these evening prayers have been regularly conducted, and one of the number, the oldest scholar, has been received into church membership. His example and influence have been good. Another boy of Chinese parentage applied for admission and has in consequence not been allowed to return to the school. He continues to read the Scriptures, and says he is trying to follow Christ. The boys hull their own rice, and take turns in the work about the kitchen and around the yard.

Day-Schools.—Five have been open part of the year. The attendance and work have been very unsatisfactory, owing to the want of suitable Christian teachers. Four of the teachers employed were women. The scholars were mostly girls, for which no schools are provided in Siam. With the proper Christian teaching and supervision, these schools might be centres of Gospel enlightenment. The total enrollment for the year was 85; average attendance very small.

Medical Work.

This department, being in the charge of a regularly qualified medical man, this year has been much more satisfactory. The number of patients has not increased appreciably, but more attention has been given to making known the way of salvation. In addition to the study of the language, Dr. Toy has done considerable toward improving the hospital. The main ward has been renovated and made more attractive. There were as many as 7 in-patients at one time. Several tours have also been made. The health of the station has been good.

Rathurce Station.

The year opened with Dr. Thompson and Mr. Cooper associated in the general work of this station. Mr. Cooper remained until the close of the school term, in March, and then removed to Bangkok to take up the work with Mr. Eakin of conducting the Boys' High-School. After his departure Dr. and Mrs. Thompson were both prostrated by sickness and removed for a time to Petchaburee. Mr. Eckels, Mr. Snyder, Mr. Eakin, and Mr. Carrington have all rendered more or less help in the work during the year.

There have been regular services on Sabbath throughout the year, conducted either by one of the missionaries or Tean Soo, a licentiate, besides services in the homes of Maa Same and Tean Soo. Mr. Eakin gave several magic-lantern lectures on the Creation and Life

of Jesus, and visited the families down the river.

The Surywongse Boys' Day-School has been under the direct supervision of a missionary during the year. Twenty-two pupils were enrolled. The attendance has varied from 9 to 17. At the closing of the March term a public examination was held, which was attended by one of the Royal Commissioners, Pra Song, who gave small prizes to

196 LAOS.

the pupils, which were awarded by a committee of judges, His Excellency expressing himself as much pleased with the progress of the students.

Medical Work.

The medical work began with a great many cases requiring treatment. Eight in-patients were received and cared for during the first four months. One of these who had been operated on has since been a frequent attendant on the Sabbath-school. Dr. Thompson's condition of health and Mr. Cooper's removal to Bangkok have made more aggressive work impossible until reinforcements are secured. Mr. and Mrs. Eckels have been asked by the mission to take charge of this station for the present.

Laos Mission.

CHIENG-MAI: on the Maah-Ping River, 500 miles north of Bangkok; occupied as a mission station, 1876; missionary laborers—Rev. Messrs. Daniel McGilvary, D.D., D. G. Collins, Stanley K. Phraner, Evander B. McGilvary, and their wives; Dr. and Mrs. James W. McKean; Misses Isabella Griffin, Nellie H. McGilvary, Margaret A. McGilvary, and Emma Hitchcock; Rev. Nan-Tah; 27 helpers; 18 outstations.

LAKAWN: on the Maah-Wung River, southeast from Chieng-Mai 75 miles; occupied as a mission station, 1885; missionary laborers—Rev. Jonathan Wilson, Rev. S. C. Peoples, M.D., and Mrs. Peoples; Rev. and Mrs. Hugh Taylor, Dr. W. A. Briggs; Miss Kate N. Fleeson, and Miss Annabelle King; 3 native helpers; 1 outstation.

LAMPOON: occupied as a mission station in 1891; missionary laborers—Rev. and Mrs. W. C. Dodd, Rev. Robert Irwin; 2 native helpers; 3 outstations.

In this country: Miss Kate N. Fleeson.

It is cheering to note that from our most remote mission comes the news of greatest triumph, emphasizing as it does that the servant of Christ is never far from his Master, that when He says "Go," He does not mean us to go without Him.

The general work of the mission has progressed most hopefully, notwithstanding the famine that visited the land. Last year the churches reported a total membership of 1,116; to this number have been added during the year, 299 on profession of their faith. The spirit of spreading the glad tidings and of personal work has characterized the Laos Church.

During the past year the mission was reinforced by the arrival of Miss Hitchcock and Miss King. The general health of the station has been good, with two exceptions; Mr. Phraner and Dr. McKean were both seriously ill for a time, causing the members of the Chieng-Mai Station great anxiety. Mr. Phraner was compelled to take a vacation in order to regain his health, by making a tour to Java. The other changes in the mission circle were the marriage of Mr. Phraner and Miss Westervelt, and the return of Miss Fleeson to the United States for rest and change of climate.

Chieng-Mai.

This station has both lengthened its cords and strengthened its stakes during the past year. A Mission Press building of teakwood, 16 x 50 feet, roofed with tiles, was erected under the direction of Mr. Collins, and an old press, brought from Siam, was set up. He reports the printing of an edition of a twelve-page tract by Mrs. McGilvary, explaining the essence of Christianity, and Letters from America, by Semo, a Laos boy, besides outside work, for which the receipts for the press work alone were about \$200. The fact that while hardly one out of ten in the Laos villages can understand Siamese, there is in nearly every family some one who can read Laos, makes it very important to give the people books printed in their own language. Already these tracts have had a wide distribution.

There have been two schools in successful operation this year, although the prevalence of small-pox necessitated an early closing of both schools the first term, and the suspension of the girls' school the middle term.

The Chieng-Mai Boys' School has had a larger number in attendance than ever before. There were 70 pupils the first term and 79 the last; the total number enrolled being 105. Of these, at least two-thirds have been boarders. The average daily attendance is improving from year to year. The increase in the number of pupils during the year has necessitated an increase in the teaching force, 3 natives assisting Mr. and Mrs. Collins and Miss McGilvary. The progress made by the pupils in their studies was satisfactory. Of the boys in attendance, 35 were church members, 4 having united with the church during the year. We would urge here the necessity of having an enlarged building for school purposes next year. The growth of the school imperatively demands it.

The Chieng-Mai Girls' School has held two sessions together, lasting seventeen and a half weeks. The first term 36 pupils were enrolled, the second term 67; total number enrolled during the year was 77. Miss Westervelt's connection with the school terminated with the close of the first term, and Miss Alice McGilvary took her place. The sewing and singing classes were under the charge of the Misses McGilvary. Of the pupils, 7 professed their faith in Christ during the year.

Medical Work.

The number of recorded cases treated has been about 4,500, while there were probably 1,000 more treated, not including the hundreds of cases treated by the missionaries in the course of their other work. A Kamoo, a patient of last year, has united with the church, and we trust he may be used as the bearer of good tidings to his race. Two tours were taken by the missionary physician, Dr. McKean, one of seven weeks to Chieng Hai, Chieng San, and into the Moosur district, during which, vaccination and civilized medicines were introduced among this tribe. The other tour was to Chieng Dow, lasting three weeks. The dispensary has long been self-supporting, and the past year it has been better equipped than ever before.

Evangelistic Work.

The First Church of Chieng-Mai, under the care of Dr. McGilvary and Mr. Collins, has been regularly ministered to by the ordained ministers in turn. The additions to membership on profession of faith have been 124, and by letter, 8, not so many as last year, but the decrease is due to the fact that the territory covered by the church is much smaller, owing to the organization of the new church at Lampoon. Ninety children have been baptized and 6 elders ordained. There has been a Sabbath school, conducted under the superintendence of Mr. E. B. McGilvary, with an average attendance of about 170 pupils. A teachers' meeting has been held every week. On Sunday there have been two prayer-meetings for women, and one, sometimes two, for men; while there are many other places within the borders of the church where weekly services are held. An interesting feature in church worship this year has been the monthly missionary sermon by Mr. Collins. Our elders and other lay evangelists have done good work, but in this department we have lost, to the gain of the new sister station of Lampoon. Almost every available elder and evangelist has spent many months in Lampoon under Mr. Dodd's tuition in theology and under his supervision in evangelistic work within the bounds of his station; we have thus had very few lay workers during a large part of the year. Rev. Nan Tah has taken several tours of considerable length, often going where and when foreigners could not go; and wherever he has gone, he has gone with the fullness of the blessing of the Gospel of Christ. His efficiency increases every year; his tact in dealing with his race is well-nigh infallible, and there are scores of souls who owe either their knowledge of Christ or their building up in the most holy faith to his unceasing diligence in his work.

The Maa Dawk Dang Church, under the oversight of Mr. Phraner, has enjoyed a large increase. Mr. Phraner's regular attendance at this church, about twelve miles distant from his home, has proved a rich blessing to his charge, and it was a matter of great regret that he was interrupted by sickness in the midst of his successful labors. There have been 41 adult accessions, 26 children have been baptized,

and 5 new elders and 2 deacons have been elected.

The Bethlehem Church, under Mr. Collins' charge, reports that 5 have been received on profession of faith during the year. Two new elders have been elected and will be ordained next month. While there have been but few accessions to the church roll, there has been an earnestness of spiritual life, as is shown by the fact that there were only two persons in the bounds of the church who have not been faithful in attending all services. This church furnishes some of our best evangelists.

Chieng Dow.—A tour of three weeks was taken by Mr. Collins and Dr. McKean, accompanied by some elders, to Chieng Dow, 60 miles up the river. They found that in this district work had been carried on by the resident Christians. There were about 12 applicants for baptism, but owing to the prevalence of small-pox and famine, only 4 received baptism. The organization of the church was postponed till the coming year. Since their return two elders have been sent up to carry on the work. The latest reports show that there are now 49 persons awaiting baptism.

The most important as well as the longest tour of the year was made by Dr. McGilvary, lasting some five months, during seven weeks of which he was accompanied by Dr. McKean. Dr. McKean writes:

"We left Chieng-Mai January 5, 1892. By evening of that day we had entered the mountains, and for the next three or four days our way was over mountains, through mountain passes, crossing mountain streams, one of which we crossed more than 40 times in a single day, until we had passed the watershed between the Ma Ping and the great Cambodia. The third day out we came to a village where lives one Christian man. How rejoiced we were to find him steadfast in the faith, in the face of quiet yet sometimes painful persecution.

Pa Pow Church.—"At the end of four and a half days we reached the Pa Pow church. Until our visit, there had been no formal church organization. Presbytery, in December last, appointed Dr. McGilvary and the elders who should accompany him a committee to establish a church at this place, if the way were open. We were glad to find the way open, and accordingly a church was organized with 37 adult and 29 infant members. Three elders and two deacons were elected, ordained, and installed. A week of prayer was observed at this place. I have never seen, and I believe that Dr. McGilvary would say the same, a more hospitable and apparently pious company of Christians in this land. This church is located about two miles from the city of Pa Pow. The Governor called on us and was very friendly. But he still persecutes the Christians by requiring them to observe the Buddhist holy days, and by compelling them to do Government work on the Christian Sabbath."

"Maa Con was the next point of interest. It was about two days' travel from Pa Pow. It was from this place that Dr. McGilvary went into the mountains last year to visit a Moosur village. The Moosurs live in the mountains, coming down into the plain only to trade. Their form of government is patriarchal. They are considered by the Laos to be a very honest, upright people. Their chief vice is opium smoking. In this village there were 22 persons last year.

The two fathers seemed to embrace the Gospel from the first, and after three months of instruction were baptized. One of these men was a confirmed user of opium. From the time he became a Christian until the present he has not used opium at all. What was our joy on visiting them in their mountain home to find them all diligent and faithful in study and worship, and to find that they all desired to be baptized. Although there are but two families, they have built a chapel at their village for their daily use. On Sabbaths they go down to the plain to worship with the Laos Christians at the chapel in Maa Con. We visited them on Saturday. On Sabbath, of the 23 persons now comprising the families, 22 were present. Two were baptized last year. Of the remaining 20, 7 children received infant baptism and 13 adults were received into full church membership. The women and children do not speak Laos. I have never seen a grander sight than that of these 20 persons; standing up to receive the seal of God, the patriarch of the village acting as interpreter between them and Dr. McGilvary. It was a day of high privilege. Their Laos neighbors report that during the past year they have been very diligent in observing to do all they ought to do so far as they understand it. Their building their own chapel, which is much the best house in the village, was their own motion. So important do they consider the observance of the Sabbath day that they have prohibited their Moosur friends from visiting them on that day. Cha Boo Kaw, the head man of the village, is a very intelligent and an exceedingly serious and thoughtful man. He speaks Laos quite well. From this point on Dr. McGilvary determined to take him along to assist in future work among the Moosurs. I should say that the Moosurs are not idolaters. But they are spirit-worshippers. Theirs is not a written language. is a tone language and monosyllabic, and I believe all their words and tones might be expressed by the use of the Siamese letters.

Chieng Hai.—" From Maa Con to the city of Chieng Hai, our next stopping place, is but seven or eight miles. Here we spent a week. We found all the Christians faithful, and they, with many outsiders, are very desirous of having a missionary among them. This city is the centre of a very large field, which is entirely open to missionary work. The country is not so populous as Chieng-Mai province, but is on the edge of the Moosur country, and is a point that ought to be occupied soon. The Government officials are very friendly, and would be very glad to have a foreigner among them. From Cheung Hai we went seven miles north to Yung Laa, a Christian village, and after making an excursion high up into the mountains to another Moosur village, proceeded to the city of Chieng Saan. Chieng Saan is the most northern point we have yet been able to organize a church. The little Christian community of 30 church members holds its faith and fights its battles with heathenism almost alone, 160 miles from Chieng-Mai, the nearest mission station. Three persons were received into full membership

while we were there."

Dr. McGilvary, continuing his journey, writes: "I confined my work chiefly to two mountain ranges, the one beyond Cambodia, at Chieng Saan, and the other west of Chieng Hai, as they are nearer the

Christian villages connected with our Laos churches, through whom a work among the Moosurs might be enlarged and rendered permanent." This people inhabit districts more or less extended reaching into China, having one language, and being descendants of a northern race once noted for its warriors. They are welcomed by the Laos as being fair in their dealings and industrious in their habits. "It would be difficult to find more consistent and zealous Christians than they are. Their homes are neat, and they have a neat little chapel in which they daily assemble for worship. Cha Boo Kaw, our first convert from this interesting people, who was baptized a year ago, proved to be an admirable assistant and interpreter, and is now, though 70 years of age, a member of Mr. Dodd's training class, while his nephew has entered the boys' school at Chieng-Mai. If a station were opened at Chieng Hai and an adequate force sent to man it, a grand field would be opened for evangelistic work. The results would not be doubtful nor the fruit long delayed. The sowing and the reaping would be simultaneous." With a church membership already within easy reach of this centre, in a short time every village might know of Him who came to be the light of their homes.

Lakaren.

"The outlook in Lakawn is intensely interesting and most encouraging. The past year's work has had its share of harvesting. Thirty adults have been baptized. Reports have come of two large villages studying our books under the leadership of their own chief priest, with the hope in view of becoming Christians. A village some four miles north of these had a conference with their village officers about coming over to Christianity in a body. This makes a third village. Dr. Peoples has also been to the head priest of a temple, two days' journey from Lakawn, who was very sick. He succeeded in relieving him, and wrote back that the interest was so great he could not get away. After returning to Lakawn, he went back to this village for another visit of two weeks. Moung Nyow is a district we have been trying to reach for two years. We have one Christian there. Last Saturday he came in, bringing quite a large delegation with him, for the purpose of studying under us with a view to baptism. One of the helpers related this evening in the prayer-meeting, that he stopped at an out-village, and to his surprise, when he began to tell them about the Saviour, he found they already knew and were firm believers,"

The mission calls very loudly for a new station at Muang Pra, to the southeast of Lakawn, as great interest in religion is likely to follow there in the trail of the famine and the relief which has been

furnished them by Christian people of another country.

Educational Work.

The Girls' School was opened only four months at the beginning of the year, with 15 boarders and 4 day scholars, since Miss Fleeson's return to America. The Boys' Boarding-School opened this year with an enrollment of 29, which gradually increased during the second term to 63, owing perhaps to the advantages they were under

in receiving food during the protracted famine period. It is hoped, however, that this may show them the advantage of a Christian education, and that they may be more desirous in the future to avail themselves of those advantages. Four of the boys have become professing Christians, and are leading exemplary lives. One of these is especially active in Christian work. This, being the first fruits of the school work, gives us cause for deep gratitude and encouragement.

Medical Work.

Dr. Briggs reported that "during the past year over 3,000 out-patients have been treated at the dispensary. About one hundred patients have been treated in the hospital during these twelve months. The large new ward, No. 1, has never been empty during this time, although at one time owing to the death of one of the patients, every other patient except one left without a moment's notice. As many as twenty have occupied this ward at one time. The ward is intended to accommodate sixteen individuals. A good-sized native house has been used as a woman's ward; there being as many as ten occupants at one time. Another large native house (referred to under the head of famine work) has given accommodation to from five to thirty old women and children. In all, while the famine was at its worst, there were sixty-eight persons occupying ward No. 1, three native houses, and one small booth. Ward No. 2 is now completed. It is to be a woman's ward. It is built to accommodate ten patients. A children's annex and a surgical ward we hope will follow during this coming year. The medical work done by Dr. Peoples while touring was the means of saving many lives by the timely use of medicines, often as many as sixty persons being treated in one day. The value of these labors cannot be overestimated. Although this year some two months and a half were thus spent, yet it is Dr. Peoples' hope that as the station work becomes more settled he will be able to devote a larger proportion of his time to this medical evangelistic work. During six months of the year we have had a regular medical evangelist. present evangelist is a blind man who became a Christian while receiving treatment from Dr. Peoples years ago. He was placed for some months in the Lampoon Training School and then appointed as the medical evangelist. As a direct result of his labors we have good reason to believe some nine persons have found refuge in Christ, seven of whom have been baptized during the present year. Very few come to us who are not spoken to individually and receive some teaching regarding the Gospel."

Famine Relief.

Early in the year news came to the Mission House of a severe famine in Laos. Harvest was past and almost nothing had been reaped; everything had been eaten up and the people had to face ten months of suffering before they could expect to raise any new crops. In many cases even their seed-rice had to be eaten to satisfy their immediate wants. Upon receiving the news the Board authorized the treasurer to telegraph the sum of \$500 to be expended in furnish-

ing immediate relief to the sufferers, the amount to be refunded from the proceeds of a public appeal to be made for help. The Lakawn district was the centre of the area of greatest distress. The condition two months before the harvest is demonstrated by the fact that rice sold at about 12 cents per pound, i. e., at three times the normal price. The common people were entirely without resources. They had neither cattle, rice, nor money, and had borrowed so much that many had to retire into slavery. On the receipt of the first cablegram announcing the gift of \$500 two relief committees were appointed, one to purchase and distribute the seed-rice and the other the food-rice. Rice was bought in Chieng-Mai and conveyed overland by cattle, while a larger amount was sent around by river boats, amounting in all to 2,970 baskets, while 2,000 more baskets of rice were bought in Lakawn. Seed-rice also was secured to the extent of 750 baskets, and distributed among about 500 farmers, most of whom had nothing. besides that received from the committee, with which to begin a new year's planting.

The committee on food-rice had to confine their gifts to those who were really starving; all able-bodied people had to work; only widows with young children, the sick, aged, blind, and maimed received rice free. Rice, not money, was given, excepting in extreme cases; the condition, not the class, decided the question as to who was to receive aid. Heathen and Christians, slaves and freemen, all were treated alike. No money was loaned. At the city itself a rice kitchen was opened where 500 persons were fed daily. In all 50,000 meals were given. A temporary home had to be opened for some of the women with little children. Villages were visited by the missionaries not on the committee, and many aided who could not leave their homes. In September word came from Praa that the destitution was terrible; and a relief expedition was immediately put in motion, one of the missionaries going to that place, taking with him a large amount of rice and money. Tickets were distributed so that the people could go or send some one to carry rice on their shoulders from Lakawn to Praa. His Majesty, the King of Siam, has sent grateful acknowledgments for his people to the American Mission in Laos. The report should not close without acknowledging the liberal donations to this cause from those who have made special offerings in this country, which, with \$1,000 pledged at the Northfield Conference, amounted to \$8,727, as well as of the generous aid rendered by foreign residents and missionaries in Siam and Laos.

Lampoon.

Our infant station in Laos was opened by Mr. and Mrs. Dodd in December, 1891; hence, was but little over one year old when the present report was written. Its occupation was not the mere garrisoning of a fort to hold a position, but a vigorous, progressive campaign. Consider what it means, after a number of preliminary skirmishes by the missionaries and native evangelists, to be able to open a new station with 121 church members, formerly connected with the First Church of Chieng-Mai. The year has been crowded with such a variety of duties devolving upon the missionaries that it has been almost

impossible to tell it all. The building of a missionary residence and fitting up other houses for the training-school and church meetings, pastoral duties, evangelistic teaching, medical and famine relief work,

have given little time for writing letters and reports.

Church.—The new church at Lampoon began the year with 121 church members and has added 72 during the year on profession of their faith, 65 of them being by baptism, a gain of 60 per cent. It is hard for us to realize what it means for 72 men and women, in a heathen country, to stand up and confess Christ as their Saviour and God. The report says that five new villages have been added to the church roll. Each one of the 191 church members at Lampoon is bearing witness in some town or village that is to be a new radiating point for the light of the Gospel. Over 20 villages are thus related to the focus of work at the training-school and church at Lampoon.

The Lampoon church has started out on the principle that every member must do some active work for Christ. The Sabbath-school had an enrollment of 100, and an average attendance of 63. Evening prayers have been held daily in the chapel. The congregation has been districted among the elders, and thus every village has been visited during the year. Regular services have been maintained in three remote villages, and preaching conducted alternately on Sabbath afternoons in several villages near at hand. All the church officers have proved to be men of evangelistic spirit. Thus, a place which a few years ago received only occasional visits from the missionaries, has

become a strong evangelistic centre.

Theological Training-School for Evangelists and Elders.—With Mr. and Mrs. Dodd, this school was transferred last year from Chieng-Mai to Lampoon. It was feared that it might suffer a temporary backset in the transfer, owing to the fact that the former students had come from other districts. The interference of building, in addition to the hardship occasioned by the famine, has further tended to retard the work. Notwithstanding these obstacles, the enrollment for the year has increased from 35 to 47 students. Two terms, of two months each, were held. The students, representing three races, came from six provinces. A number of them were new converts, desiring to know the doctrine. Eight of the students have avowed their intention of studying for the ministry. All of the pupils, as well as the teachers, have engaged in evangelistic work somewhere every Sabbath, and nearly all make it a matter of conscience to do some personal work every day. It is one of the most practical theological seminaries in the world, the teachers and pupils being actually engaged in the work of preaching in the nearer villages during the term of study, and in the more remote villages during the vacations. A day-school with 16 scholars has also been maintained at this point by the mission.

Medical Work.—Mr. Dodd writes: "The developments of medical work have been successful beyond all expectations, and with our limited force and lack of all medical knowledge and training, it has gone almost beyond our desires. We have treated over 400 cases. Dr. McKean simply put up a few medicines carefully, marked with directions how and for what to give them. Gradually the practice grew.

until, by the early part of August, there were sometimes as many as 15 cases a day. The treatment of even a few cases a day was a tax upon us, who had the teaching to do and building to oversee. In August, Dr. McKean sent his native assistant, Kam Ai, to our aid. He has taken charge of the dispensing of medicines, and the work has rapidly grown, so that a total of nearly 1,500 cases has been treated during the year. A small charge has lately been made for medicines, covering the cost. So far as known, nine people have become believers as the direct fruit of medical work. Besides, it has done more than any other form of missionary work could have done in the same time in securing for us the favor of the princes and a hold upon hundreds of their people. All the principal Laos officials have applied to us for medicines, and the Governor has granted us a perpetual lease of a finely located piece of land for medical and religious purposes."

MISSIONS IN SOUTH AMERICA.

Mission in Brazil.

Bahla: 735 miles north-northeast of Rio de Janeiro; missionary laborers—Rev. and Mrs. Geo. W. Chamberlain; 1 native assistant and 3 colporteurs; 3 outstations.

LARANGFIRAS: north of Bahia in the State of Sergipe; Rev. and Mrs. J. B. Kolb; Rev. and Mrs. Woodward E. Finley; routstation: 2 teachers.

RIO DE JANEIRO: capital of the empire; population, 500,000; occupied as a mission station in 1860; missionary laborers—Rev. and Mrs. James B. Rodgers, and Rev. A. B. Trajano; 1 native licentiate, 1 colporteur; 2 outstations.

EAST RIO STATION, NOVO FRIBURGO: 60 miles east of the city of Rio; occupied as a mission station in (891; missionary laborers—Rev. and Mrs. J. M. Kyle; 1 colporteur.

SAO PAULO: 300 miles west-southwest of Rio de Janeiro; chief town in the State of same name; population, 70,000; occupied as a mission station in 1863; missionary laborers—H. M. Lane, M.D.; Rev. and Mrs. W. A. Waddell; Rev. and Mrs. F. J. Perkins: Miss Elizabeth R. Williamson; Miss M. K. Scott; Miss Clara E. Hough; Rev. M. A. Menezes; 18 teachers.

CURITYBA: about 500 miles southwest of Rio de Janeiro; chief town of the State of Parana; missionary laborers—Rev. and Mrs. G. A. Landes; Rev. and Mrs Thos. J. Porter; Miss Ella Kuhl and Miss Mary P. Dascomb; Rev. M. P. B. de Carvalhosa; I colporteur and 3 native teachers.

In this country: Rev. and Mrs. J. B. Kolb.

The death of the Rev. Miguel G. Torres, pastor at Caldas, closes the career of one of the most sincere and earnest men in the Brazilian church. He was one of the group of four young men who studied under the Messrs. Simonton, Blackford, Schneider, and Chamberlain, and that constituted the beginning of the native ministry. As a wise counsellor and Christian leader he was preeminent. His voice was always on the side of peace. He was chosen moderator of the meeting of the first Brazilian Synod in 1891. During his ministry hundreds were gathered into the evangelical church. He preached the Gospel over a large district of country and is the spiritual father of five strong churches. His works on "The Life of Christ," and "The Church of Rome an Obstacle to the Gospel," have had wide circulation, and have on the one hand opened the eyes of multitudes to the follies of Rome, and on the other held up the living Saviour as the only source of light and salvation. Childlike in trust, sweet in disposition, like Enoch he walked with God.

The mission force itself has been kept intact. There have been two additions by marriage. Mr. Perkins has secured as a helpmeet Miss Gertrude Storrs, of Hartford, Conn.; while Mr. Finley has been joined at Larangeiras by Miss Lilly B. Martin, a missionary of the Southern Presbyterian Church. Miss Baxter has gone out to teach in the Sao Paulo school. Mr. and Mrs. Kolb are taking a furlough in the United States after a full term of service. Mr. Porter has gone from the Sao Paulo school to Curityba; Dr. Cham-

berlain to Bahia, while Dr. Lane was left alone for a while during the absence of Mr. Waddell in the United States in the interests of the Sao Paulo schools, and of Mr. Perkins in consummating his marriage.

"Civil unrest, financial disaster, social and moral confusion and disorder," this is the verdict of one well acquainted with the state of things in Brazil. There is nothing new in this, however. The reports for years past have used the same words. "The wicked are like the troubled sea." Brazil needs something more than a Republican constitution to regenerate her manhood and raise her people to be self-governing and law-abiding citizens. Dr. Lane writes: "All the true friends of Brazil are filled with anxiety for the future and are praying that in the reorganization of the public schools a cause may be found to hope for better things and that by some Providential turn a course may be taken that will lead to the cultivation of a higher moral and more patriotic spirit among all classes of the people."

Rio de Janeiro.

This station, though the oldest and now occupied by a strong self-supporting church, owing to the extent and population of the city itself still presents a vast field for evangelistic work. Special preaching halls to secure audiences not obtainable in regular church buildings are necessary auxiliaries to any aggressive endeavors to

reach so large a population.

Mr. Rodgers, who is laboring here as the only representative of our mission in Brazil, has lately taken up his residence in one of the suburbs of Rio, holding parlor meetings and opening up halls similar to those of the McAll Mission in France for the wider diffusion of the propaganda. One of these places began with an audience of eighty and has developed into a steady congregation of about fifty, which has expressed the desire to unite in the support of a regularly organized church. The Petropolis, Ubatuba, Rezende, and Rio churches all seem to be in a prosperous condition, having had thirty-three additions on profession of faith during the year. An ex-priest, who was received as a candidate for the Gospel ministry two years ago, was lately ordained by the Presbytery of Rio de Janeiro, and promises to be a valuable acquisition to the ranks of the workers.

East Rio.

Since the opening of this station by Mr. Kyle, in 1891, meetings have been held in the German church and in parlors and halls. The people contributed for the purchase of lamps, so that the church might be open at night, and thus serve the double purpose of supplying a place of worship for the few German-speaking people of the city, and at other times a place for publishing the good news to the Brazilians. The parlor service which began with a few who desired to learn more of the Protestant teaching soon became so crowded that it was necessary to secure a hall. A Sabbath-school has recently been opened in connection with this new hall with a good attendance.

At Contagallo, a town in Mr. Kyle's district, much discussion in the newspapers has succeeded the preaching of a sermon by him some months since, in consequence of which there is quite a manifest interest in having him return to preach, and an invitation has been received from some of the most influential people to that effect. The Synod's Theological Seminary was located tentatively at Novo Friburgo, and the Rev. Dr. Smith, of the Southern Presbyterian Mission, has gone there to take charge.

Sao Paulo.

The churches in the field covered by this station have with one or two exceptions become fully self-sustaining. During the year just closed the churches at Botucatu and Sorocaba have assumed the entire support of their own pastors, and the Board has been relieved as well of the direction and support of the day-schools in five other places. Thus relieved, the mission is able to give its attention to perfect the schools in the city of Sao Paulo itself, from which must come the future leaders and supporters of the native church. As far as our work is concerned Sao Paulo is the educational centre. There are two homes or boarding halls, one for boys and the other for girls. The girls' hall is in the centre of the city and had this year 36 girls, 26 of whom paid full board, thus yielding a small income toward the general expenses of direction and repairs. At the boys' boarding hall, nearly a mile away, there were about 24 boys provided for under similar conditions; 13 of the boys, and all of the girls living in these two homes, attend the large day-school in the centre of the city. The total number of scholars enrolled in the day-school was 513, of whom 209 were girls and 304 were boys, their ages ranging from 4 to 24 years. In addition to this school 11 of the boys at the boys' hall have pursued a course of higher instruction under Mr. Perkins. As at present organized, Dr. Lane has acted as superintendent of schools, while Messrs. Waddell and Perkins have rendered assistance in taking charge of the boys' hall, and in teaching in the college department, while all the missionary ladies have been employed in teaching in the dayschool, excepting Miss Williamson, who has cared for the girls' home. A very large proportion of the scholars are from nominally Roman Catholic families, the proportion in the girls' boarding department being twenty-five out of a total of thirty-four, thus indicating the value that is placed on the instruction given in the American school.

Parents are so far interested in the moral welfare of their children as to send them where they are most apt to develop some strength of character as well as intellectual acumen. One of the dangers to the native church is found in the tendency to become Protestant rather than Christian, anti-Roman Catholic rather than positively evangelical. It must be demonstrated in Brazil as in the United States, that the truth we teach is in the interest of liberty and manhood.

The evangelistic work is limited to personal influence in giving tone and direction to the Brazilian church, and in conducting such services in the school and special halls as are possible with the bur-

den of so many duties incidental to the care of 524 pupils.

While the interests which centre in Sao Paulo are largely educational, and those employed more exclusively in evangelistic work have been drawn off to man other stations and to reach out into regions beyond, we are constrained to believe that much is done in the way of direct preaching and visitation which does not ordinarily find its way into our reports.

Curityba.

The girls' boarding and day school, or rather, day-school with a small boarding department, is well located in this thriving city of Southern Brazil. Miss Kuhl and Miss Dascomb report a prosperous year for the "Eschola Americana." They state: "We have already announced our limit, and have the assurance that every place will be taken. Our present building will accommodate just 100 pupils. This year we had 36 in the primary classes, 28 in the intermediate, and 36 in the secondary. We have room for only 12 boarding scholars and 3 teachers. The boarding pupils are trained in They take care of their own rooms, dust and put domestic work. the school rooms in order, and assist in arranging the dining-room. They have learned to make good bread, cakes, and puddings, and are learning to sew and make dresses. Four of them are preparing to teach. Many visitors come to see the schools, and express great interest and satisfaction, not objecting to the Protestant hymns and prayers." Messrs. Landes and Porter have been engaged in station duties and in itinerating in the very large district committed to their care. They have had the assistance of Mr. Fred. Lenington, who went out at his own charges to engage in evangelistic work. As he is a son of a retired missionary to Brazil, he speaks the language like a native. The meagre reports from Curityba give us little to say of the growing and interesting work throughout the State of Parana. At the far-away town of Guarapauva, in the interior, there are a large number of believers.

Bahia.

Bahia is an old, conservative city, seemingly a hundred years behind the times. After Mr. Finley's leaving to take up work in Larangeiras, vacated by Mr. Kolb during his absence in the United States, Mr. Chamberlain went to Bahia in July, 1892, in order to prevent the church from entirely falling to pieces. He found scarcely more than 30 members in the city itself, who seemed unable or unwilling to fully support their pastor. With his usual energy and faith, Mr. Chamberlain set himself a task of gathering the people together once more and starting an active movement for the evangelization of those who are from without. Dr. Chamberlain writes that "The Lord clearly says, 'Fear not; I have much people in

this city.' Corinth could hardly have been more corrupt, but there is as much reason for our staying here as there was for Paul staying in Ephesus. A great door and effectual and many adversaries."

Mr. Chamberlain has also visited some of the towns back from the station of Bahia, and finds a ready hearing everywhere he goes, and is very courteously received by the most influential men of the place. "At Cachoeira and Nazareth there are also the remnants of a once flourishing congregation, and the nucleus of a future church if properly looked after by a zealous pastor. Mr. Houston is still held in loving remembrance by the people. Nazareth, at the head-waters of navigation, is the initial point of another railway running southwest into one of the most productive regions of this State. I was kindly received by its people. The Literary Club of the city, at its own option, placed a large reading-room at my disposal, and adjourned their night-schools held in the same edifice, so that leaders and scholars might attend preaching."

Larangeiras.

The work of the Gospel has been moving on in this interesting field. Upwards of 20 persons have made their profession of faith in the Lord since the leaving of the former pastor. Mr. Finley has had a hard time of it since his arrival in Sergipe. Some very extreme measures were resorted to to expel him from Larangeiras, but his appeals to the Government brought him protection. Two Capuchin monks were later on employed to preach a "holy mission," which resulted somewhat disastrously to themselves. During the course of the mission the monks announced that on the following day they would bring down the "curse of God" on the Protestants. The next day there were a great many persons present to witness the "grand miracle," as it was termed. In the course of the sermon, which was one calculated to stir up all the hate and evil passions of the multitude, the monk cried out: "Now behold the power of God!" and with that he turned the face of the crucifix, which he held in his hand, and with which he had been gesticulating, away from the people; as he did this two women in the company fell into an hysterical fit and began to scream out and make a great commotion; this was infectious, and in an instant the multitude began to cry out: "The Protestant devil is among us and will destroy us!" and away they fled, up and out of the town to their homes in Thus were they frustrated in their evil designs and the country. God's people cared for.

Larangeiras rejoices in the continued maintenance and prosperity of its school. Much has been done to break it up. Monks have preached and sought to stir up the people to deeds of violence and crime, but the Shepherd of Israel has been watching over His little

flock.

The school this year has had 30 pupils, and the mission has been asked by the people to enlarge the scope of its work, so as to admit of higher education.

Mission in Chili

Valparaiso: the chief seaport of Chili; population, 120,000: laborers—Rev. and Mrs. W. H. Lester, Rev. and Mrs. James F. Garvin; Rev. Alberto Moran, native pastor; Victorino Castro, principal of Escuela Popular, and helper.

Santiago: the capital of Chili, 120 miles southeast of Valparaiso, with which it has railroad connection; population, 200,000; laborers—Rev. and Mrs. J. M. Allis, D.D., Rev. and Mrs. S. J. Christen, Rev. E. A. Lowe, Mr. J. C. Hambleton; Rev. Francisco Diez and wife; Abelardo Daroch, helper.

Concepcion: near the coast, about 300 miles south of Valparaiso, connected with Santiago by railroad; population, 20,000; Rev. Francisco Jorquera.

COPIAPO: about 400 miles north of Valparaiso; population, 15,000; laborers—Rev. and Mrs. W. H. Robinson; Jose Undurraga, helper.

CHILLAN: Rev. and Mrs. W. B. Boomer.

In this country: Rev. and Mrs. James F. Garvin. In Switzerland: Rev. and Mrs. S. J. Christen.

Regarding the work as a whole in Chili, Dr. Allis writes: "The general outlook was never so bright as now in Chili. The friends of the Gospel are multiplying everywhere. We are looking for the harvest of souls from the long seed-sowing. We see signs of interest which have never appeared before—in the press, in public utterances, in private and personal response, in the interest in our publications, papers and tracts, in the increased circulation of the Bible, in the decrease of opposition, in political attitudes, showing the working of some overturning power. I am as sure as one can be of anything that the next five years will show a demand for workers all along the line that will test to the utmost our resources, and, I fear, far outrun any increase of men from the States or from this country that we can properly expect." The rates of exchange now prevailing so increase the cost of living and all prices that the work may have to suffer some from insufficient appropriations. It is hoped that it may not be so.

Santiago Station.

Native Church.—"The work in connection with this church has never been so hopeful and promising as now. The largest audiences that have ever attended, averaging 100 to 150; Sunday-school, 100 to 118; prayer-meeting, 60 to 80. It is almost impossible to get teachers for the Sunday-school, as we have no good material in the church; so we have to make large classes.

"The interest has deepened, as is shown in the readiness with which the people respond in regard to funds. Every Sunday a collection is taken for expenses and for the poor. During the coming year we are expecting to secure a subscription that will enable the church to contribute to the pastor's salary, and thus call the Rev. Mr. Diez,

through the Presbytery, and have him installed.

"Quite a number have been added to the church during the year; at last communion there were 8 candidates, two of which are to be students for the ministry. We are not hasty in receiving members; the

candidates remain catechumens for some time.

"We are proposing to multiply our agencies here in establishing other preaching-places, and in holding meetings with the aid of a stereopticon, provided, by the liberality of some friends, to Mr. Allis while at home. We need very much a school for poor children. We asked authority from the Board to start such a school March 1st. The answer came that funds would not allow. Oh that the churches would see that to push missions the Board must be made able to take advantage of every

opening!"

The Instituto Internacional has had a good year notwithstanding the ill effect of the war on our attendance; we have signs of a return to the former number this coming year. Government changes in school plans will give us still more liberty, and we propose emphasizing more and more the special evangelical aim of the school. Mr. Christen, the principal, will the coming year be absent on a furlough, the first for 16 years. Dr. Allis takes his place, and will also take direction of the construction of the Instituto building that has been commenced. "The mission has cut down the building several times, and now a very small edifice is being constructed that, while it will just about hold the school at its present size, will not admit of any increase. It does seem a pity that for the want of \$5,000 the advantage of constructing the larger edifice must be laid aside and we be compelled to proceed on 'a more modest scale,' as suggested by the Board."

Dr. Allis writes the station report, but Mr. Christen, in the report of the Institute, speaks of the religious work: "The religious exercises and work have been observed as usual. The Bible-class has been attended by 9 boys all through the year, and I think it has been blessed. Seven boys, members of this class, have promised to serve the Lord and follow the teachings of Jesus. They also promised, by signing a paper, that they would never tell a lie or smoke. I trust that this may be the beginning of a good work for the future. I shall try to keep the inter-

est up through correspondence during my absence."

"In the *Theological Seminary* we have 7 students. This department is held in abeyance for another year, until the return of Mr. Christen,

and the release of Dr. Allis for that work. The students are either engaged in mission work or in preparatory studies in the Instituto Internacional."

Union Church.—The Board contributes to the support of the pastor. The hope has been entertained each year that the church would become self-supporting, but this hope is not yet realized. It must be kept in view, however, and insisted upon. Mr. Wilson reports a better year than last; 6 added on profession of faith and 5 by letter. The Christian Endeavor Society has been doing much good. Nearly the whole of the evening congregation has attended the meetings. The active members have taken charge of these religious services. The present membership of the church is 50.

Concepcion.

Since Mr. Boomer's departure to open work at Chillan, there has been no regular missionary at Concepcion. Mr. Jorquera has continued the work, however, and the church has not fallen back. Sixty have been enrolled in the Sabbath-school, and the church has contributed in part to Mr. Jorquera's support. At his own expense, Mr. Jorquera has issued a little paper, called "El Evangelista Chileno," and has printed many tracts for free distribution

Valparaiso Station.

Native Church.—The services have been maintained with regularity during the year. On Sunday morning there has been an average attendance of 50; in the evening, of 100; the prayer-meeting, of 45. The Sunday-school, one of the most encouraging features of the work, has had an average attendance of 121 children. On Christmas eve an entertainment was given, over 400 children and friends of the church being present. During the year 17 new members have been added to the church.

In December a church meeting was held, and Rev. Alberto Moran was unanimously elected pastor, the church promising to contribute \$600 currency to his support, and \$200 towards the incidental expenses, thus taking a step toward self-support. The call was placed in the hands of Mr. Moran by the Presbytery, and he will be installed shortly.

The church has contributed for various objects during the year the

sum of \$429, and the Sunday-school \$180 currency.

On the Friday after Christmas an interesting ceremony took place in the church, quite a large number being present. The doctrine of the celibacy of the clergy was deemed anti-Biblical, and Mr. Moran and Miss Hidalgo were married. Miss Hidalgo has been connected with the Escuela Popular for a long time. As a teacher, as a writer for *The Heraldo*, and as a talented, consecrated Christian worker, we believe she will be even more useful in her new sphere as pastor's wife, and that the church will feel the influence of her work and presence.

Mira Mar.—Regular services have been held in this place during

the year, with an average attendance of 45. Some time ago a Sunday-school was started with an attendance of about 25 children. These services have been carried on by supplies from Valparaiso.

In *Melon* services are still held, and a little school conducted by Pedro Moysan. The influence of this godly man is felt throughout the entire neighborhood, and a veritable reformation is being effected among the children of the village. This station is visited once a month by Mr. Moran or the missionary, who on these trips holds ser-

vices in Nogales and Quillota.

Escuela Popular.—The school has had on its roll during the year 250 scholars. Of these, 162 have attended the entire year, the average attendance being 189. Mr. Castro has been the principal, and under his efficient management the school has done good work. The moral tone is excellent. Every morning the school is opened with religious exercises, and special Bible-classes have been held during the week. At least half of the scholars attend the Sunday-school, and thus the Escuela Popular is a feeder for the church. Mr. Sepulveda, one of the theological students, will remain in Valparaiso and devote most of his time to the school.

The Sheltering Home.—In July the new and commodious building was completed under Mr. Garvin's direction. The old property secured through the efforts of Dr. Trumbull and Mr. Merwin, was sold and the proceeds were devoted to the new building and lot. This was, however, not sufficient by some \$9,000 currency. A legacy of \$5,000 and several generous contributions completely wiped out the deficit, and the home is free of debt. This property is in the name of the Union Evangelica. There are at present 21 children in the home. They are well looked after by Mr. and Mrs. Castro, and are constant attendants at the Sunday-school and the church.

Itineration.—Two trips of six weeks each have been made by Mr. Lester to the ports to the north of Valparaiso, and one by Mr. Garvin. These, with a few visits made by Mr. Jorquera to Victoria, which is a few hours by train from Concepcion, make up in the main the itinerary

work of the year.

Mr. Lester touched the towns of Carrizal, Caldera, Copiapo, Chanarcillo, Tierra Amarilla, Taltal, Antofogasta, and Tocapilla. Mr. Garvin, omitting some of the more southern ports, visited Taltal, Antofogasta, Tocapilla, and Pisagua; from this place he reached the nitrate works of the interior.

The report of the committee on itinerary was as follows:

"The basis of work in each place was the English element. Everywhere a group of English-speaking people was found, mostly Scotch, among whom the influence of the Kirk and early Christian education still asserted itself in spite of the peculiarly demoralizing conditions of the coast. These good people always welcomed your missionary, and heartily co-operated with him in arranging for meetings in English and Spanish. The securing of rooms for services, seats, lights, etc., were attended to by them. In some instances free passes on railways were secured, and unsolicited contributions made. For example, in Carrizal, hotel expenses were paid and a contribution of some \$40 given. As an indication of the interest felt by some of the English people, I would mention the fact that in Carrizal, in an English colony numbering 49 persons,

48 attended the meetings, the first held in the place for twenty three years. It is almost impossible to portray the heartiness with which many responded. This part of the work consists in regular services, house visitation, celebration

of the Lord's Supper, baptism of children, etc.

"This element makes a good basis for Spanish work; in fact, it is almost necessary to it. The English generally occupy positions of influence, and can give us material and moral assistance. Naturally they prefer an English service, and, in some cases, do not understand sufficiently the Spanish to follow a service in that language; their children, on the other hand, understand Spanish better than English, and require, very often, services in the vernacular. We wish it understood that the English services are used only as a basis for the Spanish. The services in Spanish have been well attended; in some instances the number has reached 400. Everywhere there has been the best of order, and sometimes a degree of interest manifested which is unique in our missionary work. Thousands of tracts have been distributed, about 100 meetings held, 53 children, English and Spanish, baptized. In a word, the work in the north has been encouraging.

"The meetings held by Mr. Garvin in the nitrate districts met with almost unhoped for success. Every facility was afforded him by the English officials, and the meetings were largely attended and deeply impressive.

"Antofogasta could be made the centre of a large and fruitful field. town has at present about 12,000 inhabitants. As the port of entry to Bolivia, as a mining and nitrate centre and a town of growing importance, we think it most desirable to have it occupied.

"In Tocapilla there is a chapel where regular services are held by a young Scotchman, Harry Fraser, in English and Spanish, with some 50 persons in

Mr. Garvin, on his way to this country, stopped for a week at Taltal, and after examination, received twelve persons as catechumens. The little group of 20 or 25 who met for Bible study at this place, have asked for a pastor, promising to pay one-quarter of his salary and the current expenses of their place of worship. This point and Tocapilla could be supplied by a missionary stationed at Antofogasta.

Copiapo Station.

Preaching in English has been maintained on Sabbath evenings regularly throughout the year. Once a month, when Mr. Robinson has been absent in Caldera, the services are conducted by members of the congregation. The average attendance at preaching services is between 25 and 30. Sabbath-school, held Sabbath morning, has a total attendance of about 40, averaging about 30. One class in the school, with attendance varying from 2 to 7, is composed of Chilians, and taught in Spanish. The Wednesday evening prayer-meeting has also been held regularly with a fair attendance.

A Y. P. S. C. E. was organized three or four months ago. It is

small, but has already done good.

The Mission Band and Ladies' Missionary Society were both maintained during the year, and, on the whole, the attendance, interest shown, and results attained have been encouraging. Part of the time of the Mission Band meetings was occupied in making up small garments for needy children. The contributions of the band for foreign mission work amounted to \$25 Chili currency.

The contributions of the Women's Missionary Society for the year

ending April 1st, 1892, amounted to \$65 currency.

A large portion of Mrs. Robinson's time and energies, and a portion

of Mr. Robinson's also, have been occupied in carrying on the dayschool—the Copiapo English Academy—which has now completed its third year under the present management. The total enrollment

this year was 22.

Caldera.—"Once a month," writes Mr. Robinson, "I have visited Caldera, holding a preaching service and Sabbath-school in English; also, when I can get a few children of Chilians together, I have a Spanish Sabbath-school. All my travelling expenses to Caldera, as well as the rent of chapel, and other incidentals, are paid by the people.

"One or two visits were made to Tierra Amarilla, ten miles above Copiapo. Tracts were distributed, and I had some conversation with a number of people. In Copiapo, also, and on the railroad, a good

number of tracts have been distributed."

Chillan Station.

After the last meeting, Mr. Boomer moved away from Concepcion, leaving the work there in the hands of the native pastor, Rev. Francisco Jorquera, and began his new work in Chillan. Regarding the work and its inception, he writes:

"Having become acquainted with a few persons in the city who showed some interest in evangelistic work before establishing the services here, it was my intention to begin in a quiet way and extend the knowledge of the work by personal invitations. This plan was to some extent frustrated by a notice which appeared in the *Liberal*, daily, announcing our arrival and plans with

embellishments.

"This gave notice to the parish priest, who warned his flock against the heretical place and forbade his people to pass the chapel; and probably it was the means of attracting a number of young men and boys, who attended a few weeks and created some disturbance until their curiosity was satisfied, and then they were convinced that our intention was not to make wholesale attacks on the Roman Catholic church and priesthood, but to preach Christ and salvation through repentance and faith in Him.

"Avoiding thus any very public advertising and sensational means of attracting a crowd, we have never had an attendance of more than 65, except at

the Christmas festival, when 100 were present.

"Some of those invited at first have remained faithful and interested attendants, but the larger part of our earlier congregation has disappeared. New faces are constantly appearing, however, and some of the later comers become interested and regular adherents."

The Sunday-school has been slowly, but pretty steadily, growing. The music has been an attractive feature; if an opportunity is given the congregation to remain after the meeting for singing, almost every

one stays.

The attendants are for the most part Chilians, though a few German and Swiss Protestants have been glad to avail themselves of the privileges of our services. The majority of the congregation is of the artisan class, though a good number of the better dressed people have also come.

Four Government school teachers met in a Bible-class especially formed for educated young men and held for about two months on a week night.

Sr. Tulio Moran has spent some time in studies preparatory for the ministry, under Mr. Boomer's direction, having four hour recitations weekly. Mrs. Boomer has also given him two piano lessons a week-

Itinerary.—Efforts were made several times to get a room for regular services in the neighboring town of Parral, but without success. The only other work out of Chillan attempted was in Linares and in the country near Membrillo.

Five persons have been admitted to the communion of the church at Linares on profession and one by letter, the first admitted for some years. Seven new names besides the persons received have been proposed. This increase is to be attributed in part to one man.

The state of religion is low generally, and there was one sad fall, followed, however, by genuine and deep repentance. There is, how-

ever, a willingness to be taught.

Escuela Popular.—The teacher of the school, Miss A. Crosby, was unwilling to go to Chillan to start the school until the missionary had moved to the station, and a month elapsed after she arrived before a suitable place was available for the purpose. Commencing thus in the middle of the school year, it was difficult, as might have been expected, to gather together many pupils. Added to this, the place

occupied was rather too far off to one side of the town.

As to results from the work in general, the Gospel has had a hearing in the chapel by some hundreds of persons, and by the Bible, tract, and pastoral work, has been brought to the consideration of many more. Scriptures and other evangelical literature have been sold, and thousands of tracts and periodicals have been distributed; a number of earnest personal conversations have been held with inquirers and others; prejudice has been to some extent dissipated, and a welcome for the truth has been found in some hearts; Bible reading and study have been begun, and the gratitude of some has been shown in various ways. About \$25 currency was received as an offering for foreign missions, and two persons who have attended services in Chillan have been proposed for membership in the Linares church, and five from the country near Membrillo and Linares.

Mission in the Republic of Colombia.

REPUBLIC OF COLOMBIA: population estimated at 4,000,000. (See Appleton's Spanish Geography.)

BOGOTA: the capital of the country; situated on an elevated plain; 4° north latitude; climate, temperate; population, 100,000; elevation nearly 9,000 feet; occupied as a mission station in 1856; missionary laborers—Rev. and Mrs. M. E. Caldwell, Rev. and Mrs. A. R. Miles, and Miss Martha B. Hunter; six native teachers and helpers.

Barranquilla (Bar-ran-keel-ya): near the northern seacoast at the mouth of the Magdalena River; 12° N.; population, 30,000; occupied as a station in May, 1888; missionaries—Rev. and Mrs. T. H. Candor, Rev. and Mrs. T. S. Pond, Mrs. E. H. Ladd.

MEDELLIN: population, 50,000; occupied October, 1889; situated on tableland at an elevation of 5,000 feet, between the two great rivers Magdalena and Canda, ten days north of Bogota; missionaries—Rev. and Mrs. J. G. Touzeau.

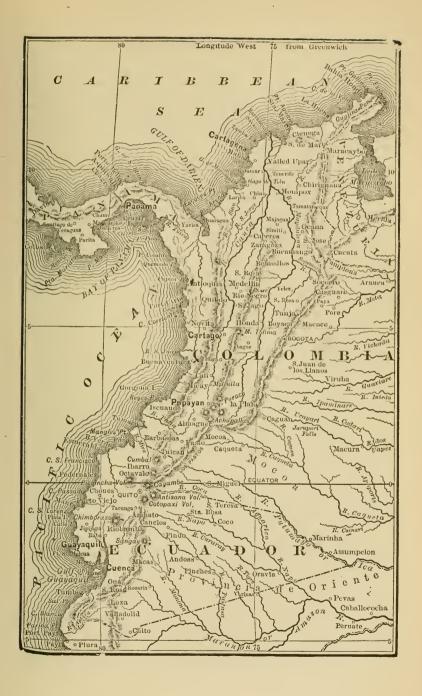

Bogota Station.

Amid many difficulties it is believed that the work of the station has made steady progress during the year. The force of workers has changed some. Miss Cahill was married to Mr. R. W. Fenn in August, and moved to Honda. Miss Martha B. Hunter, of Greensburg, Pa., however, has taken her place, entering upon her work with wise discretion and true earnestness. The largest and best hopes are entertained for her usefulness in the direction of the girls' school. The number of workers has not been large enough to enable the sta-

tion to do all the work appealing to be done.

Girls' School.—After Miss Cahill's marriage the girls' school was again left to the direct management of natives. Miss Matilda Pradilla, the principal native teacher, is an earnest Christian woman; however, was brought up from childhood by the missionaries and educated in the same school. She is universally respected and admired, both as a teacher and also for her Christian character and example. The school has been small, numbering in all 32 pupils, but the work done during the year was very satisfactory. Three of the girls during the year became full members of the church. Owing to the marriage and removal of Miss Franks (now Mrs. Ladd), in 1890, to Barranquilla, and also on account of the lack of funds, the boarding part of the school had been closed in 1890 and not reopened until 1892. This caused the loss of many pupils, and has made it very much more difficult to compete with the large, rich, and popular schools under the care of the Catholic Church in Bogota. Owing to political changes there has been much more fanaticism in the country, and also much greater opposition to our work than usual.

Church Work.—Services were conducted regularly during the year in the Spanish language. Generally, with few exceptions, two Spanish preaching services, and a Sabbath-school, were held each Sunday; a general prayer-meeting each Wednesday evening; ladies' prayer-meeting each Monday evening, and teachers' meeting each Thursday when possible. During the year eight persons were received into the membership of the church. The members of the church, although very poor, help very cheerfully by giving in the regular Sabbath collections something toward the support of the church. During the year just closed they gave in the church collections \$184.37\frac{1}{2}\$ Co-

lombian money. Of this sum $$47.62\frac{1}{2}$$ Colombian money, equal to \$25 United States gold, was sent to New York for the Boards of the church.

Women's Prayer-Meeting.—The women's prayer-meeting has always been a very encouraging part of our work. Although the members are very much scattered throughout the city, and some of them live a great distance from the place of meeting, the attendance has usually been good and the manifest blessing of the Master has been

with those praying women.

Evangelistic Efforts.—During a visit of Mr. and Mrs. Miles in the month of July to Cipaquira for rest and health an opportunity was presented for selling Bibles and tracts and talking to the people on the subject of religion. Notwithstanding the fact that the books were well-known as "Protestant books," Mr. Miles succeeded in interesting many to purchase the forbidden books. Another opportunity was presented for the sale of Bibles and tracts, as well as for the preaching of the Gospel, to many small groups of people during the December vacation in La Union. One important feature of this Bible work in the country is the frequent opportunity of preaching the Gospel to those who would never go inside a Protestant church. Sometimes in stores and sometimes in the street groups of people will gather around the Bible agent to hear what he has to say. The simple story of the Gospel and salvation through faith in Christ is often listened to with intense interest, and sometimes with evident approbation. The Bible work among the people is made very difficult because of their great ignorance and vices. Sometimes, perhaps nine-tenths of those whom we meet in the country and smaller towns are unable to read, or if they can read they read very badly, and even those who can read have very vague ideas about the Bible. They have never read it, the greater part of them have never seen a Bible, and those who have heard about it have heard that it was a very dangerous Protestant book which has been prohibited by the church. Many of the people are apparently more afraid of the Bible than they would be of the most venomous serpent.

Boys' School.—February 1st witnessed the beginning of the third year of the history of the school, for in Colombia the school year begins in February and continues until the end of November, making the long vacation in the months of December and January. The first two years it passed in the girls' school building, but the reopening of the latter made it necessary for it to occupy its own property, although the building was still in an unfinished condition and could not

afford the necessary accommodations.

The priests have been quick to see that the establishment of a school for boys and young men is a new and dangerous departure. They know as well as we do that such a school is for the purpose of raising up a force of native helpers and evangelists. As a consequence, our school work has met with the bitterest opposition from them. They have visited from house to house, warning parents against our schools and threatening excommunication to all who do not heed the warning. As a result of this opposition, we have had, with but one

or two exceptions, no pupils from strict Roman Catholic families. The priest of the parish in which our school is situated has been especially active, preaching against our school, talking against it in the homes of his parishioners, and even coming to the door of the school to

frighten the pupils on leaving the school for their homes.

During the entire year the school suffered from lack of sufficient study and recitation-rooms. During most of the year Mr. and Mrs. Miles' dining-room was used for a class-room in the daytime, and for a study-room at night. The room used as a study-room during the daytime was without doors, and the pupils and teachers often suffered with the cold. The dormitory was entirely too small, and, besides, was badly ventilated. During the whole year 10 persons slept in a room 18 x 21 feet, with a ceiling only 10 feet high.

The school is almost destitute of furniture and apparatus. There are no seats nor desks of any kind, except for about 40 pupils in the primary department. These are long benches, so high that the feet

of at least three-fourths of the pupils do not touch the floor.

During the year there were enrolled in all departments 82 regular and 14 special students. In the boarding department there was an increase from 4 in the previous year, to 14 in the past year.

All the regular pupils are required to enter the daily Bible-classes

taught by Mr. Caldwell.

Religious Instruction in the Schools.—In the beginning of the year some of the pupils in the boys' school were offended because they were obliged to attend the daily Bible-class, but little by little their prejudices vanished, and their antagonism was succeeded by a truly deep interest.

The girls in the beginning are more afraid of a departure from the old paths, but are more faithful when once convinced. The boys are far more ready to give up the errors of Romanism, but are also far

more susceptible to infidelity and skepticism than the girls.

At the close of the school year in November an exhibition with Bible scenes and magic-lantern was given in the church. As each picture was thrown upon the canvas one of the school-boys stepped forward and told in simple words the story corresponding to the scene.

Discouragements.—Each successive year since the revolution of 1885 has added wealth and power to the Catholic Church in Colombia. Those who do not bow in humble subjection to the priests fear their power, and for that reason hesitate about giving their influence openly to the hated and persecuted Protestants. Some timid members have ceased to attend our services, and many naturally friendly will not enter the church for fear of being seen and noted by those holding in their power the sources of wealth and influence. Many foreigners who come to the city temporarily for business, and who are known as Protestants in their own countries, are very shy about our church when in Bogota for fear that their business may be injured by showing too much interest in connection with our services. There is almost no liberty of the press. Those who publish anything displeasing to those in power are liable, without even the form of a trial, to pay a heavy fine.

The great ignorance of the masses and the marvellous indifference and lack of faith on the part of the more intelligent people are very great obstacles to our work. Almost every Sabbath poor and ignorant people come asking "to be put on the list" as members of the church. They, however, have not the slightest conception of what it means to become a member of the church. Their only thought or ambition is to get money. Frequently they come to us with the idea that we will buy their souls. They have been taught that the Protestant minister is the agent of the devil; that he will pay a high price for their souls, that they must take blood from their arms and sign the death warrant of their souls; that then they must whip an image of Christ, which the Protestant minister keeps for the purpose, until the blood runs, and then the contract is complete, their souls belong forever to the devil and the money is theirs to use as they please.

The priests in trying to teach these poor ignorant people to hate and fear the Protestants lead many of them to covet the devil's money, and not a few deliberately offer themselves, as they suppose, a prey to perdition for the sake of gain. The more intelligent people are as marvellously indifferent and skeptical as these poor people are stupid and ignorant. They have no faith in the Bible as the Word of God, nor even curiosity to hear the Gospel preached. To them the

Gospel is only another phase of fanaticism.

Barranquilla Station.

Missionaries and their Work.—Rev. and Mrs. T. H. Candor have had charge during the year of the Spanish church services and the school for the poor. Rev. and Mrs. T. S. Pond have devoted their time to the study of the language, to services in English and special classes, in and out of the regular educational work. Mrs. E. H. Ladd has had charge of the school for girls among the better class of people in the city. Mr. A. H. Erwin, although neither under appointment of the Board, nor supported by mission funds, has continued a little school in his own house, having both day and night pupils, and works in full harmony with the station. There have been some 5 natives employed a part of their time in educational work.

The City and Vicinity.—Special Encouragements.—Barranquilla shows evidence of vigorous and substantial growth. New buildings are constantly in process of construction, and new and important commercial and industrial enterprises promise to increase its importance, both within and without the country. The foreign element controls now the most important commercial enterprises in the city, and have also a strong, powerful influence over the social life of the place. As this element is at least friendly to the work of our mission, there is a basis for work among them, and they help to influence the native population in favor of the work of the station.

Special Drawbacks.—The standard of life within the church has not been satisfactory, and the report continues:

"Without the church stolid indifference on the part of so many is a new evidence of the fact that the carnal mind is not subject to the law of God; and open opposition to the Bible and to those who preach its blessed truths, on the

part of many who occupy places of influence and power in the city, was but to be expected as a mark of him 'who opposeth and exalteth himself above all that is called God.' During the last six or seven years, the Government has been passing more and more under the influence of the policy of the Roman Catholic Church, and the laws are less favorable to non-conformists. This fact keeps many from listening to the truth, and puts a strong argument in the hands of those who advise people not to listen to the teachings of the 'American missionaries.'"

Preaching the Gospel.—Fortunately, the constitution of Colombia grants to all the liberty of religious convictions and worship. Under this fundamental law, the Presbyterian church of Barranquilla has met in the school-rooms of the station or in the houses of members or attendants, and the Gospel has been preached without hindrance. On the Sabbath the school for Bible study meets in the morning, and there are public preaching services in the afternoon and evening. The mid-week service has been held on Wednesday evening, and occasional services on other days of the week.

Some house-to house preaching Bible-reading and distribution, and personal work, has been done both by members of the mission and by Rev. Joseph Norwood, Bible agent, who visited the city and remained

some little time.

Educational Work.—(1). The school for the poorer classes, under the care of Rev. and Mrs. Candor, opened its sessions January 15, 1892, and closed for the year December 11. There were more than 75 pupils enrolled, but the average attendance was about 45. Both boys and girls were admitted, both in the higher and lower classes; the ages of the pupils varied from four to eighteen years, and the branches taught varied from A B C's to higher arithmetic, grammar, etc. All pupils were required to enter the Bible and Catechism classes. From six to eight orphan children were supported at the expense of the school, and were taught not only during school hours in school branches, but also in domestic work. Since the opening of this school others under the care of the Roman Church have been established for work among the same class.

(2). The school under the care of Mrs. E. H. Ladd has been exclusively for girls, except in the most primary classes, to which some small boys have been admitted. It aims to reach the more prosperous and cultivated classes, and therefore can be made more nearly self-supporting than the school for the poor. The attendance has also averaged more or less 45 pupils, and the branches taught vary from the most primary to normal classes for the preparation of teachers.

(3). The instruction of boys has been confined to the smaller children received in Mrs. Ladd's school, those in the school for the poor, and those in Mr. A. H. Erwin's school. A station class has been begun which it is hoped will result in training young men for useful service.

Medellin Station.

This station was occupied October, 1889. It is the capital of the Department of Antioquia, situated in a valley of the Cordilleras of the Andes; 100 miles distant from the Magdalena River; 235 miles

from Bogota; about 5,000 feet above the sea level; average temper-

ature, 70 Fahrenheit; population about 50,000.

The correspondence from the station has not been very full, but Mrs. Touzeau writes pleasantly telling of the work which her husband and she have been doing:

"The little school which we opened two years ago with only four pupils has grown and is now quite an interesting school. Mr. Touzeau and I did all the teaching until near the end of last year, when we found a lady willing to help us, so we engaged her to help two hours in the morning and one in the afternoon. This was a great help and relief to me, as it gave me a little more time to attend to other duties, also gave my husband time for more outside work. The last of November the school closed with a public exhibition, and we all felt happy and very proud of our school, for the children all did their parts so well. The singing was very pretty, and we had some good recitations by the children; eight of them received prizes for having recited at one time, and without missing one word, all of the catechism taught in the school. Every one attending seemed well pleased with the signs of progress made by the school during the year. We taught Bible and Catechism every day, and we are quite sure there was no class the children enjoyed so much as they did the beautiful Bible stories, so new to them. We also spent many happy hours teaching them from God's word. During the year we had all of the Gospels of St. John and St. Mark, and then took up the Acts of the Apostles. Many of the children attended church and Sunday-school, and all learn to sing our beautiful Gospel Hymns, for school is opened every day by singing and prayer.

prayer.

"Mr. Touzeau is now publishing a little paper. In this way he hopes to be able to reach many who will not come to the church services. He has done a great deal of translating during the past year, and through the kindness of a friend has been able to have many of his translations published in one of the best papers here. Mr. Touzeau received four new members during the past year; among them one of the boys from the Sunday-school. We have church services and Sunday-school here in the house in which we live. The largest room in our home we call the 'church,' the next largest is the school-room; now since the school is growing we shall have to use both rooms for it. Mr. Touzeau has made several journeys out through the country during the past year, and in this way has been able to sell Bibles and other books, also to preach in other places. When my husband is away I am quite alone among the natives, and sometimes do not speak one word of English from the time he goes away until he returns. But the friends here are all so kind that I do not mind if I do have to talk to them all in Spanish. We have much for which to be very thankful in our work, but at the same time we see many things to discourage and sadden us. We need patience and a strong faith in

Him who commanded the preaching of the Gospel to all the world."

The Syria Mission reports another year of successful advance and cheerful service full of the tokens of God's favor. The obstructive policy of the Turkish Government, while it has given much annovance and has limited in some respects the material results, has produced no perceptible effect upon the moral influence and the spiritual power of There are realms of influence which no human edict can the mission. enter, and invisible spiritual forces which no earthly power can control. The silent leaven of the Gospel is as invincible in its sphere as the mightiest forces of nature. The sway of moral principles cannot be held in check by human authority. The enlightening and expanding power of knowledge cannot be suppressed or smothered. The regenerating Spirit who makes all things new is His own supreme Master, and He exercises His renewing energy when and where and how He listeth. The Gospel is not and cannot be bound. The march of Christian missions throughout the world has been right onward and their power gathers volume and energy with every advancing year. Perhaps the missionary enterprise has more to fear from the possibility of internal hindrances, and a lack of entire sympathy and sufficient support from its friends, than from any outside opposition from avowed enemies. Syria has not been without problems and difficulties during the past year, but they have arisen rather in connection with the effort to cultivate a spirit of independence and to train the native churches in

self-government, than from the obstructive power of outside opposition. The large educational, literary, and medical work has been conducted with system, order, and steadiness, and the results of the year yield a generous fruitage, which, although not characterized by any surprising features, is full of the bloom and ripeness and beauty of the golden harvests of nature's rounded year. Christian faith can read between the lines of such a record as is herewith presented, and trace the evidences of the workings of Divine power, and discover the signs of a purpose which is becoming more and more plainly outlined in the triumphant progress of Christian missions throughout the world. Let us turn our attention now to a detailed report of the various stations of this interesting field.

Beirut.

The important central station of Beirut may be said to be central not only in its relations to the Syria Mission, but also to a much larger constituency, which looks to it as a source of literary supply. It has become a centre of educational work, and the literary impulse which it has given to modern learning, and especially to evangelical literature in the Arabic language, is widespread in its influence and has given a new life and vigor to the Arabic as a medium of modern

thought.

The Syrian Protestant College, with its magnificent plant, occupies a commanding position upon a headland pushing out westward into the Mediterranean, with the blue waters of the sea sweeping around to the north, west, and south, and with the stately range of Lebanon as an eastern background to the scene. In this conspicuous location the college seems to extend a salutation to the Western World, and offer itself as a medium of communication between the modern West and the ancient East. Its students gather at this centre of intellectual light and spiritual influence from all parts of the Levant, and after spending a few years in contact with the men and the culture and the rare facilities which American Christianity has planted in that favored spot, they scatter throughout Western Asia and carry with them something of the inspiration and power of the nineteenth century, to give a fresh and living impulse to the long stagnant life of the Orient. college is a Christian institution, missionary in its spirit and aim, and, although not supported by our Presbyterian Board, is in practical and cordial co-operation with our mission. The Theological Seminary, close by the college, has also its sphere of influence, and its graduates are now scattered throughout Syria and also in Palestine and Egypt in the service of the Master's kingdom. The Female Seminary is a blessing to the daughters of Syria, and draws its pupils from many other localities besides Beirut. The Press and Publication House is a busy hive of work, from which religious and educational literature is extensively scattered in regions far and near. The Hospital of the Knights of St. John, which is under the medical and surgical care of the Faculty of the Medical Department of the College, is visited by patients that come from many distant points, often by long and wearisome journeys, to obtain the benefits of the superior medical and surgical skill which

is there freely dedicated to their service. Thus the city of Beirut has an important mission as a centre of a wide evangelical, educational,

literary, and philanthropic ministry in the Levant.

Personal.—During the past year the senior members of the station. Dr. and Mrs. Van Dyck, celebrated their golden wedding, December 23. 1802. It was an occasion of hearty and joyous congratulation on the part of all their many friends from the American, European, and native communities. It is not long since the remarkable and spontaneous celebration of the jubilee of Dr. Van Dyck's arrival in Syria, and now comes the golden commemoration of fifty years of happy wedded life. Rarely has a missionary received such a tribute of respect and veneration from the people among whom God has called him to live. We trust that declining years may bring great peace and joy, and be crowned with the high reward of a Divine benediction. Rev. Dr. and Mrs. Samuel Jessup returned to Syria in the autumn of 1892, after an absence of three and a half years in the United States. Serious illness prolonged this visit to an unexpected length, but the good providence of God has brought these devoted servants once more to their loved field of labor in Beirut. They were accompanied upon their return by Miss Ellen M. Law, who went to Syria to take the position made vacant in the Beirut Female Seminary by the recent resignation of Miss Emilia Thomson. Rev. Dr. and Mrs. Daniel Bliss returned to Beirut in October, 1892, after an absence of a year in the United States. Owing to quarantine regulations they were detained upon the steamer for a week in the harbor of Beirut, and we find in the Report of Beirut Station a suggestive comparison between the aspect of Beirut as viewed by Dr. and Mrs. Bliss during that tedious week of waiting, and the outlook which greeted them as they cast anchor in the same harbor upon their arrival with Dr. H. H. Jessup in 1856, thirty-seven years ago. The contrast is certainly an inspiring one, and might have served to while away the time during that enforced restraint. The promontory upon which the college is now situated in the midst of a thickly-populated district, was then a wilderness, and the present College Campus, with its eight fine edifices, was then a rocky desert. The population of the city was then about 22,000, which has now increased to 90,000. Then there was not a wagon road nor a wagon in Syria; now a network of carriage roads radiates from Beirut north, east, and south. Then there was but one Protestant educational building in all Syria and Palestine, and that was the Abeih Seminary. Now there are not far from eighty edifices erected for educational purposes, belonging to various evangelical missionary societies between Antioch and Gaza. Then the Turkish Government had not a school of any kind, and it was not until 1869 that its school laws were promulgated. Now they have established a system of graded schools in all the principal cities of the empire. During this period all the British, Scotch, and German schools in Beirut have sprung into existence. All these points of comparison, together with the fact that 237 college students were impatiently waiting to give a greeting, such as only college boys know how to give, to their beloved President on his return, show the mighty changes that have so silently and wonderfully swept over Syria during recent years.

Ecclesiastical.—The year has been one of peculiar trial to the church in Beirut. The experiment of self-government is being tried. and the Protestant community of Beirut is now in the school of experience. They are learning something about the responsibilities and the cares and the difficulties of governing themselves, and it is instructive to see how much more self-control, magnanimity, fraternal charity, and Christian grace it requires to be their own masters than is necessary in a position of tutelage to the missionaries. A minority element in the church has become dissatisfied with the native pastor, and has made strenuous efforts to dismiss him, in spite of the loyalty of a large majority of his people. The pastor resigned, in the hope that this would settle the difficulty, but the church refused to accept the resignation, since it was evident that the breach could not be healed by this method. The result has been that another church service has been established in Beirut as the outcome of the split. The spiritual fruitage of the year has been much interfered with by these unhappy differences, and there has been an addition of only seven members to the Beirut church. The native pastor, Rev. Yusef Bedr, is an excellent man, of dignified personality and spiritual character. Let us hope that his ministry over a now united people may be marked by a Divine blessing. The contributions of the Protestant community under the stimulus of rivalry have increased somewhat. The religious services in other parts of Beirut, and the various Sabbath-schools have been conducted as usual. The preaching services in the new college chapel have been maintained throughout the year.

Educational.—The College has had during the past year the largest number of students in attendance since its foundation. In the preparatory department, 138; in the collegiate, 49; in the medical and pharmaceutical, 50; total, 237. The corps of instructors has been full and efficient. A new laboratory building has been erected during the year, which will be of special service to medical students. New and extensive improvements are being made in connection with the astronomical observatory. The building is to be substantially rebuilt, and extensive additions to the astronomical apparatus have

been made.

The Female Seminary has had an unusually prosperous year. The faculty has been somewhat in a state of transition owing to the return to the United States of Miss Alice Barber for a visit, and the arrival of Miss Ellen M. Law to take her place as a teacher in the school. The report of the Seminary speaks of the great loss sustained in the resignation of Miss Emilia Thomson, whose personal duty to her aged father requires her presence with him in the United States. The arrival of Miss Law is referred to as a most welcome and gratifying event in the history of the year. The health of Miss Eliza D. Everett, who has had unusual burdens during the year, has been preserved, and the record of the year has been full of inspiration and hope. The total of pupils enrolled in all departments during the year is 136, of whom 58 were boarders, and 78 were day pupils. The year has been marked by unmistakable tokens of the presence of God's Spirit in the hearts of many of the pupils. Six of the girls were received

into the church during the year. A missionary society in connection with the school has given a stimulus to the benevolent training of the pupils, who sent their contribution at the close of the year to Africa. The incident is referred to in the report in the following suggestive sentence: "Our small offering would not illumine much of the dark continent, but it was the means of expanding the horizon of thought and spiritual sensibility not a little among our girls."

The Theological Seminary was not in session during the year, but it

is the expectation that a class will enter in the autumn of '93.

Medical.—The Medical School has been in a prosperous condition during the year. Dr. Harris Graham, of the faculty, has spent six months in Berlin in special bacteriological studies, and returns to the new laboratory of the college prepared to make the best use of its facilities. In the hospital 501 indoor patients were received during the year, and 11,620 outdoor patients were treated in the Polyclinique,—a total of 15,180 days of treatment in medical and surgical ser-

vice are indicated by these figures.

Literary.—The Press work of the year has been greatly facilitated by the use of the new "Walter Scott Printing Machine," and the "Safety Vertical Steam Engine." They have worked to the great efficiency of the mechanical department of the Press. The total stock of books and tracts, bound and unbound, on hand in the Publication House, December 31, 1892, was 529,383 volumes. The total number of pages printed in 1892 was 19,676,743, of which 8,382,000 were pages of Scripture. The number of copies, or portions of the Bible printed at our Press by the American Bible Society during the year was 25,329, and the total number of publications of all kinds issued from the Press during the year was 176,500. Owing to the peculiar regulations of the Imperial Ottoman Board of Public Instruction, all manuscripts for publication must now be sent to Constantinople for examination and approval, involving a delay of months. During the year two manuscript books, one consisting of extracts from Spurgeon's sermons, and the other a child's book of travel, were returned unsanctioned as being prohibited books. Prizes were awarded during the year for two original Arabic stories, one showing the advantages of female education, and the other the evils of intemperance, The Commentary on the New Testament, by Rev. W. W. Eddy, D.D., has made progress during the year. Volume III. on the Acts was issued in June, and Volume IV. has been printed as far as the fourth chapter of Romans. The inimical attitude of the Turkish Government to our Press is a constant source of annoyance and anxiety, and they have succeeded in diminishing the sum total of our work during the past year by several millions of pages. Their efforts are necessarily futile, for the truth is scattered broadcast throughout Turkey. It is flitting about everywhere in millions of printed pages, and there is more of it read and appreciated every year throughout the Empire than the Turks could overtake and suppress in a century.

Woman's Work.—The lamented death of Mrs. Augusta Mentor Mott left the British Syrian schools in Syria without a controlling head. Her successor as Honorary Directress of the schools is Miss James,

who has been gladly welcomed in Beirut, and whose relations with our American mission work promise to be characterized by the same cordiality and Christian sympathy which have given such mutual satisfaction in the past.

The Helping Hand Society of Syrian young ladies, under the direction of Mrs. H. H. Jessup, has done most efficient work in providing

garments for the poor.

The classes for Bible instruction to women, under the care of Mrs. Dale, Mrs. Porter, and Mrs. Graham, have been conducted at various localities in Beirut during the year. There have been over 90 names on the roll of the Ras Beirut class, which is especially for poor and needy women of the non-Christian sects, and which is perhaps the only opportunity of a lifetime for many of them to receive Gospel instruction.

Incidents.—"One of the most affecting events of the year was the death, in a distant part of the empire, of a young Mohammedan native of Beirut, a convert of Christianity, who had given promise of a life of eminent usefulness. From the day when he first came to us, inquiring as to the teachings of the Gospel about the way of salvation, all through his year's course of study and inquiry, and after entering upon active evangelistic work in the difficult field of Southern and Eastern Arabia, until the day of his death, he seemed guided by the Spirit of God. His humility and sweetness of disposition, his grasp of the vital truths of the New Testament, his rapid acquisition of Bible knowledge, his purity of speech and faith in prayer, and his earnest zeal for the salvation of his relatives and former co-religionists, seemed to have fitted him to be an apostle to the Arab race. But the Lord has called him, and we can only bow to the Divine decree. His short, youthful life was a very precious illustration of the power of Divine grace, and should be an encouragement to all Christian laborers in Western and Southern Asia and Northern Africa, to persevere in preaching the simple Gospel to the followers of Islam. Two others, converts to Christianity from Islam, passed through Beirut in the month of March, en route to foreign lands, one of them covered from head to foot with black stripes from the 'cruel scourging' he had received for becoming a Christian."

Sidon.

The Personal Drama.—The year has been full of changes in this station. Rev. Mr. and Mrs. W. Scott Watson resigned and left for the United States early in the year. They left behind them a pleasant record during their brief connection with the station, and won the cordial esteem of every one by their kindness of heart and sincerity of spirit in the Lord's work. Miss Rebecca M. Brown, of the Sidon Seminary, also left for the United States upon furlough, after seven years of continuous service in Syria. Providential reasons subsequently obliged her to resign her connection with the mission. Her rare qualities of mind and heart and her devoted diligence in the discharge of her responsibilities in the Seminary had greatly endeared her to her fellow-workers, and her loss is severely felt. Her place in the

Sidon Seminary during the year has been filled by the temporary removal of Miss Mary T. M. Ford from Tripoli to Sidon to assist Miss Charlotte H. Brown in the management of the Seminary. Rev. George A. Ford was seriously ill for a time during the summer, while Miss Charlotte Brown was disabled for some weeks by an accident. These untoward incidents crippled the station very seriously for the time, but late in the autumn Rev. W. K. Eddy and family returned from a year's visit to the United States, and were most heartily and gratefully welcomed by the entire station. The reception given them on their return by native friends, of Sidon and the Sidon field, was a spontaneous and genuine exhibition of gratitude and appreciation. Much anxiety and annoyance have been occasioned by cholera alarms and military cordons.

The Native Contingent.—The record of the station with reference to its native agency has been a very gratifying and suggestive one, and shows the educational resources of the Sidon field. During the year, 64 native laborers have been in the employ of the station. Of this number 33, or more than half, were trained within the bounds of the field; 14 others were reared and trained in part in the station, finishing their education in the College or Theological Seminary; 8 were reared in the station and trained elsewhere before the Sidon Academy was established; while 8 come from outside the bounds of the station.

The Female Seminary.—A class of eight girls graduated in the past year. The Commencement Exercises were held in May, before the departure of Miss R. M. Brown. A Commencement address was delivered by Rev. F. E. Hoskins, of Zahleh. In July, just as the final examinations were to be held at the close of the school year, the tidings were brought that cholera had appeared in Acre, and a cordon was to be established around Sidon. The school was immediately dismissed, and fortunately the pupils were able to reach their homes without difficulty. The school was opened again in October, with Miss Ford, of Tripoli, associated with Miss Charlotte Brown, and the year thus far has been a successful and prosperous one. The number of pupils in the Seminary has been: boarders, 38; day scholars, 90. An interesting state of religious feeling has been noticeable among the pupils, and eight have been received into the church. Others are on the roll of applicants for church membership. The vacancy caused by the resignation of Miss Rebecca Brown, it is hoped, will be filled speedily by a lady missionary sent out by the Board. Mrs. Dale, of Beirut, has been appointed to take the place of Miss Charlotte Brown during her expected absence upon a visit to America the coming year.

The Academy for Boys.—The Sidon Academy has had 75 boarding pupils and 20 day scholars during the year, coming from 35 towns of Syria. The number in attendance this year is 26 more than last year, although a noticeable advance has been made in the matter of pay pupils. The girls of the Sidon Seminary are gathered from 20 different localities, so that through these two institutions there are 55 towns and villages throughout Syria which are represented in the Sidon educational institutions.

The Presbytery.—At the Annual Meeting of the Presbytery, the

interests of the native churches of the field were carefully considered, and fraternal plans were organized for mutual helpfulness. The disappointing result in the matter of self-support by the native churches was seriously considered, and resolutions passed looking to a more earnest effort in that direction during the coming year. The native members of the Presbytery who had been asked by the mission to assume their share of the responsibilities and difficulties of a distribution of funds and settlement of wages, are now desirous of handing back these duties into the hands of the missionaries, as they find it requires a measure of care and involves a degree of personal responsibility which they would be glad to see in other hands. The mission will urge them to be faithful in the discharge of this duty, both for their own sakes and in the interests of native independence and self-government. The churches of the station have received an addition of 25 on confession.

Incidents.—The work among non-Christian sects is exceedingly difficult and perplexing. The following incident will reveal some of the complications which are likely to arise the moment our mission work extends outside the circle of the Oriental Christian churches. Some Bedouin boys were being transported to one of our schools, at the request of their relatives. At a point on the route the muleteer was seized by some malicious Kurds, who delivered him to the Turkish authorities upon the accusation that he had kidnapped the boys to make proselytes of them, and when the relatives, summoned before the Governor at Acre, refuted this false charge, they were heavily fined, their testimony was thrown out, and the innocent muleteer was sent by military escort a prisoner to Beirut, where he was confined in a dark inner prison, where he suffered from sickness and was cruelly beaten. He was only released finally by his relatives selling his mules and borrowing sufficient additional money to pay those in authority to give him his freedom.

Tripoli.

The year in Tripoli Station has been marked by an advance all along the line. It has not been in any sense an eventful year, but much quiet, persistent, and hopeful work for the Master has been accomplished, and the year has been fruitful in results which have in them the best features of permanent success and spiritual progress. The corps of workers has been unchanged, except that Miss Mary T. M. Ford has been delegated to assist the Sidon Station during the year in the Girls' Seminary at that station. The educational work has been carried forward with a notable stimulus, and the church membership has been increased by 49 additions on confession during the year.

A glance through the field seems to fix our attention upon several prominent features of missionary experience, which we can group under the following heads:

The Turkish Government.—The Government hostility still continues in a very persistent and determined way. All efforts at building are closely watched and promptly interfered with, although our schools which had been closed have, after a long struggle, been opened. The opening of new schools is almost an impossibility. It is only by

the good Providence of God that the new dispensary building has been erected in connection with the school property at the Mina, and the Government seems to be still plotting to interfere with the use of the dispensary, if any possible device can be invented which will give them the opportunity. Fortunately, any one of the Government officials may at some time "need the doctor," and so they are inclined

personally to allow his work to go on.

The Ecclesiastical Hierarchy.—The Jesuits are our sworn enemies and our active foes. They dog our footsteps and watch our work with an ever vigilant and malicious spirit. In the little villages where our work has every prospect of going forward successfully and drawing the entire population under our influence, we will find that Jesuit emissaries soon appear upon the scene, and make it their business to do us injury. With the Government flanking us on one side, and the Jesuits on the other, we find many unexpected difficulties starting up in our pathway.

An Inspiring Educational Outlook.—It is a noteworthy fact that at the time set by the Government for the closing of our schools we had more of them in operation than is usual in the Tripoli field. This is no doubt the answer to the many prayers offered for God's help and interposition. At the close of the year there were 29 day-schools in operation, besides the day department of the Tripoli Girls' School, and during a portion of the year the number of schools which were open at the same time was 33, a larger number than has ever been recorded

in the history of this station.

The Tripoli Girls' School, with its boarding and day departments, is the most important educational institution under the care of the Tripoli Station. The annual commencement exercises of the school were held in April, 1892, and consisted of a baccalaureate sermon by Dr. H. H. Jessup, and a public examination of the graduating class, followed by appropriate exercises in connection with the distribution of diplomas, when an address to the graduates was delivered by Rev. George E. Post, M.D. A social reception by the faculty was attended by many friends of the school. Although the graduating exercises were held thus early in the spring, the school continued in session until July, with 45 boarding pupils in attendance, which crowded the building to the utmost capacity. The new school year opened October 11, with 43 boarding pupils, representing 17 towns and villages, and in the day department of the school were 130 scholars. There has been much sickness in the school since the year began, and one of the preachers of the station, who was accustomed to give instruction in the school, has died. He was an estimable young man of great promise. The school is growing in usefulness and power. The religious influence permeates the entire life of the institution. There are constant tokens of the presence of God's Spirit, and hearts are given to Christ, one after another. Meetings for prayer are regularly held each day. In the noon recess there is a meeting for churchmembers and those desiring admittance to the church; much tenderness of feeling is often shown in this little gathering in the presence of the Master. Every Friday afternoon there is a general meeting for

prayer in the study-room, conducted by one of the teachers, and on Sundays, in addition to the Sabbath-school and church service, there are four different prayer circles which meet in the evening. Miss La Grange and Miss Holmes, with their native assistants, are doing most thorough work, with a supreme spiritual aim, and with many prayers for the souls entrusted to their care.

The Tripoli Boys' School is a new enterprise, inaugurated this present year. It is a high-school, and has been a success from the outset, although it has met with considerable opposition from the Greek and Papal ecclesiastical authorities. There are about 40 pupils in attendance.

The village schools throughout the field have given a real impulse to our work. They are centres of influence. They interest the hearts of parents, and secure a resident teacher and representative of the Gospel, who often makes his school a place for religious service on the Sabbath.

Medical.—The medical work, under the care of Ira Harris, M.D., with some native assistants, has been a conspicuous feature of the station work at Tripoli during the past year. The new dispensary building at the Mina, near Tripoli, has greatly facilitated the surgical services of Dr. Harris. Upon the first floor of the building is a pleasant room, in which the patients gather for a daily religious service, and then await their turn for the doctor's attention on the floor above. Upon the second floor, which covers also the adjoining school building, are the consulting-room and dispensary, and a special room for ophthalmic examinations, and also the operating-room, and three wards for the accommodation of patients. A religious service invariably precedes the daily clinique, at which more than a hundred persons are frequently gathered. There were 300 of these religious services held during the past year. The patients who have been treated at the dispensary during 1892, have come from at least 400 different towns, and some of them from a distance requiring a journey of six days. There were 3,300 new cases treated during the year, representing a total of 10,000 consultations in clinique hours, besides many house visits and irregular calls. There have been 511 surgical operations of all classes. The facilities for taking care of patients after the operations are highly appreciated by the doctor, and render his work successful in many cases where the lack of these facilities would have been a serious matter. Mrs. Harris has often visited the women at the dispensary, and her kind sympathy and Christian instruction have given light and comfort to many hearts in their hour of trial.

An Aggressive and a Progressive Gospel.—The churches of the field have in many instances given evidence of vigorous spiritual life and growth. At Hums the question of a pastor is still unsettled. The church has been faithful in its regular stated contributions towards the salary of a temporary preacher. A graduate of the Theological Seminary has recently been sent there, in the hope that the church will unite upon him, and call him as a pastor. At Amar the congregation has far outgrown the church capacity, and work has already begun which will result in doubling the size of the building. At Beinu there

has been an awakening during the year; religion has been a theme of public discussion throughout the village, and the light seems to have broken in, and many conversions to Protestantism have been made, and there are also several candidates for church-membership. Minyara is the brightest spot in our field. The church has grown rapidly, and it promises to be soon the largest communion connected with our station. There are at present 82 members, and 15 candidates for membership. The church building has been enlarged to meet the necessities of the congregation.

The meeting of the Presbytery in Tripoli, in April, was a pleasant occasion, full of fraternal warmth and spiritual profit. The religious interests of the different villages were considered and discussed, and many plans made for aggressive evangelistic work during the coming year. Opportunities are presenting themselves, often very unexpectedly, and we realize that prejudices are growing less, and that God has in store for us a fruitful future. A few years ago it was said that the two villages of Jibrail and Rahbeh would never receive Protestant schools. We have to-day a school in the former, and an urgent petition from the latter, asking for a teacher as soon as possible.

A Suggestive Comparison.—The facilities for higher education in other fields of the mission are far in excess of those to be found at Tripoli. The British Syrian schools are scattered throughout the Sidon and Zahleh fields, while there are no schools of that society at Tripoli. Our large seminaries are located at Beirut, Sidon, and Sukel-Ghurb, while no boy of the Tripoli field can secure higher educational advantages nearer than Beirut. Tripoli Station needs its own training-schools, and the time is soon coming when an earnest appeal will be made for a boys' boarding academy at Tripoli.

The reports of the station are full of hopefulness and courage, and breathe a spirit of ardent devotion and earnest consecration on the part of the missionaries. They love their field and enjoy their work, and God is giving them inspiring tokens of His favor and presence.

Abeih.

The report of Abeih Station begins with an acknowledgment of God's goodness, and praise to Him for the unnumbered mercies of the year. The trials of the year have not been connected with providential dispensations, or disappointments and failures in the work, or the opposition of enemies, or the prevalence of epidemic, but rather the limited resources for carrying on the work, and the bewitching charms of the Chicago Exposition. Many candidates are reported for church membership. There is much friendliness and courtesy among the people and the rulers, and importunate appeals come from many directions for the opening of missionary work; but the two points where the station has especially felt its limitations are the stringency of funds and the alluring influences of America's great Fair, which have drawn many of the teachers from Syria to Chicago in the hope of worldly gain. The station, however, has had as many teachers left as it had the means to maintain; and while some of the native corps

have followed the example of Demas, others have developed greater zeal than ever. It requires a terrific struggle on the part of a Syrian teacher to remain at his post upon the salary which the mission is able to give, when the prospect of financial success and all the attractions of the New World beckon him to America. It seems to have been the mission of Abeih in the past, and more than ever so in the present, to supply laborers for other fields. In the Protestant community at the present time only 7 of the unmarried young men remain, while 35

have gone elsewhere.

The Suk-el-Ghurb Boarding-School.—The school was crowded during the past year with 77 pupils, and since the opening for the present year, in October, there have been 88, making, with the day scholars, a full hundred in attendance. Much attention is given to the study of the Bible, which is a daily text-book, and always in the Arabic, since the mother tongue is the best possible medium for conveying religious truth. A Christian Endeavor Society has been formed, which has its meetings every Sunday evening, and much spiritual good has been done through this agency. The quarters occupied by the school must be enlarged to accommodate the numbers desiring to attend. At the writing of the report the school was in successful operation, with all the pupils it could possibly accommodate, and with every sign of

prosperity.

Evangelistic Incidents.—Our attitude in regard to our work is more than ever one of expectancy. Special success in some places seems near at hand, but to depend, nevertheless, upon certain contingencies. "The village of Aramûn furnishes an example. The Protestants there are numerous enough to have a mukhtar, or 'select-man,' to represent them in local matters. This they have petitioned for again and again, but thus far in vain, because of the strong influence the Greeks possess with the Government. Could this right be secured, many stand ready to come forward and join us. There has been greater zeal and more interest in this outstation the past year than usual. During the summer religious meetings were held every evening at the houses of the people, at which new recruits were pressed into the service and new voices heard in prayer and exhortation. Several have made application for church membership. The spirit of liberality was quickened and a benevolent society formed. The Sabbath services were well attended, and the children in the day-schools, in the winter, reached 120 in number. The day before Christmas the missionary at Abeih was called to Maalaca (two hours west) to conduct the funeral of an infant. The father and some of his brothers had professed themselves Protestants some months before, but it had been considered as probably a temporary matter. Efforts had been made to enlighten them, and they had been provided with tracts and books. But this new step was one of special importance and publicity. A Protestant funeral had never taken place in that village, wholly and intensely Maronite. When the missionary and the native helper who accompanied him arrived they found that the priests had come, expecting to bury the child, but had been dismissed. After some discussion as to a spot suitable for the grave, to their great surprise, leave was obtained to have the interment in land owned by the Maronite church, and formerly used as a burying-ground! Such a thing had not been deemed possible, and trouble had been apprehended. The funeral over, at the urgent invitation of a friend, an influential man, who has two sons in the Beirut College, the missionary consented to be his guest over the Sabbath. He accordingly preached in the morning to some 30 or 40 men, who manifested great interest and remained after the sermon to hear an exposition of Protestantism. When opportunity was offered for questions and objections (and such were politely volunteered) the majority appeared to sympathize with the missionary and laughed at the objectors. Several other meetings were held and some calls made. The people urged much that we open a school there, and some requested regular Protestant services. There seems to be an open door in that locality. The father of the child has been heard from several times since, and has been most vigorous

in defending the truth and attacking error."

"Ghureefy, two hours south of Deir el Komr, has excited special interest. The inhabitants are mostly Druzes, and, for mountaineers, pretty well off financially. The Greek Catholics are poor and form a small minority. We had had a school there part of the time the past two years, and two families had become enlightened from among the Greek Catholics by this instrumentality. The most influential man of the sect in the place, after examination of the matter, was convinced that these converts were right, and began, in a mild and cautious way, to ventilate his new views. The intelligence of this change of belief reached the bishop of the diocese, who forthwith deprived the erring member of his flock of his office in the village government. Scandar then threw off all reserve and declared himself openly a Protestant, and was followed by many of his friends, thus swelling the number of our adherents to about 50. For months these men have met every evening for the study of the Scriptures, conversation, prayer, and praise. They have learned several of our tunes and enjoy singing them, and have made much progress in religious knowledge. They speak of finding themselves in a new world, with new facilities and privileges. If anything detains our native helper from being present and preaching on the Sabbath, Scandar takes his place and conducts the service. is very intelligent, is well known in the vicinity, and his change of views has been the subject of much discussion. His grasp of religious truth and earnestness in prayer are very gratifying."

Woman's Work.—The work among the women at Abeih has been conducted as usual by Miss Bird. Weekly religious meetings have been held, and the Sewing Society of native women has met regularly to sew for charitable and religious purposes. They have raised and donated during the past year about \$40. The young women and girls have lately established a weekly prayer-meeting upon Sabbath afternoons, which they conduct themselves. Other stations have also been visited by Mrs. and Miss Bird, and meetings have been held among the women. The month of October was devoted by Mr. Bird and family to Deir el Komr and vicinity. "It was a gratifying visit, spent by the ladies in that town mostly. Many calls were received and

made, schools examined, meetings held, and the communion administered. The magic-lantern proved an auxiliary in our work, and was exhibited, by invitation, in some of the houses, as well as on our own premises. The slides were mainly of a religious character, illustrating Bible scenes or those of the Pilgrim's Progress; the rest were astronomical. Persons thus heard the truth explained who would not come to our services. At the close of our visit a trip to the neighboring villages was interrupted by heavy rains, and the party returned to Abeih early in November. The time spent in Ghureefy was much enjoyed, because of the interest of the people and the opportunities for sowing the good seed."

Native Consecration.—One of the native preachers of the station, by the name of Khuri Girgis, died during the year. He was formerly a priest who was converted to Protestantism, and has been a faithful and consistent preacher of the Gospel for many years. About a year before the close of his life he voluntarily relinquished his salary, expressing a desire to serve his Master without pay, which is a unique ex-

ample in the missionary annals of Syria.

A Hopeful Outlook.—There are multitudes within the bounds of the Abein field who are near to the kingdom, but the extraordinary difficulties of a public change of religious faith restrain them. The Romish and Greek clergy of the land are the recognized heads of powerful political parties, and they exercise their political power to intimidate their constituents. The financial success of many a man depends upon their influence. There is much to encourage in the spirit of the native helpers of the field. The result of the emigration fever has been to sift out the chaff and retain the wheat, and we have now a more reliable corps of native helpers than ever before. There have been admitted to the church during the year throughout the field twenty-five new members.

Zahleh.

The report from this vigorous young station seems to bring with it a breath of the bracing mountain air of Lebanon. Its members have been well and busy, and full of earnest labors during the past year. There has been much perplexity and annoyance and exacting toil in meeting the obstructive policy of the Turkish Government, which has been especially active within the bounds of this station. The emigration craze has swept through the Zahleh field with resistless power, and although multitudes had already gone, the past year has witnessed an almost uninterrupted continuance of the strange and sudden impulse to exchange the simple life of a Syrian mountain village for the adventurous experiences of fortune-hunting in distant lands. There was some difficulty at the beginning of the year in securing suitable teachers, as many had resigned to go abroad, but other stations generously assisted, and the vacancies were filled, although ten of the eighteen outstations of the field had entirely new teachers, and in Zahleh the entire force of four teachers was new. The success which the emigrants seem to have in the United States, in South America, and Australia, and the tangible evidence of it in the large sums which they

send back to their friends, keep the excitement at fever heat. Our salaries seem insignificant, and cease to be any inducement to our teachers in view of the prospect of success in other lands, and only earnest consecration and self-denying loyalty to the cause can keep them at their posts. We cannot increase salaries sufficiently to enter into any business competition with opportunities elsewhere, yet we feel encouraged by the spirit of our teachers, and we are hoping that this struggle with self and the world will deepen their loyalty to Christ's cause.

The Battle of the Schools.—The past year has been one of worrying conflict with the Government in connection with our schools. The total number of pupils enrolled is 1,380, and the teachers in our employ number 28. The Government closed our school at Ras Baalbec June 2, and placed the village of Hadeth under bonds not to send their children to our school, and has opened four Moslem schools within the bounds of our field, one of which immediately drew sixty Moslem boys from our own school in Qobb Elias, where it was established.

A Jesuit monk went to Ras Baalbec and preached a crusade against our work there. He succeeded in frightening the people, and took from our pupils their Bibles and school-books and burned them. He then persuaded the leading men in the village to make a false complaint with reference to the school to the Governor in Baalbec, petitioning that it should be closed. The Governor sent two soldiers to shut the school, but having no written order in their hands, our teacher refused to acknowledge their authority. The soldiers shut the school by force, and took the key. Mr. Hoskins now arrived upon the scene, and finding that the whole proceeding had been irregular, he opened the school with his own hands, and started it again as usual. He called the villagers together and discussed the question with them, and won them to a favorable attitude. The Governor at Baalbec, however, was ugly and persistent. He sent soldiers and closed the school again. Long negotiations followed, during which the animus of the Governor appeared in an intimation that fifteen French pounds would settle the matter. The case was carried by Mr. Hoskins to Damascus, and finally the higher authorities at the capital ordered the school opened and reprimanded the Governor. The school was opened August 14, and there has been no further molestation. A new teacher at Hadath has reopened the school in that village with fortyfour pupils. The Moslem schools which have been opened are not acceptable even to the Moslem constituency, who well know the superior character of our own. A Moslem father at Oobb Elias boldly determined to defy the Government and patronize our Protestant school. His example was contagious, and in a single month all the boys had returned. Of the twenty-one in that school who took prizes for perfect recitation of the Catechism, ten were Moslems. At present, five villages where we have no schools are urgently appealing to us to open them, offering to provide a house for the teacher and a place for the school.

Material and Spiritual Repairs.—The wear and tear of the ele-

ments render repairs to our mission property imperative from time to time. The Government sees its opportunity, and vetoes the repairs, and calls for an Imperial order to justify them. It took us eighteen months to secure permission to repair roofs that were every day in danger of falling. Our church at Sughbeen has been a constant menace for over a year. We had desired to build a second story, but have been unable to do so, and even in the repairs to the roof we have not been able to lay one stone upon another, but simply replace worn-out material. We have now put in iron rafters for the roof, and are ready to match its stability against the patience of the Turk in waiting for his opportunity. He will find that his next point to catch us will not be the Sughbeen roof. We have also put an iron roof upon the Leditha church, which has been another point where the Government has troubled us. Our policy is to match solid iron against Turkish obstructionism.

We proceed with our spiritual repairs with less interference from the Government. They can interfere with our material work, but our spiritual victories are won in the silent realm of the soul, under the protecting Providence of a Divine Leader. No Imperial Firman can prohibit the building up of these waste places of the heart. Four have been added upon confession to the Zahleh church. Three Zahleh girls have recently united with the church away from home,—one in Sidon, one in Beirut, and another in Lawrence, Massachusetts. Other residents of Zahleh have united with Protestant churches in We hear of Moslems at different points in our field who are reading the Bible in private, and in some places it is read to groups of interested listeners. In Qoroun a young Catholic recently died who had been studying the Bible and committing much of it to memory. He gave a clear testimony upon his death-bed of his trust in Christ alone. The leaven of the Gospel is working steadily, and its silent power is manifest, although the results are not such as can be tabulated or formulated in definite statements.

Native Loyalty and Liberality.—The consecration of many of our native laborers has been noted with gratitude and congratulation, and no more convincing evidence of the sympathy and warmth of the native heart can be given than is afforded by the record of liberality on the part of our native converts which is given in the Zahleh report. There has been a considerable advance in the contributions of the native community during the year. The Zahleh church for the first time formally voted \$18 towards the salary of their native preacher, and also united with the Meshghara church in sending a thank-offering to our Board of \$18.68. It has also donated \$11 to the Mayor of Philadelphia to be forwarded for the relief of the sufferers from famine in Russia. A member of this church has contributed personally \$20 to the support of the mission; another, who is at present the Syrian preacher in Chicago, has forwarded \$5 for mission work in Zahleh, and still another Zahleh church member now in America has sent \$107, which he wished distributed as follows:—one-third to be given to the Zahleh church; another third to be spent for Bibles for the poor Catholics and Maronites of Zahleh; one-sixth to be distributed among the poor; and another sixth for lamps for the church in Zahleh. The amounts paid by the natives for education have also increased so that the sum total of all moneys collected for all purposes from the native community of the Zahleh field, is \$1,263, or nearly fifteen per cent. of all expenditures for work by the Zahleh station.

A Notable Personal Record.—Some conception of the amount of work done by a Zahleh missionary can be gathered from the personal report for the year 1892 of Rev. Franklin E. Hoskins, a member of the station. The record is commended to critics of missions who claim that missionaries are idlers and enjoy too much of worldly luxury. After referring with gratitude to God's goodness, and the fact that he has enjoyed excellent health, without an hour of sickness during the year, Mr. Hoskins reports having preached at 43 regular Sunday services, and conducted hundreds of prayer-meetings and conferences in villages. He has conducted nine communion services, and baptized ten children, but has not been called upon to officiate either at a wedding or a funeral. He has made 106 visits to outstations in the field, and also to ten stations in the Sidon field. He has made 318 calls upon natives, and entertained a much larger number who have called upon him. He has preached once in the chapel of the Syrian Protestant College, and delivered one commencement address at the Sidon Seminary. He has given ten magic-lantern exhibitions. He had been absent from Zahleh 199 days, and travelled 2,100 miles in the saddle, and 300 miles in the diligence, and has spent nine days in quarantine. These days and nights away from home we may readily believe, as Mr. Hoskins writes, "were not spent in palace hotels nor in sleeping cars, but in places often damp and cold, and rarely comfortable and clean." In addition he has prepared ten articles, which have been published in various periodicals, and has written twenty letters to churches and bands, and to the students of Union Theological Seminary, who for the past four years have assumed the support of Mr. Hoskins as their missionary,

With this report of the Zahleh station our record of the year 1892 in the Syria Mission comes to an end. As the Church contemplates the variety and volume of the service rendered to the kingdom of our Redeemer by this mission, the largeness and promise of the outlook, the excellence of the work done, and the personal fidelity and consecration of the workers, should we not give thanks to God for another year of successful advance, and pledge ourselves anew to a thorough support and vigorous prosecution of a mission enterprise with a past

so interesting, and a future so inspiring?

IV. MEDICAL WORK AT ST. JOHN'S HOSPITAL.

The Physicians of the Medical Department of the Syrian Protestant College have been appointed by the Order of St. John in Berlin as the Medical Attendants of the "Johanniter-Hospital" in Beirut. This most interesting Charity, supported by the above-mentioned Order, and served also by the Deaconesses of Kaiserswerth, has received during the past years:

FIELD SECRETARY ACCOUNT. '

Rev. Thomas Marshall, D.D., assumed his duties as Field Secretary, December I, 1890, on the basis of pledges of special gifts almost sufficient to meet his salary. From December I, 1890, the account is as follows:

| Total Payments for Salary | \$4,666 65 |
|---------------------------------|------------|
| Total Receipts | 2,788 53 |
| | |
| Balance Deficit, April 30, 1893 | \$1,878 12 |

All expenses other than salary are included in the general statement of Home Department Expenses.

WILLIAM DULLES, JR.,

Treasurer.

NEW YORK, May 12, 1893.

unused is reported to the Board. Owing to inability—because of death or other unforeseen cause—to carry out some form of work for which appropriation was made, a balance is left in each of the Station Treasurer's hands. As these cannot be accurately determined until after April 30th, the The fiscal year of the Missions closes on April 30th. At that date the accounts of the Treasurers on the field are made up, and any balance total amount is entered in the year following that in which the saving actually occurs. The saving in year ending April 30, 1892, was exceptionall, large because of low price of silver.

May 12, 1893. We have examined the above accounts and find them correct.

(Signed),

FRED'R BOOTH, Auditors.

NEW YORK, May 12, 1893. WILLIAM DULLES, JR., Treasurer.

ANNUAL REPORT OF RECEIPTS

BY THE

BOARD OF FOREIGN MISSIONS

DURING THE YEAR ENDING APRIL 30, 1893.

Items here stated as receipts from the Woman's Boards are those reported by them. The amounts received by this Board during the fiscal year of 1892–1893 from the Woman's Boards, are given on page 326. The contributions under the heading of "Sabbath-schools" are not included in the first column, which represent the donations of churches.

During the year various funds were received for special objects not under the care of the Board, and duly forwarded. Such gifts cannot be credited by the Board in its regular accounts, as they are not under the control of the Board, nor available to meet its obligations for authorized work.

*On March 16, 1892, the Assembly's Board received from Estate of Mrs. S. L. Bradley, \$5,000, which by the will was for the use of the Woman's Board of Foreign Missions, and should have been entered in the account of the Woman's Board at New York.

The error is acknowledged, and this tardy credit given to the proper society.

WILLIAM DULLES, JR., Treasurer.

An Act to incorporate the Board of Foreign Missions of the Presbyterian Church in the United States of America:

Passed April 12, 1862.—Chapter 187.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1.—Walter Lowrie, Gardiner Spring, William W. Phillips, George Potts, William Bannard, John D. Wells, Nathan L. Rice, Robert L. Stuart, Lebbeus B. Ward, Robert Carter, John C. Lowrie, citizens of the State of New York, and such others as they may associate with themselves, are hereby constituted a body cor, porate and politic forever, by the name of the Board of Foreign Missions of the Presbyterian Church in the United States of America, for the purpose of establishing and conducting Christian Missions among the unevangelized or Pagan nations, and the general diffusion of Christianity; and by that name they and their successors and associates shall be capable of taking by purchase, grant, devise, or otherwise, holding, conveying, or otherwise disposing of any real or personal estate for the purposes of the said corporation, but which estate within this State shall not at any time exceed the annual income of twenty thousand dollars.

Section 2.—The said corporation shall possess the general powers, rights, and privileges, and be subject to liabilities and provisions contained in the eighteenth chapter of the first part of the Revised Statutes, so far as the same is applicable, and also subject to the provisions of chapter three hundred and sixty of the laws of eighteen hundred and sixty.

Section 3.—This act shall take effect immediately.

Seventy-Fourth Annual Report.

In presenting to the General Assembly its Seventy-Fourth Report, the Board of Education is happy to say that a kind Providence has kept its number unbroken during the year past, and enabled it to prosecute its business with a fair degree of success.

All the officers of the Board chosen last year were re-elected, to wit: Rev. George D. Baker, D. D., President; Rev. Jas. M. Crowell, D. D., Vice-President; Rev. D. W. Poor, Corresponding Secretary; and Jacob Wilson, Treasurer.

In view of the debt of \$7000 remaining upon it, and of the probable increase of applications for aid in prospect, the Board at its first meeting in June decided that rates of scholarship for the current year shall be the same as for the previous years, viz. \$80 to Theological and Collegiate students, and \$70 to Academics; and that at the end of the fiscal year, if the state of the Treasury will permit, there shall be an appropriation to each student such as to make the total amount received by him as nearly as possible equal to the full yearly appropriation at the existing normal rate.

This supplement the Board regrets to say, it has not felt warranted in making, though the deduction has pressed heavily on some of the students; but on the other hand it rejoices that through the severe economy practiced, it is able to report the success of the scheme for relieving itself from debt.

CANDIDATES RECOMMENDED.

As was expected, there has been an increase, though a very slight one, in the number of recommendations, in all 904, and of these 868 were accepted, being an excess of 10 over those of last year; 36 were declined. Judging from the Professors' reports, the instances in which aid was asked for those who did not absolutely need it were very few. To quote from the President of one of our institutions: "explain it as we may, it is a fact that 'God hath chosen the poor of this world rich in faith;' and it is a further fact that most of the young men who enter the ministry, whether from city or country, are poor. Many of these candidates are the sons of ministers who have no accumulated estate; many are the sons of farmers and artisans and small merchants who are barely able to support their families; many are in their theological

course, having been brought through college without assistance, but whose fathers in doing this have exhausted their resources, or having other children, cannot rightfully deprive them of like advantages."

THE GREAT DEMAND.

A careful examination of the list of churches given in the Assembly Minutes for 1892, shows that the demand for ministers is going ahead of the supplies. Year before last, the Churches marked "vacant" numbered 1183; last year the vacancies were 1244, an increase of 61. Of these there were 263 reporting 10 members and under down to 1 or 2 each, of which latter class there are 7, hardly a membership enough to be counted as churches. Yet they go in to swell the number of our Churches up to 7208. On the other hand there are 133 marked vacant, which report a membership ranging from 100 to over 1000 each, while a large number of those of lesser size evidently call for the entire care of a minister. It is plain that the demand is gaining on the supplies. will be seen also from the following facts; the increase of churches from 1801 to 1802 was 138; the increase of ministers was only 108, 30 less; ordinations were 240, deaths, 138, net increase 102; number received, 91, dismissed, 40, net gain from abroad 51. Whatever way we look at the figures, it will be seen that we are not keeping pace with the development of the Churches, and much less contributing to fill the existing vacancies. Especially are our Western Synods suffering in this particular. That of Nebraska reports 98 vacancies; Kansas 62 vacancies; Minnesota, 70. This is only a specimen of the gaps that need filling.

There is another direction in which labor and means ought to be more fully expended, viz., that of furnishing ministers for our various immigrant peoples. This immigration from abroad is rapidly increasing in quantity and variety, and if we would not be denationalized by it we must labor to assimilate it; and there is no power to assimilate it like our Protestant Christianity. If we do not bring this to bear upon these new comers, we may rest assured they will largely be drawn under the dominion of a Christianity of another sort, antagonistic to our liberties, that is aspiring vigorously for ascendancy here. It becomes us therefore to be up and doing.

SUPPLIES.

The graduates from our Seminaries this spring number in all 243. This is a small advance of 15 upon the number reported last year. But from this we must deduct those who belong to other denominations,

and those who are fitting to be teachers, and those who are expecting to go on a foreign mission. This will bring the number available for our home churches down to a little over 200. These will go to fill the places of those removed by death and dismissal, supply the vacancies reported above, and man the new churches or-The inadequacy of this number for promoting the healthy growth of the Church, and accomplishing its portion of the great work to be done for the evangelization of our country, to say nothing of foreign lands, must be apparent to every one. To what the lack is owing is a point which it becomes the Assembly earnestly to consider. Is it the lack of piety in the churches which is the productive element of the ministry, or the uncertainty of obtaining and holding a position for labor, or the difficulty of acquiring the education demanded? Whatever the cause may be, the Board suggests that it devolves on the Assembly as the administrative body of the Church to examine and find it out and remove it if possible.

CANDIDATES AIDED.

The number of candidates under the care of the Board has increased from 858 (the number reported last year) to 868. They are distributed through their course of study as follows: in the Theological Seminaries, 429; in Colleges, 417; in Preparatory studies, 22.

Classified according to their nationality and race, 37 are Germans; 106 Negroes; 6 Bohemians; 4 Bulgarians; 1 Turk; 1 Brazilian; 4 Scandivanians; 4 Sioux Indians; 1 Spaniard; 9 Mexicans; 1 Japanese; 1 Italian. The rest are American, English, Scotch, Irish, Dutch and Swedes.

In point of scholarship 282 are marked high; 272 medium+; 258 medium; 9 medium—; 5 low. Those marked below medium have been retained on special information from their instructors that their excellence in other respects warrants good hope of success in the ministry. Three have been obliged to suspend study on account of ill health; 5 have withdrawn, having found other means of support; 2 have been called away by death; 27, though accepted by the Board on Presbyterial recommendations, were not reported by their Professors as needing the scholarships, and therefore they were not paid. The Board has been obliged to drop 5 candidates who have married.

Those who have completed their studies at the Theological Seminaries and have been gratuated this Spring are as follows: from Mc-Cormick, 52; Princeton, 25; Union, 12; Western, 12; Auburn, 3; Lane, 2; Newark, 4; Lincoln, 5; Biddle, 2; Dubuque, 7; Danville, 3.

THE NEWBERRY SCHOLARSHIP.

On careful examination by a Committee of the Board, the Newberry Scholarship, the annual income of which is about five hundred dollars, was awarded to Mr. H. N. Wilson, of the middle class in McCormick Theological Seminary, to be held by him for three years, during which time he is to prosecute special studies in vacation under the advice and direction of the Committee in connection with the Faculty. The working of this scholarship is such as to awaken the hope that other similar scholarships may be placed at the disposal of the Board.

The institutions at which our candidates have been studying are tabulated below.

The request respectfully submitted to the General Assembly at Portland, Oregon, in 1892, by the synod of the Welsh Presbyterian (or Calvinistic Methodist) Church, assembled at Oliphant, Lackawanna Co., Pa., through its Board of Education to be informed if it is possible for it to be united with our Board of Education in the work of fitting its young men for the Gospel ministry, and if so, on what conditions such a union could be effected, and favorably referred to this Board for an answer, was duly considered, and entrusted to a committee consist-

ing of Dr. J. F. Gayley, Rev. H. O. Gibbons, D. D., and Rev. Wm. C. Rommel, to frame a reply.

The substance of its report was as follows: After giving an account of a previous union of a like sort made on the basis of a similar request in 1870, which lasted until 1881, it states the two reasons why the union came to an end by the action of the Welsh brethren themselves. One was, they found considerable inconvenience in conforming to our rules, and the other was that their Churches were so untrained in systematic forms of benevolence that their contributions fell short of maintaining their students, and so their ministers were ashamed to send us more. On examination it was found that this deficit during the period of union amounted to a large sum. In view of this fact and also of the large number of candidates recommended to the care of our Board by our own Presbyteries, and the difficulty experienced in getting funds to sustain them, the committee declines to recommend a resuscitation of the union. As to the conditions on which it might be effected the committee felt incompetent to make a recommendation.

This report was adopted by the Board and an answer sent accordingly, which is embodied in the following resolution:

Resolved: That in view of the report presented by the committee, it is the judgment of the Board that it is not expedient at present to enter into any new arrangement with the Welsh Calvinisic Methodist Church with reference to the education of students for the ministry in that Church.

The members of the Board, whose term of service expires this year, are as follows: Ministers—George D. Baker, D. D., Jas. M Crowell, D. D., Wm. C. Rommel. Elders—Geo. W. Barr, Andrew Blair, Rudolph M. Schick, Esq.

All of which is respectfully submitted by order of the Board.

D. W. Poor, Corresponding Secretary.

The undersigned have examined the accounts of Jacob Wilson, Treasurer of the Board of Education, for the year 1892–3. Compared the same with the vouchers, and find them correct, with a cash balance of \$59.82 on hand; also the securities of the Invested Permanent Funds as stated, amounting to \$98,279.08.

ANDREW BLAIR.

GEO. H. STUART. JR.,

STATEMENT OF RECEIPTS

OF

THE BOARD OF EDUCATION,

By Synods, Presbyteries and Churches

For the Year ending April 20th, 1893.

APPENDIX.

ACTION OF THE GENERAL ASSEMBLY.

The Standing Committee of the Assembly consisted of the following named persons:

MINISTERS.

THOMAS D. EWING, D. D.,
JAMES CHAMBERS, D. D.,
THEODORE BRACKEN,
JOHN W. BAILEY, D. D.,
DAVID R. KERR, D. D.,
WILLIAM J. BRIDGES,
NINIAN B. REMICK, D. D.,
JAMES W. SKINNER,
CHARLES M. BROWN,
ALLEN BELL, D. D.,
OLIVER B. MCCURDY.

ELDERS.

A. N. COVERT,
GEORGE RUTHERFORD,
A. W. SMITH,
GEORGE W. MOUNT,
B. S. STEVENS,
JEREMIAH G. TUTHILL,
OLIVER O. JONES,
GEORGE N. GRAY,
N. P. DODGE,
ROBERT COWAN.

The Committee presented their report on Monday, May 2d, 1893, through their Chairman, Rev. Thomas D. Ewing, D. D., which was accepted. The Assembly was then addressed by Rev. D. W. Poor, D. D., Corresponding Secretary of the Board, Dr. C. S. Stewart, President E. D. Warfield and Mr. David Jacks.

The report was unanimously adopted, and is as follows:

Your Standing Committee on Education most respectfully present to the Assembly the following report:

The Committe have made a careful examination of the work of the Board for the past year, as presented in the minutes and the annual report and take great pleasure in commending the fidelity and efficiency of the officers and members of this Board. It has been enabled to close the work of the year almost free from debt, there being a deficit of only about \$600. But there are a few facts which must be stated at the beginning of this report.

We find 3,246 churches have contributed to this Board, while 3,702, a majority of 456, have not contributed.

The number of churches contributing is forty-five less than the previous year, and the amount contributed by the churches and Sunday Schools \$3,948.81 less. This deficit was made up in part by the back interest on a legacy. This falling off in the contributions of the churches and Sunday Schools is just cause for apprehension on the part of the Assembly and for pressing with unusual vigor the importance of the claims of this Board The number of candidates under the care of this Board during the past year is 868, an increase of ten over the previous year. Of these 429 are in the seminaries, 417 in colleges, and 22 in the preparatory schools.

Out of the whole number only three have had their appropriations suspended on account of reports unsatisfactory to the Board. But while we rejoice that the Board is able to come to this Assembly unencumbered by debt, it is well to inquire how this, in the absence of increased contribution, has been accomplished.

This has been done by reducing the appropriation to the students, very much the same way that a church sometimes rejoices to find itself free of debt by the minister paying his own salary, so the collegiate and theological students are given \$80 in lieu of \$100, and those in preparatory schools a reduction in the same proportion.

Now, either the regular appropriation is higher than is necessary or this reduction must occasion privation, if not suffering, that will greatly cripple the usefulness of this Board.

The word retrenchment is all well, and to be commended when it can be had along the lines of equity and justice, but it may require a retreat in the face of an enemy; it may necessitate the abandoning of important fields already partially cultivated; it may mean a great loss to the church in men and fruitage, and if so, it is to be greatly deplored. It is comparatively easy to report free from debt, but is it wise? Your Committee believe that a debt is to be chosen rather than any retrenchment that will cripple the work of this Board. The importance of the work of this Board appears if we consider—

First, the demand for men, We learn from the Annual Report now before this Assembly that last year the vacancies in our churches numbered 1,244; the increase of churches, 138; the increase of ministers only 108. We are not keeping pace with the development of the churches, to say nothing of filling existing vacancies. Throughout the entire West, and from all missionary fields in foreign lands, the call is for more men to preach the gospel of our blessed Saviour. There is yet another direction in which this same call is made—I mean from our immigrant population. Here permit me to quote a brief extract from the report of the Secretary of this Board. He writes:

"This immigration from abroad is rapidly increasing in quantity and variety and if we would not be denationalized by it we must labor to assimilate it. And there is no power to assimilate it like our Protestant Christianity. If we do not bring this to bear upon the new-comers, we may rest assured that they will largely be drawn under the dominion of a Christianity of another sort, antagonistic to our liberties, that is aspiring vigorously for ascendancy here. It becomes us, therefore, to be up and doing."

Graduates from all our seminaries this spring are 243; the death roll of the year numbers—. Assuming that 200 of this number enter at once upon the work of our Master, yet how small the force against such odds in the church.

THE NATURE OF THIS WORK.

This Board has well been called "The right arm of the church." But is there not danger that even a right arm may become weak and useless? Care should be taken that this arm may be made strong for service. May we not look upon the work of this Board as foundation work? If so, how can we build safely if the foundation be neglected? The Board of Aid for Colleges and Academies, joining hands with the Board of Education, should lay foundations broad and deep for the future temple of our beloved church. To this Board we look largely for our home and foreign missionaries. The growth of our church under God must largely depend upon the extent of this foundation work.

It is a question which admits no longer of discussion that that denomination of Christians that gives most care to the subject of Christian education, other things being equal, will wield the greatest power for good in the world. Has not the Presbyterian church, in some measure, at least, failed to appreciate its importance when it suggests that 5 per cent. of the consecrated gifts in the church is its due proportion? Add to this, if you will, the 7 per cent. for the Board of Aid, and you have only 12 per cent. of these gifts for this work. Surely we should devise more liberally for this branch of our work.

Perhaps a better figure for the machinery of our church is that of a tree striking its roots deep down into the solid earth, with its branches spreading all directions, so that its life-giving fruitage may be a rich heritage to all nations. The educational work is the root of the tree; assiduously and wisely cultivate it, and the good result therefrom will appear in every bough, branch and leaflet. Give to the educational work a due proportion of the consecrated gifts of the church, and it will send new life into every part of our church work.

There is one more fact that should be printed in italics and held up before our church which ought to silence the most, if not all, the objections raised against the work of this Board. It is that more than one-half of the present working force in the ministry has been aided by this Board, and these are in all departments of our church work as pastors and teachers in our colleges and theological seminaries, home and foreign missionaries, and I wish to emphasize the missionaries. Of our home missionaries there are 565, and of our foreign 106 of the 210 ordained ministers who have been aided by the Board Graduates from all of our theological seminaries last year were 243; of these 124 were aided by this Board. Ought not a Board with such a history and fruitage to be liberally supported by the church!

Your Committee present to the General Assembly the following resolutions:

- 1. That the minutes of this Board, having been examined by your standing Committee and found to be a faithful and correct record of its work, be approved.
- 2. That the Assembly express its high appreciation of the faithful labors of this Board and its executive officers, and heartily commends its work to the confidence and support of the entire church.
- 3. That the Presbyteries, through their Standing Committees on Education, enjoin upon the pastors and sessions to see to it that an intelligent presentation of the work, fruits and claims of this Board be made from their pulpits at least annually, in order that sufficient funds may be provided for the maintainence and enlargement of the work of this Board, and also that the Board be earnestly requested to consider whether more of its energies should not be directed to the presentation of its claims, personally, by the Secretary or others appointed for this purpose to the presbyteries and individual churches.
- 4. That Young People's Societies and Sunday-Schools in our churches be asked to consider the claims of the Board as presenting a cause of peculiar interest to them; and that they be urged to take up special work along this line, in correspondence with and under direction of this Board.
- 5. That the discretion of this Board as to accepting academic students be enlarged so that they may be received on similar terms to those in the college and seminary; and when necessity is laid upon the Board to decline accepting students, for want of funds, that it consider the wisdom of refusing aid to those in the higher classes in the seminaries who may have opportunities of aiding themselves rather than to students in academies.
- 6. In view of the paramount importance of the work of this Board and the pressing need for funds, we call upon the church for at least \$150,000 for the work of the coming year in order that the Board may be able to pay not less than \$110 to theological and college and \$80 to academic students.
 - 7. That the following members of the Board, whose terms of office expires with

the present year be re-elected, namely: Ministers, George D. Baker, D. D., James M. Crowell, D. D., and Wm. C. Rommel; elders, George W. Barr, Andrew Blair, and Rudoph M. Shick, Esq.

All of which is respectfully submitted.

T. D. EWING.

Chairman.

The Standing Committee on Ministerial Education also presented a Supplementary Report, being the answer to Overture No. 154, from the Presbytery of Steubenville, on the increase of aid to candidates for the ministry.

The Committee recommend that inasmuch as the substance of this Overture has been in other ways before the Committee, and has been provided for by its action in this report, no further action is necessary.

The following was also adopted by the General Assembly-

- 1. "That the Board of Education be enjoined to give aid to such students only as may be in attendance upon Seminaries approved by the Assembly."
- 2. "The Assembly therefore is constrained to withhold its approval and commendation of Lane Seminary, until the Board has reconsidered its action in this respect and remedied the error."
- 3. "The Assembly disavows all responsibility for the teaching of Union Theological Seminary, and declines to receive any report from its Board until satisfactory relations are established. The Assembly, however, cherishes the hope and will cordially welcome any effort to bring Union Seminary into such a relationship with itself, as will enable the Assembly to commend the Institution again to students for the ministry."

RULES OF THE BOARD OF EDUCATION

RELATING TO

CANDIDATES FOR THE MINISTRY.

I.—Dependence of the Board of Education upon the Presbyteries of the Church.

- 1. The Board of Education shall receive and aid candidates for the ministry of the Gospel only upon the recommendation of a Presbytery of the Church; and the Presbytery is responsible for their examination, subsequent care, and the designation of the annual amount of aid to be granted to them, within the limits set by the General Assembly.
- 2. The Board will in each case look especially to the Education Committee of the Presbytery for filling out and forwarding the form of recommendation required for the reception of a candidate, and also for the pastoral care of the same, until his entrance upon his official duties.
- 3. As a general rule, the Board will receive any young man of whose examination and recommendation in conformity with its requirements proper notification has been given; but it shall be at liberty to refuse new candidates beyond its ability to support them; and it will not give aid to students from the foreign missionary field unless they have been recommended by our foreign missionaries abroad, or have come to study in this country by a special invitation given from this Board upon the request of other duly recognized church authorities, or of missionaries resident on the fields from which they come.

II.—RECEPTION OF CANDIDATES.

- 1. The encouragement of a young man to enter the Gospel ministry is a matter of serious concern both to himself and to the Church; and it should be given only by those who have proper knowledge of his mental and moral character, accompanied with much counsel and prayer, and directly by a single desire for the glory of God. Every candidate should join that Presbytery to which he would most naturally belong; and he should be introduced to it either by his pastor or by some member of the Education Committee after such acquaintance as will warrant his taking the responsibility of so doing.
- 2. The Presbytery, in examining students with a view to their recommendation for aid, must embrace such points as are indicated by the following questions, to which definite answers, by the direction of the Assembly will invariably be required by the Board: Give name of candidate in full. Age? Residence? Has Presbytery examined him on the following, and were his answers satisfactory as to his Piety? Motives for seeking the ministry? Talents? Health? Promise of practical efficiency? Is he free from expensive and injurious habits? How long has he been a communicant in a Presbyterian Church? Please name the church. What is his stage of study? If in Academy, give name and class. If in College, give name and class. If in Seminary, give name and class. If in an Academy, send with this recommendation a statement of the circumstances that would warrant the Board in considering his case extraordinary. If in a Theological Seminary, has he pursued a collegiate course or its equivalent, If an equivalent, what was it? If the candidate is colored, has he complied with Rule VI., Sec. I and Sec. 2? Has he been recommended to Presbytery by his Church Session? Can he

recite the Westminster Shorter Catechism? Give the name of some responsible person (usually a member of the faculty of the institution, or the student's pastor) through whom the payments of appropriations may be made. What is the smallest amount required to meet his really necessary expenses to the end of this fiscal year, viz., April 1st? Has he read a copy of the rules sent herewith? Does he accept the requirements they contain? At a meeting of the Presbytery of . . . held at . . . on the . . . day of . . . 18, the candidate for the ministry named above, having been satisfactorily examined as to the points indicated by the questions above, is hereby, by order of the Presbytery, recommended to the Board of Education for aid to the amount specified. Signed by . . . Chairman of the Education Committee.

3. No candidate shall be received by the Board who has not been a member of the Presbyterian Church, or of some closely related body, for at least one year; who has not been recommended to the Presbytery by the Session of the Church of which he is a member; and who is not sufficiently advanced in study to enter college, except in extraordinary cases.

III.—Scholarships.

- I. The annual scholarships to candidates shall be the same in amount for theological and collegiate students, and not exceed \$150; for those in the preparatory course the amount shall not exceed \$100.
- 2. These Scholarships shall be paid to a student only on the reception of particular and satisfactory reports from his professors, embracing the following points: Christian Character? Scholarship? Rhetorical Ability? Punctuality? Economy?
- 3. The Board may increase or diminish in a general ratio, the Scholarships in case of unusual surplus or deficiency in funds.
- 4. No payment shall be made in advance. Each payment shall be acknowledged by a receipt signed by the candidate, or by the person authorized by him to receive it. And this receipt shall contain a pledge to return the amount given, with interest, in case he of his own accord turn aside from his ministerial calling.
- 5. In order to suit the period when the students most need assistance, and when the reports from professors can be most satisfactorily made, the reports shall ordinarily be made on the first days of October, January and April. The payments of a student whose recommendation is made at any time between those days may be expected to commence at the date of it.
- 6. The Board will in no case be responsible for the debts of students; but it is expected of them that the scholarship shall be first applied to the payment of tuition and boarding.
- 7. The payments to candidates shall cease regularly at the close of the collegiate year, or earlier when the time for which they were recommended by the Presbytery has expired, and these shall not be made in cases of prolonged ill health which may unfit them for the work of the ministry; or when they are manifestly improvident, or contract debts without reasonable prospects of payment; or when they marry; or when they receive assistance from any other educational board or society; or, when from private circumstances, they cease to need aid.
- 8. The sums of money appropriated by the Board shall be refunded to it, with interest, in case a student fail to enter on or continue in the work of the ministry (unless it appears that he is providentially prevented); or if he ceases to adhere to the standards of the Presbyterian Church; or if he changes his place of study contrary to the directions of the Presbytery, or continue to prosecute his studies at an institution not approved by it or by the Board; or if he withdraws his connection from the Church of which this Board is the organ, without furnishing a satisfactory reason.
- 9. A scholarship afforded by the Presbyterian Church, through the Board of Education, is not to be given or regarded as a loan, to be refunded by those who comply with these rules and regularly enter the ministry, but as her cheerful contribution to facilitate and expedite their preparation for it; and they are only obligated by it to a warmer interest in her efforts for the advancement of the Redeemer's kingdom, and especially to the use of the means necessary to instruct and stimulate her members in the duty of multiplying and sending forth preachers of the Gospèl of salvation to all the world.

IV .- CARE OF CANDIDATES.

- 1. Candidates are required, except in extraordinary cases, and then only with the explicit permission of their Presbyteries, to pursue a thorough course of study, preparatory to that of theology, in institutions that sympathize with the doctrinal teachings of the Presbyterian Church; and, when prepared, to pursue a three years' course of theological studies in some seminary connected with the same Church, and no work of preaching is allowed to interfere with the diligent and faithful prosecution of their prescribed studies until the close.
- 2. The Board can rely only upon the Education Committee of each Presbytery for the regular care of its own Candidates, which should include the constant exercise of a parental oversight over them in spiritual things, and the bestowment of the counsel they need as to their mode of preparation, their place of study, their trials, and the occupation of their time, while not engaged in study, in employments which will tend to qualify them for effective usefulness as pastors or evangelists.
- 3. The Board shall assist the Presbytery in its care of candidates, by furnishing annually to the Education Committee, a summary of information from the professors' reports as to the standing of each student; and the Corresponding Secretary shall exercise a general supervisory care over them, also visit and address them, when practicable, at the institution where they are, in regard to their duties and the claims of the office which they have in view.
- 4. The recommendation of each candidate must be annually renewed by his Presbytery, if possible, at the spring meeting, in connection with one from the Session of the Church of which he is a member, and a specification must be made of the amount needed by him; and until the notification of these points has been received, a student will not be considered as upon the roll for the year.
- 5. Recommendations, or renewals of them, made by an Education Committee in the interim of the Sessions of a Presbytery, shall be received as sufficient, provided its action is reported to the Presbytery at the next session, and not countermanded to the Board.
- 6. If, at any time, there be discovered in a student such defect in capacity, diligence, and especially in piety, as would render his introduction into the ministry a doubtful measure, it shall be the sacred duty of the Board to communicate without delay the information received to the Education Committee of his Presbytery; and if, on careful inquiry on the part of the Presbytery, no satisfactory explanation of the defect can be obtained, or if no response be received by the Board from the Presbytery or from its Committee on Education, within the current quarter, it shall be the duty of the Board to withdraw its aid altogether.
- 7. Special care should be exercised by the Presbytery in the examination of students who are about to enter upon the theological course, according to the instructions of the Form of Government (Chap. XIV. Sec. 111.): and this examination should be conducted by the Presbytery, and be entirely satisfactory as to the "real piety" of the students, "and the motives which have influenced them to desire the sacred office," before they are allowed to take this final step towards assuming its great responsibilities.
- 8. The annual report, occasional publications of this Board, and a copy of the Confession of Faith, shall be sent gratis to all students under its care who request them.

V.—Particular Duties of Candidates.

- I. Inasmuch as the great aim of the Church, in the establishment of the Board of Education, is the increase of holy and faithful preachers of the Gospel; the young brethren who look to this work are earnestly and affectionately reminded that all intellectual acquisitions are of little value without the cultivation of piety, and that they are expected and required to pay special attention to the practical duties of religion, such as reading the Scriptures; secret prayer and meditation; occasional acts of special consecration of themselves to Christ and to His service, as their Redeemer and as the Lord of all; attendance at regular meetings on the Sabbath and during the week; endeavors to promote the salvation of others; and the exhibition at all times of a pious and consistent example.
- 2. Inasmuch as the scholarships granted by the Board will necessarily fall short of a full support of the students, it will be expected that they and their friends will make all proper exertions to supply whatever may be wanting.

- 3. When a student shall find it necessary to relinquish study for a time, in order to increase his means for support, by teaching or otherwise, he shall first obtain the consent of the Education Committee of the Presbytery, or of the Board; and if when given he shall not be absent from study more than three months, his scholarship will be continued: but if longer, it will be discontinued, or continued in part, according to circumstances.
- 4. It shall be the duty of each candidate connected with the Board to report himself, soon after the meeting of the General Assembly, to the Education Committee of his Presbytery, as to his progress, wants and prospects; and when any of the requisitions of the Board which affect him may not be carried out by teachers or others, it becomes his duty to see that they are attended to, that delays and losses to himself may be prevented.
- 5. The reception of a scholarship by a student shall be considered as expressing a promise to comply with all the rules and regulations of the Board.

VI.—SPECIAL RULES FOR COLORED CANDIDATES.

- I. The Board will take none under its care as candidates for the ministry among the negroes during the preparatory course unless after a season of thorough trial and approval both as to piety and ability, through two or three years—as reported by their teachers.
 - 2. Such students are not to be aided more than two years before entering college.
- 3. It is not regarded as advisable for any colored student to pursue a full collegiate course who does not evince an aptitude for study that will enable him to reach at least a grade of 70, out of a possible 100, in sciences and languages.
- 4. In case a colored student evinces peculiar gifts for the ministry, aside from his ability to acquire a knowledge of the sciences or languages, he should be advised to pursue a wholly English course in History, Exegesis, Theology, Moral Science, etc.
- 5. The attention of the Presbyteries and Instructors is called to the great importance of having immoralities on the part of students under the care of this Board reported to it as soon as possible after such lapses from Christian character shall be known.
- 6. In order to discharge the trust imposed upon the Board with conscientious fidelity, the Committees of Presbyteries, who commend students to the care of the Board, are requested to furnish the Board with full and minute information as to the moral and Christian character, and the real mental ability and promise of the candidates so commended.
- 7. As there is a difference of expense in attendance at different institutions, and as it is one of the rules of the Board that students shall ask for the minimum sum that will meet their needs, therefore when the Board knows that any named sum at the special institution will suffice, the allowance from the Board shall not exceed that amount.
- 8. As it is enjoined in the Rules and urged upon the Board, by a special resolution of the Assembly, of 1878, (see Minutes of General Assembly, p. 47) that candidates enter and remain in the Presbytery to which they naturally belong, and by the Assembly of 1884 (see Minutes of General Assembly, p. 87) it is enjoined that candidates under the care of the Board pursue their collegiate studies in institutions that are in sympathy with both the doctrines and polity of the Presbyterian Church, the colored students under the care of the Board are enjoined to remain in connection with their proper Presbyteries, and to attend in both their preparatory and Collegiate courses, schools, either under the care of the Freedmen's Board, or taught by teachers in connection with our Church.

Presbyterial Recommendation of a Candidate to "The Board of Education of the Presbyterian Church in the U. S. A."

The Board of Education has been instructed hereafter invariably to require, in connection with the acceptance of a student, and before promising him aid from the funds of the Church, definite answers to several important questions which may conveniently be given according to the form below.

A candidate, in order to receive aid, must have been a member of the Presbyterian Church, or some closely related body, for at least one year: be recommended to Presbytery by his church session; and, except in extraordinary cases (colored students, and those of foreign populations, especially), be prepared to enter college. The recommendation, both by church session and Presbytery, must be renewed annually, if possible at the spring meeting of the Presbytery, and should state the lowest possible amount within the limits et by the General Assembly that the candidate requires to meet his necessary expenses for the year. The following form will also answer for Annual Renewals; such questions as that of the candidate's age, and that of his length of time in communion with the Church, if answered before, evidently need not be repeated; but, on consideration, it will be manifest that almost all the other questions deserve annual inquiry. Give name of candidate in full..... AgeResidence Has Presbytery examined him on the following, and were his answers satisfactory as to his Piety?.......Motives for seeking the ministry?.......Talents?...... Health?.....Promise of Practical efficiency?.... Is he free from expensive and injurious habits?..... How long has he been a communicant in a Presbyterian church?.... If in an Academy, send with this recommendation a statement of the circumstances that would warrant the Board in considering his case extraordinary, [in accordance with Rule II, Sec. 3, by which "no candidate shall be received by the Board who is not sufficiently advanced in study to enter college, except in extraordinary cases "] If in a Theological Seminary, has he pursued a full collegiate course or its equivalent? If the Candidate is colored, has he complied with Rule VI, Sec. 1?..................[That the Board will take no colored students under its care as candidates for the ministry during the preparatory course "unless after a season of thorough trial and approval both as to piety and ability, through two or three years as reported by their teachers."] It so, send his teacher's reports with this recommendation. Also, in accordance with Rule VI, Sec. 2, ["Such students are not to be aided more than two years before entering college"] will he be prepared to enter college within two years?..... Has he been recommended to Presbytery by his church-session?.... Can he recite the Westminster Shorter Catechism?.... Give the name of some responsible person [usually a member of the faculty of the institution, or the student's Pastor] through whom the payments of appropriations may be made.... What is the smallest amount required to meet his really necessary expenses to the end of this fiscal year, viz. April 1st?.... Has he read a copy of the rules sent herewith?.... Does he accept the requirements they contain? At a meeting of the Presbytery of.....held at....held at..... on the day of 18..., the candidate for the ministry named above, having been satisfactorily examined as to the points indicated by the questions above, is hereby, by order of the Presbytery, recommended to the

[With this, two copies of the rules are sent, one to be retained by the Education Committee of Presbytery for its guidance in making out the application, and the other to be given to the candidate.

Signed by.....

Chairman of the Education Committee.

(Signed).

This form is for the use of teachers or professors of literary or theological institutions, in reporting to the Board the progress and character of students for the ministry under their care, who have been recommended by the Presbyteries for aid from the funds of the Church. The grade or opinion on the points specified may be given in the terms: High, Medium+Medium, Medium—and Low: or in such other terms as will best express the views of the Reporter. Under "Scholarship," the class standing may be inserted

The report should be made carefully and conscientiously; and returned, without inspection by others, by the authorized teacher or professor directly to the Secretary of the Board. Any additional remarks or statements will be gratefully received, and may be very useful to the Board.

Regular appropriations are made at the meetings of the Board within the first half of October, January, and April. All reports (those for a portion of a term included) should be made at those times. The blanks above, for the name and locality of the institution, the term (or portion of it) covered by the report, and the date of sending, should be filled up; and they should be mailed a sufficient time before the close of the preceding mouth to reach the Office of the Board before the

It is respectfully suggested to instructors that it would be well to privately remind students before the spring meetings of the Presbyteries, of the necessity of the annual renewal of the Fresh terial recommendation to the Board, in order that aid may be continued.

REPORT OF THE STANDING COMMITTEE ON PUBLICATION AND SABBATH-SCHOOL WORK.

[Approved by the General Assembly.]

The Standing Committee on Publication and Sabbath-school Work, respectfully offer the following report:

A careful examination of four large books of record, in which the accounts and acts of the Board are preserved, reveals the admirable business methods that mark its proceedings. It appears that on the first Tuesday of each month there is a meeting of the Sabbath-school Committee; on the second Tuesday a meeting of the Business Committee; on the third Tuesday, a meeting of the Editorial Committee; and on the fourth Tuesday a meeting of the Board. The Secretary attends each of these meetings, thus keeping in close touch with every arm of service employed in the furtherance of the cause over which he is called to preside.

Not only so, but at the monthly meeting of the Board, all items of expense, and all transactions of all kinds are thoroughly investigated, and not one cent can be paid out in any department without the written order of two wise, experienced, and irreproachable business men, countersigned by the Secretary or by Mr. John H. Scribner, the Business Manager, who, for fifteen years, held positions of trust and responsibility in the well-known book house of Charles Scribner's Sons, New York city. Hence the money of the Church, sent to the Board of Publication, is most sacredly protected; and there is no possibility of the loss or misappropriation of funds, except by the treachery of some tried employee, a danger to which the most carefully guarded banking institutions of the world are necessarily exposed.

There is another fact it may be well to mention in this connection. It has been supposed and said by some that a considerable proportion of the money, contributed to the Board, is swallowed up in the expenses of carrying on its business operations. So far is this from the truth, that, for every dollar given

only to sustain the missionaries of the Sabbath-school Department, the Board gives back one dollar and twelve cents into the treasury of the Church. It is doubtful whether there is another ecclesiastical institution anywhere that pays its own expenses, and returns more than it receives. It does this, and it also furnishes, free of cost, rooms for the meetings of the Board of Education, the Board of Ministerial Relief, the Woman's Board of Foreign Missions, an office for the Editor of The Church at Home and Abroad, and it is the centre of all Presbyterian gatherings in the city.

The Church at large may be positively assured of the strict economy and painstaking fidelity with which the interests of the Board are administered; and it is both the duty and the pleasure of your Committee to commend it in all of its departments to the fullest confidence of our brethren.

As a proof that this commendation is merited, let it be borne in mind, that the Business Department closed the present fiscal vear with net profits amounting to \$38,681.81, of which twothirds, or \$25,787.87, were paid over to the Sabbath-school and Missionary Department, to carry the Gospel to the destitute portions of our country. During the year just closed 866 new schools have been organized, and 299 reorganized. Into these schools nearly 45,000 teachers and pupils have been gathered; about 68,000 books setting forth the truth of God, and more than 17,000,000 pages of tracts and periodicals have been gratuitously distributed; and more than 4,000 Bibles and Testaments given away. Every day in the year the Board has freely presented to the needy 186 volumes of Christian literature; 46,946 pages of tracts and papers; while its Missionaries have entered the homes of 67,789 families with the word of everlasting life, and clothed 5,000 destitute children.

Or, if we look at the work of the past five years, since the reorganization of the Board, more than 5,000 schools have been organized, more than 216,000 persons have been led to attend these schools, more than 314,000 volumes have been given away, more than 68,000,000 pages of tracts and religious papers have been distributed, and more than 300,000 families have heard at least some portion of God's Word and the voice of prayer. Who can overstate the importance of such a work, or who can value too highly the privilege of co-operating with the Board in its

plans to widen the field of its usefulness? If the means placed at its disposal had been ten times as great, it is reasonable to conclude that the incalculable blessings it has brought to many thousands would been increased ten-fold. But there is another and more serious aspect in which this beneficent work is to be viewed. After all the activity that has been manifested by all the Church societies and State Sabbath-school associations of the land, there are 14,000,000 of children and youth, between the ages of four and twenty-one years, who are still without regular Christian instruction. It has been estimated by an accurate statistician that there are 7,000,000 lads and young men in the United States who never enter a place of worship, and that 600,000 of these are annually in prisons and penal institutions. It is notorious that crime is rapidly increasing among the boys of our land, and it is an appalling fact which we should thoughtfully and prayerfully consider. But can we wonder at the humiliating statement when we remember that millions of immoral and infidel books, and vile periodicals and sensational novels inciting to deeds of violence, and obscene pictures, are scattered broadcast throughout our cities and towns and villages and country neighborhoods, corrupting and cursing soul and body, and polluting the very sources of life? How is this enginery of the devil to be met and overcome? So far as we can answer the question, it must be largely by making more efficient the labors of the Board of Publication, helping it to send forth more Missionaries, to establish more Sabbath-schools, to substitute for the pernicious literature that is defiling and destroying our youth the pure and healthful word of God in attractive form and with persuasive accents.

These depraved youth, growing up without Sabbath-school instruction, and ignorant youth cast by thousands upon our shores from foreign lands, are soon to control in a measure the fair heritage God has left us; and if the Church could be aroused to see the necessity of facing the perils that threaten her existence, if she would redouble her diligence to counteract the deadly influence of a Satanic literature that poisons not only the neglected children of the frontier and of our city populations, but also the children of our own homes, every congregation of our entire Presbyterian communion should esteem it a privilege to aid the Board of Publication in its efforts to save the chil-

dren. It seems to betray a want of intelligent and earnest interest in their work when we find that out of our 7,208 churches only 4,328 contributed anything to a cause so dear to the Saviour's heart.

If any are disposed to withhold their offerings from the Board that they may give more liberally to the Board of Home Missions, it may be well to remind them that the former is the pioneer of the latter. Already 238 churches have been organized from schools established by the Missionaries of the Board of Publication; and if this Board is strengthened to go forth in greater power to build up schools, it is obvious that the way will be prepared for the Missionaries of the other Board to reap a rich harvest because the seed has already been sown by the Missionaries of the Sabbath-school. The Missionaries of the two Boards work in perfect harmony, and there is not, nor can there be, the slightest friction between them because they are the two hands of one organized body. The Missionaries of the Board of Publication are required to be in strict subjection to the Presbyteries within whose bounds they labor, and such control prevents all but a noble competition to see who can do most for the Master.

Finally, there is one feature of the Board's service for the Church to which your Committee desire to call special attention and which they wish to bring to the notice of all our people, whether through the religious press, or through the Stated Clerks of Synods, or through circulars, or by any other means that may be devised. We refer to the fact that the Board stands ready at a moment's notice to make a grant, absolutely free, of valuable books, from 50 to 150 in number, to any poor minister, or to any needy Sabbath-school, either union or of our own denomination, when applications for such books are properly indorsed by the Presbyterial Committee on the Board of Publication or of Home Missions, or by the Session of any church.

These books are no cheap and tawdry publications, but many of them are of solid and lasting value, embracing some of the ablest works on theology, and upon subjects of vital importance. To hundreds of our Pastors and Missionaries of the Home Board, struggling to eke out their existence, and unable by inexorable necessity to furnish their libraries with helpful books, and to Sabbath-schools in poverty-stricken districts, this generous

offer would bring inestimable blessings, and ought to be made known far and wide. If the ministers and elders in attendance upon the Assembly will remember to speak of it on their return to their homes they may easily become the means of doing much good.

Your Committee can most sincerely express their entire confidence in the faithfulness and usefulness and wisdom of the Board of Publication and Sabbath-school Work, as its work is now conducted, and they pray that it may receive in increased measure the tokens of God's approval and favor.

The following resolutions are presented for adoption by the Assembly:

- 1. In view of the fact that a new and immense territory is opening before the Board, which it is impossible to enter with the present limited resources, the churches, Sabbath-schools, and individual members of our communion, are earnestly requested to contribute the sum of \$200,000 to carry on the work for the ensuing year.
- 2. Our Sabbath-schools are urged to procure the periodicals prepared by the Board: The Westminster Teacher, Westminster Question Book, Westminster Quarterly, Westminster Primary Quarterly, Westminster Lesson Leaf, Westminster German Leaf, Westminster Primary Lessons, Forward, Sabbath-school Visitor, Morning Star, and Sunbeam, as they are not inferior, to say the least, to other Sabbath-school helps, and not more expensive considering the quality.
- 3. In the preparation of the Lesson Leaf the Board is directed to follow the various points taken from the Lesson with one or two or more Scripture references, that both teachers and scholars may be led to consult frequently the Word of God, which must be exalted in all the publications as "The written Word of God," "the very Word of God," "the only infallible rule of faith and practice."
- 4. The Board is also instructed to consider the advisability of preparing a book for the training of teachers, showing them how to study the Bible to the best advantage, and containing a brief outline, with appropriate Scripture proofs, of the leading doctrines taught in the Word of God and held by the Presbyterian Church.
- 5. Special attention is called to "the Children's Day," to be observed on the second Lord's Day in June next; and teachers

and scholars are reminded that it is a suitable occasion for the expression of thanks to God in generous free-will offerings, that other and destitute children may hear the glad tidings of the grace of our Lord Jesus Christ.

- 6. It is further recommended that a united effort of all the Sabbath-schools shall be made, beginning the first week of October, to bring by personal invitation children into these schools, thus training our young people to be witnesses and workers for the Master.
- 7. This General Assembly approves the plan, proposed by the Board, to make the following additions and changes in the series of Lesson Helps:
 - (1) The issuing of an Intermediate Quarterly;
- (2) The addition of four pages to the Westminster Quarterly, which shall contain a Bible Dictionary of the lessons of the quarter;
- (3) The introduction into the Primary Quarterly of exercises suited to the younger children; and
- (4) The making of such changes in the Primary Lessons as may be necessary to conform it to the Primary Quarterly.

The following gentlemen have been elected as members of the Board:

Rev. William L. Ledwith, in place of Rev. John Hemphill, D. D., resigned; Elder Thomas W. Synnott, in place of Elder William L. Dubois, resigned; Rev. William P. Merrill, in place of Rev. C. P. H. Nason, resigned. The confirmation by the Assembly of these appointments is requested.

The term of office of the following members of the Board will expire in June, 1893, and they are recommended for reappointment:

Ministers .

REV. THOMAS A. HOYT, D. D., REV. J. STUART DICKSON, REV. WELLINGTON E. LOUCKS, REV. WILLIAM L. LEDWITH.

Elders:

Samuel C. Perkins, LL. D., Robert N. Willson, Franklin L. Sheppard, William H. Parsons.

All of which is respectfully submitted.

In behalf of the Committee,

James H. Brookes, Chairman.

FIFTY-FIFTH ANNUAL REPORT

OF THE

PRESBYTERIAN BOARD OF PUBLICATION AND SABBATH-SCHOOL WORK.

The Presbyterian Board of Publication and Sabbath-school Work, with devout gratitude to God for the blessings vouchsafed during the past year, respectfully presents to the General Assembly its Fifty-fifth Annual Report, covering the year beginning April 1, 1892, and closing March 31, 1893.

The following gentlemen have been elected as members of the Board: Rev. William L. Ledwith, in place of Rev. John Hemphill, D. D., resigned; Elder Thomas W. Synnott, in place of Elder William L. Dubois, resigned; Rev. William P. Merrill, in place of Rev. C. P. H. Nason, resigned. The confirmation by the Assembly of these appointments is requested.

The term of office of the following members of the Board will expire in June, 1893, viz.:

MINISTERS.

Rev. Thomas A. Hoyt, D.D.,

Rev. J. Stuart Dickson,

Rev. Wellington E. Loucks.

Rev. William L. Ledwith.

ELDERS.

Samuel C. Perkins, LL. D., Robert N. Willson, Franklin L. Sheppard, William H. Parsons.

WORK OF THE BOARD.

The year now closed has been one of prosperity, in which all the Departments have shared.

The Sabbath-school and Missionary Department organized by its Missionaries 866 new schools and reorganized 299, and by the stimulus and aid of its grants it effected the organization of 124 new schools. Into these schools about 45,000 teachers and scholars were gathered, and from them several churches have already grown. It gratuitously distributed more than 17,135,385 pages of tracts and periodicals, and nearly 68,000 volumes of Christian literature, at a cost of \$19,232.05. It closes the year with a balance of \$44,815.13, which will apable it to prosecute vigorously its summer work.

The Editorial Department has issued during the year, only 11 new books and tracts. It is confidently expected, however, that a larger number of such works will be issued during the year on which we have entered, as several valuable manuscripts have been already accepted for publication and a still greater number are now under consideration. It may not be improper to refer to the difficulty experienced in procuring manuscript works suitable for publication; and to add that one scheme entered upon under specific promises of contributions by various ministers of the Church, has been completely blocked by their failure to furnish the promised manuscripts. The number of Lesson-helps and Sabbath-school Papers edited remains unchanged. It is worthy of special notice that each one of our periodicals, with the exception of the German Lesson Leaf, the publication of which is a purely missionary enterprise, has attained to a self-supporting basis, and that all the others, with the exception of The Morning Star and Primary Lessons, are not only self-supporting but are yielding profits to the Board.

The Business Department closed the year with net profits amounting to \$38,681.81, of which two-thirds, or \$25,787.87, were paid over to the Sabbath-school and Missionary Department, in accordance with the direction of the General Assembly.

It was stated in the last Report that in accordance with the recommendation of the Assembly of 1891, the By-Laws of the Board had been so amended as to subdivide the Business Department into two branches, Commercial and Manufacturing; and also to provide for the appointment of a Business Superintendent who should have personal charge of the Commercial Branch and supervisory charge of the Manufacturing Branch, and of a Manufacturer, who should have charge of the Manufacturing Branch. Mr. John H. Scribner, of New

York, was elected Business Superintendent, and Mr. John A. Black, who has faithfully served the Board in different offices for more than fifty years, was elected Manufacturer. Both these gentlemen have accepted their appointments and have entered upon the performance of the duties of their respective offices.

Mr. Scribner has held several important positions in the house of Charles Scribner's Sons, of New York city. His recognized qualifications for the work to which he has been appointed, and his varied experience in similar employment, give promise of great success in his new and important position.

SABBATH-SCHOOL AND MISSIONARY DEPARTMENT.

The lines of work of this Department may be classed as follows:

- I. The establishment of Sabbath-schools in needy localities.
- II. The upbuilding of weak and struggling Sabbath-schools.
- III. The distribution of Bibles, hymn-books, books, tracts, lesson-helps, and Sabbath-school papers through sale by missionaries; and, in the case of needy Churches, Sabbath-schools, families, and individuals, by grant.
- IV. The visitation of families in communities destitute of the means of grace.
- V. The elevation and improvement of existing Presbyterian Sabbath-schools.
- VI. The collection, arrangement, and presentation in the minutes of the General Assembly, of the Sabbath-school statistics of the Presbyteries and Synods.

MISSIONARIES.

In carrying on the first four classes of operations above enumerated, two kinds of field agents are employed, styled respectively Permanent and Student Sabbath-school Missionaries.

1. PERMANENT MISSIONARIES.

These are men employed for their whole time, and who are recommissioned from year to year, so long as they are willing to continue in service and as the methods and success of their labors meet with approval. These agents, as now commissioned, are of two classes:

(1.) PRESBYTERIAL SABBATH-SCHOOL MISSIONARIES. — These are appointed, as formerly were all our Missionaries, to

labor within the bounds of designated Presbyteries. They are restricted to labor within the bounds of the Presbyteries to which they have been assigned, and only by the authorization and under the direction of those judicatories or their appropriate committees. The entire number of such agents under commission during the whole or a portion of the past year was 70, of whom 60 are now in the field.

(2.) Synodical Sabbath-school Missionaries.—These are agents who have only recently been appointed. In accordance with the request of all the Synods within whose bounds the largest operations of the Department are carried on, it was determined by the Board to appoint qualified men, whose duty it should be not only to perform the work usually done by Presbyterial Missionaries, but also to supervise the labors of all other Sabbath-school Missionaries within the bounds of their respective Synods. It was directed that each of these Missionaries in the discharge of his duties should act under the supervision of the Committee on Publication and Sabbath-school Work of the Synod to which he had been assigned, and also of the similar Committees of the several Presbyteries of that Synod when acting within their bounds.

The Board appointed such agents in six Synods, viz.: Michigan, Minnesota, Iowa, Kansas, Nebraska, and North Dakota, with directions that they should begin their labors April 1, 1893.

2. STUDENT MISSIONARIES.

These are students from our Theological Seminaries, who, having passed their Junior year, and being recommended to us by their respective Faculties, are appointed to labor as Missionaries during the four months of their summer vacation. During the summer of 1892 there were 70 of such young men laboring under the Board's commission. They labored intelligently, zealously, and with manifest tokens of Divine approval. Not only is there cause for gratitude for the good they have accomplished in the missionary field; but, in view of personal benefits resulting to such laborers in past years, we have strong ground for hope that these young men also will be better fitted for their life work by the experience they have gained.

REVIEW OF THE YEAR'S WORK.

I.

THE ESTABLISHMENT OF SABBATH-SCHOOLS IN NEEDY LOCALITIES.

ORGANIZATIONS.

Our Missionaries established during the year 866 new Sab-bath-schools.

The number of schools organized under the standing offer of the Board to supply, free of cost, hymn-books, lesson-helps, papers, and Bibles to any person organizing a Presbyterian Sabbath-school was 124. These schools, added to those directly organized by the Missionaries, give a total of 990 new Sabbath-schools directly or indirectly organized by the Board during the year.

REORGANIZATIONS.

Our Missionaries have been explicitly instructed to report reorganizations as such, and not as new schools established. This guards against misleading statements, and gives a basis of facts for their reports. The number of reorganizations reported was 299.

ADDITIONAL FACTS.

The total number of teachers and scholars gathered into our schools this year was about 45,000.

The Missionaries visited and otherwise aided 3,326 Sabbath-schools.

In their varied lines of work our Missionaries delivered 7,936 addresses, and traveled 429,058 miles.

II.

THE UPBUILDING OF WEAK AND STRUGGLING SABBATH-SCHOOLS.

PERMANENCY OF THE NEW SCHOOLS.

Under the peculiar condition of the Sabbath-school Missionary enterprise it is only reasonable to expect that there will be a

varying amount of apparently wasted effort; but, on the whole, there is abundant cause for gratitude that so large a proportion of the work is permanent. The labors of the Missionaries are, to a considerable extent, of course, experimental in character, and carried on with great drawbacks. Nothing can be accomplished without some risk of failure or of merely partial success. A "lapsed" school is in many instances recoverable, and the very experience acquired in the failure of a first attempt may insure success in a second, or, it may be, in a third. The work must not be set aside or underrated by reason of discouragements.

It must further be borne in mind that a special phase of this work is the organization of "summer schools" in places where, owing to the severity of the climate and the distances between the settlers' homes, it is well-nigh or absolutely impossible to keep the schools in operation during the winter. Hereafter these "summer schools" will be classified in a separate list, to show the special character of this interesting feature of the work.

The aim of the Board has been permanently to establish Sabbath-schools, and not simply to organize them. The obstacles are principally the following: The finding of suitable men to act as superintendents; the impossibility, in some localities, of finding a sufficient number of suitable teachers; the blockades of snow that, in many northern regions, make the roads impassable, and so prevent attendance during the winter; the spiritual indifference that prevails in many communities; and, in a few localities, generally prevailing lawlessness and strife amongst the people.

The effort has constantly been made to repress a tendency to an undue multiplication of schools. Missionaries are emphatically instructed to labor assiduously for permanency in results. They are forbidden to organize schools without the express authorization of the Presbyteries within whose bounds they labor. They are directed to place every new school, whenever possible, under the care of the session of the nearest Presbyterian Church; in case there is no neighboring session that can take appropriate oversight, to commend it to the Committee of Presbytery.

These instructions, however, which contemplate the enlisting of others in the work of caring for the new schools, are not designed to relieve our Missionaries themselves from further responsibility. They are directed to continue correspondence with the superintendents, and to revisit from time to time the schools they have established, doing all within their power to preserve and foster them.

It was with the purpose of increasing the permanency of the newly-organized schools that the Board adopted the plan of appointing Synodical Sabbath-school Missionaries. These agents are instructed closely to supervise our Board's work within their respective Synods; to aid the Presbyteries in harvesting the fruits of the labors of our Missionaries; and to strive for the securing of co-operation between the agents of this Board and those of the Board of Home Missions, and thus to assist in unifying and co-ordinating the entire aggressive work of the Presbyterian Church on the home field.

ANNUAL CENSUS.

The Board has instituted a system by which it endeavors to ascertain the condition of all its new organizations. Each year a careful census is taken of the schools that were organized during the preceding year. Reports were received during the year just closed of those directly organized by our Missionaries between April 1, 1891, and April 1, 1892, from which the following facts are gathered:

Of the 990 schools organized 685 are alive and flourishing—that is, over 69 per cent. of the whole-number survive. Of the remaining number, 50 have not been heard from and 255 are reported as having ceased to exist.

From the 685 living schools 59 churches have already grown.

It will enable us in some degree to realize the magnitude and importance of the work that was performed by our Missionaries during the year that closed April 1, twelve months ago, to consider the fact that they established, on an average, each working day of that year, two schools that continue to live; and also the

further fact that from those living schools one church has already grown for every Sabbath of the year.

It is also proper to report that the 123 schools established during that year under the offer of the Board to supply needed books and lesson-helps are all alive and flourishing. These, added to the 685 schools established by the direct efforts of our Missionaries, make a total of 808 living Sabbath-schools that, in the year ending April 1, 1892, were added to our lists, or over two for each day in the year.

CONJOINT RESPONSIBILITY OF THE BOARD AND THE PRESBYTERIES.

It is deemed important in this connection to reproduce the following from the Report of last year.

"The General Assembly of 1887, after directing the reorganization of the Board in accordance with the recommendation of the Special Committee appointed by the previous Assembly, adopted the following resolution (italics ours):

"[Resolved] That inasmuch as the extension of the Board's work herein contemplated requires the appointment of Missionaries of high character and ability, their qualifications for the work should be judiciously weighed and their selection and appointment carefully made by the Board. No Missionary of the Board shall labor within the bounds of a Presbytery except with the approval and under the supervision of the Presbytery or its appropriate Committee.

"It is manifest from this resolution, and also from the Reports of the Special and Standing Committees to which it relates, that, on the one hand, the selection of Sabbath-school Missionaries, their assignment to particular fields, and the general superintendence of them, belong to the Board; and that, on the other hand, the permission to labor in the fields to which they have been assigned, and the supervision of them while engaged therein, appertain to the Presbytery to whose bounds they have been assigned.

"With the intent of securing to the Presbyteries their full authority in the case, the following directions have been incorporated in the printed code of 'Instructions,' a copy of which is placed in the hands of each Missionary. A copy is also sent

to the Chairman of the Committee of Publication and Sabbath-school Work of every Presbytery to whose bounds a Missionary is assigned.

"SPECIAL INSTRUCTIONS TO MISSIONARIES."

"Consult and co-operate with the Committee of Presbytery on Publication and Sabbath-school Work. At the beginning of your labors ascertain who is Chairman of this Committee. Seek an interview with him; ask his advice and that of the other members of the Committee. Keep up frequent communication with them. Respect their counsel and wishes.

"If practicable, procure from them a descriptive list of the localities in the Presbytery in which they will authorize and recommend you to organize Sabbath-schools.

"Advise with the pastors of churches in the neighborhood of your mission field.

"Attend the meetings of Presbytery, and report your work and ask its advice and co-operation.

"You are not to organize a Sabbath-school in any locality unless you are expressly authorized to establish one there by the Presbytery or its Committee on Publication and Sabbath-school Work.

'On the 15th day of each month copy on your monthly blank report all statistics of your labors since the 15th day of the preceding month contained in your blank-book of forms. Send this monthly report to the Chairman of the Standing Committee on Publication and Sabbath-school Work of the Presbytery within whose bounds you labor, for examination, correction, and indorsement. Have this report returned to you by the Chairman of the said Committee; then, and not till then, forward it to the Superintendent of the Department, so that it may be received by him before the end of the month.

"Send a duplicate of the Report which has been indorsed by the Committee to the Chairman of said Committee, to be retained by him.

"Special attention is called to the foregoing resolution of the . Assembly and instructions of the Board. It is evident from them that if on any account the method of work pursued by any Missionary is not satisfactory, the Presbytery or its Committee is responsible for its correction."

III.

DISTRIBUTION OF LITERATURE.

GRANTS AND SALES.

The number of pages of tracts and periodicals distributed by our Missionaries, in their house-to-house visitations, during the year, was 2,314,133. The number directly granted by the Sabbath-school and Missionary Committee was 14,821,252; total, 17,135,385.

In addition to these grants there were distributed 77,426 volumes of Christian literature, of which 4,707 were Bibles. Of this number the Missionaries gave away, other than Bibles, 51,724 and sold 4,731.

The number of volumes directly donated by the Sabbath-school and Missionary Committee was 16,264.

The net value of the grants—that is, the exact cost to the Department—was \$19,232.05.

The number of grants made to Sabbath-schools, most of which are entirely dependent for reading-matter upon what is gratuitously supplied, was 1,741; the number made to churches and individuals was 595, making a total of 2,336.

Every day in the year the Board has given away, other than Bibles, 186 volumes, and 46,946 pages of tracts and religious papers.

IV.

VISITATION OF FAMILIES.

In this country vast numbers of our population are living in new settlements and in country districts, in many instances at great distance from railroads and from churches or Sabbathschools. These multitudes are beyond the preaching of the Word or of any of the ordinary means of grace, but they can be reached by the living Missionary going into their homes with the message of life.

The only organized effort put forth by our Church thus to reach families that are beyond the influence of minister, church, or school is the Sabbath-school Missionary Work of this Board. The Sabbath-school Missionary pushes the line of gospel effort to the very front. Within the past year our Missionaries have visited 67,789 families, in whose homes they have left the gospel of Christ in the memory of those to whom they have spoken and with whom they have prayed, and in the books, papers, and tracts they have distributed. The acknowledgments on the part of persons thus visited are at times pathetic. The instances are not few in which gospel seed in

book or tract has brought forth thirty, sixty, and sometimes even a hundred-fold.

CLOTHING FOR POOR CHILDREN ON MISSION FIELDS.

During the winter of 1892-93, our Missionaries were enabled, through the generosity of Women's Societies, Churches, Sabbath-schools, mission bands, and individuals, to supply with needed clothing no fewer than 5,000 children. The money valuation placed on these donations was about \$6,000.

Through this help very many were enabled to attend the day and Sabbath-schools who would otherwise have been prevented by the severity of the weather.

V.

IMPROVEMENT OF SABBATH-SCHOOLS.

The Department has labored in this portion of its work by the following methods:

- 1. Through the plan of Bible Teachers' Institutes for teacher training. The object of this plan is to establish in every Sabbath-school, during six months of the year, a weekly Institute, consisting of all teachers and other persons interested in Bible study and teaching who may promise to attend the meetings and pursue the course of instruction of the Institute. The course consists of the study of the International Sabbath-school Lessons, and such text-books as shall be furnished by the Board. A complete account of the methods and advantages of this form of teacher training may be found in The Bible Teachers' Guide, which has been published by the Board as the text-book of methods for the first year.
- 2. Special attention is given to the promotion of Synodical and Presbyterial Conventions and Institutes. The Superintendent has labored, as time would allow, in such gatherings.
- 3. The Department has continued to send out to each contributing Sabbath-school a Quarterly Letter written by the Missionary to whom the collections of that school have been assigned as furnishing part of his support. This has proved to be of constant educational value to the scholars, enlisting and

holding their interest in the missionary work, and developing their benevolence toward it.

CATECHISM BIBLES.

4. The offer by the Board to present an Oxford Bible to each person who may be properly certified to it as having at one time perfectly recited the Shorter Catechism, has been continued during the past year. During the year 1,001 persons have met all the requirements. Since the inauguration of this standing offer, five years ago, 9,316 Bibles have been awarded.

UNITED MOVEMENT FOR GATHERING IN THE YOUTH OF THE COUNTRY.

5. The effort has been continued to engage our Sabbath-schools in a diligent search after neglected children and youth in their respective neighborhoods. Blank-books for visitors, printed instructions and suggestions, cards of welcome, and suitable tracts have been supplied to every Presbyterian Sabbath-school that promised to engage in the enterprise. It is encouraging to be able to report that a largely increased number of schools and churches have entered heartily upon this good work.

Communications have been received from all sections of the country, from large cities, villages, and country districts, commending the work, and telling of success in increasing the attendance upon their schools.

It is earnestly desired that this movement may soon assume large proportions. The prosecution of such a missionary work will not only bring many outcasts into the schools of the Church, but it will ever increase the regard of our Sabbath scholars for their own religious privileges, and will increase their anxiety to bring others to share with them in those privileges.

CHILDREN'S DAY.

6. Children's Day continues to increase in popularity. It is the great spiritual festival of our young people. It holds out to the young many incentives to right thinking and living. It impresses upon their minds and hearts the duty and excellency of self-sacrifice for the advancement of the Redeemer's cause in the world.

On Children's Day, 1892, churches and Sabbath-schools contributed about \$44,000 to the Sabbath-school and Missionary Work of this Board.

Emphasizing the duty of bringing the millions of youth and children in this land into the Sabbath-school who are now outside of it, and also laying stress upon the importance of this Columbian year, an urgent call has been issued to our Sabbath-schools to contribute on Children's Day the sum of \$100,000 to Presbyterian Sabbath-school Missions.

RESULTS OF FIVE YEARS' WORK.

The following is a condensed statement of the labors of our Missionaries from April 1, 1888, to April 1, 1893:

| Sabbath-schools organized by Missionaries, | 5,005 |
|---|-------|
| Persons gathered into these schools, | , |
| Number of volumes given away, | |
| Number of pages, tracts, and periodicals given away, | , |
| Number of grants of books, tracts, periodicals, and lesson-helps, | |
| Net value of grants, | , |
| Families visited by Missionaries. | |

LEADING FEATURES OF THE WORK.

A special feature of the missionary work of this Board since the reorganization, in 1887, has been the placing of a large share of the burden of its support upon existing Sabbath-schools. Appeal has been made to the young in behalf of the young—to Sabbath-schools in behalf of Sabbath-schools—and the response has been prompt and generous. The youth of our Church are more interested than they have ever been in the cause of Sabbath-school extension.

A second principle is fidelity to the polity of our Church. Our Missionaries labor under the supervision of the Presbyteries, and, wherever practicable, place new schools, under the care of the Sessions of neighboring churches.

A third and vital principle is the exercise of genuine catho-

licity. Our Missionaries are instructed whenever they find it impracticable to effect the organization of a school in connection with our own Church, to organize one if possible in connection with some other Evangelical denomination, or on the union basis.

RELATION OF THE WORK TO THE CHURCH.

Two important points are to be noticed in this connection. The first is, that our work, from its nature and by definite aim and intention, is the pioneer of Home Missions; and the second, that, in actual results, it is materially building up and strengthening our Church, and increasing its usefulness throughout our land.

We are in the advance line of missionary effort, preparing the way for the regular preaching of the Word, and the establishment of churches. The success of one of our schools often marks the locality where a church may be judiciously organized, thereby saving further exploration and experiment. On the other hand, the absence of success may indicate the desirability of deferring, or of abandoning, a particular project.

OPPORTUNITIES FOR THE ORGANIZATION OF CHURCHES.

By multiplying opportunities for the organization of churches the attention of Presbyteries and existing congregations is fastened upon the subject of church extension, and a stimulus is given to the cause of Home Missions.

There has been in many States, since our work began to take root, a steady multiplication of Sabbath-schools and churches in places where they would have had no existence but for the labors of our Missionaries, and there is every reason to believe that this gratifying evidence of prosperity will become even more marked in the future.

RECEIPTS AND EXPENDITURES.

This Department has received for its current funds \$122,357.66, of which \$25,787.87 came from the Business Department, being two-thirds of the net profits of that Department for the year.

The receipts from all sources were \$1,458.54 less than those of last year. This decrease was almost entirely due to the fact that the contribution from the net profits of the Business Department was \$4,015.35 less than the amount reported in 1892. It should be remembered in this connection that the business profits of that year were abnormally large. There was an increase of \$523.38 in the contributions of churches, Sabbathschools, and individuals, but a decrease of \$743.34 in interest received on invested funds—that sum, which last year was devoted by the Board to missionary work, having been used in publishing a translation into the Spanish language of the Rev. Dr. Fisher's History of the Reformation.

The total expenditures of the year were \$120,075.39, or in excess of receipts for the year, other than those contributed by the Business Department, by \$23,505.58.

An itemized statement of receipts and expenditures will be found on page 20.

PURCHASES.

The following purchases have been made from the Business Department:

| For grants: | |
|---|-----------------|
| Periodicals, | \$12,124 70 |
| Books and tracts, | |
| For sales by Sabbath-school Missionaries, | . 546 51 |
| Total, | \$19,778 56 |

MISSIONARY BIBLE FUND.

At the beginning of the present fiscal year there was no income belonging to this Fund in the hands of the Treasurer, the entire amount received during the year 1891-92 having been expended in the purchase of Catechism Bibles. The receipts of last year were \$2,638.44. Of this sum, \$256.10 was interest on bank balances and on invested funds held in trust by the Board for the free distribution of Bibles; \$2,380.00 was contributed by the heirs of the late D. O. Calkins, of Brooklyn, New York, "as a memorial of his love for the Bible and the Catechism;" and \$2.34 was from the Sabbath-school of the

Church of Baraboo, Wisconsin, for the purchase of Catechism Bibles. The amount expended was \$274.40, leaving a balance of \$2,364.04. The entire Fund is held by the Treasurer for the purchase of Bibles that are to be gratuitously distributed, subject to the order of the Sabbath-school and Missionary Department.

ACKNOWLEDGMENTS.

The thanks of the Board, and especially of this Department, are tendered The American Bible Society, which, during another year, has assisted our operations by liberal grants of Bibles and Testaments for free distribution.

This Department is also deeply indebted to the Secretaries, the Synodical Missionaries, and the other agents of the Board of Home Missions, for valuable assistance and co-operation. As the aim of this Department has been to be a pioneer of Home Missions, the Board of Home Missions has done everything in its power to conserve the results of our labors.

STATEMENT OF RECEIPTS AND EXPENDITURES FOR THE BOARD'S SABBATH-SCHOOL AND MISSIONARY WORK.

RECEIPTS.

| The receipts of the Missionary Fund during the year | |
|--|---------------|
| were as follows: | \$42,532 86 |
| Balance on hand, April 1, 1892, | |
| From Sabbath-schools, | |
| Individual contributions, 6,853 1 | |
| Interest on invested funds, 4,007 8 | |
| Bank interest on balances, | |
| | - 96,356 94 |
| Profits on sales by Missionaries, | 212 85 |
| Two-thirds net profits for the year from the Business | |
| Department, | 25,787 87 |
| | \$164,890 52 |
| EXPENDITURES. | |
| 1. For salaries to Sabbath-school Missionaries, \$63,491 2 | 8 |
| 2. For expenses of Sabbath-school Missionaries, . 13,311 3 | |

EDITORIAL DEPARTMENT.

BOOKS AND TRACTS.

During the year the following new books have been published:

BOUND VOLUMES.

No. 1411. Our Heavenly Rest. By Margaret S. Hormel. Price, 15 cents, net.

This is a little brochure of 47 pages, and is well written and printed. It contains a meditation on heaven for each day in the week, and is calculated to uplift the believing soul in anticipation of its final rest from care and sin, and its joy in communion with God and with the redeemed.

No. 1412. Korea from its Capital. With a chapter on Missions. By the Rev. George W. Gilmore, A. M. 16mo. Twenty-five illustrations. Price, \$1.25.

Just now the Christian people of this country are very much interested in Korea, a country concerning which comparatively little is known. They want to know about the people of Korea, the government, the religion, and especially about the prospects for missionary work there. Mr. Gilmore's book is, therefore, a timely publication. The author had exceptional opportunities for becoming acquainted with the people and their life, as he dwelt among them in a way which enabled him to mingle freely with all classes and to see what was to be seen. The illustrations are reproduced from photographs, and are helpful to a comprehension of the descriptions. Those working in any way in behalf of Christian missions will be particularly pleased with this volume, which will tell them so much about one of the countries in which our Missionaries are engaged.

No. 1413. LEAD ME TO THE ROCK. By the Rev. T. W. Hooper, D. D. 12mo. Price, 60 cents.

This beautiful little volume contains a number of suggestive chapters of comfort and cheer for those who are walking beneath burdens or in the summer heat of trial. These chapters are written by one who has had long experience in giving comfort to others, and whose own heart has learned many of the sweet lessons of Divine love while sitting in the shadow of the Rock.

No. 1414. Miss Kitty. By Helen B. Williams, author of "The Hastings," "Dr. Trent's Cousin," etc. 16mo. Price, \$1.25.

Miss Williams has written a number of good books, and "Miss Kitty" will rank among the best. The book is the story of a young girl, from the age of sixteen onward, through the experiences of home life and school life. Miss Kitty is a quite ordinary girl. She is not brilliant. She is not over saintly. She is not so fine as to discourage other girls, even commonplace girls, who may read her story. They will find her very much like themselves. Miss Kitty learns some good lessons, though she seems to learn them slowly.

A sad interest will be imparted to this notice by the information that the gifted author, since the publication of her book. has been called from the service of Christ on earth to His nobler service in heaven.

No. 1415. The Pastor in the Sick-Room. Three lectures delivered at Princeton Theological Seminary, March, 1892. By John D. Wells, D. D. Price, 50 cents.

These lectures treat of the subject from the standpoint of a pastor of long and varied experience. The first lecture deals with the difference between the sick-bed and the death-bed. The theme of the second is, "Salvation possible, and in many cases probable, on the death-bed." The third is full of valuable practical counsels concerning the wrong and right treatment of the sick and dving, and the uses that may be made of this experience. These addresses were prepared for students, and

young pastors will be greatly benefited by reading them. Dr. Wells has been a most successful pastor, and his words cannot but be helpful to younger men who desire to learn from his experience.

THE WESTMINSTER QUESTION-BOOK FOR 1893. 18mo. Price, 15 cents; 100 copies, \$12.00.

This capital little volume on the International Lessons needs no commendation. Those who have used it will want it, and others had better try it. It is on the same plan as that of the former volumes. It covers the International Lessons for the entire year, giving the full lesson passages, daily home readings, golden texts, lesson plans, explanatory notes, questions, practical teachings, general review questions, and Catechism. It contains, also, valuable maps which will aid much in the study of the places of the lessons.

32mo. TRACT.

No. 71. Our Scholars for Christ. By the Rev. R. Ballantine, of Scotland. Pp. 36.

There is need always for words of encouragement and suggestion for teachers, and this leaflet will be helpful to every one of our Presbyterian Sabbath-school teachers in stimulating them to intenser spiritual effort to win souls. It has been republished by our Board of Publication from the Scottish edition. Every Sabbath-school teacher should have a copy.

MISCELLANEOUS.

FIRST STEPS FOR LITTLE ONES. By Israel P. Black. Price, 3 cents.

There is a constant demand among primary teachers for supplemental lessons to be taught to the little people. This little book contains such lessons. It is in two parts—the first, for children from five to eight, the second, for those who are older.

PRIMARY DEPARTMENT CERTIFICATE. Price, 5 cents.

This beautiful certificate of examination and promotion has been prepared to be given to those who have passed the examination on the lessons given in "First Steps for Little Ones."

CHILDREN'S DAY EXERCISE FOR 1893. By Rev. James A. Worden, D. D.

This has been prepared as an order of service especially for use on Children's Day. It contains hymns and music and Scripture readings adapted for the day.

CHRISTIAN CATECHISMS IN GERMAN. By Rev. Philip Schaff, D. D., LL. D. Price, with notes, 25 cents; without notes, 15 cents.

Fifty-two questions and answers for use in our German Sabbath-Schools.

HISTORY OF THE REFORMATION. By Rev. George P. Fisher, D. D. Translated into Spanish. 8vo. Price, \$1.00, net.

PERIODICALS.

It is gratifying to note the favor with which our periodicals are received, both in the United States and Canada. A brief description of them will explain their character and object.

LESSON HELPS.

The Westminster Teacher is issued monthly. It is prepared specifically for the teachers and officers of Sabbath-schools, and is used also by many Bible-Class scholars. It contains full expositions of the International Bible Lessons. Its aim is not merely to furnish exegetical notes, but specially to aid teachers in applying the truths of the Scriptures to the consciences and lives of pupils. Warm commendations of the work in the Teacher have been received from all parts of the world and from many workers in other denominations. This magazine is published in octavo form, each number containing 40 pages. Price, single copy by mail, per annum, 60 cents; school subscriptions to one address, 50 cents per copy.

The Westminster Question Book, though included in the list of "Bound Volumes," belongs also to the list of lesson helps. It is a complete manual or hand-book for the study of the International Bible Lessons for the year. It contains Scripture Texts, Home Readings, Golden Texts, Lesson Plans, Shorter Catechism, Notes on the Lessons, Questions and Practical Suggestions. It thus gives in a handy and compact form the basis for the whole year's work. Price, \$12.00 per hundred, net; single copies by mail, 15 cents.

The Westminster Quarterly is adapted to older scholars, and is used in advanced and Bible classes. It is issued quarterly, and each number contains full lesson work for the three months, with order of service, hymns, and tunes. It is an octavo of 36 pages, and is furnished at the low rate of \$12.00 for 100 copies to one address for one year; single copies, 20 cents.

The Westminster Primary Quarterly is adapted to the little people in primary classes. It has been prepared for many years by Mrs. G. R. Alden—"Pansy"—the acceptableness of whose work has been shown by the large and increasing circulation. For the present, however, Mr. I. P. Black, the Secretary of the Primary Teachers' Union, takes up the work. Permanent arrangements for the preparation of this periodical will speedily be made. Price, school subscriptions, to one address, 160 copies per year, \$8.00, or 8 cents for each scholar.

The Westminster Lesson Leaf is prepared with special reference to intermediate and younger scholars. It is issued monthly, but so arranged that if desired the leaves can be separated and distributed to scholars weekly. Each leaf contains one lesson complete, with Scripture, Golden Text, Catechism, Notes, Questions, and Practical Teachings. Price, school subscriptions to one address, 100 copies per year, \$5.00, or 5 cents yearly for each scholar.

The Westminster Primary Lessons is a neat leaf adapted to the little people. It is issued weekly, in the same form and at the same rate as The Westminster Lesson Leaf.

The German Lesson Leaf is prepared specifically for the Sabbath-Schools of our German congregations, and is greatly appreciated by them. It is published monthly. The price is the same as that of The Westminster Lesson Leaf.

ILLUSTRATED PAPERS.

Forward continues to win for itself favorable comment. Its aim is to furnish articles of an instructive and entertaining

1893.]

character. It is designed for young people in intermediate and Bible classes. The name of the paper is suggestive of its general character and fitly embodies its aim. It is attractively illustrated, and contains 12 pages. It is published twice each month, but may be taken once or twice a month, as subscribers desire. School subscriptions, to one address, once a month, 100 copies per year, \$15.00; twice a month, 100 copies per year, \$30.00.

The Sabbath-School Visitor is the oldest of the periodicals of the Board. It is adapted to a younger class of readers than Forward. It is an illustrated four-page paper, each number containing attractive and interesting matter adapted to children. It is published twice each month. It may, however, be taken once or twice a month, as preferred. School subscriptions, to one address, once a month, 100 copies per year, \$10.00; twice a month, 100 copies per year, \$20.00.

The Morning Star was started to meet the demand for a paper at a small cost. It is of the same quality, grade, and style as The Visitor, but is only half the size. It is issued twice a month, and may be taken once or twice a month, as desired. School subscriptions, to one address, once a month, 100 copies per year, \$5.00; twice a month, 100 copies per year, \$10.00.

The Sunbeam is issued weekly, and is finely illustrated. School subscriptions, \$20.00 per 100 copies for the year. No subscription taken for less than a month.

Forward, The Sabbath-School Visitor, and The Morning Star, each being published twice a month, schools that so desire may have four papers each month. The older scholars can receive Forward and The Visitor each twice; and the younger pupils The Visitor and The Morning Star each twice. Then for the little people The Sunbeam comes every Sabbath in the year.

ADDITIONAL LESSON HELPS.

The Board has determined to make, after January 1, 1894, the following additions and changes in the series of Lesson Helps: 1. The issuing of an Intermediate Quarterly; 2. The addition of four pages to the Westminster Quarterly, which shall contain a Bible Dictionary of the lessons of the quarter;

3. The introduction into the Primary Quarterly of exercises suited to the younger children; 4. The making such changes in the Primary Lessons as may be necessary to conform it to the Primary Quarterly. The Board has also under consideration the propriety of issuing, at the date indicated above, a series of three grades of Quarterlies, based on the plan of Bible Outline Studies—similar in some respects to what is generally known as the "Inductive Method." It is not proposed that these new Helps should interfere with the publication of the series on the International Lessons, which will be continued with all possible effort for their improvement; it is contemplated merely that they should afford to those who prefer such helps the aid they desire.

NEW HYMNALS.

The preparation of new Hymnals for congregational and Sabbath-school use is in the hands of a special committee of the Board. Various obstacles have hitherto prevented the performance of this important work. As the hindrances referred to have been removed the preparations will be vigorously prosecuted, and it is hoped will be satisfactorily completed in the near future.

BUSINESS DEPARTMENT.

This Department conducts all the business operations of the Board. Of these the most important are, first, the manufacture of books, tracts, and periodicals, and, secondly, the placing of the publications on the market.

PUBLICATIONS.

According to the statement on page 35, there have been published during the year 1,306,135 books and tracts, and 22,024,415 periodicals, which, together with 8,250 copies of the annual Report,* make an aggregate of 23,338,800 publications for the year. There has been an increase in the publications of the year covered by this Report, of books and tracts of 388,610, and a decrease in periodicals of 28,190—a total increase in the number of books, tracts, and periodicals of 360,520. The number of copies of the Annual Report is 100 more than was printed last year.

PLACING ON THE MARKET.

This work continues to be performed, as was reported last year, by advertising in the leading papers of our own and affiliated denominations throughout the country, and through the agency of the main store in Philadelphia, and twenty-four depositories and branch houses, nineteen of which are in our own land, four in British America, and one in England. These agencies are as follows:

DEPOSITORIES AND BRANCH HOUSES.

Baltimore, Md., S. W. Harman, 320 North Charles Street.

Boston, Mass., H. D. Noyes & Co., 131 Bromfield Street.

Buffalo, N. Y., Otto Ulbrich, 395 Main Street.

Chicago, Ill., Chicago Depository, Randolph R. Beam, Supt., 44 Madison Street.

Cincinnati, O., Western Tract Society, 176 Elm Street.

Cleveland, O., The Burrows Bros. Co., 23, 25, and 27 Euclid Avenue.

Denver, Col., Chain & Hardy Co., 1609-1615 Arapahoe Street.

Detroit, Mich., J. E. Mason, 189 Woodward Avenue.

^{*} This refers to the number of copies of the Report for the year ending March 31, 1892.

Harrisburg, Pa., S. W. Fleming, 32 North Third Street.
Minneapolis, Minn., Clark & McCarthy, 622 Nicollet Avenue.
Montreal, Quebec, William Drysdale & Co., 232 St. James Street.
New York, N. Y., Ward & Drummond, 711 Broadway.
Pittsburgh, Pa., Board of Colportage, 706 Penn Avenue.
Portland, Oregon, Ewing & Raymond, 69 Morrison Street.
San Francisco, Cal., Geo. C. McConnell, 735 Market Street.

St. Louis, Mo., St. Louis Depository, Rev. J. W. Allen, D. D., Supt., 1107 Olive Street.

St. Paul, Minn., Clark & McCarthy, 27 and 29 Lowry Arcade. Syracuse, N. Y., George A. Mosher, 112 East Fayette Street. Topeka, Kan., Armstrong & Priddy, 825 Kansas Avenue. Toronto, Ont., N. T. Wilson, 31 King Street, West. Troy, N. Y., Smyth & Co., 266 River Street. Truro, N. S., D. H. Smith & Co. Winnipeg, Manitoba, Russell & Co., 504 Main Street. London, England, 14 Paternoster Square, terms on application.

These houses, with the exception of the one in London, furnish all our publications at the Board's prices.

Our periodicals are still further brought to the attention of churches and Sabbath-schools by circulars addressed to pastors and Sabbath-school superintendents. Our Missionaries also bring all classes of our publications to the notice of those who dwell in missionary districts.

SALES.

The sales for the year in books and tracts were \$101,680.97. This amount, as it includes credit sales, does not agree with the Treasurer's account, which account exhibits only cash received.

The amount received during the year for the sale of periodicals was \$159,148.15.

The aggregate of the preceding sales includes not only the ordinary sales of the main house and of the depositories and branch houses, but all sales made to the Sabbath-school and Missionary Department for grants, and all sales by Sabbath-school missionaries.*

^{*} The above statement relates only to amounts received and credited by the Business Department. In addition to the amount received by this Department from Sales by Missionaries, the Sabbath-school and Missionary Department received \$212.55 from those sales (see p. 20). The Business Department sells all its publications to the Sabbath-school and Missionary Department at "the highest rates of discount allowed on the same classes of publications to the most favored branch house in this country;" the Missionaries are required to sell, for cash only, at catalogue prices; the excess inures to the benefit of the latter Department.

RECEIPTS AND EXPENDITURES.

The receipts of the Business Department during the year from all sources, inclusive of those for "The Church at Home and Abroad" and the Missionary Bible Fund, were \$288,013.42. To this should be added the balance in the treasury at the beginning of the year, \$74,042.00, making a total of \$362,055.42. The expenditures during the year were \$256,120.69. The balance is \$105,934.73, of which \$97,612.00 belongs to the Business Department, \$5,958.69 to "The Church at Home and Abroad," and \$2,364.04 to the Missionary Bible Fund.

FREE LIBRARIES.

The General Assembly of 1891 approved the following recommendation of the Special Committee of "Seven" that had been appointed the preceding year on the affairs of this Board:

"That such of the stock of books, bound or unbound, the sales of which have been superseded by more recent issues, be made up into 'cheap libraries' as far as possible, and, so far as proper, also donated to Sunday-schools and home mission stations, or any appropriate benevolent work, with a view to reducing largely each year the quantity of idle material on hand."

In the report of last year it was stated:

"It was found to be exceedingly difficult, if not impracticable, to enter at once upon the work thus indicated. Arrangements, however, have been made for prosecuting it in the near future."

As early in the year as practicable notice was given through the religious papers that the Board was ready to enter upon the work of distribution. The following notice was published in "The Church at Home and Abroad," which is now reproduced in order that through the medium of this Report full information may be given to the Church, not only that the Board is now ready to distribute such Libraries, but also as to the conditions on which grants are made:

"FREE LIBRARIES."

"In accordance with the recommendation of the General Assembly, the Board has commenced the distribution of Free Libraries to needy churches and Sabbath-schools, and also to other deserving objects. These Libraries, while they consist entirely of works published prior to 1870, contain many of

the most valuable publications of the Board, designed for the reading of both children and adults.

"Application for such libraries should be made directly to the Secretary, Rev. E. R. Craven, D. D. When an application is made in the interest of a church or Sabbath-school it should ordinarily be accompanied by a certificate from the Chairman of the Sabbath-school and Missionary Committee of the Presbytery with which the church or school is connected, setting forth its condition and needs. In cases where, on account of distance, it is difficult to obtain such a certificate, one should be given by the Pastor or Session of the church, or of some neighboring church. Applications from the Chaplains of United States ships or mulitary posts will always receive favorable consideration."

During the year, 58 of these Libraries were granted containing respectively from 50 to 150 volumes. The total number of books thus distributed was 5,552, the estimated value of which was \$1,252.21. Gratifying intelligence has been received, not only of the thankful reception of these gifts, but in some instances of good already accomplished through their instrumentality.

By far the greater number of these Libraries were sent to Missionary Sabbath-schools and the schools of needy churches. A few were sent to needy Pastors and churches; three to Seminaries established by the Board of Missions for Freedmen, and three to United States Military Posts.

Applications for these Libraries have not been as numerous as was anticipated. This was owing probably to the fact that many of those who need the aid that such literature affords were not so situated as to enable them to become acquainted with our published notices.

CONTRACTS ON COMPETITIVE BIDS.

The plan of awarding contracts on the basis of competitive bids, recommended by the General Assembly of 1891, and approved by the last Assembly, has been continued with great pecuniary advantage to the Board.

NET PROFITS.

The net profits of the year were \$38,681.81. Of this sum two-thirds, or \$25,787.87, has been placed to the credit of the Sabbath-school and Missionary Fund, in accordance with

the direction of the General Assembly. The remaining third, or \$12,893.94, has been added to capital stock.

The Board reported to the last General Assembly that there was a shortage in the actual cash of the Board amounting, as now definitely ascertained, to \$8,185,50. This shortage was not discovered until the close of the fiscal year, immediately before the preparation of the Annual Report, in which the Board expressed the opinion that the Treasurer and his surcties were responsible for the loss thus reported. A thorough examination instituted since the meeting of the Assembly, however, has led the Board to the conclusion that the Treasurer should not be held responsible for the defalcation. judgment of the Board, the blame rests upon the actual defaulter, the former chief book-keeper, who has confessed judgment in the full amount and surrendered such real and personal property as he possessed. As soon as these assets can be advantageously realized upon, the balance remaining due will be charged to profit and loss.

CAPITAL STOCK.

This, at the beginning of the year, according to the balance-sheet of the last Report, was \$407,115.94. In consequence of the addition of one-third of the profits of the year, or \$12,893.94, it is now reported as \$420,009.88.

Renewed attention is called to the fact that a large part of the capital stock is represented by the real estate of the Board, which yields no income but is given up to the use of the various agencies of the Church, while the expenses of maintenance of the entire building are paid out of the earnings of the Board.

THE CHURCH AT HOME AND ABROAD.

At the request of the Committee appointed by the General Assembly, the Board continues to be the publisher of "The Church at Home and Abroad." The relations of the Board to this magazine are different, however, from those which it sustains to the other periodicals which it publishes.

The editor of the magazine is selected by the Assembly's Committee, and he works under its general direction, as does also the Board itself in this particular. The Board is an agent, rather than the principal, in its publication, and assumes no pecuniary responsibility in reference thereto.

No charge has been made by the Board for anything except actual expenditures directly on account of the magazine, and every effort has been adopted, through the machinery of the Board, to further the success of the enterprise.

The amount of receipts * on account of the magazine for the year was \$19,356.14. The number of copies published was 256,427.

A balance of \$5,958.69 now stands to the credit of this magazine in the books of the Treasurer.

^{*}This includes the amounts received from the subscribers and from the several Boards.

PUBLICATIONS OF THE YEAR.

The Board has published during the year:

\$233,907 19

The undersigned Auditing Committee, having examined the accounts of C. T. Mc-Mullin, Treasurer of the Presbyterian Board of Publication and Sabbath-school Work, find the same correct; and that the amount in his hands April 1, 1893, was as follows:

| Of the Sabbath-school and Missionary Department, | \$44,815 13 |
|--|--------------|
| Of the Business Department, | 97,612 00 |
| Of "The Missionary Bible Fund," | 2,364 04 |
| Of "The Church at Home and Abroad," | 5,958 69 |
| | |
| | \$150,749 86 |

Making a total of one hundred and fifty thousand seven hundred and forty-nine dollars and eighty-six cents.

(Signed) CHARLES H. BILES,
WILLIAM W. ALLEN,
FRANCIS B. REEVES,
Audding Committee.

PHILADELPHIA, April 18, 1893.

PHILADELPHIA, April 1, 1893.

The undersigned have examined the account of the Treasurer of the Trustees, and find it correct. The balance of cash in the hands of the Treasurer is thirty-three thousand three hundred and one dollars and seventy-six cents (\$33,301.76). They have also examined the securities in his hands, amounting to sixty-two thousand six hundred dollars (\$62,600.00), and find them in the name of the Corporation.

(Signed) CHARLES H. BILES, WILLIAM W. ALLEN, FRANCIS B. REEVES,

Auditing Committee.

PHILADELPHIA, April 18, 1893.

APPENDIX.

TWENTY-THIRD ANNUAL REPORT

OF THE

BOARD OF THE CHURCH ERECTION FUND.

To the General Assembly of the

Presbyterian Church in the United States of America:

Acknowledging with gratitude the presence of the good hand of God in prospering its work, the Board of the Church Erection Fund respectfully presents its twenty-third annual report.

Notwithstanding the discouragements and anxieties that have arisen from inadequate means, the year has been one of sustained progress. As every State and Territory is now occupied by our army of home missionaries, so from every State and Territory comes the call for help to build the houses of worship which alone insure the permanency of the great work of evangelization undertaken by the Church.

This is true not only of the younger States to which our thoughts more immediately turn when we speak of home missionary work, but also of the older regions which to the fathers and grandfathers were frontier territory. Many places even in our oldest States, for one reason and another, still need the fostering care of stronger communities if they are to maintain the churches that have long been organized within their bounds. In others of the older States new interests of mining or manufacturing spring up, and as a consequence new towns grow rapidly into prominence. Another factor in the work at large is the changing population caused by the establishment and demands in older States of these new industries.

Thus the Board in its work recognizes several distinct classes of appeals.

First and most important are the demands from the new States and Territories, that with their fertile prairies, their rich forests, and their inexhaustible mines are ever beckoning to the pioneers and the immigrants from beyond the seas.

Second only to these are the needs of the older towns and cities which, constantly expanding, find that they are unable to supply unaided the spiritual needs of their swelling populations.

Third are to be heeded the claims of the young cities in the new South, fast rising with restless energy into prominence.

Fourth, the constant growth in New England of a Presbyterian population from Scotland, Ulster, and the Canadian provinces explains why Presbyterianism instead of being considered an intruder in the old home of Congregationalism, is welcomed as a necessary ally in maintaining the vital power of religion.

Finally, the older South, and especially its seaboard, petitions through the mouth of its freedmen that its spiritual needs be not passed by.

THE DEMANDS OF THESE FIELDS.

From these different fields there have been received during the past year no less than 239 applications, of which 188 have been for grants or loans for church edifices and 51 for aid in building manses—and the aggregate amount applied for was: Grants, \$105,391; loans, \$40,182, and loans for manses, \$21,010; a total of \$166,583, an amount much exceeding that of any previous year in the Board's history. It should be noted, however, that \$40,182 of this demand was upon the newly inaugurated loan fund and from a class of churches that hitherto have heen excluded from the scope of our work. Upon the other hand it is to be said that the informal requests for aid which have not yet been put in due form for action would add nearly \$50,000 to the aggregate demand.

RESOURCES.

Commencing the year, as was the case, without any balance in the treasury, and with numerous applications already awaiting action, the Board has been obliged to exercise great prudence in order rightly to meet these increased demands upon its resources. It has tried carefully and conscientiously to discriminate in its response to applications; giving the preference, as directed by the General Assembly, "to the weaker churches and less costly buildings, when other things were equal." Nevertheless the inadequacy of its resources has compelled a cramping in its appropriations that has in some instances put unexpected burdens upon feeble churches that had confidently looked for adequate aid.

It is true that the contributions from the churches have not fallen below former years, but with a constantly growing Church

it is not enough to maintain the average of the past. It may properly be expected as the Church grows in wealth and reaches out to secure new territory that its appropriations to the establishment of its new congregations will annually increase. This the Board regrets to say has not been the case.

This untoward result may be partly accounted for in two ways. As was more fully explained in the report of last year, many presbyteries (especially those having within their bounds great cities) are so deeply interested in local work that they forget the claims of the broader field which is the sacred charge of the whole Church of which they form an important part. Necessarily the very presbyteries upon which the Board must mainly depend for supplies to maintain our hundreds of young missionary churches, are the very presbyteries that see pressing upon them most urgently the needs of church extension within their own bounds.

So imperious are the demands for men and means to do Christ's work in such great cities as Chicago, Philadelphia, Pittsburgh, Cincinnati, St. Paul and Minneapolis, that they would not be adequately met if they absorbed every cent that the churches of those metropolitan centres now give for Home and Foreign Mission work in all their branches; but no one would argue that such selfabsorption would be a just use of the Lord's money. Even if evangelical work is insufficiently supported at home, the millions of perishing souls in other lands must not be entirely passed by; and in like manner, even if needed church building in the great commercial centres be somewhat delayed, the life-and-death struggle for existence of our little churches upon the prairies and among the mountains must not be absolutely forgotten. That this consideration needs emphasis at the present time is evident from the fact that more than one of our older cities and some of our strongest synods actually ask of the Board more in appropriations than they send to it in supplies. Such self-absorption would need to be carried but little further to cripple seriously, if not actually imperil, the work of the Board.

The other cause of the insufficiency of supplies that may properly be indicated, is an apparent want of interest in the work upon the part of those who as pastors or officers direct the benevolent interests of congregations. How else can we account for the fact that more than one-half of the churches upon the roll of the General Assembly make no contribution at all to the work of Church Erection. Can it be doubted that such churches would give something, even though it were small, did they have the matter simply presented to them. A ngle word from a pastor is most effectual. How true this is, is

shown by the fact that from time to time the treasurer of this Board is encouraged by receiving from some congregation a contribution greater than the aggregate gifts of the preceding ten years, with a simple note from the pastor saying that he had presented the cause for the first time to his people with the accompanying happy result.

The actual number of contributing churches this year was 3425, an increase upon last year of 48; but as many others made no contribution whatever.

As a consequence of the inadequacy of its resources to meet the increased demands, the Board for the first time in its history was obliged to postpone action until the new year upon 22 applications, aggregating \$12,666.

By so doing it escapes the necessity of reporting itself in debt, but it must accept the almost equally unfortunate fact that it commences the year with an empty treasury and an already present demand for nearly \$13,000.

The working income of the Board, including the small balance unappropriated from last year and the actual receipts, was as follows:

| Balance unappropriated | | \$1,765 | 78 |
|---|-------------|-----------|----|
| Contributions from churches | \$58,136 05 | | |
| Individual contributions | 3,949 88 | | |
| Legacies | 4,509 20 | | |
| Interest on invested funds | 9,089 08 | | |
| Sale of church buildings | 5,910 98 | | |
| Appropriations returned | 1,355 23 | | |
| Receipts from insurance | 1,894 18 | | |
| Special contributions | 5,303 91 | | |
| Premium on sale of Gov. Bonds | 2,700 00 | | |
| | | \$92,848 | 51 |
| Temp. Loan from Perm. Fund to Loan Fund | | 23,200 | 00 |
| Contributions to Manse Fund | \$ 894 27 | | |
| Repayments to Manse Fund | 9,15595 | | |
| Interest to Manse Fund | 453 66 | | |
| Special contributions to Manse Fund | 925 00 | | |
| Partial loss recovered | 75 00 | | |
| | | \$11,503 | 88 |
| | | \$127,552 | 39 |

APPROPRIATIONS.

1. The General Fund.—From this fund appropriations are made only for church edifices. As the demand from the opening of the year constantly pressed upon the resources of the treasury, great caution was needed that, while not neglecting nor discouraging worthy applicants, promises should not be made that the Board would find itself unable to fulfil

Appropriations have been made to 154 churches, the amount promised aggregating \$78.717.

The applications thus met have come from 28 Synods, 106 Presbyteries and 36 States and Territories.

In regard to number of appropriations to Synods Minnesota, Iowa and North Dakota head the list with 13 each, followed hard by California on the Pacific coast and Catawba on the Atlantic with 12 each.

• The number of grants is 9 less than last year, and the aggregate amount \$4,652 less.

In addition to formal appropriations, special gifts aggregating \$5,253.20, have been made to churches.

This makes the total amount for church edifices from the General Fund \$83,970.20. The total payments were \$92,203.38, of which \$5,253.20 were on account of special gifts, and \$393.51 from insurance companies to meet losses by fire.

- 2. The Manse Fund.—This fund is a permanent one, and as it is not increased by annual contributions from the churches its work is necessarily limited. It now amounts to \$ 36,944.19, onequarter to one-third of which coming in each year from repayments, is available for new work. Of the 51 applications received asking for \$21,010, there were approved 38. The loans thus promised aggregated \$15,300.
- 3. The Loan Fund.—This fund was inaugurated by the Assembly, 1891, which directed the Board to perfect a plan for the administration of the new work thus proposed. The object of this department was not to interfere with the present system of absolute grants or of loans without interest from the General Fund contributed annually by the churches, but to supplement this by providing a fund from which loans might be made upon a business basis to congregations that needed only the accommodation of time to be able to complete their own buildings without aid from the purely benevolent funds of the Church at large.

To such applicants loans may be made to be repaid within a longer or a shorter period with a low rate of interest. The advantage to the church is in permitting payment in annual installments and the reduction from the excessive rates of interest ordinarily charged in our younger States.

This year is the first in which this department has been in practical operation, and although the delay in receiving certain funds which are expected has limited the extent of the work, enough has been done to show how important a feature this department may become in the future operations of the Board.

Loans have been made in sums ranging from \$1,200 to \$5,000,

to nine different churches, aggregating in amount \$23,200.

The payments are due in from five to ten years, and the rate of interest, which is nominally 6 per cent., is subject to a rebate when installments are punctually paid, so that it in such cases actually amounts to 3 per cent. per annum.

The Board believes that this department may be greatly enlarged with the happiest results, and in accordance with the direction of the Assembly invites special contributions and legacies to be added to the Loan Fund. Such gifts may be made with the consciousness that they will form part of a permanent fund which will be loaned out again and again and continue its beneficent work in perpetuity.

SUMMARY OF RESULTS.

Recapitulating the results already given, it will be seen that including all its different departments the Board has extended its work more widely than in any past year and disbursed a larger amount of money—it being noted, however, that it is the addition of the Loan Fund that carries it much beyond the average.

The number of churches reached in all branches of the work was 218 and the aggregate amount pledged for their aid \$122,470.20.

A map, as usual, is appended, which shows at a glance the scope of the Board's operations. The alphabetical and synodical lists of the churches will enable the observer to follow the work in detail.

The aggregate of receipts in all departments was \$101,643 and the sum of all payments including expenses of administration, \$136,938.67. Of this \$19,200 is borrowed temporarily from the permanent fund.

One hundred and eighty-six churches and manses have been reported as completed without debt during the year through the aid of the Board, aggregating in value not far from \$400,000.

The mortgages held by the Board to secure its grants amount to nearly \$2,000,000.

These mortgages, as is well understood, are simply for the protection of the capital that the Church at large has invested in these new buildings. Consequently they draw no interest excepting in the case of those held by the loan department, and are due only upon the dissolution of the church or the abandonment of its building. The churches, however, are encouraged to return the sums given them by the provision that their annual contributions may be accounted as payments on the mortgage provided each such contribution is not less than 10 per cent. of the amount of the original grant.

Insurance policies are held to protect the mortgage interest. Fires are not infrequent, and in case of such loss the amount recovered from the insurance company by the Board is regranted to the church if it rebuilds, as is usually the case.

To aid churches in securing neat and tasteful houses of worship the Board furnishes a Book of Designs giving perspective views and ground plans of churches designed by a number of different architects. The Board can furnish at a very low price the working drawings and specifications of many of their buildings.

A HALF-CENTURY'S WORK.

The first action of our Church looking to the establishment of an organized plan for aiding in church erection was taken by the General Assembly (O. S.) meeting in Philadelphia in 1843. The present year therefore completes a half-century since the inception of the movement.

As the last General Assembly directed that in connection with the "Religious Exhibit" at the World's Columbian Fair there should be included a survey of the work of our Boards, the Board has been at some pains to tabulate the progress and results of its work for the half-century, the close of which thus happily synchronizes with the date of the great Fair.

It is believed the tables upon the following pages, given as a supplement to the brief history and summary of results, and showing the progress of the work from year to year will not be without interest, as indicating how the scope of the work each year has enlarged, taking in new States and Territories until the entire Continent was traversed.

HISTORY.

The Committee upon Church Extension of the Board of Domestic Missions, authorized by the General Assembly (O. S.), of 1843, was appointed in 1844.

The Trustees of the Church Erection Fund were appointed by the General Assembly of 1854 (N. S.), and incorporated by the Legislature of the State of New York, March 31, 1855.

The Committee of Church Extension was reorganized by the General Assembly of 1855 (O.S.), and established as a Board in 1860.

At the Reunion in 1870 these two Boards were consolidated under the name of The Board of the Church Erection Fund of the General Assembly of the Presbyterian Church in the United States of America, and incorporated anew by the Legislature of the State of New York, March 27, 1871.

| Total | 5,264 | \$3,136,625 00 |

Approximate value of property secured \$10,500,000.

TABLES.

The table preceding upon pages 10, 11 gives the work of each year in the States reached.

In examining this table it is interesting to note as the years go on how regularly the columns extend to the right indicating the westward reach of the work.

In the first year but 12 states are included, and of these, three are in the South, and one only, Iowa, west of the Mississippi. Before the close of the first decade, however, Minnesota, California and Oregon appear, the presence of the latter two indicating the date of the gold excitement upon the Pacific coast. These states, however, were reached by the way of Panama and the Isthmus: and across the continent from Iowa to the Sierra Nevadas, the plains and prairies were still a barren waste.

In the second decade Nebraska, Kansas, Dakota, Indian Territory and Washington claim a place, while in the center of the table a blank in columns previously occupied, marks the effect of the civil war in withdrawing from our Assembly the churches in the southern states. Later it will be noticed some of these columns are again occupied, as the work extended to the Freedmen and the immigrant population of the New South.

In the the third decade we find the names of Colorado, New Mexico, Wyoming, Nevada, Utah and Montana, as here and there a church dotted the vast plains. In the fourth decade come Arizona, Idaho and Alaska, leaving only Oklahoma to be entered during the last ten years.

The total number reached in this table is 6,605, but as in this number are necessarily included repetitions accounted for by special gifts and supplementary grants the total obtained is somewhat in excess of the actual number of individual churches aided.

TABLE II.—WORK OF THE BOARD BY STATES, 1843-1893.

| | No. of Churches. | Grants. | Value of Property. |
|------------------------|---------------------|------------------|--|

The second table (page 13) which gives the states in alphabetical order indicates as nearly as possible the number of distinct churches aided in each State during the entire period and an approximately correct statement of the amounts granted to each and of the value of the property thus secured. These latter amounts are calculated upon the basis of the entire amount appropriated, divided, upon a careful consideration of averages, among the churches aided. The amounts, while not absolutely accurate, are under rather than over-stated.

Even in this second table it will be seen that the number of churches in several states actually exceeds considerably the number now upon our roll in the same states.

This is accounted for by the fact that, in numerous instances (amounting probably to 5 per cent. of the whole), the same church has been assisted in erecting two successive buildings, and still more by the much less happy circumstance that many churches organized with apparent promise nevertheless die. This is more apparently than really discouraging, inasmuch as churches in our fast-growing country must be organized in many villages and hamlets, the future of which is necessarily uncertain. The supply of timber giving out, the failure of mines, the changed direction of railroads, result in the practical desertion of scores of young towns every year, and the churches must needs suffer the same fate. Chiefly from this cause since the reunion in 1869 more than 1,200 churches connected with the Assembly, or nearly 15 per cent. of all then existing or since organized, have been dissolved.

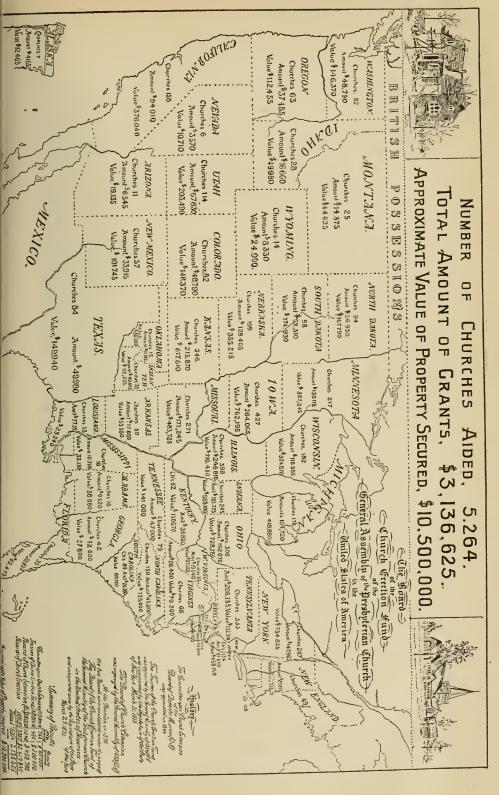

Considering the rapidity of our country's growth the changing conditions of successive years, and the obligation to organize churches wherever there seems a probability of a successful future, this discount upon the apparent advance is no greater than was to be expected. It is the necessary loss involved in carrying forward any great and enthusiastic movement.

THE COLUMBIAN EXHIBIT.

After careful consideration of the best form in which this proposed exhibit could be made, it was decided, in view of the very limited space available, to send a handsomely framed map, giving a bird's-eye view of the work accomplished throughout the land by this Board during the half century.

The aggregate amounts are given in plain figures at the top, and upon each State is printed distinctly a statement of the number of grants it has received, their total amount and the approximate value of the property thus secured.

Upon the next page is a reduced copy of the map thus prepared.

THE FUTURE OF THE WORK.

In view of the results in the past it would seem as if little need be said to show that a great work awaits this Board in the future. Our Church is constantly growing, and although every State be occupied, yet while population increases new congregations must be organized and new church edifices erected.

For the salvation of this great land all of our Christian denominations are working hand in hand. Some of them are far surpassing us in the number of their missionaries and the extent of their evangelical work.

That the Presbyterian Church, so greatly blessed of God in the past, may bear her just and glorious part in the great result towards which God's people are moving, she will need to rise to greater heights of self-abnegation and to pour far larger gifts into the Lord's treasury.

This Board rejoices in the department of the workcommitted to it; it longs to meet adequately the responsibility with which it is honored, but it can give only what it receives, and it is dependent under God for all success upon the sympathy, the prayers and the co-operation of the 8,000 congregations that compose our Presbyterian host.

May it not as it enters upon its second half-century look confidently for contributions from a far larger number of churches, and for a substantial increase from those who have co-operated in the past?

In this coming year it will need not less than \$150,000 from the churches in addition to its other resources.

It would also suggest, as a provision for the future with its increasing demands, that churches receiving grants should more generally consider them as loans without interest and hold it as a sacred obligation to return to the Board each year not less than one-tenth of what it has received.

ELECTION OF MEMBERS OF THE BOARD.

The term of office of the following members of the Board expire at this time:

MINISTERS.
REV. SAMUEL D. ALEXANDER, D.D.,

WILLIAM N. CRANE. BENJAMIN F. DUNNING.

REV. FORD C. OTTMAN, REV. JOHN REID, D.D.,

GEORGE E. STERRY.

ELDERS.

REV. ROBERT F. SAMPLE, D.D.

It will devolve upon the Assembly to fill these vacancies.

All of which is respectfully submitted

By order of the Board.

SAMUEL D. ALEXANDER,

ERSKINE N. WHITE,

President.

Corresponding Secretary.

Report of the Standing Committee on the Board of Church Erection.

The Assembly's Standing Committee on Church Erection respectfully presents the following report:

This may be regarded as the semi-centennial year of the Board of Church Erection. The Assembly (O. S.) took action in 1843 for the establishment of an organized plan for aiding congregations in the erection of church edifices. The Trustees of the Church Erection Fund were appointed by the General Assembly (N. S.) and incorporated by the Legislature of New York, March 31, 1855. The two Boards were consolidated at the reunion in 1870, forming the present Board of Church Erection.

From the inception of the work until the reunion in 1870 the number of churches aided were 1,902. Since the consolidation there have been aided 3,362 churches, making a total of churches aided since the organization of the work of 5,362.

The progress of the work from year to year during the half century is strikingly set forth in the report of the Board in a table giving the work each year in the States reached. In the first year but twelve States were included, and of these only one, Iowa, west of the Mississippi. Before the close of the first decade Minnesota, California and Oregon appear, the latter two, however, being reached by way of Panama and the Isthmus, for across the plains it was still a barren waste. Next appear Nebraska, Kansas, Indian Territory and Washington. At the same time blanks appear in the columns of the table which mark the effects of the Civil War, in the separation of the Southern Churches from the Assembly. Then follow the names of the new States of Colorado, New Mexico, Wyoming, Utah and Montana.

The 5,264 churches aided are located in 45 different States and Territories. The total sum granted to these churches amounts to \$3,136,625. The value of church property possessed by these churches is estimated at \$10,397,205.

These magnificent results vindicate the wisdom of the Fathers

in devising and executing this scheme and is an inspiration for us, in view of the pressing needs and ever widening field before us, to be faithful in executing the trust committed to our hands.

In reviewing the work of the Board one thing is conspicuously evident, that the work is constantly increasing. Urgent appeals come from all quarters, not only from the new and growing States of the West, but also from all the older States. From these different sections there have been received during the past year 239 applications, of which 188 have been for grants or loans for church edifices and 51 for aid in building manses. The aggregate amount applied for was, grants, \$105,391; loans, \$40,182, and loans for manses. \$21,010; a total of \$166,583, an amount exceeding that of any year in the history of the Board. And yet the inadequacy of the Board's resources has compelled it to put burdens upon feeble churches that had expected its aid. The resources of the Board do not increase with the increasing demands made upon it. This is in part accounted for by the growing tendency of the churches in our larger cities to contribute to local needs at the expense of general interests.

The efforts of our wealthy churches and stronger presbyteries towards local church extension are laudable and highly desirable: but these churches and presbyteries should never forget that upon them is also devolved the duty of relieving the necessities of weak churches in the remote and destitute places of our land. In this connection your committee would emphasize the fact that some of our older and larger Synods, instead of coming to the help of the Board in aiding churches in destitute places, are pensioners on the Board for aid to their own churches.

The four Synods of New York, New Jersey, Pennsylvania and Illinois are the Synods which have heretofore contributed to the Board in excess of their demands upon them. To these has been added this year the Synod of Ohio. The total amount contributed by these Synods in excess of their drafts being about \$27,000.

Your committee is compelled earnestly to urge upon the churches that have received aid from the Board the importance and the justice of returning as soon as they are able the amount they have withdrawn from it. A church which in its infancy has been aided from the funds of the Board and has grown to mature years and gathered strength, ought promptly and cheerfully to return what it received, that other struggling churches may in their turn enjoy its benefactions. By the rules of the Board any church may liquidate its indebtedness and cancel its mortgage by ten annual payments which are at the same time credited to the church as its annual contribution to the Board.

It is a matter of great regret that so large a number of churches fail in their duty to make contributions to this Board. Let Synods and Presbyteries emphasize the duty of churches in this matter and take such action that the evil may be remedied.

Your committee notes with satisfaction that the Loan Fund has been put into operation by the Board. Loans have been made in sums ranging from \$1,200 to \$5,000, to nine different churches, aggregating in amount \$23,200. By the plan on which this fund is managed many churches whose prosperity demands the erection of edifices exceeding in expense their present ability, and who are debarred from borrowing by the exceeding high rate of interest in their several localities are finding the rehef they need through this part of the Board's efficient effort. Let not the Church be content with the amount of the Fund already secured, but let effort be put forth to increase the basis for loans.

Overtures were received from the presbyteries of Palmyra, Kansas City and White River asking that the plan governing the Board of Church Erection be amended so that its funds may be made available for building chapels not only in those territories to which it is now limited, but wherever the Board in conference with the presbyteries shall deem such action desirable.

To these overtures we recommend the following answer, namely: That so far as the erection of chapels is concerned the Board already has the power sought for it by these overtures, the special permission accorded for certain territories being required to authorize the erection of school buildings for the Mormon, Indian, and Spanish-speaking peoples, and not applying to the erection of chapels for divine worship.

In concluding this report your Committee recommends the adoption of the following resolutions:

- 1. Resolved, That this General Assembly heartily approves the work of the Board as now conducted in its several departments of work, and commends it to the generous liberality of all its churches.
- 2. That it is specially urged upon Synods and Presbyteries that they adopt measures to secure an annual contribution from each church under their care.
- 3. That in the judgment of this Assembly not less than \$150,000 is needed for the work of the Board during the present fiscal year, and that effort be made to realize the amount thus required.
- 4. That the older Synods and Presbyteries be earnestly urged to so consider the great needs of the new fields in the West as to make strenuous effort to contribute more to the Board of Church Erection than they ask from its treasury.
- 5. That the Board be directed whenever practicable and in accordance with the best interests of the church aided to engage with said church that the amount granted shall be regarded as a loan, not bearing interest and to

be repaid to the Board in specified annual payments to be credited to the church as its annual contribution.

- 6. That churches making special contributions to particular churches, be earnestly advised to send such contributions through the Board.
 - 7. That the minutes of the Board be approved so far as written.
- 8. That the names of the following members of the Board whose term expires be nominated to be their own successors:

Ministers, Revs. Samuel D. Alexander, D.D., Ford C. Ottman, John Reid, D.D., Robt. F. Sample, D.D.; Elders, William N. Crane, Benjamin F. Dunning, George E. Sterry.

All of which is respectfully submitted.

By order of Committee.

CALVIN W. STEWART,

Chairman

STATEMENT OF RECEIPTS

BY THE

Board of the Church Erection Fund, FOR THE YEAR 1892-93.

In the list of Contributions from Churches signs are used as follows:

- † Indicates that the contribution being 10 per cent. of the grant received by the Church, is made under the Minute of the Assembly of 1888 in reference to such contributions.
 - ‡ Refers to the list of Repayments on Church Mortgages.
 - * Refers to the list of Special Donations to Churches.
 - § Refers to list of Contributions to Manse Fund.

_ DESIGNS L

Design No. 1.

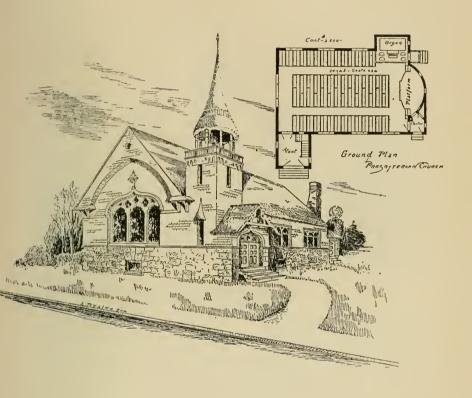

PRESBYTERIAN CHURCH, BRISTOL, PA.

As this is the semi-centennial year of the Board we give above a picture of one of the three churches to which grants were made at the first regular meeting of the Board—the Church at Bristol, Pa. The church is a substantial brick edifice, now nearly fifty years old, but still commodious, comfortable and homelike. The church was organized in 1844, and has had seven pastors in the following succession: Revs. James M. Harlow, Franklin D. Harris, Alfred Taylor, Henry F. Lee, Jacob Weidman, J. H. M. Knox, D.D., and Edward P. Shields, D.D., the present minister. The edifice was enlarged and improved 20 years ago. It is interesting to the Board and we think it will be to our readers to know that the Board, after having been privileged to aid more than 5,000 churches, can still point to the building to which its first contributions were sent, and see it still in constant use as the home of an active, fruitful church. In that sacred building have been gathered, first and last, more than 600 members, of whom nearly 200 remain to-day.

DESIGNS. 81

Design No. 2.

The above design for a small Presbyterian church is prepared by Messrs. L. B. Valk & Son, architects, Johnson Building, Brooklyn, N. Y.

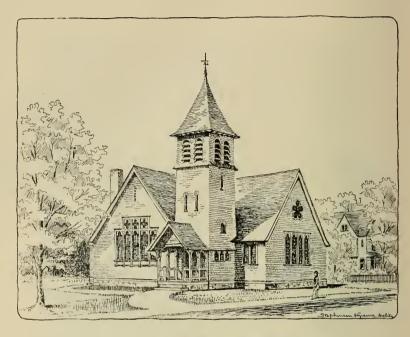

It represents a very attractive building 30 x 48 feet in size and seating 224.

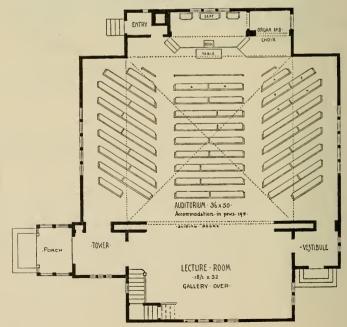

It is of stone or brick up to the windows and above shingled. The interior is plastered and completed with an arched ceiling.

The cost is estimated at from \$2,800 to \$3,000.

82 DESIGNS.

Design No. 3.

DESIGNS. 83

DESIGN No. 3.- Continued.

TRINITY PRESBYTERIAN CHURCH, SOUTH ORANGE, N. J.

STEPHENSON & GREENE, Architects, Temple Court, New York City.

This building is of wood covered on the outside with stained shingles.

There are two entrances besides that to the pastor's room.

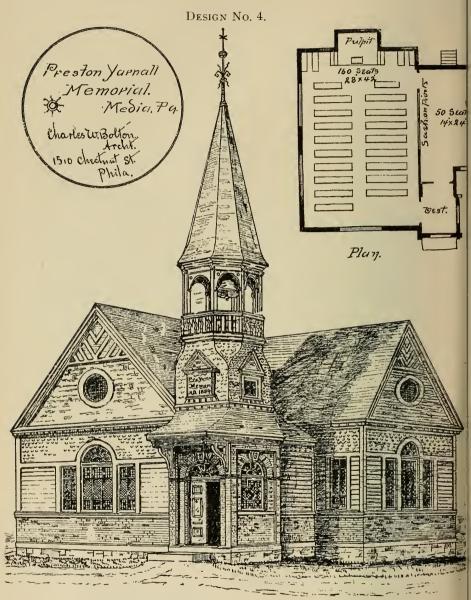

The lecture room is directly opposite the pulpit and so arranged that it can be made part of the auditorium by opening large sliding doors. A staircase in the lecture room leads to a gallery over it.

The pulpit platform is in a recess under a high plastered arch and there is a group of three windows, high up at the back, glazed with stained glass with symbolic designs.

The roof is open to the ridge and is carried by Georgia pine trusses with curved braces, octagonal tie-beams and turned kingposts. The ceiling is of North Carolina pine, finished natural. The walls throughout are of plaster, tinted a light terra cotta. The interior wood-work and roof trusses are stained a shade of brown. The leaded glass is in light shades of amber, with designs in opalescent.

The cost of the building, including stained glass and heating, was about \$5,800.

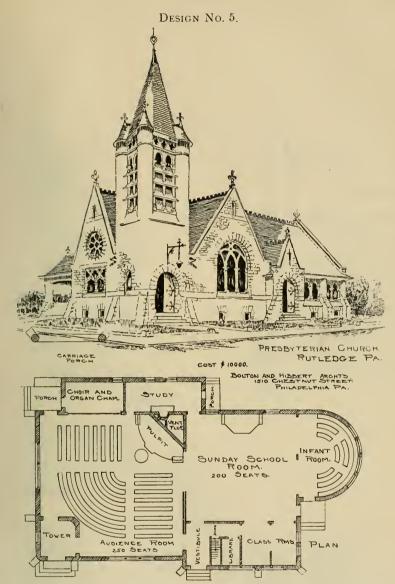

84

The church of which we here give a sketch is peculiarly convenient and, as we think, very tasteful in appearance. It will seat from 150 to 200, and provides a small prayer meeting room upon the side. In the original design brick or stone was to be used up to the level of the window sills, but it has frequently been built with shingles or clapboards substituted. The two rooms open into the other so easily and completely that when occasion requires they form one undivided auditorium.

This church has been built for \$2,000, and with care that sum will prove sufficient for the erection of such an one elsewhere.

DESIGNS 85

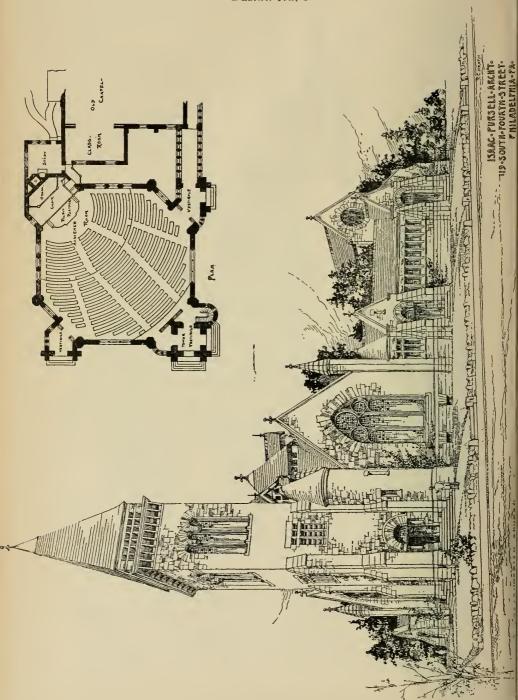

This new and original design was built at Rutledge, Penn., of gray stone, with slate roof, stained glass windows and has open timber roof. The interior finish is in the natural wood, oiled. The building is thoroughly heated and ventilated by the Smead Wills system. The cost, complete, was \$10,000. The rooms can all be thrown together when desired. The basement is 10 ft. high and has ample space for kitchen and dining rooms.

The architects were Bolton & Hibbert, 1510 Chestnut Street,

Philadelphia.

ACTION OF THE GENERAL ASSEMBLY.

AT WASHINGTON, D. C., MAY 20th, 1893.

The Report of the Board of Ministerial Relief, and the manuscript volume of its Minutes for the year ending April 1st, 1893, were presented to the General Assembly at Washington, May, 1893. These were referred to the Assembly's Standing Committee on Ministerial Relief, consisting of the following Commissioners:—

Ministers.—Charles L. Thompson, D. D., Chairman, David Gregg, D. D., Wm. R. Taylor, D. D., A. B. Goodale, M. D., C. W. Wyckoff, H. H. Van Vranken, Anthony C. Junkin, Edward Haymaker, Wm. M. Robinson, Wm. S. Jerome, James S. Black.

Elders.—Wm. A. Eudaly, R. S. T. Cissell, Wm. H. Bratton, Daniel Cook, N. S. Harding, Alsop S. Corwin, E. Dwight Loomis, George M. Baker, Washington E. Long, Arthur F. Chamberlain.

The Standing Committee on Ministerial Relief presented its Report, which was read, received and, after an address by Rev. W. C. Cattell, D. D., Secretary of the Board, was adopted as follows:

The Committee on Ministerial Relief respectfully report that the Annual Report of the Board, together with the "Book of Minutes" of the year, from the 1st of April, 1892, to the 1st of April, 1893, has been placed in our hands. We find the minutes have been neatly and accurately kept and we recommend their approval.

We have pleasure in calling the attention of the Assembly again to the work of this very important Board. It is a Board that has no enemies, though it may be said to have too many luke-warm friends, and yet it should appeal, at least, to all the ministry of our Church with unabated interest. There are few of us who, either through our personal experience or our friendships, may not have cause to look kindly upon the work of this Board. It lies, therefore, deservedly near the heart of the Church. Civilization may be fairly measured by the care it gives to the weak and the unfortunate. The barbarity of Rome

was in nothing more conspicuous than in its treatment of the aged and infirm whom it was wont to push aside to make room for the activities of the strong and the prosperous. The genius of the Gospel in nothing comes out more grandly than in its regard for that which is the least, and surely the genius of our Church will in nothing be more Christ-like than in its constant, tender and watchful care of the welfare of its veterans. It may, however, be said that whatever we may have done in the past in this regard we need to advance in this grace also. Our country very wisely provides for its worn-out soldiers. There is sometimes complaint that it has such a good reputation in this regard that its shield is sometimes unworthily sought. The Presbyterian Church has never put a premium on old age and infirmity in the ministry. The small amount we give to our venerable servants is not large enough to tempt to any dishonesty in the applications. The report shows that the average of appropriation to each family is only \$211. This, indeed, is an increase, over the average amount of ten years ago, of \$34 per family, but still how inadequate is such provision for the wants of those families, many of whom are almost entirely dependent upon this source for their maintenance. Vour Committee believes that our Church can well afford to make still more generous appropriations for those who have so well earned those appropriations by years of faithful and poorly paid service. In this connection it is with pleasure that we again call attention to the new rule of the Assembly, adopted a few years ago, which provides that "every honorably retired minister over seventy years of age, who is in need, and who has served our Church as a missionary of the Home or Foreign Board, or as a pastor or stated supply, for a period in the aggregate of not less than thirty years, shall be entitled by such service to draw from the Board of Ministerial Relief an annual sum for his support without the necessity of being annually recommended therefor by the Presbytery."

The delicate advantages of this plan are very evident, and that they are highly appreciated by those for whom it has been devised is manifest from the increasing number who are ready to avail themselves of it. There are now upon the roll of the Board seventy-six ministers under this new rule. The maximum sum paid them is \$300 annually, and fifty-seven out of this seventy-six of these venerable men have certified their need of this sum for their support in their helpless old age, and others are content

with less. The number of families under the care of the Board is larger now than at any time in the past. The appropriations of the past year have reached \$152,492. These appropriations have all been promptly met, partly from the gifts of the churches, Sabbath-schools and individuals, (which during the past year, amounted to \$99,278,) and partly from the interest on the invested funds of the Board. It should be said, however, that the increase in the revenue of the Board enabling them to meet all their payments promptly, has come, not from churches and Sabbath Schools, but from the gifts of generous individuals and from the interest of the Permanent Fund. The contributions from churches and Sabbath-schools have decreased by \$5,030. It is a good thing that there is so large a Permanent Fund, the result chiefly, of the great Centennial Offering. It is hoped that this Fund will constantly grow, that the minds of generous givers throughout our Church will turn to it as one of the great opportunities for serving the Redeemer. But the steady increase in the number of those requiring aid of this Board, and the need of doing better for them in the future than we have done in the past, make it apparent that the collections ought also to increase. At last all the causes of of benevolence in our church must depend upon the living givers, upon the stream of steady offerings coming from our Church members. It will be a sad day for us when we shall come to rely upon endowments, either for churches or for the relief of our worn out servants. Three thousand five hundred and eightyone churches made no contribution to this Board during the past year. Surely it cannot be that more than one-half of our churches have no interest in a cause whose appeal to us is emphasized by the most sacred and tender considerations that can gather about any cause of beneficence! We suspect that many of our churches have allowed this cause to pass by without consideration, because they have believed it would be cared for by large contributions and that in the account the small gifts of feeble churches would not be missed. But even small contributions from all the churches would not only meet the present demands upon the Board, but put the Board in a position to give more adequately and so more worthily to those who are dependent upon it. And besides, every church owes it to itself to remember the Board of Ministerial Relief. The Assembly perhaps scarcely needs to be reminded of the Ministers' House at Perth Amboy, the quiet and beautiful home which it affords for the worn-out veterans. The sacred shelter of that rest into which it invites them for a little ere their sun goes down is one of the most beautiful illustrations of the tender care of the Church of her own. Frequent visits to it are made by the Secretary of the Board and by other members, some of whom take an unfailing and watchful interest in it, which they have found to come back in abundant blessings to themselves.

Your Committee recommends the following resolutions for adoption:

Resolved, 1. That the churches be urged to more generous and more general contributions to this cause, and that the attention, especially of the non-giving churches, be called to it, in the hope that they will fall into a line which is hardly more useful to the work it is meant to advance than it is fruitful in

blessings to itself.

Resolved, 2. That the attention of the ruling elders of the Church be especially called to this work, and that they be asked by some systematic plan to increase the intelligence of the people as to the operations and needs of this Board. The distribution of documents, which can be obtained in any number at the office of the Board, will be found the most efficient means of increasing the interest of the people.

Resolved, 3. We recommend the reelection as members of the Board of the Rev. John A. Liggett, D. D., the Rev. J. Henry Sharpe, D. D., Robert C. Ogden, Esq., and the Hon.

John Scott, whose terms of service expire at this time.

ANNUAL REPORT

TO THE

GENERAL ASSEMBLY,

OF

MAY, 1893.

THE PRESBYTERIAN BOARD OF RELIEF FOR DISABLED MINISTERS, AND THE WIDOWS AND ORPHANS OF DECEASED MINISTERS, respectfully presents to THE GENERAL ASSEMBLY Its Thirty-eighth Annual Report. The Book of Minutes, containing the proceedings of the Board for the year from April 1, 1892 to April 1, 1893, is also herewith presented.

THE ROLL.

The number on the Roll of the Board to whom remittances were sent upon the recommendation of the Presbyteries during the year from April 1, 1892 to April 1, 1893, was 694: that is, ministers, 276; widows of ministers, 389; orphan families, 26; two women who have given themselves to missionary work under the care of the Foreign or Home Boards "for a period of not less than five years" (see printed minutes of the General Assembly, 1888, page 33), and one widow of a Medical Missionary (see printed minutes 1889, page 32). The number provided for at the Ministers' House at Perth Amboy, N. J., in lieu of receiving a remittance in money, was 28, making upon the Roll of the Board during the past year a total of 722 names, an increase of 22 over last year. The Presbyterial recommendations in their behalf came from 176 Presbyteries.

Upon the recommendations of the Presbyteries there were placed upon the Roll during the past year 94 new names—42 ministers and 52 widows.

Fifty-one names have been removed from the Roll by death—37 ministers, 13 widows and 1 orphan. The withdrawal, from our roll of other names (owing to a change in pecuniary circumstances or restored health rendering further aid no longer necessary), and the failure of some "renewals" by the Presbyteries

to reach the Board before the close of the year, make the number of persons actually upon the Roll, recommended by the Presbyteries and receiving a remittance in money or in lieu thereof a residence at Perth Amboy, as given above, 722.

It should be borne in mind that in the great majority of cases the name upon the roll of the Board represents more than one person. The "family" to whom the remittance is sent is sometimes composed of an aged couple; or of a minister laid aside in the midst of his usefulness by protracted sickness, with a wife and children to support; or of the widow of a minister needing help for her dependent children as well as for herself. There are therefore very many more than 722 persons who share in these appropriations.

There are now upon the roll of the Board 76 ministers who have applied for aid under the new rule of the Assembly which provides that: "Every honorably retired minister over 70 years of age, who is in need and who has served our church as a missionary of the Home or Foreign Board or as a pastor or stated supply for a period in the aggregate of not less than 30 years, shall be entitled by such service to draw from the Board of Ministerial Relief an annual sum for his support, without the necessity of being annually recommended therefor by the Presbytery."

The maximum sum to be paid by the Board upon such application duly certified by the Stated Clerk of Presbytery, was fixed by the Assembly at \$300, and fifty-seven out of these seventy six venerable men have certified to the Presbytery that they were in need of this sum annually for their support in their helpless old age.* The others applied for sums ranging from one hundred and fifty to two hundred and fifty dollars. The entire annual sum appropriated to these seventy-six aged ministers amounted to \$20,700, an average of a little more than \$272 to each family. The oldest of them is in his ninety-fourth year; thirty-five are over eighty. The average age is over 78, and the average number of years spent in the ministry is nearly 49.

^{*}Blank forms for this Application under the New Rule may be had on application to the office of the Board. The General Assembly has made it the duty of the Stated Clerk of Presbytery in forwarding these Applications to the Board—" with his endorsement thereon as to the years of service such minister has rendered, his field or fields of labor, with the term of service in each,"—to "certify also that the same has been reported to Presbytery and is recorded upon its minutes." See minutes of the Assembly, 1891, page 44.

During the four years in which this New Rule of the Assembly has been in operation, the whole number of ministers enrolled upon this list is 107. Thirty-one have been called to their reward on high, leaving the present number as given above, viz., seventy-six.

THE MINISTERS' HOUSE.

The number of guests admitted to the Ministers' House at Perth Amboy, upon the recommendation of the Presbyteries, was twenty-eight. There have been in addition to these a number during the year who have resided temporarily at The House at their own charges, while recuperating their health. So long as there may be rooms not wanted by those for whom The House is especially designed, the advantages of this home are offered to ministers who may need its quiet and rest, but who do not wish to be a charge to the Church.*

Naturally the days pass quietly away in such a family, with but little of interest to chronicle for the outside world. There was however a pleasing event last year which, of special interest to the home circle, can scarcely fail to have a touching interest for the whole Church. Of the nine octogenarians in the present family at the Home, five were born in 1812, and therefore all reached four score years of age during the year 1892. Upon the birthday of the youngest of the five, December 20th, these veterans, with the Secretary of the Board, held appropriate exercises—dining together and holding a "symposium" in the afternoon where each one gave an account of his ministry. In the evening there was a gathering of the entire family in the large parlors where each one of these octogenarians took some part in the devotional exercises. One of the number who signs himself "The Youngest of the Five," gave a brief account of the day in a communication to the Mid-Continent last January. He refers to the "sumptuous dinner" provided on the occasion and says "we were almost overwhelmed with congratulations and beautiful mementos and a profusion of the choicest fruits and flowers. Our excellent Superintendent doesn't do things by

^{*}The Board have so often called the attention of the Assembly to this Home for the aged servants of the Church that, for general information upon the subject, they beg leave to refer to their Annual Reports, and especially to the lextended notice of The House which appeared in *The Church at Home and Abroad*, which has been reprinted in pamphlet form and can be had upon application at the office of the Board.

halves. The five aggregated 400 years in age and about 240 years in professional labor for the Master in his Church." The Editor, in a note introducing this communication "from one of the very aged servants of the Church whose days in his honorable retirement are thus made glad," adds: "It cheers the hearts of all to think of this bountiful and just provision for the comfort of the veterans."*

During the past year one of the guests of the House died at the advanced age of ninety-nine years and three months. This venerable servant of the Church had out-lived all the members of his family and had no near relatives or friends to care for him. But in the congenial society of the honored guests of the House where since 1885 he had made his home, and cared for personally by the faithful Superintendent with unwearied and tender ministrations, his last years were passed not only free from all anxiety and care, but in the enjoyment of every comfort that an aged father could have in the home of any one of his own children.

This case forcibly shows the need of such a Home for the aged servants of the Church. The large proportion of those under the care of the Board must obviously be assisted in their own homes, or in the homes of their children or friends. But there are honored servants of the Church who, though they have not reached the age of this patriarch, have outlived, like him, not only the members of their own family, but all those who knew them in their youth and riper years; they have no friends to take the charge of their maintenance and they could not among strangers enjoy the comfort and receive the affectionate care which very aged persons ought to have and which a grateful church owes to its faithful wornout ministers. For such of them as are extremely aged, the homeless and helpless, such a place as The Ministers' House is eminently desirable.

THE TREASURY.

As the number of families upon the roll of the Board during the past year has been the largest in its history, the total of appropriations has naturally been larger than in any previous year—amounting to \$152,492.37. Ten years ago the amount dis-

^{*}An account of this "Birthday Celebration," given in The Church at Home and Abroad of last March, is appended to this Report.

tributed to those upon the roll of the Board (498 families) was \$88,002.06, an average appropriation of \$177 to each family. Last year the average was \$211. The much larger number upon the roll last year (722) is due partly to the growth of the Church, but still more to the awakened interest of the Presbyteries in seeking out and recommending to the Board for aid many families who had long needed it and who had a just claim upon its treasury but were reluctant to make application; and it is a cause for devout thankfulness that the Board, in response to the increased applications of Presbyteries, were enabled to send promptly and in full, every appropriation asked for that came within the lines of administration laid down for the Board by the General Assembly.

But this gratifying announcement could not be made were it not for the large increase in the amount of interest now derived from the permanent fund of the Board. Ten years ago the revenue of the Board from this source was \$15,002.69; last year it The contributions have not proportionately increased. In fact, last year, although there was a slight increase (\$464) in the amount of individual contributions for current expense, the collections from the churches and Sabbath Schools fell off \$5,030 from those of the previous year. They were even below those of the Centennial year, 1888, when the Churches were engaged in the special efforts to enlarge our permanent fund: and the danger feared by many and often referred to in the reports of the Board—that the permanent fund may weaken the sense of obligation on the part of the churches to make annual contributions to the Board-should be renewedly emphasized by the Assembly.

Special attention should also be called to the fact that while the total receipts of the Board for current expenses was the largest in its history, the result of the operations of the year, as will be seen from the Treasurer's statement, is really a slight "balance" on the wrong side—that is to say, if the Board had commenced the year with nothing in the Treasury, they would have reported to the Assembly the sum of \$156. as a debt. But for several years past the Board have come to the Assembly with a large balance in the Treasury, which has been of great service during the Summer months when the contributions come in slowly while the demands upon our Treasury are large. At the General Assembly last year in Port-

land the balance reported was \$24,063; this year it is reduced by the \$156 above referred to; but there is yet left in the Treasury \$23.907 to help tide the Board over the Summer months. Ordinarily the large balance which the Board have reported to the Assembly since 1887 (when, from \$5,685 the year before, it rose to \$21,389 and the next year to \$26,142) is entirely exhausted before the September appropriations are reached, and in order to pay promptly and in full the appropriations asked for by the Presbyteries during the Fall months, the Board are obliged to borrow temporarily from the funds in the Treasury awaiting permanent investment. In fact the whole amount in the Treasury is gone in some years before the Summer months are reached—before even the meeting of the Assembly in May, to which the large balance is reported!*

COMPARATIVE TABLES.

The following statement gives the receipts for current use last year and that of the year previous:

| | | 1S91-92 | 1892-93 |
|-----|---|--------------|--------------|
| (1) | Contributions from Churches and Sabbath-schools | \$92,026 47 | \$86,996 19 |
| (2) | Contributions from Individuals | 11,817 65 | 12,282 62 |
| (3) | Interest from Permanent Fund | 56,744 22 | 63,766 25 |
| (4) | " " Deposits in Bank | 880 97 | 503 95 |
| (5) | " Special Funds held by the Synod of Oh | io | |
| | and other Trustees | . 245 12 | 245 12 |
| | | \$161,714 43 | \$163,794 13 |

The usual comparative tables prepared by order of the Assembly will be found on pages 45-47. These show (1) the amount of the "collections" paid into the Treasury by each Presbytery, (2) the amount drawn out for the ministers, widows and orphans within its bounds, and "recommended" by it to the Board and (3) the number of contributing and non-contributing churches. It will be noticed that, as in previous years, more than one-half of the churches upon the roll of the Assembly are contributing nothing whatever to our Treasury—in fact the number of "delinquent" churches last year exceeded by 29 those of the previous year! The detailed statement on pages 22-40

^{*}Such has been the case the present year. When the appropriations at the May meeting of the Board were voted, not only was this balance of \$23,907 entirely exhausted but we were obliged to borrow nearly a thousand dollars temporarily from funds in the Treasury "awaiting investment." We therefore begin the Summer months this year with a debt of a thousand dollars, for, of course, this sum must be returned to the Permanent Fund out of the receipts for current expenses.

gives, by Synods and Presbyteries, the names of the churches which did contribute and the amount sent by each church. A careful examination of these lists will show that many churches, which are comparatively feeble, have not forgotten to contribute to this sacred cause and, in many instances, most generously in proportion to their means; but it will be a painful surprise to many, that the names of some large and able churches are not to be found in this list and that the amount sent by some churches is so disproportionate to their ability to give.

It should be stated, however, that the amount of contributions for the current expenses of the Board, received by the Treasurer from the churches, Sabbath-schools and individuals, (\$99,278.81) does not fully represent the gifts from the Church to the cause of Ministerial Relief during the past year. should be added the estimated value (\$6,950) of the boxes of clothing, &c. (see page 19), sent during the year by the Ladies' Societies to families upon our roll and also the gifts (\$16,586, see page 44) to our Permanent Fund. These make a total of \$122,814, representing what the Presbyterian Church has given towards the support of its disabled ministers and their dependent families through this Board during the past year. Adding the amount from legacies and the interest from the Permanent Fund, bank balances, etc., the total receipts of the Board last year were \$260,743.55. This is the largest in its history except when the Centennial offerings were placed in our Treasury.

The report of the Board to the General Assembly aims to give the statistics of the year and the facts bearing upon our work, rather than to enlarge upon the sacredness and importance of the work itself. The Assembly needs no argument or appeals from us on behalf of the tender and sacred work they have placed in our hands, and the cause of Ministerial Relief is also dear to the hearts of all of God's people. But for obvious reasons, it is easily lost sight of by them. The practical question for the Assembly is, how can this cause be kept before the people so that it may have a permanent place in their hearts and in their prayers, and thus receive a proportionate share of their contributions to the benevolent schemes of the Church? The Board has no Field Secretary or paid agents to visit the churches, nor is there any such auxiliary help as Women's Boards to keep the people informed of our work and by the canvass of the congregation to afford every one an opportunity of contributing to our treasury. We must depend

absolutely upon the pastor and elders taking such measures as will make the collection for Ministerial Relief fairly represent the ability of the congregation to give. This involves something more than preaching upon the subject—as the Assembly has enjoined upon every pastor to do. The "Circulars of Information" issued by the Board should be placed in the hands of every family. and if there cannot be found some elder in every congregation to aid his pastor or relieve him entirely of such an addition to his work (as the Assembly has recommended) the session cannot fail to find among the women of the church some one whose heart God has touched with a special interest for His sick and aged servants, and who will undertake this work under their direction. The Board will gladly supply all the printed material that may be needed—our own Circulars or those prepared by others for special use in their own neighborhood, but which are of general interest and have therefore been reprinted by us for more extended circulation. One of these, prepared by a committee of laymen, has reached us as the year is closing. It is a most admirable presentation of the subject by the Outlook Committee of the Presbyterian Social Union of Philadelphia, which directed the paper to be placed in our hands for such use as we might be able to make of it. It is appended to this report, and copies in any number for distribution may be had on application at the office of the Board.

LADIES' AID SOCIETIES.

For a list of these Societies sending boxes to the families upon our roll, see page 18. The estimated value of these is \$6,950.21. The estimated value of the boxes sent last year was \$4,727.88.

LEGACIES AND PERMANENT FUND.

During the past year \$84,789.32 were received by the Board in legacies, a detailed statement of which is given on page 44.

This is the largest amount ever received by the Board from bequests in any one year, although in 1890 it was \$80,024.53. For the last ten years the average is \$30,270.45. All legacies, unless otherwise directed by the testators, are placed in the Permanent Fund, the annual interest of which only is used for the current expenses of the Board. This fund was further increased during the last year by gifts from individuals amounting to

\$16,586.00. The list of these donors is given on page 44 and it will be noticed that there are two very large gifts—one of \$5,000 and one of \$10,000.

From the legacies and donations and \$74.75 of miscellaneous receipts (see page 44) received during last year (a total of \$105,949.42) the Permanent Fund now amounts to \$1,304,872.53, of which \$1,022,089.21 are held by the Board, and \$282,783.32 by the Trustees of the General Assembly in trust for the Board. From this amount should be deducted the sum of \$28,038.02 upon which the Board pays interest during the lives of the donors.

The term of service of the following members of the Board expires with the present Assembly: Rev. John A. Liggett, D. D., Rev. J. Henry Sharpe, D. D., Robert C. Ogden, Esq., and Hon. John Scott.

Respectfully submitted on behalf of the Board,

WILLIAM C. CATTELL,

Corresponding Secretary.

May 4, 1893.

REPORT OF THE OUTLOOK COMMITTEE OF THE PRESBYTERIAN SOCIAL UNION OF PHILADA. MADE AT THEIR MARCH MEETING, 1893.

THE idea of affording aid and relief to indigent ministers, who have become disabled in the service of the Master, in connection with the Presbyterian Church, is older than the old Presbytery of Philadelphia. Its development, we regret to say, has always been slow; nevertheless, substantial progress has been made. It does seem that the people of God should be touched by a special interest for 11 is sick and aged servants, who, when in health and strength, gave their talents and best efforts to the upbuilding of Christ's kingdom on earth, to disseminating the written Word, and to elevating mankind, for which, so far as this world's goods are concerned, those laboring in missionary fields or in the poorer churches were barely afforded a livelihood. The apathy of the lay members in respect to this matter is, in the opinion of this Committee, largely due to want of information, and to a lack of systematic effort to bring about a result so much desired by all well-minded Christian people. If the people were instructed as they should be, and the proper facilities were afforded them for making their contributions, we believe that the response would be prompt, hearty and generous.

The Board was formally organized by the Old School Branch of our Church in 1849, and by the New School Branch in 1864. These were consolidated at the reunion in 1870, and were constituted a Board by the direction of the General Assembly. In 1876 a charter was obtained and at the meeting of the next General Assembly, in 1877, twelve directors were elected, from which time the fund has been administered by corporate authority under the supervision of the General Assembly, and at a cost in the later years of little more than six per cent. of the amount distributed.

The restrictions and safeguards adopted, and the deliverances of the General Assembly with reference to the distribution of the fund, are such as to guarantee an honest, faithful and just administration of the same. For example: The Assembly has declared that no appropriations can be made to ministers simply because they are poor, but they must be disabled by disease or the infirmities of age to the extent that they are unable to follow some suitable employment; no minister who has voluntarily while in health left the ministry for some secular employment can afterwards become a beneficiary; no appropriation can be made to a widow of a minister who has children able to give her support; and the term "orphans" (who have become beneficiaries) is defined to mean those under the age at which they are able to earn their own living. Every honorably retired minister over seventy years of age, who is in need and who has served the Church as pastor or missionary for a period of not less than thirty years, may, upon the facts being properly certified by his Presbytery to the Board, receive an annuity not exceeding \$300; but applications for the relief of other ministers, or of widows and orphans, are made by the Presby tery to which the applicant belongs, and, if approved by the Board, the appropriation is voted for one year only. If further relief is desired the application must be renewed in like manner. We, therefore, have every assurance that our contributions to this sacred fund will not be unworthily expended.

The growth of the Church and the advancing age of its ministry naturally increase the calls upon the fund, but we regret to say that there has been a falling off in the past three or four years in the contributions of the churches to the fund. Efforts have been made from time to time, by both preaching and ruling elders, to encourage more liberal contributions, bequests and donations for the fund, not without beneficial effect; but there is still much room for improvement. The General Assembly (Minneapolis, 1886) adopted a resolution instructing the ministers of our Church to present the cause of ministerial relief in a sermon to their respective churches on the first Sabbath in September of each year, or soon thereafter, and to take a collection for the purpose of the Board of Ministerial Relief. In that resolution each Session was urged to select an elder to assist the pastor in presenting the cause to the people on the occasion of the annual sermon and collection. It is to be regretted that more than one-half of the ministers of the Church did not heed the instructions of its highest judicatory. The minister should not only feel it to be his duty, but also his privilege, to press this object upon the hearts and consciences of his people. It is Christian, it is scriptural, it is manly, and last, but not least, it is charitable for ministers to sympathize deeply with those of their own calling who have broken down in the service of the Church and the great Head of the Church. As a matter of equity and justice, the Church should support its needy, sick, and aged pastors and missionaries. The Board of Relief was not instituted to dispense charity, but as an agency through which the Church can discharge its Christian obligation of support to those who have become disabled in its service. It is well known that missionaries and pastors of the poorer churches receive during health and service barely enough to meet actual living expenses, and, therefore, can have nothing in reserve to meet living expenses in case of disability. It seems like a stretch of imagination for a minister to assume that selfish motives would be imputed to him if he should present to his congregation the objects, purposes, and needs of the Board of Ministerial Relief. In the opinion of the Committee, it will not do for the preaching elders to dismiss this all-important subject by saying that it more properly belongs to the ruling elders, who seldom take any aggressive or progressive step without the guidance and co-operation of the Moderator. The effort made in 1887, to raise a centennial fund of \$1,000,-000, for the endowment of the Board of Relief, was in part successful. But such an endowment fund, together with the scanty contributions of the churches, would be inadequate to meet the demands on the Board. . . .

It is practically impossible to reduce the number of beneficiaries, and for want of funds the Board is obliged to reduce the appropriation to an almost beggarly sum. There isbut one remedy, and that is an increase of the current contributions. While the endowment fund is good as far as it goes, there is no good reason why it should be increased to an extent that future generations would be relieved from the Christian privilege of taking care of Christ's poor. In the opinion of the Committee, therefore, our energies should be directed towards increasing the individual and church contributions. To this end we recommend that pastors and ruling elders carry out in letter and spirit the instructions of the General Assembly, and in furtherance thereof that they organize in their respective churches ladies' ministerial relief societies, It is

too well known to require comment by this Committee that work of a character which appeals to benevolence can be prosecuted more successfully by Christian women than by men who are, as a rule, taxed to the utmost with duties in connection with their callings. If such societies were organized in connection with our several churches a plan of systematic benevolence in the interest of the relief fund could be mapped out by the Board, or by Dr. Cattell, its efficient and worthy Secretary, that would, no doubt, be generally adopted, and would prove an effectual panacea for the shortage in the fund.

As the Church already has the machinery, if properly put in motion, to raise the funds needed by the Board of Ministerial Relief, the only thing, in the opinion of the Committee, the Union can do is to help to put and keep that machinery in motion.

JOHN BIRKINBINE, T. G. GAYLEY, II. G. GOODRICH, L. G. FOUSE, CHAS. B. ADAMSON.

Outlook Committee.

From The Church at Home and Abroad, March, 1893.

A BIRTH-DAY CELEBRATION AT THE MINISTERS' HOUSE, PERTH AMBOY, N. J.

A recent number of the *Mid-Continent* contains a letter from one of the aged ministers at the Home in Perth Amboy, which, with the editorial note of introduction, is as follows:

HAPPY LONGEVITY.

[The following very interesting communication addressed to the Mid-Continent from the Perth Amboy home is gladly acknowledged and published. It is from one of the very aged servants of the Church, whose days in his honorable retirement are there made glad. It cheers the hearts of all to think of this beautiful and just provision for the comfort of the veterans. Our readers would be touched could they see the tremulous hand writing of the letter.—ED,]

In the present family in the Presbyterian Ministers' Home, at Perth Amboy, N. J., are nine octogenarians: seven men and two ladies. Of these seven men, five were born in 1812; consequently these five all reached four score years of age during the year 1892. The eightieth anniversary of the last and youngest of the five was celebrated on December 20th, 1892. Rev. W. C. Cattell, D. D., the Corresponding Secretary of the Board of Ministerial Relief, was present and added much to the interest of the occasion. After a sumptuous dinner, we held at 2 P. M., a most delightful symposium, and in the evening Dr. Cattell gave a charming address. The five were almost over-

whelmed with congratulations, and beautiful mementos and a profusion of the choicest fruits and flowers. Our excellent superintendent doesn't do things by halves. The five aggregated 400 years in age, and about 240 years in professional labor for the Master in his Church.

THE YOUNGEST OF THE FIVE, A. R. N.

My honored and revered friend, the writer of this letter, has been so kind as to refer to the pleasure which the presence of the Secretary of the Board gave to these octogenarians on this memorable birth-day celebration, but what shall I say of the delight which the visit gave to the Secretary? Certainly it was a great privilege and a great joy to spend a day of such intimate fellowship with this little group of aged Ambassadors for Christ, and especially to be present at the Symposium to which the writer refers. Here were five men. "who aggregated 400 years in age." and each one of them had been a power for good to the Church and to the community in which he lived during the half century he had preached the Gospel. No one could have listened to the simple narrative of the long service of these venerable men-brief as was the account which each gave of his ministerial work-without a deepened sense of what the Church owes to such men for their long, faithful and self-denying service. But to a representative of the Board to which our Church has committed the tender and sacred duty of caring for them in their declining years, this Symposium was a veritable uplift. The small stipends of these five men, even when giving to their work the vigor of their best years, barely sufficed for the maintenance of their families from year to year; and they had been too deeply engrossed in their sacred calling to turn aside from it to make money in other ways for their support in old age. And this little group of patriaichs, now poor in this world's goods but contented and happy in The Home which a grateful and appreciative Church had provided for them for the few remaining years of their life, was really an "object lesson" to fill the hearts of God's people with gladness and a deep sense of their privilege and duty to support this Board. I do not wonder that the editor of the Mid-Continent as he read the account of this "occasion" in the "tremulous handwriting" (with which I am very familiar) of "the youngest of the five" is moved to say, "It cheers the hearts of all to think of this beautiful and just provision for the comfort of these veterans,"

The memories of that delightful day are a constant inspiration for me in my work, but I cannot reproduce them here though they crowd upon me as I write these lines. The five octogenarians were grouped together at the dinner table which appeared to them so "sumptuous," with its simple adornment of fruit and flowers which loving hands had brought, and the great birth-day cake in the centre, upon whose snow-white "iceing" stood out in bold relief the date, 1812! I was honored with a seat in their midst, and never shall I forget the "table talk" of that hour; nor the scene at the close of the repast when, as all the guests of the dining room rose from their seats, one of these patriarchs, without premeditation or arrangement, broke forth in sacred song:—

"O, God! our help in ages past, Our hope for years to come"

The old hymn, with the familiar tune, was taken up at once by his fellow octogenarians and then by all the other aged guests of The House, and the

spacious dining room seemed to overflow with sacred melody as the company slowly moved out into the hall. I have heard many "processional" hymns grandly sung or chanted by robed ecclesiastics in noble churches and cathedrals, but my heart was never so deeply moved by them as it was on that day by the glad Christian song sent heavenward in the tremulous voices of the aged men and women in that "Happy harbor of God's saints." Then followed the Symposium, in the room of the writer of the letter to the Mid Continent, when the "good gray heads" were bowed in prayer, and one after the other told the story of his work for the Master and spoke of the good Hand which had led him along the path of life's pilgrimage even down to old age! Then there was the gathering in the evening to which the writer also refers. The entire family were present—including all the "helps" of the household—and each of the five patriarchs took some part in the devotional exercises.

To all this I can make only this brief reference, though the memory of it will be to me a joy and a blessed inspiration so long as I shall live.

One thing, however, I must add about the Symposium, which lasted the greater part of the afternoon. In the reminiscences which were given there was but little said about the toil and self-denial of the minister's life, though these aged men had had their full share, in missionary fields and in laborious pastorates, of what may be called a minister's trials. No; the key-note in the prayers and in every speech was the joy they had found in all their service for the Master, and grateful recognition of the thoughtful kindness of the Church in providing for them such a home in their old age. Each of them had known what it was to practice self-denial in his long and laborious ministry, and to "endure hardness as a good soldier of Jesus Christ;" but the yoke had been easy, the burden had been light, and one and all joined in the words with which the Apostle expressed his gratitude as he, too, looked back over the trials and toils of a long life spent in the service of the Master:—

I THANK CHRIST JESUS, OUR LORD, WHO HATH ENABLED ME, FOR THAT HE COUNTED ME FAITHFUL, PUTTING ME IN THE MINISTRY.

The day had been dark and lowering. A part of the time a winter's storm had raged. But I recall that, after the last prayer at the Symposium was offered and the benediction had been pronounced, we gathered at the window and looked out upon the western sky. The clouds had disappeared or were piled up here and there in golden splendor upon the distant horizon where the sun was slowly sinking to rest. The pathway of four score years over which these ministers had passed had doubtless been often storm-swept, but the sunset hour of their lives was as beautiful and tranquil as the scene before us upon which the "gentleness of Heaven" seemed to rest.

MEETINGS AND RULES OF THE BOARD.

The Board meets on the third Thursday of each month, except during July and August, when a committee, appointed by the Board, acts upon all matters requiring attention during the interim. All recommendations from the Presbyteries for aid are carefully examined by a committee of the Board, who report their conclusions at each meeting. Each case is then taken up by itself, and after a consideration of all the facts, it is decided by a vote of the Board. When the Board are unable to grant the appropriation asked for, the Chairman of the Presbyterial Committee sending the application is promptly notified, and the reasons given for the decision. The following rules, approved by the General Assembly, govern the Board in the administration of this Fund:

- 1. Only members of Presbyteries in connection with the General Assembly, and the families of those who were at their death in such connection, are entitled to aid. See note, (1) and (2).
- 2. All appropriations must be made on the recommendation of that Presbytery or of a standing Committee of that Presbytery to which the applicant, if a minister (not Honorably Retired—see note 3), belongs; if the application be for a widow or orphan children, it may be made by the Presbytery within whose bounds the family resides or by the Presbytery with which the minister was connected at the time of his death. The same rule applies to the renewal of recommendations, if aid is continued.
- 3. Appropriations are made for one year, unless otherwise ordered; and the renewals must be made from year to year. See note (3).
- 4. Applications for aid should, in case of a minister, state his age, his circumstances and the number of years he has been in the ministry; and in the case of a deceased minister's family, the application should state the circumstances of the widow, and the sex and age of the children who are dependent on her for support.
- 5. While the responsibility of recommending applicants rests with the Presbyteries, and these recommendations largely govern the action of the Board, yet there is reserved to the Board the right to appropriate according to the merits of the case and the state of the treasury.
- 6. All the appropriations are paid in advance, provided the funds of the Board will allow; when the appropriation is at the rate of more than one hundred and fifty dollars per annum, it is paid in two equal instalments, semi-annually in advance.
- 7. Applications for admission to the Presbyterian Ministers' House, at Perth Amboy, N. J., are to be made in accordance with these rules. Any guest of the House who, in the judgment of the Superintendent, may be a hindrance to its usefulness and to the comfort of the other guests, shall be reported by her to the committee in charge, who shall have power, after an investigation of all the circumstances, to recommend to the Board an appropriation in money for the support of such guest, in lieu of a residence at the House.

NOTE.—(1) The General Assembly of 1885 directed "That women who have given themselves to the Missionary Work be placed on the roll for the benefactions of this Board, upon the same conditions as ministers." The Assembly of 1888 modified this rule by adding "after five years of actual service under the care of either the Home or the Foreign Board." (2) The Assembly of 1889 directed "as the best method for the present for supplying a felt need" that the names of "regularly appointed lay-Mission aries of the Foreign Board" shall also be placed upon the roll of the Board. (3) The same Assembly also directed that "every honorably retired minister over seventy years of age, who is in need, and who has served our Church as a missionary of the Home or Foreign Board, or as a pastor, or stated supply, for a period in the aggregate not less than thirty years, shall be entitled by such service to draw from the Board of Ministerial Relief an annual sum for his support without the necessity of being annually recommended therefor by the Presbytery." The Assembly further provided that "when such a minister shall certify to the Presbytery the fact and amount of his need, not exceeding \$300 per annum, it shall be the duty of the Stated Clerk to forward the application to the Board, with his endorsement thereon as to the years of service such minister has rendered, his field or fields of labor, with the term of service in each," and also to certify that "the same has been reported to the Presbytery and is recorded upon its minutes." See Minutes 1891, page 44.

ACKNOWLEDGMENT OF BOXES OF CLOTHING FROM LADIES' ASSOCIATIONS.

APRIL, 1892-93.

BALTIMORE, MD., BOUNDARY AVENUE. Rev. F. E. Williams, Pastor. Ladies' Aid Society, Mrs. W. W. Reese, Secretary. 2 boxes, \$109.67, \$173.85. Total, \$283.52.

Total estimated value of boxes \$6,950.21

FORM OF BEQUEST.

The laws of the different states vary so much as to testamentary bequests that it is always desirable to secure the services of a competent lawyer. In all cases, however, where bequests are made to this Board, the corporate name should be used, as follows:

THE PRESEYTERIAN BOARD OF RELIEF FOR DISABLED MINISTERS, AND THE WIDOWS AND ORPHANS OF DECEASED MINISTERS.

ANNUAL REPORT OF THE TREASURER FOR 1892-1893.

| | | 20 | | | |
|---|--|------------|--------------|---|--|
| By Appropriations to Ministers, Widows and Orphans\$144,476 oo to Ministers' House at Perth Amboy, N. J. 8,016 37 | "Annuity to the Retired officer of the Board \$800 00 "Annuities paid during the life of the donors *1,768 10 " Treasurer and Recording Secretary 4,000 00 Clerk Clerk The Treasurer and Recording Secretary 1,000 00 " "Printing Receipts in the Church at Home and | ## Postage | \$187,857 49 | *The principal which this interest represents was given to the Permanent Fund upon condition that the income should be paid to the donors and others during their lives. † See Note, page 8. | W. W. HEBERTON, TREASURER. |
| To Balance from last year | "Interest from the Permanent Fund: 1. Trustees of the General Assembly \$13,947.58 less \$640.14 share of expenses \$13,307 44 2. Board of Relief, investments 50,458 \$1 63,766 25 | | \$187,857 49 | *Including \$1,895.34 from the Sabbath-schools. | A COMMANDA DE LA COMMANDA DEL COMMANDA DE LA COMMANDA DELA COMMANDA DEL COMMANDA DEL COMMANDA DEL COMMANDA DEL COMMANDA DE |

Having examined the account of W. W. Heberton, Treasurer, and compared the vouchers with the expenditures, we find it to be correct.

PERMANENT FUND.

DR.

| To the Uninvested balance from last year | |
|--|--|
| \$116,246 76 | |
| Minister's House Endowment Fund \$2,089 45 | |
| Cr. | |
| By investments in Bonds secured by First Mortgages \$64,200 00 "Securities contributed and held as investments | |
| \$116,246 76 | |
| TOTAL PERMANENT FUND. | |
| Held by the Board of Relief | |
| 3. Proportion $\binom{1}{2}$ of Starr Fund 200 00 \$282,783 32 | |
| \$1,304,872 53 | |

Having examined the accounts and vouchers of W. W. Heberton, Treasurer, and the securities in his possession (which are all in the name of the corporation and can not be transferred without the action of the Finance Committee) we find them to be correct, and the above balances verified by the bank statement as produced by the Treasurer.

J. M. COLLINGWOOD, JOHN SCOTT, Committee on Accounts.

^{*} Nearly all of this balance has been invested since the close of the fiscal year.

[†] The interest of \$28,038.02 of this sum is payable to Life Tenants.

[†] In addition to the above, the Trustees of the Assembly hold six properties in Philadelphia for the Board of Relief, the income thereof not being available until the death of a Life Tenant.

Receipts for the Relief Fund

TWENTY-EIGHTH ANNUAL REPORT

OF THE

Board of Missions for Freedmen,

Of the Presbyterian Church in the United States of America.

To the General Assembly of the Presbyterian Church,

From March 31st, 1892, to April 1st, 1893.

The Board of Missions for Freedmen respectfully presents to the General Assembly its Twenty-eighth Annual Report, and in doing so, first calls attention to the great loss sustained in the death of Rev. Richard H. Allen, D. D., its late honored and efficient Corresponding Secretary. Dr. Allen departed this life on Tuesday, September 27th, 1892, in the 71st year of his age, and in the thirteenth year of his service in connection with the Board.

His general health had been failing for almost a year before he was permanently laid aside from active duty. He laid down his work at his Master's bidding, sustained with the Christian's hopes as to the other life, and comforted with the assurance that though called to rest from his earthly labors, the influence of what he was permitted to do on earth, would continue to the end of time.

He was loved by the people to whose uplifting he gave the last twelve years of his life, and with them his memory will be embalmed with all their hearts —n give—their praises and their tears.

The Board adopted the following minute with reference to Dr. Allen's death:

WHEREAS, Our Heavenly Father in His infinite wisdom has taken from our midst the Rev. Richard H. Allen, D. D., our loved and honored Secretary;

WHEREAS, He has discharged the duties of his office in the last twelve years with marked ability and fidelity, therefore be it

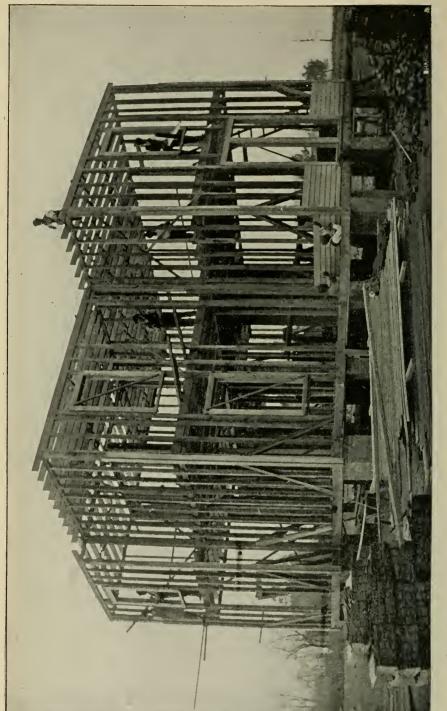

Resolved, That in his death we have lost a revered friend, and a wise and prudent counsellor, whose training and endowments pre-eminently fitted him for the cause he so eloquently advocated before our churches and ecclesiastical meetings, and so successfully administered upon the field:

Resolved, That we record this testimony of our appreciation of his service as a true and tried friend of the Freedmen, whose departure we mourn and whose memory we shall tenderly cherish.

In May, 1865, just twenty-eight years ago, the General Assembly that was then holding its sessions in Pittsburgh, Pa., adopted the following deliverance:

Resolved. That the General Assembly recognizing and rejoicing in the Adorable Providence that has given civil liberty to nearly four millions of the enslaved African race; recognizing also that the hope of that race, not only for the world to come, but also for this world, is in the possession of the Gospel; that only by its influence can they be elevated to the proper standing of free men, and that without its influences they must still further deteriorate physically, mentally and spiritually; recognizing further, that the elevation of that people among us, is essential to the highest interests of our own race, and that of our beloved country, and is in order to the evangelization of the land of their fathers, and the consequent fulfillment of the prophecy that "Ethiopia shall stretch out her hands unto God;" in the belief also that the system of truth taught by our church and the policy established by her in church extension, are in order to the highest development of that now degraded people, hereby declares that in its judgment it is the duty of the Presbyterian Church, as patriots, as philanthropists, as Christians, at once to enter upon and vigorously to cultivate the field God has opened before them.

In line with the spirit of this utterance, the work has gone steadily forward from year to year. It began with the spending of a few thousand dollars in teaching a few unclassified groups of men, women and children, to read and write. Now nearly \$200,000 of the church's willing offerings to this great and sacred cause are

PROFESSOR'S HOUSE, BIDDLE UNIVERSITY-IN PROCESS OF ERECTION BY THE STUDENTS IN CARPENTRY.

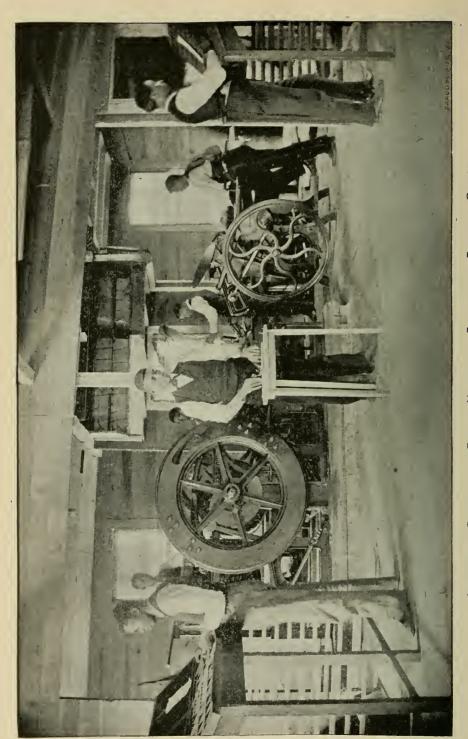

disbursed annually in building and maintaining churches, in establishing parochial schools, in planting academies and seminaries, in equipping and supporting a large and growing University. In all these centres of gospel and educational influence thousands of bright young men and women are being thoroughly drilled and trained in all that fits them for positions of usefulness and power, among a people fast rising to a true apprehension of their capacity, their opportunity, their manifest destiny.

We are fully convinced that interest in this part of our Church's missionary work is deepening and broadening. Each annual report does not show a regular and unbroken increase in the amount given from all sources, but a glance at the figures, indicating the sum totals for the last twenty-eight years, is sufficient to show that the tide is unmistakably rising. Last year there was a decided advance. This year indicates a slight recession; but on the threshold of another year, what is already in sight assures all friends of the cause, that the coming year will largely surpass any other year in the history of the work, as to the amount of money placed at the disposal of the Board.

The Treasurer's Report, submitted herewith, shows receipts for the year amounting to \$178,310.31, not including balance from last year, nor proceeds of notes outstanding; but including proceeds of sale of funds temporarly invested. The total expenditures for the year, not including payment of notes outstanding at the beginning of the year, was \$193,592.19.

The temporary investments at the beginning of the year exceeded notes outstanding by the sum of \$11,340.00, while present notes outstanding exceed temporary investments by \$12,700.00.

The amount raised and expended on the field by the Freedmen for self-support in connection with the schools and churches under our care this last year, was \$51,656.24, a very creditable showing, considering the deep poverty of many of these pious people, facing the combined hardships that came with short crops and an unusually severe winter.

INDUSTRIAL DEPARTMENT BIDDLE UNIVERSITY—SECTION OF PRINTING OFFICE.

The receipts were from the following sources:

| Churches | \$62,132 | 63 |
|-------------------|----------|----|
| Sabbath Schools | 5,206 | 12 |
| Women's Societies | 32,787 | 58 |
| Individuals | 10,192 | 83 |
| Legacies | , | 73 |

Comparing these figures with those of last year, we note a falling off in receipts from Churches, Sabbath Schools and Women's Societies, while we have received from legacies \$9,154.50 more than we received last year.

The number of churches contributing last year was 3,524, an increase over the previous year. That the amount given was less may in part be accounted for by the sickness and death of Dr. Allen early in the year, depriving us of the usual results of the earnest and effective appeals he was accustomed to make to the liberal givers in our larger and stronger churches.

The fact, too, that the receipts from the Woman's Department have somewhat fallen behind the figures of last year, by no means indicates a lessening of interest in the work. The extra large amount that was raised for the building of Faith Hall last year at Scotia Seminary, through special effort of the ladies of Cincinnati, accounts in a measure for the decrease this year. Considered apart from this special effort, the amounts contributed this year indicate a growing interest in the work, as over one hundred more Ladies' Societies contributed to the Freedman's Department this year than last. A detailed account of this work, as outlined by Mrs. C. E. Coulter, their secretary, will be found in the appendix.

The amount expended was distributed as follows:

| Field Salaries | \$94.638 82 |
|-------------------------------|-------------|
| General Work and Scholarship | 28,332 51 |
| Real Estate and Buildings | 54,917 36 |
| Office Salaries and Expenses. | 9,028 31 |

The Treasurer's Report shows the distribution of the balance.

The Board has been notified that the cash value of its interest in the legacy of Mrs. Mary Stuart, deceased, is \$66,860.52, and that distribution will be made in May. The receipt of this sum will pay off all indebtedness and enable the Board to begin the work of the new year in excellent financial condition.

Rev. H. N. Payne, D. D., with his residence in Atlanta, Ga., has been supervising our work on the field for the past eight years. In his last report to the Board he writes as follows: "It is gratifying to be able to report as the result of extensive observation, that the methods of Christian work and the standards of Christian character, are steadily improving among our churches. This is owing to a variety of causes. By means of parochial and public schools, intelligence is far more generally diffused than formerly. With the progress of years the freedmen have come to recognize in a large measure the responsibilities that rest upon freemen. In an increasing degree they are manifesting self-restraint and self-control. The family and home life are better and purer. The general use in our Sabbath Schools of our excellent literature, has done much to remove ignorance and superstition. A large proportion of our churches now have Women's Missionary Societies, while in many of them Young Peoples' Societies of Christian Endeavor have been formed, and are doing excellent work. Perhaps no influence has been more potent than the characters of our ministers and their wives. These have largely come from our own churches and schools, and have been from childhood subject to their influences. The result is a company of intelligent, educated, pure-

MARY HOLMES SEMINARY, JACKSON MISS.

minded and earnest-hearted men and women, who would be an honor to any church."

A good sign of progress is the improvement in church buildings. This is quite marked. Old churches are being repaired, or replaced with new ones, unfinished churches are being completed, while in our new fields the churches, when they finally get them built, are usually always comfortable, sometimes tasteful and attractive. New and tasteful churches have been built at Lexington. Winston, Shelby and Henderson, N. C., and at Beaufort, S. C. Churches are under construction at Wilson and Ashville, N. C., and at Spartanburg and Anderson, S. C. It is hoped that the coming summer will see one under way in Atlanta, Ga., where it is greatly needed. One also is in process of erection at Little Rock, Ark., and another at Richmond, Va. Another is about to be built at Newnan, Ga., another at Durham, N. C. A new building is greatly needed at Fayetteville, N. C., and at Roanoke, Smithville and Newport News, Va., and a number of other places where we have only organizations, church buildings, however modest and unpretending, would bring unspeakable joy to the unsheltered and homeless flocks.

To quote again from Dr. Payne's report: "It may safely be said that better teaching has been done in all our schools than ever before in their history. In its endeavor to secure thoroughly competent teachers the Board has been very successful. Not only are our teachers generally sufficiently educated, but many of them have had training in modern methods of instruction. They have good ideals and are working to them.

"Though the need of parochial schools has grown less in some places through the establishment of efficient public schools, in other places they continue to be a necessity. It will be many years before this feature of our work can be wisely discontinued. It is from them largely that the boys and girls in our higher schools have come. It is to them chiefly that we must look for our future teachers and preachers. The work done in our parochial schools

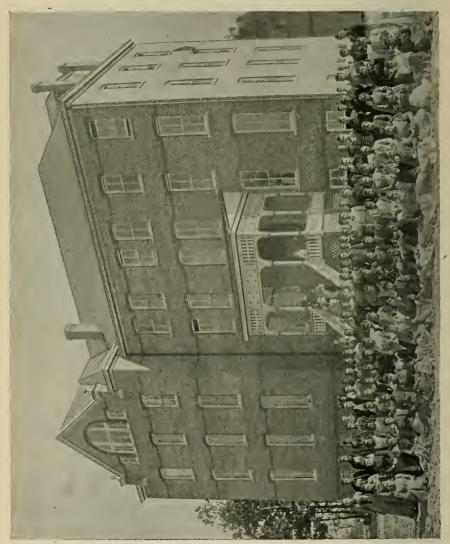

MONTICELLO SCHOOL, ARKANSAS.

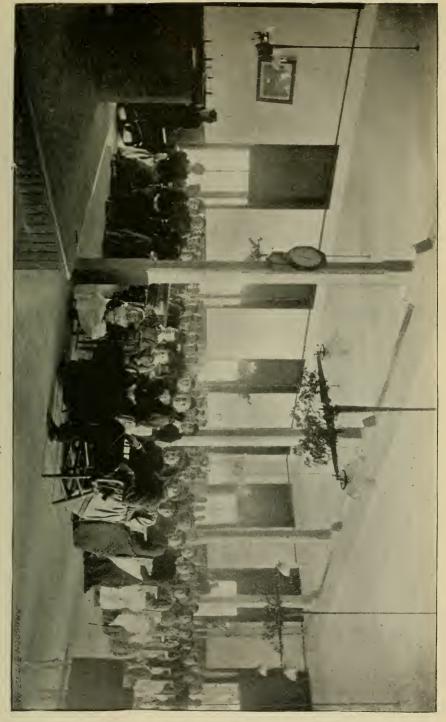

is quiet and unostentatious, but it is in most instances genuine, and is essential to the large and strong growth of our church."

The following is a list of our fifteen boarding schools, ten of which are co-educational, four are female seminaries, and one is a college for males only.

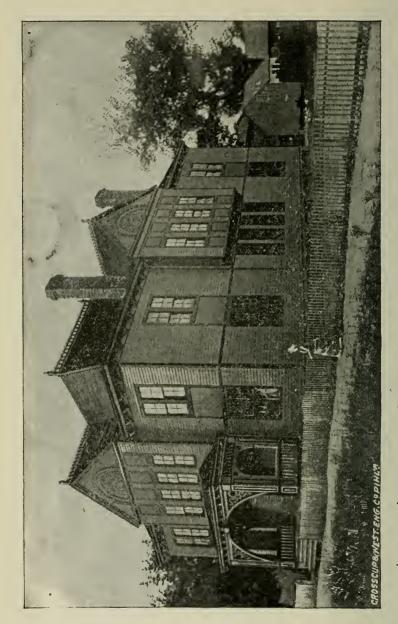

- 1. Biddle University at Charlotte, N. C., with 11 professors and 235 students.
 - 2. Scotia Seminary at Concord, N. C., with 16 teachers and 296 students.
- 3. Mary Allen Seminary at Crockett, Tex., with 13 teachers and 226 students.
- 4. Mary Holmes Seminary at Jackson, Miss., with 11 teachers and 152 students:
- 5. Ingleside Seminary at Burkeville, Va., with 9 teachers and 102 students.
 - 6. Brainerd Institute at Chester, S. C., with 8 teachers and 371 students.
 - 7. Immanuel School at Aiken, S. C., with 8 teachers and 250 students.
- 8. Ferguson Academy at Abbeville, S. C., with 5 teachers and 144 students.
- 9. Albion Academy at Franklinton, N. C., with 4 teachers and 189 students.
- 10. Haines Industrial Institute at Augusta, Ga., with 8 teachers and 318 students.
- 11. Cotton Plant Academy at Cotton Plant, Ark., with 5 teachers and 212 students.
- $12.\,\,$ Richard Allen Institute at Pine Bluff, Ark., with 7 teachers and 317 students.
- 13. Monticello Academy at Monticello, Ark., with 4 teachers and 152 students.
- 14. Oak Hill Industrial School, Indian Ter., with 5 teachers and 57 students.
 - 15. Swift Memorial at Rogersville, Tenn., 4 teachers and 175 students.

In these higher schools we have a total of 3,201 students, and with our parocial schools we have in all 10,520, who are being daily moulded under Presbyterian educational influence. Besides these we have 258 Sabbath Schools, with 19,472 scholars. In connection with Beaufort Academy, at Beaufort, S. C., where we now have 8 teachers, and 514 students, the Board has recently purchased buildings at great pecuniary advantage, in which it is proposed to open in the fall a boarding school for boys. There could be no better place chosen for such a school. The county numbers 34,000 inhabitants, and 31,500 of these are colored.

INGLESIDE CHAPEL, BURKEVILLE, VA.

IMMANUEL INDUSTRIAL AND TRAINING SCHOOL-MAIN BUILDING-AIKEN, SOUTH CAROLINA.

A Boys' Dormitory is to be built this summer in connection with the Oak Hill School, Indian Ter., costing \$1,200, the money having already been raised by special appeal last year, by the ladies of Indiana. This work was delayed by the death, last year, of the former principal, Mr. Jas. F. McBride, which accounts for the proportionately small number of students as compared with the number of teachers.

Of all our schools, Biddle University stands at the head. It is the only institution under our care in which a young man can receive a thorough college education. It has done a great and good work in the past, but its future usefulness should be secured beyond a per-adventure, by an early and generous endowment. Its eleven professors, from the President down, are all colored men save one. It is just finishing its second year under the present regime, and all friends both of the race and the college rejoice in its prosperous condition, and the signs of its growing usefulness. Such an institution cannot be carried on without money, and although the Board feels justified in annually expending the large amount it does in maintaining this institution, it will hail with joy the day when the securing of its ample endowment will enable the Board to use this released amount of its annual resources, in opening up new fields and sustaining new work.

Two large seminaries were opened for work last fall: Ingleside at Burkeville, Va., and Mary Holmes, at Jackson, Miss. Both of these institutions were of course filled to their capacity at the start. Both are already in need of enlargement. The ladies of Illinois have undertaken to build an addition to Mary Holmes at a cost of \$5,000, and Ingleside is pleading hard to be allowed to add her missing wing at a cost of \$6,000.

Before another year closes we hope to see a commodious and substantial building finished, furnished and occupied, at Rogersville, Tenn., in connection with what has been designated for some years as the Swift Memorial Institute. Fifteen thousand dollars are to be expended on the building, \$5,000 of which is appropriated from the Board's regular funds, and the other \$10,000 we hope will be

NEW HAVEN SCHOOL, NEAR SUMTER, S. C.

raised through the ladies societies, and from other sources. This will give us a firm footing in Tennessee, and will give to the 450,-000 colored people of that State an institution alike creditable to our church, and honoring to the name of the man whose memory it will perpetuate. Friends of our work in Kentucky are earnestly asking us to plant a similar school in their midst. bama, with her nearly 700,000 negroes, is to us yet almost an unknown land. Our duty to the race demands of us that we plant our standard somewhere in that great State. Louisiana, too, is untouched by us, and God willing, some of her 575,000 negroes must soon feel and appreciate the blessings of Presbyterian education. With these two States occupied, we will then have a line of gospel garrisons reaching in regular succession from Virginia to Texas-from Ingleside to Mary Allen. This, however, will be but the beginning of our church's work. As the years roll on the wide intervals that lie between must be filled in with schools and churches. The benevolence of the church must keep pace with the growth of the work. The more schools and churches we plant, the greater the annual sum needed to support and maintain them. A quarter of a million of dollars must surely go on the field the coming year. With such an outlay, God only can tell what good may be done.

The term of service of the following members of the Board expires with the present Assembly:

REV. S. J. FISHER, D. D., JOHN C. McCombs, Rev. J. P. E. Kumler, D. D., Robert S. Davis.

All of which is respectfully submitted,

E. P. Cowan,

Cor. Secretary.

TREASURER'S REPORT.

First. Under "Directs" is included only money reported by ministers and teachers in the employ of the Board as sent directly to them to be used in work that the Board has authorized.

Second. Under "Amount Collected on the Field" is included only money collected to pay appropriations that the Board has made.

Third. This report does not include in any way the \$51,656.00 contributed by churches and by pupils in our schools for self-support.

Action of the General Assembly

AT

WASHINGTON, D. C.

June 22d, 1893.

Rev. George L. Spinning, D. D., Chairman of the Standing Committee on Freedmen, submitted the report on the work of the Board of Missions for Freedmen, with the following recommendations, which were unanimously adopted:

Resolved, 1. That the Committee on Systematic Beneficence be requested to consider the propriety of a new pro rata division of the benevolent funds of the Church, in view of increasing the percentage assigned to the Board of Missions for Freedmen.

Resolved, 2. That the Assembly approve the request of the Board in asking \$250,000 from the churches this year.

Resolved, 3. That the Board be authorized to institute measures for raising the sum of \$400,000 for the needs of Biddle University, of which amount \$250,000 shall apply in the endowment of professors' chairs, \$100,000 in the endowment of scholarships, and \$50,000 in the erection of necessary buildings.

Resolved, 4. That the Board be authorized to employ—at its discretion—a financial agent to aid in securing the fund above mentioned.

Resolved, 5. That the officers and members of the Board of Missions for Freedmen be commended for the faithfulness and efficiency with which they have discharged their duties.

Resolved, 6. That the following members of the Board, whose term of service expires with the present Assembly, be reëlected, viz.: Rev. S. J. Fisher, D. D., Rev. J. P. E. Kumler, D. D., John C. McCombs, and Robert S. Davis.

We would also report that we have examined the records of the Board, and find them well kept and in order.

Respectfully submitted,

Attest: GEORGE L. SPINNING, Chairman.

WM. H. ROBERTS, Stated Clerk.

MISSIONS AND MISSIONARIES

FOR THE YEAR ENDING MARCH 31, 1893.

All the Schools reported below are under the entire control of the Board. Teachers marked ¶ received partial aid from the Public School fund; those marked †, receive their entire salary from Public School fund; and those marked ¶, receive their support from the tuition of the School. Ministers marked ** are teachers also.

APPENDIX.

Ninth Annual Report of the Freedmen's Department

--OF THE--

WOMAN'S EXECUTIVE COMMITTEE OF HOME MISSIONS.

In presenting our Ninth Annual Report, we would gratefully record God's continued goodness in blessing the work, and, at the same time, acknowledge with deep humiliation our failure to meet the demands caused by its growth.

Thirteen hundred and twelve societies have contributed this year, which is one hundred and five more than during any previous one. At no time have so many letters been received by this department, expressing deep sympathy in our work, as during February and March, when it was feared the year would close with a very large deficit. That these fears were not groundless is shown by the fact that there was received during March, and up to the time the Treasurer closed his books, but \$4,000 less than during the preceding eleven months.

The Treasurer of the Board has received through the Woman's Executive Committee the past year, \$37,801.29. Of this, \$2,369 was contributed by Sunday Schools, and from Women's Societies direct, \$570, making a total from Woman's Executive Committee and Women's Societies of \$38,371.29, which is \$7,006.56 less than was received the previous year. This decrease is, perhaps, partly due to the *very special* effort made for building during that year. When compared with our report for 1891, we find a slight advance

of \$603.26, yet, when we remember the increase of wealth and numbers in our church since that time, we cannot count this a growth.

The money given has supported thirty-one teachers in twelve schools, and has kept three hundred promising pupils in school, who, otherwise, would have grown up in ignorance. These scholarships have been distributed in eight States and one Territory. Aid has been given in building, repairing and furnishing seventeen school buildings.

It is impossible to make a complete report of the box work, as it has not yet been reduced to a system. One hundred and forty-four box'es and barrels have been reported, which were valued at \$6,733.14, and fifteen others of which no value was given. Doubtless many others were sent, as societies were informed that the unusual severity of the season was causing unusual suffering.

The year has been a marked one in several ways. The unprecedented cold affected the numbers in our parochial schools; the poorly-clad children could not venture out when, even in their homes, there were instances of persons freezing to death. On the other hand, our boarding schools have been filled, and the number of these schools has been increased. Mary Holmes Seminary at Jackson, Miss., was dedicated in September with impressive ceremonies. The building has been crowded ever since with pupils, the greater part of whom are self-supporting. So crowded are they that, even now, plans are being made for an addition. This is the first and only work of our Church in Mississippi.

After the long delay, Ingleside Seminary at Burkeville, Va., was dedicated in October. Perhaps, in no school, does the faithful work done by parochial teachers show to better advantage than here. A very large majority of the girls have been trained in these schools and are members of our Church. The Christian character of these girls is a great comfort to the teachers and a blessing to the school.

A boarding department has been added to the Richard Allen Institute at Pine Bluff, Ark., and the first boarders were received

in October. It is hoped this department will add much to the usefulness of the school.

A building, surrounded by pleasant grounds, was purchased at Beaufort, S. C., to accommodate boarders connected with our school at that place. The Board, at a recent meeting, decided that this building should be for boys alone. Biddle University has, heretofore, been the only school under the care of the Board which is exclusively for young men and boys.

Contributions have also been made to the work at Anderson, S. C.

The women of the Boston Presbyterial Society became interested in the "Mountain Blacks," and, with the sanction of the Board, opened a school at Nebo, N. C. It was doing a most hopeful work among the Negroes, when it was suddenly brought to an end by lawless men destroying the school building and driving away the teachers. Surely God will yet make the "wrath of man to praise Him," and the remainder of wrath He will restrain. This is the new work of the year which has been aided by Women's Societies.

The interest in that formerly established continues. In Virginia, besides Ingleside Seminary, Nottaway C. H. and Danville have been remembered by the women of the Church. In North Carolina, Biddle University, with its increased number of students, still receives some scholarships from our societies. Scotia, with its two hundred and ninety-six scholars, is strongly entrenched in the affection of its Northern friends. Albion Academy, Lumberton and Mary Potter School have come in for a share in gifts for their work. The last named and youngest of these schools has a warm place in the hearts of the friends of the now sainted Mrs. Mary Potter, for whom the school is named. In South Carolina, Brainerd, Beaufort, Immanuel and Ferguson have not been forgotten. In Georgia, Haines Normal and Industrial School still receives the warm sympathy and support of friends. In Texas, Mary Allen Seminary continues its good work, and receives scholarships from the women of the North. In Arkansas, Richard Allen Institute, Cotton Plant and Monticello have been remembered. In Tennessee, Swift Memorial has claimed the attention and received gifts from those who believe in the future of the Negro. In the Indian Territory the children of the former slaves of the Indians have not been forgotten, and the Oak Hill School has received scholarships, so that thirty girls are now receiving careful training in that Christian home. Increased attention is being given to industrial training in all of our schools, thus providing a way by which the wants created by education can be legitimately supplied.

These money gifts were not the only expressions of sympathy. Who can estimate the value of the boxes in adding to the comfort to these and many others of our schools? Time would fail to tell of Amelia, Jetersville, Hendersonville, Louisburg, Good-Will, Ebenezer, Sumter, Dorchester, Caddo, Pittsburg Mission, Lukfata, and many others that were enabled to resist the cold and share in the good cheer contained in the numerous Christmas boxes.

Although there is much that is cheering, the work is far from being accomplished. We have scarcely touched it. A very dark picture could be drawn of the mass of Negroes in the South which would be true, but enough has been done to show how to relieve this darkness. A Christian education, under God, is the power to elevate this race as it has our own. Schools already established should be made as effective as possible. Dr. Haygood wisely says: "Nothing is so wasteful as the parsimony that does not spend enough to accomplish its purpose." The number of scholars at Ingleside might be almost doubled by adding the wing called for by the plan, for which the brick is upon the ground, and this without any additional expense for teachers. No one who has visited Brainerd Institute, Chester, S. C., can fail to see the great disadvantage under which teachers and pupils labor for want of proper accommodations. The same is true of Swift Memorial, Tenn. In many places it would be true economy to use paint for the preservation of chapel school-houses. With the sanction of the Board, the Societies will be called upon for these things, together with scholarships and salaries.

With what words can we record our estimate of the great loss to the work in the death of our honored Secretary, Rev. Dr. R. H. Allen? His winters spent among the Churches not only stimulated them to greater activity, but the Societies also. We feel that part of the deficit in our department is owing to the fact that the voice which so eloquently pleaded the cause of the Negro has been hushed in the grave. His words of encouragement and generous sympathy with all our efforts, feeble though they were, will long be remembered. His work is finished, and now, with many of the colored people for whom he labored and prayed, he is ever with the Lord. May we all learn the lesson taught by his life and death. The work laid down by Dr. Allen has been placed in the hands of a worthy successor, Dr. E. P. Cowan, whose hearty sympathy with all efforts to increase and make more effective the work among the Negroes promises well for the future.

Carlyle ealls "The present time—youngest born of eternity, child and heir of all the past times with their good and evil, and parent of all the future," and says: "To know it and what it bids us do, is ever the sum of knowledge for all of us." A greater than Carlyle says: "As we have therefore opportunity, let us do good unto all men;" and one in whom all knowledge dwelt, said: "I must work the works of Him that sent me while it is day."

Respectfully submitted,

MRS. C. E. COULTER.

P. O. Box 294, Chicago, Ill.

The Board's corporate name is "The Presbyterian Board of Aid for Colleges and Academies.

PRESBYTERIAN BOARD OF AID

FOR

COLLEGES AND ACADEMIES.

Tenth Annual Report to the General Assembly.

The College Board begs leave to submit its Tenth Annual Report.

It gratefully tells the goodness of God to it. He has preserved the lives of its members and institutions. To these latter he has granted, as to his Son our Lord whose character and work they seek to embody and illustrate, to "increase in wisdom and stature and," if their work and the Church's attitude toward them be in evidence, "in favor with God and man."

With this meeting of the General Assembly the College Board becomes

TEN YEARS OLD.

It offers tabulated statements, comprehensive and comparative, of its work and some of the results in its first year, its last year, and its ten years.

THE WORK TESTED.

These statistical tables show that the College Board has not disappointed the expectation of the Church. The General Assembly of 1883 established the Board by adopting unanimously the Report of the Special Committee on Education, which described "The colleges that the Church should found and foster," and gave "The reasons for such an agency" as the proposed College Board. The Board's work for ten years, compared with the description and reasons given by the Committee, tests both its conformity to the hope of the Church and its value.

"COLLEGES THAT THE CHURCH SHOULD FOUND AND FOSTER.

"1. Colleges that shall have as their chief aim education, with a view to the whole man. Herbert Spencer's five objects of education leave the higher nature untouched, and make the restraints of culture a rope of sand."

Every institution founded in cooperation with the College Board, or fostered by it, while trying to lead its students to the highest physical and mental culture, makes strenuous endeavor to stimulate and guide spiritual and moral character; and with a measure of success surprising and delightful to one who investigates the results.

"2. Colleges that shall be pervaded by a positive Christian atmosphere."

Our teachers are chosen for pedagogic skill and Christian consecration; their personal Christian influence is pervasive and persistent; and the 1,688 student conversions reported during the ten years prove it.

"3. Colleges that shall make the Bible one of the textbooks."

No reports of systematic Bible study were asked of institutions the first two years. The third year reported 49.4 per centum of the students in systematic Bible study; the Board kept steady pressure upon its schools; and this year reports 69.8 per centum of the students in systematic Bible study. That is not all: the Bible has been given larger space in curricula, and the quality of the teaching of it has greatly improved; and still better things are coming. Without the Board's steady pressure probably not one-tenth of these students would be systematically taught the Holy Bible in their institutions, and the teaching would be far less thorough than it now is.

"4. Colleges that shall have their instruction in harmony with the Christian faith."

There are not, nor can there be, atheistic, agnostic or rationalistic teachings in our institutions; and, while few or

none of them teach Presbyterianism dogmatically, in none of them are there, or can there be, teachings opposed to the expressed belief of our Church. They are soundly and strongly Christian.

"5. Colleges that shall influence decisions for life-work, so that the tendency shall be toward the ministry."

They have done this; they are doing it; they will do it. Our institutions have contained an average each year of 136 young men meaning to be ministers; this year 204, probably one-tenth of the male students and a large majority of male college students. Take out from our eastern theological seminaries the graduates of smaller colleges and the classes would be reduced probably one-half; take out such men from our western seminaries and the classes would almost cease to be. Presbyterian institutions in the west, and more of them, are the Church's hope for an educated ministry to man established churches and to carry the glorious gospel of the blessed God to the great West and the world.

- "6. Colleges that shall be under our own denominational control. And this for two reasons: a. Self-preservation; b. Stewardship.
- "Self-preservation. Other denominations are in the field pushing their way by institutions."

The denominational college, securing the coöperation of all in its neighborhood, quietly influencing people by its strength, and sending out young people equipped to be successful, largely controls the denominational leanings of its region. If other denominations surpass us in college work we shall see them pass us along all other good paths. The consecrated men and money of the coming great West will belong to the Church that educates them.

"Stewardship. The trust of this vast region is committed in part to us. We are under obligation exactly proportionate to our wealth and numbers and intelligence to attend to this great trust."

The Map in this Report shows regions vast, populous and to be rich, where the Board is founding and fostering colleges. But the work is far beyond the means which the Church commits to our hands; our institutions receive each year about onehalf what their imperative needs demand, while some other denominations are more generous; and new work waits upon larger income of the Board to be begun in mighty regions where there are Presbyterian schools few or none.

"Under our own Denominational Control."

The College Board assures this in five ways:

- (1) By requiring every aided school to be under such control by its charter.
- (2) By obliging institutions to clear up any cloud on the titles to their properties. Several have been induced to do this; several are now engaged in it; thus securing property which might, when it becomes more valuable, be lost to the Church.
- (3) By taking mortgages on the entire property of institutions which the Board aids from its Property Funds. The Board now holds mortgages on the property of 21 institutions, valued at \$630,121.50; and this was accomplished by placing only \$129,624.22, or less than one-quarter of the value of the properties; so that the Board's gifts assure to the Church perpetual control over more than four times the amount invested. Is not that fine? May not stewards of the Lord's money wisely put many thousands into such investment?
- (4) By assisting institutions to pay debts which endanger their properties. During the last year three, stimulated by the Board's offered aid, have won their freedom; and seventeen are engaged in similar efforts, most of which will soon succeed.
- (5) By preventing the beginning or increase of indebtedness. The Board will no longer begin to aid an institution coming to it in debt; and it no longer permits its aided institutions to begin or increase debt. Debtless schools do not die. Living beyond probable income in over sanguine venturing upon hoped for results destroys many schools; the Board does not permit this; school expenses must be kept within school income.

Thus the Board ensures denominational control, now and in the future, over institutions which it aids.

"THE REASONS FOR SUCH AN AGENCY.

"1. Anything worth doing is worth a system in its doing. And system is impossible on so vast a field without some central supervision."

The Board has prevented the founding of many ambitious colleges and academies foredoomed to failure by bad location or insufficient property foundation, and has influenced the wise placing and generous sustenance of many that will live; and, while not daring to hope that its administration has been wholly free from errors of judgment while getting wisdom by experience, it may claim to have rendered invaluable service to the Church in this department.

In the handling of funds also its work has been useful. Under the no-system existing before the Board was established each school made its own solicitation of funds in the East, the least deserving or least promising often getting the larger share. Now the Board forbids its institutions to beg funds in the East, save from personal friends, itself undertaking the task and trying to distribute the funds obtained so as to secure the best results for our educational work in the whole country. Hundreds of thousands of dollars have been wasted upon schools not wisely founded or conducted; many good Presbyterian dollars are still going that way; but if churches and people who foresightedly wish to aid Presbyterian educational work will consult the College Board, and give its representative access to their ears and judgment, they can place money where it will be safe and will accomplish the end they have in view. If such access be denied the Board, and it cannot get money for its schools; if Presbyterians continue lavish giving to institutions which cannot obtain the Board's approval because unwisely placed, insufficiently sustained or recklessly conducted; then of course our aided institutions will renounce the Board's aid with its restraints and go east to do their own begging. But if pastors and people will aid their own agency the Board will do a work which shall make our Church's future in the great West noble and notable.

- "2. Harmonious coöperation, both as to college sites and endowments, will be thus secured."
- "Sites." One state having four Presbyterian academies and a Presbyterian college would have to-day, but for the Board's influence, one Presbyterian academy and four Presbyterian colleges, perhaps even five or six, in neighboring and disastrous rivalry. Similar good work is done in other regions.
- "Endowments." The Board influences churches to support their near-by institutions. This year 669 western churches have given \$13,691.51 to colleges and academies in their own synods or presbyteries; and gifts of individuals to institutions, largely the result of the same policy of the Board, amount to \$49,939.10 this year. But for the Board's stimulating western churches and people by its gifts little of this amount, \$63,630,61 in all, would have gone into Presbyterian educational work.

Further information regarding endowments appears in the following section:

"3 Regular gifts from the East, gotten through this agency, will stimulate a far larger liberality through the West."

To a community, presbytery or synod which is doing and expects to do little for its institution, the Board offers a certain sum from its Property Fund on condition that the community, presbytery or synod raise three, four or five times the amount of the gift; and by such stimulation of people otherwise non-giving it has secured to the Church a large part of the \$1,407,933 reported this year by our forty aided institutions as the value of their properties after all indebtedness is deducted. By such stimulating offers of the Board the seventeen institutions before mentioned are enabled to secure funds in their vicinities to extinguish their indebtedness, and buildings are erected and endowments secured. A gift to the Board's Property Fund thus commonly secures to the Church, for perpetual use, an amount three or five times larger than itself. Magnificent investment! The possibilities of it are limited only by the sums placed in the Board's treasury: seven institutions are ready to be brought to freedom from debt by such offers; seven can secure needed buildings; and thirteen can secure endowment which would place them above need of further aid from the Board. Will the Church provide the money to be offered?

Two friends of the Board recently offered \$10,000 for its Property Fund on condition that \$40,000 additional be secured. The \$50,000 are urgently needed for the purposes just mentioned. Can the Church hesitate now when the populations about these institutions are growing, and ready to be trained by our influence, to take possession of the rich fields fallow and open? Possession will be taken if the money be given.

"4. Arousing the Church by figures, facts, arguments and appeals, to a proper comprehension of the vastness of this work."

The Board has spoken year by year by the eloquent tongue and pen of its late honored and beloved Secretary, Dr. Hervey D. Ganse; the General Assembly has spoken year by year in ringing utterance; and the Church has been aroused. The offerings of the churches, beginning with \$12,720.56 from 506 churches and Sabbath schools the first year, have increased to \$34,208.52 from 2,193 churches and Sabbath schools this year sent to the Board's treasury and \$13,691.51 from 669 churches sent directly to our aided institutions, besides gifts from individuals and by bequests. Reviewing the liberality of the ten years the Board may say to the Church, as Jacob said to Laban, "Thou hast changed my wages ten times;" and may add, what was probably not Jacob's experience, that every change but one has been a substantial increase. The table subjoined shows the gains and losses of this year compared with the preceding one.

3. Transmissions to Other Institutions.

\$ 156 50 \$ 95 96

Total gifts to the work....... \$138,921 60 \$37,975 41 37.6

Evidently the Church has been aroused; but has it been "aroused to a comprehension of the vastness of the work?" As evidently, no! The General Assembly once counseled its churches and Sabbath schools to give the College Board six per centum of all their offerings for the boards of the Church; they have never given it one-half of that six per centum. Churches which make kindly annual offerings for this Board rarely give it more than three or four per centum of their total gifts to the boards; many make no offerings. May there not arise from the friends of this Board such a murmuring as arose among the friends of the Grecian widows, because the College Board, like the widows, is neglected in the ministration? neglected in the ministrations of 4,446 of our churches last year, being sixty per centum of the whole number. That ancient murmuring was heard by the apostolic college and the error rectified. Your venerable and apostolic body, hearing this murmuring, can do much to rectify this error. This Board would not divert one dollar from any of the great and greater boards of our Church; but it would receive from churches and Sabbath schools the means which the Church in its great council deems necessary to accomplish the work; and of the vastness of that work many churches seem not to judge rightly.

"WESTMINSTER COLLEGE OF UTAH."

The last General Assembly took the following action regarding "The offer of one hundred acres of land within the limits of Salt Lake City, Utah, for the purpose of founding and endowing a Presbyterian College in said city, to be called 'Westminster College of Utah.'"

"Resolved, also, That the consummation of the transfer be

referred to the Board of Aid for Colleges and Academies, with instructions to receive and consider any other offers which may be made for the same purpose, to take all titles in its name, to settle the question of location, and all other matters relating to the establishment of the College, and to report its action in the premises to the General Assembly."

The Board was unable to secure definite information regarding either the location of the land offered, the names of the donors, or the conditions of the gift, until officers of the Board visited Salt Lake City in January. A proposition offering one hundred acres of land was then made by Arthur Brown, Esq. At a meeting held 7 March, 1892, the Board after careful consideration adopted unanimously the following report of its special committee:

"In our judgment the site offered is not suitable for our college; the property offered has not now and is not likely to have such value that the Board can conscientiously commend it to buyers; and lots could not be sold within a reasonable time for a sum sufficient to build, equip and carry on a college. Leading Presbyterians and other citizens of Utah with whom we conferred concur in this opinion. For these reasons we recommend that the proposition of Mr. Arthur Brown be respectfully declined."

The tender of another property less in extent and subject to the same objections was also declined.

The interests of our Church and the Christian cause make it greatly desirable that a Presbyterian college should be established in Utah. One hundred thousand dollars committed to the College Board for the purpose would ensure the safe and strong beginning of "Westminster College of Utah."

CONCLUSION.

The Map, Statistical Tables, General Information, Treasurer's Report, and other detailed Reports, which accompany this, are parts of the Board's Annual Report to the General Assembly.

The term of service of the following members expires with this meeting of the General Assembly, namely: Ministers.— Rev. S. J. Niccolls, D. D., Rev. D. R. Breed, D. D., Rev. W. W. Totheroh, D. D., and Rev. H. D. Jenkins, D. D.

Laymen.— W. O. Hughart, Henry W. Johnson, Dexter A. Knowlton, and John C. Grant,

Charles M. Charnley resigned his membership in June, 1892, and Thomas Kane was elected in his place.

Cyrus H. McCormick has resigned his membership.

All of which is respectfully submitted by order of the Board.

E. C. RAY,

Corresponding Secretary.

Board's Room, 23 Montauk Block, Chicago, Illinois, 2 May, 1893.

CONSTITUTIONAL PROVISIONS.

The following are the chief provisions under which this Board has been constituted, as determined by the Act of the General Assembly of the Presbyterian Church in the United States of America, in session at Saratoga, N. Y., May, 1883:

The name of this Board shall be the Presbyterian Board of Aid for Colleges and Academies, and the general work shall have the limitations indicated by its title.

The Board shall consist of twenty-four members, divided into three classes, composed equally of ministers and laymen, and one class shall be elected each year.

The province of the Board shall be to secure an annual offering from the churches for this cause; to cooperate with local agencies in determining sites for new institutions; to decide what institutions shall be aided; and to discourage all independent appeals to the Church at large.

The funds received by the Board shall be devoted either to current expenses of struggling institutions, or to permanent endowments.

The funds shall be secured (a) by annual offerings from the churches, mainly for current expenses of the institutions; (b) by special applications for endowment under the approval and general direction of the Board.

Every institution hereafter established, as a condition of receiving aid, either shall be organically connected with the Presbyterian Church in the United States of America, or shall, by charter provision, perpetually have two-thirds of its Board of Control members of the Presbyterian Church.

In the case of institutions already established and not included under the above provisions, appropriations for endowment shall be so made as to revert to the Board whenever these institutions shall pass from Presbyterian control.

In all other respects the disbursement of funds by the Board shall be wholly discretionary with the Board, both as to amount and direction, subject always to the control of the General Assembly.

WANTED: GIFTS.

- 1. For the General Fund; derived from church annual offerings (to be made in February if convenient), and individual gifts; from which appropriations are made to the current expenses of institutions. Only institutions whose charters or articles of incorporation place them in the control of the Presbyterian Church are aided; and no institution may incur indebtedness while connected with the Board. Demands upon this fund increase far more rapidly than the churches' gifts to it.
- 2. For the Property Fund; derived from individual gifts and bequests; used to aid institutions in (1) Paying off remaining indebtedness; (2) Adding needed buildings or other equipment; (3) Obtaining endowment.

Offering part of the amount needed, the Board stimulates local giving of the rest, bringing to the Church property worth from three to five times the amount of the gift. Requiring adequate insurance on buildings and their contents, and taking a mortgage on the institution's property, the Board secures to the Church forever not only its own gift but the entire property. Gifts should be made through the Board in order to secure the Church's perpetual hold upon them. This perpetually productive form of investment is commended to the judgment of the Lord's stewards. Personal gifts and bequests, either for designated institutions or to be distributed in the Board's discretion, are increasingly needed.

(1.) Debts. A few institutions are embarrassed, their growth hindered, their income partly absorbed in interest payments, by debts incurred before the publication of the Board's rule; such debts are mostly small compared with the values of the properties, and due either to a sudden fall in the price of lands which it was reasonably expected would sell well, or to reliance on synods and presbyteries, which were more enthusiastically sanguine in making promises than able to redeem their pledges. Money offered through the Board will secure payment of debts from three to five times the amount of the gifts, freeing institutions for effective service.

- (2.) Equipment. Successful institutions with increasing patronage require additional buildings, especially dormitories, and enlarged equipment generally. Money offered through the Board will secure from the institution's vicinage from three to five times the amount of the gift, enlarging the school's usefulness and lifting it to or toward self-support.
- (3.) Endowment. Most of our schools are out of debt, possess admirable buildings of brick or stone, and do thorough and extending work. They are unendowed, dependent upon annual appropriations from the Board. The Board's income is not sufficient to carry all these and to aid new schools. The older schools which have approved their worth must now be endowed; \$5,000 to \$7,000 offered through the Board will secure \$25,000 endowment of an academy, making it self-supporting; \$10,000 to \$15,000 will secure \$50,000 for a college, making it self-supporting. Has the Church a better investment?

The Board forbids representatives of its aided institutions to solicit funds (except from personal friends), outside of their presbyteries or synods. It authorizes no one to make such solicitation. The following is the

RULE.

Colleges aided by the Board may solicit personal gifts in their respective synods, academies in their presbyteries, or both from personal friends anywhere; but this does not mean that acquaintance with a pastor in another synod or presbytery authorizes solicitation from his church or people. Other solicitation of gifts from individuals for institutions aided by the Board may be made only by the Board. Institutions asking aid from the Board will be considered as thereby pledging themselves not to make such solicitation while connected with the Board.

Pastors will note that this plan can succeed only in so far as congregations are instructed, by the pastor or by the Board's representative admitted to the pulpit, about Presbyterian educational work and the Board's aims and methods; and in so far also as pastors sincerely try to secure the Board's representative access to individual givers. If the Board can not obtain needed

money, institutions will cut loose from it and make their own solicitations in eastern churches.

The Board makes request of

- (1.) Pastors, and Sessions of vacant churches, that they ensure an offering for the Board every year; that they admit the Secretary to present our Church's educational work in their pulpits (and no offering for the Board need be made at the time); and that they secure from men and women of means in their congregations permission for the Secretary to talk with them about the work.
- (2.) Presbyterian Leagues, Social Unions, and the like, that they give the Secretary opportunity to speak of the Church's college work.
- (3.) Individuals, that they afford the Secretary opportunity to talk with them, or that they correspond with him, regarding the general work or about particular institutions; that they contribute to the Board's funds; and that they give the Board a place in their wills. Legacies should be made to "The Presbyterian Board of Aid for Colleges and Academies."

APPLICATIONS FOR AID.

- I. Ownership. Ownership and control of institutions expecting aid must be vested in an ecclesiastical corporation belonging to our denomination; or in a board of trustees annually elected or nominated by such an ecclesiastical corporation; or in a board of trustees, two-thirds of whose members shall always be, by stipulation in the charter or articles of incorporation, members of the Presbyterian Church in the United States of America.
- 2. Determining Sites. The act of General Assembly constituting the Board directs it "To coöperate with local agencies in determining sites for new institutions." It should be consulted before a projected institution expecting its aid is located. Its wide outlook over the entire field, and its years of observation and experience, fit it to counsel for the interests of the institution and of the educational work of the whole Church.

- 3. Selecting Institutions. The Board is also "To decide what institutions shall be aided." The territory is vast; communities needing Christian schools are innumerable; local offers of land, buildings, cash for starting schools are multitudinous; the Board's resources are limited; the multiplication of small colleges and schools cannot easily outrun the need, but does outrun the Church's contributions for their aid; the Board must make selection among the many seeking aid. It will be guided in part by the following considerations.
- (1.) RELATIVE LOCATION. Remoteness from other Christian schools and from state institutions is a claim. Ordinarily but one Presbyterian College can be aided in a state until the Presbyterians of the state can support that and aid a new one beside. No academy in the vicinity of another Presbyterian school will be aided.
- (2.) Population. To preëmpt for the Church strategic points which are to become influential centers is sound policy; yet neither may sanguine expectations of new settlers be always accepted as prophecies of future greatness, nor may places already populous and growing be neglected.
- (3.) PROPERTY FOUNDATION. A few acres and a little eash are not sufficient foundation. The idea that if an inadequate start be made the great Presbyterian Church will do the rest, is a mistaken one. A new institution should have a property foundation sufficient to assure, with moderate aid from the Board, the meeting of its annual expenses at the outset. No new institution having indebtedness may expect current aid; but the Board will try, in cases of exceptional merit, to aid in removing the debt.
- (4.) LOCAL INTEREST. Land and cash offered as real estate speculation, with no vital local interest in a Christian school, do not invite the Board's aid; for the Board cannot provide all or one-half what will be needed eventually, but stimulates by its offers that local giving which must be the main reliance. The Board has settled policy to help institutions which, by a local spirit of fostering generous aid, have promise of large future. The Lord's money must be invested by its steward, the Board, where the largest returns are probable.

- (5.) Educational Work. The Board is set to aid colleges and academies, not low grade schools, and to foster classical study which high schools rarely provide. Yet where an academy can increase income and draw pupils to advanced studies by teaching lower or commercial branches, and where a college can increase income and lead students into its college courses by doing preparatory work, this is approved. But in all institutions a high and rising grade of educational work is expected.
- (6.) Spiritual Influence. Our institutions are meant to convert the unconverted and to consecrate Christians. Schools with consecrated teachers doing their work in a missionary spirit; with daily worship, young people's societies, and a total life that influences pupils toward Christ, and young men toward the ministry; have large claim for aid. The highest educational work lacking this element, has no claim upon the Church's funds.
- (7.) BIBLE TEACHING. The Word of the Lord, which converts the soul, makes wise the simple, rejoices the heart, and enlightens the eyes, must be a chief text-book in every school aided by the Board. The Board, believing that Bible study is the chief thing, purposes to secure more thorough Bible work; perhaps requiring, for instance, Bible instruction of all students at least three hours a week for one term of each year; the life and teachings of our Lord the leading study; the whole Bible being studied during the course. Teaching the evidences of Christianity is not sufficient; Christianity must be taught. Schools doing superior Bible work have superior claims upon the Board's aid.
- (8.) Change of Name. An institution having aid from the Board as an academy may not change its grade to that of a college without the previous consent both of its synod and of the Board.
- (9.) Solicitation of Funds. The rule of the Board on this point, (see page 17 above), will be enforced.
- (10.) VISITATION. New institutions must not expect aid before they have been visited by the Secretary.

4. Applications for Current Aid.

- (1.) Form. Application is to be made by the trustees, in formal meeting, filling out a blank form which the Secretary will furnish on request. Applications made for the first time should be accompanied by the fullest information regarding the history and prospects of the institution.
- (2.) Time. The annual Board meeting for voting on applications is held on the third Tuesday in June. Applications should be in the Secretary's hands four weeks before the meeting. Institutions withholding applications beyond the date of the meeting and giving no satisfactory explanation of the delay, will be regarded as expecting no aid from the Board for the ensuing year. As applications must often be followed by correspondence before they can be acted upon, institutions will do well to send them in at the earliest day convenient.
- (3.) Approval by Presbytery or Synod. Applications of colleges must have the formal approval of their synods endorsed upon the applications; applications of academies, the approval of their presbyteries. Failing this, no aid can be given but upon unanimous vote of the Board, sixteen members being present. Yet as there is often no meeting of the ecclesiastical body held between the making of the application by the trustees and the June Board meeting, unendorsed applications will be voted on at the June meeting; duplicate applications, approved and endorsed, to be sent to the Board before any payment of aid will be made.

The Board assumes that in approving an application the synod or presbytery has satisfied itself by careful investigation, (by committee visitation and scrutiny of the institution if possible,) regarding the institution's *Location*, if it be well chosen; *Financial Administration*, if it be wise and economical; *Scholastic Work*, if it be broad, symmetrical and thorough; and *Spiritual Influence*, if it lead pupils to Christ, form noble manhood and womanhood, and bring young men to the ministry and young women to consecrated usefulness. The Board further assumes that, in approving an application, ministers and ruling elders purpose to follow their affirmative votes with cordial assistance in prayers, kind words and gifts.

5. Application for Property Funds. Applications for Property Funds for aid in paying indebtedness or in the production or increase of property should be made in writing, should state explicitly all facts in the case, should be certified as adopted by a formal vote of the trustees in regularly called meeting, and should have formal approval of synod (for a college) or of presbytery (for an academy).

APPROPRIATIONS FOR CURRENT AID.

- 1. Amount. The Board makes appropriations in deep sympathy with struggling institutions, mindful of exceptional cases, seeking the advantage of the Church's entire educational work, and with such wisdom as may be given to those who, knowing their lack, ask of God. It can give only what the Church contributes. Under no circumstances will its total amount of appropriations exceed its reasonably assured income.
- 2. Announcement. Appropriations voted at the June Board meeting will be at once announced to boards of trustees of institutions, that they may adjust their proposed outlay for the ensuing scholastic year to their probable income.

3. Additional Sources of Income.

- (1.) From Churches. Colleges aided by the Board may solicit and receive from the churches of their respective synods the annual Board of Aid offerings; and such contributions, sent directly to the college, and reported by it to the Board, will be credited to the churches as contributions to the Board. Academies have similar privileges in their respective presbyteries.
- (2.) From Individuals. Colleges aided by the Board may solicit personal gifts in their respective synods, academies in their presbyteries. These, reported to the Board by the institutions, will be credited as gifts to the Board.

4. Conditions of Payment.

- (1.) No Debt Incurred. Institutions aided by the Board may not create debt of any kind without previous concurrence in writing by the Board.
 - (2.) Expenses Within Income. Institutions aided by the

Board must keep current expenses within income, permitting no unsettled claims of teachers or of others.

- (3.) Solicitation of Funds. Institutions aided by the Board must observe carefully the rule on page 17 above.
 - 5. First Half Payment.
- (1.) Time. The first half payment of the appropriation voted will be made, if the Board's treasury permit, in January and February.
- (2.) CONDITION. The "Itemized Schedule," sent out by the Board in due season, must be returned, filled out in form, and approved in session of the Board of Trustees or of the Executive Committee of the institution; and the "Total of contemplated income" must balance the "Total of contemplated outgoes" before the payment will be made.

6. Second Half Payment.

- (1.) Time. It will be made as soon after the receipt of the balance sheet (mentioned below), as the Board's treasury will permit; usually at once, and probably in June.
- (2.) Conditions. The "Balance Sheet" sent out by the Board in due season, must be returned filled out in form, approved at the annual meeting of the board of trustees of the institution; and it must show that, with the exception of such outstanding bills as the Board's final payment will be sufficient to meet, all bills of the year have actually been paid, and accompanied with the trustees' pledge that the remaining bills shall be paid as soon as the expected remittance from the Board shall be received. The Spring Report blanks, sent out by the Board must be returned by the time required, and filled out in form, and such other reports as the Board may require.

APPROPRIATIONS FROM THE PROPERTY FUND.

- 1. Objects. Appropriations from the Property Fund are made only to aid in extinguishing debt on property, in completing enlargement or erection of buildings, and in securing endowment.
- 2. Amount. Only under exceptional circumstances should an institution ask of the Board more than one-fifth the entire

amount needed, in no case more than one-third. But the Board will gladly aid in securing a larger proportion, or the entire amount needed, for any especially deserving institution, should some individual donor propose to bestow it.

3. Conditions of Payment.

- (1.) Completing the Effort. The appropriation will be paid when it secures the complete extinguishment of indebtedness, or makes the final payment on the completed building, or completes the amount of endowment contemplated.
- (2.) Solicitation of Funds. Such solicitation of funds as is discouraged by the rule (see page 17 above), will forfeit the appropriation.
- (3.) Mortgage. Payment of the appropriation will not be made until a mortgage covering the property of the institution, for the total amount of the appropriation and of any preceding appropriation from the Property Fund, shall have been executed and placed in the Board's possession.
- (4.) PROPERTY TITLE. The property to be covered by mortgage to the Board must not be subject (by the terms of the deeds conveying it to the trustees of the institution, or otherwise) to any conditions, reservations or restrictions which would in any way prevent or interfere with the acquiring of a good title to the property by foreclosure of the mortgage to be given to the Board.

4. Necessary Steps.

(1.) Papers Required. The Board must have

A certified copy of the charter or articles of incorporation of the institution.

A certified copy of the by-laws.

A legal description of the property to be covered by the mortgage.

- (2.) Time. As the preparation, execution and approval of the papers requires time, the institution should notify the Board that it will be ready for the payment, and should forward the papers named above, at least three months before the payment is expected to be made.
- (3.) OTHER PAPERS. The mortgage and other required papers will be prepared by the Board and transmitted to the

board of trustees of the institution for execution. Such papers sent by the Board must be executed by special vote of the board of trustees at a meeting regularly called, and a quorum being present; and a certificate to this effect will be required. Mortgages must be recorded.

- (4.) Exactness. Delay will be avoided if trustees of institutions follow explicitly the directions which will accompany the papers prepared and transmitted to them by the Board. The Board will require entire exactness.
- 5. Special Conditions. Such special conditions as the Board may make in each case will be notified to the trustees of the institution, and compliance with them will be required by the Board.

TREASURER'S REPORT.

C. M. Charnley, Treasurer, in account with "The Board of Aid for Colleges and Academies of the Presbyterian Church in the United States of America."

GENERAL FUND ACCOUNT.

STATEMENT OF RESOURCES AND LIABILITIES.
APRIL 1, 1893.

The undersigned, having examined the accounts and vouchers of Charles M. Charnley, Treasurer of the Board of Aid for Colleges and Academies, do hereby report and certify that they find the same correct; and they certify that said Treasurer has exhibited to the undersigned North Chicago City Railway bonds as mentioned in his report, amounting to \$26,000.00, and bonds and mortgages for the sum of \$31,500.00.

H. W. Johnson, Auditing Committee.

^{*} Appropriated, awaiting fulfillment of conditions before payment.

1. From Churches and Sabbath Schools.

Churches named in italics sent offerings directly to institutions aided by the Board. Such gifts, not entering the Board's treasury. cannot enter its Treasurer's Report, but are separately given at page 50.

ACTION OF THE GENERAL ASSEMBLY,

AT WASHINGTON, D. C., 24 MAY, 1893.

The Standing Committee on the Board of Aid for Colleges and Academi s, consisting of

Ministers—Charles A. Dickey, D.D., David R. Frazer, D.D., John Burroughs, D.D., Jos ph B. Little, D.D., Adrian V. S. Wallace, Albert W. Knowlton, Connell Cox, William F. McCauley, Charles Fueller, Samuel R. Keam, John N. McClung.

Elders—John M. Coyner, E. F. Witmer, Percy B. Bromfield, Hamilton D. Bennie, A. J. Aldrich, Spencer P. Barrett, T. S. Snell, J. M. Armstrong, Richard H. Alexander, George H. Patch; presented the following report which was unanimously adopted by the assembly.

Your committee desires, first, to congratulate the General Assembly and this Board upon the completion of the first decade of service.

Ten years ago, with enthusiasm and hope, with a deep conviction of a great need, the General Assembly of 1883, that met in Saratoga, resolved to establish a Board of Aid for Colleges and Academies, and, with the faith of the church pledged to sustain it, its friends undertook the task of making manifest to the church the wisdom of the resolution that undertook this work. Sometimes the enthusiasm that resolved has not seemed to sustain, but the faithful ministers and laymen, to whom the work has been entrusted, have presented to this assembly, and to the church, a record of results and a statement of service that are conclusive proofs of the wisdom that designed this work and of the fidelity that has given the work success.

In 1883-4 the Board was able to assist nine (9) institutions. During the last year it has assisted forty (40); for the ten years it has assisted fifty-six (56). The first year it occupied seven

(7) States and Territories; the last year twenty (20); during the the ten years twenty-four (24). The first year the property of aided institutions amounted to \$337,100; the last year it amounted to \$1,407,933. The Board holds mortgages on the properties of institutions amounting to \$129,624, covering property valued at \$630,121. The first year the institutions aided by the Board had under their instruction 1,001 students; the last year 4,002. During ten years the Board has helped in the instruction of 29,763 students. Of this number 12,050 were church members, 1688 gave evidence of their hopeful conversion, and 1366 declared their intention to preach the Gospel. The first year the Board reported receipts to the amount of \$14.912; the past year receipts are reported to the amount of \$75,134. The t tal receipts of the ten years are reported to the amount of \$533,433. Direct donations, encouraged by the Board, with other gifts and transmissions, added to these actual receipts and disbursements, make the total aid of the Board, during the past year \$138,921, and during the ten years, \$834,-128 The average work of this Board for ten years, appears to be more than \$80,000.

The valuable report presented this year, will reveal to those who will take the trouble to examine its detailed statement, a most important work performed, and most encouraging promises of vastly greater service in the future.

The report of the ten years very properly reminds us of the reasons of the faith of those who urged the establishment of this Board, and who have labored to show their faith by works that give the encouraging results reported. The church which we represent is committed by every tradition, and by a glorious history, to a thorough Christian education. Christian academies and colleges are a significant part of the life of the Presbyterian Church. The college and the church have been closely allied in all our history. The church has sanctified the college, and the college has done great things for the church. We are devoted to education because of the elevation and refinement that it insures, but we especially, as a church, nurture schools of learning because we would qualify with a religious education, men and women who will devote their lives and attainments to

the spread of the Gospel and to the saving of the world through the church.

The influences that tend to divorce education and religion are influences that retard true progress. The hope of the world is in the closer alliance of education and religion. And, as we believe in Presbyterianism as the best expression of revealed Christianity, it is our duty and privilege to plant and nurture Presbyterian academies, colleges and seminaries. Presbyterian education will be the best expression of Presbyterian power and life. Special attention is directed to the valuable suggestions upon these points in the report presented by the Board. Your committee desires to emphasize this proposition. Presbyterian Church should nurture Presbyterian Institutions, and provide a positive, well-defined Christian education, an education rooted and grounded in the Word of God, that, by the provision of such an agency, we may more successfully fulfill our great mission in the world. We note with pleasure the number of institutions aided that are reported as giving Bible instruction to the students under their care. And we are disposed to submit the opinion that the machinery of our church should be used, and the money of the church spent, only in aiding such institutions as are willing to make the Bible a text book, and instruction, on the line of its revealed truth, conspicuously their purpose and effort.

In view of the success of the work of this Board, during the ten years of test, it is hardly necessary that we should repeat arguments that should convince the church and institutions seeking aid, that such a Board, well equipped and furnished, well sustained by the generosity of the church, and by the cordial co-operation of those desiring such help as such a Board may give, is the very best agency for attaining this desirable end, Christian education.

Such a Board is needed to restrain and direct, with wisdom and experience, local and individual efforts. There is sometimes zeal, without knowledge, that might be fostered to success by the advice of such a Board, that otherwise finds only waste and disappointment. Such a Board is needed to discover, and to nurse to prosperity, institutions founded in faith and

wisdom, but crippled, and, sometimes ready to die for lack of timely assistance. The experience of such a Board may by diligent watch, find opportunities that busy Presbyterians are overlooking, and so inspire communities and individuals that new and needed institutions may be established. Such a Board is needed as a medium between needy institutions and the wealth of the church. There is large consecrated wealth waiting for satisfactory channels. It would be to the advantage of institutions seeking aid, as well as to the advantage of generous Christians seeking opportunity to bestow their gifts, to avail themselves of the knowledge, experience and helpfulness of this Board. The temptation is strong to follow fancies in giving, and to follow personal zeal in seeking help. But, with the whole field ever under diligent consideration, such a Board will prove the best agency, both in securing desired help and in discovering the most promising opportunities for such investments of consecrated money. Such a Board will prove its great importance in promoting harmonious co-operation of effort in different Synods and Presbyteries, in preventing a multiplication that will be waste and failure; fewer feeble colleges and more feeding academies would greatly enlarge this work of Christian education.

Such a Board is needed to furnish the information that will secure the wisest and best policy and the most effective service. It is a trust company that the church needs for deposit and that Christian education needs for continual supply.

The constitutional safe-guards of this Board should give confidence. All money given through the Board is sacredly guarded, and well secured by requirements and rules that wisdom and experience have suggested. The rules of the Board, regulating both applications for aid and the disbursement of funds, are such that the church has a confident assurance of a faithful and economical use of its gifts, and institutions desirous of help can be equally confident of an equitable distribution.

The needs of the Board are pressing and increasing. Great opportunities are within reach, great necessities are pleading for regard. The general funds of the Board, out of which cur-

rent help is granted, should be largely increased to prevent the actual suffering of some, largely dependent upon such a supply. Much more is needed to secure to the church valuable properties imperilled, or of institutions crippled by delay, and it is very desirable that large gifts should be bestowed for endowments that some institutions now dependent may become self-sustaining, and the Board be enabled, by such relief, to push new work.

We would urge upon all those who represent institutions, desiring help from the Board, to heartily co-operate with the Board, in its faithful endeavor to bring their needs to the notice of the church. It creates prejudice both against the Board and against institutions to have the same appeals presented by the Board and by agents of the institutions seeking assistance. The church will learn to trust, and will be disposed to sustain, the Board of Aid for Colleges in proportion to the evidence given that the institutions for whom their gifts are asked are themselves willing to trust the Board for aid.

The treasurer's report reveals the following facts:

The total amount received directly and distributed by the Board has been \$75,134, an increase over last year of \$18,662, or 33 per cent. Donations from churches and individuals made directly to institutions, with the knowledge and endorsement of the Board, have amounted to \$63,630, an increase over last year of \$19,216; the total gifts to the work of Christian education being \$138,921, an increase over last year of \$37,975, or 37 per cent.

On the 1st of April the Board had on hand, to the credit of its General fund for immediate use, about \$17,000, and invested to the credit of the Property fund, about \$25,000. Faith in the church is the hope of this Board for the continuance and increase of its great work.

Your committee would call the attention of all institutions aided by the Board to the evident duty of carefulness regarding the incurring of debt. Debts incurred not only cripple the college or academy incurring them, but likewise they seriously embarrass the Board in their work.

In conclusion, your committee would remind the Assembly

that the care of our colleges and academies is no less important than the care of Theological Seminaries. Our seminaries are simply the higher departments of Christian education. The students of our seminaries may find their trend and bias in the college or academy. And it is a matter of vital importance that they learn at the beginning of their course that reverence for the Word of God, and that true relationship of all other learning and the revealed truth of God, that will prepare them for the final instruction that is to qualify them for handling the word and for presenting the only salvation of the Gospel to a perishing world.

In obedience to the instructions of the Assembly the Board carefully considered the offer made at Portland of a site for a college to be known as "The Westminster College of Utah." The judgment of the Board is that the site proposed would not be suitable for such a college, and they respectfully recommend that the proposition of Mr. Arthur Brown be respectfully declined. The Board further expresses judgment that the interests of the church and of Christian education make it very desirable that a Presbyterian college should be established in Utah.

The following vacancies occur by limitations of service:

Ministers-Rev. Samuel J. Niccolls, D.D.,

" David R. Breed, D.D.,

" W. W. Totheroh, D.D., and

" H. D. Jenkins, D.D.

Laymen—W. O. Hughart,
Henry W. Johnson,
Dexter A. Knowlton, and
John C. Grant.

Mr. Cyrus H. McCormick, for personal reasons, has resigned his membership.

Your committee would respectfully recommend the adoption of the following resolutions:

RESOLVED, 1st. That the Board of Aid for Colleges and Academies, and the efficient officers of the Board, be commended for their faithful service during the past year.

Resolved, 2d. That we hereby commend this Board to

the confidence, and to the generous support, of the whole church.

Resolved, 3d. That we congratulate the Board, and the church, together with the noble institutions under the watchfulness of this Board, upon the great advance made during the past ten years in the work of Christian and Presbyterian education.

RESOLVED, 4th. That the representatives of colleges and academies, receiving or seeking aid, be earnestly urged to heartily co-operate with this Board in all their effort to promote the important work entrusted to the Board by the church.

RESOLVED, 5th. That we recommend to the church to raise not less than \$150,000, the current year, for the work of this Board, and to adopt as far as convenient the month of February for taking offerings in churches and Sabbath schools.

RESOLVED, 6th. That Rev. Samuel J. Niccolls, D.D.,

David R. Breed, D.D.,

" W. W. Totheroh, D.D.,

" H. D. Jenkins, D.D.,

Ministers,

and

W. O.Hughart, Henry W. Johnson, Dexter A. Knowlton, John C. Grant,

Laymen,

be appointed members of this Board for a term of three years; and that Henry J. Willing be appointed to fill the unexpired term of Cyrus H. McCormick, resigned.

RESOLVED, 7th. That the action recommended by the Board regarding the offer of land for Westminster College in Utah, be adopted by this Assembly.

All of which is respectfully submitted and unanimously recommended by your committee.

CHARLES A. DICKEY, Chairman.

REPORT OF THE

Special Committee on Systematic Beneficence

APPOINTED BY

THE GENERAL ASSEMBLY

THE PRESBYTERIAN CHURCH

IN THE UNITED STATES OF AMERICA,

1893.

The General Assembly's Special Committee on Systematic Beneficence presents herewith its Fourteenth Annual Report.

Giving account of our stewardship, we offer first of all a record of

THE YEAR'S WORK.

The publication of The Christian Steward has continued without interruption, and with a constantly increasing circulation. Altogether, 290,650 copies have been printed, making an average monthly issue of 24,220 copies.

It is upon our pastors more than any other human instrumentality that the Church must rely in the prosecution of its great benevolent and missionary work. As a means of communication between the Committee and these leaders of Israel, this little sheet is an invaluable help. In addition to these, it has gone monthly into 18,000 other families with its message of Christian liberality, impressing upon conscience and heart the teaching of God's Word on the vital subject of honoring

conscience and heart the teaching of God's Word on the vital subject of honoring Him with our substance.

The hearty endorsement by the last Assembly of this branch of the Committee's work has been followed by the unsolicited and unexpected approval of nearly all of our Synods and of many of our Presbyteries. The Synod of New York, without consultation with your Committee, at its meeting in October last, voted a sum sufficient to supply its ruling elders with the paper for a year. The Presbytery of Oakland has arranged for a special edition of 1,500 copies monthly, in which its own local matters are also brought to the attention of its Church members. A score or more of Churches are also issuing similar special editions with most gratifying results. In not a few instances news has reached us of Churches on the mission-field having become self-supporting under the stimulus of these special editions. these special editions.

During the year we have re-issued one of the Documents of the Committee which was out of print—No. 20, "The Worship of God by Offerings," and sent out free, postage prepaid, to the Churches which have asked for it, 10,000 copies. In the same way we have distributed 25,000 copies of Document No. 31, "The Presbyterian Union of Proportionate Givers," and 8,000 copies of our last Annual

Report.

To Mission-Churches, which would comply with conditions requiring systematic weekly giving (including a contribution to each of the Boards), we have furnished without expense to them, 100,000 printed envelopes for their offerings.

Mr. Thomas Kane, one of the members of this Committee as in years past

has continued his admirable work in the interest of proportionate giving.

The attention of students preparing for the Ministry in our Colleges and Theological Seminaries has been especially called to the subject of Christian Stewardship by means of two prizes which your Committee was able (through the generosity of a friend) to offer for the best essay on that theme. These essays are already in hand—a hasty reading showing that several of them are of unusual merit and permanent value. It is the purpose of your Committee to publish the successful essays for general circulation throughout the Church.

The resumé of the year's work ought not to omit mention of the extensive correspondence carried on by your Committee. Our letter file for the twelve months past contains over 1,200 communications, representing nearly or quite every State and Territory where our Church is at work. Without exception these letters have been answered carefully and promptly, and we can but feel that many Churches have been aided by these written messages to more Scriptural ways of

giving.

The "Union of Proportionate Givers," endorsed so heartily by the Assembly of last year, has reached nearly one thousand members. We are convinced that many times that number are giving to the Lord a sum proportioned to their income, of whom your Committee and the Church at large know nothing. Many of these, as our work becomes better known, will undoubtedly add their names to our growing list, that their example and numbers may have an influence upon others. But the Church at large, we are also sadly convinced, is as a whole far away from any adequate understanding of the teaching of God's word on this subject. reliance is still too largely upon human devices and special appeals to draw money out of unresponsive pockets. There will always be debts upon our Boards and deficiencies in our Church Treasuries, until God's way of giving gets a grip upon the conscience and heart of the people. It has been the contention of your Committee in all of its printed matter and written communications to adopt God's way, and shun "devices" of all sorts, however pious they may seem to be.

NEXT YEAR.

We must content ourselves in view of the space given to the important subject of apportionment, with simply calling attention to the tables ordinarily found in the Committee's Annual Report, showing as they do a very gratifying increase over the preceding year. But, fathers and brethren, we have scarcely begun this great work. We urge most earnestly that every Committee in Synod and Presbytery, that every minister and Session join in consecrated labor, looking for the blessing of the Most High, to make the coming year still more fruitful than the year now ended.

LET EVERY CHURCH SEND AN OFFERING, HOWEVER SMALL, TO EVERY BOARD.

LET EVERY CHRISTIAN GIVE IN HIS CHURCH TO EVERY BOARD. LET EVERY ONE LAY BY HIM IN STORE AS GOD PROSPERS HIM.

As in the past, so in the future, we feel the need of the constant re-iteration of the following

FUNDAMENTAL PRINCIPLES:

I. OUR PROPERTY, AS WELL AS OURSELVES, BELONGS TO GOD.—He has given us whatever we possess. He has the right to take it from us, when and how He will. "The Lord maketh poor, and maketh rich." I Sam. II: 7. silver is mine, and the gold is mine, saith the Lord of hosts." Hag. II: 8.

2. OUR PROPERTY IS TO BE USED FOR GOD'S GLORY.—All of it—that which we spend upon ourselves and our families, as well as that which we give to the Church and its benevolent work. In other words we are but stewards, trustees, of that which the Lord puts into our hands. We are to use the talents with which He has entrusted us for Him. Occupying till He come again, we are at His coming to give account of our stewardship.

In the business-world a peculiar sacredness attaches to trust-funds, and rightly. A man may risk his own money in some speculative enterprise, in which he would not for a moment think of risking the fund for which he is the appointed trustee. He may spend his money freely, perhaps lavishly, while he carefully guards the

trust-fund in his keeping against every unnecessary expense.

The adoption of the principle of Christian Stewardship, so clearly taught in holy writ, makes all we possess sacred to God. It regulates our personal and household expenses, our pleasures, our expenditures in every direction. We allow no charges against the fund which we can not justify when the final accounting is rendered to Him whose trustees we are.

3. USING OUR PROPERTY FOR GOD'S GLORY NECESSITATES THE GIVING OF SUCH PORTION OF IT, AS WE ARE ABLE, TO HIS WORK.—Of course, it is not to be denied that the support of our families, and the education of our children, are a part of His work. But He has a distinctive and special work, as represented by His Church and her great mission to disciple all nations. To this end He sent forth His Son to suffer and die. This was the last command of our risen Savior. "The mission of the Church is missions."

No Christian is blameless, no Christian is true to his trust, who refuses to recognize

No Christian is blameless, no Christian is true to his trust, who refuses to recognize the binding obligation resting upon him to aid, according to his ability, in the divinely appointed work of the Church in bringing this world to the feet of his Savior. It is as though a trustee should refuse to deliver to the legal possessors of his trust-fund the portion of its gains essential to their needs, which they demand and the payment of which the law requires. For the fourth fundamental principle

is that

4. GOD DEMANDS FROM EVERYONE A GIVING GENEROUSLY PROPORTIONED TO INCOME.—"Every man shall give as he is able, according to the blessing of the Lord thy God which He hath given thee." Deut. XVI: 17. "Upon the first day of the week let every one of you lay by him in store as God hath prospered him." I Cor. XVI: 2.

This is the teaching of the Bible from its first to its last page: A definite per

This is the teaching of the Bible from its first to its last page: A definite percentage of every income, large or small, conscientiously and lovingly fixed, to be

paid into the Lord's treasury for His glory and for His work.

Under the old dispensation the proportion required by law was a tenth. Many think the tithe still "holy unto the Lord," (Lev. XXVII: 30), and that withholding it from Him is robbery. Mal. III: 8. Whatever our views on that subject, it can not for a moment be conceived that the Gospel was intended to lower the standard of liberality, or that with a world to win for Christ, we should fall below the Jew who had no missionary work to prosecute. If the Gospel has brought us greater freedom, it also imposes the obligation of greater love and of world-wide duty.

And lastly we should understand that

5. THE SCRIPTURES REPRESENT GIVING AS A PART OF THE ACCEPTABLE WORSHIP OF GOD.—"They shall not appear before the Lord [in their sacred feasts] empty: every man shall give as he is able." "Upon the first day of the week let every one of you lay by him in store." "Thy prayers and thine alms are come up for a memorial before God." Acts X: 4. Worshipful giving should form a part of every Sunday's service.

It is for these principles, each of them thoroughly Scriptural, that your Committee stands. It is these principles, instead of human devices, that we are seeking in your behalf and name to impress upon the Church for adoption, believing that their adoption would not only pour into the treasuries of our Churches and Boards funds ample for all their needs, but would open the windows of heaven upon us in

abundant and fructifying showers of divine grace.

SUGGESTIONS.

- 1. That the table of percentages for the undesignated gifts of the Churches to the Boards, recommended several years ago by the General Assembly, should be considered by a competent committee, with a view to ascertain if any changes should be made in it.
- 2. That Sunday-schools and Young People's Societies be requested to contribute regularly and generously to all of the Boards of the Church.
- 3. That Committees on Systematic Beneficence be directed to bring the suggested apportionment (mentioned further on in this Report) to the attention of their several Presbyteries; and that the Presbyteries be urged to make an earnest effort to raise for the Boards not less than three per cent. of the value of their Church property.

APPORTIONMENT.

One of the recommendations of the Standing Committee on Benevolence adopted by the last General Assembly, approved, "of the suggestions of the Special Committee on Systematic Beneficence, that in a tentative way an apportionment be made, among the Synods and Presbyteries, of the amounts needed by our several Boards during the coming year."

Your Committee was in doubt as to who was to make this tentative apportion-

ment, and accordingly has not given to the subject the attention which its importance demands. We are willing to undertake the labor should the Assembly so direct, but would suggest that it might be better to place the matter in the hands of a Special Committee with instructions to report one year hence. It is a large work, requiring wise and delicate handling, but one which if properly done would undoubtedly result in great gains to the treasuries of our Boards.

As a help to the solution of the problem, and at the same time as a guide to the study of Presbyteries regarding their own responsibilities as compared with other

Presbyteries, we offer the subjoined table.

EXPLANATION OF TABLE.

The first column of figures gives the value of Church property in each Presbytery, according to the census of 1890. (See Minutes of General Assembly, 1892, pp. 751–754). The financial ability of the Presbyteries may be gauged by the two succeeding columns in which appear "congregational expenses," and their ratio to the value of Church property. The fourth column contains the amounts contributed to the Board—the figures being taken from the Reports of the Boards, and not from the Minutes of the General Assembly. To help the Boards, our gifts must go to the minutes of the contribute of the statistical tables of the them instead of outside objects, which are embraced in the statistical tables of the Minutes. In the fifth column will be found the ratio of these gifts to the Boards to

the value of Church property.

Considering the fluctuations in legacies and other extraordinary sources of income, it would not be safe to reckon on less than \$2,000,000 for the work of the Boards as the gift to them by our Churches. This is about three per cent. of the value of our Church property. On this basis the amount to be raised by each Presbytery is given in the sixth column. It is this amount which we would suggest that the Presbyteries regard as their apportionment. In several instances, (as for example in the Presbytery of East Florida, where owing to outside assistance, Churches far beyond the ability of the people, have been built,) such an apportionment would prove burdensome. But in the large majority of cases these figures could be easily reached. This will be seen by the last column which gives the number of cents to be given each week by each member of the Church in order to raise for our Boards three per cent. of the value of our Church property. in six Presbyteries, if each member of the Church would give weekly one cent, or fraction thereof, the suggested apportionment would be raised. In thirteen Presbyteries the weekly gifts would range between one and two cents; in thirty-four, between two and three cents; in twenty-eight, between three and four cents; in thirty-nine, between four and five cents; in sixteen, between five and six cents; in ten, between six and seven cents; in seven, between seven and eight cents; in five, between eight and nine cents; in three, between nine and ten cents; and only in

four, over ten cents.

We doubt if there is a single Presbytery in which our members could not give, on the average, ten cents a week to the great Benevolent and Missionary work of

our Boards.

The table closes with a list of thirty-three Presbyteries which have contributed I he table closes with a list of thirty-three Presbyteries which have contributed to the Boards three per cent. or more, of the value of their Church property. This list will bear study, as showing that a "tentative apportionment," like the one suggested, does not press heavily upon any one part of the Church as compared with a different portion. These Presbyteries are scattered throughout the Church in eleven different Synods, in city and country, in agricultural districts and mining regions, in States and Territories, in East and West. Choctaw Presbytery, Indian Territory, heads the list, followed closely by two others of its four Presbyteries. Mankato, Minnesota comes second, with Butler Pennsylvania, third, and teries. Mankato, Minnesota, comes second, with Butler, Pennsylvania, third, and Bloomington, Illinois, a close fourth.

We offer the tables as a suggestive study towards the solution of a problem, which must attract more and more the attention of those who would see the whole

Church at work, and each part of it gladly doing its just and fair share.

TWELFTH ANNUAL REPORT

OF THE

GENERAL ASSEMBLY'S

Permanent Committee on Temperance,

FOR THE YEAR ENDING MAY 1st, 1893.

Presented to the General Assembly at Washington, D. C.

In presenting to the General Assembly its Twelfth Annual Report the Permanent Committee on Temperance would with sadness record the afflictive dispensation of Divine Providence which at the beginning of the last year deprived it of the services of its Chairman. Rev. I. N. Hays, D. D., having been stricken with paralysis, was totally disabled from active work for the Master whose service he loved so well. After some months' delay the Committee reluctantly acquiesced in his request and relieved him of the burdens involved in his connection with it. This esteemed brother has been a member of our Committee for seven years, and, since the lamented death of Dr. Elliott E. Swift, has been its Chairman. By his zeal and energy, by his prudence in counsel and by the influence of his tongue and pen he has done much for the furtherance of the work entrusted to the Permanent Committee. While the Committee has in recent years been deprived, in the providence of God, of several of its most valued members, we praise Him in the confidence that though the workers fall the work shall go on.

Rev. John J. Beacom, D. D., was chosen Chairman in the room of Rev. Dr. Hays. The work committed to us by the Church has been prosecuted along the same lines as heretofore and with no

relaxation of effort.

THE GENERAL WORK OF THE COMMITTEE.

The charge given us "to seek to unite the Synods and churches in suitable measures for promoting the temperance

reform," we have obeyed, to some extent, by personal address, but mainly by a correspondence extending into the Synods and Presbyteries generally throughout the country. Some communication too has been had with missionaries abroad, and with those laboring among our exceptional populations in the Indian Territory, in Alaska and in the Southern States, also with chaplains in the United States Army and Navy.

Correspondence has also been had with Temperance Committees and judicatories of sister Churches, notably the Methodist Episcopal, United Presbyterian and Baptist, and the Presbyterian

Church in Canada.

Efforts in the interest of better Temperance legislation have been organized and promoted. Blank forms of petition have been prepared and widely distributed. By personal interviews at the seat of Government or elsewhere with those in authority, and by soliciting others to wield and concentrate influence towards the same end we have sought as best we could to accomplish our mission in this regard.

The recently organized and very promising work of our Presbyterian women in this department has of course had the carnest

attention and co-operation of the Permanent Committee.

In our efforts to forward the work we have availed ourselves to some extent of the use of our church periodicals, the editors very courteously extending to us the privilege of their colums. The same tracts which we have heretofore issued have been kept in circulation and somewhat more extensively than in previous years. One additional document, an Address on Local Option by Rev. W. F. Crafts, has been added to our list and very extensively circulated in Pennsylvania. Another, an Address on Prohibition, by Rev. J. T. Killen, whose publication has been requested by the Synod of N. Dakota, is now in the hands of the printer.

Requests have come from various quarters for literature that shall be better suited to younger readers, and preparations are in

progress to supply the demand.

SPECIAL WORK ASSIGNED BY THE GENERAL ASSEMBLY.

Among the acts of the last Assembly we find the following:

Resolved, That * * * In order that the Church communicants and others who might be led to be interested in Temperance work may thoroughly understand the position of the Church, now and in years past, the Permanent Committee be requested to have their tract, "A Summary of the Deliverances of the Assembly on Temperance," sent to all pastors throughout the Church with a request that the tract be distributed among the people.

This task was undertaken by the committee with pleasure, but owing to lack of funds is still very far from completion. To have finished this work would have involved an expense considerably in excess of the entire sum contributed to our treasury

during the year, and it was deemed imprudent to incur a debt. In response to our published invitation, orders for the tract have reached us beyond our present ability to fill. The same statement may be made regarding other Temperance literature published by the Committee. The recommendation of the General Assembly that our documents should be sent abroad gratuitously to all applicants giving assurance of their judicious distribution has been complied with to the full extent of our ability. preted the reiterated directions of the General Assembly regarding the dissemination of Temperance literature as implying a deep coviction of the importance of the press as an engine of war in this conflict with the powers of darkness. The publications of the Presbyterian Board, of the publishing department of the Women's Christian Temperance Union, of the National Temperance Society, and other agencies are varied and most valuable, and it is our endeavor to promote their circulation by directing purchasers to these sources of supply. But this committee is in hearty accord with the apparent conviction of the General Assembly that if purchasers do not come fast enough the printed truth must nevertheless be scattered abroad. The exigency is pressing. The King's business requires haste. The battle cannot wait for selfequipped volunteers. There are thousands ready to bear arms in the good cause. Let them be freely furnished from the public arsenal. And should not the stores of the depleted arsenal be promptly replenished?

In the minutes of the last General Assembly we also find the

following:

Resolved, * * * That the whole power of the Presbyterian Church, in harmony with the efforts of other evangelical communions, shall be directed to resist the passage of any law legalizing the liquor traffic in Alaska, and that the Permanent Committee on Temperance use all lawful and laudable methods and means in resisting the passage of such bill in Congress, and to this end that the action of this Assembly be communicated by telegraph to the committees in the National Congress having this matter in charge.

By correspondence with Presbyteries and Synods and by appeals through the press your Committee has sought to direct attention and stimulate effort upon this matter. We have also addressed the U. S. Commissioner of education for Alaska and members of the U. S. Senate regarding the proposed action. It is with gratification that we report that, in deference probably to the numerous protests which have reached the Senate, further efforts towards the repeal of the Alaska prohibitory law seem to have been abandoned.

The fact, however, has been developed that while Alaska is nominally under prohibition, the governmental regulations are so inadequate in their provisions or so defective in their execution that the country really lies helpless in the grasp of the liquor traffic and its unhappy natives are being rapidly devoured by that

insatiate monster. It is no doubt true, as claimed, that in a region so remote and with so extensive a coast line our government finds difficulty in effectually excluding the rum sellers. But we have not hesitated to join issue with a mighty foreign power over the imperilled seal in Alaska's waters, and no doubt effectual measures have been taken for their protection. Are the souls on Alaska's shores less precious? Did some foreign power once a year descend upon those shores, burn an Indian village and shoot down its defenceless inhabitants, the injury were but slight compared to those inflicted by the invasion of the rum seller. Shall not Christian citizens importune our government for the adoption of more effective measures for the protection of our nation's wards?

Regarding the Sabbath and Temperance at the Fair: This Committee has earnestly labored for the prevention of national Sabbath breaking and national rum selling at the Columbian Exhibition, two objects in which the General Assembly has manifested very deep interest. By collecting and forwarding to Washington large numbers of petitions, by correspondence with chairmen of Presbyterial Committees and with pastors and others in the Church, and with members of Congress, and by personal visit of our Corresponding Secretary to Chicago for conference with leading Christian ministers and laymen there we have endeavored to further the objects sought by the General Assembly. For the Congressional action requiring that the National Exposition shall be closed on the Lord's day, praise should be rendered to God, and it is befitting that those legislators who despite adverse influences voted for this righteous measure should have our But we cannot contemplate except with feelings of shame the proposed spectacle to be placed before all the world of a vast national grog shop and a vast national exhibition of the trampling down of law. Shall not Christian Americans still pray and labor that such national sin and disgrace be averted? And shall not the Presbyterian Church, through the General Assembly, record before all men her solemn protest against this iniquity?

THE NARRATIVES.

Some of the material necessary to a Temperance narrative is hard to reach. The enemy takes pains to keep it out of reach. Many times has our National Government been asked to appoint "an impartial commission of inquiry concerning the liquor traffic," which might furnish official and exact information regarding the operations and results of the trade. The bill has several times passed the Senate, but the liquor power rallying its forces has always defeated it in the lower house. "They love darkness rather than light because their deeds are evil." Too sad for tongue or pen to relate or heart to bear would be the narrative whose incidents

must be collected from the records of the police courts and the jails, of workhouses, almshouses and the morgue. The morning papers must contribute their daily recitals of midnight orgies and brawls, of wife murders and child murders, of parricide, matricide, and suicide. Such narrative must tell of squandered fortunes, blasted hopes, ruined reputation, darkened homes, shattered health, bestialized soul and the drunkard's grave. But to complete such a narrative, even as regards the present life, would demand more than finite human knowledge.

Ten thousand homes have their "skeleton in the closet." Ten thousand hearts pine over wounds inflicted by this dire foe which they exhibit to no human eye. "The heart knoweth its own bitterness, and a stranger intermeddleth not therewith." We cite a

painfully suggestive incident:

"A young man was recently found near a large city, drowned. On a paper in his vest pocket was written: 'A wasted life. Do not ask anything about me; drink was the cause. Let me die; let me rot.'

"Within a week the coroner of that city received over two hundred letters from fathers and mothers all over the land asking for

a description of that young man."

A complete temperance narrative should tell how the rum traffic, which is responsible for all this ruin and wretchedness, has by mighty combination of its forces prepared to defend itself against the righteous indignation of outraged humanity and the infliction of the just penalty of its crimes. It should relate how by its lucrative patronage it subsidizes and quiets the press; how it fills with its minions municipal councils and State legislatures; how it often corrupts the administration of justice and exercises an influence all too potent in the halls of national legislation. As to the character of this traffic, the testimony of the various departments of the Church of Christ is in perfect accord with our own, which declares it to be "the principal cause of drunkenness, and its consequent pauperism, crime, taxation, lamentation, war and ruin to the bodies and souls of men, with which the country has so long been afflicted."

As to the efforts being made to combat the liquor power and the terrible drink habit by the Churches—our own and others—and as to the apparent progress of the work, we gather information from the narratives which have reached us. Though very many Presbyteries failed to report, or reported too late, we are gratified to find that the material at our disposal includes information from so large a proportion of the whole Church, there being but two Synods out of which have come no reports of the

work.

We have sent out circulars designed to reach every Session in the entire body. These circulars contain questions the answers to which we endeavor to summarize. First, as to the growth or decline of interest and activity in Temperance work in the Church and community—a large majority of answers indicate that there seems to be some progress. Evidently, however, the advance has not been very marked, for not a few seem to be uncertain whether the tide is ebbing or flowing. Some suggest the political excitements of the year as having had an unfavorable influence on this work.

The next inquiry, relating to the prevalence of Temperance sentiment and of the practice of total abstinence among Church members, elicits a favorable and cheering reply from almost every quarter. Indeed, quite a number of Presbyteries represent the practice of total abstinence as almost absolutely universal. There are exceptions, however. One Presbytery "fears the drink habit is growing even among communicants." And from other quarters unofficial reports reach us through our correspondence which bring painfully convincing proof that the work of Temperance reform is yet incomplete even as regards the personal habits of

many professed followers of Christ.

The next question is, "Has the Church in your vicinity taken up Temperance work, or is this department of the Master's service mainly left to other agencies?" The answers to this are almost perfectly uniform - "Mainly left to other agencies." One Presbytery reports nearly all its Churches as having Committees of the Sessions or of women appointed by Session to look after the matter. Perhaps a score of others report each a few churches as having such Committees of Session or of the Young People's Society of Christian Endeavor, but the vast majority have no such equipment for work. Nearly all report Temperance sermons occasionally, and some Sunday School instruction. Some mention efforts to drive out the saloon, and some others personal effort for the reformation of the drunkard or for his recovery by the gold cure. A small proportion of all have held special temperance meetings, distributed literature, organized bands and circulated the pledge as a preventive measure among the youth, of which things this is the sum: Against the most cunningly devised engine of Satan; against the most thoroughly organized arm of his service; against his most determined and persistent assault all along the line, the Church is doing little more than firing a random shot now and again. Beyond an occasional sermon or Sunday School lesson this matter of greatest moment and most imminent peril to religion receives no attention.

Surely if Christians realized how many souls are being entrapped, how many hearts are being crushed through intemperance, they must be constrained by the love of Christ to give more

earnest effort to this cause.

We are well aware that temperance is not Christ, but we know

that intemperance effectually bars Christ out of the heart. Said Albert Barnes: "Let it be sounded throughout the land that the sound conversion to God of the man who uses intoxicating drink is well nigh hopeless."

To thousands of dead and entombed souls intemperance is the great stone closing the mouth of their sepulcher. Only Christ's all-animating voice can rouse the dead soul, but to his people

his command is--"Roll ye away the stone."

Regarding Temperance instruction in the public schools the Presbyterial narratives indicate that while most States now have laws requiring such teaching, Christians seem not yet to have realized that laws cannot be depended upon to execute themselves. If the Christian people at whose solicitation those laws were enacted manifest no solicitude regarding their observance by school boards and teachers, the happy results which were placed within our reach by such legislation can never be realized.

"Opportunity is the command of God." Fifteen million young Americans are in the plastic hands of the teacher to-day. Are we too busy to see to it that the proper molding influence be exerted? Swiftly they pass beyond our reach. "And as thy servant was busy here and there he was gone. Then shall thy life

be for his life."

To the inquiry addressed to the Sessions, as to the observance by teachers of Temperance instruction laws, many reply, "Don't know;" and two or three suggest that it is not the province of the Session to know about such matters! We are sadly familiar with the heartless words of Cain—"Am I my brother's keeper?" But it is a painful suprise to hear those whom the Holy Ghost hath made overseers of the Lord's flock ask—"Are we keepers of the lambs?"

The Presbyterial narratives also bring us intelligence concerning the working of State prohibitory laws, of local option and license laws, and of the effects of each respectively in the reduction of drunkenness and consequent crimes. Reports from Kansas, Iowa and North and South Dakota are strongly favorable to prohibitory laws. It is true that complaints come from these States that in their largest cities corrupt municipal officers are elected who, regardless of their oath of office, refuse to enforce the law. "But," says a Kansas Presbytery, "whatever failure there may be, prohibition remains as the most effective remedy for the saloon nuisance. There is but one sentiment as to the effect of prohibition, and that is, that it is always and everywhere wholesome. The traffic is under the ban of law. The open saloon has disappeared." And substantially so say they all.

Determined efforts have been made in Iowa for the repeal of the prohibitory law, and in North Dakota and Kansas for re-submission of the prohibitory clause of their constitution. Our people in those States rejoice that for the present these efforts have failed. Were any argument lacking to demonstrate the value of prohibition as a Temperance measure, that argument is furnished by the enemy in their determined and persistent assaults upon it.

Regarding local option there is diversity of opinion as to its value, none regarding it as the best and ultimate solution of this difficult problem, but the greater part favoring it as a stepping stone toward general prohibition. In Pennsylvania the reasonable demand of the Temperance people that each county should be permitted, if a majority should so elect, to exclude the traffic from its bounds, has been summarily refused by the Legislature. New Jersey, through nearly every one of its Presbyterial reports, cries out against the odious and intolerable tyranny of gamblers and rumsellers. In that State and in Ohio and Indiana there has been a recent movement started towards an alliance of Christian Temperance voters of various political parties with the object of securing local option or some other form of legislation better than that which now prevails for the abatement of the evils of intemperance. A New Jersey Presbytery declares that "it is simply notorious that justice cannot be obtained against rumsellers in large part.."

Among all the reports of Presbyteries and of church Sessions, as quoted by the Presbyteries, the license system has no advocate or apologist. A single church in Illinois tells of a reduction in the number of saloons by the \$1,000 license, but adds that "the volume of sales has not been diminished." One Pennsylvania Presbytery says, "High license is an utter failure." Another—"It only gives respectability to the traffic." And another—"High license fails to restrict the traffic or to reduce intemperance." A Presbytery in Montana observes, "Our license laws of course protect the liquor business to its entire satisfaction, neither restricting nor reducing intemperance or crime, but increasing both to alarming proportions, while prostitution and gambling, natural allies of the saloon, swell the tide of corruption, sweeping away with awful rapidity not only men and women, but boys and girls

as well."

The high license scheme, when first projected, was doubtless regarded with interest by many friends of temperance as offering what might prove to be a practicable solution of this difficult problem. It has been weighed in the balances and found wanting. The proofs of its utter futility are ample. The liquor traffic is essentially a freebooter and cannot be regulated into a law-abiding trade. It is a man-eating tiger, and no process of taming will change its nature. All systems which merely propose ro regulate must fail. But more than this, the license system is not only futile but immoral in character and mischievous in its tendencies, obliterating moral distinctions and debauching the public conscience in the citizen and in all departments of the government.

The logical and legitimate outcome of this compromise of government with a powerful robber now becomes apparent in the demand made for similar concession to other crimes and vices. The drunkard-making trade having been licensed, gambling and prostitution now wait their turn; and how can their clamor for recognition and license be consistently disregarded? In fact, their demand has in various quarters been at least informally conceded. Four thousand citizens of Omaha, Neb., have recently declared over their signatures, "Prostitution is recognized in our city and virtually licensed." Also, that "gambling is recognized as a legitimate business upon payment of a monthly fine into the city treasury." Further comment on the tendency of the license system is needless. High license was put forward when the great temperance host was about to make an advance all along the line in Pennsylvania, Nebraska, Texas and other States. The ruse was effective. Thousands, doubting the practability of prohibition, turned aside to the high license standard. The forces were divided and the bat-

Next time the cunning enemy, fertile in resources, will have some other specious project to use as a "diversion." Let us beware. Probably the next project to turn away attention and effort from prohibition—the bitter end against which the enemy struggle—will be "public conduct" of the business. But the Gothenburg system, of which this is the counterpart, has not proven efficacious as a Temperance measure, since Sweden consumes more spirits per capita than any other country: and that this system is no less immoral than license must be patent to all.

The Church is not a political organization, but she owes it to God and humanity to give unequivocal utterance on such moral questions. And though a question in morals should, through the action of political parties, become a political question also, the Church is not on that account to be precluded from dealing with it. The en-

not on that account to be precluded from dealing with it. The endorsement of a civil government or of a political party must not be permitted to exempt immorality from the rebuke of the Church; and that which would be clearly wrong if done by the individual does not become right when many thousands join in its performance.

The Christian should recognize his paramount allegiance to the Kingdom of God. As a citizen of the State, in the exercise of the right of suffrage, he should "call no man master on earth." He should repudiate the claim of any man or of any organization, political or ecclesiastical, that should presume to dictate to him, but he should ever remember that at the polls as elsewhere, Christ is his liege Lord to whose will and to the interests of whose cause he is to have first regard, and that to his scrutinizing eye no ballot is secret.

Regarding total abstinence by the individual and the suppression of the traffic by the State, the General Assembly has given

reiterated and unambiguous utterance, and the Presbyterial reports indicate no dissent therefrom. Let us "now, therefore,

perform the doing of it."

Though the circular issued by the Permanent Committee did not repeat the inquiry of last year regarding communion wine, some Presbyteries offer the information that a large majority of their churches have, in the celebration of the Lord's Supper, discarded the use of the decoction of alcohol and drugs which so often constitutes the "wine of commerce," substituting the unfermented "fruit of the vine."

By the Synod of New Jersey, at its last meeting, it was

Resolved, That we call the attention of all Church Sessions that use the ordinary wine of commence to the advisability of substituting therefor the unfermented juice of the grape.

The inquiry contained in last year's circular regarding contributions to our treasury has also been omitted. We have, however, intimated our need of additional funds, and in a circular to the Chairman of the Presbyterial Standing Committee on Temper-

ance we have spoken of the matter as follows:

"This work requires money as well as labor. Our committee has been again and again commended to the liberality of the churches, but not being placed on the Schedule of Annual Contributions nor assigned a column in the statistical tables, it is very generally overlooked. Without doubt our Church's interest in this cause is deepening year by year, and much money is given to further Temperance Reform, but most of her contributions are being absorbed by undenominational agencies. However worthy these outside organizations may be, is it the part of wise Christian people or of loyal Presbyterians to leave the appointed agency of their own Church without the necessary equipment for effective work?

"No large amount of money is at present required. An average contribution of even *one dollar* per church would amply supply our need. And such general distribution of the work of supporting this agency we should greatly prize because of its reflex influence on the contributing churches directing attention

and interest to the cause."

To the efforts of the brethren of the Presbyterial Committees is no doubt due the very considerable increase in the number of contributing churches, and in the aggregate amount received by our treasury. In prosecuting this work, which is not always and in every regard cheering, the hearty co-operation of our brethren and the kind words accompanying these reports are gratefully appreciated. We desire to return to these brethren, and to their Presbyteries, and also to communicate to the General Assembly regarding this whole perplexing subject "the comfort wherewith

we ourselves are comforted." The cause of temperance is the cause of Christ and humanity. "Are the prospects bright?" Yes, we reply, as bright as the promise of God.

"Carcless seems the great Avenger; history's pages but record One death grapple in the darkness 'twixt old systems and the Word; Truth forever on the scaffold, wrong forever on the throne Yet that scaffold sways the future, and behind the dim unknown Standeth God within the shadow, keeping watch above his own."

It should be sufficient antidote to despondency that God reigns. But we are not left without signs of promise. There is much in these narratives to cheer the hopes of God's people.

Our own and other branches of Christ's Church generally unite in branding the traffic in intoxicating drink as a sin and crime which must not be tolerated in the communion of the Church and with which civil government should make no compromise.

The practice of total abstinence is becoming more and more

general among church members.

By State action the liquor traffic has been put under ban of the law in seven States of the Union. In Massachusetts progress has been made under local option in combatting the foe. In various other Northern States, counties, towns and cities have prohibition, and in fifteen Southern States where local option laws exist the saloon is prohibited throughout sixty per cent. of their area.

The friends of Temperance in Canada have secured the appointment by their government of a commission of inquiry regarding the traffic. In Great Britain the dominant party have espoused the cause of Temperance, favoring the "direct popular veto;" and even on the Continent of Europe attention is being awakened both on the part of governments and people to the

fearful prevalence and imminent perils of intemperance.

There is encouragement in the clearer utterances of Science; in the attitude of the great railway companies towards the drink habit in employes, and in the attitude towards Temperance Reform of the foremost leaders of the great labor organizations. The Knights of Labor refuse membership to all persons engaged in any way in the saloon business, and forbid any member on pain of suspension or expulsion to introduce intoxicating drinks at any meeting or social gathering under the auspices of the Order.

Let no heart faint because of hope long deferred, "For surely

there is an end, and thine expectations shall not be cut off."

In fulfillment of the duty laid upon this Committee of "maturing and reporting action on the subject to the General Assembly," we desire to cite the attention of your reverend body to

A WRONG WHICH SHOULD BE RIGHTED.

It has come to our knowledge that in the New Hebrides and other islands in the South Pacific an extensive trade in strong

drink and fire arms is being carried on, in which traffic America has no inconsiderable share. This traffic is producing the most disastrous results among those barbarous tribes, frustrating all efforts for their evangelization and civilization, greatly increasing the prevalence of revolting crimes and vices, facilitating kidnapping and the slave trade, and in fact rapidly hastening the extinction of those unhappy races. Not Christianity alone, but the recognized principles of humanity demand that this cruel wrong, inflicted on these people by civilized nations, be quickly righted by the suppression of this traffic. Should not therefore the Presbyterian Church, through her General Assembly, pray our National Government to enter into such international regulations with other leading powers as shall seem best fitted to promote this result.

We would also invoke the earnest attention of the General Assembly to the character and influence of the institution known as

THE ARMY CANTEEN,

in which commissioned officers of the army of the United States and enlisted and uniformed soldiers are detailed as saloon keepers and bartenders to dispense intoxicating drinks in regular army posts. Only beer and light wines are to be sold, and it has been claimed that our soldiers may thus be kept away from the low saloons. The testimony we have been able to collect by correspondence and otherwise shows that no beneficial result has followed, but that the canteen has been fraught with evil consequences. Maj. General Howard in his annual report urges its abolishment, and the Paymaster General calls the attention of the War Department to the fact that it is leading the men to squander their pay. It is proving especially disastrous in its effects on Colored and Indian soldiers. We are also advised by a chaplain in the United States navy that though not sanctioned by Congressional action or naval regulation, a system has been gradually introduced under which traders are permitted to sell beer to the men at navy yards and on board ships of war, and that the influence on the men is most deleterious.

Doubtless it was with no such purpose that the canteen and its naval counterpart were introduced, but the fact is that by them our government is seducing into habits of intemperance the young men whom it enlists in its service, and the Departments of War and of the Navy respectively should be memorialized to put a stop to the evil.

The time of service of the following members of the Committee expires at this time, and we respectfully recommend their

Ministers A. E. Linn and Jos. B. Turner; Elders C. L. Rose and W. R. Zeigler.

We also recommend the election of Rev. W. F. Crafts to fill the vacancy caused by the resignation of Rev. I. N. Hays, D. D.

Herewith is presented the Annual Statement of our Treasurer. We also be speak the attention of the Assembly to the appended report of the Executive Committee of the Presbyterian Women's Temperance Association.

All of which is respectfully submitted.

By order of the Permanent Committee,

JNO. J. BEACOM, Chairman.

JNO. F. HILL, Corresponding Secretary.

James Allison, Treasurer, in account with the General Assembly's Permanent Committee on Temperance.

APPENDIX.

REPORT OF CORRESPONDING SECRETARY OF PRESBYTERIAN WOMAN'S TEMPERANCE ASSOCIATION FROM MAY, 1892, UNTIL MAY, 1893.

The General Executive Committee of the Presbyterian Woman's Temperance Association has held regular business meetings at 1334 Chestnut street on the last Wednesday in each month, except

during July and August, 1892.

A public meeting has been held after each business meeting, at which times we have been addressed by various ministers who have shown deep interest in our work; we have been strengthened by these addresses and helped on our way, and we desire to return our thanks to all who have encouraged us and aided us in any way.

In addition to those Presbyteries reported at our last annual meeting, we have heard through the stated clerks of the following Presbyteries that committees have been appointed in response to

our petitions, viz.:

Zanesville, Huron, Steubenville, Athens and Portsmouth, Ohio; Osborno, Kansas; Fort Dodge and Iowa, Iowa; Niobrara, Nebraska; Monmouth, West Jersey and Jersey City, New Jersey; White River, Arkansas; New Albany, Crawfordsville and Indianapolis, Indiana; McClelland, Atlantic; Pittsburgh and Carlisle, Pennsylvania; Bloomington, Illinois; Olympia, Washington; Buffalo, New York; Transylvania, Kentucky; Union, Tennessee; and Choctaw, Indian Territory. The Presbyteries of Chippewa, Wisconsin and Alaska have reported favorably, but no committees have been appointed.

The following Synods have appointed committees to co-operate with our Association: Kentucky, Pennsylvania, Baltimore, Colorado, Wisconsin and Michigan; and favorable reports have been received from the Synods of New York, Arizona and Atlan-

tic, but committees not yet appointed.

Many of the Presbyterial Committees are doing very efficient work, organizing the various churches within their bounds, distributing literature and circulating the pledge in the Sabbath Schools. A number of our Philadelphia churches are actively engaged in the work; the Walnut Street Church has a committee of over fifty members, having a President, Vice Presidents and chairmen of various committees. It has distributed thousands of pages of temperance literature, given out hundreds of pledges; has presented the Christian Endeavor Society with a Temperance Library of sixty-nine volumes, at a cost of eighty dollars, also

placed Temperance books in the Sabbath School. The Tenth Presbyterian Church has adopted the Temperance work. Our Recording Secretary reports having written to the Home Missionary Societies, sending cards, etc., but has received only one response. The Corresponding Secretary of the Committee of the Iowa Presbytery reports having written to every pastor in the Presbytery, sending our cards, church constitutions and petitions, besides a circular letter of her own, but has received but two reports. In Mediapolis, Iowa, the women are organized and at work according to the plan of our Association. We feel sure that other committees are doing good work, and we regret that no others have sent in reports.

Your Corresponding Secretary regrets not being able to report all the literature distributed by our Committee, but has not received full reports. 1,006 pages have been distributed between the Ridley Park and Glen Olden Churches, and 600 pages in the

Olivet Church.

We desire to thank the Permanent Committee on Temperance of the General Assembly for their generous supplies of literature

which they have so kindly sent us.

Your Corresponding Secretary regrets not being able to do more, but hopes that what has been done will be blessed. Have written 106 persoal letters to pastors and others, and 35 postal cards; sent out 25 packages of literature, aggregating about 320 each, of our cards, church constitutions and sessional petitions, besides a large number of printed addresses, deliverances of General Assembly, pledges, etc.

Have sent the necessary papers and instructions to 140 members of various Presbyterial Committees and to 30 members of

Synodical Committees.

We feel that our committee has done good work during the

year that is past which will bring forth fruit in due time.

At the annual meeting held Wednesday, April 26th, the following resolution was adopted:

Realizing that the humble contributions that have been forwarded to the Permanent Committee through the efforts of the P. W. T. A. are welcome, but inadequate to the needs of the work, we hereby resolve to make this an especial line of work for the coming year, and urge the churches to contribute at least once during the year, through their Sessions, the same to be sent directly to Rev. James Allison, D. D., Treasurer of the Permanent Committee.

Let us continue to work while it is day; the night cometh in which we can do no work.

The work is ours, results belong to God.

Respectfully submitted.

S. S. Sterrett,

Corresponding Secretary.

PHILADELPHIA, April 26, 1893.

SUMMARY OF THE ACTION OF THE GENERAL ASSEMBLY.

Held in Washington, D. C., June I, 1893.

Resolved, 1. That this Assembly expresses its deep sympathy with Rev. I. N. Hays, D. D., the faithful Chairman of the Permanent Committee, in his severe affliction, and places on record its high appreciation of the service he has rendered to the cause of temperance.

Resolved, 2. That in view of the countless evils resulting from the traffic in and use of intoxicating liquors, we urge upon all our church members the duty of abstaining from that which causes so many to stumble, and also that they use all their influence, personal, social and political, for the entire suppression of such traffic and use.

Resolved, 3. That since no restrictive laws will be of any avail, unless upheld and enforced by sound public sentiment, we urge our people to use every lawful method, such as securing temperance instruction in the public schools, temperance lessons in the Sabbath schools, family instruction as well as public preaching, to create and sustain a healthful public sentiment adverse to a traffic so ruinous in its effects on the individual, on the family, on the State, and on the Church of God.

Resolved, 4. That we recognize the value and efficiency of the work of our Presbyterian Woman's Temperance Association, and other societies of Christian women, in promoting the cause of temperance and laboring for the suppression of an evil from which they, and innocent children, are the chief sufferers.

Resolved, 5. That in view of statements, well authenticated, of the fatal effects of the introduction of intoxicating liquors by American traders among the natives of New Hebrides, Africa, the territory of Alaska, we earnestly petition our national government to enter into such international regulations with other leading nations as shall secure the entire suppression of this traffic.

Resolved, 6. That the third Sabbath of September, or if more convenient, some proximate Sabbath, be recommended to our churches and people as a day to be observed as a day of prayer for the success of the cause of temperance, and that our churches, ministers and Sabbath Schools be requested to observe this day by such services as shall be best fitted to rouse an interest in the subject, and secure sound Biblical instruction thereon. It is also recommended that on such day a collection be taken up for defraying the necessary expenses of the Permanent Committee on Temperance.

5. Church Erection.

President—Rev. Samuel D. Alexander, D.D., New York, N. Y. Corresponding Secretary—Rev. Erskine N. White, D.D. Recording Secretary—Rev. David R. Frazer, D.D. Treasurer-Mr. Adam Campbell.
